

PARTNERSHIPS

Satisfaction of employers and stakeholder involvement at Butler University includes surveys of employers and partnerships.

- **External partnerships** are involved in program design, evaluation and clinical practices. Documentation and data are gathered from meeting minutes and decisions concerning co-construction of assessments and surveys. Partnership agreements, Memos of Understanding, and professional affiliation agreements are on file.
- **Integrated Partnerships** involve multiple forms of clinical experiences and shared reciprocity. Examples include: Indianapolis Public Schools/Butler Lab Schools, MSD Pike Township-Pike High School, and Partnership for Inquiry Learning.
- **Affiliate Partnerships** include student teaching and internship sites, methods courses sites, and practica in the Indianapolis urban and suburban areas.
- **Dean's Advisory Board** – This board includes current and former P-12 administrators, emeriti faculty, P-12 practitioners, educational and community leaders, alumni, and the dean. The group guides the EPP by contributing to on-going decision making related to the programs within the college based on both EPP data and high-level discussion of trends in education.
