

Thoracic Surgery Physician Assistant

- Position open to new graduates
- Experience in thoracic surgery, critical care, pulmonology would all be applicable
- Schedule would likely be 5 days per week, 8 hour days, but this has not been concretely established yet.
- Role would initially be primarily inpatient with intentions to cross-train in operating room and outpatient clinic and incorporate into PA surgical call schedule
- Team will consist of three physicians, four physician assistants, and surgical residents

Licensure/Certification/Registration/Required Credential(s):

- Certified BLS Provider obtained within 6 Months (180 days) of hire date or job transfer date. One or more of the following: • Physician Assistant credentialed from the National Commission on Certification of Physician Assistants (NCCPA) obtained prior to start date or job transfer date. • Physician Assistant credentialed from the Indiana Physician Assistant Committee obtained prior to start date or job transfer date. Preferred Credential(s): • Advanced Life Support.

Education:

- Graduate of accredited Physician Assistant program.
- Master's Degree preferred.
