The University of Chicago Medical Center

We have an immediate need for a PA! This position requires an energetic female individual who is mature and comfortable with pelvic floor disease, incontinence, impotence, and transgender patients. We are interested in a new graduate. I think your program is outstanding and hence this is why we would be delighted to welcome a Butler grad into our urologic family. Interested candidates should send their resume and cover letter to: Gregory T. Bales, M.D.

Please see below for job description. The position can also be found here:
https://uchicago.wd5.myworkdayjobs.com/External/job/Hyde-Park-Campus/Physician-Assistant_JR04290

I want to emphasize that (despite what the job description indicates) that we are very receptive to new grads without prior work experience.

**Department**
2012750 Surgery-Urology

**About the Unit**
Our renowned urologic surgeons oversee a broad range of surgical care programs, designed to thoroughly care for adults and children with complex urologic disease including urologic cancers in the bladder, kidney, prostate, and testicular regions. Further, our surgeons offer female urologic procedures including reconstruction, prolapse repair, salvage and urodynamics, among others. In addition to offering a wide range of surgical options, our experts are world leaders in robotic surgical techniques that enhance surgical and aesthetic outcomes for many urologic patients.

**Job Information**
**Job Summary:**
The Physician Assistant in the Section of Urology works collaboratively within a multidisciplinary team, using advanced clinical skills and knowledge to provide assessment, evaluation, testing, treatment, therapies, medical management, and other direct care to patients under the care of the University of Chicago Medicine.

**Responsibilities:**
- Obtains medical histories and performs physical assessments.
- Orders and interprets appropriate diagnostic tests.
- Prescribes appropriate treatments.
- Screens patients.
- Facilitates care in collaboration with the surgeons.
- Makes referrals to other disciplines as necessary.
- May provide both inpatient and outpatient services as needed.

**Competencies:**
- Ability to provide direct patient care in a professional and respectful manner required.
- Ability to provide direct patient care independently under the direction of the supervising physician
- Excellent verbal and written communication required.
- Ability to perform detailed work required.
- Ability to perform multiple concurrent tasks with occasional interruptions required.
• Ability to exercise discretion and confidentiality while handling sensitive situations required.
• Ability to solve problems by applying math or reasoning principles required.
• Ability to train or lead others required.

Additional Requirements

Education, Experience or Certifications:

Education:
• Completion of an accredited Physician Assistant educational program accredited by the Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) required.

Experience:
• Two or more years of clinical experience in a related area of specialty preferred.

Licenses and Certifications:
• Current Physician Assistant license/registration in the State of Illinois or eligibility to receive by start date required.
• Certification from the National Commission for the Certification of Physician Assistants (NCCPA) by start date preferred.

Interested candidates can send their resume and cover letter to: Gregory T. Bales, M.D.
