Employment

Internship and Career Services (ICS)
www.butler.edu/career

- **Interested in doing a summer internship?** The time to start planning is now. Internships help you gain experience and skills you need to make your resume stand out to employers. Summer internships allow time to focus on your job and make networking connections that will last into your professional career.
- **Need a summer job?** Summer is the perfect time to experience Indianapolis, gain professional experience and earn money all at the same time. ICS can give you the necessary tools you need to succeed.

• Apply to the Summer Brain Gain Program.

Butler has the goal of not only attracting great students from all over the country to earn their education in Indiana, but to entice them to stay here and live out their professional dreams. The Brain Gain program is designed to showcase Indianapolis and what it has to offer to students as they are completing summer internship and experiential education experiences while offering subsidized on-campus housing.

Info sessions:

**Dec. 6, 2011; Jan. 24,
Feb. 8 and March 6, 2012**

The ICS office is located in Atherton Union, Room 315. Visit www.butler.edu/career or make an appointment with a career advisor in the ICS office. The advisors can be reached at (317) 940-9383 or via email at career@butler.edu. Applications for the 2012 Brain Gain Program will be due March 30, 2012.

Butler Summer Institute 2012

The Butler Summer Institute (BSI) is designed to allow a student to pursue a significant research question, contribute to a scholarly conversation, or produce creative work, while being mentored by a faculty member and supported by a community of equally enthusiastic student researchers, scholars and artists.

Those accepted into the Butler Summer Institute:

- Work closely with a faculty mentor to create original research, scholarship or a creative endeavor.
- Work and live with other Butler students who are equally engaged in research, scholarship or creative work.
