Documentation Guidelines for Psychological Disabilities

Documentation should state a diagnosis and the functional limitations of the disability within an educational setting. Typically, it should be printed or typed on official letterhead or on an SDS documentation form, and be completed and signed by an evaluator qualified to make the diagnosis. Documentation from family members, even if qualified professionals, cannot be accepted.

The following is a guideline, if needed, for submitting documentation to establish eligibility for accommodations and support services through SDS. Other forms of documentation are often accepted. Students who currently hold documentation are encouraged to contact SDS for a brief discussion as to whether or not additional documentation is needed.

Please answer the following questions relative to this student’s diagnosis of a Psychological Disability.

Student’s Name: __________________________________________

1. Diagnosis (DSM5 or ICD):

__________________________________________

Level of Severity (circle one): Mild Moderate Severe

Date of initial Diagnosis ____________________ Date of last Contact with Student _____________

How often do you meet with this student? ______________________________________________

2. Does this condition substantially limit the student’s ability to function on campus?

Yes _______ No ______

Describe the functional limitations and/or behavioral manifestations (e.g., easily distracted, poor concentration, difficulty focusing for extended period of time, difficulty formulating and executing plan of action, difficulty overcoming unexpected obstacles, panics in unfamiliar surroundings and situations, etc.) and recommendations you might wish to suggest:

Functional Limitations/Behavior: __________________________________________

______________________________
