The University strives to ensure the accuracy of the information in this Bulletin at the time of publication; however, certain statements contained in the catalog may change or need correction. This Bulletin is not intended to confer contractual rights on any individual. The University has the right to modify programs, course numbers and titles, and instructor/faculty designations.

Butler University has been accredited since 1915 by what is now the Higher Learning Commission of the North Central Association of Colleges and Schools. Programs in the Lacy School of Business are accredited by AACSB International, the Association to Advance Collegiate Schools of Business.

Programs in the College of Education are accredited by these associations:

- National Council for Accreditation of Teacher Education (NCATE) through 2020 and currently affiliated with the Council for the Accreditation of Educator Preparation (CAEP), the new accrediting body for educator preparation
- Indiana Office of Educator Effectiveness and Licensing (OEEL)

Programs in the College of Pharmacy and Health Sciences are accredited by these associations:

- American Council for Pharmaceutical Education (ACPE)
- Accreditation Review Commission on Education for the Physician Assistant (ARC-PA)

Programs in the Jordan College of the Arts are accredited by these associations:

- National Association of Schools of Dance (NASD)
- National Association of Schools of Music (NASM)
- National Association of Schools of Theatre (NAST)

Some programs in the Department of Chemistry are accredited by the American Chemical Society (ACS).
About Butler University

A nationally recognized independent university known for its exceptional student learning experiences, Butler University comprises a College of Liberal Arts and Sciences and five professional colleges: College of Education, Lacy School of Business, College of Pharmacy and Health Sciences, Jordan College of the Arts, and College of Communication.

Butler is committed to its mission to provide the highest quality liberal and professional education and integrate the liberal arts with professional education, creating and fostering a stimulating intellectual community built upon interactive dialogue and inquiry among students, faculty, and staff.

In the 2017 "Best Colleges" edition of U.S. News & World Report, Butler University was ranked as the Most Innovative School among Midwest Regional Universities for the second consecutive year. Butler was also listed on the national shortlist of excellence for First-Year Experience, Internships, Undergraduate Research, and Study Abroad.

Such recognition reflects Butler’s dedication to providing students with a broad, liberal arts foundation with nationally recognized programs, coupled with countless experiential learning opportunities in Indianapolis and beyond. Through this comprehensive approach, Butler students are prepared to step directly into a career or graduate school with confidence, which is evident in our current graduate success rate of 97 percent.

Student Learning

In furtherance of its teaching and learning goals, Butler has established learning outcomes for all students. The outcomes are assessed in students’ coursework and elsewhere throughout their undergraduate years, yielding continued refinements and improvement in teaching. By graduation, Butler’s dynamic academic and co-curricular offerings will prepare our students to demonstrate the following:

- Liberal arts knowledge and transferable skills developed through multifaceted learning experiences
- Disciplinary and professional knowledge and skills in at least one academic field of study
- Competencies that facilitate their personal development and wellness cultivated through experiences inside and outside the classroom
- A capacity to help shape our local and global communities through civic understanding and an appreciation of diverse perspectives
- Students are afforded ample opportunities to achieve these learning outcomes through a combination of courses—both in the major and in the Core Curriculum—and through co-curricular experiences.

A History of Inclusiveness, Diversity, and Equality

From the beginning, Butler has been ahead of its time among institutions of higher education for its commitment to racial and gender equality. The University was chartered as North Western Christian University by abolitionist Disciples of Christ members, who wanted a university away from the "pernicious influences of slavery.” Upon establishment in 1855, the University immediately began setting educational precedents:

- Butler admitted students representing all minorities, and has continued to do so throughout its history. Butler’s first documented African-American graduate was Gertrude Mahorney, who graduated in 1887 and subsequently taught in the Indianapolis Public Schools.
- Women were admitted on an equal basis with men—a first for Indiana—and Butler was only the second university in the nation to do so. The first woman to graduate from the full four-year program, in 1862, was Demia Butler, daughter of founder Ovid Butler.
- Butler was also the first university in the state to allow its students, with parental consent, to choose subjects suited to their needs under a new “elective” system.
- In 1870, Butler became the first university in the nation to establish an endowed chair specifically for a female professor (Catharine Merrill, English literature), and only the second university to appoint a woman to the faculty. Professor Merrill also was the first to use the lecture method for any subject other than science.
- The country’s first chapter of Sigma Gamma Rho, a sorority for African-American women, was founded on the Butler campus in 1922.

When Butler University opened its doors in 1855, 20 students were enrolled, taught by two faculty members. Today, Butler is an independent university with a total full-time enrollment of more than 4,900 students (more than 4,500 undergraduates and approximately 500 graduate students) and 363 faculty members. True to the vision of its founders, the University emphasizes the warmth and sense of community characteristic of a small liberal arts institution while offering the educational and cultural advantages of an urban center. The University maintains a favorable student-to-faculty ratio of 12:1. Because of its size, Butler can offer its students opportunities to work closely with the faculty. Classes are small, and students are encouraged to seek out faculty in their offices, studios, or laboratories. Undergraduate research and independent study are encouraged. Although Butler professors are teaching faculty, they understand that first-rate teaching must be complemented with scholarly activity that extends the boundaries of knowledge.

Butler students currently represent 47 states and 53 countries, reflecting diverse cultures, interests, aspirations, personalities, and experiences. Students can join one of approximately 160 student organizations, 13 Greek organizations, and 19 varsity athletic teams. More than 94 percent of Butler students are involved in campus activities; 69 percent participate in community service. As it has since its founding, Butler continues to both value tradition and embrace innovation.

The Campus

Butler’s 295-acre campus, within a historic north-side Indianapolis neighborhood, comprises nearly 30 buildings, playing fields, and a nature preserve. Located five miles from the heart of the city, the campus offers easy access to downtown. Its urban location allows Butler to offer students a wide range of internship opportunities that are excellent preparation for careers and graduate schools. In addition, full-time faculty in several disciplines, such as accounting, journalism, and instrumental music, are supplemented with adjunct instructors, drawing on the resources of professionals in the surrounding community.

Campus facilities include:

- Jordan Hall, built in 1927 and now listed on the National Register of Historic Places. In addition to housing several departments of the College of Liberal Arts and Sciences and the College of Education, the building incorporates computer labs, an electronic language laboratory, administrative and faculty offices, alumni and parent programs, student accounts, registration, and classrooms.
- Fairbanks Center for Communication and Technology, home to Computer Sciences & Software Engineering and the College of Communication, which includes the Eugene S. Pulliam School of Journalism.
• Gallahue Hall, which houses the Departments of Biological Sciences, Chemistry, and Physics and Astronomy, and provides extensive facilities and equipment for faculty and student research.
• The Holcomb Building, home to the Lacy School of Business as well as the Ruth Lilly Science Library and the Butler Business Accelerator.
• The Pharmacy and Health Sciences Building, a facility that includes state-of-the-art laboratories, classrooms, and technology in support of student and faculty collaboration.
• Butler Arts Center, which incorporates Lilly Hall, housing the programs of the Jordan College of the Arts; Clowes Memorial Hall, a 2,220-seat multipurpose hall for the performing arts; and the Howard L. Schrott Center for the Arts, a 450-seat theatre that provides performance and exhibition space for the theatre, dance, music, and visual arts programs.
• Irwin Library, which provides basic research tools and holds the majority of the University’s more than 350,000 volumes of books, bound periodicals, and manuscripts. Butler Libraries also offer approximately 100,000 e-books, access to 200 online databases, and 35,000 online journals and magazines.
• Atherton Union, which incorporates the University bookstore, food service operations, a 24-hour computer lab, meeting rooms, and student lounges. Additional facilities include the Efroymson Diversity Center, Internship and Career Services, the Division of Student Affairs, the Office of International Student Services, and offices for residence life, Greek life, and student leadership and service.
• Campus housing, including Residential College, Ross Hall, University Terrace, the Apartment Village (for juniors and seniors), Fairview House (for sophomores), and fraternity and sorority houses.
• Holcomb Observatory and Planetarium. The observatory’s 38-inch telescope is one of the largest in the state.
• Robertson Hall, which houses the offices of Admission, Financial Aid, Marketing and Communications, and the Eichel-Duckwall Recital Hall.
• Hinkle Fieldhouse. The historic 9,100-seat fieldhouse, listed on the National Register of Historic Places, is the home of Butler basketball and volleyball teams, the human movement and health science education program, and spring commencement ceremonies.
• The Butler Bowl, the site of Butler football and soccer.
• The Health and Recreation Complex, which houses an aquatic and fitness center, in addition to counseling services, health education, and health services.
• Holcomb Gardens, a 20-acre scenic area that abuts Indianapolis’ Central Canal and towpath, a favorite walking, jogging, and bicycling route for students.
• Athletic fields, CUE Farm, and the Butler Prairie nature preserve, linked to the main campus by two pedestrian bridges across the Central Canal.
• A multi-use parking facility, with 1,033 parking spaces and 17,000 square feet of retail space that includes Scotty’s Dawghouse, and Metro Diner.

Indianapolis

Butler University remains deeply committed to serving its community. Clowes Memorial Hall and Jordan College of the Arts fulfill a cultural responsibility by presenting a vast array of performing arts and spoken-word programs open to the public; many of these programs offer enrichment to area elementary and secondary students. Indianapolis schools, corporations, and cultural organizations benefit from the University’s cooperation, and student interns serve in a wide variety of Central Indiana businesses, governmental offices, nonprofit agencies, schools, hospitals, and pharmacies. Butler seeks to continue to strengthen its partnership with a vital, growing city and region.

Indianapolis is the 15th-largest city in the United States, with a metropolitan-area population of more than 1.9 million. In recent years, the city has emerged as a leader in science, medicine, research, technology, and sports. Pharmaceutical giant Eli Lilly and Company is located in the city, as are top-ranked regional hospitals. Many performing arts companies call Indianapolis home. Museum offerings include the world’s largest children’s museum, the Eiteljorg Museum of American Indians and Western Art, Conner Prairie, and the nearby Indianapolis Museum of Art. Widely known for the annual 500-mile race at the Indianapolis Motor Speedway, the city has two major league professional sports teams, and it also has hosted hundreds of national and international amateur sporting events.
Undergraduate and Graduate Academic Programs

The Core Curriculum

Butler University is home to six colleges, all of which believe that the University’s first responsibility is the liberal education of its students. At the heart of Butler’s undergraduate education is the University’s Core Curriculum, a set of academic requirements embodying our definition of what it means to be a liberally educated person. Created in 1949, the Core Curriculum is one of Butler’s oldest academic entities. Like all good ideas, the core has not remained static but has expanded to meet the needs of a changing society. Today’s Core Curriculum, implemented in fall 2010, emphasizes the development of key skills that transfer directly into careers after graduation. Employers are seeking flexible, creative, and critical thinkers who can demonstrate competencies in strong written and oral communication, information fluency, intercultural awareness, and analytical and ethical reasoning skills. Through direct experience working in the Indianapolis community, study-abroad opportunities, and rich co-cultural experiences in the Core Curriculum, Butler students also engage central issues of our increasingly globalized world, including diversity, personal and social responsibility, and social justice. In these varied ways, the Core Curriculum provides Butler students with transformative learning experiences that prepare graduates to make a meaningful impact on the world.

The Core Curriculum is required for all baccalaureate and associate degrees. All Butler undergraduates, no matter their major field of study, complete the Core Curriculum. Core Curriculum courses are not open to graduate students. Students are expected to consult with their academic advisor prior to registration each semester to plan their experiences in the Core Curriculum. For more information, visit www.butler.edu/core.

Core Curriculum Structure

The Core Curriculum consists of several key components, all of which must be fulfilled prior to graduation:

- The First Year Seminar (6 credit hours)
- Global and Historical Studies (6 credit hours)
- Areas of Inquiry: Students are required to successfully complete one course in each Area of Inquiry. Students select courses each semester to fulfill each Area of Inquiry from approved course lists in the online Course Search utility using the appropriate course attribute.

The six Areas of Inquiry are:

- AR: Analytic Reasoning (3 credit hours)
- NW: The Natural World (5 credit hours, lecture plus lab)
- PCA: Perspectives in the Creative Arts (3 credit hours)
- PWB: Physical Well-Being (1 credit hour)
- SW: The Social World (3 credit hours)
- TI: Texts and Ideas (3 credit hours)

To ensure academic quality and integrity, some Core Curriculum requirements may be satisfied by taking courses only at Butler University. Other Core Curriculum requirements have provisions that allow for completion via transfer credit, AP, IB, or other exemptions. For details, see www.butler.edu/registrar.

First Year Seminar (FYS)

The First Year Seminar (FYS101 and FYS102) is a topics-based, two-semester sequenced course that serves as an introduction to the vitality of the liberal arts. FYS101 is taken in the fall semester; FYS102 is taken in the spring semester. Students will develop, practice, and advance their abilities with critical reading and thinking, effective oral communication and academic writing, and information literacy.

Students assigned to EN101, Writing Tutorial, must enroll in EN101 during their first semester at Butler concurrently with FYS101. Some students also may be required to take EN101 concurrently with FYS102, contingent upon student performance in EN101 or FYS101. The English Department administers EN101, including placement tests.

Transfer students who have completed two semesters of 100-level English, or other critical reading, thinking, and writing coursework at another institution, may be allowed to satisfy the FYS requirement with a total of not fewer than six transferred semester hours.

All students are expected to complete the First Year Seminar during their first year at Butler.

Course Structure

A two-semester sequence taken in the first year. FYS course titles and descriptions can be found through the online Course Search utility using the FYS course attribute.

Exemptions

None.

Learning Outcomes

- Students will learn to listen and read critically—texts, speech, media, and other cultural productions—in order to examine, challenge, and reshape themselves and the world in which they live.
- Students will learn to express themselves clearly and persuasively in exposition and in argument, in both written and oral forms.
- Students will carry out research for the purpose of supplying evidence and support for claims made in exposition and argument.

Global and Historical Studies (GHS)

Global and Historical Studies (GHS201–221) is an array of interdisciplinary courses that allow students to engage in investigation of and reflection about a culturally diverse and increasingly globalized world. Students will learn to employ a conceptual framework that appreciates cultures as dynamic,
heterogeneous, and constantly in conversation with one another. In doing so, students will draw on a variety of sources and disciplines, including the arts, the humanities, and social and natural sciences, and they will continue to develop the skills of expository writing introduced in the First Year Seminar.

**Course Structure**

All students are required to complete two semesters of GHS201–206 (six credit hours), ideally during their sophomore year. Students may not take both GHS203 and GHS209 to complete the GHS requirement, but any other combination of courses is allowed. Course titles and descriptions can be found through the online Course Search utility using the GHS course attribute.

**Exemptions**

One semester of GHS is automatically waived for international students. If a student studies abroad in a Butler-approved program and successfully completes nine or more credit hours of coursework while abroad, the student automatically receives a one-semester/three-credit-hour waiver from GHS. However, students are not allowed to receive two waivers for GHS; they must take at least one GHS course at Butler University. Exceptions require the approval of the faculty director of Global and Historical Studies.

**Learning Outcomes**

- Employ a conceptual framework for global and historical studies that appreciates cultures as dynamic, heterogeneous, and constantly in conversation with one another
- Draw on a variety of sources and disciplines—including the arts, the humanities, and the social and natural sciences
- Recognize both the benefits and challenges of living in a culturally diverse and increasingly globalized world
- Continue development of skills of expository writing

**Areas of Inquiry**

Course titles and descriptions for all Areas of Inquiry courses can be found at the beginning of each departmental course listing and in the online Course Search utility, identified by the relevant course attribute.

**Analytic Reasoning (AR)**

**Course Structure**

A menu of three-credit-hour courses to be taken from the first year onward.

**Exemptions**

Exempt for students who have completed at least five credit hours of mathematics or computer science courses above algebra and pre-calculus, and for students in professional colleges (COPHS or LSB) with college mathematics requirements. For AP/IB equivalencies, see [www.butler.edu/registrar](http://www.butler.edu/registrar).

**Learning Outcomes**

- Develop capacities for quantitative and analytic reasoning
- Understand the centrality of these capacities to the natural and social sciences
- Recognize the applications of such capacities to matters of personal and public life

**The Natural World (NW)**

**Course Structure**

A menu of five-credit-hour lecture/lab courses to be taken from the first year onward. Courses not required of science majors.

**Exemptions**

Exempt for students who have completed at least eight credit hours of laboratory science. For AP/IB equivalencies, see [www.butler.edu/registrar](http://www.butler.edu/registrar).

**Learning Outcomes**

- Gain awareness of some significant scientific theories and achievements, and recognize how they are related both to other areas of science and to our understanding of broader societal issues
- Develop an understanding of the methods of natural science and a capacity to reason scientifically
- Experience first-hand the scientific process method through discovery-based learning

**Perspectives in the Creative Arts (PCA)**

**Course Structure**

A menu of three-credit-hour courses to be taken from the first year onward.

**Exemptions**

Exempt for students taking at least nine credit hours in art, dance, theater, music, digital media production, recording industry studies, or creative writing.

**Learning Outcomes**

- Develop cognitive and affective appreciation for the process and products of artistic creation
- Participate actively in the creation of an artistic product
- Reflect on the nature and sources of aesthetic value
- Develop habits of participation in artistic and cultural events that will lead to lifelong engagement with the creative arts
Physical Well-Being (PWB)

Course Structure
A one-credit-hour, two-contact-hour, pass/fail course selected from a menu of courses devoted to physical and health education and activities taken from the first year onward.

Exemptions
None.

Learning Outcomes
- Develop lifelong habits of good health and physical activity
- Increase awareness of the centrality of health and wellness for the pursuit of a good life

The Social World (SW)

Course Structure
A menu of three-credit-hour courses to be taken from the first year onward.

Exemptions
Exempt for students taking at least nine credit hours in the social sciences, including anthropology; communication sciences and disorders; critical communication and media studies; economics; human communication and organizational leadership; international studies; journalism; political science; psychology; science, technology, and society; sociology; strategic communication; or majors in the College of Education. For AP/IB equivalencies, see www.butler.edu/registrar.

Learning Outcomes
- Study selected questions about human beings and the social, cultural, economic, and political world in which they are embedded
- Develop an understanding of the variety of quantitative and qualitative research methods social scientists use to study the social world
- Develop the ability to discern the social, scientific, and ethical dimensions of issues in the social world, and to understand the interaction between a society’s values and its definition of social problems

Texts and Ideas (TI)

Course Structure
A menu of three-credit-hour courses to be taken from the first year onward.

Exemptions
Exempt for students taking at least nine credit hours in humanities courses, including most English, history, philosophy, and religion courses, as well as literature courses taught in classical and modern languages. For AP/IB equivalencies, see www.butler.edu/registrar.

Learning Outcomes
- Engage in reading, writing, and discussion about important ideas drawn from the study of important texts in a variety of areas, including, among others, literary texts, dramatic texts, sacred texts, historical texts, philosophical texts, and scientific texts
- Develop capacities for argument, interpretation, and aesthetic appreciation through engagement with these texts and ideas

Additional Graduation Requirements
Students also must fulfill these four graduation requirements, also identified in the online Course Search utility by their respective course attributes:

Writing across the Curriculum Requirement

Requirement Structure
Students must take one course at or above the 300 level in any part of the University that provides opportunities for formal and informal writing, with opportunities for revision. The course must be taken after the student has attained junior standing at the University. Courses meeting the Writing across the Curriculum requirement can be found in the online Course Search utility each semester using the course attribute.

Exemptions
None.

Learning Outcomes
- Refine habits conducive to good writing developed at earlier stages in core education and education in the major
- Use writing both as a tool for learning and as a means for communicating about ideas within a discipline or profession
Speaking across the Curriculum Requirement

Requirement Structure
Students must take one course at or above the 300 level in any part of the University that provides opportunities for formal oral communications assignments. Courses meeting the Speaking across the Curriculum requirement can be found in the online Course Search utility each semester using the course attribute.

Exemptions
None.

Learning Outcomes
- Develop oral communications skills in the context of course- and discipline-specific materials
- Use oral communications assignments to aid students in mastery of course- and discipline-specific content

Students who matriculated at Butler in fall 2012 and after must fulfill Speaking across the Curriculum as a graduation requirement.

Indianapolis Community Requirement (ICR)

The Indianapolis Community Requirement is a civic-learning component of the Core Curriculum that immerses students in environments wherein they learn about civic-mindedness, diversity, social justice, and personal and social responsibility, and thereby enhances their academic learning while they become better citizens of their communities and of the world. ICR involves students in a wide range of innovative learning experiences that extend Butler classrooms into the Indianapolis community—to the benefit of students, the University, and the community alike. ICR courses can accelerate the process whereby students master the skills of their respective disciplines, enhance their understanding of personal and social responsibility, and develop intercultural competencies. Where volunteers may donate time to a project, the ICR is based on connecting experience outside of the Butler classroom to academic learning goals within the classroom. Courses meeting the ICR can be found in the online Course Search utility each semester using the course attribute.

Requirement Structure
Students must take one course in any part of the University that involves active engagement with the Indianapolis community.

Exemptions
None

Learning Outcomes
- Have an active learning experience that integrates classroom knowledge with activities in the Indianapolis community
- Use an experience in Indianapolis to further the student’s understanding of the nature of community and the relationship between the student and community
- Further students' commitment to service and ongoing involvement as community actors

The ICR program is coordinated by the Center for Citizenship and Community.

Center for Citizenship and Community

Butler University’s Center for Citizenship and Community (CCC) facilitates civic engagement for Butler students, faculty, and staff. The CCC serves to create innovative academic learning experiences that extend Butler classrooms into the Indianapolis community—to the benefit of students, the University, and the community alike.

The Center’s activities include:
- Bringing together community members and leaders with University faculty, students, and staff to address pressing community issues
- Coordinating the ICR and service-learning opportunities as they relate to University curricula
- Building courses and learning experiences that will help students develop the civic-mindedness that is foundational to becoming responsible citizens prepared to address future challenges

Butler Cultural Requirement (BCR)

Butler University has a rich set of cultural activities in the form of artistic performances, seminars, and public lectures that collectively comprise one of our most remarkable educational resources. The aim of the Butler Cultural Requirement is to engage students in these most valuable and exciting learning opportunities, and to encourage students to develop habits of participation in artistic and cultural events that will lead to lifelong engagement with the creative arts and public intellectual life.

Requirement Structure
Students must attend a total of eight cultural events on the Butler campus, such as lectures, performances, recitals, or exhibitions. Events eligible for BCR credit carry the BCR symbol. Ideally, attendance will be spread out over students’ time at Butler, but this is not required. Transfer students must complete at least one BCR credit for each semester enrolled at Butler University.

Exemptions
None

Learning Outcomes
- Discover that some of the most valuable and exciting learning opportunities at Butler take place outside of the classroom
- Develop habits of participation in artistic and cultural events that will lead to lifelong engagement with the creative arts and public intellectual life
Academic Programs

Butler University’s challenging learning environment includes a wide range of academic programs steeped in the liberal arts, which provide excellent career and graduate school preparation. Butler offers more than 60 major academic fields of study in six colleges: the Colleges of Liberal Arts and Science, Lacy School of Business, Communication, Pharmacy and Health Sciences, Education, and the Jordan College of the Arts. Graduate programs are available within five of the six colleges. Continued partnerships include the Engineering Dual Degree Program with Purdue University at Indianapolis, enabling students to obtain two degrees in five years—a bachelor of science degree from Butler as well as a bachelor of science in engineering from Purdue University. Butler also offers pre-professional programs in dentistry, law, medicine, physical therapy, seminary, and veterinary medicine. Butler is fully accredited by the North Central Association of Colleges and Schools. The University is licensed for teacher training by the Indiana Office of Educator Licensing and Development. University colleges and departments are accredited by their respective professional associations.

Majors, Degrees, Concentrations

Butler University’s six colleges offer the following undergraduate and graduate degrees:

Graduation Honors

Butler University students may graduate with University honors, departmental honors, or both. To be eligible to graduate with honors, a student must be an undergraduate who has completed at least 60 academic hours for a grade at Butler University.

University Honors

*Cum laude*—a Butler cumulative grade point average (GPA) of 3.70 or higher, or both a Butler cumulative GPA of 3.50 and completion of the University Honors Program

*Magna cum laude*—a Butler cumulative GPA of 3.70 and completion of the University Honors Program

*Summa cum laude*—a Butler cumulative GPA of 3.90 and completion of the University Honors Program

Departmental Honors

The purpose of departmental honors is to recognize students for exceptional achievement within their major. Students are nominated for departmental honors by the head of the department of their academic major. Three levels of departmental honors are awarded:

- “in (major) with honors” is awarded to a nominee with a GPA of at least 3.60 in the academic major.
- “in (major) with high honors” is awarded to a nominee with a GPA of at least 3.70 in the academic major and who either completes an honors thesis approved by the department and the University Honors Program Committee or passes a comprehensive examination in the nominee’s major subject.
- “in (major) with highest honors” is awarded to a nominee with a GPA of at least 3.80 in the academic major and who both completes an honors thesis approved by the department and the University Honors Program Committee and passes a comprehensive examination in the nominee’s major subject.

All comprehensive exams must comply with five minimum standards. They must:

1. Be developed and administered by the departments or programs (i.e., GRE and other external standardized tests are not appropriate);
2. Be relevant to the student’s coursework in the department;
3. Include a written component;
4. Include a component that is common to all students, and that tests their understanding of core knowledge in the discipline; and
5. Include questions that require synthesis of ideas and comprehensive reflection about a substantial portion of the student’s departmental coursework.

University Honors Program

The Butler University Honors Program exists to meet the expectations of academically outstanding students in all colleges and majors who wish to develop their talents and potential to the fullest. It is designed—through a combination of honors courses, cultural events, independent study, and creative activity—to foster a diverse and challenging intellectual environment for honors students and to enhance the academic community by adding a distinctive note of innovative thinking and interdisciplinary dialogue. Students who have been accepted to Butler University with an application date prior to November 1 will be invited to apply to the University Honors Program if they meet any of the following criteria: a 1,980 or higher combined SAT score, 3.0 or higher composite ACT score, or they are in the top 5 percent of their graduating high school class. Admission decisions to the program for incoming students will be based on an application essay. Students with at least 16 graded credits at Butler University and a cumulative GPA of at least 3.60 also are invited to petition to enter the program by writing a letter detailing their interest as well as securing a letter of recommendation from a Butler professor.

The University Honors Program requires satisfactory completion of the following:

- **Honors Courses**—Four honors courses are required, including at least one HN200 and at least one HN300, in addition to either HN397 or HN398 and the departmental honors course most relevant to one’s thesis. A student must earn a minimum grade of B for an honors course to count toward completion of University Honors Program requirements. Honors First Year Seminar (HN110 and HN111) is taken in the first year. Students who do not take HN110 and HN111 in their first year must replace this experience with an additional HN200 or HN300 course.
- **Departmental Honors Course**—Students must take the designated departmental honors course within their department or college for credit. The designated departmental honors course does not count toward the four required honors courses.
- **Honors Thesis Proposal Course**—This course is typically taken during spring semester of the penultimate academic year. The product of the course (HN397 for one credit or HN398 for two credits) will be a thesis proposal, which will be submitted for review on the Friday before Spring Break.
- **Honors Thesis**—All University Honors Program students are required to complete an honors thesis. The thesis is a major research or creative project, usually (but not necessarily) in the field of the student’s major and advised by a full-time faculty member. The project begins following the approval of the thesis proposal, and the completed thesis is due during the semester the student intends to graduate. Each student must also deliver an oral presentation of her or his thesis before an audience at an appropriate forum.

Other Requirements

Honors Community Events: Students are required to attend eight honors community events during their first three years. These community events will be announced to all honors students and may include honors course speakers, honors course presentations, presentations/performances of undergraduate thesis work, community events sponsored by the Student Honors Council, and/or special events sponsored by the University Honors Program.

Sophomore Review: All students will be reviewed in their second semester of their second year (i.e., in the fourth semester at Butler). To remain active in the program, students must demonstrate satisfactory progress by having completed a minimum of 64 credit hours at Butler with a GPA of at least 3.4, and completed at least one honors course with a demonstrated timeline for completing the remaining courses by the expected graduation date.

All students have the right of petition to waive or substitute certain criteria.
Center for High Achievement and Scholarly Engagement (CHASE)

The University Honors program is coordinated by the Center for High Achievement and Scholarly Engagement (CHASE) office. CHASE provides a variety of services and support for Butler students who want to enhance their education by pursuing additional opportunities while at Butler and for those who wish to continue their education beyond Butler. Along with Honors, these include programs to support undergraduate research and creative activity, advising for professional school related to law and health, advising for competitive fellowships and scholarships, and domestic semester-away programs, including the Washington Learning Semester, described below.

For more information, contact CHASE at Jordan Hall, Room 153, 317-940-9581, chase@butler.edu, or visit www.butler.edu/chase.

Honors Courses

HN110, Honors First Year Seminar: This introductory course of the honors curriculum is designed to transition students from high school academic experiences to Butler’s Honors Program. A topic or subject area will be explored, allowing students to reflect on “big questions” about themselves, their community, and their world. Individual sections of HN110 will have more detailed course descriptions. Students who enroll in this course are expected to enroll in HN111 in the spring. Completion of HN110 and HN111 together will satisfy the requirements of FYS101, FYS102, and one HN seminar. Completion of HN110 alone will only satisfy the requirement for FYS101. Completion of HN111 alone (4 cr) will only satisfy the requirement for CCI02 or FYS102 (3 cr). Prerequisite: Must be registered in the University Honors Program, or receive permission from the director of the University Honors Program. (U)(4) Fall

HN111, Honors First Year Seminar: The second semester of the introductory course of the honors curriculum is designed to transition students from high school academic experiences to the world. Individual sections of HN111 will have more detailed course descriptions. Students who enroll in this course are expected to enroll in HN111 in the spring. Completion of HN110 and HN111 together will satisfy the requirements of FYS101, FYS102, and one HN seminar. Completion of HN111 alone will only satisfy the requirement for FYS102. Prerequisite: Must be registered in the University Honors Program, or receive permission from the director of the University Honors Program. (U)(4) Spring

HN200, In-Depth Honors Seminar: Students will participate in a comprehensive exploration of a single topic: a great book or an enduring text; a masterwork of music, art, dance, film, or drama; a particular individual (artist, author, historical figure, scientist, etc.); or a theory, institution, or organization. Individual sections will have detailed course descriptions. Prerequisite: Must be registered as active in the University Honors Program or have permission from the University Honors Program director. (U)(2) Fall & spring

HN300, Interdisciplinary Honors Seminar: Students will explore selected interdisciplinary topics of interest presented in an active and challenging learning format. Wide-ranging subject areas will be considered from multiple perspectives. Individual sections will have detailed course descriptions. Prerequisite: Must be registered as active in the University Honors Program or have permission from the University Honors Program director. (U)(2) Fall & spring

HN351, Honors Tutorial: In this tutorial, students will explore a topic guided by an instructor. Students will be required to submit an outline of a plan of study to the honors office early in the semester and a final instructor evaluation of the completed tutorial. Prerequisites: At least one HN110—HN111, HN200, or HN300 experience; the instructor’s consent; and approval by the University Honors Program director. (U)(1) Fall & spring

HN352, Honors Tutorial: In this tutorial, students will explore a topic guided by an instructor. Students will be required to submit an outline of a plan of study to the honors office early in the semester and a final instructor evaluation of the completed tutorial. Prerequisites: At least one HN110—HN111, HN200, or HN300 experience; the instructor’s consent; and approval by the University Honors Program director. (U)(2) Fall & spring

HN397, Honors Independent Study: Thesis Proposal: This course grants credit to honors thesis proposal writers and is required by the University Honors Program curriculum. Students are required to attend three proposal workshops during the semester; create a study plan with thesis advisor; submit the study plan to the honors office early in the semester; and submit a thesis proposal by the designated due date. Completion of the required departmental honors course is strongly recommended prior to enrolling in this course. Prerequisites: A provisional pass or pass for honors sophomore review, instructor’s consent, and approval by the honors director. Students with an approved honors thesis proposal may have the option to take XX499 (AN499, BI499, CH499, etc.) for three hours of graded credit in the department of the thesis. This is not a requirement of the University Honors Program. (P/F)(U)(1) Fall & spring

HN398, Honors Independent Study: Thesis Proposal: This course grants credit to honors thesis proposal writers and is required by the University Honors Program curriculum. Students are required to attend three proposal workshops during the semester; create a study plan with thesis advisor; submit the study plan to the honors office early in the semester; and submit a thesis proposal by the designated due date. Completion of the required departmental honors course is strongly recommended prior to enrolling in this course. Prerequisites: A provisional pass or pass for honors sophomore review, instructor’s consent, and approval by the honors director. Students with an approved honors thesis proposal may have the option to take XX499 (AN499, BI499, CH499, etc.) for three hours of graded credit in the department of the thesis. This is not a requirement of the University Honors Program. (P/F)(U)(2) Fall & spring

HN499, Honors Thesis: (U)(2) Fall & spring
International Education

Butler University encourages students to study in international settings as part of their academic experience. Students may choose to study for a semester, academic year, or during the summer. All students who wish to study abroad must apply through the Center for Global Education and are expected to select their program from the Center’s List of Approved Programs for Overseas Study. Students may study abroad during their sophomore and junior years, and possibly their senior year, if their academic plan approves their petition to intrude upon their final 30 hours at Butler.

Butler Semester in Spain Program

Butler offers a faculty-led program at the University of Alcalá de Henares each fall term. Butler students are able to take an entire semester’s load of 12 credits that can be applied toward the Spanish major and minor, or can count as electives. All participating students take one course with the Butler faculty director, while the rest of the courses are taught by professors at the University of Alcalá de Henares in courses designed for non-native speakers of Spanish. Students with superior Spanish language skills can petition to enroll in university courses for native Spanish speakers. The program includes guided excursions to other regions of Spain. All students live with carefully selected Spanish families, thus enriching their opportunities for cultural immersion. Students must have completed two 300-level Spanish courses in order to be eligible for the program.

Global Adventures in the Liberal Arts (GALA) Programs

Each spring semester, Butler offers a faculty-led study program in a particular world region. Previous destinations have been Europe, Latin America, South Africa, and East Asia. Up to 20 students travel to several countries in the region while taking four or five undergraduate courses taught by Butler faculty members. The courses are designed to satisfy Core Curriculum requirements that are usually undertaken in the sophomore year. Some cross-listing is possible in order to provide flexibility for students who already may have completed some of the core requirements included in the program.

Faculty-led Summer Courses

Students can take summer classes while traveling abroad with a faculty member and a group of Butler students. All the colleges at Butler organize three- to four-week summer courses in overseas locations. Students consistently report that these experiences offer a valuable opportunity to learn about the course content while visiting the actual locations they are studying.

International Exchange Programs

Reciprocal exchanges provide opportunities for Butler students to attend carefully selected partner universities abroad while students from those universities attend Butler, on a one-for-one basis. Butler has developed some of these exchange opportunities; others are available through the International Student Exchange Program. The University’s faculty and study-abroad advisor will work closely with individual students to select the program that best fits each student’s academic and personal development needs. Butler has established reciprocal student exchange relationships with premier universities in other countries, including Australia, Brazil, Canada, Chile, China, France, Germany, Hong Kong, Japan, The Netherlands, New Zealand, Spain, Switzerland, Taiwan, Turkey, and Wales.

A wide range of courses are available at the partner universities in areas such as business, education, languages and cultural studies, and many other disciplines in the arts and sciences. Students also have access to the comprehensive services available to all students attending the university, as well as the continued support provided by the Center for Global Education.

Butler is a member of the International Student Exchange Program (ISEP), headquartered in Washington, DC. ISEP is a worldwide network for international education, consisting of 340 institutions from more than 35 countries, through which students may exchange on a one-for-one reciprocal basis. Each student Butler sends to an ISEP member institution receives tuition, room and board, and other benefits as defined by the hosting institution. Since ISEP is a totally integrated program, students studying in countries where the language of instruction is not English must prove sufficient language proficiency in order to participate.

Study-Abroad Programs

Butler University has been fortunate to have a cooperative agreement with the Institute for Study Abroad (IFSA-Butler), founded on Butler’s campus in 1988. IFSA-Butler is one of the main study-abroad program providers for Butler students. The organization annually sends about 1,000 students from 400 U.S. universities to more than 90 universities in Argentina, Australia, Chile, Costa Rica, Egypt, England, Mexico, New Zealand, Northern Ireland, Republic of Ireland, and Scotland. IFSA-Butler is a separate service organization that helps students through the application process, assists with travel plans, arranges overseas housing, and advises on a variety of related issues. In addition to its Indianapolis office, IFSA-Butler maintains fully staffed offices in each country where it has programs. The overseas offices conduct student orientations, sponsor excursions, and provide various student services. All grades earned through an IFSA-Butler program are posted to an official Butler University transcript.

Students also may select their overseas study opportunity from programs offered by more than 15 other colleges, universities, and well-respected study-abroad organizations. All provide a wide range of student services and give careful attention to safety and security issues. Approved programs represent a broad range of geographic regions and areas of study. Educational opportunities may be classroom-based or experiential, including internships or service learning.

Tuition and Financial Aid Applicability for Study Abroad

In most cases, federal and state aid will apply to study-abroad costs if the student currently is receiving aid. Students who study abroad will pay Butler University tuition during their semester(s) abroad. Those who participate in the Butler Semester in Spain program and the Global Adventures in the Liberal Arts program as well as in reciprocal exchange programs—through Butler’s bilateral exchanges or ISEP—may apply 100 percent of their Butler institutional financial aid to their tuition for their semester(s) abroad. Those who participate in other approved study-abroad programs may apply 50 percent of their Butler institutional financial aid toward their tuition for their first study-abroad semester, and 25 percent for their second semester abroad.
Center for Global Education (CGE)

The Center for Global Education provides leadership, coordination, and administrative support for the comprehensive internationalization of the University. CGE manages all study-abroad activity; provides advising and organizes pre-departure and reentry sessions; and maintains Butler’s list of approved programs for overseas study. These programs offer a wide variety of options to Butler students interested in studying abroad during the academic year. All programs on the list meet Butler’s high standards for academic excellence. Students are expected to select their overseas study program from the approved list. The programs fall into two broad categories—reciprocal exchanges and study-abroad programs—in addition to some of Butler’s own programs. For more information, contact CGE in Jordan Hall, or visit www.butler.edu/global-education.

Domestic Off-Campus Programs

Washington, DC Learning Semester

Through its CHASE office, Butler University runs a semester-long program in Washington, DC, which features internships for Butler students from a wide variety of colleges and disciplines. Butler’s on-site program director identifies internship opportunities tailored to each student’s career interests and academic needs. Recent Butler student internships have been undertaken at the John F. Kennedy Center for the Performing Arts, the Israeli Embassy, Amnesty International, the White House, the United States Holocaust Memorial Museum, numerous offices in the Senate and House (including the Speaker of the House), and the Food and Drug Administration. During this semester, students also take courses specially designed to enhance their DC experience, such as The Public Arts of Washington, DC, and Our Nation’s Capital: How the Locals See It. Students register and pay tuition through Butler, receive their regular financial aid and scholarships, and earn credits in their degree programs. Information and applications are available on the CHASE website at www.butler.edu/chase.

DC300, Washington Semester Enrollment: Program includes academic seminars and supervised internship in the nation’s capital. Open to Butler students in all colleges. Internships are arranged according to student’s academic and professional interests. Prerequisites: Admission to the DC Program, second semester sophomore standing, and upper-level work in the field and approval by academic advisor. (U)(0) Fall & spring

DC301, Washington, DC Seminar: Offered in DC, a special topics seminar designed to make use of the learning opportunities particular to the nation’s capital. Available to students enrolled in Butler's Washington Learning Program. Approval by program coordinator required. Seminar is repeatable for credit. (U)(1) Fall & spring

DC302, Our Nation’s Capital: How the Locals See It: This course, as part of the curriculum of the Washington Learning Semester program, offers an experiential, multidimensional exploration of the neighborhoods of Washington, DC—not the city the tourists see, but the city the locals call home. During this course, our primary textbook will be our nation’s capital. Our emphasis will be on active learning, stressing the fundamental processes of discovery and observation. This active learning paradigm may lead us to public products, such as oral presentations, photographic displays, videos, etc., as well as written texts. (U)(3) Fall & spring

ROTC Programs

Butler students may enroll in Air Force and Army ROTC (Reserve Officer Training Corps) programs. Army ROTC courses (100 and 200 level) are taught on the Butler campus. Through classes and field training, Army ROTC provides the tools to become an Army officer without interfering with other classes. ROTC also provides students with discipline and money for tuition while enhancing the college experience. Students interested in enrolling in Army ROTC can start by taking an Army ROTC basic elective course that is open to all students. Talk to the Butler Military Science instructor about other ways to join Army ROTC and incentives available, including opportunities to compete for two-, three-, or four-year scholarships. More information: 317-274-0073, fax 317-274-0069, jlbarker@butler.edu, www.butler.edu/rotc. Air Force ROTC (AFROTC) courses are offered at the Indiana University campus, Bloomington, and also may be available for online administration or individualized distance-learning options depending on your schedule. All Air Force ROTC courses (100–400 level) include a separate leadership laboratory, which meets once each week. This laboratory augments the AFROTC academic curriculum by providing prospective Air Force officers the opportunities and feedback needed to develop the leadership, followership, managerial, and supervisory skills required of successful Air Force officers. More information: 800-HUB-ROTC, afrotc@indiana.edu.

Air Force ROTC Courses

AF101, The Foundations of the United States Air Force: This survey course is designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. (U)(2) Fall

AF102, The Foundations of the United States Air Force: This survey course is designed to introduce students to the United States Air Force and provides an overview of the basic characteristics, missions, and organization of the Air Force. (U)(2) Spring

AF201, The Evolution of USAF Air and Space Power: Features topics on Air Force heritage and leaders; introduction to air power through examination of the Air Force Core Functions; and continued application of communication skills. Its purpose is to instill an appreciation of the development and employment of air power and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. (U)(2) Fall

AF202, The Evolution of USAF Air and Space Power: Features topics on Air Force heritage and leaders; introduction to air power through examination of the Air Force Core Functions; and continued application of communication skills. Its purpose is to instill an appreciation of the development and employment of air power and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. (U)(2) Spring

AF301, The United States Air Force Leadership Studies: Teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. (U)(2) Fall
AI302, The United States Air Force Leadership Studies: Teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors. (U)(3) Fall

AI401, National Security Affairs/Preparation for Active Duty: Designed for college seniors and gives them the foundation to understand their role as military officers in American society. This overview of the complex social and political issues facing the military profession requires a measure of sophistication commensurate with the senior college level. (U)(3) Fall

AI402, National Security Affairs/Preparation for Active Duty: Designed for college seniors and gives them the foundation to understand their role as military officers in American society. This overview of the complex social and political issues facing the military profession requires a measure of sophistication commensurate with the senior college level. (U)(3) Spring

Army ROTC Courses

RZ101, Foundations of Officership: This course introduces you to issues and competencies that are central to a commissioned officer's responsibilities. Topics include leadership, values and ethics, fitness, and time management. Gain insight into the Army profession and the officer's role within the Army. Leadership labs, physical training sessions, and a weekend field training exercise are optional, but highly encouraged. (U)(1) Fall

RZ102, Basic Leadership: Learn and apply principles of effective leading by focusing on leadership theory and decision-making. Reinforce self-confidence through participation in physically and mentally challenging exercises involving land navigation, basic military tactics, and communication skills. Leadership labs, physical training sessions, and a weekend field training exercise are optional, but highly encouraged. (U)(1) Spring

RZ201, Individual Leadership Studies: Learn and apply ethics-based leadership skills that contribute to building effective teams. Develop skills in oral presentations, writing concisely, leading groups, advanced first aid, land navigation, and basic military tactics. The course concludes with a major case study. Leadership labs, physical training sessions, and a weekend field training exercise are optional, but highly encouraged. (U)(2) Fall

RZ202, Leadership and Teamwork: Draw on the various components of values, communications, decision-making, and leadership to learn about the unique purpose, roles, and obligations of commissioned officers. The capstone case study traces the Army's evolution from the Vietnam War to the present. Leadership labs, physical training sessions, and a weekend field training exercise are optional, but highly encouraged. (U)(2) Spring

RZ301, Leadership and Problem Solving: Build leadership competencies and prepare for success at the National Advanced Leadership Camp and as a commissioned officer. Practical opportunities to lead small groups and receive personal assessments make up the leadership development program. Instruction in troop-leading procedures is emphasized. Periodic leadership labs, physical training sessions, and a weekend field training exercise are mandatory course requirements. (U)(3) Fall

RZ302, Leadership and Ethics: Examine the importance of ethical decision-making in setting a positive climate that enhances team performance. Training also includes small-unit battle drills, road marches, combat water survival, a confidence course, and tactical reporting. Periodic leadership labs, physical training sessions, and a weekend field training exercise are mandatory course requirements. (U)(3) Spring

RZ401, Leadership and Management: Begin the transition from cadet to lieutenant. Focus on attaining knowledge and proficiency in several critical areas to operate effectively as Army officers. Coordinate activities, manage training, and lead the cadet battalion. Periodic leadership labs, physical training sessions, and a weekend field training exercise are mandatory course requirements. (U)(3) Fall

RZ402, Officership: This course completes the transition from cadet to lieutenant. Topics include the legal aspects of leadership, administrative and logistical management, and reporting to a new unit. A capstone exercise challenges cadets to solve problems commonly faced by junior officers. Periodic leadership labs, physical training sessions, and a weekend field training exercise are mandatory course requirements. (U)(3) Spring
Academic Enhancement Programs and Resources

Center for High Achievement and Scholarly Engagement (CHASE)

Administration

Rusty Jones, PhD, Faculty Director

Located in Jordan Hall, Room 153, CHASE provides services and support for Butler students who want to enhance their education by pursuing additional opportunities while at Butler and for those who wish to continue their education beyond Butler. Included are the University Honors Program; undergraduate research, prestigious scholarship/fellowship advising, pre-health advising, pre-law advising, and administration of the University’s chapter of the honor society Phi Kappa Phi. Additional information about CHASE-sponsored programs is available at www.butler.edu/chase or by contacting the Center at chase@butler.edu or 317-940-9581.

Undergraduate Research and Creative Activity

The Programs for Undergraduate Research (PUR) Committee and CHASE assist students in all disciplines to develop and complete research and creative endeavors in a variety of ways:

- The Butler Summer Institute (BSI) provides an opportunity for students to work one-on-one with a faculty mentor during the summer on a research or creative project. Students accepted to the program receive $2,500 and free housing for the duration of the program. In addition to conducting research and presenting their findings, students participate in seminars and other activities. Through the BSI, students can experience a close working relationship with a faculty member which, in turn, offers an opportunity to expand their scholastic and professional horizons.
- The Butler University Undergraduate Research Conference, held every spring, attracts more than 900 participants from colleges and universities around the Midwest and beyond. Oral and poster presentations are given in a wide variety of disciplines, and awards are given to the top four competitive paper authors.
- Student Thesis Grants defray some of the costs of conducting research necessary for completion of honors theses.
- Travel to Present Grants are available to defray the travel costs associated with presenting the results of research or creative endeavors at peer-reviewed international or national conferences.

Prestigious Scholarships and Fellowships

The CHASE office assists students in discovering and applying for national and international prestigious scholarships and fellowships, such as Fulbright, Goldwater, Marshall, Rhodes, and Truman scholarships. We guide students through the process of identifying awards suited to students' strengths and accomplishments, understanding the award application process, developing competitive applications, and completing the nomination process, and we also offer coaching via mock interviews. In recent years, Butler has enjoyed a distinguished record of success in these competitions. Most awards, but not all, support graduate study, and many support study at overseas institutions and also require institutional endorsement through an internal selection process. For more information about specific scholarship programs and internal deadlines, visit www.butler.edu/chase or contact CHASE at chase@butler.edu.

Pre-Health Professions (pre-medicine, pre-dentistry, pre-veterinary medicine, pre-optometry, pre-physical therapy)

Pre-health students may choose any major, but most students elect to major in either the biological sciences or chemistry. For admission, most professional schools require a minimum of one year of biology, one year each of general and organic chemistry, and one year of physics; however, the expectations of professional schools vary, and students should consult with their Butler advisor and the pre-health advisor concerning the requirements of the particular professional schools in which they are interested. Pre-health coursework varies according to the student's goal, but every student has the choice of completing a number of elective courses. These are offered both to enhance pre-professional training and to broaden and deepen the student's education. Students also may participate in research programs, shadowing experiences, and campus and community service opportunities. Many pre-health students also are in Butler's Honors Program. A science major (biology, chemistry, etc.) in the College of Liberal Arts and Sciences requires a minimum of 90 hours of coursework in that department as well as foreign language requirements. Regardless of the major area of study, courses in biology, chemistry, and physics are required to adequately prepare students for success in their professional field. Two pre-health faculty advisors schedule networking events throughout the year, mentor the Pre-Health Society (a recognized chapter of the American Medical Students Association), and work one-on-one with students to tailor an academic program to meet individual needs and career goals. Students' individualized academic schedules will allow them to meet all professional school entrance requirements and prepare them for the nationally administered entrance examinations for health professional schools. Students interested in pre-health advising should contact CHASE early in their academic careers.

Pre-Law

Butler pre-law students may choose any major. The Law School Admission Council advises that “Law schools want students who can think critically and write well, and who have some understanding of the forces that have shaped the human experience. These attributes can be acquired in any number of college courses, whether in the arts and humanities, the social sciences, or the natural sciences.” In addition, courses introducing legal principles may be helpful to students in assessing whether to continue to pursue law. Finally, courses in logic, mathematics, and analytical reasoning may enhance preparation for the Law School Admission Test. Students also may participate in engaged-learning experiences such as our Mock Mediation team, networking events, and internship opportunities in Indianapolis or in the Washington, DC Learning Semester. Students interested in pre-law advising should contact CHASE early in their academic careers.

University Honors Program

The CHASE office is the administrative home of the University Honors program. For more information, refer to the Academic Programs section of the Bulletin.
Washington, DC Learning Semester
The CHASE office is the administrative home for the Washington, DC Learning Semester, which places juniors and seniors in any academic discipline in an internship and allows them to complete interdisciplinary coursework. For more information, refer to the Academic Programs section of the Bulletin.

Internship and Career Services (ICS)

Administration
Gary Beaulieu, Director
Internship and Career Services provides Butler students and alumni with support in development of academic and career opportunities. ICS offers many individualized services to help students explore internship and career options, including help with résumé and cover letter development, practicing interview skills, job or internship searching, and networking with alumni. The office also leads the on-campus employment effort at Butler, which supports more than 1,200 student jobs and provides students with extra spending money as well as valuable work experience.
ICS offers additional resources. Students who need help deciding on a major or those who wish to look at career options for majors, for example, can do so through individualized career advising or interest assessments such as the Strong Interest Inventory, the StrengthsQuest, and the Myers-Briggs Type Indicator. Extensive information on a variety of topics involving occupation exploration, résumé development, interviewing, job searching, and networking are found on the ICS website. The office offers a variety of workshop options throughout the academic year to prepare students for the job or internship search. During the school year, many employers seeking interns or full-time employees visit campus to interview students. For students completing an internship over the summer months in Indianapolis, the Indy Summer Experience program allows them to live on campus and explore the city by participating in cultural activities and visiting local attractions. A complete listing of programs, employers visiting campus, and information about Indy Summer Experience is available on the ICS website at www.butler.edu/ics. To make an individual appointment, contact the office at 317-940-9383 or ics@butler.edu.

Learning Resource Center (LRC)

Administration
Riki Lawrence, Director
The Learning Resource Center is committed to supporting and guiding students as they strive to reach the highest standards of academic excellence. The office serves as a coordination site for services, programs, and resources that promote academic success. Services are designed to assist students who are interested in enhancing their study skills; who wish to explore a variety of academic, intellectual, and professional pursuits; who need help with their coursework; and who need one-on-one support to address areas of academic concern. Students are encouraged to take advantage of these support services early in their academic careers to enhance their prospects for success.
For questions and more information, contact the LRC at 317-940-9308 or learning@butler.edu, or visit www.butler.edu/learning.

Academic Success Workshops

Academic Success Workshops provide students with a comprehensive array of strategies and techniques that can assist in meeting the unique demands of college-level academics. Workshop topics may vary from semester to semester, but generally include topics such as time- and self-management, effective study habits, exam preparation, and effective reading and note-taking strategies.

Academic Success Coaching

Individual sessions are available to students interested in enhancing and refining academic skills. Students will gain insight into areas of academic strength and will identify strategies to address areas of concern. They will work collaboratively with an academic success coach to develop a plan of action to improve academic performance, and they will learn strategies and techniques to aid in approaching their coursework in an active, engaged, and goal-directed manner.

Study Tables and Peer Tutoring

Study tables are group walk-in tutoring sessions that meet regularly at a specified time and place. Individual departments coordinate study tables that are available in a variety of academic disciplines. This service is staffed by student moderators who have been chosen by the faculty based on their performance in the subject area. Students may come and go freely from study tables, where they have access to student moderators for questions and assistance. Individualized peer tutoring, coordinated through the LRC and requiring the endorsement of the course instructor, allows the student to meet one-on-one with a qualified and recommended peer tutor and to receive course-specific help for a particular subject area. This service is provided for a variety of introductory courses on an as-needed basis and is offered to the student for a limited time. Before requesting an individual tutor, the following conditions should be met:
- Endorsement by the course instructor is required
- Student must be attending all classes and laboratories
- Student must be completing all assignments to the best of the student’s ability
- Student must be attending departmental study tables if available for the subject
- Student must be working with the course instructor during office hours

In most cases, individualized tutoring is limited to one or two sessions per week for a limited number of weeks, depending on individual circumstances.

Exploratory Studies Program

Exploratory Studies is a structured program aimed at helping students identify interests, explore academic options, gain exposure to the career-development process, and gather information about majors and careers that interest them. Students who are undecided or who have multiple interests are encouraged to
exercise their intellectual curiosity through a number of programs and classes designed to help students determine their own best course of study. In addition, students receive specialized attention from trained academic advisors who assist students in their decision-making process. Program services include:

- Developmental academic advising
- Exploratory Studies class (LC103)
- Workshops and guest speakers
- Self-assessments
- Assistance in setting up job shadowing and informational interviewing opportunities
- Transitional advising for students who desire to change majors or add programs of study

Courses

LC100, Strategies for Success: This course is designed to offer tools and techniques to enhance academic success at the college level. Topics may include time- and self-management, effective classroom strategies, goal setting, and academic planning. The course will involve discussion and reflection on the proven strategies for creating greater academic, professional, and personal success. (U)(1) Fall & spring

LC103, Exploratory Studies: This course is specifically designed for first-year Exploratory Studies majors. Decision-making, self-assessment, academic exploration, and career planning are the foundational components. The course encourages students to reflect upon assessments, personal values, skills, interests, and decision-making styles while being exposed to various academic fields of study. Students apply this knowledge to investigate suitable career options. (U)(2) Fall

LC200, Peer Education: A training course for peer educators who participate in the PAWS (Peers Advocating Wellness for Students) or GEAR (Greeks as Educators, Advocates, and Resources) programs, designed to enhance knowledge and skills regarding collegiate health and wellness. Enrollment by permission of the coordinator for health education only. (P/F)(U)(1) Spring

LC201, Residence Life: College Student Development: A training course for resident assistants, designed to enhance skills in interpersonal communication, community building, programming, and counseling. By permission of the director of residence life only. (P/F)(U)(1) Spring

LC301, Career-Planning Strategies: Foundations for Success: This course is designed to teach lifelong career-planning skills critical to a smooth and successful transition to the workplace. Assignments include résumé composition, practice interviews, and career research. Additionally, students will learn to navigate challenges, while working toward independent career goals. This course is intended for juniors and seniors. (U)(1) Fall & spring

Student Disability Services (SDS)

Administration
Michele Attrerson, Director

Butler University is committed to providing equitable access for all members of the University community. For qualified students with disabilities, accommodations and support services are arranged on a case-by-case basis. Written documentation from an appropriate licensed professional should be submitted directly to SDS in Jordan Hall, Room 136. SDS staff will arrange an individualized discussion with students seeking services as part of the process for accommodation consideration. For further information, contact SDS at 317-940-9308 or visit www.butler.edu/disability.

Information Technology

Butler University offers a wide variety of technology services, ranging from University computing equipment to systems and network infrastructure, as well as technology consulting and support services for students, faculty, and staff.

Network Infrastructure

The Butler network is a joint effort between Information Technology and Facilities Management that provides voice and data services to the entire Butler campus. The network is accessible by Ethernet and wireless connection and provides connectivity for computers, printers, phones, and other IP-enabled devices. The network supports all generally accepted computing platforms (Macintosh, Windows, Unix/Linux) and is available to all students, faculty, and staff. Use of the Butler network is governed by Butler’s Computer Use Master Policy and other regulations. Visit www.butler.edu/it for more information.

Computing Labs

Butler University supports 20 student-computing facilities, several of which are open 24 hours per day during the fall and spring semesters. Standard applications include Microsoft Office, Adobe Creative Suite, and other software. All computer labs have access to Butler’s online library resources, printers, and network file storage. Most labs are available for use outside of scheduled class time. Visit www.butler.edu/it/labs for hours and locations.

Center for Academic Technology

Academic computing resources include the Center for Academic Technology (CAT)—a division of Academic Affairs located in the third floor of the Irvin Library—and the Information Commons, a collaboration between CAT and the Butler Libraries, also located in Irvin Library. Support includes one-on-one consultation and training, small-group training for students, faculty, and staff; faculty/staff development activities; and a lending library of digital tools for faculty and staff. For more information, visit www.butler.edu/cat.
Information Commons
The mission of the Information Commons is to provide student-led support for Butler University students in the academic use of technology. Student-consultants facilitate discovery and creation of information, academic technology assistance and training, library and research assistance, and training in the use of specialized content such as digital video, desktop publishing, social media applications, and Butler’s standard technologies, including ePortfolio. Consultants are available in Irwin Library, Jordan Hall, Room 037, or by individual appointment. Visit www.butler.edu/information-commons or contact Information Commons at infocommons@butler.edu for more information.

Electronic Resources
All students are provided with a Butler network account that allows access to most of Butler’s electronic resources. The most popular services are:
- Email and personal calendaring, Outlook.com/butler.edu
- Password management, login.butler.edu
- Moodle—course management, moodle.butler.edu
- My.Butler—grades, course registration, and student accounts, my.butler.edu
- BUFiles—network file storage, www.butler.edu/it/bufiles
- Google Apps—collaborate with others, www.butler.edu/it/google-apps
- PrintSmart—print allotments for academic printing needs, www.butler.edu/it/printsmart

Students also have access to networked printers, personal website hosting, and, through the library, access to 200 subscription-based databases.

Technology in University Housing
All University residences (residence halls and Apartment Village) have wireless and wired-network access as well as 24-hour computer labs. Each room has one connection to the campus cable TV network. Students may supply their own cable-ready TV. Basic cable is provided. Find more information about cable TV service and a full channel lineup at www.butler.edu/it/cabletv.

Students who connect personal computers to the Butler network are required to meet minimum standards by keeping their computer up to date and running a current antivirus program. More information on these standards, as well as computer recommendations, can be found at www.butler.edu/it.

Computer and Software Purchases
Butler provides discounts on a variety of computer hardware and software, including free antivirus software and Microsoft Office for students. Visit the IT website at www.butler.edu/it for more information and links to the online stores.

Print Services
PrintSmart is Butler’s print-accountability program. All students receive an allotment of print credits to use for their academic printing needs, and faculty and staff use PrintSmart to print, copy, fax, and scan. Print allotments help make the most responsible use of Butler’s printing resources and support our commitment to being environmentally responsible. All students should review the PrintSmart FAQ section in order to understand the allotment program and know what to expect when printing on campus. Visit www.butler.edu/it/printsmart for details.

Technology Support
All Butler technology is supported through the Information Technology Help Desk, which provides phone, email, web, and walk-in support. 317-940-HELP (4357), helpdesk@butler.edu, itrequest.butler.edu, www.butler.edu/it/help, Holcomb Building, Room 315.

Learning Assistance
Mathematics Tutoring Lab
The University Core Curriculum requires all students to take a course in Analytic Reasoning. There is a wide range of courses to fulfill this requirement. The Mathematics Tutoring Lab provides free help to students enrolled in prerequisite math courses such as MA101 and MA102, and the core courses AR210-MA, AR211-MA, AR212-MA, MA106, MA125, and MA162. Peer tutors are students majoring in mathematics, actuarial science, and/or mathematics education. The lab is open Monday—Thursday, 2:30–4:30 PM and 7:00–9:00 PM, and Sunday evenings, 7:00–9:00 PM. The lab is located in Jordan Hall, Room 272C, and is the longest-running tutoring lab on campus. Appointments are not required. For more information, call the Department of Mathematics and Actuarial Science at 317-940-9521 or 317-940-9441.

Modern Language Center
The Modern Language Center (MLC) is a multilingual facility to advocate and support second-language and culture acquisition. The MLC (Jordan Hall, Room 391) includes a comprehensive foreign-feature and instructional film collection, a large group-viewing area, film viewing stations for individuals, computers, a Smart Board, gaming systems (DS, Wii, etc.) with games in a variety of languages, and more. In addition to state-of-the-art facilities, the MLC hosts a number of activities including study tables, movie nights, and karaoke club to promote learning about language and culture. The MLC staff is trained in academic technology and research methodology to support all facets of language learning and teaching at Butler.

Speakers Lab
The Speakers Lab is a peer-to-peer tutoring organization that provides assistance in creating and delivering oral presentations. Services include topic selection, research, outlining, organization, and delivery. Located in the Fairbanks Building, Rooms 114, 116, and 140, the Speakers Lab is open at
varying times Sunday–Thursday. Walk-ins are welcome, though appointments are encouraged. To schedule an appointment, go to www.butler.edu/speakers-lab. For additional questions, contact Sally Perkins, sperkins@butler.edu.

Writers’ Studio

Writing is essential to intellectual life, the learning process, and professional development. University study involves communicating ideas, analysis, and information across a wide range of subjects and disciplines. Peer tutors at the Writers’ Studio (Jordan Hall, Room 304) are available to help other students at any point in the writing process. Assistance is available to generate ideas for writing, develop these ideas, and work on documentation, style, and editing. Hours are 10:00 AM–8:00 PM, Monday–Thursday; 10:00 AM–2:00 PM on Friday; and 2:00–6:00 PM on Sunday. Students can sign up for an appointment through our online scheduling platform (butlerws.setmore.com), by email (writers@butler.edu), by phone (317-940-9804), or in person. Additional writing resources and online tutorials are available at www.butler.edu/writersstudio.

Butler University Libraries

Administration

Julie Miller, Dean

The Butler University Libraries make available the materials needed to support study, teaching, and research in all areas of intellectual endeavor pursued at Butler. There are two libraries on campus. The Irwin Library includes the collections for business, education and curriculum, liberal arts, and performing and fine arts. The Ruth Lilly Science Library houses materials supporting studies in the fields of computer, mathematic, pharmaceutical, physical, biological, and behavioral sciences. The combined holdings of the Butler Libraries include approximately 100,000 e-books, 200 databases, 35,000 electronic journal subscriptions, more than 350,000 print materials, 16,000 audiovisual materials, and more than 17,000 musical scores.

Library faculty are available to offer individual research assistance through walk-up inquiries at the libraries’ information desks, via instant messaging at buanswers.butler.edu, by phone at 317-940-9235, and by appointment. Librarians also collaborate with assigned colleges and departments to provide discipline-specific, classroom instruction on library research skills. In addition, students can obtain basic research and technology support for their classes by visiting or contacting the Information Commons. This is a student-staffed, class support service in which students can receive basic research help or technology training related to their classes. The Information Commons service includes a walk-up desk in Irwin Library; numerous online communication options (texting, IM, email, and phone); and prearranged appointments.

