Application for Affiliated Faculty Status

Gender, Women & Sexuality Studies Program

Name _____

Rank _____

Department _____

Butler University's Gender, Women & Sexuality Studies Program affiliates faculty who commit to teaching at least one-eighth of their courses—typically, one course every two years—in GWSS and/or pledges ongoing service to the program in the form of activities that forward the mission of GWSS. We ask that affiliated faculty be committed to ongoing service to the program, including but not limited to: regular attendance at GWSS meetings and events, service on the GWSS Steering Committee, routine participation in program events, etc. Tenured affiliate faculty are tasked with serving on tenure and promotion cases for the program. We expect affiliate faculty to cross-list courses with their home departments and/or programs and understand that most of their service duties will be owed to their departments.

Affiliated faculty members are expected to engage in research activities that forward the intellectual and pedagogical mission of the Gender, Women & Sexuality Studies Program. Affiliation is required in order to serve on the GWSS Executive Committee and other committees. Starting fall 2013 affiliation is a requirement for cross-listing courses within GWSS unless given an exemption by the GWSS Steering Committee. We expect that interested faculty will demonstrate an ongoing commitment to the program and to its central mission of providing a progressive, feminist education that fulfills Butler University's founding and ongoing "audacious vision to provide interracial coeducation to aspiring students."

Applicant, please attach:

(a) a 1-2 page current curriculum vita highlighting research, teaching, and service activities related to the mission of the Gender, Women & Sexuality Studies Program.

(b) a brief cover letter explaining the nature of your commitment to the field of Gender, Women & Sexuality Studies acknowledging your willingness to accept the responsibilities that Affiliated Faculty status entails (see above).

Applications will be reviewed by the Steering Committee of the Gender, Women & Sexuality Studies Program.
