We have an immediate opening for an enthusiastic practitioner to join our family owned walk-in and urgent care practice. This full-time position will be split between urgent care and primary care, with occupational health experience preferred. Family Nurse Practitioners and Physician Assistants with DOT Certification are preferred, but training can be provided.

**Summary:**

Responsible for providing urgent care and primary care services, emphasizing prevention, health education, and wellness in accordance with company policies, practices, procedures, and applicable regulations to achieve the desired goals and objectives. Work with a team of nurse practitioners, physician assistants, medical assistants and radiological technicians with excellent and accessible collaborating physicians.

**Essential Duties and Responsibilities:**

Include, but are not limited to the following:

- Assure compliance with regulatory requirements related to clinical operations
- Evaluate and treat all injuries and illnesses in an efficient and professional manner within the scope of practice and consistent with current clinical guidelines
- Provide or manage the required physical evaluation programs and services to meet regulatory requirement; such as OSHA, Department of Transportation, CDC, etc.
- Provide appropriate case management
  - Manage all cases to facilitate productivity, assuring appropriate care and return to work
  - Assist departments with identifying, evaluating, and implementing accommodations and return to work options for workers with restricted duty
Includes workers’ compensation, short- and long-term disability cases

- Comfortable treating children ages 2 years and up
- Other duties may be assigned

**Qualifications:**

- Prefer two (2) years of experience as a practicing Physician Assistant or Nurse Practitioner with a current license in the state of Indiana
- Must have current DEA certificate
- DOT certification preferred
- Must be able to be credentialed with major insurance payers
- Experience in suturing as well as an understanding of occupational/workers’ compensation medicine
- ACLS and BLS required
- A focus on care and excellent communication skills is a must