The libraries’ website, www.butler.edu/library, serves as a portal to the libraries’ online and print collections and provides details about services, staff, policies, and hours. One place to start one’s research is at the subject LibGuides directory. Created by library faculty, LibGuides are available based on subject areas, Butler majors, and specific Butler classes.

Irwin Library

Dedicated in memory of William G. Irwin, a longtime benefactor of Butler University, Irwin Library provides seating for about 400 students at study tables, individual study carrels, and group/individual study rooms. Collaborative learning spaces are available where students can move soft seating to facilitate group work. Irwin Library provides access to desktop PCs and Macs, maintains a computer lab in the Information Commons area, offers laptops and iPads for checkout, and supports wireless access throughout the building. The lower level also houses a rich-media room, where students can record and edit audio and video presentations. The Hugh Thomas Miller Rare Books and Special Collections Room, located on the library’s third floor, houses early or rare books, prints, manuscripts, scores, maps, newspapers, and memorabilia. Special collections include the largest English-language collection about the Pacific Islands in the mainland United States and the most important Sibelius collection outside of Finland. This department also administers the University Archives and the Eliza Blaker Room.

Lilly Science Library

The Ruth Lilly Science Library is located in the heart of the Butler University science complex, on the second and third floors of the Holcomb Building. Comfortable furnishings and a skylight on the third floor create a pleasant and quiet atmosphere for research and study. The library can seat approximately 100 users, provides access to desktop PCs, offers laptops for checkout, and supports wireless access.

In addition to printed materials, the library maintains extensive DVD/video collections and provides online access to numerous science and technology databases. The library and its services are available to the entire Butler community. A science librarian is available weekdays for assistance.

Center for Faith and Vocation (CFV)

Administration

Daniel Meyers, Director

The Butler University Center for Faith and Vocation, or the “Blue House,” invites all Butler community members, inclusive of all faiths, philosophies, spiritualities, and questions, to discover lives of purpose, meaning, and contribution. Located across from the Schrott Center on Sunset Avenue, the Center is rooted in Butler’s belief that reflection on spiritual questions and commitments can support this discovery. We encourage open discussion, curiosity, and respect for the diverse and distinct views people bring to our campus community.

The CFV is home and a source of support for the many communities that together compose the multifaith religious landscape at Butler. There are numerous student religious organizations, such as the Butler Catholic Community, Butler Hillel, the Butler Muslim Students Association, and the Secular Student Alliance. In addition to the Orthodox Christian Fellowship, there are many Protestant communities, including Cru, Young Life, Grace Unlimited, and others. The CFV promotes interfaith engagement as part of the opportunity that comes with participating in plural communities; interfaith engagement is part of the CFV’s commitment to diversity and inclusion at Butler. As part of this commitment, the CFV works to facilitate an Interfaith Council that meets regularly throughout the year.
The Center also provides opportunities for reflecting on vocational direction as well as the big questions students are asking. As part of vocational reflection for students, we provide internships, one-on-one advising, salon-style conversations, and service projects. Butler faculty and staff are involved also, taking part in workshops to learn how to help their students understand what they are called to do with their lives. CFV staff are available for ongoing one-on-one discussions, and the director and other clergy are confidential resources.

Additionally, the Butler Seminar on Religion and Global Affairs is a signature series produced through the CFV, designed to engage the Butler community and the public on various relevant global issues related to religion. As part of Academic Affairs, the CFV seeks to convene discussion in various formats as part of our role to further the educational mission of the institution.

In close cooperation with faculty, staff, and members of the Butler community, the Center provides transformative learning experiences for students. Through spiritual exploration, personal reflection, and vocational discernment, we prepare students for a lifelong pursuit of personal and professional impact on the world. For more information, contact Daniel Meyers, dgmeyers@butler.edu, or visit www.butler.edu/cfv.

**Center for Urban Ecology (CUE)**

**Administration**
Julia Angstmann, Director

The vision of the CUE is to be a national leader in the engagement of undergraduate students in the study, research, and practice of urban ecology through established local leadership in urban ecology research and community engagement. CUE’s mission is to innovatively explore, steward, and enhance urban ecosystems. In the liberal arts tradition, we view urban ecology as inherently interdisciplinary and aspire to create a culture within Butler and in the city of Indianapolis that recognizes the fundamental importance of ecological knowledge for a sustainable society.

The CUE operates with a foundation in ecological science and facilitates interdisciplinary research and education, place-based projects, and public outreach by creatively engaging Butler students, faculty, staff, and community partners.

CUE activities include:
- Internships that place students with our campus and community partners for real-world experiences
- Interdisciplinary research projects sponsored by faculty and CUE staff
- Local food production and education on the CUE Farm, a 1-acre sustainable agriculture project
- Outreach programs with local nonprofit organizations, governments, and schools
- Campus sustainability initiatives

For more information, visit www.butler.edu/cue or email cue@butler.edu.

**Butler Institute for Research and Scholarship (BIRS)**

**Administration**
TBD

The Butler Institute for Research and Scholarship serves as the University’s office of sponsored programs and research integrity. Students interact with BIRS primarily through its research integrity programs, including the Responsible Conduct of Research component and the Institutional Review Board. All students who participate in research undertaken through a grant from the National Science Foundation and the National Institutes of Health are required to undergo Responsible Conduct of Research training. Butler uses the Collaborative Institutional Training Initiative, an online program that administers training modules to ensure compliance with federal research guidelines. All faculty, students, and staff who employ research methodologies requiring oversight, including working with human subjects involving quantitative or qualitative data, are directed to the BIRS to complete the required application. More information about Butler’s research compliance programs can be found at www.butler.edu/birs.
Campus Services

The Division of Student Affairs strives to integrate educational experiences and co-curricular programming into a campus setting with opportunities, challenges, and services that promote a student’s holistic development. Within the Division of Student Affairs, enhancing the overall quality of the life of students is our mission. Services include those for residence life, dining, Greek life, leadership and service programming, recreation, diversity programs, band and spirit programs, health programs, student conduct and Title IX case resolution, counseling, consultation, and commencement.

The Vice President for Student Affairs serves as the primary liaison for students and various segments of the University community. Rules and regulations governing student life are outlined in the Student Handbook and available on the Butler University website. The primary offices of the Division of Student Affairs are located in Atherton Union and the Health and Recreation Complex. The Office of the Vice President for Student Affairs is located in Atherton Union, Room 200.

John W. Atherton Union houses the University bookstore, Starbucks, the Marketplace dining room, many offices within the Division of Student Affairs, and Internship and Career Services. Atherton Union maintains numerous facilities, including student organization offices, the Volunteer Center, the Efroymson Diversity Center, meeting rooms, student soft space, ATMs, and a computer lab. Snacks, grill, and fountain items are available in the C-Club and Starbucks. The Programs for Leadership and Service Education (PuLSE) office, which is responsible for the operation of Atherton Union, is located in Room 101. Concerns regarding the physical space and maintenance of Atherton Union may be directed to the PuLSE office.

Campus Safety

The Department of Public Safety maintains a safe and secure environment for the University community. Student “Right to Know” information (mandated by the federal Clery Act) can be found on the department’s website at www.butler.edu/budp/annual-security-reports.

The Butler University Police Department is responsible for investigating incidents, traffic enforcement, issuing student identification cards, and providing assistance in emergency situations, including contacting local fire and ambulance services. Officers are on duty 24 hours a day, seven days a week. University Police are also responsible for coordinating crime prevention programs for students, faculty, and staff throughout each semester.

The Office of Environmental Programs is responsible for maintaining compliance with numerous federal, state, and local regulations that govern fire, safety, and environmental issues at Butler University.

Victim Advocate Program

The Victim Advocate Program provides 24-hour response, provided by a trained advocate throughout the academic year, to students who have experienced sexual assault or interpersonal violence. The needs of someone who has been sexually assaulted vary from person to person and over time. The victim advocate can help a student connect to campus or community resources that he or she would find most helpful and healing. To obtain assistance and an explanation of services, contact the program at 317-940-5572. To report a crime, contact Butler University Police at 317-940-9396. Additionally, programs and workshops regarding issues such as sexual violence prevention/response, dating violence prevention/response, bystander intervention, and healthy sexual choices are available through the Health Education and Outreach Programs office located in the Health and Recreation Complex, Room 101, 317-940-8511.

Policy on Sex Discrimination, Sexual Harassment, Sexual Misconduct and Domestic Violence and the Title IX Coordinator

Butler University actively fosters an inclusive environment of respect where differences are honored. All individuals who work, study, and participate in Butler activities have the right to be free of harassment and discrimination. To ensure that our campus addresses allegations of harassment and discrimination, the University adopted a comprehensive Policy on Sex Discrimination, Sexual Harassment, Sexual Misconduct and Domestic Violence, available through the Human Resources website at www.butler.edu/hr/policies. Addressed within this policy are sexual harassment, sexual misconduct, and sexual exploitation, as those actions are considered extreme forms of harassment. Additionally, the Non-Discrimination Policy (not including gender-based discrimination) addresses discrimination based on race, ethnicity, disability, age, and any other protected characteristic. The Title IX Coordinator facilitates the process for student-on-student policy violations. Butler University addresses these policies and topics of discrimination by regular communication of expectations and through the provision of programs and conversations.

The Title IX coordinator can be reached at titleix@butler.edu. Visit www.butler.edu/respect for detailed information.

Commencement and Student Recognition Programs

Butler University commencement ceremonies are coordinated within the Office of the Vice President for Student Affairs. The University hosts two commencement ceremonies each year (winter and spring), in which students receive their diploma on stage. An honorary degree is presented to an individual who may serve as the commencement speaker.

For close to 60 years, the University has recognized students of outstanding character, scholarship, engaged citizenship, leadership, and commitment to fostering diversity through the Outstanding Student Recognition—Top 100 program. Juniors and seniors are nominated and selected through an application process for Top 100 consideration. Once selected as a Top 100 student, candidates are given the opportunity to submit letters of recommendation for consideration to be a Top 15 Most Outstanding Student. Committees of faculty, staff, and alumni govern the selection process. Recognition by this program is considered to be a high student honor; students can receive the honor twice during their academic career.

The commencement and student recognition coordinator is located in the Office of the Vice President for Student Affairs, Atherton Union, Room 200. Visit www.butler.edu/commencement or www.butler.edu/top100 for detailed information.
Diversity Programs

The Office of Diversity Programs, located in the Efroymson Diversity Center, Atherton Union, Room 004, combines services designed to enhance the cultural diversity and awareness of the campus community and supports the admission and retention of students from diverse underrepresented populations. The director serves as advisor to several diversity student organizations and manages the Efroymson Diversity Center and the Morton-Finney Leadership Program. The director and staff also coordinate the Celebration of Diversity Distinguished Lecture Series, a collaboration between Butler University and the Office of the Mayor, and the campus-wide Celebration of Diversity, which presents thematic programming and events, including the Hispanic Heritage Celebration, the Martin Luther King Jr. Holiday observance, African-American History Month, Women’s History Month, and various diversity programs throughout the academic year.

Visit www.butler.edu/diversity for detailed information.

The Efroymson Diversity Center exists to enhance the personal development and academic success of students by preparing them to be active and responsible citizens demonstrating respect and appreciation for the diverse cultures represented on campus, as well as the diversity inherent within our global society. The Center was made possible by a generous gift from Lori Efroymson-Aguilera, the Efroymson Family Foundation, and the Central Indiana Community Foundation.

The Office of Diversity Programs and the Office of International Student Services are housed in the Center, also known as “The DC,” which provides office space for several diversity student organizations. Center facilities include a multipurpose lounge/program area equipped with study tables, reception area, television and entertainment center, library and art gallery, kitchen, prep room, and storage space. For more information, call 317-940-6570 or visit www.butler.edu/diversity for a complete listing of programs and hours.

Health and Recreation Complex

The Health and Recreation Complex (HRC) houses recreation programs, Health Services, Health Education and Outreach, and Counseling and Consultation Services.

The Health Education and Outreach Programs Office addresses critical wellness issues affecting college students by coordinating peer-education programs, including Peers Advocating Wellness for Students; Greek Educators, Advocates, and Resources; and The Red Cup Culture Facilitation Team. The coordinator provides programming and consultation to students in areas related to wellness. The office is part of the Division of Student Affairs and is inside the HRC, Room 101.

Health Services, also located in HRC, suite 110, is available to all Butler students, with office hours posted at www.butler.edu/health-services. Services are provided by appointment, and walk-ins are accepted as the schedule allows. Registered nurses, mid-level providers, and physicians provide treatment in the Health Services office for minor accidents, sport injuries, preventive care, and illnesses on an outpatient basis. Providers are available Monday–Friday for wellness/preventive care, acute/chronic care, women’s and men’s health issues, and to address general health care needs on a personalized basis. Individual health insurance will be billed, so students need to bring their insurance cards when they visit. Co-payments and any balance owed may be directed to the student’s University account so that cash on hand is not necessary in order to be seen. To utilize Health Services, students must have submitted to myhealth.butler.edu a completed health history, a copy of a physical exam completed in the last 12 months, a copy of immunization records, and proof of health insurance.

Counseling and Consultation Services (CCS) helps students on an individual and group basis with academic and personal issues during the student's time at the University. Students seeking support and wishing to work on specific issues, such as relationships, depression, anxiety, grief and loss, sexual-assault survivorship, and other issues, do so through individual and group therapy. All counseling is voluntary, and CCS works within a short-term model to address concerns typically in no more than 10 sessions. Licensed psychologists and closely supervised interns staff the facility. The doctoral internship is fully accredited by the American Psychological Association. Students are seen by appointment. Students who wish to start counseling can phone 317-940-9385. Students seeking resources, information, and programs can also find those services at CCS.

The Recreation Department creates opportunities and environments that inspire people to participate in leisure activities, both passive and active. Through intramural athletics, challenge education, club sports, fitness, and aquatics programs, Butler Recreation supports the holistic development of Butler's students, faculty, staff, and alumni while being committed to upholding the mission of liberal arts and professional education.

Residence Life

The Office of Residence Life works to provide a living environment that is conducive to students’ intellectual, social, cultural, and personal development, as well as a positive living-learning environment in all campus residence halls. Any matters pertaining to housing, programming, food service, etc. should be directed to the staff members in Residence Life, located in Atherton Union, Room 309. Butler University provides a variety of housing options. All first-year students not living at home with a parent or legal guardian are required to live in one of the University residence halls. All sophomore and junior students (including those affiliated with a Greek organization) not living at home with a parent or legal guardian are required to live in University housing or an approved Greek housing unit of which he or she is a member. The housing requirement does not apply to fully employed persons who are residents of the Indianapolis metropolitan area and who wish to attend Butler on a part-time basis. Applications and agreements for campus housing are available through the Office of Residence Life. Leadership and employment opportunities such as hall government, unit representatives, desk assistants, and resident assistants are also available to students living within the residence halls.
Dining Services

An “All Access” meal plan is required for all residence hall students. An all-you-care-to-eat meal plan with “flex dollars” is featured in the plan. Students may dine as many times as they desire throughout established dining hours. Declining-balance flex dollars may be used at Starbucks, C-Club, Fairview Welcome Center, and the Dawghouse (a convenience store in the Apartment Village). Dining managers are available to meet with students about special dietary needs and restrictions. Additionally, any student who resides in campus apartments or off campus, as well as faculty and staff, are able to purchase meal plans or Dawg Bucks, which can be utilized in all dining venues. Members of Greek organizations may have the ability to secure meal plans through their respective fraternity or sorority. Dining Services offices are located on the main floor of Atherton Union.

Greek Life

Thirteen national Greek collegiate fraternities and sororities maintain chapters at Butler. The fraternities are Beta Theta Pi, Delta Tau Delta, Phi Delta Theta, Sigma Chi, and Sigma Nu. The sororities are Alpha Chi Omega, Alpha Phi, Delta Delta Delta, Delta Gamma, Kappa Alpha Theta, Kappa Kappa Gamma, Pi Beta Phi, and Sigma Gamma Rho. The Office of Greek Life, located in Atherton Union, Room 312, serves as the administrative focal point for all fraternity/sorority activities. The director works with and advises the Interfraternity Council, Panhellenic Association, and Order of Omega leadership, in addition to individual students and organizations. The director is responsible for overseeing recruitment, working with house directors, serving as liaison to alumni/almannae advisory and housing boards, organizing educational and leadership workshops, and providing individual and group advising for fraternity/sorority members.

Leadership and Service Programs

The Office of Programs for Leadership and Service Education (PuLSE) strives to promote student learning and development through involvement, leadership and service opportunities. The staff of PuLSE encourages the development of students into critical thinkers with the ability to lead, serve, and contribute to their communities and commitments through programming, education, and practical experiences.

To accomplish these goals, PuLSE staff members advise the Student Government Association; oversee campus-wide weekend and late-night programs; work with more than 150 student organizations; coordinate leadership programs including Emerging Leaders; and supervise the student-run Volunteer Center, which connects students to service opportunities with Indianapolis agencies. PuLSE furthers service initiatives by organizing Ambassadors of Change, Bulldog Impact, and Butler’s Day of Service, which are organized by examining the Butler community and creating meaningful opportunities for Butler students, alumni, and employees to make a difference in the local community.

The offices of the University Student Government and the Student Government Association oversee campus organizations, which represent student interest. The Student Government Association is comprised of student leaders, elected from student organizations, who advocate for the student body and develop and implement programs to advance the university’s mission.

University Band and Spirit Programs

The University Band and Spirit Programs encompass the marching bands, cheerleaders, and “Bulldogs,” the University costumed mascot. Student representatives are available for University-wide events, off-campus events, and athletic events. Students are encouraged to get involved in the Butler Marching Band, Basketball Band, cheerleaders, or mascot programs by visiting www.butler.edu/sport.

Spiritual Life

The spiritual and religious needs of the Butler community are addressed by a number of individuals and student-led groups. The Center for Faith and Vocation at the “Blue House” is home to many of these religious, spiritual, and philosophical organizations, including the Butler Catholic Community, Butler Hillel, the Butler Muslim Student Association, the Student Alliance, the Orthodox Christian Fellowship, and several Protestant groups including Cru, Young Life, Grace Unlimited, and others. Clergy and other CFV community advisors are available for individual conferences and spiritual counseling. Varied programs dealing with religious and spiritual concerns also are offered by the Center for Faith and Vocation. For more information, contact Daniel Meyers, dgmeyers@butler.edu, or visit www.butler.edu/cfv.

Athletic Events

Butler University is a Division I member institution of the National Collegiate Athletic Association (NCAA). Student-athletes at Butler are known as “Bulldogs” and proudly wear the official school colors of blue and white. All of Butler’s 20 teams, with the exception of football, compete in the BIG EAST Conference. Other BIG EAST Conference members are Creighton University, DePaul University, Georgetown University, Marquette University, Providence College, Seton Hall University, St. John’s University, Villanova University, and Xavier University. Butler’s football program competes at the Division I FCS level, as a member of the Pioneer Football League. Butler fields competitive programs for men in baseball, basketball, cross country, football, golf, soccer, tennis, and track and field, and for women in basketball, cross country, golf, lacrosse, soccer, softball, swimming, tennis, track and field, and volleyball. Information about Butler athletics is available at ButlerSports.com.

Visiting Campus

Students and their families are encouraged to visit campus. Students will develop a better understanding of the University through attending an information session, touring the campus, and interacting with current students. Visits are generally scheduled between 9:00 AM – 4:00 PM on weekdays, with Saturday visit options from 10:00 AM – 1:00 PM on most Saturdays during the academic year. Student-guided tours of campus are also available at various times throughout each day. In addition, several large visit programs are scheduled throughout the year. For more information and to schedule a visit, please visit www.butler.edu/visit.

First-Time Students

Prospective first-year students, regardless of major, are required to have the following academic preparation:

- Four years of English
- Three years of math, including algebra I, algebra II, and geometry
- Three years of laboratory science
- Two years of history or social studies
- Two years of the same foreign language

Butler University strongly urges all prospective students from Indiana to complete the CORE 40 or Indiana Academic Honors Diploma curriculum in high school. Students intending to major in science, engineering, pharmacy and health sciences, or mathematics are strongly encouraged to have additional units in science and math. Students intending to major in business or computer science are also encouraged to have additional units in mathematics.

In evaluating students’ credentials, the Admission Committee strives to determine potential for success in Butler’s rigorous academic programs, taking into account the following criteria:

- Academic achievement in high school (GPA, class rank, course selection, grade trends, and strength of school)
- Official SAT and/or ACT scores
- Writing sample, personal statement, or essay
- A Secondary School Report completed by your guidance office
- Résumé outlining extracurricular activities, work experience, and academic honors (optional)

All admission credentials must be received by the Office of Admission before the student’s application can be processed. It is the student’s responsibility to see that all required documents are sent. Admission decisions for students applying by the early-action deadline of November 1 will be released by mid-to-late December. Admission decisions for students applying by the regular decision deadline of February 1 will be released on a rolling basis through March 1. Admitted students have until May 1 to decide if they will attend.

All application materials become the property of Butler University and are kept on file for one year. Application materials as well as transcripts received from other institutions will not be returned to the student or released to another institution or third party.

Advanced Course Placement

Butler offers advanced course placement, with appropriate academic credit, in most subjects covered by:

- Advanced Placement (AP) examinations (administered to students in participating high schools), International Baccalaureate (IB) programs, or College Level Examination Program (CLEP) tests (administered at test centers). Applicants should request that their AP, IB, and/or CLEP scores be reported to the Office of Registration and Records.
- 100-level or higher coursework designated as Dual Credit or Dual Enrollment through another accredited institution.

Scores required for credit have been established by the appropriate department heads and are available in the Office of Admission and at www.butler.edu/admission.

A student who has not attempted to qualify for credit under these programs may be placed in an advanced course if the department head or senior faculty member in that area is satisfied that the student can handle the work. A student who wishes to receive credit for the course or courses bypassed should consult the appropriate dean and department chair or designated faculty member. Upon their joint recommendation, credit may be awarded on the basis of the student’s performance in the advanced course.
Applying for First-Year Student Admission

Application Methods

Students who wish to complete the Application for First-Year Student Admission and Scholarships may apply at www.butler.edu/apply or submit the Common Application at http://www.commonapp.org. Butler gives equal consideration to both the Butler and Common applications.

Arts Applicants

All prospective students must submit a Jordan College of the Arts program application in addition to the Butler University Application for First Year Admission. They must also complete an audition, interview or portfolio review depending on the area of study. Both applications must be on file one week prior to the audition, interview or portfolio review. An on-campus or regional audition is required for all dance and music applicants. An on-campus or regional audition or portfolio presentation is required for theatre applicants. An interview is required for all arts administration general applicants. A portfolio review is required for Art + Design applicants.

High School Students

Students may apply for First-Year Student Admission upon completion of the sixth semester of high school. Students attending high school in the United States or similar institutions overseas should submit the following:

1. Application for First-Year Student Admission
2. Official high school transcript showing coursework completed through at least the sixth semester of the junior year, and, if the student is currently in high school, a list of courses for the entire senior year
3. Secondary School Report from the high school guidance office—all admitted students must submit an official final transcript indicating the date of graduation from a secondary school approved by a state or regional accrediting agency
4. Official score reports of the SAT and/or ACT. Score reports should be sent directly to Butler University (codes: SAT 10773; ACT 11850)
5. Writing sample, personal statement or essay
6. List of activities/résumé (optional)

International Students

Students who are not U.S. citizens or U.S. permanent residents should submit the following application items:

1. Application for International Undergraduate Admission and Scholarships; no application fee is required.
2. Original or official certified/attested true copies of transcripts from each secondary school (high school), college, or university attended. All transcripts must be sent directly from each school to the Office of Admission in separate sealed envelopes and must be accompanied by certified English translations, if needed.
3. Test scores. International students must submit at least one of the following tests:
   a. Test of English as a Foreign Language (TOEFL) score of 550 (paper-based test) or 79 (internet-based test).
   b. Scholastic Aptitude Test (SAT) Evidence-Based Reading & Writing score of 500. (Note: International students are required to submit SAT scores if they wish to compete in varsity athletics; all others are strongly encouraged to submit their scores.)
   c. American College Test (ACT) English score of 19.
   d. International English Language Training System (IELTS) score of 6.0.
   e. Michigan English Language Assessment Battery (MELAB) score of 80.
   f. London or Cambridge General Certificate of Education (GCE)/General Certificate of Secondary Education (GCSE) English Language Exam grade of A or B.
   g. International Baccalaureate (IB) Higher Level English exam score of 5–7 or grade of A or B.
4. Essay: Your personal statement/essay should include information concerning your life, education, practical experience, special interest, and specific purpose for applying to Butler University.
5. Secondary School Report and/or letter of recommendation from a guidance counselor or teacher.

Completing the Application for Form I-20

International applicants to Butler University must also complete Butler University’s Application for Form I-20*. This application will provide biographical information, an affidavit of support, and financial sponsor information Butler needs to issue the Form I-20 in the U.S. Citizenship and Immigration Services SEVIS information system. For the 2018-19 academic year, the estimated total cost used on Form I-20 for undergraduates is $56,740 for tuition, Room, board, fees, books, health insurance, and incidentals. Once you receive an I-20 from Butler University, you must pay the SEVIS fee and then schedule an appointment to meet with the nearest U.S. embassy or consulate to apply for a visa.

*Certificate of Eligibility for Nonimmigrant (F-1) Student Status—For Academic and Language Students

Home-Schooled Students

Butler welcomes candidates who have received a home-study-based education. As is the case with all Butler applicants, home-study candidates will be considered on an individual basis to determine an appropriate admission decision. A candidate may be evaluated for admission on the basis of six semesters of high school coursework. Home-schooled students are expected to present the following documents to the Office of Admission:

1. Application for First-Year Student Admission.
2. Official copy of the academic record indicating the GPA; a summary of all courses taught by the home school (curriculum list, bibliography); the title of each course completed by the student, the grade received, and the name of the instructor (if that person is different from the registered home
At Butler, our first-year students belong to Themed Living Communities (TLCs). In a TLC, students have the opportunity to make friends and engage with others. They will explore common interests, often in the context of the larger campus and/or Indianapolis community. By living in a TLC, students are able to make connections with others, embrace a sense of common community, broaden horizons, and start building relationships that will continue throughout their time at Butler, and beyond.
Transfer Students

Any student who has completed 12 or more hours of college coursework after high school graduation and is seeking to complete an undergraduate degree, or any student seeking a second undergraduate degree, is considered a transfer student and must submit the Application for Transfer Admission and Scholarships.

The admission of transfer students is made on a selective basis. In evaluating transfer applications for admission, the University takes into account the accreditation and the general quality of previous coursework. Applicants must be in good standing with their previous colleges/universities; a total cumulative GPA of 2.5 or higher is preferred for admission consideration for most majors, with no grades below C- in the most recent semester. Transfer applicants to the College of Pharmacy must have earned at least a B average (3.0/4.0) to be considered for entrance. Eligibility for consideration does not guarantee admission. Any transfer applicant whose high school record would not have met Butler’s requirements for First-Year Student Admission is required to demonstrate a strong record of college-level work after a minimum of one year of study.

A student who has completed fewer than 12 hours of successful college coursework after high school graduation will be required to meet the criteria as defined for First-Year Student Admission, in addition to submitting official transcripts of all college-level work.

Applying for Transfer Admission

Applications for transfer admission are reviewed on a rolling basis. (Students applying to the College of Pharmacy and Health Sciences should refer to the appropriate sections below.) To be considered for admission as a transfer student, students must submit the following:

- Application for Transfer Admission accompanied by the nonrefundable application fee. (The fee is waived for applications filed online.)
- Official transcripts from all colleges attended, sent directly from the schools to the Office of Admission. Only transcripts received from the registrar of former colleges will be treated as official. Concealing previous college attendance is grounds for denial and dismissal.
- Certification that the student is in good standing, not on probation, and eligible to return to that college.
- Official high school transcript indicating the date of graduation from a secondary school approved by a state or regional accrediting agency is required for transfer students with fewer than 20 college semester credits after HS graduation. Students who did not complete high school but successfully completed the General Education Development (GED) test, should submit official satisfactory GED results if they will have fewer than 20 college semester credits. Neither is required of students who have earned a four-year undergraduate degree.
- Official ACT or SAT scores (waived if applicant has graduated from high school or equivalent more than four years prior) for transfer students with fewer than 20 college semester credits after HS graduation/earning GED.
  - If the prospective student seeks to transfer into the College of Education, the student is required to have ACT of 24 or higher, SAT 1 of 1100 or higher, SAT R of 1170 or higher, or passing scores on the state CASA exam to transfer into the college
- Official results of Advanced Placement (AP) or College Level Examination Program (CLEP). Exam scores should be sent to the Office of Registration and Records.
- For international students: official results of the Test of English as a Foreign Language (TOEFL) indicating a score of 550 (paper-based), 213 (computer-based), or 79 (internet-based). We also accept IELTS, SAT, or ACT scores.

All application materials become the property of Butler University. Transcripts received from other institutions will not be returned to the student or released to another institution or third party.

Transfer Scholarships

Scholarships are available for students who transfer to Butler for fall and spring semester and enroll in a minimum of 12 credit hours of study per semester. Contact the Office of Admission for application deadline information.

College of Pharmacy and Health Sciences Transfer Applicants—Special Requirements

Pharmacy transfer applicants are considered only for fall entry. Previous applicants electing to re-apply to the College of Pharmacy and Health Sciences should submit a new application for admission and transcripts of additional coursework. The final decisions for determining which applicants will be admitted and which will be placed on the waiting list for the professional phase are made by the College's Academic Affairs Committee.

Pharmacy Applicants

Students transferring into pharmacy are required to study no fewer than four years at Butler University to complete the degree. Transfer applications for the pre-professional phase of the pharmacy program should be submitted to the Office of Admission by December 1 (postmark date). Students applying to the professional phase of the program should complete an application through the Pharmacy College Application Service (PharmCAS: www.pharmcas.org) by January 1 (recommended Butler deadline). Selected candidates will be invited to campus for an interview with faculty. Consideration for transfer admission into the program is limited to:

- Students with a minimum cumulative GPA of 3.0/4.0
- Students with less than a bachelor’s degree from regionally accredited schools in the United States
- Students who hold a bachelor’s degree from a regionally accredited school in the United States
- Students who hold a bachelor’s degree from a school outside the United States
- International students who also submit TOEFL scores as described above for transfer students

Enrolling in the University as a Transfer Student

Newly admitted transfer students must submit an enrollment deposit, which will be applied to the first semester’s costs. For students entering as transfer students in the fall semester, the deposit is refundable through August 1 (January 1 for spring semester). Fall semester deposits paid after May 1 are nonrefundable (after January 1 for spring semester). Admitted students who have not already earned a four-year undergraduate degree also must submit an official final transcript from the most recent college attended with most recent grades posted and the final high school transcript with graduation date posted.
Other Admission Options

Renewed Enrollment

Previously enrolled undergraduate students who have not attended Butler for one or more semesters, or previously enrolled graduate students who have not attended Butler for two or more semesters, must file an application for renewed enrollment with the Office of Registration and Records. The application can be found at www.butler.edu/registrar. Due to the sequential and cumulative nature of health science curricula, students seeking renewed enrollment in the College of Pharmacy and Health Sciences after an absence from the College of two semesters or more must seek approval for renewed enrollment from the dean. Remedial coursework and/or assessment of current knowledge and skills may be required as a condition for enrollment. An official transcript of any coursework taken since last attending Butler must be sent directly to the Office of Registration and Records from the college(s) attended.

Students seeking to renew enrollment into a program different from their previous degree, or at a new degree level, must submit the appropriate application to the Office of Admission. Students who have been dismissed for academic or disciplinary reasons during their previous enrollment at Butler also must be approved for readmission by the appropriate college dean.

Non-Degree

Applicants who wish to take courses for credit while not pursuing a degree may apply for non-degree status. Non-degree applications may be obtained from the Office of Admission or found on its website, and must be submitted to the Office of Admission one week prior to the first day of the term.

Non-degree applicants who have completed high school but who have not attended a college or university must have an official high school transcript (or a copy of their satisfactory GED results) sent to the Office of Admission to complete the application. Students who have attended a college or university must submit an official transcript from the last school attended indicating a C (2.0/4.0) or higher cumulative GPA and eligibility to return.

A non-degree student may apply only 18 hours of credit earned as a non-degree student toward a degree program. A degree-seeking student at Butler may not be reclassified as non-degree. The following are all non-degree options:

Audit for Enrichment

The Audit for Enrichment (AFE) program is designed for adults who have achieved at least a high school academic diploma to participate in some courses. With your first application, you will be asked to provide transcripts of your highest-level academic work. You will be notified of your acceptance into the program by the Registrar. Departmental approval is required for all AFE enrollments. Courses taken in this program will be designated as an “audit” on an official transcript and may not be changed to “credit” enrollment later in the semester. You may register as early as the first day of class, and all registrations are on a space-available basis.

The AFE fee ($125 per credit hour) together with all additional course-related fees are payable at the time of registration and are not refundable. For an application, visit the Registrar’s office in Jordan Hall, Room 133, or find it at www.butler.edu/registrar.

Gifted and Talented

Selected high school students may be admitted as non-degree students to take courses for college credit at Butler University while still attending high school. Enrollment in courses is based upon placement exam results and consultation with the academic department(s) and/or the Learning Resource Center. Credits earned may be applied toward a degree at Butler.

Such students must submit to the Office of Admission a non-degree application, a written recommendation from a high school teacher or principal, and a transcript indicating exceptional ability. The Admission Committee will review the application; depending upon the course selection, additional review by academic departments may be necessary. Students are limited to six hours of credit each semester.

Summer Guest Student

Students who are attending other collegiate institutions and wish to enroll at Butler as a summer guest student must submit to the Office of Registration and Records an application which can be found at www.butler.edu/registrar.

Non-Degree to Degree-Seeking Status

Students who have been attending Butler University in a non-degree capacity may apply for degree-seeking status by submitting an application for admission and following the guidelines listed in this Bulletin. Check with the Office of Admission or the Office of Registration and Records for the appropriate application dates.

Graduate Studies

Graduate Degree-Seeking Admission

The following information generally is applicable to all graduate programs. For exceptions and special requirements, refer to the specific admission requirements by college. Admission is based upon undergraduate grades and other information, as may be required for a specific program. Some programs may require standardized test scores (e.g., GMAT, MAT, GRE, etc.) in order to be considered for graduate admission. These test scores are valid for five years. Prospective students may visit the departmental website of their respective programs in order to obtain more information regarding standardized test requirements and waivers.

Students whose first language is not English must demonstrate English proficiency by taking either the TOEFL or IELTS exams. This requirement may be waived, however, if the student has already received a baccalaureate or equivalent degree from a regionally accredited university in the United States or other country in which English is the official language.
Butler seniors desiring to take graduate courses may make special arrangements with the dean of the college in which the graduate degree is to be earned. Credit for such courses will not be recorded on a graduate record until the bachelor’s degree is awarded and the student has been admitted to a graduate program. Note: Students must be degree-seeking MBA or MPA admits to be eligible to enroll in Lacy School of Business graduate-level courses.

Students intending to work toward an advanced degree must satisfy the prerequisites for the program. If prerequisites are to be completed, the student may, under some circumstances, be admitted with a stipulation that the courses be completed satisfactorily. If not admitted, a student may, depending on the college, enroll as a non-degree student while completing the prerequisites.

Graduate Non-Degree-Seeking Admission

A person holding a baccalaureate degree from a regionally accredited college or university who wishes to enroll in graduate courses at Butler University for purposes other than obtaining an advanced degree (e.g., for teacher licensure, to transfer to another institution, or for self-enrichment) may file a non-degree application. The application may be obtained and submitted online at www.butler.edu/apply. An official transcript with an attached baccalaureate degree posted must be mailed or electronically sent directly from the issuing institution to the Office of Admission. Applications and supporting materials must be received one week prior to the first day of the term.

If a non-degree student chooses to enter a graduate degree program, the student must complete a graduate degree-seeking application and follow the application procedures for that graduate program. Check with the Office of Admission for exact dates. A maximum of 12 graduate credit hours completed as a non-degree student may be applied toward the selected degree program. Prospective students should check with individual colleges with regard to policies governing converting from non-degree to degree-seeking status.

Applying for Graduate Admission

Applications may be obtained on Butler’s website. All candidates for admission to graduate programs must submit the following:

- Application for Graduate Admission.
- Official transcript from each college or university previously attended, must be mailed or sent electronically directly from the issuing institution.
- International students must hold a degree from a school recognized by the government or educational ministry within the country.
- International students also must provide official financial documentation, as required by the Bureau of Citizenship and Immigration Services and the U.S. Department of State.
- Students whose first language is not English must meet a minimum level of proficiency in the English language and submit proof of this proficiency to the Office of Admission, unless they have already received a baccalaureate or equivalent degree from a regionally accredited university in the United States or other country in which English is the official language. Minimum English proficiency can be met by the following: Test of English as a Foreign Language (TOEFL) indicating a minimum score of 213 (computer-based test), 79 (internet-based test), or 550 (paper-based test); students not applying for the master of science in pharmaceutical science may choose to meet English proficiency by completing the International English Language Training System (IETLS) with a score of 6.0.

All application materials become the property of Butler University. Transcripts received from other institutions will not be returned to the student or released to another institution or third party.

Renewed Enrollment—Graduate Students

See Other Admission Options/Renewed Enrollment section above for general information. In addition, students enrolled in a graduate program at Butler University 10 or more years previously, as well as students seeking enrollment into a new degree program or degree level, must submit a new degree-seeking application (see Applying for Graduate Admission) and meet current admission requirements. Only coursework taken subsequent to the new admission will be counted toward degree requirements. All academic records, however, will be maintained so that the transcripts will reflect all of the studies and cumulative GPA undertaken at Butler University.

Graduate Transfer Credit

All work toward a graduate degree should be completed at Butler. However, under special circumstances and within certain limits, graduate work taken at a regionally accredited institution may be transferred and applied toward the degree. Note: Lacy School of Business graduate transfer credits must be from an AACSB-accredited institution. In order for credit to be transferred, a prospective student must receive a grade of A or B. All coursework must be approved by the student’s Butler University academic advisor. Subject to these restrictions, up to nine semester hours may be transferred in 30-hour programs and up to 12 hours may be transferred in 36-hour and longer programs. The student should file a transfer credit form with the Office of Registration and Records for acceptance of transfer credits.

Time Limitatinoons

Beginning at the time when their first graduate degree-applicable course is taken, students in 30-hour programs have five years to complete the degree requirements, and students in longer programs have seven years to complete the degree requirements.

Degree Requirements

Thesis/Project: Some graduate programs may require a thesis or scholarly project. Generally, three credit hours are allotted for a thesis/project, although six-hour projects may be authorized. Regulations governing the preparation and submission of the thesis are available from the college in which the work is being done. If a comprehensive examination also is required, half of the exam is allotted for the thesis defense. Students may contact their respective graduate program to see if their specific program requires a thesis.

GPA: Students must achieve a grade average of B or above in all graduate courses attempted. Courses in which a student earns a C-, D, or F will not be counted toward degree requirements. While grades below a C are not counted toward the completion of degree requirements, they are counted in determining the student’s GPA. In no case may a student take more than 12 credit hours in excess of the degree requirements in order to satisfy the foregoing GPA requirement. Any graduate student who fails to make satisfactory progress in the coursework—whether degree-seeking or non-degree-seeking—may be declared academically ineligible for additional enrollment.
Student Status

**Full-time:** An individual must take a minimum of six and a maximum of 12 credits of graduate-eligible courses per semester in order to be considered a full-time student. A petition can be filed for consideration of fewer credits for the final semester before graduation. International students with F1 visa status can be admitted for full-time status only. A maximum of four years is allowed to complete all the degree requirements.

**Part-time:** Prospective students should contact their respective program to determine the feasibility of part-time enrollment for timely completion of the degree.

- Applicants must comply with all admission requirements.
- Professionals admitted in the program must take a minimum of three credit hours per semester and complete all degree requirements within a maximum of seven years, with the didactic coursework being completed within five years of entry in the program.
- Research toward a thesis for the MS in pharmacy and health sciences program must be independent of research projects ongoing at the student’s place of employment and be publishable under an affiliation with Butler University.
- Research must be conducted during the course of the program.
- Part-time students will not be eligible for any financial assistance from Butler University.
- The research advisor for the MS in pharmacy and health sciences program must be a full-time faculty member in the College of Pharmacy and Health Sciences.

Financial Assistance

A limited number of stipends in the form of graduate assistantships will be provided to qualified full-time graduate students conducting research in College of Pharmacy and Health Sciences laboratories.

Graduate assistants will be required to work up to 20 hours per week on campus on projects assigned by the director of the graduate program, subject to valid immigration status. A full-time student must maintain a minimum cumulative GPA of 3.0 and show satisfactory progress in his or her research project in order to qualify for financial assistance. Stipends will be competitively awarded every year, with previous recipients given preference. Graduate assistantships will be limited to a two-year period for each recipient. Each student is required to pay regular tuition and maintain approved health insurance during the course of study. There is no assurance of financial assistance for any admitted applicant.

The freedom to leave the program, for any reason and at any time, will be available to all students; however, untimely withdrawal from the program causes financial and emotional distress to the University community. Therefore, to protect the University’s investment, it is the policy that any student accepting the stipend as graduate assistant is expected to complete the MS program. Any such student leaving the program prior to completion and without compelling reason will be required to pay back the full amount of the stipend that has been awarded by the University.
Tuition and Fees

Tuition, fees, and other charges paid by the student cover approximately 80 percent of the educational costs at Butler University. The University provides the remaining funds through income from its endowment and gifts from foundations, business and industry, alumni, and friends. Tuition and fee levels are set by the Butler University Board of Trustees and are subject to change by action of the board.

The college year consists of two semesters and a one-session summer school. The academic year includes the fall and the spring semesters. The unit of instruction is the semester hour, which normally signifies one recitation a week throughout a semester or an equivalent.

Educational Costs 2017–2018

Tuition charges are based on the number of credit hours (with the exception of PharmD, 6th year) and the college of enrollment. The rates are as follows:

Undergraduate Tuition LSB, COE, JCA, LAS, CCOM

Apartment Village (10-month contract)
- Single Room: $5,050/semester

Board Rates
- All Access Plan: $3,415/semester

Voluntary Meal Plans
- 40 Block Meal Plan: $670/semester
- 65 Block Meal Plan: $1,020/semester

The charges above do not include the cost of books, supplies, parking fee, or other incidental expenses students may incur during the course of the academic year.

Acceptance of Financial Responsibility

Butler University policy requires all students to complete the Acceptance of Financial Responsibility statement, accessible via my.butler.edu (located under the Finance section in the Student Center). Acceptance is required prior to enrollment each semester. The Acceptance of Financial Responsibility statement outlines the student’s responsibility for paying all expenses incurred, including any applicable penalties.

Payment Terms

Students who register through the early registration process for fall 2017 will receive an electronic billing statement (E-Bill), July 12, 2017, for tuition, fees, room, and board. (E-Bill notification is sent via a student’s Butler email address.) Payment is due in full August 1, 2017, if the student is not enrolled in the Monthly Payment Plan for fall 2017. Students not enrolled in the Monthly Payment Plan who have not paid in full by the first day of classes will be assessed a monthly finance charge of 1.5 percent (18 percent APR). Course registration may also be cancelled. Students who register after their regular registration timeframe will be required to pay all charges in full to receive grade or transcript information. If enrollment is added after the term or semester has ended, the student must pay for the course(s) before grade and/or transcript information will be released from the University.

Monthly Payment Plan Option

Butler University offers a payment plan that allows students and families to divide the semester charges (e.g., tuition, fees, room, board, etc.) into manageable monthly payments. There is a nominal participation fee of $25 (four payments). Further information regarding the 2017–2018 payment plan is available at www.butler.edu/student-accounts. A late fee of 1 percent of the past-due amount will be charged to your account if payment is not received by the due date on the E-Bill, or if the amount received is less than the payment indicated on your E-Bill. Payment plan participation may be jeopardized and discontinued after two missed payments or payments submitted that are less than the amount billed. If the payment plan is discontinued, the balance will accrue interest and will be due in full immediately. Students with past-due balances may also have classes cancelled. Individuals with past-due balances or poor payment histories with the University may be denied participation in the plan.

E-Pay and E-Bill

The Office of Student Accounts utilizes electronic billing (E-Bill) and electronic payment (E-Pay), for which information is available at www.butler.edu/student-accounts. Payment is accepted electronically by check (no fee) or credit card. Credit card payments include a 2.75 percent nonrefundable convenience fee. MasterCard, Discover, American Express, and Visa are accepted. Note: The Office of Student Accounts also accepts paper checks, cash, money orders, and 529 savings plan distribution for payment.
Prepaid Tuition

The University provides a tuition prepayment plan, which guarantees a fixed tuition rate for all prepaid semesters. The prepaid tuition rates are based on the first term in which the student participates in the prepaid program. This program applies only to students enrolled on a full-time basis in an undergraduate degree program or the PharmD program. The prepayment plan does not apply to graduate programs and does not apply to summer tuition charges. Contact the Office of Student Accounts for contract and cost information.

Federal Student Permissions

Federal regulations require that Butler University apply federal (Title IV) financial aid funds first to “allowable charges,” which are tuition, mandatory fees, and room and board charges contracted with Butler University. To apply any remaining federal funds to miscellaneous charges (e.g., bookstore charges, parking fee, health services charges, traffic fines, interest charges), the University is required to obtain student authorization. If authorization is not received before financial aid funds post to the student account, the federal Title IV funds will not be applied to miscellaneous charges. This may result in an outstanding balance on the student account, resulting in late fees and services restricted until the outstanding balance is paid in full. Students may grant permission for federal Title IV funds to pay miscellaneous charges at my.butter.edu. Navigation instructions are available at www.butler.edu/student-accounts. Once federal student permission is granted, it continues to be valid for future years. The permission can only be revoked if the student submits a written request directly to the Office of Student Accounts.

Tuition Refund Schedule

The official schedule is available at www.butler.edu/student-accounts. Students should refer to the refund schedule prior to making any schedule changes. Also, it is critical for students receiving financial assistance from any aid program (University, federal, and/or state) to contact the Office of Financial Aid before changing enrollment.

Withdrawals

Students who fail to attend class and/or pay tuition charges are not considered withdrawn from the course(s). Withdrawals must be made through the advisor or dean of the college in which the student is enrolled. All past-due balances must be paid before a student will be permitted to enroll for a new semester/term.

Butler University Return of Funds Procedures

Federal regulations require that, as a part of an institution’s Return of Funds Policy, an office or offices must be designated as the point of contact for students to begin the withdrawal process. The designated office(s) must document the date the student withdraws or otherwise provides official notification to the institution of the intent to withdraw. At Butler, the student’s college dean’s office is the designated office at which a student must withdraw. For medical withdrawals, the student should contact the Office of Student Affairs. The date of withdrawal will be utilized by the Office of Financial Aid in determining the amount of financial assistance that may be retained by the student, based upon the percentage of the enrollment period (semester) which the student completed to that point in time. In the case of a student who does not withdraw or otherwise notify Butler University of the intent to withdraw, the date used will be the midpoint of the payment period for which assistance was disbursed, unless the attendance records document an earlier or later date.

Credit Balance Accounts

The Office of Student Accounts requires students to complete a refund request form to receive a refund check for a credit balance on the account. However, if the credit on the account is due to federal (Title IV) financial aid funds, the Office of Student Accounts will issue a check automatically. If the credit balance is due to a federal Parent Loan for Undergraduate Students (PLUS), the refund check will be issued in the name of the parent borrower and mailed to the address on file for the PLUS borrower. If the student is anticipating a credit balance, it is recommended that a refund request form be completed regardless of funding sources. Refund checks are issued weekly while classes are in session. Forms must be submitted by end of day on Tuesday to receive a check on Friday. Refund checks are not issued when classes are not in session.

Unpaid Items Charges

A student who is past due in any debt to the University is not permitted to register in any school or college of the University and is not entitled to an official transcript, grade report, or diploma from the Office of Registration and Records until the indebtedness has been paid in full. Any check presented to the University that fails to clear the bank shall be subject to a nonrefundable $25 handling charge. If the check is for payment of a debt, it also will be considered as nonpayment. Any E-Check transaction that is rejected by either banking institution will be charged a nonrefundable returned E-Check fee of $25. Students may be assessed reasonable collections fees, attorney fees, and court costs without relief of evaluation and appraisal costs to collect outstanding balances. When a student is in possession of University property or owes a particular department for charges not applied to the student account, the department may call for a hold to be placed on a student’s record. The hold prevents the release of University records and future enrollment. This hold is removed upon confirmation from the requesting department.

Delinquent Bill Accounts

Students who have not met their financial obligations to Butler University will be refused grades, transcripts, and readmission. Delinquent accounts will be charged interest on the unpaid balance. Accounts that remain delinquent will be assigned to a collection agency. All costs of collection will be the responsibility of the student. Interest charges and collection fees will be charged to the student account.

Outside Billing

The University will bill a third party for tuition, room and board, and miscellaneous fees, provided that: 1) a voucher and/or written authorization is received by the Office of Student Accounts prior to the beginning of each semester; and 2) payment will be made on or before the first day of the semester. The University will not bill any employer or third party who pays upon completion of the course(s). Any balance remaining unpaid on the first day of the semester will be assessed a monthly finance charge of 1.5 percent (18 percent APR). If the third party will not pay the finance charge, the student will be responsible for
payment. Students will continue to receive a billing statement directly from Butler University until the account balance is paid in full. It is the responsibility of the student to contact the third-party payer to determine why a delay in payment has occurred.

**Business Services**

**Check cashing**: Up to $100 per day for enrolled students with a valid Butler I.D. during cashiering hours for the Office of Student Accounts. The University reserves the right to deny check-cashing privileges for students on financial hold or students with a history of returned checks with the University. The release of grades and/or transcripts will be prevented for any unpaid returned checks. Anyone with an unpaid returned check may lose check-cashing privileges.

**Money orders**: Available for purchase with cash only up to a maximum of $200 each for a $5 fee. A valid Butler I.D. must be presented to purchase a money order.
Financial Aid

Butler University offers a variety of financial aid programs based on academic excellence, performance ability, and the family’s ability to contribute. Financial aid may be offered in the form of scholarships, grants, student loans, and on-campus employment. Funding for these programs is provided by federal, state, and Butler University resources. Students who are seeking financial aid are encouraged to file the Free Application for Federal Student Aid (FAFSA) by March 1 each year and complete their financial aid file by May 1.

Any application materials or documents submitted to the Office of Financial Aid by the student or on his or her behalf become the property of the University and a permanent record of the Office of Financial Aid. The Office of Financial Aid is responsible for compliance with federal, state, and University regulations and guidelines. Financial aid counselors are available at 317-940-8200, 877-940-8200 (toll-free), or finaid@butler.edu. Financial aid information is available at www.butler.edu/financial-aid.

Butler University Gift Programs

Butler University awards gift assistance through programs like the Academic Scholarship, Jordan College of the Arts Award, Athletic Grant in Aid, and Butler Grant. These awards are available for tuition only to full-time undergraduate students pursuing their first bachelor’s degree, unless otherwise stated. Additional programs and details are available at www.butler.edu/financial-aid.

Federal and State Grants

Students who complete the FAFSA may be eligible for federal and state grants. Program details and application requirements are available at www.butler.edu/financial-aid.

Loans

Student loan programs are available for students who complete the FAFSA. Loans must be repaid and managed carefully. Additional information regarding loan programs is available at www.butler.edu/financial-aid.

Financial Aid and Study Abroad at Butler University

Butler University is supportive of students who wish to study abroad. Butler University funds may be used in the full amount for overseas study in an approved exchange program. An approved non-exchange program is limited to 50 percent of the award amounts for the first semester of overseas study and 25 percent of the award amounts for the second semester of overseas study. Butler funds are only eligible for two semesters of overseas study. The full amount of federal and state awards (i.e., Federal Pell Grant, Federal Direct Loans) may be used for the study-abroad semester, depending upon the cost of the program.

Other Financial Aid and Loan Policies

Leave of Absence Policy

To reserve merit awards if you leave the University for personal reasons, you must request a leave of absence from the Office of Financial Aid. The written request must be submitted prior to the 10th day of the semester for which the leave is requested. If the Office of Financial Aid approves the leave of absence, the merit awards may be reserved for a maximum of two semesters. Personal reasons may include those that are medical, financial, or experiential; however, attendance at another university or college does not qualify.

Outside Scholarships

According to federal regulations, scholarships received from donors outside of Butler University are considered to be a resource available to meet your financial aid eligibility. As a financial aid recipient, a student must report all outside scholarships from sources other than the federal, state, and University programs. The policy for treatment of outside scholarships is at www.butler.edu/financial-aid.

Satisfactory Academic Progress

Federal regulations require that all financial aid recipients make satisfactory academic progress toward a certificate or degree. The standards apply to all terms, regardless of whether or not the student received financial aid. The Satisfactory Academic Progress Standards can be found at www.butler.edu/financial-aid. In addition, students must meet the retention standards of the University as outlined in the Butler University Handbook.

Special Circumstances

If a significant loss of income is projected, resulting in circumstances that restrict your parents’ ability to contribute to your education, write a letter explaining the circumstances, and the Office of Financial Aid will review your situation. Special circumstances are defined as situations that the family has minimal control over: death, disability, loss of income due to lay-off, and unemployment. Voluntary circumstances are not eligible for consideration. Such voluntary items would include consumer debt, voluntary leave of employment, and loss of income due to change in job or school attendance.
Withdrawal

Before withdrawing from all classes, a student should visit the Office of Financial Aid. The University’s refund policy is administered through the Office of Student Accounts. However, federal law dictates that the refund of financial aid is calculated based on days of attendance (earned aid), which can result in a balance owed to the University or to financial aid programs.

Student Consumer Information

The Student Consumer Information regulations of the U.S. Department of Education require universities to provide students with access to certain information to which they are entitled as consumers. This information is available at www.butler.edu/consumer-information.
Academic Regulations and Definitions

All undergraduate students are urged to review the Student Handbook, at [www.butler.edu/student-handbook](http://www.butler.edu/student-handbook), which details the academic rules and regulations of the University. While academic advisors are available to help students plan their academic career, the Butler student is responsible for:

- Knowing and meeting degree requirements
- Consulting with an advisor prior to each registration period
- Enrolling in appropriate courses to ensure timely progress toward a degree
- Discussing issues related to academic performance

The availability of an advisor does not relieve the student of the responsibility for knowing and following the published programs and policies. Each student should become an expert on the program being pursued, and on the regulations and procedures of the University. A student must maintain high standards of conduct to continue in, and to be graduated from, the University.

Unit of Instruction

The school year at Butler consists of two semesters approximately 15 weeks in length and a 14-week summer term. Each course carries an approved number of semester hour credits. A semester hour is generally equivalent to one lecture per week, or two or three hours of laboratory work per week. Most degree programs require an average of 16 semester hours each semester for eight semesters. Neither more nor less credit than the amount stated in the Registration and Records student information system is permitted in any course.

Grading System

Each student is expected to attend all class meetings in which he or she is enrolled. Being absent from class therefore may affect the final grade assigned for the course. Butler is on a 4.0 grading system. When a student completes a course, one of the following grades with the corresponding grade points will be assigned:

- **A** 4.00 grade points
- **A-** 3.67 grade points
- **B+** 3.33 grade points
- **B** 3.00 grade points
- **B-** 2.67 grade points
- **C+** 2.33 grade points
- **C** 2.00 grade points
- **C-** 1.67 grade points
- **D+** 1.33 grade points
- **D** 1.00 grade points
- **D-** 0.67 grade points
- **F** 0.00 grade points

The following grades are not computed in the grade point average (GPA):

- **W**—Official withdrawal. Permitted through the 10th week of a fall or spring semester. Withdrawal deadlines for the summer term can be found at [www.butler.edu/summer/registration](http://www.butler.edu/summer/registration).
- **P**—Passing grade. Semester hours are counted as hours passed, but are not used in computing the GPA.
- **PV**—Pass with validation. Grade given in student-teaching classes to students who may be certified to teach.
- **AUD**—Audited course.
- **NC**—Enrollment in a course on a non-credit basis. A student may change from credit to non-credit in a course through the 10th week of a fall or spring semester. The instructor’s signature is required. An instructor may change the non-credit grade to withdrawal if the student does not attend class.
- **NR**—Grade not reported.
- **I**—Incomplete grade. This grade may be assigned by an instructor when exceptional circumstances prevent a student’s finishing all work required in a course. The “I” must be removed by the close of the semester after it was assigned. If the “I” is not removed within the stated time, or the student chooses to graduate without completing the class, the “I” will be changed to “X.”
- **X**—Unredeemed incomplete grade. This indicates no credit earned, no hours attempted, and no grade points.
- **T**—Transfer credit.
- **Z**—Undergraduate course taken by a graduate student; no credit or grade points earned.

Academic Standing

A student’s GPA is figured by dividing the total number of hours attempted into the total number of grade points earned. When a student’s cumulative GPA falls below 2.0, he or she is placed on academic probation. Excessive probation, or continued probation without improvement, can lead to the student being declared academically ineligible.

Repeat Policy

A student, with the approval of his or her advisor, may repeat a course one time that is not otherwise repeatable for credit. Upon completion of the subsequent attempt, only the second attempt will count in his or her GPA. When repeating a course, a student may not withdraw from the course or change the course credit registration to non-credit unless the student withdraws from the University. This policy shall apply only to courses taken at Butler. The same policy applies to graduate students.
Independent Study Policy
Not more than six hours of credit in independent study may be counted toward an undergraduate degree, except for students majoring in science, who may take a maximum of nine hours of independent study.

Dean’s List
Any degree-seeking undergraduate student earning at least 12 academic hours of graded credit in a given semester may be placed on the Dean’s List of the college of enrollment if the semester GPA is in the top 20 percent of all eligible students in that college. Courses taken under the pass/fail option do not count toward 12 academic hours of graded credit. The Dean’s List is calculated three weeks after the end of the semester.

Classification of Students
To attain a class standing, a student should have twice the number of grade points as hours attempted and have earned the following number of hours. Classifications are applicable to all colleges of the University.

<table>
<thead>
<tr>
<th>Classification</th>
<th>Hours Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>First-Year Student</td>
<td>0–28 hours</td>

<td>171+ hours</td>
</tr>
</tbody>
</table>

Registration
Each fall and spring semester, enrollment begins with a two-week rollout of individually assigned My.Butler enrollment appointments. Registration remains open until the fifth day of class each semester. Students must meet with their advisor before registering. Registration in any course for credit or in any course under the pass/fail option, or any change involving the addition of a course, is not permitted after the published deadlines. If a student wishes to make a change in his or her registration, permission must be secured from a student’s academic advisor and/or from the dean of the college in which the student is enrolled. Permission also is required if a student intends a complete withdrawal from the University. A student may register for an independent study course with permission of the department chair or dean concerned.

Consortium for Urban Education
The Consortium for Urban Education comprises the following higher educational institutions in and around Indianapolis: Butler University; Franklin College; University of Indianapolis; Indiana University Purdue University Indianapolis, including the Herron School of Art; Indiana Vocational Technical College; Marian University; and Martin University. The consortium allows a student of one member institution, under specified conditions, to enroll at another Consortium for Urban Education institution in a course not available at the home institution. Butler students interested in enrolling for a course not currently taught at Butler, but available at a member institution, are invited to consult the Registration and Records office, Jordan Hall, Room 133, 317-940-9442, or visit www.butler.edu/registrar for details.

Pass/Fail Option
The University permits students to elect up to four courses from their total undergraduate degree for pass/fail credit. Courses offered only as pass/fail credit are not included in this total. Courses required for graduation by the University Core Curriculum, individual colleges or departments, or in the student’s academic major or minor may not be taken as pass/fail. Students who have elected the pass/fail option earn credit and a “pass” grade for work equivalent to a D- or above. Courses taken for pass/fail do not count in the GPA if passed; if failed, they are counted as F. Upper-division courses taken pass/fail shall count for upper-division credit if passed. A change from pass/fail to grade credit or from grade credit to pass/fail shall not be permitted after the last day noted in the academic calendar. Pass/fail is not available to graduate students as an option, but some courses in the Jordan College of the Arts are designated as pass/fail.

Special Non-Credit
During the fall and spring semesters, full-time degree-seeking students may, with the approval of the department chair or dean whose subject matter is involved and if resources are available, register for a maximum of two courses per semester on a non-credit basis without additional tuition, with the exception of independent study and applied music (individual instruction) classes. Students should register for special non-credit courses at the end of the registration period.

Student Social Security Numbers
New students will receive a random student identifier when they are admitted that will be used as the student’s I.D. The Social Security number is a secondary identifier for all students. In accordance with federal and state law, students have the right to refuse disclosure of the Social Security number.

Final Year of Academic Residence
Normally, a student is expected to take his or her final 30 hours of academic work at Butler University; however, the dean of the college concerned may, for reasons deemed valid, allow intrusions up to 30 semester hours if the student has completed at least 64 semester hours at Butler with a cumulative GPA of at least 2.0.

Graduation
The student must submit an application for graduation through My.Butler by the specific dates as published in the academic calendar. In the year in which the degree is awarded, the diploma may be picked up several days after the commencement exercises in academic costume. If a student finds it necessary to have the degree conferred in absentia, he or she must notify the Office of Registration and Records at least two weeks before the commencement exercises. If the petition is approved, the diploma may be picked up several days after the commencement exercises or the student may contact Registration and Records to make arrangements to have the diploma mailed. No diploma will be released before the date of graduation.
Graduation with Major in Two Colleges
Majors may be obtained in two colleges of the University through the secondary major program. This option is available to a student in one college who completes a minimum of 39 hours in another college (30 hours in a major field and at least nine additional hours designated by the dean of that college). The secondary major is indicated on transcripts and in the graduation program; however, only one degree is awarded.

Graduation with Minors
Minors can be obtained in a college or department separate from the student’s primary major by satisfying the program as designated by that college or department. A minor consists of 18–24 semester hours; it will be indicated on transcripts.

Requirements for Graduation
All candidates for undergraduate degrees must complete the University Core Curriculum. All students with a previous bachelor’s degree are waived from the core. At least 45 semester hours of work must be completed at Butler. At least 30 of the 45 hours must be in the college granting the undergraduate degree. At least 40 hours of the total curriculum must be courses numbered at the 300 level or above. Candidates for undergraduate degrees must have at least a 2.0 GPA. Candidates for graduate degrees must have at least a 3.0 GPA.

All candidates in the College of Liberal Arts and Sciences must pass a minimum of 120 semester hours. Candidates in the College of Education must pass a minimum of 126 semester hours. Candidates in the Jordan College of the Arts must pass a minimum of 124–128 semester hours depending on the major. Candidates in the Lacy School of Business must pass a minimum of 121 semester hours. Candidates for the bachelor of science in health sciences must pass a minimum of 120 semester hours; master of physician assistant studies candidates will complete an additional year (52 semester hours) of coursework. Candidates for the doctor of pharmacy degree must pass a minimum of 210 semester hours. Candidates in the College of Communication must pass a minimum of 126 semester hours. Candidates who hold a bachelor’s degree from Butler University may earn a second baccalaureate degree from Butler; they must complete a minimum of 30 additional hours at Butler and must meet all the specific requirements for the second degree.
College of Liberal Arts and Sciences

Administration
Jay Howard, PhD, Dean; Stuart Glenn, PhD, Associate Dean; Jennifer L. Poor, PhD, Associate Dean for Student Affairs

College Website
www.butler.edu/las

The power, importance, and centrality of the liberal arts are affirmed daily in the College of Liberal Arts and Sciences (LAS). The College offers 32 majors and 32 minors across 12 departments and four programs in the humanities, the social sciences, and the natural sciences. Students in the College are encouraged and expected to explore different ways of understanding the world, to experience cultures diverse from their own, to practice critical thinking, to appreciate the value of and joy associated with learning, and to recognize the power their education provides them for personal gain and social change. A liberal arts degree from Butler positions students to do almost anything with their lives beyond Butler and to make a difference in their lives and in the lives of those with whom they interact.

