Documentation Guidelines for Attention Deficit Disorder

Documentation should state a diagnosis and the functional limitations of the disability within an educational setting. Typically, it should be printed or typed on official letterhead or on an SDS documentation form, and be completed and signed by an evaluator qualified to make the diagnosis. Documentation from family members, even if qualified professionals, cannot be accepted.

The following is a guideline, if needed, for submitting documentation to establish eligibility for accommodations and support services through SDS. Other forms of documentation are often accepted. Students who currently hold documentation are encouraged to contact SDS for a brief discussion as to whether or not additional documentation is needed.

Please answer the following questions relative to this student’s diagnosis of Attention Deficit Disorder.

Student’s Name: _____________________________________________________________

1. Diagnosis: [DSM5 or ICD]:

__________________________________________________________

Level of Severity (circle one): Mild Moderate Severe

Date of Initial Diagnosis: ___________ Date of Last Contact with Student: ____________

How often do you meet with this student? ____________________________________________

2. Does this condition substantially limit the student’s ability to function on campus?

Yes _______ No _______

Please describe the functional limitations and recommendations you might wish to suggest:

Functional Limitation: Recommendations:

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
3. Was medication prescribed? _________________________________________________________
   Amount and frequency of administration: _____________________________________________
   Frequency of monitoring: __________________________________________________________
   Response to medication: ____________________________________________________________

4. Please provide any additional information relevant to the student’s level of functioning within the university setting. This could include co-morbid diagnoses.
