Accommodations

9. What, if any, reasonable accommodation will the University provide? (The University can agree to provide a reasonable accommodation either because accommodation is required by law or because accommodation serves its institutional objectives.)
10. When will the accommodation end or be reviewed in a follow-up conference?
11. If this process could not be completed because of insufficient information or documentation, what is needed, who has responsibility for getting it, and when will the Committee reconvene?

I agree to the accommodations set out above, if any.

I agree that this accurately reports the discussion and conclusions of the conference.