We work on a daily basis to strengthen ties between students and faculty members. Students and their faculty mentors work closely together both in and out of the classroom. They conduct collaborative research projects, make joint presentations at professional meetings, and publish the results of their work in the literature of their disciplines. They talk about ideas, the future, and the world. And they very frequently remain in touch long after graduation.

We also believe that learning takes place in many settings in addition to the classroom. Students in the College of Liberal Arts and Sciences participate in internships in Indianapolis and around the world, and they regularly study abroad and in various field locations.

Core Values of the College of Liberal Arts and Sciences

The liberal arts’ basic and historic purpose is at once to teach us to think for ourselves, to act wisely and well in the world, and to undertake occupations useful to ourselves and others.

Liberal arts education seeks ultimately to open the human condition in its pains and joys, thereby to nurture our personal integrity, and to foster in us compassion and respect for those whose lives we share in our own communities and around the world.

Liberal arts education rests on a paradox: thinking soundly for oneself means first listening carefully to the thoughts of others. The liberal arts urge us to cultivate ourselves through the consciousness of others; careful attention to their ideas and actions help us refine our own.

Liberal arts education is pluralistic. It is composed of many voices, each appropriate to time and place, some discordant, none absolute. It seeks to develop in us wit to judge which skills are appropriate at which times. Liberal arts education is restless. It takes nothing for granted. Its characteristic activity is not uncritical assent but critical judgment. It scrutinizes sacred truths of every sort.

The liberal arts develop not only critical but also creative skills, not only rational analysis but also creative expression. They seek to develop and realize the fullness of the human personality. Their exercise aims as well at preparing students to educate themselves long after they have left formal school. Liberal arts education is meant to train its students for public responsibility, not just private good.

A liberal arts education is as much about the journey as the destination. It takes as much delight in the minute-by-minute quirks of learning as in the fulfillment of distant goals. It balances the will to know with empathy and wonderment.

The Latin word “ars” means at once skill, knowledge, and practice. A liberal arts education begins with the skills of language and thought.

It teaches us to read well; to listen well; to write clear, concise prose; to speak privately in conversation, publicly in discussion, and formally in speeches; to judge one’s audience and regard one’s own words through the eyes and ears of others; to learn proper ways of integrating and citing the words and thoughts of others into one’s own work; to do these things reasonably well in languages and worldviews other than our own.

It teaches us to set out a case or hypothesis or argument; to evaluate the rigor of others’ arguments; to find and judge information in libraries, on the internet, and in other repositories. It teaches us modes of ascertaining truth and falsehood; resourcefulness appropriate to moral and aesthetic judgment; methods of logical, experimental, scientific, mathematical, and statistical reasoning.

These skills allow us to tackle and solve increasingly difficult and challenging problems, appreciate sources of bias and means of overcoming them, and entertain arguments from dissonant points of view. They develop in us a sense of subtlety, depth, and complexity.

A liberal arts education sees the cultivation of these skills not only as an end in itself but also as a preparation for the pursuit of knowledge and the other purposes of human life. The Chinese I Ching (Book of Changes) well captures a fundamental quality of liberal arts education when it intimates that knowledge and practice cannot be mastered until they have been regarded from different perspectives.

As students of the liberal arts, we cultivate as fully as possible the legacy of human thought, imagination, creativity, and research; observe nature; confront and evaluate important theories that shape our understanding of the world and how to care for it; figure out how societies, our own and those of others, work and can be improved; weigh the costs and benefits of modern human life to the individual and the planet; seek to grasp and reduce the sources of human hatred and conflict; aim to understand and strengthen what inspires human cooperation; explore the workings of the human mind and body; unknot claims of teachers, politicians, advertisers, scientists, preachers, columnists, and your roommate; ponder history from the earliest epochs to the unfolding present; investigate the mechanisms of the cosmos, from the atom to the stars; delve into the past experiences of our own and other societies, as well as the current news; make ourselves at home in other cultures; make those from other cultures at home among ourselves; see the interplay between our beliefs about the natural world and our beliefs about religion, politics, and culture; search out purpose, ponder the meaning of life, scrutinize the human heart, and weigh conscience; discover the sweep of living systems, from microbes to biomes; learn to account for ourselves in a moral world that is neither black nor white; engage in a careful search for truth; know the ways of money and the nature of work; wrestle with ideas about God; fathom the relations between technology and human life; raise children—our own and those of others; consider the well-being of future generations; appreciate the beauty and uses of mathematics; forge agreements with loved ones, friends, and enemies; and engage ourselves in the principles, purposes, and practice of public life.

As students of the liberal arts, we do these things as part of a community with venerable roots—a community still evolving in space and time, a community of thought, imagination, value, labor, and action.
General Information

College Graduation Requirements—Bachelor of Arts Degree
Students may be graduated upon completion of 120 semester hours, including the Core Curriculum, 40 hours of upper-division work, the foreign language requirement, and a major in the College.

College Graduation Requirements—Bachelor of Science Degree
To receive a bachelor of science degree, students must, in addition to satisfying the regular University, College, and major requirements, complete at least 60 hours of courses in the natural sciences and mathematics—specifically courses in biological sciences, chemistry, physics, astronomy, mathematics, computer science, software engineering, and Core Curriculum courses in The Natural World and Analytic Reasoning.

Foreign Language Requirements
Students in the College of Liberal Arts and Sciences seeking the degree of bachelor of arts or bachelor of science must demonstrate competence in a foreign language by earning at least six hours of credit in one foreign language at the 200 or 300 level. Foreign language courses are offered at the 100 level for students in need of preparation for more advanced study. Although 100-level courses do not satisfy the foreign language requirement, they do count as credit hours toward the degree. All first-year students must take a placement examination. Further information is available in the Department of Modern Languages, Literatures, and Cultures and the Department of Philosophy, Religion, and Classics. American Sign Language (ASL) also fulfills the LAS language requirement. Students should contact the College of Communication’s Communication Sciences and Disorders program for more information on ASL. Students with Liberal Arts and Sciences secondary majors whose primary majors are in other colleges must fulfill the foreign language requirement.

Majors
Students in the College of Liberal Arts and Sciences must declare their majors in the office of the dean. They then will be assigned an advisor in the department of their major. Programs are planned in consultation with this advisor and bear his or her approval. Students who change majors must also declare this change in the office of the dean. Students may choose majors from any of the following fields in the College:

- Actuarial Science
- Anthropology
- Astronomy and Astrophysics
- Biochemistry
- Biology
- Chemistry
- Classics
  - Ancient Languages Track
  - Greek and Roman Culture Track
- Computer Science
- Criminology
- Economics
- English
  - Concentration in Creative Writing
  - Concentration in Literary Theory, Culture, and Criticism
  - Concentration in Literature
  - Concentration in Public and Professional Writing
- Environmental Studies
- French
- Gender, Women, and Sexuality Studies
- German
- History
- Individualized Major
- International Studies
- Mathematics
- Multilingual
- Peace and Conflict Studies
- Philosophy
- Physics
- Political Science
- Psychology
- Religion
- Science, Technology, and Society
- Sociology
- Sociology (with Specialization in Social Work and Social Policy)
- Software Engineering
- Spanish
- Statistics
All majors consist of at least 30 hours in the subject with a minimum of 20 hours in courses numbered above 299. Ten hours of each major must be completed at Butler University. Grades below C- and courses taken pass/fail do not count toward the major. Students may earn double majors (two majors within the College) or add a secondary major (a major in another college) to their major in the College of Liberal Arts and Sciences.

Combined Majors

Combined majors consist of at least 40 hours in closely related fields, with 20 hours of upper-division courses, and must have the approval of the chair of each department or program concerned.

To assist students considering combined majors, LAS departments have developed standard lists of requirements for certain combined majors:

- Anthropology and Religion
- Criminology and Psychology
- History and Anthropology
- History and Political Science
- Philosophy and Psychology
- Philosophy and Religion
- Political Science and Psychology
- Psychology and Anthropology
- Sociology and Criminology
- Sociology (with Specialization in Social Work and Social Policy) and Criminology
- Sociology (with Specialization in Social Work and Social Policy) and Psychology

Students may consult departments or the College of Liberal Arts and Sciences website for further information on these combined majors. They may also petition departments to consider other combined majors, or they may elect to propose an individualized major.

Minors

Students who choose to add minors to their programs indicate their choice on a form available in the office of the dean. They confer with the chair of the department for advising. The College offers minors in the following areas:

- Actuarial Science
- African Studies
- Anthropology
- Astronomy
- Biology
- Chemistry
- Chinese
- Classical Studies
- Computer Science
- Criminology
- Economics
- English
  - Concentration in Creative Writing
  - Concentration in Literature
  - Concentration in Public and Professional Writing
- Environmental Studies
- Ethics
- French
- Gender, Women, and Sexuality Studies
- Geography
- German
- History
- International Studies
- Mathematics
- Neuroscience
- Peace and Conflict Studies
- Philosophy
- Physics
- Political Science
- Psychology
- Race, Ethnicity, and Immigration
- Religion
- Science, Technology, and Society
- Sociology
- Spanish

A minor must consist of at least 18 hours of coursework in the subject. Ten hours of each minor must be completed at Butler University. Grades below C- and courses taken pass/fail do not count toward a minor.
Degree after Completing One Year of Professional Study

Candidates for the degree of bachelor of arts or bachelor of science may be permitted to spend their senior year in an approved school of medicine, dentistry, law, religion, or forestry, and may receive a degree from Butler University provided they complete the following:

- All Core Curriculum requirements of Butler University for the bachelor’s degree.
- Foreign language requirement of the College.
- 98 hours with a minimum GPA of 2.0. (Transfer students in LAS pre-professional programs who have successfully completed at least 64 semester hours at Butler University, of which at least 10 hours are upper-division, and who have a total of at least 98 hours, also may spend the senior year in professional school and complete the requirements for the BA or BS degree at Butler.)
- All requirements for the major.
- At the professional school, a number of credits equivalent in hours and grade points to the omitted work of the senior year at Butler University.

Preparation for Teacher Licensure

Students in the College of Liberal Arts and Sciences may seek a teaching license, but preparation for licensure is handled by the College of Education. Students may choose a primary major in the College of Education and a secondary major in the College of Liberal Arts and Sciences. Alternatively, students may choose a primary major in the College of Liberal Arts and Sciences, while taking courses required for licensure in the College of Education. In either case, advising concerning requirements for licensure is handled by the College of Education.

Associate Degree

To earn an associate degree, students are required to complete a minimum of 60 semester hours, including the University Core Curriculum, but excluding the Writing across the Curriculum and Speaking across the Curriculum requirements, and with a reduced number of Butler Cultural Requirement events. A cumulative GPA of at least 2.0 is needed to graduate. The elective hours taken as part of an associate degree program may be taken in a particular field or major. Students may consult the office of the dean of Liberal Arts and Sciences for further information concerning the degree.

In addition, the last 20 hours must be taken in residence at Butler unless permission for an exception is granted. Students who hold associate degrees may later earn bachelor’s degrees. To do so, they must complete a minimum of 15 additional hours at Butler University and all requirements for the second degree. A minimum of 20 hours of the associate degree must be taken at Butler University.

An associate of science (AS) degree is awarded if the majority of the elective hours are in a department that awards a bachelor of science degree to four-year degree recipients. Others receive the associate of arts (AA) degree.

Graduate Programs

Graduate programs in the College require a 30-hour major, plus a thesis, or a 36-hour major (non-thesis option), depending upon departmental requirements. The College of Liberal Arts and Sciences offers the following graduate degrees:

- Master of Arts in Literature
- Master of Arts in History
- Master of Fine Arts in Creative Writing

Information about these degrees is listed under the entries for the Departments of English and History and Anthropology.

For general information on applying and admission to any Butler graduate program or course, see the Admission Information and Requirements chapter. College- and program-specific requirements are detailed below.

African Studies Minor

Administration

Robin Turnure, PhD, Program Coordinator

The minor in African studies at Butler University is designed for students with any major who wish to enrich their program with study of one of the most interesting areas of the world. The program is interdisciplinary, drawing upon areas of the humanities, social sciences, and occasionally, the fine arts. Students are encouraged to individualize their programs with study-abroad experiences in Africa, if possible, or internships focusing on museums, performing arts organizations, communication and media agencies, or nongovernmental agencies. Note that faculty in the program may also offer special-topics courses with African content that may be substituted or added to the list of classes below.

Requirements for the Minor

The minor consists of 18–19 hours, with courses selected from the following (each 3 hours):

- AN 304, Medical Anthropology
- AN 315–Gender and Colonialism
- AN 360, People and Cultures of Africa
- AN 380, Medical Technologies, Bodies and Power in Africa
- FR 318, Introduction to Francophone Culture
- FR 334, Topics in Francophone Culture
- FR 485, Topics in Francophone Studies
- HST 305, Topic: Old and New South Africa
- HST 381, History of Africa
- HST 382, Modern Africa
- IS 350, Middle East and North Africa
• PO350, African Politics
• PO353, Gender and Sexuality Politics in Africa
• RL.368, Topics: From Ferguson to Soweto
• RL.368, Topics: Reconciliation, Religion and Politics
• PO985, Black Political Thought
• RL.354, Islam: Religion, Culture, Society

Additional courses with African content or focus that may count toward the African studies minor are offered throughout the University and may include African literature, international communication, African film, or other topics.

Study abroad: Students who complete a study-abroad program in Africa may count the credit from that experience toward the minor. For details, consult with the coordinator of the African Studies program (Robin Turner, Jordan Hall, Room 347).

Foreign language: Students complete the Liberal Arts and Sciences requirement in foreign language, with the recommendation that the language selected be one widely spoken on the African continent (such as French).

Department Website
www.butler.edu/biology

**Why Study Biology?**

Biology is the study of living things, including plants, animals, and microbes. A major in biology will provide you with a broad education in the biological sciences, exposing you to many different facets of this diverse science. Biological sciences is a liberal arts major, and therefore it is largely about teaching students how to learn and think about the world. Students will develop an understanding of the scientific method, a process that develops analysis and reasoning skills.

Students will learn to think logically, for example, by designing and following an experiment through to its conclusion and analyzing the results. Many students do not realize the amount of creative thinking and problem-solving skills that also go into biology; these will be developed as well. Biology majors also have the opportunity to hone their communication skills, both oral and written, as they present the results of their experiments.

While many of these skills are emphasized in the classroom, independent research projects with faculty members and external internships afford many students the opportunity to apply these skills to real questions and problems.

A biology degree is versatile. While many students major in biology as a prerequisite to medical or dental school, there are a number of other fields that students may pursue as well. Students may go on to work as lab technicians at hospitals, or at the state crime lab; others may go on to teach at the primary, secondary, or college level. Many choose to pursue environmental careers, such as working in forestry or parks, or even as an environmental lobbyist. Many biology majors choose to go on to graduate school, where they pursue research in genetics, ecology, cell biology, medical research, or any other of the wide variety of fields in biology. Many other career opportunities are available in biomedical research, agriculture, and environmental management, among other fields.

**Why Study Biology at Butler?**

The Department of Biological Sciences offers a curriculum emphasizing broad training in biology as the key to success in graduate school, professional school, teacher education, and technical careers. The major is built upon a strong foundation of core courses in the liberal arts, general biology courses, and biology electives to meet student interests. Students studying science should be exposed early and often to the methods of discovery, inquiry, and problem solving used by scientists to explain the natural world. Our faculty members are familiar with these methods as we apply them in our individual research programs, and we strive to develop such capabilities in our students.

Therefore, we give our students opportunities to actively use the tools of scientific investigation in the lab and the field through a variety of courses at the molecular, cellular, organismal, and population levels of biological organization.

Personalized attention is an important aspect of studying biology at Butler. Our biology class sizes are small relative to those at many institutions; even most of our introductory classes typically have fewer than 30 students, and many upper-level courses have fewer than 20 students. Classes are thus interactive learning environments that foster not only hands-on scientific inquiry skills, but also communication and critical-thinking skills that serve students well no matter what professional path they may choose after graduation.
The low student-to-faculty ratio also provides opportunities for students to gain more intensive experiences through independent study with a faculty mentor. During the academic year, students are welcome to register for research credits.

Another popular option, the Butler Summer Institute, is a nine-week program in which participants undertake independent projects they design with a faculty mentor. Student research is frequently showcased during the annual Butler Undergraduate Research Conference, which attracts college students throughout the Midwest each spring to present their research results to their peers. Students may also apply for funds to travel to other regional or national meetings via the Holcomb Undergraduate Grants program. Finally, students often co-author papers with faculty members for publication in professional journals or presentation at conferences. For example, recent joint student-faculty articles have been published in Biochemical Genetics, Evolution, Journal of Experimental Biology, Journal of Herpetology, Urban Ecosystems, and Animal Behavior.

Students studying biology at Butler also have opportunities for off-campus study, internships, and career exploration through special affiliated programs. For example, the Center for Urban Ecology educates and engages Butler students and citizens in the local community about the discipline of urban ecology and aims to create “citizen scientists” dedicated to continued stewardship of the natural world. Students can attend workshops, take classes, devise independent research projects, or participate in internship opportunities in ecology and environmental topics. Another option, the Smithsonian Tropical Research Institute (STRI) in Panama, is dedicated to understanding tropical biodiversity. The Butler-STRI partnership includes opportunities for students to serve as paid interns in Panama for existing research projects conducted by STRI scientists and for students to engage in new research initiatives with Butler faculty in Panama. Further, the partnership includes two field-based courses taught on site in Panama by Butler biology faculty. Students may also want to apply for biology internships, which are available throughout Indianapolis, the state of Indiana, and surrounding states.

Some students choose a major in biology as a gateway toward a career in health-related fields. Butler students who have qualified themselves with outstanding academic performance in the major have had great success in entering professional schools in medicine, dentistry, optometry, physical therapy, and veterinary medicine. Students receive individual advising by faculty on the selection of courses that will both satisfy the minimum entrance requirements and prepare them well for the professional school of their choice.

In addition, the pre-professional school advising area within the Center for High Achievement and Scholarly Engagement plans co-curricular activities, maintains a reference library of useful publications, and coordinates the application process.

### Biology Student Learning Outcomes

We expect that students will be able to show mastery of various types of learning during their progression through different types of courses in the major. By the time they complete the biology major, students should be able to:

- Demonstrate content knowledge and proficiency in using and explaining techniques essential to the study of fundamental areas of biology: genetics, cellular and molecular biology, and ecology and evolutionary biology
- Use and apply scientific literature properly to ask and answer questions in the biological sciences
- Design experiments and collect, analyze, and interpret data using graphical and statistical analyses, in order to evaluate hypotheses
- Communicate scientific ideas, concepts, and findings through writing and speaking
- Apply scientific findings to relevant societal issues

### Degree Programs

- Major in Biology (BS, BA)
- Minor in Biology

### Requirements for the Major

A total of 37 credit hours in biology are required. All first-year students must complete BI111 (Contemporary Issues in Biology) and the three fundamentals courses, which consist of BI210 (Genetics—Fundamentals), BI220 (Cellular and Molecular Biology—Fundamentals), and BI230 (Ecology and Evolutionary Biology—Fundamentals). BI230 is a prerequisite for all BI courses numbered 300 and higher. All students must also complete BI299—Biology Seminar (pass/fail) in the spring semester of their second year in the major. To acquire the remaining credit hours for the major, students must take biology electives at the 300 level or above; at least four of these electives must be lab courses. One of the electives must be an organism-based course chosen from the following: BI301, BI302, BI311, or BI338 (indicated with an asterisk below). All senior biology majors must complete BI480 (Biology Capstone). In addition, all biology majors must take general chemistry (CH105—106 or CH107). Note: BI325, Principles of Pathogenic Microbiology, cannot be counted toward the 37-hour minimum required for the biology major. Students will be allowed to use a maximum of three hours of independent study credit, internship credit, research, or honors thesis credit toward the 37-hour minimum required for the biology major.

Students must earn a grade of C- or better in all prerequisite courses as well as in all required courses for the major.

### Required Courses

- BI111, Contemporary Issues in Biology (first-semester majors and exploratory students only; transfer students and those joining the major after their first semester at Butler are exempt from BI111, but must complete an additional hour of biology elective credit at the 300 level or above)
- BI210, Genetics—Fundamentals
- BI220, Cellular and Molecular Biology—Fundamentals (prerequisite BI210 with a grade of C- or better)
- BI230, Ecology and Evolutionary Biology—Fundamentals (prerequisite BI220 with a grade of C- or better)
- BI299, Biology Seminar (pass/fail)
- BI480, Senior Biology Capstone (prerequisite BI230 and senior standing)

### Elective Courses

Note that all BI courses numbered 300 and above require BI230 with a C- or better except where noted below:

- BI301*, Principles of Zoology
- BI302*, Principles of Botany
- BI306, Mammalogy
The minor consists of 21 credit hours. Students must complete the three fundamentals courses (BI201, BI202, and BI203) and two BI elective courses with lab at the 300 level or above (excluding BI325).

**Core Courses Offered by Biological Sciences**

**NW200-BI, Biology and Society:** This course will examine current societal issues with biological connections, the role scientists and others play toward helping us understand these issues, and the underlying biological concepts for each topic. Course includes lecture and laboratory components. A course for non-science majors only. (U)(5) Annually, term varies

**NW201-BI, Environmental Biology:** Application of scientific principles to understanding and managing the environment. Emphasizes the human relationship with the environment and possible solutions to environmental problems. Lecture and laboratory. A course for non-science majors. (U)(5) Occasionally

**NW202-BI, The World of Plants:** Introduction to plant biology. How the anatomy and physiology of diverse plants help them to survive, reproduce, and benefit humans and ecosystems. Lecture and laboratory. A course for non-science majors. (U)(5) Annually, term varies

**NW203-BI, Genetics and Evolution:** A study of the significant concepts in molecular, organismal, and population genetics and the theory of evolution. All topics will be taught within their historical and contemporary contexts. Lecture and laboratory. A course for non-science majors. (U)(5) Annually, term varies

**NW204-BI, Survey of Biology:** A survey of the major concepts in the biological sciences. Lecture and laboratory. A course for non-science majors. (U)(5) Occasionally

**NW205-BI, Urban Ecology:** Exploring and Enhancing the Urban Environment of Indianapolis: The majority of the world’s population now lives in urban areas, but only recently have environmental scientists begun to explore the ecology in and of cities. This course uses the city of Indianapolis as a case study to understand the effect that cities have on the environment, the processes that take place in the urban ecosystem, and the opportunities cities hold for ecological restoration. Lecture and laboratory. A course for non-science majors. (U)(5) Annually, term varies

**NW206-BI, Life, Death, and Immortality:** How the HeLa Monster Did and Didn’t Change the World: A patient on a 1951 “colored” ward unknowingly contributed to science, changing medicine forever. Exploring the underlying biology/genetics through lecture and laboratories, we’ll also review the ethical, socioeconomic, racial, and gender issues related to these HeLa cells. (U)(5) Occasionally

**NW207-BI, Ecology and the Natural Environment:** This course will explore the foundational ecological principles that govern the interactions between species and the abiotic and biotic world and, in turn, determine patterns of distribution and abundance. Fundamental concepts of ecology at the population, community, and ecosystem levels will be emphasized. (U)(5) Annually, term varies

**NW261-BI-I, Food: Pasture, Table, Body, and Mind:** This course about food will encourage students to consider how food connects to both society and science and how society and science connect to one another. By using a framework of pasture, table, body, and mind, we will explore the ecological relationship

* Indicates organism-based courses, one of which must be taken as an elective for credit toward the major.
between a healthy environment and growing healthy food, the factors that influence our food choices, the constituents of food and how they contribute to our physical well-being, and the ways in which society and culture influence our eating habits. A course for non-science majors. (U)(5) Occasionally

PWB 115-BI, Cultivating Well-Being: This hands-on gardening course will empower students to make healthy food choices while learning how gardening can improve well-being. Students will be challenged to think about where food comes from, how to grow healthy foods at home, and the role gardening can play in a lifetime of well-being. (U)(1) Fall

SW 275-BI, Mental Illness: Biological, Psychological, and Sociological Perspectives: Mental illness affects nearly one-fourth of adults and involves both biological and social influences. This team-taught, interdisciplinary course will explore mental illness from biological, psychological, and sociological perspectives, including the methods used by researchers in each of these fields and the experiences of patients with mental illness. (U)(3) Fall

Biology Sciences Courses

BI 105, Introductory Cell Biology: An introduction to the basic principles of cell biology for first-year pharmacy students. The course will cover introductory chemistry, biochemistry, cell structure, metabolism, genetics, and embryology. Will not count for credit toward a major in biology. Only available to COPHS students. (U)(3) Fall & spring

BI 111, Contemporary Issues in Biology: This topic-driven course is designed to illustrate the connection between biology and current societal issues. In addition to coverage of background information, a portion of the course will be dedicated to problem-based activities and class discussions. (U)(3) Fall

BI 210, Genetics—Fundamentals: This course introduces students to basic principles of transmission and molecular genetics. Topics include meiosis, transmission genetics, gene expression, and mutations. Laboratories emphasize basic techniques. (U)(4) Fall & spring

BI 220, Cellular and Molecular Biology: Fundamentals: This course introduces students to basic properties and functions of cells and the molecules they contain, including the relationship between the structure and function of diverse cell types. Prerequisite: BI 210 with a grade of C- or better. (U)(4) Fall & spring

BI 230, Ecology and Evolutionary Biology: Fundamentals: This course introduces students to the basic theory of ecology and evolutionary biology. Laboratories emphasize experimental design, statistical analysis, and scientific communication. Prerequisite: BI 220 with a grade of C- or better. (U)(5) Fall & spring

BI 257, Human Anatomy and Physiology: A course for non-major students to relate structure and function in the human body. Prerequisite: CC 214P, any NW-BI course, or two of the following: BI 201, BI 202, and BI 203. (U)(5) Fall

BI 299, Biology Seminar: Attendance at and participation in the biology seminar series, including pre- and post-seminar reports. Biology majors are expected to complete this course during their second year in the major. Prerequisite: BI 230 with a grade of C- or better. (P/F)(U)(1) Spring

BI 301, Principles of Zoology: A survey of the basic principles of animal biology, covering the major animal groups, their evolutionary relationships, and their structural and functional characteristics. Prerequisite: BI 230 with a grade of C- or better. (U)(4) Annually, term varies

BI 302, Principles of Botany: A survey of the basic principles of plant biology, covering the major plant groups, their evolutionary relationships, and their structural and functional characteristics. Prerequisite: BI 230 with a grade of C- or better. (U)(4) Annually, term varies

BI 306, Mammalogy: This course will address the taxonomy, ecology, evolution, behavior, and economic importance of mammals. The laboratory portion of the course will emphasize the taxonomy of mammals and the observation and trapping/handling of small mammals. Prerequisite: BI 230 with a grade of C- or better. (U)(4) Occasionally

BI 307, Vertebrate Biology: Phylogeny, taxonomy, behavior, and life histories of the vertebrates. Prerequisite: BI 230 with a grade of C- or better. (U)(4) Occasionally

BI 308, Tropical Field Biology: Introduction to the habitats, distribution, and ecology of tropical fauna. Includes a field trip to a tropical habitat during the semester. Prerequisite: BI 230 with a grade of C- or better. (U)(3) Spring

BI 309, Local Flora: Collection, identification, classification, uses, and ecology of Indiana flowering plants. Learning the use of identification keys will be stressed. Prerequisite: BI 230 with a grade of C- or better or any NW-BI course. (U)(3) Occasionally

BI 311, Biology of Algae and Fungi: The biology of algae and fungi including structure, life histories, classification, physiology, ecology, and experimental aspects of algae and fungi. Prerequisite: BI 230 with a grade of C- or better. (U)(4) Occasionally

BI 314, Ornithology: This course will address the taxonomy, ecology, evolution, and behavior of birds. The laboratory portion of the course will emphasize the identification, function, and behavior of birds. Prerequisite: BI 230 with a grade of C- or better. (U)(4) Occasionally

BI 320, Animal Behavior: The adaptive behavior of animals is approached from physiological, developmental, ecological, and evolutionary perspectives. Prerequisite: BI 230 with a grade of C- or better. (U)(4) Annually, term varies

BI 323, Principles of Immunology: Basic concepts and techniques of immunology. Prerequisite: BI 105 or BI 230 with a grade of C- or better. (U)(2) Fall

BI 325, Principles of Pathogenic Microbiology: The course will address microbiological concepts/principles regarding the mechanisms of infection and disease of major organ systems as well as their control. Open only to students of the College of Pharmacy and Health Sciences. Prerequisite: BI 105, or BI 202 and BI 203. (U)(3) Spring

BI 339, Philosophy of Biology: A study of philosophical problems in biology. The course explores both theoretical problems within biology, like the evolution of altruism and problems of taxonomy, and philosophical problems that are influenced by biological theory, including the nature of morality and the status of religious belief. Prerequisite: BI 230 with a grade of C- or better or permission of instructor. (U)(3) Occasionally
BI390, Cell Biology: The structure and function of cells, including the properties of macromolecules, membrane structure, cell organelles, cell metabolism and energy relationships, cell division, and gene expression. Lecture and laboratory. Prerequisite: BI110, or BI120 and BI122. (U)(4) Annually, term varies

BI377, General Genetics: An introduction to the basics of both classical and modern genetics, with emphasis on human heredity. Prerequisite: BI110, or BI120 and BI122. (U/G)(4) Annually, term varies

BI401, Independent Study: Open to juniors and seniors who wish to do research with a biological science faculty member in an area of the animal and plant sciences. Permission of the faculty member and the chair of the biological sciences department required. (U/G)(1) Fall & spring

BI402, Independent Study: Open to juniors and seniors who wish to do research with a biological science faculty member in an area of the animal and plant sciences. Permission of the faculty member and the chair of the biological sciences department required. (U/G)(2) Fall & spring

BI403, Independent Study: Open to juniors and seniors who wish to do research with a biological science faculty member in an area of the animal and plant sciences. Permission of the faculty member and the chair of the biological sciences department required. (U/G)(3) Fall & spring

BI405, Topics in Biology: Study of a current biological topic. Prerequisite: BI230 with a grade of C- or better. (U)(1) Occasionally

BI406, Topics in Biology: Study of a current biological topic. Prerequisite: BI230 with a grade of C- or better. (U)(2) Occasionally

BI407, Topics in Biology: Study of a current biological topic. Prerequisite: BI230 with a grade of C- or better. (U)(3) Occasionally

BI408, Topics in Biology: Study of a current biological topic. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BI409, Topics in Biology: Study of a current biological topic. Prerequisite: BI230 with a grade of C- or better. (U)(5) Occasionally

BI411, Principles of Physiology: Analysis of the functions of all major systems of the vertebrates, with emphasis on mammalian physiology. Prerequisite: BI230 with a grade of C- or better. (U)(4) Annually, term varies

BI413, Vertebrate Histology and Microtechnique: A study of the structure of vertebrate tissues and the techniques used in microscope slide preparations. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BI417, Tropical Terrestrial Biology: This three-week summer field course will lead students to understand how climate changes the structure and function of terrestrial ecosystems through a comparative analysis of temperate and tropical environments. The first week begins on campus and examines the diversity of a temperate forest. The last two weeks are spent at the Smithsonian Tropical Research Institute (STRI) field station in Gamboa, Panama, where field exercises are used to explore the flora and fauna typical of tropical biodiversity. Visits by world-renowned STRI scientists will exemplify the types of research questions and methodologies used to study tropical communities. Field trips include bird watching, primate observing, frog and bat observing during night hours, and a canopy crane trip for a bird’s-eye viewing of the forest. Students are expected to keep a travel log and, towards the end of the course, they will develop their own research project, collect data, and give a presentation on their findings. Prerequisite: BI230 with a grade of C- or better or permission of the instructors. (U)(4) Summer

BI418, Advanced Ecology: An exploration of various topics in the field of ecology; specific topics vary with each course offering. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BI419, Conservation Biology: This course will focus on the biological principles that must be the anchor for the management and/or preservation of native flora and fauna. Conservation biology, however, is by necessity a multidisciplinary endeavor, and the course also deals with the social, political, and economic factors that weigh on conservation decisions. Prerequisite: BI230 with a grade of C- or better. (U)(3) Occasionally

BI423, Advanced Evolutionary Biology: An exploration of various topics in the field of evolutionary biology; specific topics vary with each course offering. Prerequisite: BI230 with a grade of C- or better. (U)(3) Occasionally

BI427, Microbial Ecology: Exploration of the distribution and abundance of microbes across multiple habitats such as natural environments, biotech, and the human microbiome. Laboratory focuses on the physiological and molecular methods for quantifying and identifying microbes in the environment. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BI430, Animal Development: A study of embryonic development, from the formation of gametes through fertilization and up to the development of the multicellular organism. Emphasizes will be on the anatomical changes during development and on the cellular and molecular events causing these changes. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BI431, Plant Development: An introduction to the cellular and molecular mechanisms important in the development of members of the plant kingdom, from multicellular algae to flowering plants. The laboratory will include techniques important in investigating developmental phenomena such as scanning electron microscopy and tissue culture. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BI432, Plant Physiology: Introduction to how plants work, including housekeeping functions (photosynthesis, mineral nutrition, water relations, metabolism), growth and reproduction, defenses, and responses to the environment. Laboratories include necessary anatomy but emphasize biochemistry and molecular biology. Prerequisites: BI230 with a grade of C- or better and CH106 or CH107. (U)(4) Occasionally

BI433, Advanced Cell Biology: This course will focus on developing a deeper understanding of the basic concepts in cell biology that were introduced in the fundamentals course (BI220). Lab will focus on application of cell biological techniques to the development of research projects. Prerequisite: BI230 with a grade of C- or better. (U)(4) Annually, term varies

BI434, Transmission Genetics: An in-depth look at the inheritance of traits in individuals and populations. Topics will range from classic Mendelian inheritance to quantitative genetics to epigenetics. The course will explore the topics through lectures and the discussion of primary literature and classic texts. Prerequisite: BI230 with a grade of C- or better. (U)(4)
BL435, Molecular Genetics: Molecular structure and biochemical function of a gene in viruses, prokaryotes, and eukaryotes as illustrated by original research literature. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BL436, Genomics, Bioinformatics, and Gene Evolution: This course will introduce students to the new, rapidly expanding fields of genomics, proteomics, and bioinformatics, as well as the overarching field of systems biology. Students will also learn what these new approaches reveal about how genes and genomes evolve. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BL438, Microbiology: Basic principles of microbiology and associated laboratory techniques. Lecture, demonstration, and laboratory. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BL440, Molecular Virology: This course will examine the fundamentals of virus structure and function. Themes include viral structure, genetics, diversity, evolution, epidemiology, and host-pathogen interactions. The laboratory component of this course will include virus culturing, titering, and core virological assays and approaches. Prerequisite: BI230 with a grade of C- or better. (U)(4) Spring

BL442, Comparative Biomechanics: Biomechanics uses physical principles to explore organism function. This course will cover basic principles of solid and fluid mechanics as they pertain to living organisms. Prerequisite: BI230 with a grade of C- or better. (U)(4) Occasionally

BL460, Cell and Molecular Neurobiology: This course covers cellular/molecular nervous system biology (i.e., nervous system structure/development, neuronal signaling/survival/regeneration, synapse formation/function). Labs involve independent research on neuronal function in C. elegans roundworms. Prerequisite: BI230 with a grade of C- or better or instructor permission; BI411 recommended. (U)(4) Annually, term varies

BL480, Biology Capstone: This course provides a capstone experience, a chance to put into practice the knowledge and analytical skills learned as a biology major. The course will explore a specific area of biology through reading and discussion of the scientific literature and preparation of a review paper. Prerequisite: BI230 with a grade of C- or better. (U)(3) Fall & spring

BL490, Internship in Biological Sciences: A course offering the student supervised work/research experience in a setting pertinent to the major area of study but outside the department. Permission of the department chair is required. (U)(3) Occasionally

BL499, Honors Thesis: (U)(3) Occasionally

Why Study Chemistry or Biochemistry?

Chemistry is often referred to as the “central science.” It plays a role in the discovery of better medicines, in the development of safer chemicals for household use, and in the development of the next generation of electronic gadgets. An essential aspect of chemistry is the necessity of doing these things in a sustainable manner.

The study of chemistry or biochemistry will do more than just impart technical knowledge, ideas, and techniques useful in a laboratory setting. It will allow for experiences that will develop problem-solving abilities and critical-thinking skills. Class and conference presentations, poster sessions, and lab reports will help develop proficiency in communicating in a variety of settings. The skills gained can be applied not just to careers in chemistry, but also to careers in health care, law, business, and education, and to the pursuit of advanced degrees in a variety of fields.

Why Study Chemistry or Biochemistry at Butler?

The faculty and staff are dedicated to providing a supportive yet challenging environment for students interested in studying chemistry or biochemistry at the undergraduate level. The curriculum is designed to prepare students for the evolving nature of the chemical sciences. Students are encouraged to pursue undergraduate research with faculty whose expertise spans a wide range of chemistry subdisciplines. Throughout the curriculum, departmental poster sessions, weekly seminars, and project-driven laboratories encourage interaction between students and faculty during and outside class.
Chemistry and Biochemistry Student Learning Outcomes

- Understand key concepts related to the physical and chemical properties of matter
- Communicate within and outside the chemical discipline
- Develop problem-solving skills through experimentation and analysis
- Appreciate the relationship between integrity, science, and society
- Demonstrate knowledge of and use of appropriate safety protocols in laboratory settings

Degree Programs

- Major in Chemistry (BS, BA)
- Major in Biochemistry (BS, BA)
- Minor in Chemistry

All primary chemistry and biochemistry majors should aspire to complete the American Chemical Society accredited major. As the most prestigious and most comprehensive option, it will provide flexible career options after graduation. In addition to the ACS accredited major, there are three additional options. For those interested in pursuing careers in biochemistry, the biochemistry major provides a strong background in chemistry and biochemistry as well as the opportunity to explore advanced courses in biology. For students who are interested in chemistry as a path to a professional program and will earn another major or a minor, the Honors major is an option that provides a strong foundation in chemistry and teaches skills that will apply toward many careers. It does not provide as much in depth work in chemistry as the ACS accredited degree. If you are pursuing chemistry as a secondary major, the Chemistry Major is also an option. You cannot major in both Chemistry and Biochemistry.

Requirements for Major in Chemistry with Certification from the American Chemical Society

Introductory, Foundation, and Allied courses

- CH105–106, General Chemistry or CH107, Advanced General Chemistry
- CH351, Organic Chemistry I and CH352, Organic Chemistry II
- CH321, Analytical Chemistry
- CH332, Inorganic Chemistry
- CH361, Biochemistry I
- CH471 or CH472, Physical Chemistry I or II
- MA106, Calculus I and MA107, Calculus II
- PH201–202, Intro to Analytical Physics or PH107–108, Elementary Physics

Three additional in-depth courses from the following list:

- CH422, Analytical Chemistry II
- CH431, Advanced Inorganic Chemistry
- CH439, Special Topics in Chemistry
- CH452, Biochemistry II: Central Metabolism
- CH465, Environmental Chemistry
- CH471 or CH472, Physical Chemistry I or II

Chemistry Laboratory Experiences

A minimum of 400 hours of in-lab experiences are required and must cover four of the five areas of chemistry (organic, inorganic, analytical, biochemistry, and physical). Labs taken as part of CH321, CH351, and CH352 count toward the 400 hours of lab experience. Research can satisfy up to four semester credit hours of the in-depth course requirement for student certification and can account for up to 180 of the required 400 laboratory hours. A student who uses research to meet the ACS-certification requirements must prepare a well-written, comprehensive and well-documented research report, including safety considerations where appropriate.

- CH363, Biochemistry Laboratory I
- CH424, Instrumental Analysis Laboratory
- CH432, Synthesis and Characterization
- CH463, Biochemistry Laboratory II
- CH473, Physical Chemistry Laboratory I
- CH474, Physical Chemistry Laboratory II
- CH493–494, Undergraduate Research
- Butler Summer Institute
- Research Experiences for Undergraduates

Recommended Chemistry and Allied Courses

- CH491, Chemistry Literature
- CH392, Chemistry Seminar I
- CH492, Chemistry Seminar II
- CH493–494, Undergraduate Research
- MA208, Calculus and Analytic Geometry III
- MA334, Differential Equations
Requirements for a Major in Chemistry with Honors Eligibility

- CH1105–106, General Chemistry or CH107, Advanced General Chemistry
- CH351, Organic Chemistry I and CH352, Organic Chemistry II
- CH321, Analytical Chemistry
- CH332, Inorganic Chemistry
- CH361, Biochemistry I
- CH324, Instrumental Analysis Laboratory
- CH332, Inorganic Chemistry
- CH361, Biochemistry I; CH462, Biochemistry II
- CH471 or CH472, Physical Chemistry I or II
- MA106, Calculus I and MA107, Calculus II
- PH201–202, Intro to Analytical Physics or PH107–108, Elementary Physics

Requirements for the Chemistry Major

Introductory, Required, and Allied Courses

- CH1105–106, General Chemistry or CH107, Advanced General Chemistry
- CH351, Organic Chemistry I and CH352, Organic Chemistry II
- MA106, Calculus I
- PH201–202, Intro to Analytical Physics or PH107–108, Elementary Physics

Complete enough hours of upper-level chemistry courses from the following list to reach 32 total hours of chemistry. Courses must include work in two of the four remaining areas of chemistry:

- CH321, Analytical Chemistry; CH422, Analytical Chemistry II; CH424, Instrumental Analysis Laboratory
- CH332, Inorganic Chemistry; CH431, Advanced Inorganic Chemistry
- CH361, Biochemistry I; CH462, Biochemistry Laboratory I; CH463, Biochemistry IIA
- CH471 or CH472, Physical Chemistry I or II; CH473 or CH474, Physical Chemistry Laboratory I or II

Requirements for Major in Biochemistry with Certification from the American Chemical Society

Introductory, Foundation, and Allied Courses

- CH1105–106, General Chemistry or CH107, Advanced General Chemistry
- CH351, Organic Chemistry I and CH352, Organic Chemistry II
- CH321, Analytical Chemistry
- CH332, Inorganic Chemistry
- CH361, Biochemistry I
- CH462, Biochemistry II
- CH471 or CH472, Physical Chemistry I or II
- BI210, Genetics—Fundamentals
- BI220, Cellular and Molecular Biology
- MA106, Calculus I and MA107, Calculus II
- PH201–202, Intro to Analytical Physics or PH107–108, Elementary Physics

Three additional in-depth courses from the following list:

- CH422, Analytical Chemistry II
- CH431, Advanced Inorganic Chemistry
- CH439, Special Topics in Chemistry
- CH462, Biochemistry II: Central Metabolism
- CH465, Environmental Chemistry
- CH471 or CH472, Physical Chemistry I or II

Chemistry Laboratory Experiences

A minimum of 400 hours of in-lab experiences are required and must cover four of the five areas of chemistry (organic, inorganic, analytical, biochemistry, and physical). Labs taken as part of CH321, CH351, and CH352 count toward the 400 hours of lab experience. Research can satisfy up to four semester credit hours of the in-depth course requirement for student certification and can account for up to 180 of the required 400 laboratory hours. A student who uses research to meet the ACS-certification requirements must prepare a well-written, comprehensive and well-documented research report, including safety considerations where appropriate.

- CH363, Biochemistry Laboratory I
- CH424, Instrumental Analysis Laboratory
- CH432, Synthesis and Characterization
- CH463, Biochemistry Laboratory II
- CH473, Physical Chemistry Laboratory I
- CH474, Physical Chemistry Laboratory II
- CH493–494, Undergraduate Research
- Butler Summer Institute
- Research Experiences for Undergraduates
Recommended Chemistry and Allied Courses
- CH491, Chemistry Literature
- CH992, Chemistry Seminar I
- CH492, Chemistry Seminar II
- CH493–494, Undergraduate Research
- MA208, Calculus and Analytic Geometry III
- MA334, Differential Equations

Requirements for a Major in Biochemistry (Honors Eligible)

Required Chemistry Courses
- CH105–106, General Chemistry or CH107, Advanced General Chemistry
- CH352, Organic Chemistry I and CH352, Organic Chemistry II
- CH321, Analytical Chemistry
- CH160, Modern Issues in Biochemistry
- CH361, Biochemistry I
- CH363, Biochemistry Laboratory I
- CH462, Biochemistry II

Required Allied Courses
- BI210, Genetics—Fundamentals
- BI220, Cellular and Molecular Biology
- MA106, Calculus I
- PH107–108, Elementary Physics

Other Requirements
- At least two CH or BI electives at the 300/400 level, totaling at least 6 credits: CH463 — Biochemistry Laboratory II, CH471 or CH472 — Physical Chemistry Laboratory, CH332—Inorganic Chemistry, CH432—Synthesis and Characterization, CH431 Advanced Inorganic Chemistry, CH422—Analytical Chemistry II, CH424—Instrumental Analysis Laboratory, CH430—Special Topics in Chemistry, BI433—Advanced Cell Biology, BI411—Principles of Physiology, BI452—Plant Physiology, BI435—Molecular Genetics, BI 438—Microbiology, BI460—Cell and Molecular Neurobiology, BI436—Genomics, Bioinformatics and Gene Evolution

Requirements for the Chemistry Minor

General and Organic Chemistry
- CH105–106, General Chemistry or CH107, Advanced General Chemistry
- CH352, Organic Chemistry I and CH352, Organic Chemistry II

An additional course from this list:
- CH321, Analytical Chemistry
- CH332, Inorganic Chemistry
- CH361, Biochemistry I
- CH471 or CH472, Physical Chemistry I or II

Core Courses Offered by Chemistry

NW210–CH, Chemistry and Society: Study of chemistry and its applications to and impact on society. Four hours of lecture/discussion and one two-hour laboratory per week. Credit not applicable toward a major in chemistry. (U)(5) Fall and spring

NW211–CH, Water Quality: Study of chemistry and its applications to water systems in and around Indianapolis. Four hours of lecture/discussion and one two-hour laboratory per week. Credit not applicable toward a major in chemistry. (U)(5). Occasionally

Chemistry Courses

CH105, General Chemistry: The study of atomic and molecular structure, reactions, stoichiometry, thermochemistry, and states of matter. Four lectures and one three-hour laboratory per week. For students with some background in chemistry. (U)(5) Fall

CH106, General Chemistry: The study of kinetics, equilibria, acid-base theories, thermodynamics, and electrochemistry. Four lectures and one three-hour laboratory per week. Prerequisite: CH105 or equivalent with a grade of C or better. (U)(5) Spring

CH107, Advanced General Chemistry: A course for students with a strong chemistry background. Admission by placement exam only. Topics to be covered are chemical bonding, chemical kinetics, solution chemistry, acid-base chemistry, chemical equilibrium, thermodynamics, and electrochemistry. (U)(6) Fall

CH110, Chemistry in the Community: Students will research, develop, and present engaging demonstrations related to chemistry and natural science. Students will research the appropriate safety concerns and scientific principles behind the demonstration while developing the communication skills necessary to connect with the expected audience. The demonstration will be presented at multiple science outreach events within the Indianapolis community during the course. Reflective writing will be assigned concerning how the interactions with the public have affected the students’ perceptions of chemistry, themselves, and the community. Prerequisite: CH106 or CH107; (U)(1) Fall

_______________________________________
Butler University Bulletin 2017–2018
_______________________________________
Page 58
CH321, Analytical Chemistry: An introduction to the fundamental theory and techniques of quantitative analysis. Four lectures and one four-hour laboratory per week. Prerequisite: CH106 or CH107 with a grade of C or better. (U)(5) Fall & spring

CH322, Inorganic Chemistry: The study of atomic structure; ionic, covalent molecular, and metallic substances; and acid/base theories with an emphasis on main group elements and an introduction to coordination chemistry. Three lectures per week. Prerequisite: CH351 with a grade of C or better. (U)(3) Spring

CH351, Organic Chemistry I: The study of organic compounds stressing structure and reactions. The course covers nomenclature, stereochemistry, resonance, reactions of hydrocarbons and alkyl halides, and basic laboratory techniques. Four hours of lecture and one three-hour laboratory per week. Prerequisite: CH106 or CH107 with a grade of C or better. (U)(5) Fall

CH352, Organic Chemistry II: A continuation of CH351 covering reactions and mechanisms of alcohols, acids, and their derivatives; amines and other functional groups; as well as synthesis, spectroscopy, and advanced laboratory techniques. Four hours of lecture and one three-hour laboratory per week. Prerequisite: CH351 with a grade of C or better. (U)(5) Spring

CH360, Modern Issues in Biochemistry: An overview of modern biochemistry with a focus on current scientific issues of societal and global importance. Discussion-based class introducing students to biochemical literature, electronic resources, scientific presentations, and future careers in biochemistry. Prerequisite: CH106 or CH107 with a grade of C or better. (U/G)(3) Occasionally

CH361, Biochemistry I: Systematic study of the structure of biological macromolecules (proteins, nucleic acids, carbohydrates), binding of ligands in proteins, and the fundamentals of enzymatic catalysis. Four hours of lecture per week. Prerequisite: CH322 with a grade of C or better. Knowledge of introductory biology strongly recommended for this course. (U)(4) Fall

CH363, Biochemistry Lab: Laboratory course focusing on the experimental characterization of important biological molecules, including protein, peptides, nucleic acids, and carbohydrates. Common techniques used in biochemical research, including molecular biology, protein and DNA electrophoresis, chromatography, spectroscopy, enzyme kinetics, and computational analysis, will be employed to study macromolecular function and structure. Corequisite: CH361. (U)(2) Fall

CH392, Communication in Chemistry: Oral communication in chemistry. Focus on both formal and informal presentation skills, preparation of appropriate visual aids, and observation and evaluation of oral presentations. Fulfills the Speaking across the Curriculum (SAC) requirement. Prerequisite: 20 hours of chemistry. (U)(2) Fall & spring

CH402, Internship in Chemistry: Designed to give chemistry students professional and practical experience in business, industry, and other activity related to their degree objectives. Oral presentation required. Course will not count for laboratory hours required for ACS certification. Each course may only be taken once for credit. Prerequisites: Junior standing and permission of the department chair. (U)(3) Fall & spring

CH403, Internship in Chemistry: Designed to give chemistry students professional and practical experience in business, industry, and other activity related to their degree objectives. Oral presentation required. Course will not count for laboratory hours required for ACS certification. Each course may only be taken once for credit. Prerequisites: Junior standing and permission of the department chair. (U)(6) Fall & spring

CH411, Independent Study: Provides an opportunity for a qualified student to pursue a special course of study under the direction of a faculty mentor. Prerequisite: Fourteen hours of chemistry, permission of the instructor, and permission of the head of the department. (U/G)(1) Occasionally

CH412, Independent Study: Provides an opportunity for a qualified student to pursue a special course of study under the direction of a faculty mentor. Prerequisites: Fourteen hours of chemistry, permission of the instructor, and permission of the head of the department. (U/G)(2) Occasionally

CH418, Chemical Issues in the Global Modern World: This course will discuss the application of chemical concepts to issues in a modern, global society. The course will include international travel. Topic will vary by section: 01 Chemistry and Energy, 02 Chemistry and Art, 03 Chemistry and Food, 04 Chemistry and Industry. Prerequisite: Four hours of chemistry at the 300 level. (U)(3) Annually, term varies

CH422, Analytical Chemistry II: This course provides an introduction to advanced instrumental theory, design, and technique. Three lectures per week. Prerequisite: CH321 with a grade of C or better. (U)(5) Annually, term varies

CH424, Instrumental Analysis Laboratory: Project-based application of specific instrumental methods of chemical analysis. Instrumental techniques covered could include: atomic or molecular spectroscopy, chromatography, or electrochemistry. The topic will vary by section number. One four-hour laboratory per week. Prerequisite: CH321. (U)(2) Annually, term varies

CH429, Special Topics in Analytical Chemistry: Various advanced topics in analytical chemistry. The subject matter for study will be listed when the course is offered. Prerequisite: One year of analytical chemistry or permission of the instructor. (U/G)(3) Occasionally

CH431, Advanced Inorganic Chemistry: The study of coordination chemistry, organometallic chemistry, and catalysis. Three lectures per week. Prerequisite: CH322 with a grade of C or better. (U/G)(3) Fall

CH432, Synthesis and Characterization: Project-based laboratory dealing with the synthesis, characterization, and properties of synthetic products. One four-hour lab per week. Section 01 Inorganic Synthesis. Section 02 Biochemical Synthesis. Section 03 Organic Synthesis. Prerequisites: CH332 and CH361 or permission of the instructor. (U)(2) Annually, term varies

CH439, Special Topics in Inorganic Chemistry: Various advanced topics in inorganic chemistry. The subject matter for study will be listed when the course is offered. Prerequisite: One year of inorganic chemistry or permission of the instructor. (U/G)(3) Occasionally

CH459, Special Topics in Organic Chemistry: Various advanced topics in organic chemistry. The subject matter for study will be listed when the course is offered. Prerequisite: One year of organic chemistry or permission of the instructor. (U/G)(3) Occasionally
CH462, Biochemistry IIA—Central Metabolism: Topics include carbohydrate and lipid metabolism, electron transport and oxidative phosphorylation, and biological membranes (structure, transport, and signal transduction). Three hours of lecture and one two-hour computer laboratory per week. Prerequisite: CH361 with a grade of C or better. (U)(4) Spring

CH463, Biochemistry Laboratory II: Advanced biochemistry laboratory focusing on inquiry-based, student driven research projects, biochemical literature, complex data analysis, experimental design, and presentation of research results. Projects and techniques will build on the methodology introduced in CH363. Writing intensive (WAC). Prerequisites: CH363 with a grade of C or better. (U)(2) Spring

CH465, Environmental Chemistry: This course focuses on the application of basic chemistry principles in understanding the source, fate, transport, and transformation of compounds in natural and polluted environmental compartments. This includes the atmosphere, hydrosphere, and lithosphere. The impact of these on a number of issues will be discussed. Prerequisite: CH351. (U/G)(3) Occasionally

CH469, Special Topics in Biochemistry: Various advanced topics in biochemistry. The subject matter for study will be listed when the course is offered. Prerequisite: One year of biochemistry or permission of the instructor. (U/G)(3) Occasionally

CH471, Physical Chemistry I: The introduction to quantum chemistry, bonding, spectroscopy, and statistical mechanics. Prerequisites: CH352 or equivalent, MA107 or equivalent, and PH202 or equivalent. (U/G)(3) Spring

CH472, Physical Chemistry II: The introduction to chemical thermodynamics and chemical kinetics. Prerequisites: CH352 or equivalent, MA107 or equivalent, and PH202 or equivalent. (U/G)(3) Fall

CH473, Physical Chemistry Laboratory: Introduction to methods for determining physical phenomena of chemistry. The topics covered will vary by section number, and can include thermodynamics, kinetics, spectroscopy, quantum chemistry, and computational methods. Co- or prerequisite: CH471 or CH472. (U/G) (3) Annually, term varies

CH475, Computational Chemistry: The course covers theoretical methods of computing molecular structure. Based on the structure, thermodynamic properties, reactivity, and spectroscopic measurements (ultraviolet, visible, infrared, and nuclear magnetic resonance) can be computed. Computed values are compared to experimental data. Prerequisite: CH352 with a grade of C or better. (U/G) (2) Occasionally

CH479, Special Topics in Physical Chemistry: Various advanced topics in physical chemistry. The subject matter for study will be listed when the course is offered. Prerequisite: One year of physical chemistry or permission of the instructor. (U/G)(3) Occasionally

CH492, Chemistry Seminar 2: Enrollment at and participation in the chemistry department seminar series, including an oral presentation on a research project or literature review. Required for university honors. Prerequisites: CH392 and 28 hours of chemistry. (U)(1) Fall & spring

CH493, Undergraduate Research: Individual research under guidance of a faculty member. Required for university honors. Prerequisites: Fourteen hours of chemistry, permission of the instructor, and permission of the head of the department. (U/G)(1) Fall & spring

CH494, Undergraduate Research: Individual research under guidance of a faculty member. Required for university honors. Prerequisites: Fourteen hours of chemistry, permission of the instructor, and permission of the head of the department. (U/G)(2) Fall & spring

CH499, Honors Thesis: (U)(3) Annually, term varies

CH518, Advanced Placement Workshop for Chemistry High School Teachers: The workshop will focus on the topics found on the AP exam and in college general chemistry (atomic structure, periodic properties, bonding, kinetics, thermodynamics, electrochemistry, equilibrium, solutions, acid/base, and solubility). The focus of the workshop will be on problem solving and course content material with some limited laboratory demonstration activities. (G)(3) Summer

**Why Study Computer Science or Software Engineering?**

These disciplines are an excellent choice for students who enjoy problem solving and are good at mathematics and the sciences. Good communication skills are also a plus, as this type of work is typically done in small groups or as part of a team. Computers and software have become essential tools in all disciplines, so you can pair the study of computer science or software engineering with a major or minor in any other area of study, including the sciences, business, fine arts, or the humanities. Employment prospects in computer science and software engineering are excellent.
Why Study Computer Science or Software Engineering at Butler?

- Our Engineering Projects in Community Service Program combines service learning with the practice of software engineering; student-run teams develop software for charity and nonprofit clients.
- Our supercomputer is available for student research projects, with possible support available through the Honors Program and the Butler Summer Institute.
- Our students learn parallel programming theory and techniques both in the first-year-level CS142 course and in the junior/senior-level CS452 course.
- Most of our students add a second major or minor and still graduate on time.
- Quality internships and part-time jobs are plentiful in the Indianapolis area.
- Our alumni advisory board is active and engaged, not only mentoring our students and visiting for pizza lunches with our students, but also advising the department on curriculum and career preparation.

Our software engineering program prepares students for professional careers as software system designers, developers, testers, maintainers, and project managers. Our computer science program is more broad-based and prepares students not only for a variety of careers in the computing disciplines, such as systems or database administration and web development, but also for graduate study either in computer science or a related discipline, or for professional programs such as law school.

