This award has been established by family, friends, and classmates of Janice Gartin. Janice, a 22-year-old Greenwood native, was killed in a traffic accident in January of 1979. While at Butler Janice was a member of the Marching and Concert Bands. Funds for this award were raised through benefit concerts, a fund-raising drive and, mostly, from $10.00 contributions from many who knew and respected this young woman. This award is in her memory.

This scholarship is intended to be in addition to other scholarship assistance, except where a student’s total aid would exceed tuition for the academic year. Thus, for example, Lilly Scholars and children of Butler University faculty and staff receiving full remitted tuition would be ineligible, and other situations may exist that could render a student financially ineligible for this award.

Application Form

Name: ____________________________  Year in School: ________________  
Campus Address: ____________________  Semesters in Marching Band: ________
Home Address: ______________________  Semesters in Wind Ensemble: ________
____________________________________  Semesters in Basketball Band: ________
____________________________________  (Include the current semester if applicable)

In order to be considered for this award, I understand that I must have been in the Butler University Marching Band for at least two semesters and a second-semester concert band or the Basketball pep band for one semester. The current semester may be included. I understand that if I am the recipient of this award I will be in the Marching Band during the year following the notification of receipt of the award.
