Inquiries in American Literature and History II 3, U

Childhood: Mystery and Muse

Catalog Number: TI 211-EN 01

Meeting: MW 1-4

Instructor: Forhan, Christopher

Class Number: 1331

One of the great, inexhaustible sources of inspiration for literature is childhood: that period of vivid wonder and terror, of our first fumbings toward knowledge about who we are and what it is like to live in this oddly beautiful (and beautifully odd) world. In this course, we will investigate how American literature in various genres—fiction, poetry, and memoir—has explored and explained childhood, and we will use those models as inspiration for our own attempts to capture, in language, what is worth retrieving from our own beginnings. To establish a template by which to appreciate some fundamental elements of the tale of childhood, we will start the semester by reading a few of the more wildly strange and mythically resonant Grimms' fairy tales. After that, we will focus on American writers of the last century, with possible authors being Elizabeth Bishop, Theodore Roethke, Norton Juster, Tobias Wolff, Susan Minot, and Joanne Beard. This course counts toward completion of Core Curriculum requirements but not the Inquiries in American Literature requirement for English majors.