Degree Programs

- Major in Computer Science (BS, BA)
- Major in Software Engineering (BS, BA)
- Minor in Computer Science

Computer Science Student Learning Outcomes

- Analyze and solve mathematics-based problems
- Understand and explain the main concepts, principles, algorithms, data structures, and theories of computer science
- Write programs and develop software to solve problems
- Communicate and work effectively in teams
- Articulate one's role in society as a computing professional, including ethical, legal, and social obligations

Requirements for the Computer Science Major

All of the following courses:

- MA106–107, Calculus and Analytic Geometry I, II
- MA215, Linear Algebra
- CS151 and CS252, Foundations of Computing I, II
- CS248, Object-Oriented Programming and Data Structures
- CS382 or CS383, EPICS II
- CS321, Computer Organization
- CS353, Algorithms
- SE361, Object-Oriented Design
- CS333, Theory of Database Systems
- CS452, Parallel Algorithm Design and Programming
- CS485, Computer Ethics
- CS473, Topics in Computer Science
- 1 course numbered CS440–459
- 1 course numbered CS430–439 or SE460 or above

Requirements for the Computer Science Minor

- CS151, Foundations of Computing I
- CS248, Object-Oriented Programming and Data Structures
- 12 additional credit hours of computer science or software engineering electives numbered 250 or above

Software Engineering Student Learning Outcomes

- Analyze and solve mathematics-based problems
- Understand and explain the main concepts, principles, algorithms, data structures, and theories of computer science and software engineering
- Write programs and develop software to solve problems
- Communicate and work effectively in teams
- Articulate one's role in society as a computing professional, including ethical, legal, and social obligations
- Acquire and synthesize new knowledge for software development in specific application domains

Requirements for the Software Engineering Major

All of the following courses:

- MA106 and MA107, Calculus and Analytic Geometry I, II
Core Course Offered by Computer Science

AR220-CS, Robot Programming: This introductory programming course features personal robots that can move, draw, and take digital pictures. Robot behaviors are programmed and controlled remotely using a high-level language such as Python from a desktop or laptop computer. Topics include conditional execution, repetition, defining functions, and using arrays. No prior programming experience required. (U)(3) Fall & spring

Computer Science Courses

CS142, Introduction to Computer Science and Programming: An introduction to programming in a high-level language (assignment, data types, expressions, selection, loops, functions, arrays), including parallel programming for supercomputers. Topics such as AI, software engineering, and databases are also discussed. Prerequisite: MA101 or equivalent. (U)(3) Fall, spring, & summer

CS151, Foundations of Computing 1: Introduction to mathematical problem solving, with emphasis on techniques for designing computer-based solutions. Concepts include problem-solving principles, logic, proof techniques, sets, sequences, functions, relations, and inductive and recursive thinking. Prerequisites: MA101 or MA102 or equivalent, and a declared major or minor in CS/SE. (U)(3) Fall

CS248, Object-Oriented Programming and Data Structures: This course is an introduction to object-oriented programming using Java. Topics include algorithm analysis; recursion; the stack, queue, tree, and heap data structures; sorting algorithms; and GUI programming. A brief survey of computer science is also included: history, software engineering, computer organization, operating systems, networks, programming languages, databases, artificial intelligence, and theory. Prerequisites: CS142 or equivalent and CS151. (U)(3) Spring

CS252, Foundations of Computing 2: As a continuation of CS151, concepts include mathematical logic, formal grammars, algebraic structures, finite-state machines and automata, graph theory, and combinatorics. Prerequisite: CS151. (U)(3) Spring

CS282, EPICS I Service Learning: Supervised team software project for a local charity or nonprofit organization. May be repeated for credit. Typically taken by non-majors. Prerequisite: CS142 or CS267 or equivalent. (U)(2) Fall & spring

CS283, EPICS I Service Learning: Supervised team software project for a local charity or nonprofit organization. May be repeated for credit. Typically taken by non-majors. Prerequisite: CS142 or CS267 or equivalent. (U)(3) Fall & spring

CS300, Teaching Practicum: Students assist a faculty member teaching a 100- or 200-level CS course by helping students with assignments and laboratory exercises, conducting help sessions, preparing course materials, and setting up laboratory exercises. The student receives regularly scheduled supervision from the faculty instructor. May be repeated once for credit. (U)(3) Occasionally

CS308, Problem Seminar: A survey of basic problem-solving strategies such as recursion, divide and conquer, and backtracking, and applying these strategies to sample problems in mathematics, text processing, graphics, and games. Prerequisite: CS248 or permission of the instructor. (U)(1) Fall & spring

CS321, Computer Organization: Principles of computer architecture are introduced from a layered point of view, beginning at the level of gates and digital logic, and progressing through micro-programming, the machine language execution cycle, addressing modes, symbolic assembly language, and the fundamentals of operating systems. Advanced topics including pipelined and parallel architectures are also covered. Corequisite: CS248. (U)(3) Fall

CS333, Database Systems: An introduction to the theory, design, and use of modern database management systems. Topics include the relational, entity-relationship, and object-oriented data models; query languages such as SQL; file systems, concurrency and deadlock; reliability, security, and query optimization. Prerequisites: CS248 and CS292. (U)(3) Fall & spring

CS351, Algorithms: A systematic study of data structures and algorithms with an introduction to theoretical computer science. Topics include lists, stacks, queues, trees, and graph structure, searching and sorting algorithms, mathematical algorithms, time and space complexity, an introduction to the theory of NP-completeness, and an introduction to computability theory. Prerequisite: CS248. (U)(3) Fall & spring

CS382, EPICS 2 Service Learning: Supervised team software project for a local charity or nonprofit organization. May be repeated for credit. Prerequisite: CS248. (U)(2) Fall & spring
CS403, Independent Study: Provides an opportunity for qualified students to pursue special topics under the guidance of a department staff member. Prerequisite: Permission of the department. (U/G)(3) Occasionally

CS411, Internship: Supervised work experience directly related to major area of study. Prerequisites: Junior or senior standing and permission of the department. (U)(3) Occasionally

CS431, Theory of Operating Systems: Introduces the major concept areas of operating systems principles, including the study of process, storage, and processor management; performance issues; distributed systems; and protection and security. Prerequisites: CS248, CS252, and CS321. (U/G)(3) Occasionally

CS435, Computer Networks: An introduction to computer networks from a layered point of view, beginning with the physical and data link layers and progressing through the medium access layer, the network layer, the transport layer, and the applications layer. Specific content includes Ethernet, TCP/IP, and the web. Students will write client/server programs that communicate across a network. Prerequisite: CS241. (U/G)(3) Occasionally

CS441, Organization of Programming Languages: Emphasizes the principles and programming paradigms that govern the design and implementation of contemporary programming languages. Includes the study of language syntax, processors, representations, and paradigms. Prerequisites: CS252, CS321, and SE361. (U/G)(3) Occasionally

CS444, Research Methods: Introduction to research methodology in computer science, including an overview of the basic principles of scientific inquiry. Prerequisite: Permission of the department. (U)(2) Occasionally

CS447, Computer Graphics: An introduction to the mathematical basis of computer graphics and graphics algorithms. Topics include 2D and 3D graphics, transformations, perspective, and animation. Prerequisite: CS248. (U)(3) Occasionally

CS451, Theory of Computation: Basic theoretical principles of computer science that are embodied in formal languages, automata, computability, and computational complexity. Includes regular expressions, context-free grammars, Turing machines, Church's thesis, and unsolvability. Prerequisites: CS252, CS321, and CS351. (U/G)(3) Occasionally

CS452, Parallel Algorithm Design and Programming: A study of theoretical and practical paradigms of parallel algorithm design. Topics include model costs, lower bounds, architecture and topology, data-parallelism, synchronization, transactional memory, message passing, and parallel design for sorting, graphs, string processing, and dynamic programming. Prerequisite: CS351. (U)(3) Spring

CS455, Numerical Analysis: Solutions of equations and systems, error analysis, numerical differentiation and integration, interpolation, least squares approximation, and numerical solution of ordinary differential equations. Prerequisites: MA107 and CS142 or equivalent. (U/G)(3) Occasionally

CS458, Introduction to Cryptography and Cryptanalysis: An introduction to classical and public-key cryptographic protocols, including mathematical and algorithmic cryptanalysis. Symmetric key systems include simple substitution and transposition ciphers, the Vigenere cipher, the one-time pad, block ciphers, and quantum cryptography. Public-key systems include RSA, discrete-log systems, Diffie-Hellman and ElGamal, digital signatures, and zero-knowledge protocols. Prerequisites: CS151 or MA205, and CS142 or equivalent. (U)(3) Occasionally

CS473, Topics in Computer Science: In-depth study of special topics not covered in regular courses. Prerequisite: Permission of the department. (U/G)(3) Fall & spring

CS482, EPIS 3 Service Learning: Supervised team software project for a local charity or nonprofit organization. May be repeated for credit. Prerequisite: SE361 and one of CS382 or CS383. (U)(2) Fall & spring

CS483, EPIS 3 Service Learning: Supervised team software project for a local charity or nonprofit organization. May be repeated for credit. Prerequisite: SE361 and one of CS382 or CS383. (U)(3) Fall & spring

CS485, Computer Ethics: Ethical and social issues in computing with emphasis on professional responsibilities, risks and liabilities, and intellectual property. Prerequisites: CS142 and sophomore standing. (U/G)(1) Fall

CS490, Research Methods: An introduction to research methodology in computer science, including an overview of computer science literature and techniques for presenting and evaluating research results. Prerequisites: CS241, CS351, and SE361, or junior standing and permission of the department. (U)(2) Occasionally

CS499, Honors Thesis: (U)(3) Occasionally

Software Engineering Courses

SE267, Business Application Development: Programming in Visual Basic, with applications to business. Topics include data representation, control structures, arrays, functions, and objects. (U)(3) Fall, spring, & summer

SE331, Web-Based Client/Server Programming: Web-based applications programming in a Unix-based environment. Topics include XHTML/CSS and JavaScript on the client side, and PHP and Perl CGI programming on the server side. Other topics include client/server object-oriented software architectures, protection and security related to network programming, and database connectivity. Prerequisite: CS248. (U)(3) Occasionally

SE361, Object-Oriented Design: This course uses the Unified Modeling Language (UML) as a vehicle to introduce the basic principles of object-oriented methodology and design, covering classes, objects, data abstraction, polymorphism, information hiding, and relationships among classes such as inheritance, association, aggregation, and composition. Specific design techniques are covered for object-oriented programming languages such as Java and C++. The course also provides a first exposure to the software development life cycle of object-oriented software applications. A small-team design project is required. Prerequisites: CS248 and CS333. (U)(3) Spring

SE411, Internship: Supervised work experience in software engineering. Prerequisites: SE361, SE461, CS485, and one of SE462 or CS382 or CS383. (U)(3) Occasionally
SE461, Managing Software Development: Techniques, principles, and processes for developing large, complex software systems: systems analysis and specification, modeling, design patterns, implementation, validation and verification, quality assurance, and project management. A team-based software project is required. Prerequisite: SE361. (U/G)(3) Occasionally

SE462, Modernizing Legacy Software: Fundamental concepts, principles, techniques, and tools for the maintenance and evolution of legacy software systems. Software maintenance and evolution process models, reverse engineering, and program comprehension tools are covered. A modernization project is required. Prerequisite: SE361. (U/G)(3) Occasionally

SE463, Testing and Quality Assurance: Basic concepts, systematic techniques, and tools involved in testing and QA of software systems. Some topics to be covered include black and white box testing techniques, object-oriented testing, regression testing, system integration testing, and planning and reporting of testing activities. Prerequisite: SE361. (U)(3) Occasionally

SE473, Topics in Software Engineering: In-depth study of special topics not covered in regular courses. Prerequisite: Permission of the department. (U/G)(3) Occasionally

Economics

Administration

Why Study Economics?

Economics provides you with problem-solving and data-gathering skills to make informed decisions in a variety of settings, e.g., government, law, finance, business, and journalism; and for a variety of job responsibilities—from college intern to a newly hired bank credit analyst at one end of the spectrum, to U.S. senator, Supreme Court justice, or CEO of a successful business on the other.

Besides being a strong major in its own right, economics is a nice complement for students who have interests in philosophy, political science, sociology, history, mathematics, psychology, foreign languages, engineering, and English. Indeed, the Nobel Prize in Economics is often awarded to economists who also have a keen interest in one of the above areas.

Why Study Economics at Butler?

You can study economics as a major in the College of Liberal Arts and Sciences and also as a major in the Lacy School of Business. The student in Liberal Arts and Sciences may have a given career path in mind but often does not. He or she knows that economics offers an array of opportunities and takes economics to learn critical-thinking skills and about the dynamic economic environment in which we live. The career choice will follow. The same applies to a student who majors in the Lacy School of Business, but the career choice in that case is more targeted to the business sector. The economics courses taken in either college are the same; the courses outside of economics, though, are different between the two colleges.

Economics Student Learning Outcomes

Students will learn and discuss issues such as how the Federal Reserve creates money and influences interest rates domestically and around the world, why the euro changes in value against the dollar, and the reason behind Zimbabwe’s inflation. You’ll learn about the “Wealth of Nations” from rich countries (e.g., the United States) to poor ones (e.g., Bangladesh), about growing countries (e.g., China) and countries transitioning to capitalism (e.g., Russia). You’ll learn about the invisible hand of the market and the different roles of government in a mixed economy.

The tools in addressing these questions include supply and demand, international trade and exchange rate determination, monetary and fiscal policy, market structure, and statistical relationships.

Degree Programs

- Major in Economics (BA)
- Minor in Economics

Requirements for the Major

The major consists of 34 hours, including the required foundation (13 hours*), other required courses (9 hours), and electives (12 hours).
**Required Foundation**
- EC231, Principles of Microeconomics
- EC232, Principles of Macroeconomics
- MA125, Business Calculus or MA106, Calculus and Analytical Geometry I (either course also satisfies the University Core Curriculum under Analytic Reasoning)
- MS100, Basic Excel Skills
- MS264, Statistics
- MS265, Information Technology

*Not counting MA125 or MA106, and with MS101 being one hour.

**Other Required Courses**
- EC332, Intermediate Macroeconomics
- EC354, Intermediate Microeconomics
- EC464, Quantitative Methods—Econometrics

**Electives**
- Any four courses numbered 300 or 400 level

**Requirements for the Minor**
The minor consists of 18 hours:
- EC231, Principles of Microeconomics
- EC232, Principles of Macroeconomics
- Either EC332, Intermediate Macroeconomics or EC354, Intermediate Microeconomics
- 3 courses numbered 300 or 400 level

**Core Course Offered by Economics**

**SW220-EC, The Economy and Society:** This course examines important concepts of microeconomics and macroeconomics and analyzes issues such as energy prices, prescription drug costs, pollution, and globalization of markets using these concepts. It explores how economic life is intertwined with a society’s culture, politics, values, and history. Further, it considers the limitations of the economic methodology to place economics in a context with the other social sciences. (U)(3) Occasionally

**Economics Courses**

**EC231, Principles of Microeconomics:** This course examines the economic behavior of individuals, firms, and markets. The course provides basic concepts of microeconomics and the analytical tools for students to understand how and why people make economic choices. Prerequisites: Sophomore standing, or 15 hours and MA106 or MA125. (U)(3) Fall, spring, & summer

**EC232, Principles of Macroeconomics:** This course studies aggregate output, employment, trade, government fiscal and monetary policies, and other national and international economic issues. It provides a framework for understanding and evaluating economic policy choices made by political leaders throughout the world. Prerequisite: EC231. (U)(3) Fall, spring, & summer

**EC332, Intermediate Macroeconomics:** Discusses measures of national income; it also examines causes of growth and fluctuations in national income. Prerequisites: EC231 and EC232. (U)(3) Annually, term varies

**EC336, Comparative Economic Systems:** An inquiry into the underlying principles and operational methods of national economic systems throughout the world. Focuses on the transition of the former socialist countries to market economies, and reviews the alternative models of central planning, market socialism, and market capitalism. Compares the economic policy choices (and consequences) that countries adopt to further national objectives. Prerequisite: SW220 or EC231. (U)(3) Occasionally

**EC339, Economic History of the United States:** Study of the economic development of the United States, emphasizing both theoretical and quantitative tools of analysis. Prerequisite: SW220 or EC231. (U)(3) Occasionally

**EC342, Law and Economics:** This course looks at law and crime from an economic perspective. Topics include property law, contract law, torts, and crime. The course examines theory as well as many actual cases. It also explores the evolution and economic impacts of our laws and legal structure. Prerequisite: EC101 or SW220, or EC231 and EC232. (U)(3) Occasionally

**EC346, Health Care Economics:** The course will apply economic tools and methods to better understand the current health care system and possible reform policy initiatives. It is intended to be discussion-based and should be attractive to students with a diverse academic background. Prerequisite: EC231. (U)(3) Fall & spring

**EC351, Urban Economics:** The application of economic analysis to urban affairs, e.g., ghetto redevelopment, growth, and fiscal management. Both theory and policy are considered in analyzing urban economic problems. Prerequisite: SW220 or EC231. (U)(3) Occasionally

**EC352, Personnel Economics:** This course presents an economic approach to a variety of human resource issues, including recruitment and hiring, turnover, motivating workers to high levels of productivity, and job assignment. Basic microeconomic theory is applied to these topics to gain a better understanding of how to successfully manage people. Prerequisites: EC231 and EC232. (U)(3) Annually, term varies
EC354, Intermediate Microeconomics: Economic theory and management decision-making. Specific topics include demand determinants, cost-output functions, and pricing theory. Credit will not be given for both EC350 and EC354. Prerequisites: EC231, EC232, and MA125 or MA106. (U) (3) Annually, term varies

EC355, Money and Banking: The study of the U.S. monetary system, including the role of the Federal Reserve System. The functions and operations of commercial banks and other depository institutions also are examined. Credit will not be given for both EC355 and FN371. Prerequisites: EC231 and EC232. (U)(3) Occasionally

EC391, Environmental and Natural Resources: The economics of externalities and their relation to property rights. Alternative strategies for dealing with environmental problems. Analysis of problems of allocating natural resources over time. Prerequisite: SW220 or EC231. (U)(3) Occasionally

EC401, Independent Study: (U)(1) Occasionally

EC402, Independent Study: (U)(2) Occasionally

EC403, Independent Study: (U)(3) Occasionally

EC433, International Economics: Examines theories of international trade, tariffs, and regional economics integration; also examines foreign trade financing, international investment, and balance of payments adjustment. Prerequisites: EC231 and EC232. (U)(3) Fall, spring, & summer

EC434, Public Finance: Systems of expenditure, taxation, borrowing, and budgeting of national, state, and local governments. Theories and principles of taxation. Prerequisite: EC101 or EC231. (U)(3) Occasionally

EC438, Economic History of Europe: A study of the economic development of selected European states since 1500. Emphasis on economic, demographic, political, social, and cultural forces affecting production and distribution. Prerequisite: SW220 or EC231. (U)(3) Occasionally

EC462, Mathematical Economics: This course is an introductory exploration of mathematical economics. It examines economics through mathematical models and operations and explores basic issues in economics—supply and demand, profit and utility maximization, monetary and fiscal policy—using formal mathematical models. Students will not simply go over mathematical economic models but will develop an appreciation for how formal economic models are constructed. Prerequisites: EC231, EC232, and MA106 or equivalent. (U)(3) Occasionally

EC464, Quantitative Methods: Econometrics: Applications of statistical methods to economic analysis and forecasting. Examines methods of hypothesis testing, linear regression, and time-series analysis, and applies these to issues of micro- and macroeconomics. Prerequisites: EC231, EC232, and MA260 or MA260. (U)(3) Spring

EC495, Special Topics in Economics: Seminar in selected economics topics. Course content will vary from semester to semester. Prerequisite: SW220 or EC231. (U)(3) Occasionally

EC499, Honors Thesis: (U)(3) Occasionally

**Engineering Dual Degree Program**

**Administration**

Joseph L. Kirsch, PhD, Program Director; Jessica R. McCormick, MST, Academic Program Coordinator and Advisor

**Program Website**

[www.butler.edu/engineering](http://www.butler.edu/engineering)

The Engineering Dual Degree Program (EDDP) is a partnership between the College of Liberal Arts and Sciences at Butler University and the Purdue School of Engineering and Technology at Indianapolis. Through this five-year undergraduate program, students can earn two degrees: a degree in engineering from Purdue University along with a degree from Butler University in one or more of the following disciplines: the natural sciences (astronomy/astrophysics, biology, chemistry, environmental studies, or physics); computer science; economics; mathematics; or science, technology, and society. Application for the EDDP is through Butler University, as well as student enrollment and residence for the duration of the program.

Why Study Engineering at Butler?

Two universities. Two degrees. One program.

- The EDDP provides a student with the opportunity for a diverse, creative, professional, technical, and liberal educational experience occurring through two quality, neighboring universities.
- Students have access to engineering degrees that are ABET (Accreditation Board for Engineering and Technology) accredited and Butler University majors that rest upon a strong tradition of professional and liberal education.
- Our curriculum is integrated throughout the entire program. Most engineering courses are taught at Butler for the first three years of the program, with courses taken at both campuses (a five-mile commute) during the last two years.
- Students receive individualized academic support and regularly graduate with their two degrees in five years.
- Career services are available to EDDP students through Butler University, the Purdue School of Engineering and Technology at Indianapolis, and Purdue University at West Lafayette.
- One internship is required, which is typically completed during the summer; however, many students complete more than one or complement their internship with a research experience.
- Students have diverse educational experiences that lead to a wide range of career opportunities with a highly successful placement rate for graduates.
EDDP students select a major from both institutions.

Major Options at Butler University

- Astronomy and Astrophysics
- Biology
- Chemistry
- Computer Science
- Economics
- Environmental Science
- Mathematics
- Physics
- Science, Technology, and Society

Major Options at the Purdue School of Engineering and Technology at Indianapolis (IUPUI)

- Biomedical Engineering
- Computer Engineering
- Electrical Engineering
- Energy Engineering
- Mechanical Engineering
- Motorsports Engineering

The EDDP curriculum can be viewed at the program website. Engineering courses are noted on the Butler University transcript with a departmental designation of DD.

English

Administration
Andrew G. Levy, PhD, Department Chair

Professors
Dan Barden, MFA; Joseph R. Colavito, PhD; Hilene Flanzbaum, PhD; Andrew G. Levy, PhD; Susan Neville, MFA; Carol Reevies, PhD; William P. Walsh, PhD

Associate Professors

Why Study English?

The English major offers students the tools to master close reading, formal analysis, literary history, critical theory, research strategies, and creative expression. English majors enjoy the beauty of great works of art as they simultaneously ask important questions about the relationship between language and the production of meaning and value. Our students learn to discuss and write critically about the many ways literature and language have influenced the values and lived experiences of societies over centuries, among genders and classes, races and ethnicities, and across geographical boundaries. When English majors head out into the world, we expect that they will carry with them a passion for reading and writing, and a commitment to use language clearly, purposefully, and with sophistication and elegance.

Why Study English at Butler?

The English Department at Butler University balances the study of traditional fields of English and American literature with a commitment to interdisciplinary work, involving contemporary fields such as gender and sexuality, film studies, comparative literature, cultural studies, rhetoric of science, and creative writing. Our full-time faculty includes formalists and theorists, cultural historians and rhetoricians, and novelists and poets. Our course offerings reflect diversity: students can choose a traditional Literature major, or a major with a concentration in Creative Writing; Literary Theory, Culture, and Criticism; or Public and Professional Writing. In each case, students will find small classes, dedicated teachers, and an active and engaged group of fellow students.

Butler’s English Department is home to one of the country’s most important Visiting Writers Series, which encourages a sense of literary and creative community that goes beyond the classroom. Recent visitors to the series have included Joyce Carol Oates, Richard Russo, Yusef Kumonyaaka, Elmore Leonard, Jorie Graham, and Junot Díaz. The popular Visiting Writers Series course offers students the chance to meet and talk to many of these writers. The department’s secondary programs also extend the opportunities for our majors, including a city-wide creative writing camp, a large peer-tutoring program where students help students across the University, an award-winning Writing in the Schools service-learning initiative, and an internship program where students gain experience in classrooms, pressrooms, and in small and large businesses.
English Student Learning Outcomes

Our students graduate as incisive readers, cogent thinkers, and powerful writers, well prepared for any profession requiring a rigorous understanding and mastery of language. Because of their exposure to a vast array of human experiences in literature, English majors are more likely to be able to listen to the voices of opposition and disagreement; to accept the persistence in the world of ambiguity and complexity without resorting to facile simplification, cliché, or stereotypes; to consider evidence rather than rush to judgment; and to react to human dilemmas and suffering with compassion. English majors also carry with them a lasting ability to take informed pleasure in all forms of literature and creative production. We believe that the education our majors gain as readers and writers is invaluable whether they work in education, the legal field, the arts, electronic communication, publishing, business, the nonprofit sector, government, or other careers.

Degree Programs

- Major in English (BA) with concentrations in Creative Writing; Literary Theory, Culture, and Criticism; Literature; and Public and Professional Writing
- Master of Arts in English (MA)
- Master of Fine Arts in Creative Writing (MFA)
- Minor in Literature
- Minor in Creative Writing
- Minor in Public and Professional Writing

Requirements for the Major

- Minimum of 36 hours beyond first-year English
- Sophomore Requirements: EN185 and three of the four courses in the Literary and Cultural History Sequence (EN245, EN246, EN265, and EN266), EN321 or EN322.
- Junior/Senior Requirements: EN390, Research Seminar; one 300–400-level course in language, rhetoric, or literary criticism; two 300-level literature courses; one 300–400-level course in subject area not covered in the Literary and Cultural History Sequence; for seniors, one 400-level seminar and one 450-level senior essay with emphasis in writing.

With Creative Writing

Through this concentration, English majors have the opportunity to study the art and craft of creative writing. Students are given the opportunity to take workshops in poetry, fiction, and nonfiction. Recent independent-study projects have included screenplays, memoirs, and graphic novels. Each year, through the nationally recognized Vivian S. Delbrook Visiting Writers Series, students have the opportunity to meet and work one-on-one with writers such as Jonathan Lethem, Jean Valentine, and Lorrie Moore. Students who enroll in the creative writing concentration will take:

- Minimum of 48 hours beyond first-year English
- Sophomore Requirements: EN185, EN218, EN219, three of the four courses in the Literary and Cultural History Sequence (EN245, EN246, EN265, and EN266); EN321 or EN322
- Junior/Senior Requirements: EN390; Research Seminar; one 300–400-level course in language, rhetoric, or literary criticism; two 300-level literature courses; one 300–400-level course in subject area not covered in the Literary and Cultural History Sequence; two 300-level writing courses; for seniors, EN410, Senior Creative Writing Seminar, one creative writing portfolio, and one EN430 senior essay course.

With Literary Theory, Culture, and Criticism

Students will take additional courses in cultural studies, comparative literature, literary criticism, and critical theory in order to study literary texts in a global cultural context. LITCC courses will look at diverse cultural objects—novels, plays, films, visual arts, and media—through the lens of the literary and cultural theories, with the goal of producing sophisticated readers of the contemporary world. This concentration is highly recommended for those planning to pursue advanced degrees in the humanities.

- Minimum of 48 hours beyond first-year English
- Sophomore Requirements: EN185, three of the four courses in the Literary and Cultural History Sequence (EN245, EN246, EN265, and EN266); EN287, Literary Theory, Culture, and Criticism; EN321 and EN322
- Junior/Senior Requirements: EN390, Research Seminar; one 300–400-level course in language or rhetoric; EN385, Studies in Literary Criticism or EN387, Studies in Literary Theory; two 300-level literature courses; two 300–400-level Literary Theory, Culture, and Criticism-approved electives, including at least one EN394/EN494 Special Topics in Film; for seniors, one 400-level seminar and one EN450-level senior essay.

With Literature

Students in the literature concentrations choose from courses designed to promote their understanding of literary history (American, British and World), and augment their analytical thinking, speaking, and writing skills. They take courses in subjects ranging from Chaucer and Shakespeare to graphic novels, and may also take courses related to narrative cultural phenomenon such as film. Students in the literature concentration will take:

- Minimum of 36 hours beyond first-year English
- Sophomore Requirements: EN185 and three of the four courses in the Literary and Cultural History Sequence (EN245, EN246, EN265, and EN266), EN321 or EN322.
- Junior/Senior Requirements: EN390, Research Seminar; one 300–400-level course in language, rhetoric, or literary criticism; two 300-level literature courses; one 300–400-level course in subject area not covered in the Literary and Cultural History Sequence; for seniors, one 400-level seminar and one 450-level senior essay with emphasis in writing.
With Public and Professional Writing

Public and Professional Writing courses will prepare you for writing in the world—outside of college and literature classes. PPW courses teach about how to write for a specific audience, and how to use verbal and visual styles to write, design, and edit documents. Course contexts include writing in the workplace, writing in nonprofit settings, writing in the arts, writing in the health sciences, writing about law and public policy, editing and publishing, and grant writing. PPW students also learn effective collaborative skills in internships with community clients, and learn how to build a professional writing portfolio.

- Minimum of 48 hours beyond first-year English
- Sophomore Requirements: EN185, EN218, EN219, three of the four courses in the Literary and Cultural History Sequence (EN245, EN246, EN265, and EN266); EN321 or EN322; and EN303, Intro to Professional Writing
- Junior/Senior Requirements: EN390, Research Seminar; one 300–400-level course in language, rhetoric, or literary criticism; two 300-level literature courses; one 300–400-level course in subject area not covered in the Literary and Cultural History Sequence; two 300-level professional writing courses; EN386, Studies in Rhetoric, or ST330, Social and Rhetorical Study of Science and Technology; for seniors, EN403, Senior Seminar and Internship in Professional Writing, and one EN450 senior essay

Requirements for the Literature Minor

- Minimum of 18 hours beyond first-year English
- EN185, 3–6 hours of 200-level literature courses, and 9–12 hours of 300- and 400-level literature courses

Requirements for the Creative Writing Minor

- Minimum of 21 hours beyond first-year English
- EN185, EN218, or EN219; 9 additional hours in writing courses and 6 hours of literature courses, including at least one course at the 300 level or above

Requirements for the Public and Professional Writing Minor

- Minimum of 21 hours beyond first-year English
- EN203, 9 hours of EN303, EN403, EN386, and any EN elective on any level

Core Courses offered by English Courses

PCA 218-EN, Visual Literature: The 20th-century collision of postmodern and digital cultures has given rise to visual narratives in increasingly diverse forms. This course will take inventory of classic story structures, then survey the cultural landscape for dynamic examples of visual literatures. Our investigations are likely to include video games, infographics, sequential art, maps, diagrams, iPhone apps, and more. (U)(3) Summer

PCA 232-EN, Seeing the World and the Self: When you look out the window, do you see a tree or the rhythmic sway of dark line and bright color? Do you see a field of grass or waves of innumerable greens? This course will encourage you to see the world through the eyes of an artist by focusing on the natural world. To achieve this, we will examine a variety of formats including poetry, the personal essay, painting, and photography in relation to key aesthetic concepts such as the sublime, the beautiful, and the picturesque. We will juxtapose contemporary writers and artists with those from earlier periods to demonstrate how the way we see the world is culturally determined. We will complement our readings with trips to nearby museums (IMA), galleries, and the studios of local artists. In addition, we will take advantage of such local natural resources as the grounds of the IMA, the canal walk, and Holcomb Gardens, where you will find the raw material for your own reflection and creative expression. (U)(3). Fall & spring

PCA 293-EN, Storycraft: In this course we'll blend the study of craft—the tools and techniques of storytelling—with creation. You'll engage with published stories in addition to writing your own, all to learn how stories work, and how you work best as a writer. (U)(3)

PCA 234-EN, Bring the Noise: Spoken Word Between the Lines: Students will explore the dynamism of spoken word evidenced in the resurgence of performance-based art and poetry venues. Study the creative techniques involved in bringing written words to life. Examine past and present performers' stylistic approaches to captivating an audience. Discover how to develop and enhance poetry from the page to the stage. (U)(3) Fall

PCA 235-EN, The Art of Poetry: At its best, poetry expresses fundamental truths and mysteries about the human condition. This course will provide students an understanding of and appreciation for the way poets use language to say the unsayable. Students will be taught the art of poetry by reading memorable poems, and by composing their own. (U)(3) Annually, term varies

PCA 237-EN, Lit Hop: Hip Hop and Literature: Students will listen to the two-way ekphrastic chat between hip hop and literature and respond creatively to this modern mash-up. Pairing classic albums with the poetry and prose that rap's creators have inspired or expanded upon, we will explore rap's influence on American culture. Students will write across genres, transcending old-school conventions. (U)(3)

T1210-EN, Inquiries in American Literature and History I: This course will be organized around a theme in early American literature, and thereby seek to increase students' understanding of major works, authors, and literary movements of the period. Texts for the course will come primarily from the period up to the American Civil War, and both the texts and the authors studied will be placed within their larger literary and cultural contexts. Particular themes for the course will be published each semester in the schedule of classes. (U)(3) Fall

T1211-EN, Inquiries in American Literature and History II: This course will be organized around later American literature, and thereby seek to increase students' understanding of major works, authors, and literary movements of the period. Texts for the course will come primarily from the period after the American Civil War, and both the texts and the authors studied will be placed within their larger literary and cultural contexts. Particular themes for the course will be published each semester in the schedule of classes. (U)(3) Spring

T1212-EN, Inquiries in British Literature and History I: This course will be organized around early British literature, and thereby seek to increase students' understanding of major works, authors, and literary movements of the period. Texts for the course will come primarily from the period up to 1800, and
both the texts and the authors studied will be placed within their larger literary and cultural contexts. Particular themes for the course will be published each semester in the schedule of classes. (U)(3) Fall

TI213-EN, Inquiries in British Literature and History II: This course will be organized around later British literature, and thereby seek to increase students' understanding of major works, authors, and literary movements of the period. Texts for the course will come primarily from the period after 1800, and both the texts and the authors studied will be placed within their larger literary and cultural contexts. Particular themes for the course will be published each semester in the schedule of classes. (U)(3) Spring

TI214-EN, Shakespeare: Introduces Shakespeare's themes, stagecraft, language, and moral vision with special attention to the varieties of human experience portrayed in the plays. (U)(3) Fall & spring

TI215-EN, Theory, Culture, Criticism: This course is an introduction to cultural studies: a critical, theoretical, interpretive, and interdisciplinary way to understand our world and our place in it. This course will look at diverse cultural objects—novels, plays, films, visual arts, and media—through the lens of literary and cultural theories, with the goal of producing sophisticated readers of the contemporary world. (U)(3) Fall & spring

TI216-EN, GALA Literary Studies in Situ: This course surveys fiction, poetry, and plays of a country or countries visited during a short-term study-abroad trip. Focusing on a particular theme in literature inspired by and reflected in its location, the course asks how the experience of travel in a country influences our ability to interpret its literary texts. (U)(3) Occasionally

English Courses

EN101, Writing Tutorial: Intensive practice in discovering, shaping, and communicating meaning through writing. Individualized instruction for students who need additional critical reading and writing development to perform satisfactorily in the First Year Seminar. Students will meet during the first week of classes at the published time, but thereafter, students will arrange a weekly tutorial time with the professor as well as arrange weekly or biweekly tutorials with a peer tutor from the Writers’ Studio. Students are assigned to the course on the basis of tests and writing samples. (P/F)(U)(3) Fall

EN185, Introduction to the Discipline of English: Introduces students to the methods of critical reading and writing and helps them to develop the skills necessary for the study of literature. Required of all English majors. Prerequisite: FYSt02. (U)(3) Fall & spring

EN201, Advanced Composition: Studies the craft of expository prose. Emphasizes the construction of well-developed and well-supported arguments. Prerequisites: FYSt01 and FYSt02. (U)(3) Annually, term varies

EN203, Intro to Professional Writing: This course introduces students to the opportunities available and the skills needed to write in a variety of professional settings, including businesses, nonprofit organizations, and publications. Students in the course will learn to write for a variety of audiences and a variety of purposes. Prerequisites: FYSt01 and FYSt02. (U)(3) Fall & spring

EN218, Intro to Creative Writing—Poetry: Focuses on the connection between reading and writing. Emphasis on techniques of writing poetry. (U)(3) Fall & spring

EN219, Intro to Creative Writing—Prose: Focuses on the connection between reading and writing. Emphasis on techniques of prose writing, fiction, and nonfiction. Prerequisites: FYSt01 and FYSt02. (U)(3) Fall & spring

EN243, Inquiries in American Literary and Cultural History 1: This course will be organized around a theme in early American literature, and thereby seek to increase students' understanding of major works, authors, and literary movements of the period. Texts for the course will come primarily from the period up to the American Civil War, and both the texts and the authors studied will be placed within their larger literary and cultural contexts. Particular themes for the course will be published each semester in the schedule of classes. (U)(3) Fall

EN246, Inquiries in American Literary and Cultural History 2: This course will be organized around a theme in later American literature, and thereby seek to increase students' understanding of major works, authors, and literary movements of the period. Texts for the course will come primarily from the period after the American Civil War, and both the texts and the authors studied will be placed within their larger literary and cultural contexts. Particular themes for the course will be published each semester in the schedule of classes. (U)(3) Spring

EN265, Inquiries in British Literary and Cultural History 1: This course will be organized around a theme in early British literature, and thereby seek to increase students' understanding of major works, authors, and literary movements of the period. Texts for the course will come primarily from the period up to 1800, and both the texts and the authors studied will be placed within their larger literary and cultural contexts. Particular themes for the course will be published each semester in the schedule of classes. (U)(3) Fall

EN266, Inquiries in British Literary and Cultural History 2: This course will be organized around a theme in later British literature, and thereby seek to increase students' understanding of major works, authors, and literary movements of the period. Texts for the course will come primarily from the period after 1800, and both the texts and the authors studied will be placed within their larger literary and cultural contexts. Particular themes for the course will be published each semester in the schedule of classes. (U)(3) Spring

EN287, Literary Theory, Culture, and Criticism: This course is an introduction to cultural studies: a critical, theoretical, interpretive, and interdisciplinary way to understand our world and our place in it. This course will look at diverse cultural objects—novels, plays, films, visual arts, and media—through the lens of literary and cultural theories, with the goal of producing sophisticated readers of the contemporary world. (U)(3) Fall & spring

EN301, Topics in Advanced Composition: Studies specific prose methods or styles of writing. Recent offerings include review writing, stylistic analysis, classical rhetoric, and peer tutoring. Open to juniors and seniors. (U/G)(3) Spring

EN303, Studies in Professional Writing: You will learn some basic forms of professional writing as well as some of its special purposes such as public education and outreach, argument and advocacy, reporting, reviewing, or entertaining. You will learn to write within such areas as the environment, health and medicine, science, and technology. (U/G)(3) Annually, term varies
EN310, Intermediate Writing Workshop: Students will have the opportunity to work on their own writing in a workshop setting, which includes the participation and critique of all other students in the course. Students will read extensively in the specified genre and attend Butler's Visiting Writers Series events. Prerequisites: EN218 and EN219 or permission of the director of creative writing. (U/G)(3) Fall & spring

EN311, Literary Editing: In this hands-on introduction to literary editing, you will study literary magazines, talk to editors, and practice the invisible art of editing another person's creative work (which should teach you a lot about revising your own work). As a throughline for the semester, you will shepherd at least two stories through the entire editing process, from selection through publication. (U/G)(3) Spring

EN319, History of the English Language: Studies changes in our language from Indo-European and Old English through Middle English to modern American and British English. Open to juniors and seniors. (U/G)(3) Occasionally

EN321, Comparative Literature 1: Studies world literature in historical, aesthetic, and cultural context. Prerequisite: EN185. (U/G)(3) Fall & spring

EN322, Comparative Literature 2: Studies world literature in historical, aesthetic, and cultural context with special attention paid to issues in literary and translation theory. Prerequisite: EN321 or junior/senior status. (U/G)(3) Occasionally

EN341, Topics in 19th Century American: Studies major writers within the context of 19th-century American culture. (U/G)(3) Annually, term varies

EN362, Renaissance Literature: Studies English poetry, prose, and drama of the 16th and early 17th centuries. Open to juniors and seniors. (U/G)(4) Occasionally

EN363, Shakespeare: Studies representative comedies, tragedies, and histories in both their historical and intellectual contexts and their adaptations to modern performance. Open to juniors and seniors. (U/G)(3) Fall & spring

EN365, Romanticism: Studies British poetry and prose of the late 18th through the mid-19th century. Examines the aesthetic, historical, and intellectual issues of the Romantic Revolution. Particular themes will be published each semester in the schedule of classes. (U/G)(3) Occasionally

EN367, Victorian Literature: Studies English poetry and prose from 1832 to the death of Queen Victoria in 1901. Examines the aesthetic, historical, and intellectual issues of the period and shows how late-Victorian literature provides a bridge to 20th-century aesthetics. Open to juniors and seniors. (U/G)(3) Occasionally

EN368, 20th Century British Literature: Studies modern and postmodern British poetry and prose in historical, aesthetic, and cultural context. Open to juniors and seniors. (U/G)(3) Occasionally

EN370, Literature and Public Problems: This course explores how literary works capture, contextualize, and imagine past, present, or future public problems such as environmental health, economic issues, and other social issues that impact locally, nationally, and/or internationally. (U)(3) Annually, term varies

EN381, Studies in Major Authors: Specific courses focusing on extensive study of one or two major writers, their lives, their art, and their development. Open to juniors and seniors. (U)(3) Annually, term varies

EN382, Studies in Poetry: Specific courses on important groups of poets, historical periods of poetry, or bodies of national poetry. Current offerings include modern American poetry, modern British poetry, and contemporary international poetry. Open to juniors and seniors. (U/G)(3) Annually, term varies

EN384, Studies in Drama: Specific courses on genres of drama, historical periods of drama, or bodies of national drama. Current offerings include Elizabethan and Jacobean drama, modern American drama, and modern European drama. Open to juniors and seniors. (U/G)(3) Annually, term varies

EN385, Studies in Literary Criticism: Specific courses in the history of literary criticism, important groups of critics, or the application of literary critical methods. (U/G)(3) Annually, term varies

EN386, Studies in Rhetoric: Offers general and specialized study of the history, criticism, theory, literature, and application of the rhetorical arts. (U/G)(3) Annually, term varies

EN387, Studies in Literary Theory: Specific courses in the history of literary and critical theory, important groups of theorists, or the application of critical methodologies. (U/G)(3) Annually, term varies

EN390, Research Seminar: Focusing on a single text, or a set of texts by a single author, this course is designed to equip students with the research and writing skills necessary for advanced work in English. This course is required of all English majors, and should be taken during the junior year. Prerequisites: EN185 and two of the following: EN245, EN246, EN265, and EN266. (U/G)(3) Fall & spring

EN391, Special Topics in Literature: Specific short courses on topics of interest. Open to juniors, seniors, and graduate students, first-year and sophomore with permission. (U/G)(1) Occasionally

EN392, Special Topics in Literature: Specific short courses on topics of interest. Open to juniors, seniors, and graduate students, first-year students and sophomores with permission. (U/G)(2) Occasionally

EN393, Special Topics in Literature: Specific courses on topics of interest. Open to juniors and seniors. (U/G)(3) Fall & spring

EN394, Special Topics in Film: Specific courses on topics of interest. Open to juniors and seniors. (U/G)(3)

EN395, Internship: Directed experience in a career setting. Students apply through the head of the department. Open to junior and senior majors. (U)(3) Fall & spring

EN396, Internship: Directed experience in a career setting. Students apply through the head of the department. Open to junior and senior majors. (U)(6) Fall & spring
EN397, Writing Fellows: Writing fellows work with a designated core class (usually FYS, but other core courses with similar writing requirements may qualify) and instructor throughout the semester, attending class meetings, completing reading assignments, and serving as writing consultants. Students will meet on a regularly scheduled basis with the fellows director, complete assigned pedagogical readings, and complete an end-of-semester report. Must be taken in conjunction with a two-hour independent study with the designated instructor, and with permission of both fellows director and designated instructor. Prerequisites: Completion of FYS, graduate status, and permission of the instructor. (U/G)(3) Fall & spring

EN403, Senior Seminar in Professional Writing: In this advanced course in professional writing, students will undertake a major project in the community, and they will also compose a portfolio of their professional writing. (U)(3) Fall & spring

EN410, Senior Creative Writing Seminar: Students will participate in an advanced writing workshop, critique other students' work, attend Butler Visiting Writers Series events, and complete a substantial writing project. Prerequisites: Senior standing and approval of course project by the director of creative writing. (U)(3) Spring

EN422, Comparative Literature 2: Surveys major periods and texts in non-Western world literature. (U/G)(3) Occasionally

EN450, The Senior Essay: In this course, students will work towards completing their senior essay, a 20- to 25-page literary research-based paper that is a requirement for graduation in the English major. Students will master professional writing and research methods in their field, as well as techniques for revising prose. (U)(3) Fall & spring

EN455, Writing in Schools: This class will rotate classroom discussion sessions where students examine various modes of age-appropriate creative and expository writing pedagogy, and an active experience where students guide and teach elementary or secondary school students to express themselves in literary genres. (U/G)(3) Fall & spring

EN463, Shakespeare: Studies representative comedies, tragedies, and histories in both their historical and intellectual contexts and their adaptations to modern performance. Open to juniors and seniors. (U/G)(3) Occasionally

EN466, Romanticism: Studies British poetry and prose of the late 18th through the mid-19th century. Examines the aesthetic, historical, and intellectual issues of the Romantic Revolution. Particular themes will be published each semester in the schedule of classes. (U/G)(3) Occasionally

EN482, Studies in Poetry: Specific courses on important groups of poets, historical periods of poetry, or bodies of national poetry. Current offerings include modern American poetry, modern British poetry, and contemporary international poetry. Open to juniors and seniors. (U/G)(3) Occasionally

EN493, Special Topics in Literature: Specific courses on topics of interest. Open to juniors and seniors. (U/G)(3) Occasionally

EN494, Special Topics in Film: Specific courses on topics of interest. Open to juniors and seniors. (U/G)(3)

EN495, Independent Study: (U/G)(1) Fall & spring

EN496, Independent Study: (U/G)(2) Fall & spring

EN499, Honors Thesis: Senior majors. (U)(3) Fall & spring

**MA Program**

The English MA program offers graduate students the opportunity to pursue one of two possible advanced paths of study. In the thesis track, MA students complete 24 semester hours of coursework and six semester hours of MA thesis work. In the non-thesis track, students complete 36 semester hours of coursework. Individuals who complete this degree should expect to acquire a rigorous grounding in the fundamentals of professional literary analysis, criticism, and research.

**MFA in Creative Writing**

Butler's MFA in Creative Writing is a 36-hour studio program designed for students seeking to enhance their creative and professional proficiency in the literary arts. The program features 10 three-credit courses and six hours of formal thesis work with an advisor. We offer workshops in poetry, fiction, nonfiction, electives in screenwriting, teaching creative writing, alternative forms, graphic novel, young adult fiction, poetic craft, and literary editing and publishing. Students can also take upper-level courses in English, or in other departments, as part of their education.

The program features access to a combination of top-flight, full-time faculty and prominent visiting faculty, including the Booth Tarkington Writer-in-Residence. Through the Vivian S. Delbrook Visiting Writers Series, students attend readings and small question-and-answer sessions with nationally and internationally recognized writers. The program also operates a literary magazine, *Booth* (booth.butler.edu), which offers students a variety of editorial and teaching mentorship opportunities, and sponsors a rich variety of community programs through the Efroymson Center for Creative Writing.

**MFA Courses**

EN501, Graduate Seminar Special Topic: (G)(3) Fall & spring

EN502, Graduate Prose Workshop: Graduate-level creative writing workshop in one of the following prose forms: fiction (novel, short story, or mixed); creative nonfiction; children's/young adult; screenwriting; graphic novel; or open genre. Open to MFA in Creative Writing students only. (G)(3) Fall & spring

EN503, Graduate Poetry Workshop: Graduate-level creative writing workshop in poetry. Open to MFA in Creative Writing students only. (G)(3) Fall & spring

EN504, Project Workshop: Thesis preparation and long-form study in one or more of the following genres: fiction, creative nonfiction, poetry, screenwriting, young adult, digital forms, and/or other literary genres. (G)(3) Fall & spring
EN505, Literary Editing and Publishing: This course introduces students to the production of literary publications. Through lectures and discussions, we will examine everything from the evaluation of manuscripts to the marketing of a finished product. We will also survey the evolving field of literary magazines and related ethical concerns. (G)(3) Annually, term varies

EN506, Reading for Writers: Required of all MFA students. Reading practice and pedagogy in one or more of the following genres: fiction, creative nonfiction, poetry, screenwriting, young adult, digital forms, or other literary genres. (G)(3) Occasionally

EN595, Independent Study: (G)(1) Fall & spring
EN596, Independent Study: (G)(2) Fall & spring
EN710, Research Problems: (G)(3) Fall & spring
EN711, Thesis: (G)(3) Fall & spring

Gender, Women, and Sexuality Studies

Administration
Irene del Rio Gabiola, PhD, Program Director

Assistant Professor
Brooke Beloso, PhD

Program Website
www.butler.edu/gender-studies

Gender, Women, and Sexuality Studies provides an interdisciplinary setting in which students can examine gender—the social meaning of the distinction between the sexes—and sexuality—sexual identities, discourses, and institutions—as they intersect with race, class, ethnicity, nationality, and transnational movements.

In required courses, students analyze gender and sexuality from a variety of academic fields, and they explore the theoretical and historical basis of such study. Upper-division electives are chosen from at least three disciplines, allowing students to pursue their inquiries in more depth without narrowing their focus to a single field. Internships provide students with the option to apply theoretical knowledge to work and/or community-based learning opportunities.

Gender, Women, and Sexuality Studies is an excellent complement to all majors at Butler University, regardless of whether the student plans to attend graduate school or seek employment immediately after graduation. For students interested in graduate school, Gender, Women, and Sexuality Studies provides a strong foundation in women’s and gender studies, as well as for advanced work in any academic discipline that lends itself to gender critique. For students interested in entering the workforce, Gender, Women, and Sexuality Studies students are well equipped to work in a diverse and multicultural world, an attribute today’s employers are seeking in a variety of professions and occupations, including public administration, social services, business, the arts, law, medicine, social work, anthropology, journalism, media, and criminology.

Degree Programs

- Major in Gender, Women, and Sexuality Studies (BA)
- Minor in Gender, Women, and Sexuality Studies

Requirements for the Major

- GWS100, Perspectives in Gender, Women, and Sexuality Studies

Category 1: Inquiry into Identity

Select one of the following:
- GWS201, Intersections of Identity: Gender, Race, Class, and Sexuality
- TLI242-PL, Marginalized in America: Gender at the Intersection of Race and Class
- HST342, Working Women in the Modern City

Category 2: Activism for Social Change

Select one of the following:
- GWS202, Resistance for Social Change
- CCM482, Voices of Dissent and Social Change
- PO375, The Role of Protest in U.S. Politics

Transnational Requirement

Select two of the following:
- GWS303, Special Topics: sex@the.city.org
- AN315, Gender and Colonialism
- AN320, Gender and Sexuality in Globalization
- AN322, Sex, Gender, and Sexuality in Japan
• EN393, Special Topics: Gender, Language, and Globalization
• HST366, Gender, Sex, and Sexuality in Latin America
• HST367, Geographies of Desire: Space, Gender, Sexuality
• JRN419, Gender and Media: Global Views
• PO395, African Gender and Sexuality Politics
• RI1377, Religion, Gender, and the Goddess in Asia

Twelve credit hours of GWSS-approved electives with no more than six credit hours in any one discipline.

Requirements for the Minor

GWS100, Perspectives in Gender, Women, and Sexuality Studies

Category 1: Inquiry into Identity

Select one of the following:

• GWS202, Intersections of Identity: Gender, Race, Class, and Sexuality
• TI242-5L, Marginalized in America: Gender at the Intersection of Race and Class
• HST342, Topics in Women’s History: Working Women in the Modern City

Category 2: Activism for Social Change

Select one of the following:

• GWS202, Resistance for Social Change
• CCM462, Voices of Dissent and Social Change
• PO375, The Role of Protest in U.S. Politics
• GWS304, Feminist and Queer Theory

Transnational Requirement

Select one of the following:

• GWS303, Special Topics: sex&thecity.org
• AN335, Gender and Colonialism
• AN336, Gender and Sexuality in Globalization
• AN392, Sex, Gender, and Sexuality in Japan
• EN393, Special Topics: Gender, Language, and Globalization
• HST366, Gender, Sex, and Sexuality in Latin America
• HST367, Geographies of Desire: Space, Gender, Sexuality
• JRN419, Gender and Media: Global Views
• PO395, African Gender and Sexuality Politics
• RI1377, Religion, Gender, and the Goddess in Asia

Six credit hours of GWSS-approved electives.

Electives

A separate list of GWSS-approved electives will be published each semester, but examples of courses students have taken for GWSS credit in the past include the following:

• GWS300/PL348, Philosophy of Feminism
• GWS303, Special Topics: Love for Sale: Intimate Labor and the Commodification of Love
• GWS303, Special Topics: Ransom Notes and Radical Chic
• GWS303, Special Topics: Written Out of Wedlock
• GWS303, Special Topics: Health Disparities
• GWS303, Special Topics: 50 Shades of Sex
• AN342, Science, Technology, and Society
• AN380/HST395, Special Topics: Witchcraft, Shamanism, and the Paranormal
• AN380, Special Topics: From Peasant to Princess
• AN380, Special Topics: Sex Education across Cultures
• ART315, Postmodernism in the Arts
• ART382, Special Topics: Gender in Art
• CCM330, Representations of Race and Difference
• CCM354, Gender and Communication
• CCM376, Film, Culture, and Criticism
• CCM390, Special Topics: Virginity and Sexual Politics of Film
• CCM420, Queering Film
• CCM468, Women and Rock
• CCM470, Sports, Media, and Culture
• CCM481, Technologies of the Body
• CCM482, Voices of Dissent and Social Change
• EN341, Topics: American Gothic
• EN393, Special Topics: Fin-de-Siècle Literature
• EN393, Special Topics: Gender, Language, and Globalization
• EN394, Special Topics: Gender and Migration in Transnational Cinema
• EN493, Special Topics: Sex, Suffrage, and Empire: Modernism and the New Woman
• HST212/HST215-HST, American Visions: Dialogues on Diversity
• HST338, The Era of Jim and Jane Crow
• HST341, U.S. Women's History
• HST342, Topics in Women's History: Working Women in the Modern City
• JR448, Gender and Media: Global Views
• PL375, Topics: Feminist Jurisprudence
• PO380, Special Topics: Gender and Generation in War and Peace
• PO386, Black Political Thought
• PS305, Psychology of Gender
• PS333, Human Sexuality
• RX644, Women's Health Issues
• SO317, Gender and Society
• SO326, Gender, Race, and Crime
• SP340, Sports, Gender, National Identities
• SW200-SO, Understanding Society: Gender from a Sociological Perspective
• SW240-PO, Gender and Generations: War and Peace
• TI231-HST, Mad Women in America
• TI234-HST, Reel America: Film and the American Experience
• TI242-PL, Marginalized in America
• TI255-PO, Politics of Alice Walker

Core Courses Offered by Gender, Women, and Sexuality Studies

SW223-GWS, Resistance for Social Change: Civil rights, social movements, resistance, and liberation are the subjects of this course. We will examine the ways in which such minoritized populations as people of color, women, the LGBT-identified, and the poor have demanded rights and responsibilities. (U)(3) Fall & spring

SW232-GWS, Intersections of Identity: This course will explore the social construction of difference and inequality with particular focus on gender, race, sexuality, and class. Students will interrogate dominant ideologies and develop an understanding of how systems of inequality impact everyone's daily lives. (U)(3) Fall & spring

Gender, Women, and Sexuality Studies Courses

GWS100, Perspectives in Gender, Women, and Sexuality Studies: Designed to introduce students to the wide range of topics addressed in gender, women's, and sexuality studies. The course is largely made up of guest lectures given by faculty from a variety of disciplines across campus. Open to non-minors. (P/F)(U)(1)

GWS201, Intersections of Identity: This course will explore the social construction of difference and inequality with particular focus on gender, race, sexuality, and class. Students will interrogate dominant ideologies and develop an understanding of how systems of inequality impact everyone's daily lives. (U)(3)

GWS202, Resistance for Social Change: This course will examine social justice movements both within and beyond the United States. Taking an interdisciplinary, intersectional approach, students will investigate how marginalized groups, such as people of color, gays, women, and workers, have demanded greater rights and responsibilities. (U)(3) Fall & spring

GWS300, Philosophy of Feminism: Introduces students to the philosophical method of thinking out issues that confront women in contemporary American society and that challenge all of us. The course's primary focus is the study of feminist responses to issues such as gender socialization, reproductive rights, affirmative action, pornography, beauty, eco-feminism, alternative families, and others. (U)(3) Occasionally

GWS302, Topics in Gender Studies: Selected topics of significance in gender studies. (U)(2) Annually, term varies

GWS303, Topics in Gender Studies: Selected topics of significance in gender studies. (U)(3) Annually, term varies

GWS304, Feminist and Queer Studies: This course investigates the central concepts of critical theory through the exploration of the overlapping terrains of women's and gender studies, feminist, and queer theory. Prerequisites: GWS102 and GWS202 or junior/senior status. (U)(3) Annually, term varies

GWS398, Internship/Practicum in Gender Studies: Designed to give students the opportunity to apply theoretical knowledge to everyday experience through a volunteer position, internship, or employment in a setting where they can explore gender issues. The student will work in conjunction with a faculty member; the project must be approved by the gender studies director. Prerequisites: GWS100, GWS300, or GS301, junior or senior standing, and completion of six hours of electives. (U)(1) Annually, term varies

GWS399, Internship/Practicum in Gender Studies: Designed to give students the opportunity to apply theoretical knowledge to everyday experience through a volunteer position, internship, or employment in a setting where they can explore gender issues. The student will work in conjunction with a faculty member; the project must be approved by the gender studies director. Prerequisites: GWS100, GWS300, or GS301, junior or senior standing, and completion of six hours of electives. (U)(2) Annually, term varies
GWS400, Internship/Practicum in Gender Studies: Designed to give students the opportunity to apply theoretical knowledge to everyday experience through a volunteer position, internship, or employment in a setting where they can explore gender issues. The student will work in conjunction with a faculty member; the project must be approved by the gender studies director. Prerequisites: GS100, GS300, or GS301, junior or senior standing, and completion of six hours of electives. (U)(3) Annually, term varies

GWS401, Independent Study: Offers the qualified student of gender studies the opportunity to pursue a topic of individual interest. Open only to seniors, by permission of the instructor. (U)(1) Annually, term varies

GWS402, Independent Study: Offers the qualified student of gender studies the opportunity to pursue a topic of individual interest. Open only to seniors, by permission of the instructor. (U)(2) Annually, term varies

GWS403, Independent Study: Offers the qualified student of gender studies the opportunity to pursue a topic of individual interest. Open only to seniors, by permission of the instructor. (U)(3) Annually, term varies

GWS405, GWSS Senior Capstone: All GWSS majors must complete the senior capstone course taught or supervised by a GWSS faculty member. The course is designed to enable upper-level students, and especially GWSS majors and minors, to integrate the knowledge and experience gained in GWSS courses, bridge academic scholarship and praxis in our community, and use that knowledge and experience as a springboard for future work. Topics will vary. Prerequisite: Junior standing or permission of the instructor. (U)(3) Occasionally

GWS490, Internship: (U)(3)

History and Anthropology

Administration
Elise Edwards, PhD, Department Chair

Professors
Bruce Bigelow, PhD; Paul Hanson, PhD; Ageeth Sluis, PhD; Thomas Paradis, PhD

Associate Professors
John Cornell, PhD; Vivian Deno, PhD; Elise Edwards, PhD; Sholeh Shahrokhi, PhD; Scott Swanson, PhD

Assistant Professors
Antwain Hunter, PhD; Zachary Scarlett, PhD

Instructors
John Ramsbottom, PhD (visiting); Scott Smith, MA

Department Website
www.butler.edu/history-anthropology

The disciplines of history, anthropology, and geography share the same home because they address the same fundamental questions about life from different perspectives, the interplay among which enlarges our students’ minds and lives. Butler is singular among American universities in knitting these three disciplines into a working organism. Prospective majors in both history and anthropology take a first-year course together, introducing them to each other and to the disciplines in their departments, thus offering all the advantages of self-standing disciplines and interdisciplinary approaches.

Members of the department offer expertise in wide-ranging areas of the world: the United States, Latin America, East Asia, the Middle East, and Europe. Within these areas we offer courses on the fundamental conditions that shape human life past and present: citizenship, politics, peace and war, gender, race, class, sexuality, language, economics, religion, and thought. The department offers a small student-faculty ratio, individual attention, and abundant opportunities for undergraduate research. Most of our students also study away from Butler, either abroad or in Washington, DC, offering them a taste of this increasingly global world we inhabit.

Why Study Anthropology?

Anthropology explores the human condition, appreciating humans and human practices holistically. We focus on cultural anthropology and research methods critical to understanding the complexities of the modern world. Our graduates enter a wide range of careers—including field archaeology, social work, law, public health, and library sciences—as well as top-level graduate programs.

By producing original work through course research assignments, and possibly self-designed honors thesis projects, students learn how to think critically and write effectively. They leave our program equipped to carefully investigate issues and creatively solve problems on their own—essential skills for any future career direction.

Why Study History?

History explores the human condition throughout the world from earliest time to the present moment. Through coursework and individualized projects, students will learn how to contextualize and investigate past events and understand their relevance for the present as well as the future.

With a minimum of prescribed courses, our curriculum allows you to follow your curiosity and feel free to discover through a myriad of course offerings the unfolding of past events and the processes of history making that are such a central component of the human condition.
By producing original work through course research assignments, and possibly self-designed honors thesis projects, students learn how to think critically and write effectively. They leave our program equipped to carefully investigate issues and creatively solve problems on their own—essential skills for any future career direction.

Why Study Geography?
Cultural geography brings together history, culture, and spatial patterning, and reinforces the message of both history and anthropology in a common department. Geography at Butler starts by studying Indianapolis, then moves outward to Indiana, the United States, and the world. These courses are generally valuable, but particularly so for students preparing to teach social studies in secondary school.

Anthropology and History at Butler

- Small class size and student-faculty ratio, guaranteeing one-on-one attention, mentoring, and guidance to all majors and minors.
- Unique partnership between history and anthropology, providing cutting-edge training in theory and methodology that binds the two disciplines.
- Access and connections to premier area museums, regional historic sites, archival collections, archaeological field sites, and community cultural groups.
- Extensive internship, employment, and study-abroad opportunities.
- Guest lectures, site visits, and numerous other means to meet professionals in the field.
- Opportunities to do independent research projects, participate in the Butler Summer Institute and other funded research possibilities, produce honors theses, and attend regional and national conferences.

Anthropology Student Learning Outcomes

The anthropology program seeks to teach students to think for themselves, appreciate human and cultural differences, and master the basic tools necessary for understanding those differences. They learn to employ the ethnographic method, understand issues from a diversity of viewpoints, and ready themselves for responsible citizenship. More specifically, we seek to teach students the characteristic methods of anthropology and the basic range of anthropological theories, to analyze evidence and develop arguments, incorporate the views of other people into their projects, understand issues in all their complexity rather than oversimplify them, and share their ideas and research effectively.

History Student Learning Outcomes

The history program seeks to teach students to think for themselves independently and critically, master the history of one part of the world, apply the past to understand the present, appreciate those who are different from themselves, appreciate academic and civil discourse, and ready themselves for responsible citizenship. More specifically, we seek to teach students the characteristic methods of history and the basic range of historical theories, to analyze evidence and develop arguments, conduct historical research, incorporate the views of other people into their projects, look at problems from a variety of perspectives, and share their ideas and research in proper form.

Degree Programs

- Major in Anthropology (BA)
- Major in History (BA)
- Master of Arts in History (MA)
- Combined Major in Anthropology and Psychology (BA) (see Combined Majors)
- Combined Major in Anthropology and Religion (BA) (see Combined Majors)
- Combined Major in History and Anthropology (BA) (see Combined Majors)
- Combined Major in History and Political Science (BA) (see Combined Majors)
- Minor in Anthropology
- Minor in Geography
- Minor in History

Requirements for the Anthropology Major

- 36 credits
- AN101, SW215, and SW205
- 3 hours in a subfield of anthropology (200–400 level)
- 3 hours of methodology (AN352 or course approved by advisor)
- 3 hours of theory (AN390)
- 12 hours of elective courses
- 3 hours capstone: AN460 or honors thesis (AN499) or other advisor-approved course
- 3 hours internship, study abroad, field school, or advisor-approved elective

Requirements for the Anthropology Minor

The minor in anthropology consists of 18 hours: SW215; AN101, SW205, or 200-level anthropology course; and 12 hours of electives at the 300 level or above.

