Total	15 hours	Total	14 hours

NOTES:

- Internships are required to complete this major and students can not graduate from this program without the internship semester. Internships require application and approval.
- Candidates must choose one area of concentration and complete 21 hours. Students need 126 hours to graduate. After university core requirements, students will have 39 hours of electives to complete.
- Electives can be in any area of the University and can be used to work towards an additional minors or concentrations.
- Study abroad is best done during sophomore or junior year.
- Students must select courses in their electives to fulfill ICR, WAC and SAC requirements on their own. BCRs are experiences required outside the course context and must be fulfilled prior to graduation.
