SRHC is a community owned, not-for-profit hospital with more than 1,700 employees and a diverse medical staff of over 150 physicians. SRHC serves as the regional hub for state of the art medical services, providing a higher level of healthcare to a 14 county area of north central Kansas. In October 2013 SRHC opened a new 18 bed Intensive Care Unit. This expansion comes on the heels of our new $70 million dollar, six story patient tower, a new 26 bed Emergency Room and Tammy Walker Cancer Center. Salina is home to the University of Kansas School of Medicine Salina campus and Smoky Hill Family Medicine Residency Program.

We are not only succeeding—we are leading the way in healthcare in Kansas!
