DISCLOSURES OF THE INVENTION

If publicly disclosed, please describe the circumstances:

List and describe any confidential disclosure of the invention:

List and describe any actual and/or planned publication(s) on the invention:

SUMMARY OF THE INVENTION

Briefly describe the field(s) of technology to which the invention relates:

What shortcomings or problems of the field(s) of technology are solved or addressed by the invention?

Describe the invention briefly in lay terms:

Describe the invention in detail, attaching additional pages of description or drawings hereto, if necessary:

Describe how the invention differs from the present technology:

Describe the disadvantages, limitations or shortcomings of the invention:

Describe how the disadvantages, limitations or shortcomings described above may be overcome:

Indicate which you consider the invention to be (check only one):

An entirely new concept

A major technical breakthrough

An improvement to existing technology

A new application of existing technology

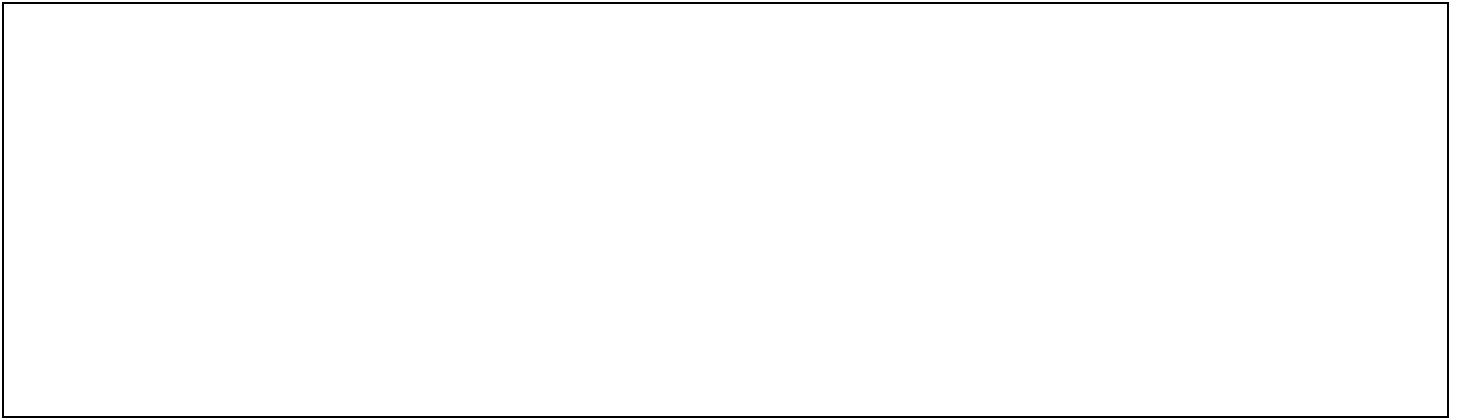

Please explain your selection above:

Describe any tests or developments that must be performed before the invention is ready for commercialization:

Describe if and when you intend to undertake such further tests or development:

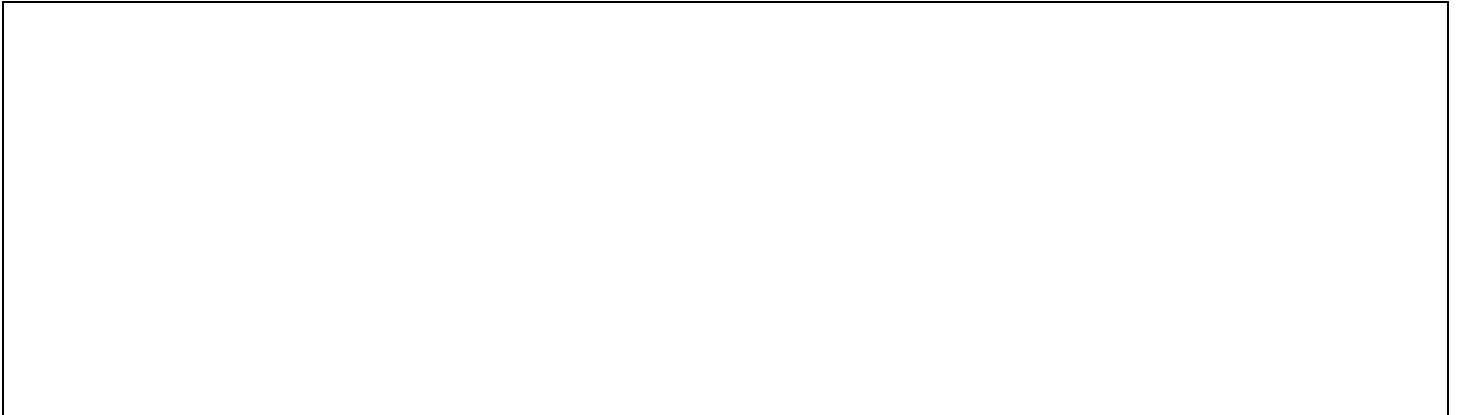

List any publications, patents or patent applications, whether or not yours, which are closely related to the

invention:

Please attach copies of such publications and/or patents hereto.

Identify any potential entities that should be considered as a candidate for commercialization of the invention, and how such entities might be involved in commercialization of the invention:

[This space intentionally left blank]

Creators' Signatures:

_____ Signature	_____ Signature	_____ Signature
