

## **Lindsey Birt**

*Environmental Health and Safety Specialist  
CPR Instructor, CERT Instructor  
EMT-B*

Lindsey, a resident of Hendricks County, graduated from Indiana State University in 2006 with a Bachelor's of Science degree in Safety Management and Environmental Sciences.

After completing her degree, Lindsey was given the opportunity to join forces at the Newport Chemical Depot in Vermillion County, Indiana. While there, 2006-2009, she served as a civilian Safety Specialist and was a member of the Medical Response Team (MRT). The Newport Chemical Depot manufactured and housed a chemical stockpile of VX nerve agent. The completion of the neutralization of the VX nerve agent was complete on August 8, 2008.

In July of 2009, Lindsey was hired at Butler University, as their Environmental Health and Safety Specialist in the Department of Public Safety. She is currently a certified CPR and First Aid instructor through the American Red Cross. She is also a Campus Emergency Response Team (CERT) trainer through the Department of Homeland Security. During her work at Butler she oversees Emergency Preparedness, Job Safety and OSHA compliance, training records, and Clery compliance. She is also an Indiana Law Enforcement Training Board Certified Instructor. She serves on the Personal and Professional Staff and Development Committee as well as other volunteer opportunities.

In the fall of 2010, Lindsey completed her EMT-Basic course and is certified through the state of Indiana. She works part-time at Operation Life in Greencastle, Indiana.

She is currently studying to become a Certified Health and Safety Professional (CHSP).

Lindsey and her husband, Daniel, reside in Hendricks County. They have 2 small children, Jaxon, age 4 and Hallie age 1.