Core Courses Offered by Anthropology

SW210-AN, Sex, Gender, and Sexuality in Japan: This course explores the socio-historical constructions of sex, gender, and sexuality in modern Japan from the Meiji Restoration (1868) to the present. Students will study the roles of various agents, including the state, medical science, and the media, in the production of sexual knowledge and the shaping of gendered practices. (U)(J) Occasionally
SW215-AN, Being Human—Anthropological Approaches to Life and Meaning: Cultural anthropology is a discipline focused on how humans create meaning, forge alliances, and assert differences. This course allows students to explore conceptual, theoretical, methodological, and ethical issues central to the anthropological study of what it means to be human and make meaning in the world. (U)(G) Annually, term varies

SW233-AN, Political Islam in Paris: An Anthropological Exploration of Ethnicity in Urban France: An introduction to central anthropological concepts of identity formation, cultural diversity, and politics of race in France. The course will develop students’ appreciation of Islamic cultural forms and practices in Europe, as products of and responses to historical circumstances and exigencies, and the ways they become transfigured as they shed and accrue meanings over time in the context of contemporary life in Paris. (U)(G) Occasionally

SW262-AN, Sport, Empire, & Identity: This course explores sport in the contemporary moment and historically to better understand and appreciate its role in imperial projects and the creation of colonial and postcolonial subjects. Through readings, films, and experiential learning, we will investigate the central and powerful position of sport as a means of defining and dividing people along numerous axes of identification, such as gender, class, race, ethnicity, sexuality, nationality, (dis)ability, and even religious affiliation. (U)(G) Occasionally

**Anthropology Courses**

AN101, Close Encounters—An Introduction to History & Anthropology: This course will introduce students to basic theories and methods in the disciplines of anthropology and ethnology. This course will introduce students to basic theories and methods in the disciplines of anthropology and history through the exploration of past and present cultural encounters and exchanges, and the diverse responses they engendered. Topics will range across time and space and focus on exploration, trade, colonialism, imperialism, and current cross-cultural interactions. (U)(G) Fall

AN280, Subfields in Anthropology: Introductory courses in the various subfields of anthropology such as biological anthropology, archaeology, primates behavior, language, and culture are offered on an occasional basis. This may be repeated for credit if subject matter is different. (U)(G) Occasionally

AN302, The Body and Society: This course explores symbolism, ideologies, and treatments of the body cross-culturally. Topics considered include imageries of the human body, ideas about bodily aesthetics and bodily health, physical treatments of the body, the relationship of body ideologies and identity, and the body and power dynamics. (U/G)(G) Occasionally

AN304, Medical Anthropology: An introduction to the field of medical anthropology, which explores the links between culture, society, disease, and illness. Topics include discussion of biomedical, epidemiological, and other models of disease; knowledge and practice of healers cross-culturally; the relationship between religion and healing; and occupational health issues. (U/G)(G) Occasionally

AN312, Political Anthropology: Utilizes the comparative perspective to study authority, organization, and power. Topics include the ways in which authority is acquired and accepted as legitimate, issues of comparative political systems, local-level politics, the connections between local and wider political systems, and the cultural and symbolic aspects of power and legitimacy. Subject matter includes political communities in various cultural contexts. (U/G)(G) Occasionally

AN311, Anthropology of Difference: This course is about exclusions and inclusions. All around us, there are walls and fences erected to keep people out and hold “others” in. Some partitions are concrete—harsh and visible; the rest remain fluid and negotiable. This is a course on power and the social life of contemporary humans. (U)(G) Occasionally

AN313, Nation-States and Nationalisms: This course looks at nation-making projects and nationalist movements in a variety of historical and geographical contexts. Students study and then work to apply theories of nationalism to a range of case studies from Asia, the Middle East, Latin America, and Europe. (U/G)(G) Occasionally

AN315, Gender and Colonialism: This course will explore conflicts between the moral claims of liberty, equality, culture, and gendered discourse in the face of colonial legacies and the global politics of the contemporary era. It examines gendered construction of the “other” from the 19th century to the contemporary rhetorics of liberation. (U/G)(G) Occasionally

AN320, Gender and Sexuality in Globalization: This course examines how gender is culturally constructed; the relationships between power, sexuality, and social roles; and the key theoretical debates on gender in anthropology. (U/G)(G) Occasionally

AN322, Sex, Gender, and Sexuality in Modern Japan: This course explores the socio-historical constructions of sex, gender, and sexuality in modern Japan from the Meiji Restoration (1868) to the present. Students will study the roles of various agents, including the state, medical science, and the media, in the production of sexual knowledge and the shaping of gendered practices. (U/G)(G) Occasionally

AN326, Youth Conflict, Global Cinema: This course will explore teenage life across different cultural boundaries and social realities that inform global interconnections of our time. It examines the cinematic image of youth in the United States/world by exploring everyday life practices and problems that shape the desires of youth. (U)(G) Occasionally

AN328, Popular Culture: This course examines the role and function of popular culture in different social and cultural settings throughout the world. Students will compare the impact of popular culture in different regions, examining the cultural importance of such media as films, television, sporting events, music, and the internet. (U/G)(G) Occasionally

AN329, Japanese Popular Culture: This course will examine Japanese popular culture, including comics (manga), fashion magazines, feature films, anime, music, sports, and even children’s games, to understand the social pervasiveness and cultural force of these media. While focusing on Japan, the course will introduce students to critical theoretical perspectives about popular culture that can be applied more broadly. (U/G)(G) Occasionally

AN340, Non-Western Art: This course examines the cultural and social significance of art in non-Western contexts, ranging from paintings and sculptures to performing and body arts. We consider how the category of “art” itself has been defined in modern times, paying particular attention to the political process of representing creative cultural products outside of the Euro-American trope through management of museums, auctions, and knowledge-producing institutions. (U/G)(G) Occasionally
AN342, Science, Technology, and Society: This course explores the cultural aspects of scientific knowledge and its effects, as well as the sociocultural consequences of scientific and technological innovation. Students will examine issues including the power of scientific “truth” claims, the social dynamics of laboratory settings, and science’s effect on what it means to be human. (U/G)(3) Occasionally

AN345, Conflict Resolution Through Arts: Introducing the notion of conflict, we will consider a diverse use/reach of the concept by studying a range of contemporary global situations, mapped as distinct conflict zones. Later readings are designed to introduce students to creative and imaginative approaches to conflict resolution. (U/G)(3) Occasionally

AN346, The Anthropology of Sport: This course will look at sport as a topic of anthropological study. We will explore the cultural and political values produced and reaffirmed through sports training and competition; the ritualistic and symbolic aspects of sporting events and spectacles; and the messages transmitted through media-produced images of sport. (U/G)(3) Occasionally

AN347, Museum Studies: This survey of museology introduces students to the history of museums and to debates on the philosophical nature of museums and their role in society. The course covers the wide range of types and definitions of museums, traces the history of museums, discusses contemporary museum practice, and examines current ethical debates in the field. (U/G)(3) Occasionally

AN350, Anthropological Methods: An introduction to the research process in cultural anthropology, with an emphasis on qualitative methods. Students also are prepared to conduct research, including fieldwork, to evaluate and present research, and to critically evaluate the research of others. (U/G)(3) Occasionally

AN352, Ethnography: Ethnography is most generally a qualitative research approach focused on providing detailed, in-depth description. We will approach ethnography from two angles in this course: as a topic of intellectual analysis and critique; and as a methodology that we will employ in a research project at a specific field site. (U/G)(3) Occasionally

AN366, East Asia through Ethnography: An introduction to selected topics in the society and cultures of East Asia (China, Japan, and Korea), Southeast Asia (Indonesia, Malaysia, Thailand, and the Philippines), and South Asia (the Indian subcontinent). Topics include postcolonialism, transnational processes, family and kinship, world and local religious traditions and ritual practices, economic development, and gender issues. (U/G)(3) Occasionally

AN368, Coming of Age in the Middle East: This course explores life in an enigmatic geopolitical region called the Middle East. Issues of religiosity, Islam, gender, sexuality, urbanization of life, revolution, war, and global politics are considered in the context of local diversity and the global political economy. (U/G)(3) Occasionally

AN370, Peoples and Cultures of Europe: A survey of the peoples, societies, and cultures of Western and Eastern Europe. In light of globalization and movements unifying Europe such as the European Union, the course will pay special attention to demographic features, cultural practices, and major social institutions. (U/G)(3) Occasionally

AN380, Selected Topics in Anthropology: An in-depth analysis of the theory, methodology, and subject matter in an area not provided for in the current offerings of the department. (U/G)(3) Occasionally

AN390, Development of Anthropological Thought: This course inquires into the emergence and development of anthropological thought, theories, methods, and generalizations in the context of Western social and cultural milieus. The particular emphasis is on the changing shape of the academic discipline of anthropology, from the late 19th century to the present. Prerequisites: AN102 and junior standing. (U/G)(3) Occasionally

AN460, Culture and History: This course explores anthropologists’ use of historical methods, and historians’ employment of cultural analysis. Students will examine the history of the rapprochement between the disciplines, the fields’ most influential interlocutors, significant debates, and some of the scholarly work emerging from this disciplinary pairing. (U/G)(3) Occasionally

AN481, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. With permission of the director. (U/G)(1) Occasionally

AN482, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. With permission of the director. (U/G)(2) Occasionally

AN483, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. With permission of the director. (U/G)(3) Occasionally

AN484, Internship: A program offering the superior student the opportunity to participate in a closely supervised work experience in a setting pertinent to the major area of study. Majors are strongly encouraged to engage in the internship experience. Prerequisites: AN102 and permission of the director. (U)(3) Occasionally

AN485, Internship: A program offering the superior student the opportunity to participate in a closely supervised work experience in a setting pertinent to the major area of study. Majors are strongly encouraged to engage in the internship experience. Prerequisites: AN102 and permission of the director. (U)(6) Occasionally

AN486, Seminar in Anthropology: Intensive reading with problems for investigation in some special field. Prerequisites: AN102 and permission of the director. (U)(3) Occasionally

AN499, Honors Thesis: (U/G)(3) Occasionally

Requirements for the Geography Minor

A minor in geography consists of 18 hours, with at least 12 hours at the upper-division level.
Core Course Offered by Geography

SW205-GE, Cultural Geography: Regions of the World: Cultural geography introduces students to the immense cultural diversity of the world. Students will explore the diversity of regions with regard to environmental influence, historical origin and diffusion, and contemporary political, cultural, and ecological problems. The course concludes by analyzing contemporary globalization, especially with regard to cultural identity. (U)(3) Occasionally

Geography Courses

GE305, Topics in Geography: Regional and thematic study of contemporary issues in geography not treated in traditional courses. (U/G)(3) Occasionally

GE400, Independent Study: (U)(1) Occasionally

GE401, Independent Study: (U)(2) Occasionally

GE402, Independent Study: (U)(3) Occasionally

Requirements for the History Major

- 33 credits
- HST101
- Two lower-division (100–200-level) courses, one of which must be focused on Asia, Latin America, Middle East/Africa, or world/transnational history
- HST301, Historiography, typically offered once a year in the fall semester
- HST302, Junior Research Project, typically offered in the spring
- HST401, Seminar in History
- Five upper-division courses (300 level or above) from at least three of the following areas: Asia, Europe, Latin America, United States, Africa and the Middle East, or world/transnational history

Requirements for the History Minor

A minor in history consists of 18 hours, with at least 12 hours at the upper-division level.

Requirements for the Master of Arts in History

Students in the master of arts in history program may select either a 30-hour program of courses with a master’s thesis or a 36-hour program of courses without a thesis. Those in the 36-hour track must complete at least two HST401 seminars.

Core Courses Offered by History

PCA 201-HST, GALA Visual and Material Culture on Location: This course engages with one or more art form(s)—ranging from visual arts such as painting and photography to architecture and performance—from a particular country or region visited during GALA, a short-term study-abroad experience. Focusing on particular themes and forms of art inspired by and reflected in its location(s), the course will ask how the experience of study abroad and travel in a country influences our ability to interpret its art. (U)(3) Occasionally

PCA 267-HST, Experiencing the City: Indianapolis through Public Art, Architecture, and Performance: This course uses public art, architecture, and performance in Indianapolis to study the politics and aesthetics inherent in “staging” cities. It aims to enhance understanding of how art informs both the history of how urban environments have been imagined, planned, and built as well as how we experience these spaces today. (U)(3) Annually, term varies

SW205-HST, Slavery & Freedom in the Colonial Caribbean: African slavery was a dominant social and economic institution in the Caribbean Basin from the late 15th until the late 19th centuries. Over that 400-year span, somewhere between 4.5 and 5 million captive Africans were forced into the region by a number of European empires. For perspective, this is nearly 10 times the number of slaves who were brought into the British North American colonies and the United States. This dark chapter of human history continues to reverberate through the region’s nations and diverse cultures. This course offers a survey of slavery’s rise and fall, with special attention devoted to enslaved peoples’ lives and labors, to encourage students to understand slavery in both broadly regional and empire-specific contexts. (U)(3) Spring

SW265-HST, Revolutionary Cultures in Latin America: Through specific case studies, this course provides students with the opportunity to study movements in Latin America as they were shaped through the disciplines of anthropology and history. In analyzing revolutionary cultures, students examine relationships between social science and nation building, historiography and national identity, and knowledge and power. (U)(3) Occasionally

TL205-HST, The American Constitutional Tradition: This course will examine the historical debate about what contributions were made to the American Constitution by European, Euro-American, and Native American traditions both in theory and practice from 1200 to 1790. (U)(3) Occasionally

TL206-HST, The Discovery of the Individual: This course will study the new sense of individual self which emerges in medieval and modern Europe and how that development of individuality differs from ancient societies and other communities in the world today. Readings from Homer and Confucius onwards. (U)(3) Occasionally

TL207-HST, The Great War: This class explores how the First World War shapes our lives today. The impact of global conflict a century ago can still be seen in international politics, social thought, the arts, and technology. (U)(3) Occasionally

TL208-HST, Chinese Civilization: This course offers a broad survey of the history of China. It is intended to provide students with a basic introduction to the culture, society, politics, philosophies, and religious practices that constituted Chinese civilization. As Chinese civilization is roughly 5,000 years old, this
course approaches its subject thematically and historically. It seeks to build connections across disparate periods and epochs by stressing continuity in Chinese history, while also paying close attention to the many ways that China has changed. (U)(3) Occasionally

HST219-HST, Imagined World: This course will examine, through an array of literary, historical, and philosophical texts, some of the ways in which people have tried to understand their own world and their own lives through the creation of “imagined worlds.” Some of those worlds are exterior—a map of the world created by a 16th-century Venetian monk living on an island in the harbor of Venice, listening to the tales of travelers who visit him; while some are interior—a fictional character trying to come to terms with the death of his wife, and his own impending mortality, by revisiting (reinventing?) the site of his childhood summer vacations. Having explored, discussed, and written about the imagined worlds of others, toward semester’s end class participants will have the opportunity to create their own imagined world. (U)(3) Occasionally

HST211-HST, Major Themes in Asian History: A survey of major themes in South, Southeast, and East Asian history from ancient time to the present. Specific topics include the diffusion of cultural innovations, immigration, long-distance trade, the spread of religions, and empire-building. (U)(3) Fall

HST210-HST, Imagined World: This course will examine, through an array of literary, historical, and philosophical texts, some of the ways in which people have tried to understand their own world and their own lives through the creation of “imagined worlds.” Some of those worlds are exterior—a map of the world created by a 16th-century Venetian monk living on an island in the harbor of Venice, listening to the tales of travelers who visit him; while some are interior—a fictional character trying to come to terms with the death of his wife, and his own impending mortality, by revisiting (reinventing?) the site of his childhood summer vacations. Having explored, discussed, and written about the imagined worlds of others, toward semester’s end class participants will have the opportunity to create their own imagined world. (U)(3) Occasionally

HST211-HST, Mad Women in America: Mother. Daughter. Wife. For generations those titles were assumed to contain the hopes and dreams of all women, and any woman who denied this was “mad”—angry or crazy. In this course, we will examine the lives and experiences of actual and fictional women designated as mad and consider how they have been represented in the arts and in history texts. We will start with readings of cross-cultural examples of mad women Lilith, Medea, and La Llorona, and then narrow our focus to consider such women in U.S. history and culture. Course sources include music, film, art, poetry, and traditional history accounts. (U)(3) Occasionally

HST231-HST, Imagined World: A “traitor” sleeping with the enemy. Cross-dressing nuns. Slave mistress. The seventh muse. A bisexual painter. The “(Night)Marc” of Argentina. Guerrilla woman. Nobel Prize-winning Indian. The history of Latin America abounds with examples of ilustrious and controversial women, yet the general perception of Latin America is of lands populated by machos. The history of the area—as elsewhere—usually concentrates on the actions of men without examining why and forgets the feats of women as well as the importance of gender and sexuality, which has remained a “hidden history.” In this course we will uncover that hidden history by examining changing ideas of both femininity and masculinity in Latin America from the start of colonization until recent times. (U)(3) Occasionally

HST234-HST, Reel America—Film and the American Experience, 1890-1965: Famed film director Sydney Pollack said of film, “It’s the 20th century’s real art form.” This has been particularly true in the United States, where film has been an important means of transmitting definitions about American values and identity. This course examines the role of film in the American experience in the 20th century and does so with a particular emphasis upon the interpretation of film within a community of other texts drawn from the period. (U)(3) Occasionally

HST235-HST, American Visions: American Visions? American Dreams? American Nightmares?: What does it mean to be an American? Are their connective cultural/historical threads across time that help to form a national identity? These and other questions are at the heart of a raucous, multifaceted exploration of American history, identity, and culture. (U)(3) Annually, term varies

HST236-HST, Themes in European History: This course will survey formative periods in European societies from the 12th century to the present. Emphasis throughout will be on the evolution of the nation-state; the emergence of industrial, capitalist, and socialist economies; and transformations in thought. (U)(3) Occasionally

HST238-HST, Major Themes in Asian History: Through analyzing sacred, historical, and literary texts, this course offers a survey of major themes in Asian history from ancient times to the present, with a focus on issues of social, political, scientific, and/or economic concern. Topics to vary by instructor. May be repeated once for credit towards the major. (U)(3) Annually, term varies

HST239-HST, Exploring Latin America: This course presents a different vision of America, that is, the Americas situated south of the border from the United States. Using an array of primary sources (including literary texts and visual materials), it introduces students to the history of Latin America since its independence. (U)(3) Annually, term varies

History Courses

HST111, Introductory Seminar: Exploration of selected topics in history. (U)(3) Occasionally

HST215, Questions in History: This course examines questions in history with a focus on issues of social, political, scientific, and/or economic concern. Topics to vary by instructor. May be repeated once for credit towards the major. (U)(3) Annually, term varies

HST221, Major Themes in European History: This course will survey formative periods in European societies from the middle Ages to the present. Emphasis throughout will be on the development of capitalist/industrialist economies, state-building and nationalism, and major transformations in European thought. (U)(3) Occasionally

HST222, American Visions: America’s past from the perspective of important, representative individuals and groups, showing changing perceptions of the American experience. Developments in thought from Puritan times to the present. (U)(3) Annually, term varies

HST223, Exploring Latin America: This course presents a different vision of America, that is, the Americas situated south of the border from the United States. Using an array of primary sources (including literary texts and visual materials), it introduces the students to the history of Latin America since its independence. (U)(3) Annually, term varies

HST224, Major Themes in Asian History: A survey of major themes in South, Southeast, and East Asian history from ancient times to the present, with a focus on the modern period. It examines such processes as the formation of classical civilizations, the rise and fall of empires, cultural encounters, transformations of societies, and such themes as imperialism, nationalism, and Communism. (U)(3) Occasionally
HST215, Themes in World History: This course emphasizes the increasing connectivity of regional cultures, especially from the rise of the Silk Road civilizations 2,000 years ago to the present. Specific topics include the diffusion of cultural innovations, immigration, long-distance trade, the spread of diseases, and empire-building. (U)(G) Fall

HST216, The Cold War in the Pacific: This course will explore what historians have called “The Cold War in the Pacific.” Our primary areas of focus will be East and Southeast Asia. The goal of this course is to challenge common tropes and narratives about the Cold War. By focusing specifically on the Pacific, we will investigate aspects of the Cold War that are not commonly considered, including the fact that the United States fought two destructive wars in the Pacific during this supposedly “cold” period. The second major goal is to analyze how the Cold War impacted people on the ground. Rather than focus on elite politics, we will examine how the Cold War shaped culture, gender, understandings of race, social relationships, families, space, national identity, and a host of other phenomena. In order to explore these topics, we will utilize a variety of sources, including historical monographs, fiction, and primary sources. (U/G) Occasionally

HST217, Chinese Civilization: This course offers a broad survey of the history of China. It is intended to provide students with a basic introduction to the culture, society, politics, philosophies, and religions practices that constituted Chinese civilization. As Chinese civilization is roughly 5,000 years old, this course approaches its subject thematically and historically. It seeks to build connections across disparate periods and epochs by stressing continuity in Chinese history, while also paying close attention to the many ways that China has changed. (U)(G) Annually, term varies

HST301, Historical Method and Historiography: This course examines important methods and approaches to the study of the past and prepares students to undertake significant research projects. Prerequisite: Junior standing. Nondepartmental students only by permission of the department. (U/G)(G) Fall

HST302, Junior Research Project: This course is a hands-on class with students identifying and undertaking a significant research project with community presentation at the end of the course. Common readings and assignments help to develop student skills. Prerequisite: HST301. (U)(G) Spring

HST303, Intro to Public History: This course provides a hands-on introduction to public history, as a vocation and as a discipline. In this class we explore the origins of the field, consider the ethics of the practice of public history, and examine various approaches to the field through readings, exercises, guest lectures, and more. (U)(G) Occasionally

HST305, Topics in History: Selected topics of significance in contemporary historical scholarship. First-year students admitted only by permission of the department. (U/G)(G) Annually, term varies

HST306, Topics in the History of Science: This class will explore the many connections between periods of geographical expansion and the expansion of scientific knowledge. While beginning with earlier examples of empire, the readings will mainly focus on the Age of Exploration and the Scientific Revolution, and 19th-century imperialism and a second "revolution" in science. Topics will include the use of technology in empire-building, the impact of cross-cultural contact on the expansion of knowledge, and the connections between applications of science and imperial politics. First-year students admitted only by permission of the department. (U/G)(G) Occasionally

HST308, The Greek World: First-year students admitted only by permission of the department. (U)(G) Occasionally

HST309, History of Rome: First-year students admitted only by permission of the department. (U)(G) Occasionally

HST310, Sex, Gender, Love, and Friendship in the Classical World: Examines classical Mediterranean culture from the inside out. Course focuses upon dimensions of private life and interplay between private and public worlds. Discussion/seminar format. First-year students admitted only by permission of the department. (U)(G) Occasionally

HST311, Europe in the Middle Ages: A study of Western European history from the decline of the Roman Empire until the beginning of the modern period. First-year students admitted only by permission of the department. (U/G)(G) Occasionally

HST313, Medieval France: France was the crown jewel of medieval civilization. This course will examine French life from its emergence out of Charlemagne's empire until about 1500 and focus above all on the political, social, religious, and cultural aspects of medieval French life at its zenith during the 12th and 13th centuries. (U)(G) Occasionally

HST314, Sex, Gender, Love, and Friendship in the Medieval World: A continuation of HST310. Focuses upon dimensions of private life and interplay between private and public worlds in European society during the Middle Ages. Discussion/seminar format. First-year students admitted only by permission of the department. (U/G)(G) Occasionally

HST315, Europe in the Renaissance, 1300–1600: A study of politics, society, and culture in Renaissance Europe. First-year students admitted only by permission of the department. (U/G)(G) Occasionally

HST316, Early Modern England: England in the Tudor/Stuart Era. First-year students admitted only by permission of the department. (U/G)(G) Occasionally

HST317, Early Modern Europe: A general history of the major changes in Europe from 1500 to 1715. First-year students admitted only by permission of the department. (U/G)(G) Occasionally

HST318, Individual and Society in Europe, 1600–1850: Society and culture in modern Europe, focusing on the experience of common people in an era of rapid economic and political change. First-year students admitted only by permission of the department. (U/G)(G) Occasionally

HST319, French Revolution and Napoleon: An intensive study of the political, social, and cultural currents in France during the revolutionary era. First-year students admitted only by permission of the department. (U/G)(G) Occasionally
HST320, Enlightenment and Romanticism: Explores the history of two seminal social/intellectual movements of the modern era. Major figures include Voltaire, Rousseau, Mozart, Byron, Goethe, Beethoven, and J.S. Mill. Discussion/seminar format. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST321, 19th-Century Europe: A study of European history from 1815 to 1914. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST322, 20th-Century Europe: An examination of European politics and society from 1900 to the present. Topics include the outbreak of the Great War, the Russian Revolution, Nazism and Fascism, World War II, the Holocaust, the reconstruction of Europe, the Cold War, European integration, and Europe today. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST323, Modern France: Examines themes in the political, social, and cultural history of France from the defeat of Napoleon in 1815 to the presidency of Francois Mitterand. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST324, Modern Germany: A survey of German culture, society, and the state from the Napoleonic Era to the founding of the post-war Germanies. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST325, Contemporary Germany: Division and Reunification: Examines German politics, culture, and society from the end of World War II to the present. Topics include denazification, the Cold War, the Berlin Wall, socialism and capitalism in the two Germanies, protest movements, and reunification. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST326, Modern to Postmodern: Explores major developments in modern thought and culture from the mid-19th century to the present. Topics include the social and intellectual history of liberalism, Marxism, Darwinism, modernism in art and music, existentialism, postmodernism, and more. Discussion/seminar format. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST327, The History of Human Rights: This course examines the origins of human rights and their development in the Western world, human rights in non-European regions of the world, the antithesis or denial of human rights in the 20th century, and concludes with readings focused on contemporary human rights issues. (U/G)(3) Annually, term varies

HST328, The Global Sixties: Any class on the 1960s should not begin with a rigid course description, but alas; this course will focus on the “Long Sixties”—a period of social, cultural, and political upheaval. During this decade, youth and radicals around the world challenged post-war authority and attempted to give birth to new societies that reflected a more egalitarian ethos. Throughout the semester we will adopt a global approach and study how radicals and revolutionaries made connections across national borders and conceived of themselves within a larger revolutionary framework. In so doing, we will ask questions about race, gender, class, sexuality, colonialism and postcolonialism, violence, pacifism, youth, authority, culture, and myriad other topics. This course will utilize literature, memoirs, historical studies, films, and primary sources to address these topics. (U/G)(3) Occasionally

HST331, Colonial America: The first British empire in comparative global perspective. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST332, The American Revolution: An intensive study of the revolt from Great Britain, 1754–1789. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST333, The Early American Republic: The United States between 1789 and 1850. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST334, The Age of Jackson: The United States between 1815 and 1850; the transportation revolution, Romanticism, the second-party system, and the rise of nationalism. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST335, The Civil War: A study of the causes, conduct, and consequences of the American Civil War. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST336, Reconstruction-Era America: An examination of the United States' reconstruction and reunion after the Civil War. Topics include the era's politics, economics, free labor, the expansion of citizenship, racial and gendered political violence, social issues, and the memory and commemoration of the Civil War. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST337, Emergence of Modern U.S.: The United States from the end of the Civil War to the start of the Great Depression. Examines the new urban industrial culture; shifting patterns of race, class, and gender relations; the relationship between science, technology, and government; and emerging tensions between religion and U.S. culture. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST338, The Era of Jim and Jane Crow: Explores the racial and gender logic of state-sanctioned segregation, Jim and Jane Crow, and the struggle that eventually overthrew the system. Multifocal in approach, the class examines Crow from both a raced and gendered perspective and draws on the diverse ethnic and racial history of the nation. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST339, Recent U.S. History: The United States from the Great Depression to the present, with an emphasis on contemporary cultural, social, and political issues. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST340, U.S. Women's History: This course examines the history of U.S. women through an exploration of the political, social, and cultural contribution of women to the nation. The course focuses on the experiences of U.S. women from a variety of vantage points: as workers, reformers, political activists, artists, and more. At the discretion of the instructor, the course either covers from the colonial period to the present or from 1848 to the present. First-year students admitted only by permission of the department. (U/G)(3) Occasionally
HST342, Topics in Women's History: Topics vary by semester and by instructor. Each class will take as its central focus the experience of women either in particular geographic locales, historical time periods, or thematic concentrations. Class may be repeated for credit with a different topic. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST343, Race and Ethnicity in the U.S.: Examines the histories of race and ethnicity in the U.S. and the ways in which racial and ethnic identities have been deployed as tools of marginalization, assimilation, and group identity. The class explores race and ethnicity as legal, medical, historical, and gendered concepts and lived experiences. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST345, History of the American Midwest: Emergence of the Midwest from the old Northwest Territory of the early American republic through the Civil War and the 20th century; emphasis on the development of a distinctive regional culture and interaction of various religious, ethnic, and racial groups. (U)(3) Occasionally

HST346, Historical Geography of the United States: The creation and persistence of regional variations of culture in the United States from the colonial era to the present. (U/G)(3) Occasionally

HST350, History of Children and Youth: This course examines the experience of children in history. Topics include changing conceptions of childhood, social/historical settings, parenting practices, gender roles, schooling, and the emergence of youth culture. Readings feature the history of children in America. Writing includes student autobiography and projects on contemporary children/youth. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST351, American Constitutional History: A study of the origins and development of Constitutional concepts that have served as the basis for the growth of the federal government. Recent trends are emphasized. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST353, The American Empire since 1945: American foreign policy and imperial ambitions since 1945. (U/G)(3) Occasionally

HST360, Modern Mexico: In covering the history of Mexico from independence through the early 2000s, the course aims to explain the race, gender, and class dimensions of Mexico as a postcolonial nation, its search for modernity, struggle for economic independence, issues of social justice, and relationship with the United States. (U)(3) Occasionally

HST361, The History of Brazil: This course surveys the political, economic, and cultural themes in Brazilian history and covers both the colonial and national periods, tracing the country's history from colonization to the emergence of a "modern" nation in the 19th and 20th centuries. (U)(3) Occasionally

HST363, Revolutions and Guerrilla Movements: This course uses revolution as a window to better understand Latin America today and explain the region's turbulent history during the 20th century. We will study the causes, processes, and results of revolutions in the region, especially their impacts on a diverse population. (U)(3) Occasionally

HST365, Latin America through Film: This course explores how film has engaged with the history of Latin America and shaped the perception of its people, societies, and cultures. Students will analyze various forms of motion pictures as visual narratives to understand the region's turbulent history and deconstruct persistent stereotypes. (U)(3) Occasionally

HST366, Gender, Sex, and Sexuality in Latin America: This course covers the history of gender and sexuality in Latin America from the start of colonialism until recent times. Through the analysis of changing ideas of both femininity and masculinity, students will learn about the politics of gender in Latin America and how gender influences historical production. First-year students admitted only by permission of the department. (U)(3) Occasionally

HST367, Geographies of Desire: This seminar examines the relationship between gender and place from a comparative perspective—ranging from ancient cities to modern tourist destinations—to understand how ideas about gender, race, and sexuality have influenced civilization, colonization, modernity, and cosmopolitanism. (U)(3) Occasionally

HST369, Imagining Latin American Culture: This course provides students with the opportunity to study the discipline of anthropology of Latin America from a historical perspective. Through case studies, students examine how both U.S. and Latin American anthropologists have shaped general perceptions of race, gender, and class in the area. (U)(3) Occasionally

HST371, Modern China: Political and social history of China since the Opium War (1839) with emphasis on the revolutionary upheavals of the 20th century. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST373, China and the World: This seminar course focuses on China's changing position in the world, China's changing relations with the world, and China's changing perceptions of the world from ancient times to the present. It examines China's contact with the major regions of the world in different historical periods and the impact of such contacts on both China and the world. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST375, The Vietnam Wars: From 1945 to 1979 the Vietnamese fought wars against two superpowers. During this three-decade struggle, the conflict in Vietnam was transformed from a local civil war into an international event. Vietnam came to embody many of the trends of the post-World War II era: the end of European empires, the rise of the United States, the tensions of the Cold War, and the realities and limits of American power. This course will study these and many other issues related to the Vietnam Wars. Rather than focus on the war itself, we will primarily discuss the nature and morality of war and the impact that warfare has on individuals at home and abroad. This course will begin by investigating the rise of nationalism across Asia in the interwar years. It will then proceed to the French and American intervention in Southeast Asia while also paying close attention to the Vietnamese experience. This course will engage with a variety of historical texts, memoirs, fiction, film, and popular culture. It will also address contemporary issues, including the long-term impact of the war on the French, Vietnamese, and American psyche. Along the way we will ask questions about the limits of American power, the decision-making abilities of officials in France and the United States, the morality of total war, as well as focus on issues of race, gender, class, poverty, popular culture, ethics, nationalism, mutual responsibility, and the impact of war on humans. (U/G)(3) Occasionally

HST381, Environmental History of the Global South: This course will explore the relationship between humans and the environment in the Global South. Although we will primarily focus on Asia, Africa, and Latin America, we will also study the active intercourse that these geographical regions had with
Europe and North America. At its fundamental level, this course will examine the various ways that mankind has shaped and transformed its surrounding ecosystems, and the political, social, cultural, and economic projects that drove this transformation. This course will treat humans as one of many species within an ecosystem, while recognizing mankind’s deleterious impact on the environment in pursuit of modernity. We will also discuss how activists and indigenous people have resisted detrimental state and global projects in order to preserve and protect local environments. During the semester we will consider the environment as it relates to imperialism, resource depletion, global economic development, politics, religion, climate change, gender, the nation-state, conservation, and global commodities. In so doing we will utilize a variety of sources, including memoirs; biographies; historical, anthropological, and sociological studies; and scientific texts. (U/G)(3) Occasionally

HST395, War and Peace in the Middle Ages: Violence is one of the enduring aspects of human life, and peace one of its eternal hopes. It is often easier to examine what people are doing, and so we will be studying medieval forms of violence and medieval means of keeping or restoring peace. (U)(3) Occasionally

HST401, Seminar in History: A particular phase or period of history will be studied each semester. First-year students admitted only by permission of the department. (U/G)(3) Occasionally

HST411, Independent Study: Offers the qualified student of history the opportunity to pursue a topic of individual interest. Open only to juniors, seniors, and graduate students by permission of the instructor. (U/G)(1) Occasionally

HST412, Independent Study: Offers the qualified student of history the opportunity to pursue a topic of individual interest. Open only to juniors, seniors, and graduate students by permission of the instructor. (U/G)(2) Occasionally

HST413, Independent Study: Offers the qualified student of history the opportunity to pursue a topic of individual interest. Open only to juniors, seniors, and graduate students by permission of the instructor. (U/G)(3) Occasionally

HST421, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to the major area of study. By permission of the department chair. (U)(3) Occasionally

HST422, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to the major area of study. By permission of the department chair. (U)(6) Occasionally

HST499, Honors Thesis: (U)(3) Occasionally

HST518, Summer Workshop for Advanced Placement History Teachers: This course is open to new and experienced AP history teachers. Participants will discuss the themes, habits of mind, and periodization of the Advanced Placement history course, integrating content with AP history best practices. We will also review and score past AP history exams. (G)(3) Summer

HST527, The History of Human Rights: This course examines the origins of human rights and their development in the Western world, human rights in non-European regions of the world, the antithesis or denial of human rights in the 20th century, and concludes with readings focused on contemporary human rights issues. (G)(3) Occasionally

HST701, Research: For graduate students researching a master's thesis. By permission of the instructor. (G)(3) Annually, term varies

HST711, Thesis: For graduate students writing a master's thesis. By permission of the instructor. (G)(3)

**Individualized Major Program**

**Administration**

Stuart Glennan, PhD, Chairperson, LAS Individualized Majors Program Committee

**Program Website**

[www.butler.edu/individualized-majors](http://www.butler.edu/individualized-majors)

Individualized majors meet the needs of students whose primary academic interests cut across traditional academic disciplines. This program allows students who have shown interest in crossdisciplinary work to design their own majors. The purpose of the individualized major program (IMP) is to provide an option to study a crossdisciplinary topic in depth, not to constitute a general-studies option or to replace a double major. The IMP may appeal to nontraditional and returning students as well as to students who have completed an associate degree and wish to complete a bachelor’s degree with a different focus than their associate degree. Recent IMP students have graduated in Chinese language and culture, ancient Egyptian language and culture (Egyptology), music business, and medical illustration.

**Requirements**

The IMP consists of at least 36 hours of coursework, which must form a coherent whole. This may include work taken at other colleges, including work taken through the Consortium for Urban Education interchange in Indianapolis. All normal Core Curriculum and LAS College requirements must be met. In LAS, the same course cannot be counted toward two different majors. The proposed program should include an experience beyond the normal classroom-based course, such as an internship, a seminar of study abroad, an honors or departmental thesis, a senior seminar in a relevant department, or a service-learning project in the junior or senior year. Because each IMP is unique, there is no fixed list or sequence of courses for the major.

**Admission**

A student should submit to the IMP committee through its chairperson a proposal for an IMP anytime between the beginning of the sophomore year and the end of the fall semester of the junior year. In general, this application will include a general statement that describes the nature of the proposed IMP, how this IMP relates to the student’s goals, and why these goals can better be pursued as an IMP rather than within a traditional major or double major. The proposal
also should demonstrate the coherence and integrity of the proposed IMP, show that course resources are available to support the IMP (including courses to be taken outside of Butler), and provide evidence that the student has the motivation and initiative to carry out the IMP. The student should also recruit an advisor for the IMP and provide a detailed list of courses, which will constitute the major (subject to revision each year due to changes in available courses relevant to the IMP). The IMP committee will evaluate the proposal and decide whether to approve it. More information and the proposal application can be found at the program website.

**Degree Program**

- Individualized Major (BA, BS)

**International Studies**

*Administration*

Eloise Sureau-Hale, PhD, Program Director

The major cuts across traditional barriers between intellectual disciplines and draws on the resources of the Departments of English; History and Anthropology; Modern Languages, Literatures, and Cultures; Philosophy, Religion, and Classics; Political Science; and Sociology in the College of Liberal Arts and Sciences; the Departments of Economics, Finance, and Management in the Lacy School of Business; and the College of Communication. Faculty members most directly affiliated with the program are:

*Associate Professor*

Faith Muedini, PhD

**Program Website**

[www.butler.edu/international-studies](http://www.butler.edu/international-studies)

**Why Study International Studies?**

The international studies major is an interdisciplinary program designed to give students an awareness of the diversity, complexity, and interdependence of the world community, and to provide them with the necessary background to understand and analyze the political, economic, social, and cultural aspects of current world problems and issues. The international studies major offers students the cultural competency necessary to be successful in an increasingly complex and global job market. It prepares students for careers in government, international organizations, journalism, international consulting, business, education, community development, and human rights work with nongovernmental organizations. It also provides a foundation for graduate work in such disciplines and programs of study as law, international studies, international relations, area studies, social sciences (anthropology, history, political science, sociology, etc.), comparative literature, religious studies, public policy, and public administration.

**Why Study International Studies at Butler?**

The curriculum of the international studies program at Butler is flexible; it can be adapted to meet the student's individual interests and career plan. The following outlines some of the key characteristics and advantages of studying international studies at Butler University.

- Student-oriented program
- Large number of full-time faculty from various departments and areas of studies, rendering the curriculum truly comprehensive and global, and offering students a great variety of perspectives
- Curriculum that prepares students to work and be successful in an increasingly multicultural environment
- Curriculum that prepares students for interdisciplinary research
- Well-structured curriculum that gives students the fundamental knowledge in the field, while allowing students to concentrate in regional foci and subfields of their interest
- Washington, DC, internship: Students can intern in many government agencies and in Congress, nongovernmental organizations, foreign embassies, think tanks, and international organizations such as the OAE, IMF, etc.
- International internships, where students can acquire hands-on knowledge of many countries around the world
- Comprehensive study-abroad program with opportunities for study in nearly every country of the world
- Concrete experiences in diplomacy by participating at the Model European Union, Model United Nations, and/or Model Arab League (cost of travel and lodging is covered by the program)
- Financial support for students conducting thesis research
- Financial support for travel for students presenting papers at conferences
- Active student-run international studies clubs

**International Studies Student Learning Outcomes**

This program provides students with the opportunities to acquire, develop, and demonstrate knowledge and understanding on a range of skills and abilities in relation to the international system and the process of globalization. When completing this degree, students will be able to:

- Demonstrate knowledge of the major dimensions of globalization, such as economic, political, and cultural globalization
- Describe the major functions of international organizations, such as the United Nations, the World Bank, the International Monetary Fund, and the World Trade Organization
- Draw connections between social issues in their local community and the larger national and global context for such issues
- Describe and assess the main aspects of international relations, including the main aspects of U.S. foreign policy, colonialism, and nationalism
- Demonstrate knowledge of appropriate social scientific methods to compile and interpret data in assigned research projects or papers
• Understand the complexity of the contemporary world and demonstrate familiarity with the variety and relativity of cultures within one major region

Degree Programs
• International Studies (BA)
• Minor in International Studies

Requirements for the Major
The major consists of 42 hours, 33 of which must be fulfilled at the 300 level or above.

Core (21 hours)
Introduction: IS101 and one of the following courses:
• IS101, Introduction to International Studies
• PO141, Introduction to International Politics
• PO151, Introduction to Comparative Politics
• SW205-GE, Cultural Geography, Regions of the World
• SW220-EC, The Economy and Society
• T1250-RL, Religions of the World

InternationalArrangements and Interactions: IS390, United Nations and Other International Organizations, plus one of the following courses:
• AN304, Global Health
• AN320, Gender and Sexuality in Globalization
• AN326, Youth Conflict, Global Cinema
• HST327, History of Human Rights (can also count as a D requirement)
• HST333, The American Empire (can also count as a D requirement)
• HST401, Global Empires (can also count as a D requirement)
• IB320, International Business Environment
• JR417, International Communications
• JR418, Gender and media: Global Views
• PO322, International Conflict and Peace Building
• PO345, Environmental Justice (can also count as a D requirement)
• PO352, Comparative Political Economy
• PO357, Politics of Youth and Conflict (can also count as a D requirement)
• SO355, International Crime

Research Methods: One of the following:
• AN352, Ethnography
• PO201, Research and Analysis
• SO993, Research Methods Seminar

International Relations and Diplomacy: One of the following:
• HST327, History of Human Rights
• HST333, The American Empire
• HST401, Global Empires
• PL364, Ethics and International Relations
• PO320, International Relations
• PO345, Environmental Justice
• PO355, U.S. Foreign Policy
• PO357, Politics of Youth and Conflict

Capstone Course (to be taken in the junior or senior year): IS410, The Global Society (Prerequisites: IS101, another course from A, and at least one 300-level course. This course is cross-listed with SO355 and AN355.)

International Studies Area Courses
18 hours from two of the following areas (9 hours in each area; two disciplines must be represented).

• Africa
  o AN368, Coming of Age in the Middle East
  o FR318, Introduction to Francophone Cultures
  o IS450, Middle East and North Africa
  o IS470, Islam and Human Rights
  o PO350, African Politics
  o PO351, Politics of Gender and Sexuality in Africa

• Asia
  o AN322, Sex, Gender, and Sexuality in Japan
  o AN329, Japanese Popular Culture
  o AN368, Coming of Age in the Middle East
• Europe
  • FR316, Survey of French Civilization
  • FR320, Contemporary French Culture
  • FR345, France and the Francophone World: 1900 to the Present
  • FR465, 20th Century French Novel
  • GR320, Contemporary German Authors
  • GR330, Children’s Literature
  • GR340, German Studies II: Nation and Identity
  • GR342, Major Trends in Modern German Literature
  • GR360, German Film
  • HST305, Topics in History: Back in the USSR
  • HST319, French Revolution and Napoleon
  • HST320, Enlightenment and Romanticism
  • HST322, 20th Century Europe
  • HST323, Modern France
  • HST324, Modern Germany
  • IB210, Business in the European Union
  • IS301, Model European Union
  • SO333, European Societies
  • SP340, Spanish Television Mini-Series
  • SP340, Spain: 1700 to the Present
  • SP440, Contemporary Spanish Studies

• Latin America
  • AN362, Peoples and Cultures of Latin America
  • HST401, Tourist, Immigrants: Narcos
  • HST365, Latin America Through Film
  • HST367, Geographies of Desire
  • IB495, Special Topics in International Business: Business in Latin America
  • SO331, Latin American Societies
  • SP345, Hispanic Masterpieces
  • SP350, Spanish American Culture
  • SP355, Spanish-American Culture: South America
  • SP360, Hispanic Film (will count when at least three-quarters of content focuses on Latin America)
  • SP365, Hispanic Short Story (will count when at least three-quarters of content focuses on Latin America)
  • SP370, Topics in Contemporary Hispanic Societies
  • SP430, Topics in Spanish-American Studies: Crime and Mystery in Latin American Literature

Foreign Languages
Nine hours at the 300–400 level in one modern foreign language. Classes in French, German, Spanish, and Chinese are offered at Butler University. Classes in other languages such as Arabic, Italian, and Japanese can be taken at other universities in the area.

Electives:
• EC433, International Economics (prerequisite or permission of the instructor)
• EN321, EN322, EN421, and EN422, Comparative World Literature
• EN322, Gender and Migration
• EN394, Special Topics in Film: Global Arts Cinema
• FN451, International Finance Management
• IB367, Legal Aspects of International Business
• IB433, International Economics
• IB451, International Finance Management
• IB491 International Marketing
• MK491, International Marketing
• RI391, Seminar on Religion and World Civilizations; Religion, Conflict and Reconciliation in Global Perspective
• RI392, Seminar on Religion and World Civilizations; Religion, Conflict and Reconciliation in Global Perspective
• SO323, Racial and Ethnic Relations
• SO343, Popular Culture: A Comparative Study

Special International Studies Courses, which may include:
• IS401, IS402, and IS403: Independent Study in International Studies
• IS404 and IS405, Internship in International Studies
The minor consists of 21 hours, 15 of which must be fulfilled at the 300 level or above.

Core (12 hours)

Introduction: IS101, Introduction to International Studies

International Arrangements and Interactions. One of the following:

- AN326, Youth Conflict, Global Cinema
- JR417, International Communications
- IB320, International Business Environment (prerequisite: permission of the instructor)
- IS390, United Nations and Other International Organizations
- PO322, International Conflict and Peace Building
- SO355, International Crime

International Relations and Diplomacy. One of the following:

- HST333, The American Empire
- PL364, Ethics and International Relations
- PO320, International Relations
- PO355, U.S. Foreign Policy

Capstone Course (to be taken in the junior or senior year). IS410W, The Global Society (Prerequisites: IS101, another course from A, and at least one 300-level course. This course is cross-listed with SO355 and AN335.)

International Studies Area Courses (9 hours; take courses from at least two different areas)

- Africa
  - AN368, Coming of Age in the Middle East
  - FR318, Introduction to Francophone Cultures
  - IS450, Middle East and North Africa
  - IS470, Islam and Human Rights
  - PO350, African Politics
  - PO351, Politics of Gender and Sexuality in Africa

- Asia
  - AN322, Sex, Gender, and Sexuality in Japan
  - AN329, Japanese Popular Culture
  - AN368, Coming of Age in the Middle East
  - FL320, Chinese Civilization
  - HST371, Modern China
  - IB323, Contemporary Business in East Asia
  - PO324, The United States in the Asia Pacific
  - RL253, Buddhism Past and Present
  - RL254, Islam: Religion, Culture, Society
  - RL363, Religion, Politics, and Conflict in South Asia
  - RL377, Religion, Gender, Goddess in Asia

- Europe
  - FR316, Survey of French Civilization
  - FR320, Contemporary French Culture
  - FR345, France and the Francophone World: 1900 to the Present
  - FR465, 20th Century French Novel
  - GR320, Contemporary German Authors
  - GR330, Children’s Literature
  - GR340, German Studies II: Nation and Identity
  - GR442, Major Trends in Modern German Literature
  - GR360, German Film
  - HST305, Topics in History: Back in the USSR
  - HST319, French Revolution and Napoleon
  - HST320, Enlightenment and Romanticism
IS402, Independent Study: Offers the qualified student in international studies the opportunity to pursue a topic of individual interest. Prerequisites: Junior or senior standing, consent of the director of the project, and approval of the director of the International Studies Program.

Latin America
- AN362, Peoples and Cultures of Latin America
- HST365, Latin America Through Film
- HST367, Geographies of Desire
- IB495, Special Topics in International Business: Business in Latin America
- SP340, Spanish Television Mini-Series
- SP340, Spain: 1700 to the Present
- SP440: Contemporary Spanish Studies

Foreign Languages
Courses at the 300–400 level in one modern foreign language. Classes in French, German, Spanish, and Chinese are offered at Butler University. Classes in other languages such as Arabic, Italian, and Japanese can be taken at other universities in the area.

Special International Studies Courses, which may include:
- IS401, IS402, and IS403, Independent Study in International Studies
- IS404 and IS405, Internship in International Studies
- IS470, Selected Topics in International Studies (prerequisite: permission of the instructor)
- IS499, Honors Thesis

Study Abroad (highly recommended)
Experience abroad may be in the form of attendance at a foreign college or university, an international internship, independent travel connected with an approved independent study project, or participation in an approved foreign study tour. Credits from those experiences abroad usually count toward fulfilling the requirements of the minor.

Model United Nations, Model Arab League, and Model European Union (highly recommended)
International Studies minors can participate in these three events, which play a very important role in the formation of students interested in international issues, because they learn the rules of negotiation and diplomacy as well as the workings of the United Nations, Arab League, and European Union. The cost for participating in these events (registration, airfare, and lodging) is covered by the International Studies budget.

Core Course Offered by International Studies
SW270-IS, Understanding Global Issues: The course addresses the intensification of globalization during the first decade of the 21st century. It introduces students to contemporary issues related to globalization. (U)(3) Fall

International Studies Courses
IS101, Introduction to International Studies: The course is designed to help students understand and critically reflect on issues that affect both the United States and the international community. The issues addressed in this course are key pieces of the larger and interrelated set of the international system. (U)(3) Fall & spring

IS301, European Union Model: This course introduces the student to the organization and functioning of the different institutions of the European Union and prepares them to participate in the Midwest Model European Union, which takes place every April for three days. The major topics we will address include the history of European integration, government and politics of the European Union, and its institutions. Prerequisite: Any 100-level course in the social sciences or permission of the instructor. (U)(1) Annually, term varies

IS390, The United Nations and Other International Organizations: This course introduces students to several international organizations, with a focus on the United Nations. The broader theoretical and experiential focus of the class will help students understand international institutions and to become more effective global citizens, while developing proficiency in policy formulation, parliamentary procedure, negotiation, and conflict resolution. (U)(3) Fall

IS401, Independent Study: Offers the qualified student in international studies the opportunity to pursue a topic of individual interest. Prerequisites: Junior or senior standing, consent of the director of the project, and approval of the director of the International Studies Program. (U)(1) Fall & spring

IS402, Independent Study: Offers the qualified student in international studies the opportunity to pursue a topic of individual interest. Prerequisites: Junior or senior standing, consent of the director of the project, and approval of the director of the International Studies Program. (U)(2) Fall & spring
IS403, Independent Study: Offers the qualified student in international studies the opportunity to pursue a topic of individual interest. Prerequisites: Junior or senior standing, consent of the director of the project, and approval of the director of the International Studies Program. (U)(3) Fall & spring

IS404, Internship in International Studies: Offers the qualified student the opportunity for supervised experience in internationally oriented jobs in U.S. or foreign governments, business, or international organizations. A popular and very useful internship for international studies majors is the Washington internship. (U)(3) Fall & spring

IS405, Internship in International Studies: Offers the qualified student the opportunity for supervised experience in internationally oriented jobs in U.S. or foreign governments, business, or international organizations. A popular and very useful internship for international studies majors is the Washington internship. (U)(6) Fall & spring

IS410, The Global Society: This course is about the constitution of the global system, and the processes that are reproducing and transforming the structures of globalization. The course acquaints the student with the process of worldwide economic, cultural, and political flows and provides an introduction to the organization and functioning of the global society. Prerequisite: IS101. (U/G)(3) Spring

IS450, The Middle East and North Africa: This course on the Middle East and North Africa will focus on various themes, including the history of colonialism in the region, the Israeli-Palestinian conflict, the conflict in Syria, U.S. foreign policy in the region, the examination of factors for political change, the role of secularism and religion in politics, and issues of Islam and politics, democracy, and human rights (which will include discussions of women's rights and religious minority rights, among other rights issues) in the region. This course is set up for students to develop an understanding of various social, cultural, and political themes related to the Middle East and North Africa. Prerequisite: IS101 or SW270 or permission of the department chair. (U)(3) Spring

IS470, Selected Topics in International Studies: In-depth study of selected topics not covered in traditional courses. Prerequisite: Permission of the instructor. (U)(3) Fall & spring

IS499, Honors Thesis: Honors Thesis. (U)(3) Fall & spring

**Disciplinary Courses**

The descriptions for the other courses listed in the program are available in the corresponding discipline of the catalog (i.e., history, political science, sociology, etc.). A complete list and description of new courses or topic courses will be published every semester.

**Mathematics and Actuarial Science**

**Administration**
William W. Johnston, PhD, Department Chair; Lacey P. Echols, MAT, Coordinator of Mathematics Support Services

**Professors**
William W. Johnston, PhD; Prem L. Sharma, PhD

**Associate Professors**
Duane Leatherman, MA; Rebecca G. Wahl, PhD; Jonathan E. Webster, PhD; Christopher J. Wilson, PhD

**Assistant Professors**
Rasitha R. Jayasekare, PhD; Scott Kaschner, PhD; Amber C. Russell, PhD

**Instructors**
Lacey P. Echols, MAT; John Herr, PhD; Karen Holmes, PhD; Mary Z. Krohn, PhD

**Department Website**
www.butter.edu/math-actuarial

The department offers both majors and minors in the disciplines of mathematics, actuarial science, and a major in statistics. In addition to the departmental requirements listed below, a student must complete the Core Curriculum requirement, the College of Liberal Arts and Sciences language requirement, and other general requirements listed in this Bulletin. A bachelor of science degree is also available in natural science and mathematics or in natural science and actuarial science for majors who complete a total of at least 60 credits combined from the two chosen areas.

**Why Study Mathematics?**
The mathematics major is well suited to and designed for students who are interested in gaining employment in government or industry jobs that require problem-solving skills, attending graduate or professional school, or teaching in secondary schools.

**Why Study Mathematics at Butler?**

- The department faculty provides a personal education in a close-knit community. Students and faculty members know one another in supportive, professional relationships, and faculty members care about their students and their success and know every student by name. All of the department's classes are small—fewer than 30 students in each one, including introductory-level courses. Every course is taught by faculty members with advanced degrees and with a wide range of specialties in the different mathematical subfields, and there are no graduate students teaching departmental classes. In these ways, the department offers a consistently student-oriented education.
• The department’s curriculum is top-rated in quality. It adheres to the Mathematics Association of America’s Committee for Undergraduate Program in Mathematics guidelines—one of the few collegiate mathematics departments in the United States to commit enough teaching resources to do so. The Butler mathematics major is a wonderful choice for a strong investment in any student’s future.
• Department professors are available to students. Each one maintains office hours—no appointment necessary. The department’s office doors are open every single workday. Faculty members support each other, and students may talk with any faculty member to get help needed.
• The department’s Mathematics Tutoring Lab hires mathematics and mathematics education majors to provide support to students enrolled in lower-level and core mathematics classes—at no charge.
• Mathematics faculty members are always open to sponsoring student/professor collaborative research for the department’s majors, such as in the Butler Summer Institute.
• Dual degrees are available in engineering through a partnership with the Purdue School of Engineering and Technology at Indianapolis (IUPUI). In that program, a student earns degrees in two majors—for example, mathematics (from Butler) and engineering (from Purdue). (See Engineering Dual Degree Program—EDDP.)

Degree Programs
• Actuarial Science (BA, BS)
• Mathematics (BA, BS)
• Statistics (BA, BS)
• Minor in Actuarial Science
• Minor in Mathematics

Mathematics Student Learning Outcomes
Our graduates are problem solvers with a broad knowledge of mathematical subfields. They are extraordinarily strong at thinking about and proving abstract mathematical statements, and they communicate mathematical solutions and concepts clearly and effectively. Butler mathematics majors carry with them an ability to understand mathematical arguments and assess their validity. They can identify the fundamental concepts in the main areas of mathematics, including set theory, logic, calculus, discrete mathematics, linear and modern algebra, and real and complex analysis. They can construct mathematical proofs using standard techniques such as induction, contradiction, and contraposition, and they can solve mathematical problems by applying abstract theory and/or mathematical models as appropriate. Our graduates communicate well to various audiences—to individuals who might be trained in mathematics and to those who are not. This ability includes the use of mathematical word processing systems to write mathematics. In these many ways, our majors understand various interconnections among the branches of mathematics, the discipline’s breadth and depth, and its beauty.

Requirements for the Major
• MA106, MA107, MA208, Calculus and Analytic Geometry I, II, III
• MA108, First Year Problem Solving (or MA308, Problem Seminar)
• MA200, Basics of Advanced Mathematics
• MA205, Discrete Mathematics
• MA215, Linear Algebra
• MA312, Modern Algebra I
• MA326, Real Analysis I
• MA330, Complex Analysis
• Choice of either MA313, Modern Algebra II, or MA327, Real Analysis II
• Programming course numbered CS142 or higher
• Three upper-division electives to be chosen from MA301, MA305, courses numbered between MA310 and MA399, or MA473

Requirements for the Minor
• MA106, MA107, Calculus and Analytic Geometry I, II
• MA200, Basics of Advanced Mathematics
• MA205, Discrete Mathematics
• Choice of either MA305, Graph Theory, or MA208, Calculus and Analytic Geometry III
• MA215, Linear Algebra
• One additional upper-division elective to be chosen from MA301, MA305, courses numbered between MA310 and MA399, or MA473

Why Study Actuarial Science?
An actuary is a mathematician responsible for estimating risks, primarily in the insurance and financial security industries. The Butler program prepares each student in the major for a successful career as an actuary, as well as for the professional SOA (Society of Actuaries) Examinations in Probability (P), Financial Mathematics (FM), Actuarial Models (MLC and MFE), and Construction and Evaluation of Actuarial Models (C).

Why Study Actuarial Science at Butler?
• Butler is one of only a few institutions in Indiana to offer an undergraduate degree in actuarial science. The department additionally offers a combined actuarial science/management curricular option, in which students can earn both an actuarial science undergraduate degree and an MBA degree.
• The department has a very active student club in actuarial science. It also works with a departmental board of advisors for actuarial science, whose members are alumni who work with the department faculty and student majors. For example, they often offer advice for the program and support departmental efforts to help students find internships and jobs.
Each year, upper-level actuarial science major courses give students a chance to see, from a faculty member who can provide an industry point of view, how classroom ideas and issues arise naturally in the workplace.

The actuarial science curriculum prepares students to take as many as three or four actuarial science examinations while still a student at Butler, giving them a jump-start on their career.

**Actuarial Science Student Learning Outcomes**

Our graduates enter the job market with a strong working knowledge of the basic concepts and theories of actuarial science. They are qualified to sit for the first five exams given by the Society of Actuaries (as listed above: examinations P, FM, MLC, MFE, and C). These actuarial science majors can solve insurance and financial problems related to risk assessment, and they know how to perform related calculations in applications of standard actuarial methods. Finally, they are able to communicate sophisticated quantitative analysis clearly and correctly to various audiences in both written and spoken presentations. In this way, our actuarial science majors are well prepared to take leadership roles in businesses that require risk-management services.

**Requirements for the Major**

- MA106, MA107, MA208, Calculus and Analytic Geometry I, II, III
- MA215, Linear Algebra
- MA360, Probability Theory I
- MA361, Statistical Theory
- MA362, Applied Statistical Methods
- MA363, Probability Theory II
- MA372, Loss Models
- MA395, Financial Mathematics
- MA397, Actuarial Mathematics I
- MA398, Actuarial Mathematics II
- MA399, Financial Derivatives

**Requirements for the Minor**

- MA106, MA107, Calculus and Analytic Geometry I, II
- MA360, Probability Theory I
- MA395, Financial Mathematics
- Two of the following courses:
  - MA363, Probability Theory II
  - MA372, Loss Models
  - MA397, Actuarial Mathematics I
  - MA398, Actuarial Mathematics II
  - MA399, Financial Derivatives

**Actuarial Science/Management Program**

The insurance and financial service industries have a strong need for management prospects who combine analytic and technical skills (related to the department’s actuarial science curriculum) with the leadership capabilities, people skills, and understanding of business practices (which come from advanced education in management). The actuarial science/management program gives its enrolled students capability in this blend of skills and training.

Our graduates are able to command excellent entry-level positions and are strong candidates for fast advancement to upper-level management positions. The actuarial science/management program includes an undergraduate major in actuarial science with a strong component of business theory, followed by a 33-hour MBA program. Enrolled students may choose their graduate courses to gain a concentration in either organizational leadership or finance.

**Phase I—Undergraduate Curriculum Requirements for the Major**

- MA106, MA107, MA208, Calculus and Analytic Geometry I, II, III
- MA215, Linear Algebra
- MA360, Probability Theory I
- MA361, Statistical Theory
- MA362, Applied Statistical Methods
- MA363, Probability Theory II
- MA372, Loss Models
- MA395, Financial Mathematics
- MA397, Actuarial Mathematics I
- MA398, Actuarial Mathematics II
- MA399, Financial Derivatives

In addition, the following business courses are recommended:

- AC203, AC204, Introduction to Accounting I, II
- MS265, Information Technology (prerequisite: MS100)
- EC291, EC292, Principles of Micro/Macroeconomics
- FN340, Corporate Finance
- MK380, Introduction to Marketing Management
- MG360, Organizational Behavior
A student must achieve a minimum grade of B in a given business course to waive the comparable prerequisite (400-level) course in the MBA program.

**Phase II—Graduate Curriculum**

Upon successful completion of Phase I, and after meeting the MBA program admission requirements, students can complete the Lacy School of Business MBA program with a minimum of 33 hours of MBA coursework (500 level). To qualify for full admission into the MBA program, the following requirements must be satisfied: students must obtain an appropriate score on the GMAT test; and students must submit to the graduate admission office a graduate admission application, two letters of recommendation, an official transcript, and a résumé.

**Why Study Statistics?**

A statistician can analyze data in a way that provides powerful conclusions, based on inductive reasoning, about truths in the world around us. The Butler program prepares each major for a successful career as a statistician, which is one of the corporate world’s most heavily recruited professionals. Our majors learn how to determine which statistical procedure to apply to a given study in the real world, the mathematics behind why these procedures work, and how to work with the most modern software to crunch large data sets and apply tools in predictive analytics.

**Why Study Statistics at Butler?**

Students in our program gain an understanding of statistics and its applications through classroom instruction and hands-on participation in research projects and/or internships, all of which are built into the curriculum and major requirements. In the classroom, students see a powerful outline of the way in which probability (the mathematical tool for a statistician) governs any statistical analysis, learn how to think rationally about random variables in the world around us, and see how to crunch data in their many different forms, no matter what the underlying experimental structure. Finally, each statistics student gains experience by looking at real-world data sets of various types, sizes, and complexities. This experience develops each student’s abilities and use of computational tools to know how to work in corporate settings and as an expert researcher. Participation in student-faculty collaborative research is strongly emphasized and can have applications in any discipline that focuses on analyzing random variables and data. Butler’s geographic position in Indianapolis puts it in the heart of the Indiana corporate world, allowing our students to forge connections with the large number of local companies offering internships or seeking solutions to statistical questions.

**Statistics Student Learning Outcomes**

Statistics students graduate with a demonstrated mastery of the fundamental and broad content areas of probability, statistical theory, statistical methods, and applications to the real world. They are able to use critical thinking to advance scientific inquiry. They are also able to communicate statistical knowledge well to others, design real world tests and collection of data, and continue learning new facts about statistics throughout their lifetimes.

