

MBA students have  
one day to help a  
local business solve  
a real problem.

---

*(And that's how they  
start the program.)*

**BUTLER  
UNIVERSITY**

COLLEGE OF BUSINESS

# REAL life. REAL business.™

---

Students begin the MBA program with the Gateway Experience, a one day immersion with a local company. In a matter of hours, students conduct research and provide recommendations for a company's problem. MBA students finish their coursework in the Capstone Experience course which includes a semester-long, live case.
