

**Degree Requirements for the Masters of Music degree in  
MUSIC EDUCATION –FINAL PROJECT OPTION**

The degree requires the completion of 31 credit hours, including a final project (ME 758). An oral final project defense is required. After the successful defense has been completed, a final copy of the final project must be approved by the final project committee and by the Director of Graduate Studies, and submitted according to the guidelines found on the University Library’s website. Approval and submission must be completed before the degree can be conferred.

A separate final comprehensive oral examination (ME 799) covering the entire program of study is also required at the end of the program (separate from the final project defense).

The Graduate Music Theory and Music History Diagnostics are required for placement purposes. Depending on the results of these exams, students may be required to take review coursework (MH 508-Graduate Music History Review, MT 508-Graduate Music Theory Review, and/or other remedial coursework). These review classes count as general music electives only.

6 credit hours of the MM Music Education degree are a specialization which can be created with approval from the music education graduate advisor, selected from elective coursework from within the School of Music, related programs at Butler University, or transfer credit from outside programs. The default specialization for students enrolled in the MM Music Education degree program is in Conducting and Rehearsal Studies.
