¹Please note this list is neither exhaustive nor complete. Some internships are competitive and highly selective. Summer internships are available at most sites and preferred at some. A student's actual internship placement will be determined by several factors including but not limited to such matters as competitive selection, availability for a specific time period, agency preference and input and the Internship Director's (currently Ken Colburn) recommendation for a particular site. While every effort is made to meet student preferences no guarantee can be made about any specific placement site desired by students. (Updated March 2006)