**Requirements for the Major**

**Lower-level Requirements**
- MA162, Elementary Statistics
- MA106, Calculus and Analytic Geometry I
- MA107, Calculus and Analytic Geometry II
- CS142, Introduction to Computer Science and Programming
- MA215, Linear Algebra

**Upper-level Requirements**
- MA360, Probability Theory I
- MA361, Statistical Theory
- MA362, Applied Statistical Methods
- MA364, Design of Experiments
- MA369, Multivariate Statistical Methods
- MA407, Nonparametric Statistical Methods
- MA458, Predictive Analytics and Data Mining
- MA469, Advanced Statistical Computing
- Plus one of the following:
  - MA411, MA412, or MA413 (1-, 2-, or 3-credit internship)
  - MA490, Senior Seminar

**Core Courses Offered by Mathematics and Actuarial Science**

AR210-MA, Statistically Speaking: Who needs statistics in the 21st century? Anyone looking critically at numerical information who does not want to be misled by incorrect or inappropriate calculations or anyone dealing with issues in their environment, state/nation, or career would benefit from studying the methodology of statistics. These problems include finding ways to improve our environment and living standards or studies conducted in an effort to fight diseases. This course is an introduction to applied statistics in the natural, social, and managerial sciences through the use of current environmental and global issues. Topics include sampling, data analysis, experimental design, and the use of computer-based statistical software. (U)(3) Fall & spring

AR211-MA, Codes and Secret Messages: How can sensitive information such as credit card numbers or military strategy be exchanged between two people without being intercepted by a third party? Are there ways to detect and correct errors resulting from a mistyped identification number or a scratched CD? Can information be exchanged securely among multiple individuals without anyone revealing his or her own decryption scheme? In this course, students will investigate various strategies for storing and transmitting information accurately, efficiently, and securely. Students will design several types of ciphers for sending secret messages, construct various error-detecting and error-correcting codes, and implement secure public-key cryptosystems for exchanging messages with classmates. As these issues are explored, students will discover the need for mathematical notions such as modular arithmetic,
permutations and combinations, probability and statistics, vectors and matrices, and formal logic. Students will also become aware of the central role
d played by cryptography and coding throughout history and modern society. (U)(3) Fall & spring

AR212-MA, Win, Lose, or Draw: Why do we play games? Whatever the reason, games are a big piece of life. The world has played games for a long, long time—
every time period, every culture. We will study games and gambling in our culture as well as those in other cultures. To better understand games, students
will study probability theory and its application to gambling. Applications include casino games, lotteries, racing, wagering systems, as well as other games.
Some analytical tools that will arise during the course are counting methods, expected value, trees, gambler’s ruin, and distributions. (U)(3) Fall & spring

AR213-MA, Infinity and Beyond: Is infinity a knowable concept? The ability to wrestle with the infinite remains one of the pinnacles of human thought. Many of
the big ideas of ancient and modern mathematics are related to this notion. With infinity as a unifying theme, this course aims to engage students in
exploratory investigations and mathematical ways of thinking in topics like estimation, rigorous proof of universal statements, iterative limits, resolution
of paradoxes, inherent limitations of computer calculations, and the extension of ideas to new settings. Practical outcomes include improved numeracy
and sense of scale, appreciation for the application of abstract mathematics, awareness of limits in computational models, insights in philosophy and
aesthetics, novel techniques of thought, and a general emphasis on careful reasoning. (U)(3) Fall & spring

AR214-MA, Beauty (not the Beast) in Mathematics: This course is designed to convey the power and beauty of mathematics through mathematical principles
seen in art and architecture. Students will study applications and the value of mathematics in using both inductive/deductive reasoning to better
understand their personal lives and the world and study networks and topology from a non-theoretical viewpoint. (U)(3) Spring

Mathematics and Actuarial Science Courses

MA101, Algebra: Provides students with the necessary mathematical background to follow in mathematics. Topics include the number system, equations, inequalities,
graphs, polynomials, algebraic functions, and exponents. Students who have successfully completed any other mathematics course will not be given
credit for MA101. Does not satisfy the Core Curriculum requirement. Must not be taken pass/fail. (U)(3) Fall & spring

MA102, Precalculus: This course provides students with the necessary mathematical background to successfully complete a calculus course or a course that has
calculus as a major topic. Topics include solving equations and inequalities, exponents, factoring, complex numbers, and functions—linear, quadratic,
polynomial, rational, exponential, logarithmic, and trigonometric. Students who have successfully completed any other mathematics course (MA106 or
above) will not be given credit for MA102. Does not satisfy the Core Curriculum requirement. Must not be taken pass/fail. Prerequisite: Appropriate score
on the Butler math placement test. (U)(3) Fall & spring

MA106, Calculus and Analytic Geometry 1: The beginning calculus course for students in mathematics, engineering, pharmacy, and the sciences. Topics include
differentiation, integration, and exponential, logarithmic, and trigonometric functions. Applications are emphasized. The analytic reasoning core course is waived for students who successfully complete this course. Prerequisite: Placement, or a grade of C- or better in MA102. (U)(4) Fall, spring, & summer

MA107, Calculus and Analytic Geometry 2: Continuation of MA106. Topics include methods of integration, improper integrals, infinite series, conic sections, and
polar coordinates. Prerequisite: MA106. (U)(3) Fall, spring, & summer

MA108, First-Year Problem Solving: This one-credit course gathers together first-year students to practice and learn about effective techniques to solve problems
and think about proofs in mathematics. Students work together with faculty in a team-oriented spirit and approach to problem solving. This course does not satisfy the Core Curriculum requirement. Must not be taken pass/fail. Prerequisite: MA107 (U)(1) Fall

MA125, Business Calculus: This course introduces students to the concepts and methods of calculus by studying differentiation and integration with applications
to business. Additionally, the mathematics of finance, including simple and compound interest, future and present annuity values, and amortization, is developed. Other topics may include a brief introduction to probability and counting techniques. Prerequisite: A grade of C- or better in MA101. (U)(3) Fall & spring

MA162, Elementary Statistics: An introduction to inferential statistics with applications in the natural, social, and managerial sciences. This course is especially
designed to meet the needs of students who will later pursue graduate studies in social and natural sciences or professional programs in medicine. The course introduces elementary probability and uses it to develop a sound understanding of confidence intervals and hypothesis testing. Topics include data analysis, descriptive statistics, linear regression, chi-square tests, analysis of variance, and tests and confidence intervals for means and proportions. The analytic reasoning core requirement is waived for students who successfully complete MA162. Credit will not be awarded for both AR210-MA and MA162. Prerequisite: MA106 or equivalent. (U)(3) Fall & spring

MA200, Basics of Advanced Mathematics: Introduces students to the concepts and methods of higher mathematics with an emphasis on techniques of
mathematical proof. Topics include foundations of logic, set theory, relations, partial orders, well-ordering, isomorphisms, induction, equivalence
relations, and functions. Corequisite or prerequisite: MA106 or equivalent. (U)(3) Fall & spring

MA205, Discrete Mathematics: Proofs by induction, simple diagonalization proofs, combinatorial theory, relations and functions, inclusion/exclusion principle,
derangements, recurrence relations, and generating functions. Prerequisite: MA106. (U)(3) Fall

MA208, Calculus and Analytical Geometry 3: Continuation of MA107. Topics include vector calculus, multivariable calculus, partial differentiation, multiple
integration, line integrals, and Green’s Theorem. Prerequisite: MA107. (U)(4) Fall & spring

MA215, Linear Algebra: Systems of linear equations, matrices, determinants, vector spaces, linear transformations, and the eigenvalue problem. Prerequisite:
MA107. (U)(3) Fall, spring, & summer

MA301, History of Mathematics: Historical development of number systems, including contributions from Egypt, Greece, China, India, and medieval to early-
modern Europe. Topics may include arithmetic, algebra, theory of equations, geometry, trigonometry, number theory, combinatorics, probability, and
the beginnings of calculus. Prerequisites: MA107 and MA205. (U)(3) Fall

MA305, Graph Theory: Graphs and subgraphs, planar graphs, graph coloring and chromatic polynomials, trees, weighted trees and prefix codes, transport
networks, and matching theory. Prerequisite: MA205. (U)(3) Spring
MA308, Problem Seminar: A course emphasizing the process of solving mathematical problems. Problems will be drawn from various sources. Students and faculty will meet weekly to exchange ideas and present solutions. Students may earn up to three credits by repeated registrations. Prerequisite: MA107. (U/G)(1) Fall & spring

MA311, Number Theory: Divisibility, the Euclidean algorithm, prime numbers, unique factorization, linear congruences, the Chinese Remainder Theorem, and applications to public-key cryptography. Additional topics may include primitive roots, quadratic residues, factorization algorithms, Diophantine equations, continued fractions, and the distribution of primes. Prerequisite: MA205. (U/G)(3) Occasionally

MA312, Modern Algebra: Relations and graphs, groups, subgroups, normal subgroups, homomorphism theorems, rings, and fields. Prerequisites: MA200, MA205, and MA215. (U/G)(3) Spring

MA313, Modern Algebra II: This course is a continuation of MA312. Topics include Euclidean rings, principal ideal domains, unique factorization domains, field extensions, and Galois theory. Prerequisite: MA312. (U)(3) Fall

MA326, Real Analysis 1: A rigorous study of the principles underlying real-variable calculus. Topics include limits, continuity, differentiation, and Riemann integration. Prerequisites: MA107, MA200, and MA205. (U/G)(3) Fall

MA327, Real Analysis 2: Continuation of MA326. Topics include sequences, series, uniform convergence, introduction to Lebesgue measure and integration, and line and surface integrals. Prerequisite: MA326. (U/G)(3) Spring

MA330, Complex Analysis: Complex numbers, analytic functions, complex integration, Cauchy’s Theorem, Taylor and Laurent series, contour integrals, and the residue theorem. Prerequisite: MA208. (U/G)(3) Spring

MA334, Differential Equations: Analytical, numerical, and qualitative approaches to differential equations, including linear equations and systems, and nonlinear equations. Prerequisite: MA107. (U/G)(3) Fall & spring

MA337, Applied Dynamics and Stability Theory: The course provides students with an opportunity to explore applications of ordinary differential equations in the context of physics, biology, chemistry, and engineering. The course also includes an introduction to nonlinear dynamics, including flows, phase plane analysis, limit cycles, bifurcation, and chaos, as well as those topics’ connection to the stability of associated dynamic processes. Prerequisites: MA334 and MA215. (U/G)(3) Occasionally

MA351, Geometry: Various topics from Euclidean, projective, and non-Euclidean geometry. Prerequisite: MA107. (U/G)(3) Spring

MA360, Probability Theory 1: Combinatorics, general probability, conditioning, discrete/continuous random variables, transformed random variables, Joint, marginal, conditional continuous densities. Covariance. The central limit theorem. Topics may also include order statistics and conditional expectation. Prerequisite: MA107 or permission of the instructor. (U)(3) Fall

MA361, Statistical Theory: Sampling distributions, methods of estimation, properties of estimators, confidence intervals, theory and applications of hypothesis testing, analysis of variance, chi-squared tests, and fundamental concepts and applications of Bayesian statistics. Prerequisite: MA360. (U/G)(3) Spring

MA362, Applied Statistical Methods: Simple linear regression, correlation, multiple regression, and time series. Regression topics to be discussed include dummy variables, transformations of data, and multicollinearity. Time series topics cover model identification, parameter estimation, diagnostic checking, and forecasting. Prerequisite: MA361. (U/G)(3) Occasionally

MA363, Probability Theory 2: Topics include Poisson processes, mixed continuous-discrete distributions (including expectation and cumulative distribution), moment generating functions, order statistics, conditional densities, conditional expectation, and a brief introduction to simple linear regression of a single variable. The course emphasizes actuarial applications, such as net premium calculations. Prerequisite: MA360. (U/G)(3) Spring

MA364, Design of Experiments: An introduction to the basic principles of experimental design: analysis of variance for experiments with a single factor; randomized blocks and Latin square designs: multiple comparison of treatment means; factorial and nested designs; analysis of covariance; an introduction to response surface methodology. Prerequisite: MA361 or MA162. (U/G)(3) Occasionally

MA366, Multivariate Statistical Methods: This course reviews matrix theory, univariate normal, T, chi-squared, F, and multivariate normal distributions and introduces inference about multivariate means including Hotelling’s T squared, multivariate analysis of variance, multivariate regression, and multivariate repeated measures. Additional topics include inference about covariance structure, including principal components, factor analysis, and canonical correlation, along with multivariate classification techniques including discriminant and cluster analyses. Prerequisite: MA361. (U/G)(3) Occasionally

MA372, Loss Models: Models for the amount of a single payment, models for the number of payments, aggregate loss models. Prerequisite: MA361. (U/G)(3) Occasionally

MA395, Financial Mathematics: Time value of money, annuities, loans, bonds, general cash flows, immunization, and introduction to financial derivatives. Prerequisite: MA107. (U/G)(4) Fall

MA397, Actuarial Mathematics 1: Survival distributions and life tables; the mathematics of life insurance, life annuities, net premiums, and net premium reserves. Prerequisite: MA360; prerequisite or corequisite: MA395. (U/G)(3) Occasionally

MA398, Actuarial Mathematics 2: Multiple life functions, multiple decrement models, valuation theory for pension plans, and ruin models. Prerequisite: MA397. (U/G)(3) Occasionally
MA399, Financial Derivatives: Put-call parity, binomial options, Black-Scholes formula, delta-hedging, lognormal distribution, Brownian motion, and Ito’s lemma. (U/G)(3) Occasionally

MA401, Independent Study: Provides an opportunity for qualified students to pursue special topics under the guidance of a department staff member. Prerequisite: Permission of the department. (U/G)(1) Fall & spring

MA402, Independent Study: Provides an opportunity for qualified students to pursue special topics under the guidance of a department staff member. Prerequisite: Permission of the department. (U/G)(2) Fall & spring

MA403, Independent Study: Provides an opportunity for qualified students to pursue special topics under the guidance of a department staff member. Prerequisite: Permission of the department. (U/G)(3) Fall & spring

MA413, Internship: Supervised work experience directly related to the major area of study. Prerequisites: Junior or senior standing and permission of the department. (U/G)(1) Fall & spring

MA401, Independent Study: Provides an opportunity for qualified students to pursue special topics under the guidance of a department staff member. Prerequisite: Permission of the department. (U/G)(3) Fall & spring

MA402, Independent Study: Provides an opportunity for qualified students to pursue special topics under the guidance of a department staff member. Prerequisite: Permission of the department. (U/G)(2) Fall & spring

MA403, Independent Study: Provides an opportunity for qualified students to pursue special topics under the guidance of a department staff member. Prerequisite: Permission of the department. (U/G)(3) Fall & spring

MA401, Independent Study: Provides an opportunity for qualified students to pursue special topics under the guidance of a department staff member. Prerequisite: Permission of the department. (U/G)(3) Fall & spring

MA447, Nonparametric Statistical Methods: Introduction to nonparametric statistics, including one- and two-sample testing and estimation methods, one- and two-way layout models, and correlation and regression models. Prerequisite: MA361. (U/G)(3) Occasionally

MA468, Predictive Analytics and Data Mining: This course provides an experiential overview of data mining and machine learning algorithms to analyze huge sets of data having large numbers of random variables and/or large numbers of entries. Topics include manipulation of databases, statistics, machine learning, information retrieval, and uses of software such as RapidMiner/R. Prerequisites: MA369 and CS142. (U/G)(3) Occasionally

MA469, Advanced Statistical Computing: Topics involve numerical analysis useful for statistical modeling and analysis. Methods used include deterministic and stochastic methods for optimization and integration, the EM algorithm, Monte Carlo simulation (both non-iterative and iterative), and kernel density estimation. Applications include Bayesian hierarchical models, mixture models, time series, nonlinear regression, smoothing, classification, and modern variable selection. Prerequisite: MA369. (U/G)(3) Occasionally

MA471, Topics in Mathematics: In-depth study of special topics not covered in regular courses. Prerequisite: Permission of the department. (U/G)(1) Fall & spring

MA490, Senior Seminar: Intended for seniors majoring in mathematics, this seminar features student presentations on mathematical topics and selected readings. Prerequisites: Declared major in mathematics or statistics and junior standing or permission of the department. (U)(1) Spring

MA499, Honors Thesis: (U)(3) Fall & spring

Modern Languages, Literatures, and Cultures

Administration
Alex JR Quintanilla, PhD, Department Chair

Professors
Terri Carney, PhD; Larry W. Riggs, PhD; Sylvie Vanbaelen, PhD; Linda M. Willem, PhD

Associate Professors
Irune del Río Gabiola, PhD; Xiaqing Liu, PhD; Gabriela Muniz, PhD; Alex JR Quintanilla, PhD; Eloise Sureau-Hale, PhD

Assistant Professors
Sarah Painitz, PhD; Juan Pablo Rodríguez Prieto, PhD

Instructors
Melissa Etzler, PhD; Liliana Goens, MA, MS; Elisa Lucchi-Riester, MAT; Amina Butoiy Shabani, ABD; Michelle Stigter, MA, MS

Department Website
www.butler.edu/mll:

Why Study Modern Languages, Literatures, and Cultures?
The study of languages, literatures, and cultures gives students access to a broader global community, invites them to deepen their engagement with other linguistic and cultural traditions, and teaches them to be sensitive and critical readers of cultural texts. Becoming proficient or fluent in another language also enhances self-reflection, increases self-knowledge, and heightens awareness of one’s own community and place in the world. Furthermore, a modern languages degree increases opportunities for employment because Butler students provide companies, nonprofits, and governmental entities with communicative and cultural analytical advantages in an increasingly shrinking world.

Why Study Modern Languages, Literatures, and Cultures at Butler?
Small classes are led by internationally recognized and published faculty members hailing from such countries as Austria, Argentina, Belgium, China, Colombia, El Salvador, France, Italy, Senegal, Spain, and the United States. Our faculty members' wide variety of linguistic and cultural expertise enriches the curriculum and keeps students connected to the global communities they represent. Also, modern languages students consistently complete in-depth research with faculty and present at conferences both at Butler and around the country. Students who study with us find they are well-supported by the resources we
Modern languages studies can lead to Core Curriculum course fulfillments and exemptions:

- If a student completes at least nine approved hours abroad, he or she is exempted from one of the two required Global and Historical Studies (GHS) courses.
- If a student completes at least three eligible modern languages courses, he or she is exempted from the Texts and Ideas (TI) course requirement.
- Students can fulfill the Speaking Across the Curriculum (SAC) and Writing Across the Curriculum (WAC) requirements by completing approved courses during eligible semesters.
- Students can fulfill the Indianapolis Community Requirement (ICR) by completing an eligible course or approved independent study.

Given the interdisciplinarity of our programs, students often find creative and productive ways to combine our majors and minors—and combine them with other degrees—preparing them well for service, employment, and graduate studies beyond Butler.

Modern Languages Student Learning Outcomes

Students will be able to do the following, in the target language:

- Clearly communicate in conversation and written form on a variety of topics
- Articulate a cogent interpretation of a cultural text by applying concepts and terminology pertaining to artistic, cultural studies, linguistic, or literary theories
- Demonstrate pluralist values, global awareness, and diversity-mindedness

Degree Programs

- Majors in Chinese (beginning Spring 2018), French, German, and Spanish, as well as a Multilingual Major (BA)
- Minors in Chinese, French, German, and Spanish

Requirements for the Majors

A Chinese major (beginning Spring 2018) consists of a minimum 33 hours, with at least 24 being in Chinese language courses, and at least nine in approved electives.

A French or German major consists of a minimum of 33 hours in the language, with at least 24 being at the 300 level or above. Both require the completion of one designated 300-level skills course and at least two 400-level courses.

A Spanish major consists of a minimum of 33 hours in the language, with at least 24 being at the 300 level or above. It requires the completion of one 300-level skills course, a minimum of two culture/literature courses, and a minimum of one linguistics course. At least two courses—whether culture/literature and/or linguistics—must be completed at the 400 level.

The Multilingual major consists of a minimum 51 hours, with advanced study in at least one language and beginning/intermediate-level studies in at least two additional languages. (This works out to the equivalent of an individual modern languages major, plus at least six more eligible courses across a minimum of two additional languages.)

Requirements for the Minors

A minor in Chinese, French, German, or Spanish consists of a minimum 21 hours in the language, with at least 12 being at the 300 or 400 levels.

The Spanish minor also requires the completion of at least one culture/literature or linguistics course (SP 325–499).

Placement and Earned Credits

At Butler we recognize the language accomplishments of incoming students. Whether you took regular high school courses, "dual enrollment courses," or AP/IB/CLEP exams, we'll help place you in the appropriate level at Butler and assign the correct number of credits for your previous work. For more detailed information on determining placement and earned credits, please visit the departmental website.

Student Modern Language Center

The student Modern Language Center (MLC) (Jordan Hall, Room 391) is a multilingual space focused on second language and culture acquisition. The MLC includes a comprehensive foreign feature and instructional film collection, a large group viewing area, film viewing stations for individuals, computers, a Smart Board, and gaming systems with games in a variety of languages. In addition to state-of-the-art facilities, the MLC hosts a number of activities designed to promote language and culture learning, including tutor tables, movie nights, and karaoke club. Events, workshops, and lectures focusing on language, culture, and social issues also take place in the Center. The MLC staff is trained in academic technology and research methodology to support all facets of language learning and teaching at Butler.
Courses Taught in English

French, German, and Spanish majors can count one FL (“foreign language”) course towards a major.

Courses taught in English do not satisfy the foreign language requirement for CCOM, International Business, or LAS degrees (whether primary or secondary).

FL320, Chinese Civilization: An overview of Chinese civilization from the early dynasties through the present. This course is taught in English and does not count toward the language requirement. (U)(3) Occasionally

FL380, Methods Teaching Foreign Language: Acquaints students with current methods of teaching foreign languages. Provides opportunities for use of the latest technologies, practical work, and discussion of problems encountered when teaching foreign languages and cultures. Also applicable for teacher certification. (U)(3) Occasionally

FL390, Seminar: Study in depth of a selected topic in European, French, German, or Hispanic culture, such as historical or social conditions, individual writers, artists, political figures, or literary genres. (U)(3) Occasionally

FL401, Internship in Foreign Language: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be a foreign language. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(1) Fall, spring, & summer

FL402, Internship in Foreign Language: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be a foreign language. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(2) Fall, spring, & summer

FL403, Internship in Foreign Language: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be a foreign language. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(3) Fall, spring, & summer

FL480, Topics: Chinese Studies: Study of a selected topic in the culture of China. Themes may deal with literary, social, political, economic, and/or ethical concerns. Course may be repeated with different topics. This course is taught in English and does not count toward the language requirement. (U)(3) Occasionally

FL490, Seminar: Study in depth of a selected topic in European, French, German, or Hispanic culture such as historical or social conditions, individual writers, artists, political figures, or literary genres. (U/G)(3) Occasionally

FL499, Modern Languages Keystone: Integrate. Prepare. Evolve. Completing a modern language degree and not sure what to do with it? In this capstone course, you will polish your online presence (including your foreign language ePortfolio and profiles on professional networking sites), complete an official language assessment, and work with campus resources to create a plan for continued language proficiency while leveraging those language skills in the marketplace. Modern language majors and minors with senior standing are strongly encouraged to enroll in this capstone course. Prerequisite: Senior standing in a French, German, individualized (with language focus), or Spanish major, or senior standing in a Chinese, French, German, or Spanish minor. (U)(1) Annually, term varies

Courses Taught in Foreign Languages

To help students gain fluency, the target language is used extensively from the first day. Courses at the 300 and 400 levels are conducted completely in the target language.

Core Courses Offered by the Department of Modern Languages, Literatures, and Cultures

PCA260-MFL, Love and Marriage—17th Century Spanish Drama: We will read six plays from the Spanish Golden Age that take place in the capital city of Madrid. We will study these dramas in the context of 17th-century Spain, a society marked by rapid urbanization, increased social mobility, and seismic shifts in cultural norms and personal identities and lifestyles. Theater played a central role in this society, illustrating the confusing and disorienting aspects of urban life, such as mishaps, mistaken identities, love triangles, and miscommunications. Our course will focus on the theme of love and marriage as sites of cultural anxiety at this critical juncture in the history of Spain. Students will write their own version of a Spanish “comedia” and work in groups to perform a scene from one of the plays we read in class. Additionally, they will keep a journal on how the theme of the class, “love and marriage,” is present in contemporary artistic expressions. (U)(3) Occasionally

TL225-GR, Literary Responses to Two World Wars: Our investigation of British, German, French, Italian, and Russian literature will be structured around the two world wars, arguably the most defining catastrophes to befall modern Europe. We will consider how writers such as Virginia Woolf, Franz Kafka, George Orwell, Paul Celan, Heimrich Boll, Gunter Grass, and Vladimir Nabokov responded to the violence of the wars as well as to the far-reaching social changes they brought about. (U)(3) Occasionally

TL226-GR, Oppression and Revolution: The German Democratic Republic: This course explores oppression and revolution in the German “Democratic” Republic (GDR). (U)(3) Occasionally

Chinese Courses

CN100, Chinese Character Writing: In this course you will learn and master Chinese character writing by understanding the evolution and basic structure of its system, and putting character construction into practice. You’ll study the elementary radicals from which characters are created, and become familiar with correct stroke order. And, by the end of the course, you’ll master approximately 150 basic Chinese characters. The understanding of the origin, history, and organization of these characters will greatly facilitate the continued development of your reading and writing proficiencies, whether you’re a beginner or a continuing student wishing to review. If your past experience focused on the Traditional Chinese Character System, this course will help in
your transition to the newer, Simplified Chinese Character System. This course augments the work you're completing in other Chinese courses. (U)(1) Occasionally

CN101, Beginning Chinese 1: Development of speaking, listening, and writing skills, and insights into Chinese culture. Regular practice in the Modern Language Center. (U)(4) Annually, term varies

CN102, Beginning Chinese 2: Development of speaking, listening, reading, and writing skills and insights into Chinese culture. Regular practice in the Modern Language Center. (U)(4) Annually, term varies

CN200, Chinese Conversation: As you enter the intermediate level, this course will help you develop your oral proficiency. You'll build up your vocabulary and learn to use correct grammar and sentence structures, as well as handle social protocols properly in various situations. You'll engage in extensive class discussions to increase accuracy and fluency. By the end of the course, you'll not only be able to engage with your classmates in various conversations, but also present general descriptions and make brief arguments. This course augments the work you're completing at the intermediate level. Prerequisite: Completion of CN102, placement at the 200 level, or permission of the department chair. (U)(4) Occasionally

CN203, Intermediate Chinese 1: Practice in listening, speaking, reading, and writing for communication skills. Review of fundamentals. Use of the Modern Language Center. Prerequisite: One year of college Chinese or placement by evaluation. (U)(4) Annually, term varies

CN204, Intermediate Chinese 2: Continuing practice in listening, speaking, reading, and writing for communicative skills. Further review of fundamentals. Use of the Modern Language Center. Prerequisite: CN203, placement by evaluation, or the equivalent. (U)(4) Annually, term varies

CN300, Chinese for Oral Communication: Oral Mandarin Chinese class to improve students' spoken language fluency. Intensive class activities include learning audio materials, watching movies, reading texts, class discussion, and presentation. Prerequisite: Two years of college Chinese or placement at the 300 level. (U)(3) Annually, term varies

CN305, Advanced Chinese 1: Further develop students' overall language proficiency and emphasize vocabulary building, consolidation of essential grammatical patterns, and insights into Chinese culture. Use of the Modern Language Center and videos. Prerequisite: Two years of college Chinese or placement at the 300 level. (U)(3) Annually, term varies

CN306, Advanced Chinese 2: Continue to develop students' overall language proficiency and emphasize vocabulary building, consolidation of essential grammatical patterns, and insights into Chinese culture. Use of the Modern Language Center and videos. Prerequisite: CN305, placement by evaluation, or the equivalent. (U)(4) Annually, term varies

CN310, Chinese for Written Communication: In this course you will improve your Chinese writing skills via a variety of contexts and genres, achieving improved expression of ideas and arguments utilizing the Simplified Character System of writing. The styles of writing include short story, biography, autobiography, essay, news, letter, diary, email, blog, resume, and art review (e.g., book, film, dance performance, etc.). You'll further develop organizational and critical thinking skills, while demonstrating an awareness of language and culture through written work. This course includes time in class for instructor-guided peer review and editing, as well as discussions based upon student writings and selected Chinese readings. Prerequisite: CN204, placement at the 300 level, or permission of the department chair. (U)(4) Occasionally

CN315, Chinese for Business: You will learn how to do business within Chinese society via acquisition of basic terminology and by familiarizing yourself with common practices in China's marketplace, including trading, banking, marketing, finance, investment, etc. The course will be taught entirely in Chinese. Prerequisite: CN204, placement at the 300 level, or permission of the department chair. (U)(3) Occasionally

CN401, Internship in Chinese: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be Chinese. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program, completion of at least two 300-level Chinese courses, and/or permission of the department chair. (U)(1) Fall, spring, & summer

CN402, Internship in Chinese: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be Chinese. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program, completion of at least two 300-level Chinese courses, and/or permission of the department chair. (U)(2) Fall, spring, & summer

CN403, Internship in Chinese: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be Chinese. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program, completion of at least two 300-level Chinese courses, and/or permission of the department chair. (U)(3) Fall, spring, & summer

CN491, Independent Study: Independent study of Chinese culture, literature, and language. (U)(1) Occasionally

CN492, Independent Study: Independent study of Chinese culture, literature, and language. (U)(2) Occasionally

CN493, Independent Study: Independent study of Chinese culture, literature, and language. (U)(3) Occasionally

French Courses

FR101, Beginning French 1: Development of speaking, listening, reading, and writing skills and insights into French and Francophone cultures. Prerequisite: No previous formal French instruction. (U)(4) Annually, term varies

FR102, Beginning French 2: Continuation of FR101. Development of speaking, listening, reading, and writing skills and insights into French and Francophone cultures. Prerequisite: FR101 or placement test authorization. (U)(4) Annually, term varies

FR203, Intermediate French 1: Review of basics and new grammatical structures and vocabulary. Continued practice in listening, speaking, reading, and writing to develop competence in French. Study of cultural texts. Prerequisite: FR102 or placement test authorization. (U)(3) Annually, term varies
FR204, Intermediate French II: Continuation of FR203. Further review of basics and new grammatical structures and vocabulary. Continued practice in listening, speaking, reading, and writing to develop competence in French. Study of cultural texts. Prerequisite: FR203 or placement by evaluation or the equivalent. (U/G) Annually, term varies

FR305, French for Communication: Oral Emphasis: Conversations, discussions, and individual presentations based on readings, films, etc. Vocabulary building and grammar review supported by written exercises. Prerequisite: Two years of college French or placement at the 300 level. (U)(3) Annually, term varies

FR310, French for Communication: Written Emphasis: Development of written skills in French through description, narration, and argumentation. Peer-editing, rewriting, grammar review. Discussions based on student writing and selected readings. Prerequisite: FR204, placement at the 300 level, or permission of the department chair. (U)(3) Annually, term varies

FR316, Survey of French Civilization: Study of French civilization from its origins to the present time. Focus will be on the people, cultural processes, and ideas that have shaped the country. Prerequisite: FR300, or by permission of the instructor and department chair. (U)(3) Occasionally

FR318, Intro to Francophone Cultures: Introduction to the cultures of the Francophone world. Historical background, linguistic characteristics, and the literature, music, and cinema of areas with a strong Francophone presence. Prerequisite: FR300, or by permission of the instructor and department chair. (U)(3) Occasionally

FR320, Contemporary French Culture: Study of contemporary French culture using news media, films, interviews, online newspapers, TV programs in the French language, etc. Prerequisite: FR334 or FR342. (U)(3) Annually, term varies

FR325, Intro to French Linguistics: Basic elements of French linguistics, phonetics, phonology, and stylistics. Prerequisite: FR334 or FR342, or permission of the instructor. (U)(3) Occasionally

FR330, French-English Translation for Linguistic and Cultural Awareness: French-English translation of news, editorial, review, literary, and other texts to develop language and cultural skills. Vocabulary building and appreciation of cultural differences as reflected in language. Prerequisite: Completion of at least one course from FR300–335, or permission of the department chair. (U)(3) Occasionally

FR335, France: Middle Ages to 1700: A survey of the evolution of France from the Middle Ages to 1700 through the study of literature and other cultural material. Prerequisite: FR334 or FR342. (U)(3) Occasionally

FR340, France: 18th and 19th Centuries: Survey of the evolution of France in the 18th and 19th centuries through the study of literature and other cultural material. Prerequisite: FR334 or FR342, or permission of the instructor. (U)(3) Occasionally

FR345, France and the Francophone World: 1900 to Present: A survey of France and the Francophone world in the 20th and 21st centuries through the study of literature and other cultural material. Prerequisites: FR310 and either FR334 or FR342 or permission of the instructor. (U)(3) Occasionally

FR346, Topics in French: Study of a selected topic in the cultures of France and/or the Francophone world. Themes may deal with literary, social, political, and/or aesthetic concerns of these regions of the world. May be repeated with different topics. Prerequisite: Completion of at least one course from FR300–345, or permission of the department chair. (U)(3) Occasionally

FR401, Internship in French: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be French. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(1) Fall, spring, & summer

FR402, Internship in French: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be French. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(2) Fall, spring, & summer

FR403, Internship in French: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be French. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(3) Fall, spring, & summer

FR490, Seminar: Study of a selected topic in the cultures of French-speaking countries. Themes may deal with literary, social, political, and/or aesthetic concerns of these countries, of one nation, or of a region. Course may be repeated with each different topic. Prerequisite: Three years of college French or the equivalent. (U/G)(3) Annually, term varies

FR491, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in French, by permission of the instructor and department chair. Prerequisite: Three years of college French or the equivalent. (U/G)(1) Annually, term varies

FR492, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in French, by permission of the instructor and department chair. Prerequisite: Three years of college French or the equivalent. (U/G)(2) Annually, term varies

FR493, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in French, by permission of the instructor and department chair. Prerequisite: Three years of college French or the equivalent. (U/G)(3) Annually, term varies

FR499, Honors Thesis: (U)(3) Annually, term varies

German Courses

GR101, Beginning German 1: Development of speaking, listening, reading, and writing skills and insights into German-speaking cultures. Prerequisite: No previous formal German instruction or placement in GR101. (U)(4) Annually, term varies
GR102, Beginning German 2: Development of speaking, listening, reading, and writing skills and insights into German-speaking cultures. Prerequisite: GR101 or placement in GR102. (U)(4) Annually, term varies

GR200, German Conversation: Students will develop their oral proficiency by concentrating on pronunciation and practical vocabulary. Extensive use of class discussion to increase accuracy and fluency. Course cannot be counted toward the major or minor and does not fulfill the language requirement. Prerequisite: One year of college German or placement in GR200. (U)(1) Annually, term varies

GR203, Intermediate German I: Review of the basic structures of German with an emphasis on active skills. Introduction to German literature through readings, film, and discussion in German. Prerequisite: One year of college German or placement in GR203. (U)(3) Annually, term varies

GR204, Intermediate German II: Continuation of the review of the basic structures of German with an emphasis on active skills. Practice through readings, films, and discussions in German. Exploration of social, artistic, historical, and/or political topics. Prerequisite: Three semesters of college German or placement in GR204. (U)(3) Annually, term varies

GR305, Germany Today: This course offers practice in oral German to develop accuracy and fluency through guided conversations, discussions, individual presentations, vocabulary building, and grammar review. Topics deal with contemporary German culture, society, politics, media, and business. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR310, German for Writing: This course offers practice in written German to develop accuracy and fluency through the analysis of various writing styles and genres, vocabulary building, and grammar review. Emphasis is on the process of writing, guided corrections, and enhancement of self-evaluation. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR311, Contemporary German Authors: A course providing reading and discussion of selected texts by post-war authors. Oral and written literary analysis. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR315, German for Business: This course offers an introduction to the structures, institutions, procedures, and terminology of the German business world. Current business news is explored through a variety of media, such as print, television, and the internet. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR319, Germany: Land of Science and Innovation: Today, Germany justifiably defines itself as an innovation powerhouse leading the world into a future of sustainability and interconnectedness. This course delves into the German-speaking world of science, innovation, and discovery. Through hands-on experiences and research, students will be prepared for internships in STEM fields in German-speaking countries and the globally collaborative work environment of the 21st century. Prerequisite: Completion of GR204, placement at the 300 level, or permission of the department chair. (U)(3) Occasionally

GR320, Contemporary German Authors: An introduction to literary studies in German through close readings and critical analysis of selected texts by post-war authors such as Grass, Durrenmatt, and Wolf. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR322, The German Play: A seminar in textual and performance studies in which students learn about all aspects of theatrical production from costume design, props, lighting, sound design, and stage management to directing and acting. The course will focus on a single dramatic work studied in depth, culminating in the staging of the play. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR330, Children’s Literature: This course in literature for and about children and adolescents offers an introduction to German culture and history from 1800 to the present. Issues considered include social inequality, gender, family, education, and growing up in authoritarian regimes. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR335, German Studies I: Tradition and Innovation: A survey of the evolution of Germany from the Middle Ages to the Enlightenment through the study of literature, art, and other cultural material. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR340, German Studies II: Nation and Identity: A survey of the evolution of Germany from Storm and Stress to Realism through the study of literature, art, and other cultural material. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR342, German Studies III: Modernity and Tyranny: A survey of the evolution of Germany from Naturalism to the present through the study of literature, art, and other cultural material. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR360, German Film: Analysis and discussion of German films within their cultural, historical, political, and social contexts. Prerequisite: Two years of college German or equivalent or placement at the 300 level. (U)(3) Occasionally

GR390, Topics in Literature and Culture: Study of a selected topic in German literature or culture. Course may be repeated with each different topic. Prerequisite: Two years of college German or placement at the 300 level. (U)(3) Occasionally

GR401, Internship in German: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be German. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(1) Fall, spring, & summer

GR402, Internship in German: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be German. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U/G)(3) Fall, spring, & summer

GR403, Internship in German: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be German. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U/G)(3) Fall, spring, & summer
GR467, Topics in German Studies: Age of Goethe: Study of selected writers, genres, or themes within the context of German culture from the Enlightenment to Romanticism. Topics may include the Faust theme in literature, art, and music; the rebel and the genius; Goethe; and Schiller. Prerequisite: Three years of college German or the equivalent. (U)(G)(3) Occasionally

GR470, Topics in German Studies: The 19th Century: Study of selected writers, genres, or themes within the context of 19th-century German culture. Topics may include the German nation, fairy tales and fantastical literature, and the novella. Prerequisite: Three years of college German or the equivalent. (U)(G)(3) Occasionally

GR475, Topics in German Studies: The 20th Century: Study of selected writers, genres, or themes within the context of 20th-century German culture. Topics may include fin-de-siecle literature, Kafka, GDR literature, and multicultural Germany. Prerequisite: Three years of college German or the equivalent. (U)(G)(3) Occasionally

GR490, Seminar: Investigation of a selected topic in German such as a genre, time period, writer, artist, or historical figure in its historical and social context. Course may be repeated with each different topic. Prerequisite: Three years of college German or the equivalent. (U)(G)(3) Occasionally

GR491, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in German, by permission of the instructor and department chair. Prerequisite: Three years of college German or the equivalent. (U)(G)(4) Annually, term varies

GR492, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in German, by permission of the instructor and department chair. Prerequisite: Three years of college German or the equivalent. (U)(G)(2) Annually, term varies

GR493, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in German, by permission of the instructor and department chair. Prerequisite: Three years of college German or the equivalent. (U)(G)(3) Annually, term varies

GR499, Honors Thesis: (U)(3) Annually, term varies

**Spanish Courses**

SP101, Beginning Spanish I: The first course in Spanish. Focus is on developing the four skills of language acquisition: listening, speaking, reading, and writing production. Although learning grammar is an important part of the process, it will be used around everyday situations and cultural topics. Prerequisite: No previous Spanish instruction. Permission granted upon personal interview with the department chair. (U)(3) Annually, term varies

SP102, Beginning Spanish II: This is the second course in the basic Spanish language sequence. The course continues to develop basic communication skills in listening, speaking, reading, and writing at a more complex level. Prerequisite: SP101 or placement test authorization. (U)(4) Annually, term varies

SP201, Spanish Conversation and Pronunciation: Development of oral proficiency. Concentration on pronunciation and practical vocabulary. Review of basic structures. Practice of speaking skills in class discussions. Use of audiovisual materials to increase accuracy and fluency. Prerequisite: One year of college Spanish or placement test authorization. (U)(G)(3) Annually, term varies

SP203, Intermediate Spanish I: First course in intermediate Spanish. Review of fundamentals; develop intermediate skills in reading, writing, speaking, and listening; build communicative competence; and enhance social and cultural awareness of the Spanish-speaking world. Prerequisite: One year of college Spanish or SP102, or placement exam results. (U)(3) Annually, term varies

SP204, Intermediate Spanish II: Second course in intermediate Spanish. Further review of fundamentals, continue developing competence, and enhance social and cultural awareness of the Spanish-speaking world. Prerequisite: SP203, or placement exam results. (U)(3) Annually, term varies

SP300, Grammar in Context: Study of grammatical structures to master language at intermediate/advanced level. Students review, reinforce, and practice vocabulary within a contextual framework so as to build vocabulary, read cultural texts, and create written material to see the interaction of language skills. Prerequisite: SP204 or equivalent course or placement test at the 300 level. (U)(G)(3) Annually, term varies

SP305, Spanish for Oral Communication: Practice in oral Spanish to increase fluency through activities and discussion. Intensive controlled conversation and the facilitation of debates and group discussions in relation to audiovisual materials and cultural readings. Prerequisite: SP204 or equivalent course or placement at the 300 level. (U)(3) Annually, term varies

SP315, Spanish for Business: Introduction to the Hispanic business world and examination of its structures, institutions, procedures, and terminology. Prerequisite: Two years of college Spanish or placement at the 300 level. (U)(3) Occasionally

SP320, Service Learning in Spanish: Increase students' fluency in Spanish; encourage them to frame their community experience in meaningful ways. Class components: supervised volunteer tutoring (24 hours/semester) and weekly class meetings to discuss Latino immigration. Writing-intensive. Prerequisite: SP204 or equivalent course or placement at the 300 level. (U)(G)(3) Annually, term varies

SP325, Intro to Hispanic Linguistics: Overview of the history, phonetics, syntax, acquisition, and language variation of the Spanish language (theories, analysis, and application). Prerequisite: One 300-level skills course in Spanish. (U)(G)(3) Annually, term varies

SP330, Themes in Hispanic Studies: Selected themes within the literature and culture of one or more Spanish-speaking countries. Course may be repeated with each different topic. Prerequisite: One 300-level skills course in Spanish. (U)(G)(3) Occasionally

SP335, Spain: Middle Ages to 1700: Use of selected reading and audiovisual materials to study the history, literature, and arts of Spain from the Middle Ages through the 17th century. Prerequisite: One 300-level skills course in Spanish. (U)(G)(3) Occasionally

SP340, Spain: 1700 to Present: Use of selected reading and audiovisual materials to study the history, literature, and arts of Spain from the 18th century to the present. Prerequisite: One 300-level skills course in Spanish. (U)(G)(3) Occasionally
SP345. Analysis of Literary Genres: Panoramic view of major and minor literary works of various genres across different time periods and geographical areas of the Hispanic world. Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP350. Spanish-American Culture: Mexico, Central America, Caribbean: Geographically oriented approach to the study of the historical events, literary and cultural artifacts, and individual figures that have shaped and defined the countries of Spanish Mexico and selected countries from Central America and the Caribbean. Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP355. Spanish-American Culture: The study of historical events, and the literary and cultural productions of the Southern Cone and Andean countries. Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP360. Hispanic Film: Approach to Hispanic cultures through film and visual representations. Themes for analyses, discussions, and papers vary according to films chosen. Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP365. Hispanic Short Story: Study of selected stories by Spanish and Latin American authors. Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP370. Topics: A study of the contemporary societies of one or more countries of Latin America, of Spain, and/or of the Latino society of the United States. This course may be repeated with each different area studied. Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP375. Spanish Pronunciation: This course introduces the sounds of Spanish in order to achieve a near native-like pronunciation. It covers theory and practice. Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP380. Structure of Spanish: The study of Spanish words and their internal structure as well as an overview of perspectives gained from the X bar theory to study Spanish word order, semantic roles, constituents, clause structure, grammaticality judgments, etc. Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP385. Intro to Varieties of Spanish: We will study the divergent linguistic features of the largest regions of Spain and Latin America (pronunciation, grammar, idioms, slang, linguistic and cultural stereotypes, etc.). Prerequisite: One 300-level skills course in Spanish. (U)(3) Occasionally

SP401. Internship in Spanish: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be Spanish. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U) (3) Fall, spring, & summer

SP402. Internship in Spanish: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be Spanish. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(3) Fall, spring, & summer

SP403. Internship in Spanish: A faculty-supervised work experience in schools, hospitals, nonprofits, government, media, business, or other institutions. Primary language must be Spanish. May be completed abroad or in the United States. Prerequisites: Acceptance into the internship program and permission of the department chair. (U)(3) Fall, spring, & summer

SP405. Spanish Sociolinguistics: This course is an introduction to sociolinguistic variation in the Hispanic world. We will study some of the factors of linguistic maintenance and shift in Spanish (the role of gender, age, education, attitudes, etc.). Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP410. Topics: Communication Skills in Spanish: Practice in communication in Spanish. Topics vary. Course may be repeated with a different topic. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP415. Spanish in the USA: We will study the history, development, and current state of Spanish and its speakers in the U.S., including the linguistic characteristics of the Spanish varieties spoken. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP420. Topics: Golden Age of Spain: Exploration of the 16th and 17th centuries through literature, history, and/or artistic expression. Course may be repeated with each different topic. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP425. Phonetics of the Spanish Language: Introduction to the sounds of Spanish, native speaker pronunciation, recognition of Spanish main dialects, and Spanish-English phonetic contrasts. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP430. Topics: 18th- and 19th-Century Spain: Study of historical, literary, and/or artistic aspects of the period. Course may be repeated with each different topic. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP435. Spanish Dialectology: The geography of Spanish in terms of origin, change, dialects, society, contact with other languages, slang, etc. Prerequisites: Two 300-level Spanish courses; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP440. Topics: Contemporary Spanish Studies: Analysis of aspects of 20th- and 21st-century Spain through study of literary, historical, and artistic works and/or the media, offering such topics as the transition from dictatorship to democracy or the roles of women and men in contemporary society. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP445. Topics in Hispanic Linguistics: Study of a selected topic in the field of linguistics (the study of language) from the perspective of Spanish. Themes may deal with phonetics, syntax, morphology, history, semantics, pragmatics, sociolinguistics, Spanish in context, etc. Prerequisites: Two 300-level Spanish courses; one must be upper level (SP325 or above). (U/G)(3) Occasionally
SP450, Topics: Spanish-American Studies: Literary, historical, social, and/or artistic aspects of Spanish-American culture and civilization. Topics will focus on a historical period, literary genre, social theme, or other cultural phenomenon. Course may be repeated with each different topic. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP455, Spanish Second Language Acquisition: Overview of second language acquisition theories with discussion of empirical studies on the acquisition of Spanish. Practice on research design and the analysis of oral and written production of learners of Spanish. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Annually, term varies

SP460, Topics: 20th-Century Spanish-American Studies: Emphasis on the contemporary cultures of the nations of Spanish America. Through the use of literary texts, historical and social documents, movies, and other audiovisual media, topics will focus on the dynamics of this rapidly developing cultural region. Course may be repeated with each different topic. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP465, Bilingualism in the Hispanic World: This course is an introduction to Spanish in contact with other languages (i.e., English, Catalan, Quechua, etc.). We will cover fundamental issues in the study of bilingualism and the social, political, and cultural contexts of Spanish in the U.S., Spain, and Spanish America. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP470, Topics: Hispanic Culture in the United States: Study of a major facet of Hispanic culture, such as the family, the church, bilingual education, migrant experience, or poetry and theater of protest. Materials vary with the topic but may include literary and social documents, videocassettes, movies, and television. Course may be repeated with each different topic. Prerequisite: Three years of college Spanish or the equivalent. (U/G)(3) Occasionally

SP485, History of the Spanish Language: In this course we will study the development of Spanish from its Latin roots to the present, including historical, social, cultural, and linguistic events. Prerequisites: Two 300-level Spanish courses; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP490, Seminar: Study of a selected topic in the cultures of Spain and/or Latin America. Themes may deal with literary, social, political, and/or aesthetic concerns of these countries, one nation, or a region. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Occasionally

SP491, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in Spanish, by permission of the instructor and department chair. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(1) Annually, term varies

SP492, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in Spanish, by permission of the instructor and department chair. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(2) Fall, spring, & summer

SP493, Independent Study: An opportunity for qualified students to pursue a topic of special interest. Open to majors and minors in Spanish, by permission of the instructor and department chair. Prerequisites: Two 300-level courses in Spanish; one must be upper level (SP325 or above). (U/G)(3) Fall, spring, & summer

SP499, Honors Thesis: As needed. (U/G)(3) Fall, spring, & summer

Neuroscience Minor

Administration
Tara T. Lineweaver, PhD, Program Director

Program Website
www.butler.edu/las/neuroscience

Neuroscience, an interdisciplinary approach to understanding the nervous system and its impact on behavior, cognition, and emotion, is a relatively new and rapidly expanding scientific field. Neuroscientific research describes the normal functioning of the nervous system, examines how the nervous system develops across the lifespan, and investigates the consequences of and potential interventions for neurological dysfunction due to abnormal development, disease, or injury. However, the implications of neuroscience stretch well beyond this scope and provide both a cornerstone and important tools for understanding all human behavior. The neuroscience minor at Butler University introduces students to an interdisciplinary viewpoint regarding the science as well as the philosophy of the mind. Students from any major may elect to complete a neuroscience minor by taking courses in the fields of biological science, psychology, and philosophy.

Requirements for the Minor

The minor consists of 20–21 hours, including:

Biology: 11–12 hours
- BL210, Genetics—Fundamentals
- BL220, Cellular and Molecular Biology—Fundamentals
- NS460 or BL460, Cellular and Molecular Neurobiology without lab (NS460) or with lab (BL460)

Psychology: 6 hours
- PS235, Biological Bases of Behavior
- PS442, Advanced Applied Neuroscience
**Philosophy:** 3 hours
- PL346, Philosophy of Mind

**Neuroscience Courses**
NS460, Cell and Molecular Neurobiology: This course covers cellular/molecular nervous system biology (e.g., nervous system structure/development, neuronal signaling/survival/regeneration, synapse formation/function). Lectures are supplemented with discussions of primary literature and emphasize experimental design and interpretation in addition to content. Students may not earn credit for both NS460 and BI460. Prerequisites: BI220 with a grade of C- or better and neuroscience minor; BI411 recommended. (UJ(3) Spring)

**Peace and Conflict Studies**

**Administration**
Margaret Brabant, PhD, Program Director

**Program Website**
www.butler.edu/peace-conflict

The Peace and Conflict Studies Program seeks to promote a critical understanding of the nature and dynamics of conflict, violence, and the conditions and practice of peace. It provides a structured program of study for students who wish to make issues of violence and conflict (interpersonal, intergroup, and interstate), social justice, human rights, ecological integrity, and peace at multiple levels more central to their university education. Contemporary peace studies is an arena of interdisciplinary research, study, dialogue, reflection, and action that is supported by a broad disciplinary base, drawing on all of the social sciences and courses in the arts and humanities, sciences, education, and business. Through multi- and interdisciplinary study and practice, students in peace studies prepare for graduate study and a wide variety of careers in policy analysis, government, nongovernmental organizations, journalism, teaching, law, and business.

**Peace and Conflict Studies Student Learning Outcomes**
- Acquire a complex understanding of the nature and origins of violence, its dynamics, and different manifestations and modes of expression
- Better understand why conflict occurs, when and how conflicts become violent, and constructive methods of approaching and processing distinct types of conflicts that occur along a continuum from interpersonal to global settings
- Critically evaluate and devise strategies for peace through reflection on ethical, religious, philosophical, and cultural approaches to peace, the work of leading thinkers and activists in the field, and public policy
- Develop knowledge, analytical skills, and practical training through analysis of theories and theoretical models, case studies, language and value systems, and historical precedents and trends; service learning: practical training in conflict mediation skills; selected internships; and study-abroad experiences.

**Degree Programs**
- Peace and Conflict Studies (BA)
- Minor in Peace and Conflict Studies

**Requirements for the Major**
The major consists of 36 hours of courses, including six hours of internship or service learning. The following courses (21 hours) are required:
- PACS/PO302, Introduction to Peace and Conflict Studies
- PACS/PO220, Community Mediation
- PACS/PO322, International Conflict and Peace Building
- One theory or methods class in a relevant discipline (consult with PACS advisor)*
- One 400-level class or thesis (consult with PACS advisor)**
- Internship (6 hours): Internship requirements are fulfilled at locations in Indianapolis, such as Exodus Refugee Center, Peace Learning Center, the Immigrant Welcome Center, Earth Charter Indiana, the Neighborhood Christian Legal Clinic, or the Julian Center; or through SP3208, Service Learning in Spanish (up to 3 hours). Students may also fulfill this requirement through Washington, DC, semester internships or as a component of study abroad.

* Students may fulfill this requirement with a research methods or theory class in, for example, political science, sociology, anthropology, or rhetorical criticism.

** Students may opt to take the PO490 Senior Seminar as their capstone course or another 400-level seminar class in anthropology or international studies that addresses issues of conflict, peace, and justice.

Fifteen hours of electives are required, at least 12 of which must be taken at the 300 level or above; three hours may be taken at the 200 level. Elective options are listed below and in the schedule of classes each semester. Relevant courses taken during study abroad may be counted toward the major with permission of the program director.
Requirements for the Minor

The minor consists of 18 hours of courses, including the following required courses (12 hours):

- PACS/PO102, Introduction to Peace Studies
- One of either PACS/PO220, Community Mediation, or PACS/PO222, International Conflict and Peacebuilding
- Internship (see above, Requirements for the Major, about locations and options, which are equivalent to the major)
- PACS/PO490, Senior Seminar: Special Topics in Peace Studies (such as Cultures of Peace in Latin America; Youth, Violence, and Peace; War in Iraq)

Six hours of electives are required. Elective options are listed below and in the schedule of classes each semester. Relevant courses taken during study abroad may be counted toward the minor with permission of the program director.

Electives

Examples of courses students have taken for elective credit in the past include the following:

- History and Anthropology
  - AN320, Gender and Sexuality in Globalization
  - AN326, Youth Conflict, Global Cinema
  - AN345, Conflict Resolution through Arts
  - AN368, Coming of Age in the Middle East
  - AN580, Selected Topics: Trespassing: An Anthropology of Our Segmented Lives
  - HST205, Questions in History: The Great War, 1914–1918
  - HST305, Topics in History: The Cinema of War
  - HST305, Topics in History: 1968
  - HST327, History of Human Rights
  - HST335, The Civil War
  - HST338, The Era of Jim and Jane Crow
  - HST333, The American Empire
  - HST395, War and Peace in the Middle Ages
  - HST401, Seminar in History: Radical Histories, Radical Politics

- Modern Languages, Literatures, and Cultures
  - SP320S, Service Learning in Spanish

- Philosophy, Religion, and Classics
  - RL354, Islam: Religion, Culture, Society
  - RL363, Religion, Politics, and Conflict in South Asia
  - RL391, RL392, Seminar on Religion and the World
  - PL364, Ethics and International Relations

- Political Science
  - PO441, Introduction to International Politics
  - PO220, Community Mediation
  - PO230, Activism
  - PO322, International Conflict and Peace Building
  - PO340, The Earth Charter
  - PO350, African Politics
  - PO351, The Politics of Gender and Sexuality in Africa
  - PO355, U.S. Foreign Policy
  - PO356, Israel-Palestine Conflict
  - PO357, Youth and Conflict
  - PO360, Political Regimes in Latin America
  - PO362, Popular Participation in Latin America
  - PO372, Role of Protest in U.S. Politics
  - PO380, Topics in Political Science: Understanding Conflict—Northern Ireland
  - PO380, Topics in Political Science: Environmental Justice
  - PO380, Topics in Political Science: Humanitarianism—Theory, Politics

- Sociology and Criminology
  - SO321, Crime and Society
  - SO339, Violence, Media, and Culture
  - SO349, Social Movements
  - SO355, International Crime

- Communications
  - CCM354, Gender and Communication
  - JR417, International Communication
  - JR418, Gender and Media: Global Views
  - ORG233, Interpersonal Communication

- Other
  - FL390, Seminar: Fall of the Wall
  - GWS201/SW232—GWS, Intersections of Identity

Peace and Conflict Studies Courses

PACS401, Student Apprenticeship: Students work with faculty mentors on their teaching or their research. In teaching apprenticeships, students work with the professor in the development and discussion of the classroom experience. In research apprenticeships, students work with a faculty mentor on his or her current research. Prerequisites: Two PACS courses, submission of an application, and permission of the PACS program director. (U)(3) Fall, spring, & summer

PACS403, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to peace and conflict studies. Prerequisite: Permission of the PACS director. (U)(3) Fall, spring, & summer

PACS406, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to peace and conflict studies. Prerequisite: Permission of the PACS director. (U)(6) Fall, spring, & summer

Why Study Classics?
The culture, history, and literature of ancient Greece and Rome have long captivated the imagination of people throughout history and across the globe, from the Renaissance to the founding fathers of America, to modern writers from the Caribbean. We continue to live in a world of classical roots, whether it be the Athenian roots of democracy or the Roman origins of our republic, the Greek love for the beauty of athletics, or an enthusiasm for theatre that moved from Greece to Rome to Shakespeare and beyond. The Greeks and the Romans helped articulate the liberal arts that are at the heart of a Butler education. As we engage with the thinking and the art of the ancients, we aim to develop an understanding, enjoyment, and critical appreciation of some abiding principles of our world. We enter into dialogue with minds of the past in order to understand ourselves better now. Studying the Greeks and Romans, we become part of our larger family over time. We enrich our minds and our imaginations, and we sharpen our skills for work and life today.

Why Study Classics at Butler?
Intimate and vibrant learning community: Students in the Classics Program at Butler have the opportunity to work closely with a small but dedicated faculty. Smaller classes give students a greater opportunity to engage directly with faculty and with each other. As part of a smaller major, students develop a stronger sense of being part of a community of thinkers engaging in a subject they are passionate about.

Building on past knowledge: Our program recognizes the quality of work many students have done before arriving on our campus. Students placing into the second or third year of Latin and completing at least six hours of study in Latin are eligible for 3–9 advanced placement credit hours, which may count toward the major or the minor.

Real engagement with the ancient world: Students are encouraged to immerse themselves in the environments that inspired the ancient Greeks and Romans. Our program offers the opportunity to study the culture and literature of the Romans while traveling to important sites in Rome and Italy, or to participate in an archaeological field school in Greece. Our program is also supportive of students who wish to study abroad in programs in Greece and Italy specifically focused around classics.

Practical experience: Our students are encouraged to take advantage of opportunities to work with faculty on research of their own, whether in the form of a Butler Summer Institute project or a senior thesis. Students who have done quality research have presented their work at undergraduate conferences and regional classics conferences.
Making your education your own: Thanks to generous support from the Georgia Watkins Fund, our program provides funds to help students participate in archaeological digs, select summer study programs, or conferences in classics. Grants are awarded on a competitive basis.

Embracing the liberal arts: Since the field of classics embraces a wide variety of approaches to the study of the ancient Greeks and Romans, our program encourages students who wish to relate their interest in classics with work in other disciplines. Our students often take courses in English, history, philosophy, religion, political science, and the modern languages.

Classics Student Learning Outcomes
Students majoring in classics are expected to gain factual knowledge about key figures, historical events, and concepts from Greek and Roman antiquity. They will interpret and analyze significant works from antiquity, and at the same time gain a better understanding of cultural diversity by comparing current values and practices to those of the Greeks and Romans. They will become proficient in reading Latin or Ancient Greek helps in the understanding of modern languages.

Degree Programs
• Major in Classics—Ancient Languages (BA)
• Major in Classics—Greek and Roman Culture (BA)
• Minor in Classics

Requirements for the Ancient Languages Major
A minimum of 33 hours comprising the following:
• 24 hours of language courses, including a minimum of 6 hours at the 300 level, and a minimum of 6 hours in each of the languages:
  o GK101, GK102, Elementary Ancient Greek I, II
  o GK203, GK204, Intermediate Ancient Greek I, II
  o GK301, Advanced Ancient Greek
  o GK360, Topics in Greek
  o LT101, LT102, Elementary Latin I, II
  o LT203, LT204, Intermediate Latin I, II
  o LT301, Advanced Latin
  o LT317, Latin Prose Composition
  o LT360, Topics in Latin
• 3 hours of Texts and Ideas from either of the following:
  o TI200-CLA, Roman Perspectives
  o TI201-CLA, Ancient Greek Perspectives
• 6 hours of 300-level courses from the following:
  o CLA300, Study Tour of Greece (application required)
  o CLA301, Epic Poetry
  o CLA302, Lyric Poetry/Love Poetry
  o CLA303, Drama on the Ancient Stage
  o CLA304, History of Ancient Philosophy
  o CLA322, The Art & Architecture of Greece and Rome
  o CLA323, Women in Antiquity
  o CLA360, Topics in Classical Studies

Requirements for the Greek and Roman Culture Major
A minimum of 30 hours comprising the following:
• 6 hours in Latin or Greek language courses (see languages track)
• 6 hours of Texts and Ideas from both the following:
  o TI200-CLA, Roman Perspectives
  o TI201-CLA, Ancient Greek Perspectives
• 6 hours of 300-level courses from the following:
• CLA300, Study Tour of Greece (application required)
  o CLA301, Epic Poetry
  o CLA302, Lyric Poetry/Love Poetry
  o CLA303, Drama on the Ancient Stage
  o CLA304, History of Ancient Philosophy
  o CLA322, The Art & Architecture of Greece and Rome
  o CLA323, Women in Antiquity
  o CLA360, Topics in Classical Studies
  o GK301, Advanced Ancient Greek
  o GK360, Topics in Greek
  o LT301, Advanced Latin
  o LT317, Latin Prose Composition
  o LT360, Topics in Latin
• 3 hours of 300-level courses outside of classics with significant focus on the ancient world. In addition to the following, students may petition classics faculty to count other courses:
  o H326, Sex, Gender, Love, & Friendship in the Classical World
CLA402, Independent Study: Individual study of a specific topic in classics that does not involve the reading of Latin or Greek.
CLA401, Independent Study: Individual study of a specific topic in classics that does not involve the reading of Latin or Greek.
CLA360, Topics in Classics: In-depth study of special topics not covered in regular courses. (U/G)(3) Occasionally
CLA323, Women in Antiquity: This course introduces students to primary source material (literary, documentary, and material) that sheds light on the lives of women in ancient Greece and Rome. (U/G)(3) Occasionally
CLA324, Law and Orator: A Study of Ancient Law through Legal Speeches: By examining actual court speeches from ancient Athens and Rome, including famous trials such as those of Socrates, the infamous courtesan Neaira, and the corrupt governor Verres, students will explore how the study of law enables us to think about the values, assumptions, and even prejudices of societies. The course will ask students to think about how society deals with a variety of legal statuses, including citizen vs. non-citizen, age, and gender. Students will also engage with the question of the role of rhetoric in the legal process. In this course, students will engage in a variety of speaking exercises designed to understand better the mindset of ancient people in their engagement with their respective legal systems. (U/G)(3) Occasionally
CLA360, Topics in Classics: In-depth study of special topics not covered in regular courses. (U)(3) Fall & spring
CLA400, Independent Study: Individual study of a specific topic in classics that does not involve the reading of Latin or Greek texts. (U)(1) Occasionally
CLA401, Independent Study: Individual study of a specific topic in classics that does not involve the reading of Latin or Greek texts. (U)(2) Occasionally
CLA402, Independent Study: Individual study of a specific topic in classics that does not involve the reading of Latin or Greek texts. (U)(3) Occasionally

Requirements for the Minor

A minimum of 18 hours combined of classics, Greek, and/or Latin. A minimum of two 300-level courses. Note: It is recommended that, at a minimum, students learn the beginning level of either Greek or Latin. If they continue with two courses at the 200 level or above, these courses will count both toward their minor and toward fulfilling the foreign language requirement for a liberal arts degree.

