

BUTLER

CENTER *for* ACADEMIC
TECHNOLOGY

News

Kim Beck (Assistant Professor – Pharmaceutical Sciences) and Heather Hazelwood (Academic Technology Specialist – Center for Academic Technology) are presenting at the [E.C. Moore Symposium](#) at IUPUI on Friday, March 3rd.

Their presentation is titled “Student Preference of Three Types of Self-Study Video Modules”. They will present their findings from a study on the creation of self-study video modules with embedded quizzes using three different formats (TED-Ed Lesson, Lightboard, and Voiceover Slideshow video recordings) that were used to provide students with multimodal background material. The modules were assessed for student preference and the impact of providing points to

embedded quizzes in an effort to determine the optimum method of presenting material with the goal of universal participation. Butler faculty are welcome to [attend](#).

Tip of the Day: Custom Workshop Requests

Did you know that CAT will facilitate a customized academic technology workshop for your department or college? [Submit a request now!](#)

Upcoming Events

Sharing Content Wirelessly in the Classroom using AirDawg

Learn how to use AirDawg in the classroom to wirelessly share and display content with your students on their laptops or mobile devices. Students can share their content with the class, instructors can preload content for class and project to student devices and more!!

[Register](#) | 3/24/17 | 11:30am to 12:30pm | Jordan Hall 220 | Facilitators: Jeana Rogers and Larry Darling

Round Table Discussion: Making Course Materials Accessible to all Learners, Online

In this round table discussion, participants will join in a conversation with leaders from the Butler academic and IT community to discuss the best ways to make sure all learners have equal access to course materials via Moodle or other online locations.
