

Mental Health Care

Exciting opportunity to join the IU Health Team in launching a Virtual Hub for mental health care. This telemedicine hub will virtually assess psychiatric patients in 17 (statewide) emergency departments for triage. The “hub” will be staffed with social workers, advanced practice providers, and physicians. Initial training is on-site and then will move to working virtually. Interested candidates, please submit a CV to Kiley Radin, Administrative Lead, at kradin@IUHealth.org