Core Courses Offered by Classics

PCA262-CLA, Greek Art and Myth: Art illuminates myth; myth makes sense of art. Students will acquire a sense of the major periods of Western art; will consider artistic questions large (is art subjective? is there a proper subject matter of art?) and small (what is contrapposto?); will study in some depth about 60 artistic images, mosty Greek; and will become acquainted with a set of Greek myths. The course will include a museum visit, a skit, and a creative art project. (U)(3) Fall & spring
PWB170-CLA, Walking the Ruins: Unlike the sprawling cities of the Midwest, ancient cities developed organically around people getting from point A to point B by foot. Whether in a bustling metropolis like Rome or Athens or a small working-class community like Herculaneum, one sees how traveling by foot shaped the development of neighborhoods. Navigating the meandering streets of Pompeii by foot sheds light on the experience of those who sought refuge from the famed eruption of Mount Vesuvius. This course seeks to help students reconnect with a basic mode of transportation with vast lifelong benefits for health and well-being. (U)(1) Summer
T1200-CLA, Roman Perspectives: This course will examine civic engagement in the Roman world, both as a pagan and Christian capital for the West. We will undertake this investigation by looking at a variety of original sources translated into English. As we examine the texts of these authors, we will also have the opportunity to think about how the ideas of the ancient Romans have influenced cultures from Britain, France, and Spain in the West to the shores of North Africa to the civilizations of the Eastern Mediterranean. (U)(3) Fall
T1201-CLA, Ancient Greek Perspectives: An examination of areas of ancient Greek culture. Sources include texts of poetry, history, drama, law, medicine, and philosophy, as well as works of art. Themes will vary depending on the professor. Possible themes: deep thinking and free thinking, participating in democracy, gender roles, warfare, and empire. (U)(3) Spring

Classics Courses

CLA261, Etymology: Word Power for Test Takers: Course will focus on the Greek and Latin roots that are the basis for much of the scientific, technical, and professional communities. Recommended for students intending to take the MCAT, LSAT, GRE, or GMAT. (U)(3) Summer
CLA300, Study Tour of Classical Greece: Tour of the major archaeological sites and museums of the Bronze Age and Classical Greece. (U/G)(2–6) Summer
CLA301, Epic Poetry: An in-depth study of the ancient epic. Course will focus on Homer's Iliad, Homer's Odyssey, or Virgil's Aeneid. Other material will be brought in as background. (U)(3) Spring
CLA303, Drama on the Ancient Stage: Course may focus on Greek or Roman tragedy or comedy. Performance may be part of the course. (U)(3) Fall
CLA323, Women in Antiquity: This course introduces students to primary source material (literary, documentary, and material) that sheds light on the lives of women in ancient Greece and Rome, methods of analyzing this data, and various debates in this field of study. We may also discuss issues of gender and sexuality, minorities, and non-elites. (U/G)(3) Occasionally
CLA324, Law and Orator: A Study of Ancient Law through Legal Speeches: By examining actual court speeches from ancient Athens and Rome, including famous trials such as those of Socrates, the infamous courtesan Neaira, and the corrupt governor Verres, students will explore how the study of law enables us to think about the values, assumptions, and even prejudices of societies. The course will ask students to think about how society deals with a variety of legal statuses, including citizen vs. non-citizen, age, and gender. Students will also engage with the question of the role of rhetoric in the legal process. In this course, students will engage in a variety of speaking exercises designed to understand better the mindset of ancient people in their engagement with their respective legal systems. (U/G)(3) Occasionally
CLA360, Topics in Classics: In-depth study of special topics not covered in regular courses. (U)(3) Fall & spring
CLA400, Independent Study: Individual study of a specific topic in classics that does not involve the reading of Latin or Greek texts. (U)(1) Occasionally
CLA401, Independent Study: Individual study of a specific topic in classics that does not involve the reading of Latin or Greek texts. (U)(2) Occasionally
CLA402, Independent Study: Individual study of a specific topic in classics that does not involve the reading of Latin or Greek texts. (U)(3) Occasionally
Foreign Language Courses

GK101, Elementary Greek 1: Introductory course that prepares students to read the New Testament and the works of Homer, Sophocles, Plato, and others. (U)(4) Fall

GK102, Elementary Greek 2: Introductory course that prepares students to read the New Testament and the works of Homer, Sophocles, Plato, and others. Prerequisite: GK101. (U)(4) Spring

GK203, Intermediate Ancient Greek 1: A course at the intermediate level, with emphasis on vocabulary acquisition. Material will be chosen for accessibility. Readings may include Euripides' Alcestis, Plato's Crito, selections from Homer's Iliad or Herodotus' History or Lysias' speeches, or selections from the New Testament in Koine Greek. Prerequisites: GK101 and GK102 or placement at the 200 level. (U)(3) Occasionally

GK204, Intermediate Ancient Greek 2: A course at the intermediate level, with emphasis on vocabulary acquisition. Material will be chosen for accessibility. Readings may include Euripides' Alcestis, Plato's Crito, selections from Homer's Iliad or Herodotus' History or Lysias' speeches, or selections from the New Testament in Koine Greek. Prerequisites: GK101 and GK102 or placement at the 200 level. (U)(3) Occasionally

GK301, Advanced Ancient Greek: A course at the advanced level with a vocabulary stretch and arcane points of grammar. Readings may include tragedies of Aeschylus, Sophocles, or Euripides; Plato's Apology, Symposium, Phaedrus, or selections from the Republic; or Thucydides' Peloponnesian War. This course is repeatable for credit. The author will change each semester. Prerequisites: GK203 and GK204, placement into the 300 level, or permission of the instructor. (U/G)(3) Fall, spring, & summer

GK360, Topics in Greek: In-depth study of works not covered in earlier courses. This course is repeatable for credit. Prerequisites: GK203 and GK204, placement into the 300 level, or permission of the instructor. (U/G)(3) Fall, spring, & summer

GK400, Independent Study: Directed reading in Greek. Consult head of department before registering. (U/G)(1) Fall, spring, & summer

GK401, Independent Study: Directed reading in Greek. Consult head of department before registering. (U/G)(2) Fall, spring, & summer

GK402, Independent Study: Directed reading in Greek. Consult head of department before registering. (U/G)(3) Fall, spring, & summer

GK499, Honors Thesis: (U)(3) Occasionally

LT101, Elementary Latin 1: An introductory course that prepares the student to read the Latin prose and poetry of Virgil, Homer, Livy, Ovid, and others. (U)(4) Fall

LT102, Elementary Latin 2: An introductory course that prepares the student to read the Latin prose and poetry of Virgil, Homer, Livy, Ovid, and others. Prerequisite: LT101. (U)(4) Spring

LT203, Intermediate Latin 1: A course at the intermediate level, with emphasis on vocabulary acquisition. Material will be chosen for accessibility. Readings may include Cicero's orations, Virgil's Aeneid, or Pliny's Letters. Prerequisites: LT101 and LT102 or placement at the 200 level. (U)(3) Fall

LT204, Intermediate Latin 2: A course at the intermediate level, with emphasis on vocabulary acquisition. Material will be chosen for accessibility. Readings may include Cicero's orations, Virgil's Aeneid, or Pliny's Letters. Prerequisites: LT101 and LT102 or placement at the 200 level. (U)(3) Spring

LT301, Advanced Latin: A course at the advanced level with a vocabulary stretch and arcane points of grammar. Readings may include Ovid's Metamorphoses, lyric poetry by Catullus, Propertius, Tibullus, and Ovid; satire by Horace or Juvenal; or the comedies of Plautus and Terence. Prerequisites: LT203 and LT204, placement into the 300 level, or permission of the instructor. (U/G)(3) Fall, spring, & summer

LT360, Topics in Latin: In-depth study of works not covered in earlier courses. This course is repeatable for credit. Prerequisites: LT203 and LT204, placement into the 300 level, or permission of the instructor. (U/G)(3) Fall, spring, & summer

LT400, Independent Study: Directed reading in Latin. Consult head of department before registering. (U/G)(1) Fall, spring, & summer

LT401, Independent Study: Directed reading in Latin. Consult head of department before registering. (U/G)(2) Fall, spring, & summer

LT402, Independent Study: Directed reading in Latin. Consult head of department before registering. (U/G)(3) Fall, spring, & summer

LT499, Honors Thesis: (U)(3) Occasionally

Why Study Philosophy?

Philosophy can help you hone some very practical skills. As a philosopher, you learn to distinguish between sound reasoning and empty rhetoric. Philosophy majors learn how to communicate clearly both in speech and in writing. Philosophy helps you to think carefully about ethical decisions. Collectively, these are skills that will help you in future graduate and professional education. They will also help you to live your life well, and what could be a more practical skill than that?

Philosophy majors regularly outscore other majors on standardized tests such as the LSAT and MCAT, because they do equally well on both the verbal and analytic/quantitative sections. Philosophy is the only liberal arts major that specifically teaches both verbal and logic skills. In addition, the most basic assumptions in law, the sciences, and other disciplines are studied not in those disciplines but in the philosophy of law, philosophy of science, etc.

Why Study Philosophy at Butler?

Our philosophy classes are fairly small, which further encourages students to participate in class discussion and allows the faculty to devote considerable attention to each of our students. The enrollment limit in our introductory classes is generally 25, and the number of students enrolled in our upper-level
classes is between 10 and 20. Professors teach all courses; there are no teaching assistants at Butler. Many students engage in independent study and write honors theses under the supervision of professors. Additional learning opportunities include the Philosophy Club, which meets regularly for discussion, film viewing, speakers, and social activities. The reasoning skills of our majors are valued by graduate and professional schools as well as by employers. For example, a growing number of our majors have been accepted into reputable medical schools and prestigious law schools.

**Philosophy Student Learning Outcomes**

Students majoring in philosophy at Butler University will learn about a wide range of philosophical ideas and outlooks, and will become acquainted with some of the most influential thinkers in Western philosophy. Besides exploring fundamental questions pertaining to knowledge and reality, students will be able to discern and respond to philosophical issues that arise in areas as diverse as religion, science, politics, the arts, and the law. While critical thinking is encouraged and emphasized throughout the liberal arts, it is especially at home in philosophy; our majors are able to read and write clearly, to critically evaluate evidence and arguments, and to determine the quality of their sources of information.

Philosophical training helps deepen our students’ reflection on issues in the here and now. Our professors encourage engagement in the community, including internships or research projects in which students’ work can inform and be informed by their philosophical study.

More generally, philosophy majors’ ability to examine and question their own and others’ values and convictions puts them in a position to make wise choices that will affect the quality and course of their lives and those of the people with whom they interact.

**Degree Programs**

- Major in Philosophy (BA)
- Combined Major in Philosophy and Religion (BA)
- Combined Major in Philosophy and Psychology (BA)
- Minor in Ethics
- Minor in Philosophy

**Requirements for the Major**

- One course in logic: PL310, Logic, or any course so designated
- Two courses in a history sequence:
  - PL311, History of Ancient Philosophy
  - PL313, History of Modern Philosophy
- One course in analytic philosophy:
  - PL320, Theory of Knowledge
  - PL323, Introduction to Analytic Philosophy
  - PL343, Philosophy of Science
  - PL346, Philosophy of Mind
  - Or any course designated analytic philosophy
- One course in value theory (normative philosophy):
  - PL344, Philosophy of Law
  - PL345, Contemporary Social and Political Philosophy
  - PL360, Ethics
  - PL364, Ethics & International Relations
  - Or any course designated value theory
- Two offerings (six hours) of PL410, Seminar in Philosophy. Students may request a substitute for three hours of this seminar requirement if PL410 is offered when they are studying abroad. Students may also substitute PL499, Honors Thesis, for three hours of PL410.
- Twelve hours of additional philosophy courses will be taken, for a total of 33 hours. No more than 12 hours of 100- or 200-level courses may be applied to the 33 hours required for the major.

**Requirements for the Combined Philosophy and Religion Major**

The major requires 42 hours. Detailed requirements are posted at [www.butler.edu/philosophy-religion-classics](http://www.butler.edu/philosophy-religion-classics) or can be obtained at the departmental office.

**Requirements for the Combined Philosophy and Psychology Major**

The major requires 51 hours. Detailed requirements are posted at [www.butler.edu/philosophy-religion-classics](http://www.butler.edu/philosophy-religion-classics) or can be obtained at the departmental office.

**Requirements for the Minor**

The minor requires 18 hours in philosophy, which must include the philosophy seminar (PL410) plus six additional hours at the 300 or 400 level. Minors will be strongly advised to create a suitable package of courses in consultation with a philosophy professor appointed by the chair.

**Requirements for the Ethics Minor**

The minor requires 18 hours, 12 of which should be philosophy courses and nine of which should be at the 300 or 400 level. Students are advised to create thematic unity in their course selection, in consultation with the program director or other faculty connected to the minor. Specifically:

- A foundational philosophy course in ethics covering basic moral theories and concepts (3 hours)
- Two additional philosophy courses to be chosen from a wide variety of courses in normative philosophy (6 hours)
- A course in applied ethics showing how moral deliberation is pivotal to some specific profession or field of human activity (3 hours)
- Two electives, to be selected from philosophy courses with an ethical focus, or courses with an ethical focus from other disciplines (6 hours)
The program director may approve additional courses as electives, on a semester-by-semester basis, including some courses in political science. No more than six credit hours of the ethics minor may be “double counted” toward any other minor or major. For details, contact program director Harry van der Linden or visit Error! Hyperlink reference not valid.

Core Courses Offered by Philosophy

AR231-PL, Principles of Reasoning: A survey of principles of reasoning used in a variety of disciplines, including philosophy, mathematics, the natural and social sciences, and law. Attention also will be paid to how to recognize and avoid fallacies. (U/G)(3) Fall & spring

TL240-PL, Ethics of War and Peace: This course will focus on two normative approaches to war, just-war theory and pacifism. We will first examine how soldiers learn to kill and how killing impacts them psychologically and morally. Next, we will explore just-war principles for justly starting and executing war on the basis of case studies, such as the terror bombing in the Second World War, the Gulf War, the Kosovo intervention, the Afghanistan war, and the second Iraq War. Special attention will be paid to humanitarian intervention, terrorism, and the doctrine of preventive war. During the final weeks of the semester we will discuss the philosophy of nonviolence and antiterror pacifism. (U/G)(3) Occasionally

TL241-PL, Classics of Social and Political Thought: A critical study of major texts in the history of Western social and political thought, such as Plato's Republic, Aristotle's Politics, Machiavelli's The Prince, Hobbes' Leviathan, and Marx's Communist Manifesto. Attention will be given to both the historical and contemporary relevance of the texts. (U)(3) Fall & spring

TL242-PL, Marginalized in America: Gender at the Intersection of Race and Class: This course introduces the student to the philosophical method and skills of thinking out problems and issues that confront women in contemporary American society, viewed from the intersection of gender, race, and class. (U/G)(3) Occasionally

TL243-PL, Knowledge and Reality: Fundamental philosophical questions about knowledge and reality will be studied through the analysis of classical and contemporary texts. Topics may include skepticism, the relationship between faith and reason, the nature of mind, free will, the nature and existence of the external world, and the nature and existence of God. (U/G)(3) Fall & spring

TL244-PL, Ethics, the Good Life, and Society: Fundamental philosophical questions about right conduct, virtues and vices, the good life, and social policy will be examined on the basis of classical and contemporary texts. Topics include issues of personal and social ethics, such as forgiveness, tolerance and hate speech, abortion, animal rights, and world poverty. Theories of justice, human rights, and meta-ethical topics may also be covered. (U/G)(3) Fall & spring

Philosophy Courses

PL245, Classics of Social and Political Philosophy: A critical study of major texts in the history of Western social and political thought, such as Plato's Republic, Aristotle's Politics, Machiavelli's The Prince, Hobbes' Leviathan, and Marx's Communist Manifesto. Attention will be given to both the historical and contemporary relevance of the texts. (U/G)(3) Occasionally

PL310, Symbolic Logic: An introduction to symbolic logic. Topics will include systems for proving logical propositions, the interpretation of symbolic systems, and the relationship between symbolic and natural languages. Consideration will be given to the applications of symbolic logic to problems in philosophy, mathematics, computer science, and the natural sciences. (U/G)(3) Occasionally

PL311, History of Ancient Philosophy: A study of important figures of ancient philosophy, with particular emphasis on Plato and Aristotle. Prerequisite: One philosophy course or permission of the instructor. (U/G)(3) Occasionally

PL313, History of Modern Philosophy: A study of important figures of modern philosophy, including Descartes, Hume, and Kant. Prerequisite: One philosophy course or permission of the instructor. (U/G)(3) Occasionally

PL339, Philosophy and Literature: This course will explore philosophical problems (ethical dilemmas, self and society, the nature of time, the idea of God, etc.) as they are formulated or suggested in texts belonging to various literary genres. A segment of this course will also analyze the nature of literature itself from a philosophical perspective. (U/G)(3) Occasionally

PL340, Philosophy of Art: A study of some of the major topics in the philosophy of art, including the essential nature of artistic representation, the problems entailed by aesthetic perception, and the relation between interpretation and the artist's intention. (U/G)(3) Occasionally

PL342, Philosophy of Religion: A study of the logic and function of religious language with special reference to the problem of religious knowledge and the validity of religious claims. Prerequisite: One philosophy course or sophomore standing. (U/G)(3) Occasionally

PL343, Philosophy of Science: An analysis of some philosophical questions about the natural sciences, including the problem of distinguishing science from pseudoscience, the nature of scientific explanation, the structure and confirmation of scientific theories, scientific revolutions, and the relationship between science and reality. Prerequisite: One philosophy course or permission of the instructor. (U/G)(3) Occasionally

PL344, Philosophy of Law: Consideration of general theories of law and justice; nature of judicial reasoning; topics such as relation of law and morality, punishment, legal rights, and legal liabilities. Prerequisite: One philosophy course or sophomore standing. (U/G)(3) Occasionally

PL345, Contemporary Social and Political Philosophy: A critical study of major contemporary social and political philosophies, such as welfare liberalism, libertarianism, communitarianism, democratic socialism, and feminism. Topics include economic justice within the state, global justice, rights, equality, the family, and workplace democracy. Prerequisite: One philosophy course or permission of the instructor. (U/G)(3) Occasionally

PL346, Philosophy of Mind: A study of philosophical questions concerning the mind: the nature of mind, the mind-body problem, the problem of free will, and methodological approaches to the study of mind. Discussion of the power and limits of contemporary cognitive science. Prerequisite: One philosophy course or permission of the instructor. (U/G)(3) Occasionally
PL347, Existentialism: A study of existentialism, one of the most important philosophical movements of the 20th century, focusing on the philosophical essays, novels, and plays of Jean-Paul Sartre, Albert Camus, and Simone de Beauvoir. Prerequisite: One philosophy course or permission of the instructor. (U/G)(3) Occasionally

PL348, Philosophy of Feminism: A study of cultural values, social practices, and policies that shape women's lives, and the philosophical responses to these. Topics include the workplace, the legal system, pornography, art and popular culture, abortion, reproductive rights, sexual practice, alternative families, militarism, and ecofeminism. Prerequisite: One philosophy course or one gender, women's, and sexuality studies course. (U/G)(3) Occasionally

PL349, Philosophy of Biology: A study of philosophical problems in biology. The course explores both theoretical problems within biology, like the evolution of altruism and problems of taxonomy, and philosophical problems that are influenced by biological theory, including the nature of morality and the status of religious belief. Prerequisite: BI201 or permission of the instructor. (U/G)(3) Occasionally

PL360, Ethics: An examination of the fundamental concepts and problems of morality, facts and values, duty and self-interest, and the logic and justification of moral judgments. Attention to major figures in the history of ethical theory such as Aristotle, Butler, Kant, and Mill. Prerequisite: One philosophy course or sophomore standing. (U/G)(3) Annually, term varies

PL363, Biomedical Ethics: A study of fundamental ethical problems in medical practice, health policy, and biomedical research. Topics include patients' rights and professional responsibilities, abortion, physician-assisted suicide, surrogate motherhood, justice in the allocation of medical resources, human genetics, and experimentation on human subjects and animals. Prerequisite: One philosophy course or sophomore standing. (U/G)(3) Annually, term varies

PL364, Ethics and International Relations: A study of foundational and contemporary writings on the ethics of international relations. Key concepts and issues include realism, nationalism, cosmopolitanism, sovereignty, global poverty, immigration, humanitarian intervention, and global warming. Prerequisites: Sophomore standing and IS101 or one PL course. (U)(3) Occasionally

PL375, Topics in Philosophy: Treats a specific subject area of philosophy that is not the major subject of a regularly scheduled course. (U/G)(3) Occasionally

PL380, Topics of Ethics: Treats a topic in normative philosophy that is not the major subject of a regularly scheduled course. (U)(3) Occasionally

PL401, Independent Study: Individual study of a specific topic in philosophy under supervision of a member of the department. Assigned readings, papers, and tutorials. Obtain permission from department chair before enrolling. (U/G)(1) Occasionally

PL402, Independent Study: Individual study of a specific topic in philosophy under supervision of a member of the department. Assigned readings, papers, and tutorials. Obtain permission from department chair before enrolling. (U/G)(2) Occasionally

PL403, Independent Study: Individual study of a specific topic in philosophy under supervision of a member of the department. Assigned readings, papers, and tutorials. Obtain permission from department chair before enrolling. (U/G)(3) Occasionally

PL405, Internship in Philosophy: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to their area of study and their career goals. Contact department chair if interested. Open to junior and senior philosophy majors. (U)(3) Occasionally

PL406, Internship in Philosophy: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to their area of study and their career goals. Contact department chair if interested. Open to junior and senior philosophy majors. (U)(6) Occasionally

PL407, Internship in Ethics: Offers students the opportunity for supervised work experience relevant to the study of application of normative philosophy. Open to minors in ethics and philosophy majors. (U)(3) Occasionally

PL410, Seminar in Philosophy: Advanced course in a major philosophical figure or issue. Non-majors need permission of the instructor. May be repeated for credit. Prerequisites: Open to majors or minors in PL who have completed two philosophy courses and have junior standing, or with permission of the instructor. (U/G)(3) Spring

**Why Study Religion?**

For some, the academic study of religion is a way of exploring their own commitment to a particular religious tradition. For others, it is a way of trying to learn about and understand the perspectives, values, and traditions of others. Whatever the student's motivation, the religion major offers the opportunity to engage in a critical and sympathetic study of various religious traditions; to study religious literatures, practices, and beliefs; and to investigate general questions regarding the nature of religion and the scholarly study thereof. A major in religion is a liberal arts major, and as such, exposes students to a wide spectrum of subjects and skills in order to produce broadly educated, sophisticated, and flexible leaders. What can one do with a religion major? Just about anything. Recent graduates of the program have gone on to study religion, law, public policy, medicine, and creative writing at the graduate level. Others have entered the nonprofit sector or religious ministries. Still others have found employment in a range of professions, like teaching, acting, and politics.

**Why Study Religion at Butler?**

- Vocational discernment: Butler's religion program offers a close mentoring process designed—through careful advising, experiential learning, and internship opportunities, and in collaboration with Butler's Center for Faith and Vocation—to connect theory and practice and help students discern their vocational direction, integrating who they are (in terms of the values they hold most dear) and what they want to do.
- A big “back yard.” Within a few minutes of the campus are numerous churches, synagogues, mosques, temples, and meditation centers representing all of the world's largest religious traditions. Butler's urban location therefore allows students to explore both traditional and emerging American religious phenomena, and the ways in which these are increasingly intertwined with and inseparable from global religious trends. Butler religion majors also often study abroad, sometimes with support from departmental awards.
• Close contact with top-notch faculty: Butler’s religion program offers small classes and boasts an unparalleled faculty-to-student ratio. Students therefore get to work closely (whether in class, through independent studies, or as research assistants) with professors who are active and widely recognized scholars.
• Empathetic approach: Whereas religion programs in religiously affiliated colleges and universities sometimes teach religion from a specific doctrinal perspective, Butler’s religion major is designed to expose students more broadly to the world’s major religious traditions. This approach challenges students to hone their skills of critical thinking, develops the ability to appreciate multiple religious perspectives, and provides an excellent preparation for many professions, including for those who intend to enter seminary or graduate work in religious ministry.
• An education both sound and savvy: The religion program at Butler University grounds its students in the classically broad tradition of the liberal arts, while at the same time providing them with the skills that are most crucial in the digital age.

**Religion Student Learning Outcomes**

Students majoring in religion are expected to gain a basic core of factual knowledge about the world’s major religious traditions, acquire skills in critical thinking and textual analysis, develop the ability to identify and deploy credible sources of information (digital, print, or otherwise), cultivate understanding of and empathy for people of other faiths (in Indianapolis and beyond), and nurture a collaborative and civil disposition, that is, to work critically, openly, and with humility in the context of academic discussion and dispute.

**Degree Programs**

• Major in Religion (BA)
• Combined Major in Anthropology and Religion
• Combined Major in Philosophy and Religion (BA)
• Minor in Religion

**Requirements for the Major**

Majors must fulfill each of the following nine requirements. (Courses may fulfill more than one distribution requirement if they appear in more than one category below.)

• TL250-RL, Religions of the World
• Jewish and Christian Traditions (6 hours required from the list below):
  o RL307, The Historical Jesus
  o RL346, Heresy
  o RL347, History of Christianity
  o RL350, Topics in Judaism
  o RL366, Topics in Jewish and Christian Traditions
  o RL369, Topics in Religious Studies
  o RL370, Modern Religious Thought
  o RL372, Mysticism
  o RL379, The Problem of God
  o RL382, Theology from the Margins
  o RL387, Religious and Philosophical Explorations of the Problem of Evil
  o Any approved three-credit internship, field study, or study-abroad opportunity
• Islam and the Asian Faiths (6 hours required from the list below):
  o RL333, Buddhism: Past and Present
  o RL354, Islam: Religion, Culture, Society
  o RL358, Hinduism: Past and Present
  o RL363, Religion, Politics, and Conflict in South Asia
  o RL367, Topics in Islam/Asian Faiths
  o RL377, Religion, Gender, and the Goddess in Asia
  o Any approved three-credit internship, field study, or study-abroad opportunity
• Texts and Textual Interpretation (3 hours required from the list below):
  o TL250-RL, The Bible (formerly RL202)
  o RL213, Biblical Hebrew*
  o RL304, Psalms
  o RL308, Paul and the Early Church
  o RL309, The Gospel of John
  o RL375, Topics in Texts/Textual Interpretations
• RL391, RL392, Seminar on Religion and World Civilization (3 total hours)
• RL405, Internship (3 hours)
• RL381W, Theory and Method (3 hours)
• Majors must take additional religion courses to yield 33 total hours, including (not in addition to) credits for courses fulfilling distributional requirements.
• Oral Presentation—All majors will also give an oral presentation of some kind in their junior or senior year (e.g., URC, BSI, or a specially organized departmental presentation). Ask departmental faculty for details.

* Both RL213 and RL214 (Biblical Hebrew, second year) can count as elective religion credit, but only RL213 may be used to fulfill a distribution requirement. (RL214 can only be used as elective credit.)
Requirements for the Combined Philosophy and Religion Major

The major requires 42 hours. Detailed requirements are posted at www.butler.edu/philosophy-religion-classics or can be obtained at the departmental office.

Requirements for the Combined Anthropology and Religion Major

The major requires 45 hours. Detailed requirements are posted at www.butler.edu/philosophy-religion-classics or can be obtained at the departmental office.

Requirements for the Minor

The minor requires 18 hours in religion, 12 of which must be at the 300 or 400 level, and three of which must be RL 381W, Theory and Method in the Study of Religion. Minors should create a suitable package of courses in consultation with a religion professor appointed by the chair.

Core Courses Offered by Religion

PCA263-RL, The Bible and Music: This course explores the intersection of the Bible and music, focusing on musical settings of Biblical texts across a range of time periods and cultures, from synagogue and church chanting, through classical music, to jazz and rock. (U)(3) Fall

SW260-RL, Religions, Cults, and (In)Tolerance in America: A basic introduction to the religions and religious communities of Indianapolis, and an exploration of prominent issues and themes related to our city's (and our country's) increasing religious diversity. (U)(3) Occasionally

TL250-RL, Religions of the World: An introduction to the texts, practices, and ideas of the world's major religious traditions, including Hinduism, Buddhism, Confucianism, Taoism, Shintoism, Judaism, Christianity, Islam, and the indigenous traditions of Africa and the Americas. (U)(3) Fall & spring

TL251-RL, The Bible: Introduction to the content, historical context, methods of study, religious ideas, and cultural influence of the Jewish and Christian scriptures. (U)(3) Fall & spring

Religion Courses

RL304, The Book of Psalms: Study of the book of Psalms, the most frequently read and recited book of the Bible. Topics include the origin and composition of the Psalms in ancient Israel, the ethical and religious significance of the Psalms, and the impact of the Psalms on world literature and music. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL307, The Historical Jesus: A close look at Jesus of Nazareth focused on sources and methods of knowledge about Jesus as a historical figure. Attention will also be paid to historical and cultural context, and to beliefs about and depictions of Jesus in early Christian literature. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL308, Paul and the Early Church: The New Testament Epistles: Focus on the New Testament letters, especially of Paul, with attention to the emergence and growth of the Christian movement in the Graeco-Roman world from the death of Jesus to the middle of the 2nd century A.D. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL309, The Gospel of John: This course will study the Gospel of John both as literature and in relation to its historical setting. (U)(3) Occasionally

RL311, Book of Revelation: Studied against the backdrop of the Book of Revelation's ancient cultural, historical, and literary setting, plus its ongoing influence and the history of its interpretation. (U)(3) Occasionally

RL346, Heresy: This course focuses on the study of primary texts that didn't make it into the Bible, and in the process explores how various definitions of what is orthodox and what is heretical came about. In addition to the so-called Gnostic Gospels, students will also learn about a Gnostic group that has survived from the ancient world down to the present day. (U)(3) Occasionally

RL347, History of Christianity: Historical development of Christianity from the 1st century to the present. Special attention to selected topics such as Eastern Orthodox worship and icons, Benedictine monasticism, the Roman Papacy, Luther and the Protestant Reformation, African Christianity, and the challenges to Christian belief in modern times. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL350, Topics in Judaism: Study of some central area of Jewish studies such as introduction to Judaism, American Judaism, Jewish religious thought and philosophy, and Jewish-Christian relations. May be repeated with a different topic. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL353, Buddhism: Past and Present: Introduction to the basic concepts, philosophies, and practices of Buddhism in South Asia and East Asia from antiquity to the present. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL354, Islam: Religion, Culture, Society: An introduction to Islam: origins, sacred texts, world view, culture and society, history and expansion, and Islam in the modern world. Origins and sacred texts are emphasized; relative emphasis on other topics varies. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL358, Hinduism: Past and Present: This course will examine Hinduism's practices and beliefs as depicted in its foundational scriptures as well as in the lives of modern Hindus. Topics may include the following: meditation practices, Indian medicine, male and female saints, Hinduism as portrayed in literature/film, or Hinduism and modern South Asian politics. (U)(3) Occasionally

RL363, Religion, Politics, and Conflict in South Asia: Investigation of the interaction of South Asia's many religious communities, especially Hinduism, Islam, Christianity, Sikhism, and Buddhism, paying particular attention to how religious ideas, practices, and demographics have affected communal relations at various points in the subcontinent's history. The course will focus on moments of conflict and movements of peace. (U/G)(3) Occasionally
RL366, Topics in Jewish and Christian Traditions: Treats a specific subject area of Judaism or Christianity that is not the major subject of a regularly scheduled course. (U)(3) Occasionally

RL367, Topics in Islam/Asian Faiths: Treats a specific subject area of Islam or the Asian faiths that is not the major subject of a regularly scheduled course. (U)(3) Occasionally

RL368, Topics in Religion and Society: Treats a specific subject area of religion and society that is not the major subject of a regularly scheduled course. (U)(3) Occasionally

RL369, Topics in Religious Studies: Treats a specific subject area of religion that is not the major subject of a regularly scheduled course. (U)(3) Occasionally

RL370, Modern Religious Thought: A survey of important religious thinkers and theological issues of the 19th and 20th centuries (e.g., Buber, Tillich, Weil, liberation theology, feminism). Emphasis is on the Christian and Jewish traditions as they relate to earlier theological developments and to contemporary philosophical and cultural movements. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL371, Religion and Science: Surveys some main issues in the interaction between science and religion: a comparison of the tasks of scientific and theological research; models of interaction between science and religion; the Big Bang, evolution, and creation; and contemporary ideas of God. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL372, Mysticism: Study of the varieties of mysticism in world religion, with emphasis on Christian and Jewish mysticism. Readings drawn from the Bible, spiritual writings, autobiographies of mystics, letters, poems, and philosophical sources. Prerequisite: One religion course or sophomore standing. (U)(3) Occasionally

RL375, Topics in Texts/Textual Interpretations: Treats a topic related to religious scriptures, their history, and/or their interpretation. (U)(3) Occasionally

RL377, Religion, Gender, and the Goddess in Asia: A study at the intersection of religion and gender studies. Course will begin with a discussion of feminist and theoretical perspectives on religion, and will then apply the knowledge gained therein to various goddess-oriented communities, past and present, with a focus on Asia. (U)(3) Occasionally

RL378, Religion and Science Fiction: This course will explore and critically reflect on religious themes, motifs, concepts, and allusions in science fiction (including television and film as well as classic and more recent literature). Philosophical and ethical issues with a religious component will also be considered. (U)(3) Occasionally

RL379, The Problem of God: Perhaps no other topic has been discussed more passionately and contentiously in the recent history of philosophy and theology than God. Is there a God? If so, what or who is God? If not, what are the reasons for abandoning the idea of God? What sense does it make in the 21st century to speak meaningfully about God? What effects does faith or belief in God have on contemporary society, for good or for ill? In this course we will tackle the problem of God and ask questions about the existence of God, the nature of God, the limitations of human language and concepts in describing God, the implications of faith or belief in God, and future directions of the conversation. We will do so using a number of recent texts in philosophy and theology, including selections from process philosophers and theologians, feminist theologians, pantheists, the “New Atheists,” and radical theologians. (U)(3) Occasionally

RL381, Theory and Method in the Study of Religion: Introduction to theories and methods used in the academic study of religion with some attention to the history of the discipline. Readings in James, Weber, Durkheim, Otto, Eliade, Turner, Daly, Freud, Geertz, and others. Prerequisites: Two religion courses or junior standing. (U)(3) Occasionally

RL382, Theology from the Margins: This course explores several Christian theological movements that have, until recently, been marginalized voices within the Christian tradition. We will examine how a plurality of voices, especially those from the margins, enhances our understanding of the Christian tradition and its capacity to speak prophetically to issues of profound contemporary significance, both in Christian churches and in the wider world. We will pay special attention to such issues as gender, race, class, and sexual identity. (U)(3) Occasionally

RL387, Religious and Philosophical Explorations of the Problem of Evil: In this course we will consider the problem of evil from both a theoretical and practical perspective, asking questions about the nature and persistence of evil and about our duty to understand the conditions that give rise to the possibility of evil and to name and fight evil wherever we find it. We will do so with the aid of a broad range of sources, including biblical texts and works of philosophy, theology, and literature. (U)(3) Occasionally

RL391, Seminar on Religion and the World: Course is based on attendance at four public evening seminars and four Saturday morning workshops during the academic year. Theme varies annually. Students enrolled in RL391 are expected to take RL392 the following semester. (U)(1) Fall

RL392, Seminar on Religion and the World: Continuation of RL391. Course is based on attendance at four public evening seminars and four Saturday morning workshops during the academic year. Theme varies annually. Prerequisite: RL391 or instructor permission. (U)(2) Spring

RL397, Field Seminar Abroad: Provides an opportunity to observe and enter into dialogue with religious communities abroad. Each seminar consists of preparatory study, a trip of one week in the field, and an assessment process including a paper. (U)(1) Occasionally

RL398, Field Seminar Abroad: Provides an opportunity to observe and enter into dialogue with religious communities abroad. Each seminar consists of preparatory study, a trip of two to three weeks in the field, and an assessment process including a paper. (U)(2) Occasionally

RL399, Field Seminar Abroad: Provides an opportunity to observe and enter into dialogue with religious communities abroad. Each seminar consists of preparatory study, a trip of two to three weeks in the field, and an assessment process including a paper. (U/G)(3) Occasionally

RL401, Independent Study: Individual study of a specific topic in religion under supervision of a member of the department. Assigned readings, papers, and tutorials. Obtain permission from department chair before enrolling. (U/G)(1) Occasionally
RL402, Independent Study: Individual study of a specific topic in religion under supervision of a member of the department. Assigned readings, papers, and tutorials. Obtain permission from department chair before enrolling. (U/G)(2) Occasionally

RL403, Independent Study: Individual study of a specific topic in religion under supervision of a member of the department. Assigned readings, papers, and tutorials. Obtain permission from department chair before enrolling. (U/G)(2) Occasionally

RL405, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to their area of study and their career goals. Contact department chair if interested. Open to junior and senior religion majors. (U)(3) Occasionally

RL406, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to their area of study and their career goals. Contact department chair if interested. Open to junior and senior religion majors. (U)(6) Occasionally

RL411, Internship: A one-credit-hour internship in religion. (U)(1) Fall, spring, & summer

RL412, Internship: A two-credit-hour internship in religion. (U)(2) Fall, spring, & summer

RL499, Honors Thesis: Undergraduate honors thesis in religion. (U)(q) Occasionally

Why Study Physics and Astronomy?
Physicists (including astronomers and astrophysicists) seek to understand the fundamental workings of the physical world from the tiniest particles known to the entire universe. Majors develop mathematical, computer, and problem-solving skills to solve problems in areas such as classical mechanics, electricity, magnetism, thermodynamics, relativity, optics, and quantum mechanics. The skills mastered by physics majors are an excellent foundation for many professions in science, engineering, medicine, business, and law. Graduates find opportunities for employment in education, industry, and research. A bachelor’s degree in physics is also excellent preparation for pursuit of an advanced degree not only in physics but also in other fields such as computer science, engineering, medicine, and law.

Why Study Physics and Astronomy at Butler?
- Majors participate in research experiences at about twice the national rate.
- Our students have 100 percent placement for those who seek undergraduate research/internship positions.
- Our student-faculty ratio is small: 9:1.
- Faculty members have expertise in atomic physics, geophysics, astrophysics, nuclear physics, computational physics, and condensed matter, allowing students a number of choices for on-campus research.
- The department directs the Holcomb Observatory and Planetarium, which is home to a robotic 1-meter-class telescope. Butler University is a member of the SARA (Southeastern Association for Research in Astronomy) consortium, which operates two remotely operated telescopes at Kitt Peak National Observatory in Arizona and Cerro Tololo Inter-American Observatory in Chile. These three telescopes are available for our faculty and students for remote observing research as well as on-site visitation.
- Students have the opportunity to work in our Laboratory for Laser and Quantum Physics, which houses a YAG laser-pumped tunable dye laser to study interactions between light and matter.
- The University’s supercomputer, “Big Dawg,” with 384 computing cores, is used for departmental research.
- Students can earn a degree in engineering (mechanical, electrical, computer, biomedical, energy, or motorsports) concurrently through our Engineering Dual Degree Program (see Engineering Dual Degree Program).

Physics and Astronomy Student Learning Outcomes
Students majoring in physics and astronomy at Butler will gain a working knowledge of the basic concepts and theories of physics, which they will demonstrate by applying them to novel situations. They will learn to make inferences and deductions about physical systems using critical thinking, problem-solving
techniques, mathematical and computer modeling, and laboratory experiments. They will gain the skills to conduct lab or modeling experiments, to analyze measurements, and to evaluate uncertainty, and they will learn to communicate their findings both through speaking and through writing.

**Degree Programs**

- **Major in Physics (BA, BS)**
- **Major in Astronomy and Astrophysics (BA, BS)**
- **Major in Physics with Engineering Dual Degree Program (see Engineering Dual Degree Program)**
- **Minor in Physics**
- **Minor in Astronomy**

**Requirements for the Physics Major**

- PH201, PH202, Introduction to Analytical Physics I and II
- PH301, Modern Physics
- PH303, Electromagnetic Waves and Optics
- PH311, Experimental Modern Physics
- PH321, Intermediate Classical Mechanics**
- PH323, Thermodynamics and Statistical Physics**
- PH331, Electromagnetic Theory I**
- PH421, Quantum Theory I
- PH495, Senior Seminar
- PH/AS, Physics Electives*

* The physics elective must be chosen from AS301, AS311, PH315, PH331, PH422, PH427, PH461, or PH480.

** Mechanical engineering students in the Engineering Dual Degree Program may substitute an appropriate engineering mechanics and thermodynamics course. Electrical engineering students in the Engineering Dual Degree Program may substitute an appropriate engineering electromagnetic theory course.

Note that many of the upper-level courses will require MA 106, MA 107, MA 208, and MA 334 (or MA 315 in place of MA 334). A student who intends to pursue graduate studies in Physics should also consider AS 311, PH 315, PH 422, and/or PH 491. Butler University requires that students take at least 40 hours of credit at a 300-level or higher to graduate. All students in the College of Liberal Arts and Sciences must complete a foreign language requirement. For a Bachelor of Science degree a student must take a minimum of 60 hours in the natural sciences and mathematics.

**Requirements for the Astronomy and Astrophysics Major**

- AS102, Modern Astronomy (same as NW263)
- AS301, Modern Astronomical Techniques
- AS311, Stellar Astrophysics
- AS312, Galaxies and Cosmology
- PH201/PH202, Introduction to Analytical Physics I and II
- PH301, Modern Physics
- PH303, Electromagnetic Waves and Optics
- PH321, Intermediate Classical Mechanics
- PH331, Electromagnetic Theory
- PH495, Senior Seminar
1

Particular regard should be given to the mathematics and physics prerequisites for all 300-level courses. Note that many of the upper-level courses will require MA 106, MA 107, MA 208, and/or MA 334. Students should also take at least one computer science course that involves programming, typically CS 141. The College of Liberal Arts and Science requires that students take at least 40 hours of credit at the 300-level or higher to graduate. For a Bachelor of Science degree a student must take a minimum of 60 hours in the natural sciences.

**Recommended**

- PH311, Experimental Modern Physics
- PH323, Thermodynamics and Statistical Physics
- PH421, Quantum Theory
- PH464, Computational Physics

**Requirements for the Physics Minor**

- PH201 and PH202, Introduction to Analytical Physics
- PH301, Modern Physics
- PH303, Electromagnetic Waves and Optics
- PH311, Experimental Modern Physics
- PH321, Intermediate Classical Mechanics

**Requirements for the Astronomy Minor**

- AS102, Modern Astronomy (same as NW263)
- AS301, Modern Astronomical Techniques
- AS311, Stellar Astrophysics
Core Course Offered by Physics

PH201, Introduction to Analytical Physics: An introduction to Newtonian mechanics, thermal physics, waves, electromagnetism, and optics using calculus. Familiarity with algebra, trigonometry, and calculus is assumed. Four lectures and two hours of laboratory per week. PH202 must be preceded by PH201. Prerequisite or corequisite: MA106 or permission of the instructor. (U)(5) Fall

PH202, Introduction to Analytical Physics: An introduction to Newtonian mechanics, thermal physics, waves, electromagnetism, and optics using calculus. Familiarity with algebra, trigonometry, and calculus is assumed. Four lectures and two hours of laboratory per week. PH202 must be preceded by PH201. Prerequisite or corequisite: MA106 or permission of the instructor. (U)(5) Fall

PH202, Analog Electronics I: Survey of electronic devices. Measurement of continuously varying quantities in time and frequency domains. Rectifiers, amplifiers, and feedback, with emphasis on operational amplifiers and their uses. Three lectures and three hours of laboratory per week. Prerequisite: PH202 or permission of the instructor. Fee. (U)(4) Fall

PH203, Electromagnetic Waves and Optics: A study of geometric and wave optics, interference, diffraction, and polarization of electromagnetic waves. Two lectures and two hours of laboratory per week. Prerequisites: MA208 (may be concurrent) and PH202 or permission of the instructor. (U)(4) Fall

PH204, Experimental Modern Physics: The student performs a series of experiments to explore and verify experimental implications of relativity and quantum mechanics. Experiments include determination of Planck's constant, speed of light, charge-to-mass ratio of electron, Franck-Hertz experiment, Bragg scattering, Rutherford scattering, and radioactive decay processes. Prerequisite: PH201 or permission of the instructor. (U)(3) Fall

PH205, Modern Physics: The special theory of relativity is developed along with the introduction of basic ideas and equations of quantum physics. Topics include Lorentz transformations, relativistic mechanics, collisions and conservation of energy-momentum, electromagnetism and relativity, blackbody radiation, photoelectric effect, Compton effect, and the Schrödinger equation. Prerequisites: MA107 and PH202 or permission of the instructor. (U)(4) Occasionally

PH206, Intermediate Classical Mechanics: A study of the classical dynamics of oscillators, gravitational systems, calculus of variations, Lagrangian and Hamiltonian formalisms, dynamics of many-particle systems, and continuous media, including noninertial motion, rotational motion, normal modes, and wave theory. Prerequisites: PH202 and MA208 or permission of the instructor. (U)(4) Fall

PH207, Thermodynamics and Statistical Physics: A study of the theory and applications of the first and second laws of thermodynamics; thermodynamic potentials; kinetic theory; classical and quantum statistical mechanics; and ensemble theory to thermodynamic systems. Four lecture hours per week. Prerequisites: PH202 and MA208 or permission of the instructor. (U)(4) Fall

PH209, Electromagnetic Theory: The theory of classical electric and magnetic fields is developed, covering such topics as electrostatics, magnetostatics, scalar and vector potentials, fields in matter, electrodynamics and Maxwell's equations, conservation laws, and radiation. Prerequisites: MA208 and PH201 or permission of the instructor. (U)(4) Fall

PH301, Experimental Modern Physics: The student performs a series of experiments to explore and verify experimental implications of relativity and quantum mechanics. Experiments include determination of Planck's constant, speed of light, charge-to-mass ratio of electron, Franck-Hertz experiment, Bragg scattering, Rutherford scattering, and radioactive decay processes. Prerequisite: PH201 or permission of the instructor. Fee. (U)(3) Fall

PH302, Modern Physics: The special theory of relativity is developed along with the introduction of basic ideas and equations of quantum physics. Topics include Lorentz transformations, relativistic mechanics, collisions and conservation of energy-momentum, electromagnetism and relativity, blackbody radiation, photoelectric effect, Compton effect, and the Schrödinger equation. Prerequisites: MA107 and PH202 or permission of the instructor. (U)(4) Occasionally

PH304, Intermediate Classical Mechanics: A study of the classical dynamics of oscillators, gravitational systems, calculus of variations, Lagrangian and Hamiltonian formalisms, dynamics of many-particle systems, and continuous media, including noninertial motion, rotational motion, normal modes, and wave theory. Prerequisites: PH202 and MA208 or permission of the instructor. (U)(4) Fall

PH307, Thermodynamics and Statistical Physics: A study of the theory and applications of the first and second laws of thermodynamics; thermodynamic potentials; kinetic theory; classical and quantum statistical mechanics; and ensemble theory to thermodynamic systems. Four lecture hours per week. Prerequisites: PH202 and MA208 or permission of the instructor. (U)(4) Fall

PH309, Electromagnetic Theory: The theory of classical electric and magnetic fields is developed, covering such topics as electrostatics, magnetostatics, scalar and vector potentials, fields in matter, electrodynamics and Maxwell's equations, conservation laws, and radiation. Prerequisites: MA208 and PH201 or permission of the instructor. (U)(4) Fall

PH310, Analog Electronics I: Survey of electronic devices. Measurement of continuously varying quantities in time and frequency domains. Rectifiers, amplifiers, and feedback, with emphasis on operational amplifiers and their uses. Three lectures and three hours of laboratory per week. Prerequisite: PH202 or permission of the instructor. Fee. (U)(4) Fall

PH312, Galaxies and Cosmology

Note that MA106 and MA107 are prerequisites to the upper-division astronomy courses.
PH411, Theoretical Physics: A study of mathematical methods of physics, including boundary-value problems, special functions, linear operators, and group theory, with applications to problems in electromagnetic theory and classical and quantum mechanics. Three lectures per week. Prerequisites: PH331 and MA334 or permission of the instructor. (U/G) Occasionally

PH412, Theoretical Physics: A study of mathematical methods of physics, including boundary-value problems, special functions, linear operators, and group theory, with applications to problems in electromagnetic theory and classical and quantum mechanics. Three lectures per week. Prerequisites: PH331 and MA334 or permission of the instructor. (U/G)(3)

PH413, Independent Study in Physics: (U/G)(1)

PH414, Independent Study in Physics: (U/G)(1-3)

PH421, Quantum Theory: The mathematical foundations of quantum mechanics are presented with treatment of simple systems such as barriers, square wells, harmonic oscillator, and central potentials with the development of approximation methods and the theory of angular momentum for single particles. Prerequisites: MA208 and PH301 or permission of the instructor. (U/G)(4) Occasionally

PH422, Quantum Theory II: Applications of quantum mechanics to multi-particle systems. Time-dependent perturbation theory, angular momentum coupling, atomic spectra, quantum statistics, radiation and scattering theory, and introduction to relativistic quantum theory. Prerequisite: PH421 or permission of the instructor. (U/G)(4) Occasionally

PH427, General Relativity and Gravity I: Tensor analysis in classical field theory, Einstein's field equations, the Schwarzschild solution, linearized field equations, experimental gravitation, cosmological models, and gravitational collapse. Prerequisites: PH321 and PH332 or permission of the instructor. (U/G)(3) Occasionally

PH428, General Relativity and Gravity II: Tensor analysis in classical field theory, Einstein's field equations, the Schwarzschild solution, linearized field equations, experimental gravitation, cosmological models, and gravitational collapse. Prerequisite: PH427 or permission of the instructor. (U/G)(3) Occasionally

PH461, Computational Physics: An introduction to numerical methods frequently used in physics for solving problems that cannot be solved analytically in a closed mathematical form. Topics include numerical solution of problems dealing with oscillatory motion, gravitation, electrical fields, fluid dynamics, heat conduction, the Schrödinger equation, and elastic wave motion. Prerequisite: PH321, PH331, or permission of the instructor. (U)(3) Occasionally

PH480, Special Topics: By arrangement with appropriate staff. (U/G) Occasionally

PH491, Undergraduate Tutorial and Research: (U)(9) Occasionally

PH492, Undergraduate Tutorial and Research: (U)(6) Occasionally

PH493, Undergraduate Tutorial and Research: (U)(3) Occasionally

PH495, Senior Seminar: This seminar, for junior and senior physics majors, features student presentations on special research projects and selected readings in the current scientific literature. A comprehensive physics exam covering all areas of physics in the curriculum will be given to all senior physics majors in the course. (U)(1) Fall

PH499, Honors Thesis: (U)(3) Occasionally

Core Course Offered by Astronomy

NW263-AS, The Astronomical Universe: A one-semester survey of astronomy including ancient Greek astronomy, the motions of the night sky, the solar system, other solar systems, the lives of stars including the Sun, and the origin and fate of the universe. This will be a four-lecture-hour/two-hour lab course. (U/G)(5) Fall, spring, & summer

Astronomy Courses

AS100, The Astronomical Universe: A descriptive study of basic astronomy including the planets and the apparent motions of celestial objects, the seasons, constellations, comets and meteors, stars, galaxies, and large-scale structure of the universe, plus current events in space exploration. There will be planetarium demonstrations and telescope observations. Some hands-on lab experiences are provided. (U/G)(3) Fall, spring, & summer

AS102, Modern Astronomy with Laboratory (same as NW263-AS): First course of an introductory astronomy sequence for both non-science and science majors. This course and laboratory include the history of astronomy, timekeeping, the solar system, planets and their motions, the moon, comets, meteors, the solar evolution, Kepler's Laws, etc., with planetarium demonstrations, usage of astronomical instruments, and small telescopes and binoculars. Four hours of lecture, and one two-hour lab per week. (U/G)(5) Fall, spring, & summer

AS301, Modern Astronomical Techniques: Introduction to techniques and equipment used in modern astronomy, with emphasis on detection and analysis of electromagnetic radiation and the fundamental properties of telescopes and detectors. Lectures and laboratory. Laboratories focus on observational techniques and data reduction. Prerequisites: AS102 and PH202. (U/G)(3) Spring

AS311, Astrophysics: 1: The first semester of an introductory course on stellar astrophysics using nearly every branch of physics. Emphasis is on the underlying physical principles, including the nature of stars, stellar energy generation, stellar structure and evolution, astrophysical neutrinos, binary stars, white dwarfs, neutron stars and pulsars, and novae and supernovae. Prerequisites: AS102 and PH202. (U/G)(3) Fall

AS312, Astrophysics: 2: A continuation of AS311. The course covers the application of physical principles to the interstellar medium, the kinematics and dynamics of stars and stellar systems, galactic structure, formation and evolution of galaxies, relativity, Big Bang and inflationary models of the origin of the universe, and the large-scale structure and ultimate fate of the universe. Prerequisite: AS311. (U/G)(3) Spring
AS461, Computational Astrophysics: An introduction to numerical methods frequently used in astrophysics for solving problems that cannot be solved analytically in a closed mathematical form. Topics include numerical solution of problems dealing with oscillatory motion, gravitation, electrical fields, stellar dynamics, stellar evolution, the Schrödinger equation, and fluid mechanics. Prerequisite: PH321, PH331, or permission of the instructor. (U)(3) Occasionally

Why Study Political Science?
The faculty members of the Political Science Department at Butler University see our discipline as connected to the liberal arts, which are about studying and understanding ourselves, other peoples, and different ways of being and knowing, as well as about developing tolerance and empathy, and learning to use evidence and think critically. As political scientists, we seek to understand the causes of wars, social injustices, economic disparities, and uneven technological growth, for the purpose of alleviating suffering.

Because a liberal arts education encourages an activist disposition, we look for ways to address problems such as world poverty, inadequate health care, educational disparities between neighboring communities, and environmental degradation, and seek nonviolent solutions to human rights violations worldwide. The department deliberately challenges systems, institutions, and leaders that dehumanize, marginalize, and oppress any persons and other living beings. We seek to engage in intellectual practices that provide sustainable solutions for the betterment of all.

Why Study Political Science at Butler?
The department is committed to teaching students how to effect positive social change. In practicing citizenship skills that include empathetic listening, moral reasoning, personal responsibility, and a greater awareness of one’s responsibility to the human polity, our students develop as active and engaged citizens at the local, national, and international levels. We offer courses that include service learning and community-based research, encourage students to accept responsibility for their learning, and recognize that knowledge may be obtained from a variety of different people and situations.

Political Science Student Learning Outcomes
- Analyze and differentiate various political movements, structures, and institutions in the United States and other countries
- Differentiate and make connections between theory and practice, between global and local events, and between political science and other disciplines
- Demonstrate an awareness of different cultures and their effect on domestic and international affairs
- Demonstrate leadership and collaborative skills through active engagement in service learning and internships
- Apply research and communication techniques effectively
- Value the fundamental importance of one’s membership in the human polity, emphasizing citizenship and political community

Degree Programs
- Major in Political Science (BA)
- Minor in Political Science

Requirements for the Major
The major requires 33 hours of political science courses, of which at least 20 hours must be in courses numbered above 299. Majors must take PO201 plus three of the other introductory courses (PO101, PO102, PO131, PO141, PO151, PO210, or PO220) and at least one writing-intensive departmental seminar (PO490).

Requirements for the Minor
Eighteen hours of political science courses, including PO101 and PO201 and at least nine hours at the upper level (above 299). Undergraduates enrolled in any college or program are eligible to minor in the field.
Core Courses Offered by Political Science

SW240-PO, Gender and Generations: War and Peace: This course is organized around the following inquiry: When gender and generation are used as categories of analysis, what do we learn about the politics of violence and peace? We are taking the lenses of gender and age and training them on different aspects of global politics, society, and culture. What forms of violence do we see? (U)(3) Annually, term varies

SW242-PO, Introduction to U.S. Politics: This course is an introduction to the study of the United States government. Fundamentally, this class is about how we evaluate the quality of American democracy. To do so, we will first focus on the normative debates and values that helped shape the foundations of our democracy. We may then explore how and to what extent mediating and political institutions reflect the attitudes and behavior of individual Americans. By the end of the course, students will have a deeper understanding of, and the ability to better navigate, the American political system. (U)(3)

TL255-PO, The Politics of Alice Walker: This course will introduce students to the great works of Alice Walker, who is accomplished in many literary areas—poetry, short stories, novels, and political/cultural essays. Infused in all of her works is her personal and evolving political worldview, with which so many diverse people identify, and yet her voice is distinctly African-American female. We will read an array of her texts and develop an understanding of what drives her political identity. (U)(3) Spring

Political Science Courses

PO101, Introduction to Politics: The ideas and practice of politics, with consideration of the political systems and foreign policies of the United States and countries in Europe and the Third World. (U) (3) Occasionally

PO102, Introduction to Peace Studies: This course provides a basic introduction to the study of peace studies. It begins with an examination of the history of the field and its major theoretical and philosophical currents. The second part of the course deals with structural, cultural, and direct violence and issues such as social justice, human rights, and peace building with reference to contemporary cases. (U)(3) Fall & spring

PO131, Introduction to U.S. Politics: The contemporary political system with emphasis on the functioning of the institutions of the national government in the context of the political culture and the political economy of the United States. (U)(3) Annually, term varies

PO141, Introduction to International Politics: An analysis of changing patterns in international politics with an emphasis on global challenges and the participation of individuals, nongovernmental organizations, states, and international organizations in the search for solutions. (U)(3) Annually, term varies

PO151, Introduction to Comparative Politics: Study of several political systems in Europe, Asia, Africa, and Latin America examining similarities, differences, and factors involved in stability, change, or revolution. (U)(3) Annually, term varies

PO201, Research and Analysis: This course, required of all majors, will introduce students to the process of designing and executing research projects (large and small) in political science; to library, archival, and web-based resources for political research; to quantitative and qualitative methods of analysis; and to writing research reports for various audiences. (U)(3) Fall & spring

PO210, Basic Political Thought: Structured around certain perennial topics of politics, this course introduces students to the philosophical ideas that form the foundation of political institutions. (U)(3) Annually, term varies

PO220, Community Mediation: This course focuses on conflicts experienced by human communities and ways in which these conflicts can be understood as opportunities for constructive change through the cultivation of multiple perspectives, identification of underlying shared needs and interests, and collaborative approaches to forging agreements amidst challenging circumstances. (U)(3) Annually, term varies

PO230, Activism: This course is designed to help you better understand the role of activists in initiating and supporting social and political change, acquire practical skills and tools for effective activism, and develop conceptual and experiential insights needed to continually strengthen your evolving praxis of activism. (U)(3) Annually, term varies

PO310, The Foundations of Chinese Politics: This course introduces students to the politics of China by providing a chronological overview of key historical events that have shaped the politics of China, examining the formal and informal aspects of how power is organized in the People's Republic of China and considering how world politics has shaped China and how China has and will continue to shape world politics. Prerequisite: One political science course or permission of the instructor. (U)(3) Occasionally

PO320, International Relations: Problems in world politics since 1900 with particular attention to the efforts at peaceful settlement of international conflicts. (U/G)(3) Occasionally

PO322, International Conflict and Peace Building: The course examines theories of conflict and peace building and analyzes in depth specific cases of inter-state and intra-state warfare and post-war reconstruction. Students participate in simulated peace negotiations. Prerequisite: PO141 or PO220 or consent of the instructor. (U/G)(3) Annually, term varies

PO324, The United States in the Asia-Pacific: This course examines the role of the United States as a Pacific power in the international relations of the Asia-Pacific region. Students will be required to think about various issues in the international relations of the region through historical and theoretical lenses. Prerequisite: PO141 or permission of the instructor. (U)(3) Occasionally

PO326, Chinese Foreign Policy: Students will learn to identify and analyze key international and domestic sources of Chinese foreign policy through relevant concepts and theories in political science. Students will also use this knowledge to understand selected aspects of Sino-U.S. relations. Prerequisite: One PO course or permission of the instructor. (U)(3) Occasionally

PO328, Politics of China's Development: This course examines the politics that have driven the economic development path taken by the People's Republic of China and considers the economic choices and challenges it faces in the context of the global political economy. Prerequisite: One PO course or permission of the instructor. (U)(3) Occasionally
PO332, State and Local Government and Politics: American state and local government activities and electoral politics, emphasizing the issues of political management and policy analysis. (U)(G) Occasionally

PO355, African Politics: Africa is a diverse and complex continent comprising more than 50 countries with distinct histories and political economies. Although Americans are constantly bombarded with images and reports on wars, disease, conflict, and corruption in Africa, these representations are incomplete and somewhat misleading. Rather than attempting to provide a comprehensive portrait of politics across the continent, this course will expose you to important concepts and theories in African politics, to the political histories and dynamics of several sub-Saharan African states, and to African scholars' and writers' perspectives on the region. Prerequisite: PO151 or junior standing. (U/G) Annually, term varies

PO350, Environmental Justice: How can we create a world in which all people have access to clean, safe, and welcoming places for living, praying, and ecosystems are conserved? Why have some communities been disproportionately burdened with unsafe water, polluted air, and toxic trash while others take access to clean air, water, green spaces, and other amenities for granted? What explains these unjust outcomes? What can be done? These questions are at the heart of this course. This course will develop your capacity to analyze environmental problems, policies, and decision-making processes by introducing you to environmental justice (EJ) as a set of analytic frameworks and overlapping social movements. EJ frameworks attend to the interconnections among environments, politics, societies, and economies to identify causes of and remedies for injustice. EJ movements have placed distributional issues squarely on the environmental policy agenda and presented a broader vision. Advocates have not only asserted that solutions that reduce aggregate pollution while imposing undue burdens on marginalized groups are unacceptable, but also have sought to develop strategies to create greater environmental justice. While this course accepts the assertion that all people have the right to a clean and healthy environment and the right to the natural resources necessary for health and livelihood, EJ frameworks and movements will be subject to critique. Prerequisite: PO151 or junior status. (U)(G) Annually, term varies

PO354, Comparative Political Economy: Development has long been a central concern of political economists. Most people would agree that Ouagadougou is much less developed than New York City, and Burkina Faso is less developed than the United States of America. But what about the difference between Kenya and Beijing or between India and China? How does the U.S. compare to Canada, the Netherlands, and the United Kingdom? And why are some places less developed than others? While economists often rely on economic growth rates and GDP/capita to measure development, these measures tell us little about citizens' access to opportunities, their quality of life, or their political rights (or lack thereof). If development is the "process of expanding the real freedoms that people enjoy," as Amartya Sen argues, these indicators are radically incomplete. Focusing on the deeply contested concept of development, this seminar examines the politics of economic growth and well-being. We will delve into the classical and contemporary literature on the political economy of development and look closely at the development questions, trajectories, and challenges facing people across the globe. Prerequisite: PO151 or junior status. (U)(G) Occasionally

PO352, Comparative Political Economy: Development has long been a central concern of political economists. Most people would agree that Ouagadougou is much less developed than New York City, and Burkina Faso is less developed than the United States of America. But what about the difference between Kenya and Beijing or between India and China? How does the U.S. compare to Canada, the Netherlands, and the United Kingdom? And why are some places less developed than others? While economists often rely on economic growth rates and GDP/capita to measure development, these measures tell us little about citizens' access to opportunities, their quality of life, or their political rights (or lack thereof). If development is the "process of expanding the real freedoms that people enjoy," as Amartya Sen argues, these indicators are radically incomplete. Focusing on the deeply contested concept of development, this seminar examines the politics of economic growth and well-being. We will delve into the classical and contemporary literature on the political economy of development and look closely at the development questions, trajectories, and challenges facing people across the globe. Prerequisite: PO151 or junior status. (U)(G) Occasionally

PO355, United States Foreign Policy: Evolution of U.S. foreign policy since World War II and the processes and institutions involved in shaping and implementing that policy. (U/G)(G) Occasionally

PO356, Israel-Palestine Conflict: The course focuses on the historical origins, key narratives, political dynamics, and most contentious issues involved in the Israeli-Palestine conflict. How did this conflict begin? Why has it proved so intractable? What prospects are there for peace? To answer these questions, the course examines the social, political, economic, cultural, psychological, and military aspects of the conflict. The core issues are analyzed from a variety of different perspectives, including the positions of important political, military, and religious actors, women, youth, civil society organizations, peace movements, and external actors. Prerequisite: One PO course or permission of the instructor. (U)(G) Occasionally

PO357, The Politics of Youth and Conflict: The course examines the relationship between young people and the ideas, behaviors, processes, structures, and cultures that promote violent conflicts and/or peaceful social change in our world. Prerequisite: One PO course or permission of the instructor. (U)(G) Occasionally

PO358, Foreign Policy Making in Washington: This course focuses on foreign policy making as practiced in Washington, D.C.; it examines how politicians, lobbyists, citizens, and diplomats interact in and around Washington’s corridors of power to determine international policy outcomes. First-hand insights gained through dialogue with those who make and implement policy and close scrutiny of key international issues provide students with a “laboratory” for understanding the politics of foreign policy making in the U.S. capital, how these policies are shaped, and why they succeed or fail to achieve their stated objectives. (U)(G) Occasionally

PO360, Political Regimes in Latin America: Comparative study of the politics of development in Latin America with particular attention given to the interdependence of economic, social, cultural, and external influences upon political regimes as well as the efficacy and legitimacy of the regimes themselves. Prerequisite: PO151, PO154, or permission of the instructor. (U/G)(G) Annually, term varies
PO362, Popular Participation in Latin America: This course focuses upon the efforts of peasants, urban workers, neighborhoods, church groups, and students to organize and mobilize in politically efficacious ways. The themes of social class, gender, ethnicity, and the informal sector are interwoven in an analysis of the successes and failures of these attempts at popular participation in the political process. Prerequisite: PO101, PO131, or permission of the instructor. (U/G) (3) Annually, term varies

PO364, United States-Latin American Relations: Historical orientation to the evolving context, institutions, and central concerns of United States-Latin American relations with particular focus upon divergent perspectives of definitions of interests and responsibilities, as well as a search for viable solutions to common problems in the Western Hemisphere. Prerequisite: PO101, PO141, or permission of the instructor. (U/G) (3)

PO371, U.S. Parties and Politics: Examination of the interplay between the main components of our two major parties: party organization, party-in-government, and party-in-the-electorate. Emphasis on recent trends, particularly in the process of presidential selection. (U/G) (3) Occasionally

PO372, Role of Protest in U.S. Politics: Protest movements in U.S. politics. An examination of the historical context of protest movements and a consideration of theoretical approaches to understanding them. Includes the civil rights and anti-war movements of the 1960s. Prerequisite: One of the following: PO101, PO131, PO141, or consent of the instructor. (U/G) (3) Occasionally

PO373, Public Policy: An introduction to the study of how public policies are established in the United States. Emphasis on developing and applying analytical skills. Students are expected to research in depth a particular policy issue such as housing, the environment, or the workplace. Prerequisite: One of the following: PO101, PO131, PO151, or consent of the instructor. (U/G)(3)

PO377, Constitutional Law: Examination of U.S. Supreme Court cases in areas such as freedom of speech, religion, criminal due process, government regulation of commerce, and racial discrimination. (U/G) (3) Occasionally

PO379, The Presidency and the Congress: The modern president’s role as leader of public opinion, the executive branch, and Congress. Congressional leaders and their relationship with the president, each other, and Congress. (U/G) (3) Occasionally

PO380, Topics in Political Science: Selected topics of contemporary significance in scholarship in political science. Prerequisite: At least one political science class or junior standing or permission of the instructor. (U)(3) Fall & spring

PO381, Ancient and Medieval Political Thought: This course examines the foundation of Western political thought and considers the ways in which the successors of a tradition simultaneously criticize and incorporate the work of their predecessors as they seek to construct new theories of politics. Prerequisite: PO101, PO210, or permission of the instructor. (U/G) (3) Occasionally

PO382, Modern Political Thought: Study of several leading political writers from Hobbes through Marx, with attention to certain basic similarities in addition to pronounced differences. Prerequisite: Junior standing or permission of the instructor. (U/G)(3) Occasionally

PO383, U.S. Political Thought: Selected writings of U.S. authors focusing on four periods: founding of the republic, slavery, suffrage, and the civil rights movement. Prerequisite: PO131, PO210, or permission of the instructor. (U/G)(3) Occasionally

PO384, Politics through Film: Post-war Hollywood films as they reflect and help to create the persuasive political culture of the United States. Draws on analytical, historical, aesthetic, and political economy approaches. Prerequisite: PO101, PO131, or consent of the instructor. (U/G) (3) Occasionally

PO385, The Enduring Quest for Community Service Learning: This course examines various ideas of the meaning and purpose of community service learning. Includes the civil rights and anti-war movements of the 1960s. Prerequisite: One of the following: PO101, PO131, PO141, or consent of the instructor. (U/G)(3)

PO386, Black Political Thought: Students will develop a historical understanding of political thought that is reflective of the black experience. We will explore black political theorists of Africa, America, and other contexts of the African diaspora. (U/G)(3) Occasionally

PO400, Independent Study: Offers the qualified student of political science the opportunity to pursue a topic of individual interest. Open only to seniors, by permission of the instructor. (U)(1) Fall & spring

PO401, Independent Study: Offers the qualified student of political science the opportunity to pursue a topic of individual interest. Open only to seniors, by permission of the instructor. (U)(2) Fall & spring

PO402, Independent Study: Offers the qualified student of political science the opportunity to pursue a topic of individual interest. Open only to seniors, by permission of the instructor. (U)(3) Fall & spring

PO403, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to political science. Prerequisite: Permission of the department chairman. (U)(2) Fall & spring

PO404, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to political science. Prerequisite: Permission of the department chairman. (U) Fall & spring

PO405, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to political science. Prerequisite: Permission of the department chairman. (U)(6) Fall & spring

PO406, Internship: Offers the qualified student the opportunity for supervised work experience in a setting pertinent to political science. Prerequisite: Permission of the department chairman. (U)(9) Fall & spring

PO407, Student Apprenticeship in Political Science: Students work with faculty mentors on their teaching or their research. In teaching apprenticeships, students work with the professor in the development and discussion of the classroom experience. In research apprenticeships, students work with a
faculty mentor on his or her current research. Prerequisites: Junior standing and two courses in political science. By application only. (U)(1, 2, or 3) Fall & spring

PO448, Student Apprenticeship in Political Science: Students work with faculty mentors on their teaching or their research. In teaching apprenticeships, students work with the professor in the development and discussion of the classroom experience. In research apprenticeships, students work with a faculty mentor on his or her current research. Prerequisites: Junior standing and two courses in political science. By application only. (U)(1, 2, or 3) Fall & spring

PO449, Student Apprenticeship in Political Science: Students work with faculty mentors on their teaching or their research. In teaching apprenticeships, students work with the professor in the development and discussion of the classroom experience. In research apprenticeships, students work with a faculty mentor on his or her current research. Prerequisites: Junior standing and two courses in political science. By application only. (U)(1, 2, or 3)

PO490, Seminar in Political Science: A particular subject in political science will be studied each semester. Writing-intensive. Prerequisite: Junior standing or permission of the instructor. (U)(G)(S)

PO499, Honors Thesis: (U)(3) Occasionally

PO701, Research: (G)(3)

PO711, Thesis: (G)(3)

Why Study Psychology?

