

**BUTLER** UNIVERSITY

## Reference Call Revision

During the month of September, HR presented four education sessions providing information about the changes to our healthcare plan and about our new partners Alta Health, United Healthcare/UMR and MagellanRx. On September 21<sup>st</sup>, following the 3<sup>rd</sup> session, we found that part of the information presented about the reference check calls was incorrect. The error was corrected for the remaining session and in the PowerPoint presentation posted on the HR Benefits website. The revised information follows:

We conducted an Apta Health site visit and met with the Apta Care Coordinators in Columbus Ohio. We also made reference check calls to organizations comparable to Butler University that are current clients of Apta Health or United Healthcare/UMR or MagellanRx. Two of the calls were to Marquette and Yale. Marquette currently uses United Healthcare/UMR as their network and claims administrator and Yale currently uses MagellanRx as their pharmacy benefit manager. In addition, we made calls to two other organizations that are current clients of United Healthcare/UMR and four other organizations that are current clients of Apta Health.
