

Research Experiences of Physics Undergraduates

	National Stats	Butler Physics Stats
Working with a professor on a project	37%	69% (since 1995)
As part of a thesis project	28%	35% (since 2003)
Research Experience for Undergraduates (REU-Funded by the National Science Foundation)	26%	41% (since 2003)
Non-departmental employment (e.g. Summer job)	25%	
While in a co-op or internship	13%	42% (since 2003)
None	29%	

The total adds to more than 100% as seniors were permitted to indicate more than one type of research experience.

AIP Statistical Research Center, Initial Employment Report.

**Butler
2002-7:**

Graduate Schools

(Butler Physics and Astronomy students 2004-2007)

University of California

Columbia University

Cornell University

Drexel University

University of Illinois at Urbana-Champaign

Indiana University

Michigan State University

University of North Carolina

Northwestern University

Ohio State University

University of Pennsylvania

Purdue University

University of Texas at Austin

University of Wisconsin

Employment

(Butler Physics and Astronomy students 2004-2007)

3M Company

Cummins Inc.

Diversified Systems Inc.

National Starch and Chemical Co.

Orlando Science Center

Raytheon
