## **BUTLER UNIVERSITY • DEPARTMENT OF ART**

## B.A. IN ART + DESIGN PLUS A SECONDARY MAJOR IN PUBLIC HEALTH

- The B.A. degree in Art + Design requires 126 credits.
  - --40 hours must be 300 or 400-level courses.
  - --All art majors have Arts Event Attendance Requirements; for details, check https://www.butler.edu/jca/for-current-students.
- A total of 50 credit hours, including both required and elective courses, must be taken to complete the Public Health major. No more than one course required of the major may count towards satisfying university core requirements.
- The double major of Art + Design and Public Health will fulfill the following Areas of Inquiry in the University Core Curriculum: Perspectives of the Creative Arts and an additional Core area, dependent upon the Electives chosen. In addition, the B.A. Art + Design curriculum fulfills the Indianapolis Community Requirement and the Social Justice and Diversity requirement of the Butler University Core Curriculum; art majors are exempted from the Butler Cultural Requirement because of the arts event attendance requirements for all arts majors.
- The student will be assigned an Public Health advisor in addition to their Art advisor.