The goal of an undergraduate psychology program is to introduce students to knowledge of the principles of emotion, behavior, and cognition as established by scientific methods. Students majoring in psychology study the core content areas of psychology and scientific methodology in preparation for graduate study and later professional pursuits in psychology or related fields.

Why Study Psychology at Butler?

Students in our program develop an understanding of psychological science through instruction in the classroom and hands-on participation in research projects. The classroom portion of the curriculum is structured so that students first receive a general overview of the topics and methods in psychology, followed by a more thorough exploration of specific content areas. We emphasize a broad and stable base of content; every psychology major studies the same basic core of subject matter and methods in psychology. Further, each psychology student has the opportunity to add depth to that knowledge by studying particular content areas more specific to his or her interests.

Participation in student-faculty collaborative research is the hallmark of our program. We encourage students to become involved in research projects with one or more professors during their undergraduate years. Research involvement is structured so that students evolve from apprentices to collaborators by taking progressively greater responsibility for the design and execution of psychological research projects. Some students complete an honors thesis, a year-long research project. They routinely make presentations at the Butler Undergraduate Research Conference and at national professional meetings such as the annual convention of the Association for Psychological Science. Approximately 80 percent of our graduates have collaborated on at least one research project.

Students benefit from participating in student-faculty collaborative research in several ways. They have the opportunity to apply the concepts, theories, and ideas learned in the classroom. They also learn how to think like psychologists and how to conduct scientific research. No amount of reading about psychology or listening to instructors can replace the experience of conducting research in behavioral science.

Because a career as a professional psychologist requires a graduate degree, the knowledge and skills students acquire through coursework and research experience in our program prepare them for graduate study. About two-thirds of our students attend graduate school either immediately after completing our program or after working for one to five years in a field related to psychology. Most of these students enter graduate programs in psychology, social work, or counseling. Some attend medical or law school. The remaining students begin careers in a wide range of fields, most of which are health care- or service-related (pharmaceutical companies, nonprofit organizations, health care services, management, computer services, human resources, sales, education, and advertising, to name a few).
Psychology Student Learning Outcomes

Psychology students will demonstrate knowledge of the field of psychology, demonstrate knowledge of scientific inquiry and critical thinking, demonstrate ethical and social responsibility in a diverse world, communicate knowledge of psychology to others, and develop a meaningful professional direction for life after graduation.

Degree Programs

- Major in Psychology (BA)
- Combined Major in Psychology and Sociology/Criminology (BA) (see Combined Majors)
- Combined Major in Psychology and Sociology/Social Work (BA) (see Combined Majors)
- Combined Major in Psychology and Anthropology (BA) (see Combined Majors)
- Combined Major in Psychology and Philosophy (BA) (see Combined Majors)
- Combined Major in Psychology and Political Science (BA) (see Combined Majors)
- Minor in Psychology
- The department participates in the interdisciplinary Neuroscience Minor

Requirements for the Major

The major in psychology (39 or 41 credit hours) sets three goals for student development: to master a central core of psychological knowledge, to acquire basic methodological and computer skills, and to attain a sophisticated knowledge of at least one area within psychology. Students must take the following courses:

Content Core

- SW250-PS, Psychological Inquiry or equivalent, or NW220-PS, Behavioral Science
- PS202, Learning
- PS235, Biological Bases of Behavior
- PS320, Life Span Developmental Psychology
- PS350, Social Psychology
- PS385, Cognitive Processes
- PS440, Psychology of Personality

Methodological Core

- PS211, Research Methods/Statistics I
- PS311, Research Methods/Statistics II
- PS310, Advanced Statistics in Psychology

Specialized Courses

- One additional psychology elective at the 300–400 level
- One additional psychology elective at the 400 level
- One 400-level seminar (from the list of five special-topics seminars)

Psychology majors are encouraged to include courses in anthropology, the biological sciences, chemistry, computer science, mathematics, philosophy, physics, and sociology as they plan their undergraduate career.

Requirements for the Minor

A minor in psychology (21 or 23 credit hours) consists of: 1) SW250-PS or equivalent, or NW220-PS; 2) PS211 and PS210; 3) any three of PS202, PS235, PS320, PS350, PS385, or PS440; and 4) one additional psychology course at the 300–400 level (including courses in the previous list).

Core Courses Offered by Psychology

NW220-PS, Behavioral Science: Students will learn the core theories in psychology and the methods used to derive and test the adequacy of those theories. Included in this are concepts of behavioral measurement and statistics, operational definitions used to assess theoretical concepts/mechanisms, hypothesis testing, and scientific report writing according to APA guidelines. Each content area will be covered through current and past theories and their methods of testing theoretical adequacy. (U) (5) Occasionally

NW221-PS, Human Behavioral Measurement: An introduction to the philosophy and nature of science and scientific reasoning as applied to the problem of measuring human cognition and behavior. Topics include the development of surveys, tests, time and event sampling, reaction time measures, signal detection methods, as well as physiological measures of human behavior. (U) (5) Occasionally

SW225-PS, Humans and the Natural Environment: Understanding how people think about and interact with nature is crucial for promoting both human well-being and environmental sustainability. We will apply psychological research on human cognitive, emotional, and behavioral responses to nature in hopes of fostering interaction with nature and encouraging conservation-oriented behavior at both individual and societal levels. (U) (3) Annually, term varies

SW250-PS, Psychological Inquiry: An introduction to the general principles and facts of behavior, cognition, and emotion as established by the methods of social science. (U) (5) Fall & spring
**Psychology Courses**

PS202, Learning: A survey of various types of learning, including classical conditioning, instrumental conditioning, and observational learning. The course introduces behaviorist theories of learning for both humans and animals, and includes discussion of theoretical and methodological issues. Prerequisite: A grade of C- or better in SW250-PS or NW220-PS, or permission of the instructor. (U)(3) Fall & spring

PS210, Research Methods/Statistics I: This course is the first in a two-course sequence designed to introduce students to research methods and statistics commonly used in psychology. Prerequisite: A grade of C- or better in SW250-PS or NW220-PS, or permission of the instructor. (U)(3) Fall & spring

PS211, Research Methods/Statistics II: A continuation of Research Methods/Statistics I. This semester focuses on more advanced research and statistical techniques commonly used in psychology. Prerequisite: A grade of C- or better in Research Methods/Statistics I, or permission of the instructor. (U)(3) Fall & spring

PS235, Biological Bases of Behavior: Relations between the anatomy and physiology of the organism and its behavior. Prerequisite: A grade of C- or better in SW250-PS or NW220-PS, or permission of the instructor. (U)(3) Fall & spring

PS305, Psychology of Gender: This course emphasizes the biological, cognitive, social, and cultural factors that produce, enhance, and maintain similarities and/or differences in men's and women's behavior and psychological functioning. Applied topics related to gender will also be covered. Introductory psychology is strongly recommended. (U)(3) Occasionally

PS310, Advanced Statistics in Psychology: This advanced course on the use of statistics to analyze psychological data is the culminating course in the statistics/methods sequence in the department. Emphasis is given to both the logical and the computational aspects of statistics. Prerequisite: A grade of C- or better in PS201, or C- or better in PS210 and PS211, or permission of the instructor. (U)(3) Fall & spring

PS320, Life Span Developmental Psychology: Behavioral, cognitive, and developmental principles and theories of human psychological development. Special emphasis is placed on the development of intellectual, emotional, perceptual, linguistic, and social behavior. Prerequisite: A grade of C- or better in SW250-PS or NW220-PS, or permission of the instructor. (U)(3) Fall & spring

PS333, Human Sexuality: This survey course is intended to provide an introduction to the scientific study of human sexuality. Although psychological approaches to sexuality will be emphasized, the course will be grounded in the biopsychosocial model and will incorporate perspectives from a variety of disciplines. Prerequisite: A grade of C- or better in SW250-PS or NW220-PS, or permission of the instructor. (U)(3) Occasionally

PS350, Social Psychology: A study of variables in a social context, which may help determine the cognition, perception, and behavior of the individual. Special emphasis is placed on the current theory and research of social psychology. Prerequisite: A grade of C- or better in SW250-PS or NW220-PS, or permission of the instructor. (U)(3) Fall & spring

PS360, Industrial/Organizational Psychology: Psychology's methods and principles are applied to both “industrial” topics associated with human resources management such as employee selection and training as well as “organizational” topics such as motivation, leadership, and stress. Prerequisite: A grade of C- or better in SW250-PS or NW220-PS, or permission of the instructor. (U)(3) Occasionally

PS385, Cognitive Processes: A compare-and-contrast theory course, covering basic issues in memory, information processing, problem solving, psycholinguistics, artificial intelligence, and expert systems as they reflect memory abilities and thought processes in people. Prerequisite: A grade of C- or better in SW250-PS or NW220-PS, or permission of the instructor. (U)(3) Occasionally

PS391, Internship: An opportunity for the qualified student to participate in a supervised work experience in a setting pertinent to the major area of study. Open to junior and senior majors with permission of the instructor. May be repeated up to six hours. (U)(1) Fall & spring

PS396, Directed Research: Students working on faculty research can earn research credit. Students will help run experiments, read relevant literature, and write papers on related topics. Students gain hands-on research experience. Prerequisite: Permission of the instructor. May be repeated up to six hours. (U)(1) Fall, spring, & summer

PS412, Advanced Applied Neuroscience: This course provides an advanced overview of the principles and methods of neuroscience as applied to understanding brain systems and dysfunction. Prerequisite: A grade of C- or better in PS235, PS385, or permission of the instructor. (U)(3) Fall & spring

PS415, Psychological Testing: An introduction to the theory and problems involved in the measurement of psychological variables leading to critical discussion and analysis of tests of ability and personality. Prerequisite: Ten hours or permission of the instructor. (U)(G)(3) Occasionally

PS420, History of Psychology: The historical antecedents of psychology leading to discussion of the events and trends of the recent past and their impact on modern psychology. Prerequisite: Ten hours or permission of the instructor. (U)(G)(3) Annually, term varies

PS440, Psychology of Personality: An intensive study of the more important theories regarding the nature and determinants of personality. Prerequisites: Ten hours or permission of the instructor. (U)(G)(3) Occasionally

PS441, Abnormal Psychology: Current research relating to description, classification, and dynamics of the varieties of deviant behavior, including elementary consideration of diagnostic and therapeutic techniques. Prerequisite: Ten hours or permission of the instructor. (U)(G)(3) Fall

PS443, Intervention in the Community/Psychotherapy: An advanced examination and critique of the concepts and methods of psychological intervention in dealing with individuals facing psychological stress. Special attention is given to the heritage, assumptions, and success in application of psychotherapeutic techniques. Prerequisite: Ten hours or permission of the instructor. (U)(G)(3) Occasionally
PS475, Advanced Seminar in Cognitive Psychology: This is a capstone course for learning and cognition. The topics will vary across semesters. They may include neural networks and connectionism, comparative cognition, theories of learning, eyewitness testimony, or other specialty areas in learning and cognition. Prerequisite: A grade of C- or better in PS350, or permission of the instructor. (U/G)(3) Occasionally

PS476, Advanced Seminar in Biopsychology: Continued exploration within an area of biological psychology. The topic of each advanced seminar will be announced in the class schedule. Prerequisite: A grade of C- or better in PS235, or permission of the instructor. (U/G)(3) Occasionally

PS477, Advanced Seminar in Social Psychology: A focused and in-depth examination of a specialized topic in the field of social psychology. Examples of such topics include: small-group processes, self-perception and disclosure, attribution, interpersonal attraction, altruistic behavior, social influence, attitude formation and change, and leadership. Prerequisite: A grade of C- or better in PS350, or permission of the instructor. (U/G)(3) Occasionally

PS478, Advanced Seminar in Developmental Psychology: Continued coverage of an area within developmental psychology. The topic of each advanced seminar will be announced in the class schedule and will consist of an in-depth exploration of research and theory. Prerequisites: A grade of C- or better in PS210, PS211, and PS320, or permission of the instructor. (U/G)(3) Occasionally

PS479, Advanced Seminar in Applied Psychology: Continued coverage of an area within applied psychology. The topic of each advanced seminar will be announced in the class schedule and will consist of an in-depth exploration of research and theory. Prerequisite: Ten hours or permission of the instructor. (U/G)(3) Occasionally

PS496, Independent Study: This course provides the student with academic credit for the completion of projects not usually included in an academic program. Prerequisites: Ten hours and permission of the instructor. (U/G)(1–6) Fall, spring, & summer

PS499, Honors Thesis: (U/3)

Science, Technology, and Environmental Studies

Administration
Carmen Salsbury, PhD, Program Director

Instructor
Jesse Van Gerven, PhD

Program Website
www.butler.edu/science-technology

The Science, Technology, and Environmental Studies Program supports two majors: Science, Technology, and Society and Environmental Studies. The program is dedicated to providing students with an interdisciplinary perspective regarding the complex relationship between science and technology and our health, our families and communities, and our environment. Students are challenged to explore the sociocultural, economic, and political dimensions of practices of scientific research and technological development, to learn how our understanding of these practices and their products are shaped by language and communication, and to contemplate the philosophical questions raised by this enlarged perspective on the natural world, our place in it, and our obligations toward it.

The science, technology, and society major prepares students for a number of career paths in health, education, law, public policy, communications, and other fields. The environmental studies major prepares students for careers related to the exploration, management, preservation, and conservation of the natural environment. Both majors integrate the natural sciences (biology, chemistry, physics, and computer science), humanities (history, philosophy, and English), and social sciences (anthropology, political science, sociology, and psychology). Service learning and hands-on community service are strongly emphasized to afford students the opportunity to apply their knowledge to real-world problems and connect with community partners and potential employers.

Science, Technology, and Environmental Studies Student Learning Outcomes

Students majoring in science, technology, and society will:

- Analyze and investigate the interaction between science and technology and social forces (e.g., economics, culture, religion, and politics)
- Analyze and explain how science and technology influence and are influenced by language, communication, and practices of public translation and transmission
- Describe and assess the philosophical, scientific, and moral standards that should guide the conduct of scientific research and technological development
- Research, write, and speak from an interdisciplinary perspective about issues concerning science and technology as they relate to society

Students majoring in environmental studies will:

- Analyze and investigate the scientific basis of environmental issues facing both human societies and the rest of the living world in modern times
- Analyze and investigate challenges to solving environmental issues that stem from practical considerations tied to the political, economic, social, and ethical perspectives on the environment
- Research and communicate (in writing, orally, and symbolically) information from an interdisciplinary perspective pertaining to the environment

Degree Programs

- Major in Science, Technology, and Society (BA, BS)
- Major in Environmental Studies (BA, BS)
- Minor in Science, Technology, and Society
- Minor in Environmental Studies
Requirements for the Science, Technology, and Society Major

Core courses (12 hours):
- ST200, Introduction to Science Studies
- ST205, Science and Society Speakers Seminar (1-credit course that must be completed three times)

Two of the following:
- ST310, Social Studies of Science and Technology
- ST320, Philosophy of Science
- ST330, Language, Rhetoric, and Science

Eighteen hours of elective courses from various departments. Of these, 12 hours must be at the 300–400 level. A total of no more than three hours of independent study (ST401, ST402, or ST403) and/or internship credit (ST411–ST413 or ST416) can be used to satisfy this requirement. Additionally, no more than one of the research methods courses PS210, PS211, and SO393 may count toward this requirement.

Fifteen hours in the natural sciences and/or technology (engineering or computer science). One course from The Natural World requirement of the Core Curriculum can be used to satisfy part of this requirement. Natural science and/or technology courses that are also identified as science, technology, and society electives may be used either to satisfy the natural science/technology requirement or the elective requirement but not both. The 15 hours of science and/or technology courses are not understood to be part of the major, and as such, they may be counted toward a minor or major in a science and technology discipline.

Because of overlapping curricula, students may not double-major in science, technology, and society and environmental studies or combine a major in one of these areas with a minor in the other.

Requirements for the Science, Technology, and Society Minor

Core courses (7 hours):
- ST200, Introduction to Science Studies
- ST205, Science and Society Speakers Seminar (1-credit course that must be completed one time)

One of the following:
- ST310, Social Studies of Science and Technology
- ST320, Philosophy of Science
- ST330, Language, Rhetoric, and Science

Twelve hours of elective courses from various departments. Of these, nine hours must be at the 300–400 level. A total of no more than three hours of independent study (ST401, ST402, or ST403) and/or internship credit (ST411–ST413 or ST416) can be used to satisfy this requirement. Additionally, no more than one of the research methods courses PS210, PS211, and SO393 may count toward this requirement.

Ten hours in the natural sciences or technology (engineering or computer science). One course from The Natural World requirement of the Core Curriculum can be used to satisfy part of this requirement. Natural science and/or technology courses that are also identified as science, technology, and society electives may be used either to satisfy the natural science/technology requirement or the elective requirement but not both. The 10 hours of science or technology courses are not understood to be part of the minor, and as such, they may be counted toward a minor or major in a science and technology discipline.

Requirements for the Environmental Studies Major

Core courses (19 hours):
- ST200, Introduction to Science Studies
- ENV200, Introduction to Environmental Studies
- ST205, Science and Society Speakers Seminar (1-credit course that must be completed three times)
- ENV330, Geographic Information Systems

One of the following:
- ST310, Social Studies of Science and Technology
- ST320, Philosophy of Science
- ST330, Language, Rhetoric, and Science

Practical experience: three-credit requirement that can be satisfied by completing BL407, Environmental/Sustainability Practicum, an approved community-based internship, or another experiential learning course approved by the director.

Fifteen hours of elective courses from various departments. Of these, 12 must be at the 300–400 level. Further, six hours of the electives must be social science-related and another six must be humanities-related. A total of no more than three hours of independent study or internship credit can be used to satisfy this requirement. Additionally, no more than one of the research methods courses PS210, PS211, and SO393 may count toward this requirement.

Fifteen hours of natural science courses, of which the following courses are required:
- NW207, Ecology and the Natural Environment or BL230, Ecology and Evolutionary Biology—Fundamentals
- CH105, General Chemistry 1
- CH106, General Chemistry 2

The 15 hours of natural science courses are not understood to be part of the major, and as such, they may be counted toward a minor or major in a science and technology discipline.

Because of overlapping curricula, students may not double-major in science, technology, and society and environmental studies or combine a major in one of these areas with a minor in the other.
Requirements for the Environmental Studies Minor

Core courses (9 hours):
- ST200, Introduction to Science Studies
- ENV200, Introduction to Environmental Studies

One of the following:
- ST310, Social Studies of Science and Technology
- ST320, Philosophy of Science
- ST330, Language, Rhetoric, and Science

Nine hours of elective courses from various departments. Of these, six must be at the 300–400 level. Further, three hours of the electives must be social science-related and another three must be humanities-related. A total of no more than three hours of independent study or internship credit can be used to satisfy this requirement. Additionally, no more than one of the research methods courses PS210, PS211, and SQ303 may count toward this requirement.

Five hours of natural science credit is also required and can be satisfied by taking one of the following:
- NW207, Ecology and the Natural Environment
- BL230, Ecology and Evolutionary Biology—Fundamentals
- CH105, General Chemistry 1

The five hours of natural science courses are not understood to be part of the minor, and as such, they may be counted toward a minor or major in a science and technology discipline.

Core Course Offered by Science, Technology, and Society

SW280-ST, Science and Society: Introduction to key social, historical, rhetorical, and societal dimensions of a scientific field or discovery. Instructors will select the field or discovery but follow the same pedagogical model that emphasizes the methodological and theoretical approaches used by social scientists to acquire knowledge and understanding. (U/G)(3) Annually, term varies

Science, Technology, and Society Courses

ST200, Intro to Science and Technology Studies: An introductory survey of the variety of humanistic and social scientific approaches to the study of science and technology. Topics include the social, political, cultural, and economic structure of science and technology, scientific objectivity, scientific communication and rhetoric, and science education. (U)(3) Fall & spring

ST205, Science and Society Speakers Seminar: This course is a companion seminar to the Woods Lectures in the Sciences and Mathematics. In addition to attending all Woods Lectures during the semester, students will attend preparatory and follow-up sessions in which they learn about these scientists' work and their relation to broader societal issues. Students will have opportunities to interact personally with some of the world's leading scientists, mathematicians, and technologists. ST 205 can be completed a maximum of three times for credit. Prerequisite: ST200. (U)(3) Fall & spring

ST310, Social Studies of Science and Technology: This course investigates science and technology as sociocultural processes, institutions, and products. It explores how science and technology are embedded in society as a whole and how cultural variations affect their manifestations. Attention is given to the varying methods by which social scientists study science and technology. (U)(3) Annually, term varies

ST320, Philosophy of Science: An analysis of some philosophical questions about the natural sciences, including the problem of distinguishing science from pseudoscience, the nature of scientific explanation, the structure and confirmation of scientific theories, the relationship between theories in different scientific domains, scientific revolutions, and the relationship between science and reality. (U/G)(3) Occasionally

ST330, Language, Rhetoric, and Science: This course investigates how language and rhetoric influence the production and communication of scientific and technological knowledge. We investigate the language of science, its development and its conventions, and its use and misuse. We explore how social, economic, and political influences affect scientific language and communication. (U)(3) Annually, term varies

ST390, Topics in Science, Technology, and Society: An investigation of a topic in the study of science, technology, and society. (U/G)(3) Occasionally

ST395, Contemporary Controversies in Science and Technology: A seminar-based, speaking-intensive course that investigates current issues and controversies at the interface between science, technology, and society. Students will explore multiple perspectives of various topics through readings and the use of persuasive presentations, debates, and discussions. Prerequisites: ST200 and junior standing; or by permission of the instructor. (U)(3) Annually, term varies

ST401, Independent Study: Offers the qualified student of science, technology, and society the opportunity to pursue a topic of individual interest. Open only to juniors and seniors with the permission of the instructor and of the director of the STS program. (U/G)(1) Occasionally

ST402, Independent Study: Offers the qualified student of science, technology, and society the opportunity to pursue a topic of individual interest. Open only to juniors and seniors with the permission of the instructor and of the director of the STS program. (U/G)(2) Occasionally

ST403, Independent Study: Offers the qualified student of science, technology, and society the opportunity to pursue a topic of individual interest. Open only to juniors and seniors with the permission of the instructor and of the director of the STS program. (U/G)(3) Occasionally

ST411, Internship: Offers the qualified student of science, technology, and society the opportunity to participate in a supervised work experience in a position that will enhance the understanding of STS issues. Prerequisites: Junior standing plus ST200 and one 300-level STS course. (U)(1) Fall, spring, & summer
ST412, Internship: Offers the qualified student of science, technology, and society the opportunity to participate in a supervised work experience in a position that will enhance the understanding of STS issues. Prerequisites: Junior standing plus ST200 and one 300-level STS course. (U)(2) Fall, spring, & summer

ST413, Internship: Offers the qualified student of science, technology, and society the opportunity to participate in a supervised work experience in a position that will enhance the understanding of STS issues. Prerequisites: Junior standing plus ST200 and one 300-level STS course. (U)(3) Fall, spring, & summer

ST416, Internship: Offers the qualified student of science, technology, and society the opportunity to participate in a supervised work experience in a position that will enhance the understanding of STS issues. Prerequisites: Junior standing plus ST200 and one 300-level STS course. (U)(6) Fall, spring, & summer

ST499, Honors Thesis: (U)(3) Fall & spring

Science, Technology, and Society Elective Courses

Courses counting for elective credit come from various departments within the College of Liberal Arts and Sciences, as well as the Lacy School of Business, College of Communication, and College of Pharmacy and Health Sciences. A complete list of elective courses will be published on the program website each semester in advance of the advising and registration period.

Core Course Offered by Environmental Studies

NW207-BI, Ecology and the Natural Environment: This course will explore the foundational ecological principles that govern the interactions between species and the abiotic and biotic world and, in turn, determine patterns of distribution and abundance. Fundamental concepts of ecology at the population, community, and ecosystem levels will be emphasized. (U)(5) Spring

Environmental Studies Courses

ENV200, Intro to Environmental Studies: This course examines the concept of the environment from the standpoint of the humanities, social sciences, and natural sciences. (U)(3) Annually, term varies

ENV300, Environmental Science and Human Health: This course explores the fundamental principles of the physical and natural sciences behind ecosystems and environmental disruptions to inform an understanding of human-environmental interaction. Topics include: energy sources and energy utilization; air quality; water resources and pollution; agriculture and toxic substances; marine science and fisheries; and climate change and human environmental health. Prerequisite: CH106. (U)(3) Annually, term varies

ENV330, Geographic Information Systems: This course offers an introduction to the concepts, principles, and application of Geographic Information Systems (GIS). In this manner the course is both theoretical and practical, addressing the structure of geographic information systems and their use of spatial analysis and data management in environmental and related fields (e.g., political sciences, sociology, and journalism). (U)(4) Occasionally

ENV335, Water in a Changing World: Challenges and Solutions to Water Resource Science in the Face of Global Change: The broad goal of this course is to provide students with basic knowledge of the hydrologic cycle, how humans have impacted that cycle throughout history to the present, and the role water resource management plays in addressing challenges to water quality and availability in the face of global change. Taking an interdisciplinary approach, the course examines the ways in which science, policy, decision-making, ethics, and corporate approaches play out in the management of water in the urban context. Topics to be covered include the hydrologic cycle, water pollution, supply and demand, flooding, water scarcity and conflict, water challenges with global change, water technologies, solutions for water balance in a changing climate, and individual action. Prerequisite: Any one of the following: NW205, NW207, BI230, or with permission. (U)(3) Fall

ENV390, Topics in Environmental Studies: An investigation of a topic in environmental studies. (U)(3) Occasionally

ENV401, Independent Study in Environmental Studies: Offers the qualified student of environmental studies the opportunity to pursue a topic of individual interest. Open only to juniors and seniors with the permission of the instructor and of the director of the STES program. (U)(1–3) Occasionally

ENV411, Internship in Environmental Studies: Offers the qualified student of Environmental Studies the opportunity to participate in a supervised work experience in a position that will enhance the understanding of environmental issues. Open only to juniors and seniors with the permission of the director of the STES program. (U)(1–6) Occasionally

ENV499, Honors Thesis in Environmental Studies: (U)(3) Fall & spring

Environmental Studies Elective Courses

Courses counting for elective credit come from various departments within the College of Liberal Arts and Sciences, as well as the Lacy School of Business, College of Communication, and College of Pharmacy and Health Sciences. A complete list of elective courses will be published on the program website each semester in advance of the advising and registration period.
Sociology and Criminology

Administration
Krista M. C. Cline, PhD, Department Chair

Kenneth D. Colburn Jr., PhD; Jay Howard, PhD; Antonio V. Menendez, PhD; Katherine B. Novak, PhD; Marvin B. Scott, PhD

Associate Professor
Krista M. C. Cline, PhD

Instructor
Jess Butler, PhD

Department Website
www.butler.edu/sociology-criminology

Why Study Sociology and Criminology?

Sociology and criminology majors are taught the basics of human interactions and relationships and acquire an understanding of social life, social change, and the social causes and consequences of social behavior. As all human behavior is primarily social, sociology promotes an awareness and understanding of social and cultural issues, from the study of crime and deviance, to the study of social inequality and social welfare, to the study of racial, gender, and sexual diversity, to the study of globalization and multiculturalism. With an understanding of society and how the social context and social forces shape behaviors and an emphasis on strong critical-thinking and research skills, majors in sociology and criminology are well prepared for a wide range of opportunities after graduation.

Why Study Sociology and Criminology at Butler?

The Department of Sociology and Criminology aspires to be a cornerstone program in the social sciences, emphasizing writing and critical thinking, analytical skills, experiential learning, and an in-depth understanding of the changing world, including multicultural and global issues. The department provides comprehensive, sociology-based coursework in sociology, sociology with a specialization in social work and social policy, and criminology. Our program is distinguished by:

- A curriculum that emphasizes the connection between theory and practice. Students have numerous opportunities to apply what they have learned in the classroom to real-world settings and to everyday life.
- Majors that culminate in a capstone experience. Students undertake and complete an independent empirical research project in their senior year that demonstrates their mastery of sociology or criminology. Students present their research findings at the Butler Undergraduate Research Conference or a professional meeting.
- An emphasis on multicultural and global issues. Our curriculum introduces students to other cultures and societies and prepares them for participation in an increasingly diverse and multicultural world.
- Student participation in internships and service-learning courses. Internships in criminal justice, human services, business, and community contexts provide students with practical experience and career opportunities. Service-learning courses promote learning through the active participation of students in the local community.
- Student engagement in the research process. Students have many opportunities to engage in the research process and to collaborate with faculty on research projects.
- A curriculum that prepares students for the job market and for advanced study. Graduates of the department work in a wide range of employment fields, including human services, social policy agencies, the criminal justice system, health care, and business. Majors also pursue advanced professional degrees in law and social work, as well as degrees in sociology, criminology, and other related fields.
- Numerous student opportunities beyond the classroom. The department sponsors a chapter of Alpha Kappa Delta, an international honor society for sociology. The Student Sociology and Criminology Association is a student led organization that engages in volunteer opportunities, hosts movie nights to provide organized discussion on current event topics, and hosts career and graduate school panels.
- A diverse faculty of dedicated teachers and researchers. Faculty work closely with students and encourage student learning through hands-on experiences in and out of the classroom.

Sociology and Criminology Student Learning Outcomes

The core values of the Sociology and Criminology Department are placed squarely within a liberal arts tradition that strives to foster critical reflection, social awareness and responsibility, sociocultural diversity, and a global perspective. The department’s central mission is to:

- Foster a knowledge of social and cultural issues, theories, and research methods
- Cultivate students’ abilities to succinctly and clearly express this knowledge in oral and written form
- Provide opportunities for students to utilize these acquired skills in an applied context
- Develop an awareness of global and multicultural issues. Students will develop a perspective that emphasizes critical inquiry and reasoning to address challenging social problems. Ultimately, our program and curriculum cultivate values that will shape students into lifelong, active, responsible, and informed members of the greater community.

Degree Programs

- Major in Sociology (BA)
- Major in Sociology with a Specialization in Social Work and Social Policy (BA)
• Major in Criminology (BA)
• Combined Major in Sociology and Criminology (BA) (see Combined Majors)
• Combined Major in Sociology with a Specialization in Social Work and Criminology (BA) (see Combined Majors)
• Combined Major in Criminology and Psychology (BA) (see Combined Majors)
• Combined Major in Sociology with a Specialization in Social Work and Psychology (BA) (see Combined Majors)
• Minor in Sociology
• Minor in Criminology
• Minor in Immigration

Requirements for the Sociology Major
The major requires 39 hours plus an internship or service-learning course.

Major Core Requirements (15 hours)
• SW200SO, Understanding Society
• SO205, Contemporary Social Issues
• SO391W, Social Theory Seminar
• SO393, Research Methods Seminar
• SO486, Senior Research Seminar I
• SO487, Senior Research Seminar II

Note: SO499, Honors Thesis may be completed in place of SO486 and SO487.

Additional Area Requirements (24 hours)
At least one course from each of the following four areas:

• Sociocultural Institutions
  o SO301, Families and Gender Roles
  o SO303, Political Behavior, Politics, and Society
  o SO311, Law and Society
  o SO315, Film, Media, and Society
  o SO319, Mental Illness, Culture, and Society
  o SO351, Punishment and Society
  o SO353, Juvenile Justice and Delinquency Social Structure and Differentiation
  o SO357, Gender and Society
  o SO321, Crime and Society
  o SO323, Racial and Ethnic Relations
  o SO325, Class, Status, and Power
  o SO326, Gender, Race, and Crime
  o SO429, The Sociology of Racism

• Sociocultural Process and Integration
  o SO339, Violence, Media, and Culture
  o SO341, Self and Society
  o SO343, Popular Culture
  o SO345, Deviance and Social Control
  o SO347, Urban Community
  o SO349, Social Movements

• Global and Comparative Studies
  o SO351, Latin American Societies
  o SO353, European Societies
  o SO355, Global Society
  o SO350, Immigration
  o SO355, International Crime

An internship or service-learning course is required.

Requirements for the Sociology Minor
The minor comprises 21 hours. Core requirements (9 hours):
• SW200SO, Understanding Society
• SO391W, Social Theory Seminar
• SO393, Research Methods Seminar

Additional area requirements (12 hours): at least one course from each of the four concentration areas in sociology (see sociology major).

Requirements for the Sociology Major with a Specialization in Social Work and Social Policy
The major requires 39 credit hours plus an internship or service-learning course.

Major Core Requirements (15 credit hours)
• SW200SO, Understanding Society
• SO205, Contemporary Social Issues
- SO391W, Social Theory Seminar
- SO393, Research Methods Seminar
- SO486, Senior Research Seminar I
- SO487, Senior Research Seminar II

Note: SO499 Honors Thesis may be completed in place of SO486 and SO487.

**Social Work Practice Requirements (9 hours)**
- SO381, Social Work and Social Policy
- SO383, Social Work Methods
- SO385, Practice Skills in Social Work

**Additional Area Requirements (15 hours)**
At least one course from each of the following four areas:

- Sociocultural Institutions
  - SO301, Families and Gender Roles
  - SO303, Political Behavior, Polity, and Society
  - SO311, Law and Society
  - SO315, Film, Media, and Society
  - SO319, Mental Illness, Culture, and Society
  - SO351, Punishment and Society
  - SO353, Juvenile Justice and Delinquency
- Social Structure and Differentiation
  - SO317, Gender and Society
  - SO321, Crime and Society
  - SO323, Racial and Ethnic Relations
  - SO325, Class, Status, and Power
  - SO326, Gender, Race, and Crime
  - SO329, The Sociology of Racism
- Sociocultural Process and Integration
  - SO339, Violence, Media, and Culture
  - SO341, Self and Society
  - SO343, Popular Culture
  - SO345, Deviance and Social Control
  - SO347, Urban Community
  - SO349, Social Movements
- Global and Comparative Studies
  - SO331, Latin American Societies
  - SO333, European Societies
  - SO335, Global Society
  - SO350, Immigration
  - SO355, International Crime

An internship or service-learning course is required.

**Requirements for the Criminology Major**
The major requires 39 credit hours plus an internship or service-learning course.

**Major Core Requirements (15 hours)**
- SW200, SO, Understanding Society
- SO205, Contemporary Social Issues
- SO391W, Social Theory Seminar
- SO393, Research Methods Seminar
- SO486, Senior Research Seminar I
- SO487, Senior Research Seminar II

Note: SO499, Honors Thesis may be completed in place of SO486 and SO487.

**Additional Area Requirements (24 hours)**

*Law and Crime (5 courses; 15 hours)*
- SO321, Crime and Society and four of the following:
  - SO311, Law and Society
  - SO326, Gender, Race, and Crime
  - SO339, Violence, Media, and Culture
  - SO345, Deviance and Social Control
  - SO351, Punishment and Society
  - SO353, Juvenile Justice and Delinquency
Sociocultural Diversity (1 course; 3 hours)
- SO317, Gender and Society
- SO323, Racial and Ethnic Relations
- SO325, Class, Status, and Power
- SO329, The Sociology of Racism

Global and Comparative Studies (1 course; 3 hours)
- SO331, Latin American Societies
- SO333, European Societies
- SO335, Global Society
- SO350, Immigration
- SO355, International Crime

Sociology Elective (1 course; 3 hours): any other 300-level sociology course, excluding SO381, SO383, and SO385.
An internship or service-learning course is required.

Requirements for the Criminology Minor
The minor requires 21 credit hours.

Minor Core Requirements (9 hours)
- SW200SO, Understanding Society
- SO391W, Social Theory Seminar
- SO393, Research Methods Seminar

Additional Area Requirements (12 hours)
Crime and Law (3 courses; 9 hours)
- SO321, Crime and Society and two of the following:
  - SO311, Law and Society
  - SO326, Gender, Race, and Crime
  - SO339, Violence, Media, and Culture
  - SO345, Deviance and Social Control
  - SO351, Punishment and Society
  - SO353, Juvenile Justice and Delinquency
  - SO355, International Crime

Sociocultural Diversity (1 course; 3 hours)
- SO317, Gender and Society
- SO323, Racial and Ethnic Relations
- SO325, Class, Status, and Power
- SO329, The Sociology of Racism

Requirements for the Race, Ethnicity, and Immigration Minor
The minor requires 21 credit hours.

Minor Core Requirements (9 hours)
- SW200SO, Understanding Society
- SO350, Immigration
- SO391W, Social Theory Seminar
- SO393, Research Methods Seminar

Specialized Course Requirements (three of the following, 9 hours)
- SO323, Racial and Ethnic Relations
- SO326, Gender, Race, and Crime
- SO329, The Sociology of Racism
- SO331, Latin American Societies
- SO333, European Societies
- SO355, International Crime
- SO380 Special Topics*: The department will approve Special Topics courses which count towards the Race, Ethnicity and Immigration minor.

Sociocultural Diversity (1 course; 3 hours)
- SO317, Gender and Society
- SO323, Racial and Ethnic Relations
- SO325, Class, Status, and Power
- SO329, The Sociology of Racism
Core Course Offered by Sociology

SW200-SO, Understanding Society: An exploration of key concepts, research methods, and theoretical perspectives in sociology applied to a specific topic, theme, or set of topics. Concepts covered include culture, socialization, deviance, social structure, social stratification and inequality (including class, race, and gender), and social institutions. Prerequisite to all upper-level sociology courses. Counts for major/minor credit. (U)(G) Fall & spring

Sociology Courses

SO205, Contemporary Social Issues: Analysis of selected social problems in contemporary society using readings from both academic and popular sociological analysis. The emphasis of this course is on developing in students the ability to identify social phenomena, to understand how these causes may influence social policy, and to develop an ability to conduct basic research on social issues using social science methodology, including documentary and literature-based search skills from bibliographical databases and online web-based materials. Prerequisite: SW200-SO or any introduction to social sciences course. (U)(G) Fall

SO293, Statistics for Social Research: An introduction to statistical techniques and their application to problems in social research. This course covers descriptive and inferential statistics including measures of central tendency and variability, correlation, cross-classification, sampling and statistical inference, and an introduction to multivariate analysis. An emphasis is placed on the sociological application of such techniques, and on developing an understanding of when they are appropriate and the information that they yield. Students will also learn to use the computer in data analysis. Prerequisite: MA101 (or equivalent) or any AR course. (U)(G) Fall

SO301, Families and Gender Roles: The organization and functions of marriage and the family. Cross-cultural and historical perspectives provide background for analysis of contemporary family patterns. Prerequisite: SW200-SO. (U/G)(G) Occasionally

SO303, Political Behavior, Polity, and Society: An analysis of social power and decision-making in small groups, complex organizations, communities, and societies; social and personality factors, and political behavior; and political movements and social change. Prerequisite: SW200-SO. (U/G)(G) Occasionally

SO311, Law and Society: An analysis of the legal system, legal doctrines, and legal institutions as social phenomena. The focus is on law in action as it reflects the relationship between law and society. (U)(G)(G) Fall

SO315, Film, Media, and Society: This course examines how film and electronic media have impacted our cultural values and social institutions. Film and media will be studied sociologically both as a form of popular culture (symbolic analysis) and as a new social institution in its own right (structural analysis). Prerequisite: SW200. (U)(G)(G) Occasionally

SO317, Gender and Society: An examination of gender as a system of stratification and a social construction that changes over time and differs cross-culturally. Focus is on the structural and interactional aspects of gender inequality and the intersection of gender, class, race, and sexuality. Prerequisite: SW200. (U/G)(G) Occasionally

SO319, Mental Illness, Culture, and Society: A sociological analysis of mental health and mental illness. This course examines the social, cultural, and political factors involved in the definition of mental illness and the control of mental illness in society. Emphasis is placed on labeling theory; on the impact of status characteristics (e.g., race, social class, and gender) and social relationships on levels of stress and social functioning; and on legal and ethical issues associated with current health care trends, including the deinstitutionalization of mental patients and the movement toward community-based care. Prerequisite: SW200-SO or permission of the instructor. (U/G)(G) Occasionally

SO321, Crime and Society: An analysis of the definition and extent of crime; the impact of crime on society; and the theoretical explanations of crime, offending, and victimization. Prerequisites: SW200 and junior standing. (U/G)(G) Occasionally

SO323, Racial and Ethnic Relations: Analysis of the ethnic (including racial) composition of society, the minority group status of some ethnic groups, and the strains toward assimilation or cultural pluralism. Prerequisite: SW200-SO. (U/G)(G) Occasionally

SO325, Class, Status, and Power: A study of the dynamics of class and caste, class mobility, power, authority, influence, and prestige in different kinds of communities. Prerequisite: SW200-SO. (U/G)(G) Occasionally

SO326, Gender, Race, and Crime: Current sociological and criminological theories will be used to examine gender and crime, race and crime, and the intersection between the two. We will cover topics such as: men and women as offenders and as victims, domestic violence, child abuse, and juvenile delinquency. Prerequisite: SW200-SO. (U/G)(G) Occasionally

SO329, The Sociology of Racism: This course is designed for students interested in understanding how racism affects our social institutions and interactions. We will take a close look at understanding prejudices and myths about race. A clear retrospective will be explored in events that have influenced the establishment of racist institutions and behaviors. Prerequisite: SW200-SO or any introduction to social studies course. (U/G)(G) Occasionally

SO331, Latin American Societies: This course introduces the student to the culture and social structures of Latin American societies and aims at undermining the traditional stereotypes that have long been a part of Latin American images circulating throughout the United States. It examines in particular Latin America in the context of the globalizing of social life. Prerequisite: SW200-SO or any introduction to social sciences course. (U/G)(G) Occasionally

SO333, European Societies: Politics, Culture, Economics, and the Process of European Integration: This course acquaints the student with the culture, economics, and politics of Western Europe and with the general process of European integration. First, it provides a general overview of contemporary Western Europe and then emphasizes the workings of the European Union, introducing the student to the organization and functioning of the different institutions of the European Union and interpreting the meaning of this process within the global context. (U/G)(G) Occasionally

SO335, The Global Society: This course is about the constitution of the global system, and the processes which are reproducing and transforming the structures of globalization. The course acquaints the student with the process of worldwide economic, cultural, and political flows and provides an introduction to the organization and functioning of the global society. Prerequisite: SW200-SO or any introduction to social sciences course. (U/G)(G) Occasionally
SO339, Violence, Media, and Culture: This course examines the topic of crime in popular culture: crime as portrayed in print and electronic media, film, and entertainment industries. We will study the “popular” manifestation of crime as it exists in the stories reported by news media and in the cultural images produced for mass entertainment. (U)(3) Occasionally

SO341, Self and Society: The socialization of the individual; the bearing of culture and social structure on the formation of personality; and group influences upon human response and patterns of perception. Prerequisite: SW200-SO. (U/G)(3) Occasionally

SO343, Popular Culture: An examination of the role and function of popular culture in generating and sustaining a common realm of meaning and values in contemporary society. Popular works of fiction, television, film, sporting events, parades, etc. will be considered. Prerequisite: SW200-SO. (U/G)(3) Occasionally

SO345, Deviance and Social Control: The ways in which the discrepancies between social reality and the individual experience generate deviance, with emphasis on the roles of institutions and counter-institutions in maintaining or changing behavior patterns. Prerequisite: SW200. (U/G)(3) Occasionally

SO347, Urban Community: Urban origins; the genesis of the modern city; and the metropolitan area and region’s structure, ecology, problems, and programs for their control. Prerequisite: SW200. (U/G)(3) Occasionally

SO349, Social Movements: Analysis of representative economic, political, religious, and other social movements, defining typical lines of genesis, objectives, structures, leadership, and methods of operation. Prerequisite: SW200-SO. (U/G)(3) Occasionally

SO350, Immigration: This course examines immigration to the United States from the 19th century to the present, with emphasis on the last 50 years. During this time, the United States has often been seen as a country of immigrants who have played a major role in defining the society and culture of the country. This course considers the various issues that have dominated the debate over immigration and immigration policies in the United States and other countries. Prerequisite: SW200-SO. (U)(3) Annually, term varies

SO351, Punishment and Society: Analyzes the incidence of deviance and crime, and the different approaches to social control and prevention of crime. It offers an introduction to penology and corrections and explores public reaction to contemporary corrections. Prerequisite: SW200-SO. (U/G)(3) Occasionally

SO353, Juvenile Justice & Delinquency: This course will focus on the topic of childhood and juvenile justice from a sociological perspective. We will examine how society provides a framework for how we understand, interact with, and pattern our relationships with children in general and with “delinquent” children in particular. Prerequisite: SW200. (U/G)(3) Occasionally

SO355, International Crime: This course is intended to introduce students to the basic concepts and problems of international crime and international law. It will also address the definition, detection, prosecution, sentencing, and impact of international crime, including terrorism. Special consideration is given to the role of international law, including international organizations and enforcement practices. The course will cover the major topics in the international legal system, such as the sources and subjects of international law, the jurisdiction of states (relationship between international law and the internal law of states), and the use of force. Prerequisite: SW200-SO or any introduction to social sciences course. (U)(3) Occasionally

SO360, Selected Topics in Criminology: Designed to give the advanced undergraduate student academic flexibility. Likely topics are policing a democratic society, ethical issues in criminal justice, legal aspects of law enforcement, history of the criminal justice system, and crime in comparative perspective. Prerequisite: SW200-SO. (U/G)(3) Occasionally

SO370, Selected Topics in Social Work: An in-depth analysis of the theory, methodology, and subject matter in an area not provided for in the current offerings of the department. Prerequisite: SW200-SO. (U)(3) Occasionally

SO380, Selected Topics in Sociology: An in-depth analysis of the theory, methodology, and subject matter in an area not provided for in the current offerings of the department. Prerequisite: SW200-SO. (U/G)(3) Occasionally

SO381, Social Work and Social Policy: The history and types of public and private social work in the United States from early colonial times to the present. Prerequisite: SW200-SO or permission. (U/G)(3) Fall

SO383, Social Work Methods: An introduction to social work fields of practice and the methods used by social work professionals. Prerequisite: SO381 or permission. (U/G)(3) Spring

SO385, Practice Skills in Social Work: This foundation practice course focuses on basic social work theories and skills that are necessary when working with a wide variety of client systems: individuals, families, small groups, communities, and organizations. Students will have opportunities to learn about themselves and will examine their personal values and any conflict between personal and professional values so they are able to practice with diverse populations in a confident and professional manner. Prerequisite: SO381 or permission. (U/G)(3) Spring

SO391, Social Theory Seminar: An historical and analytical survey of major contributions to social theory with major emphasis upon late 19th-century, 20th-century, and contemporary developments. Prerequisites: SW200, two sociology courses, and junior standing. (U)(3) Spring

SO393, Research Methods Seminar: The principal methods of social research—formation of research problem concepts and hypotheses; measurement and data collection and analysis; and reporting of research. Prerequisites: SW200, SO293 or equivalent, and junior standing. (U/G)(3) Fall & spring

SO461, Directed Research: An independent research experience in which students assist a faculty member on a research project. Activities may include library research, data collection, data entry, and data analysis. Prerequisites: Permission of the instructor, two courses in sociology, and junior standing. (U)(1) Fall & spring

SO462, Directed Research: An independent research experience in which students assist a faculty member on a research project. Activities may include library research, data collection, data entry, and data analysis. Prerequisites: Permission of the instructor, two courses in sociology, and junior standing. (U)(2) Fall & spring
SO463, Directed Research: An independent research experience in which students assist a faculty member on a research project. Activities may include library research, data collection, data entry, and data analysis. Prerequisites: Permission of the instructor, two courses in sociology, and junior standing. (U)(3) Fall & spring

SO481, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. Open to seniors and juniors with permission of the department chair. (U/G)(1) Fall & spring

SO482, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. Open to seniors and juniors with permission of the department chair. (U/G)(2) Fall & spring

SO483, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. Open to seniors and juniors with permission of the department chair. (U/G)(3) Fall & spring

SO484, Internship: A program offering the superior student the opportunity to participate in a closely supervised work experience in a setting pertinent to the major area of study. Majors are strongly encouraged to engage in the internship experience. Prerequisites: SW200-SO, 10 hours in sociology, and permission of the department chair. (U/G)(3) Fall & spring

SO485, Internship: A program offering the superior student the opportunity to participate in a closely supervised work experience in a setting pertinent to the major area of study. Majors are strongly encouraged to engage in the internship experience. Prerequisites: SW200-SO, 10 hours in sociology, and permission of the department chair. (U/G)(6) Fall & spring

SO486, Senior Research Seminar I: First of a two-course sequence in the senior year. Capstone experience with emphasis on synthesis, integration, and application of theories and methods in completion of an independent student research project. Proposal, IRB approval, and data collection are expected. Prerequisites: SO391, SO393, and senior standing. (U)(2) Fall

SO487, Senior Research Seminar II: Second of a required two-course sequence. Capstone experience with emphasis on synthesis, integration, and application of theories and methods in completion of an independent student research project. Data collection and analysis, final paper, and URC presentation are expected. Prerequisite: A grade of C- or above in SO486. (U)(1) Spring

SO499, Honors Thesis: (U)(3) Fall
College of Education

Administration
Ena Goodrich Shelley, PhD, Dean; Debra Lecklider, PhD, Associate Dean; Angela Lupton, MS, Assistant Dean; Katie Russo, MS, Assistant Dean

Professors
Stephen Bloom, PhD; Deborah Corpus, EdD; Arthur Hochman, EdD; Thomas Keller, EdD; Sunetra Kercood, PhD; Debra Lecklider, PhD; Matthew Maurer, PhD; Ena Goodrich Shelley, PhD

Associate Professors
Kathryn Brooks, PhD; Kelli Esteves, EdD; Ryan Flessner, PhD; Shelly Furuness, PhD; Brooke Kandel-Cisco, PhD; Meredith McAllister, PhD; Brandie Oliver, EdD; Catherine Pangan, EdD; Mindy Welch, PhD

Assistant Professors
Nicholas Abel, EdD; Susan Adams, PhD; Susan Adamson, PhD; Lisa Farley, EdD;

Instructors
Brandon Cole, MS; Lori Desaults, PhD; Art Furman, MA; Erin Garriott, MS; Cathy Hargrove Hartman, MS; Jill Jay, PhD; Theresa Knipstein-Meyer, MS; Angela Lupton, MS; Richard Mitchell, MS

Chair of Undergraduate Learning and Teaching Teams
Deborah Corpus, EdD

Chair of Graduate Learning and Teaching Teams
Brooke Kandel-Cisco, PhD

Director of EPPSP
Jill Jay, PhD

Director of School Counseling
Tom Keller, EdD

Director of METL and International Baccalaureate Program

Accreditation Coordinator
Karen Farrell, MS

Licensure, Placement, and External Relations
Katie Russo, MS

Curriculum Coordinator
Shelly Furuness, PhD

Coordinator for Global Experiences
Kelli Esteves, EdD

College Website
www.butler.edu/coe

The Butler University College of Education was created in 1930 when Butler’s Department of Education, established in 1919, and the Teachers College of Indianapolis, founded in 1892, combined. The College of Education has two major purposes:

- Preparing teachers, counselors, and administrators for positions in elementary education and middle/secondary education
- Providing services to schools and allied professionals, educational organizations, agencies, and the general community through surveys, consultative services, research, cooperative studies, and clinical services

The College offers curricula leading to the bachelor of science degree in elementary education or the bachelor of science degree in middle/secondary education. The programs in teacher education include field and clinical experiences throughout the curriculum, with the capstone experience being integrated laboratory and student teaching. Butler University teacher education programs are accredited by the Indiana Office of Educator Effectiveness and Licensing (OEEL) and the National Council for Accreditation of Teacher Education (NCATE), and they are now affiliated with the Council for Accreditation of Educator Preparation (CAEP), the new accrediting body for educator preparation.

Graduation Requirements
All undergraduate students who plan to teach in an elementary, middle, or high school must complete the bachelor’s degree. Candidates must satisfactorily complete a minimum of 126 semester hours of college coursework. They also must meet all requirements listed under respective program areas.
At least 40 of the 126 semester hours needed for graduation must be in upper-division courses—courses numbered 300 or above. Student teaching is required for initial licensure programs.

**Educational Placement**

The College of Education has moved to entirely self-managed credentials. Self-managed files are appropriately responsive and practical in the era of portfolios and electronic applications and communications. Current job listings can be found through Butler’s Internship and Career Services website, at www.butler.edu/ics, or on individual school district websites.

**Teacher Education Undergraduate Transition Points**

The College of Education has set four transition points for delineation and progress through the licensure/degree program. Annual updates will be made available at www.butler.edu/coe.

**COE Core I and COE Core II**

To complete COE Core I and COE Core II, students must meet the following criteria:

- A cumulative GPA of 2.8. A cumulative GPA of 2.8 as well as completion of state testing requirements is required of anyone transferring from another college within the University to the COE.
- A grade of C or higher in FYX101 and FYX102. A student receiving a grade of C- or below in either class must either repeat the class and receive a grade of C or above or obtain a grade of C or above in a comparable or higher-level class.
- Successful completion of COE Core I (grades of C or above). Core I comprises ED112, Introduction to the Profession of Teaching; (Music Education Majors—ME101, Foundations in Music Education I); ED245, Introduction to Computers in Education; (Music Education Majors—ME102, Foundations in Music Education II).

The Indiana State Department of Education requires that all candidates demonstrate basic skills proficiency for admission to an education program. The following assessments/routes are used to document basic skills proficiency at the time of admission:

- ACT score of 24 or above (composite score).
- SAT score of 1,100 or above (math and verbal).
- Evidence of passing scores on the Core Academic Skills Assessment (CASA). Cut-off scores in each of the three areas are: Reading=220, Math=220, Writing=220. Passing scores must be received one week prior to the start of classes each semester.

- Successful completion of COE Core II (grades of C or above). Core II comprises ED299, Integrated COE Core II Block or the following three courses: ED241, Developmental Theory and Application in Education; ED242, Educating Children with Special Needs; and ED244, Concepts of Education.

- Students also must complete a Philosophy of Teaching Statement and attain satisfactory scores on the COE Student Disposition Assessment or provide evidence of satisfactory remediation.

**Apply to Teacher Education/COE Core III (End of COE Core II)**

Upon completion of COE Core I and COE Core II, any student who wishes to be admitted to the Teacher Education program must complete the application available at www.butler.edu/coe and meet the following criteria:

- Recommendation by the student’s program area and by the COE Recruitment, Retention, and Recognition Committee.
- Cumulative GPA of 2.8.
- Completion of approved professional education courses with no grade lower than a C (C- is not acceptable). These courses are: ED112, ED245, and ED299 or the following three courses: ED241, ED242, and ED244. Any course resulting in a grade of C- or lower must be repeated to attain a grade of C or above.
- Satisfactory completion of appropriate clinical and field experiences.
- A grade of C or above in the major. A class in the major with a grade of C- or below may be repeated to attain a grade of C or above. With the advisor’s permission, the student may instead substitute an equivalent course and attain a grade of C or above.
- Satisfactory progress in completing requirements for a specific major.

A decision based on the criteria above by a College committee (with appropriate program representation) determines the student’s eligibility to continue in the program.

**COE Core III: Program-Specific**

To enter COE Core III, the student must have successfully completed COE Core I and COE Core II and must be admitted to teacher education based on the aforementioned criteria.

**Apply to COE Core IV: Student Teaching**

- Candidates for student teaching must have completed COE Core I, COE Core II, and COE Core III, and been admitted to teacher education.
- During the first semester of the junior year, candidates for student teaching must obtain a student teaching application available at www.butler.edu/coe. Completed applications (except for fall semester grades) are to be submitted to the advisor by the published due date; fall semester grades are then added to this application. Failure to meet the deadline may jeopardize student teaching placement.
- Candidates must have a cumulative GPA of 2.8.
- At least 15 semester hours must be taken at Butler University to qualify for admission to teacher education and student teaching.

A decision is made by the program area for admittance to COE Core IV and is based on disposition assessment rubrics and grades. Students who do not meet these criteria may appeal in writing to the Administrative Team of the College of Education and may be asked to appear in person.
COE Core IV: Student Teaching and Internship

State licensure tests, CPR/Heimlich certification, and evidence of suicide prevention training are required for initial licensure.

Recommendation for licensure is made by program area based on disposition assessment rubrics and grades.

Elementary Education

In addition to receiving a comprehensive liberal arts background, students in the Elementary Education program are prepared for teaching and instructional leadership in elementary schools. With extensive site-based instruction, students learn alongside their professors, through guided practice and reflection that increases in scope over time, culminating in a full year of student teaching. Students will be in the classroom, working with children and program faculty, for seven of their eight semesters. The elementary program and its faculty emphasize learning through doing, collaborative inquiry, a nurturing environment, and the development of a professional identity. By completing the program and all required standardized tests, students will meet state licensing requirements for grades K–6. Minors and/or licensing are also available in Reading Teacher—Elementary, Special Education—Mild Interventions, Diverse Learners, English as a New Language, Early Childhood, Recreation and Sports Studies, and Sport Coaching. Specific curriculum requirements are available at www.butler.edu/coe. This program addresses these University Student Learning Outcomes:

- Students will articulate and apply required content knowledge within their area(s) of study (cognitive).
- Students will communicate clearly and effectively (psychomotor).
- Students will share their talents with Butler and the greater community at large (affective).

Middle/Secondary Education

The Middle/Secondary Education program is committed to preparing teachers and other professionals to work toward achieving our College’s core values and shared vision for education. We believe all our programs must prepare our candidates for schools and communities as they should be, not simply perpetuating them as they currently exist. The program is a comprehensive teacher education program that combines in-depth preparation in the academic content areas of English, mathematics, science (biology, chemistry, physics), social studies, physical education, health education, or foreign language (French, German, Spanish) with the professional teacher education skills necessary for success in educational contexts for undergraduates seeking licensure in grades 5–12 in these areas.

Indiana teacher licensure for physical education, health education, and music education is P–12. Minors and/or licensing are also available in English as a New Language, Special Education—Mild Interventions, Reading Teacher—Secondary, Recreation and Sports Studies, and Sport Coaching. Specific curriculum requirements for each content area are available at www.butler.edu/coe.

The program is grounded in a set of beliefs, which serves as a compass to guide the work we do with students within our program. They are the principles that we hope will guide the work our candidates will do with their future students. We believe in the following:

Primacy of the Learner

Core Value: Diversity and Similarity

- Meeting the needs of the learner through the development of caring relationships is the most important part of our work.
- Learner needs are social, cultural, linguistic, developmental, physical, emotional, and cognitive in nature.
- Meeting the foregoing needs provides safe opportunities for learners to take risks that lead to individual growth.
- Learners come first.

Ethic of Care

Core Value: Integrity and Responsibility

- Our work with students, schools, teachers, the community, and each other will be grounded in an ethic of care, compassion, honesty, respect, and transparency.
- Developing caring relationships creates space for transformative experiences to happen.

Significance of Knowledge Base

Core Value: Collaboration of Theory and Practice

- Content knowledge and pedagogical knowledge are inextricably intertwined.
- Theory and practice are linked, but ever-changing. This means we must intentionally model lifelong learning.
- Having a deep understanding of this knowledge base strengthens educators’ ability to make informed curriculum decisions in the classroom.

Integrated Inquiry Curriculum

Core Value: Collaboration of Theory and Practice

- Content areas are integrated through meaningful connections and shared assessments.
- An inquiry mindset is modeled by learning alongside our students and being open to living with uncertainty and yet-to-be-answered questions.

Site-Based Collaborative Experiences

Core Value: Teaching, Learning, and Mentoring

- Placements are purposeful, and community stakeholders are considered a part of the larger learning community.
- Relationships are nurtured with classroom teachers, University supervisors, and faculty.
- Collaboration is seen as an intentional part of an educator’s work.
Undergraduate Minors in the COE

Education Minor
(This minor is open to all Butler University students regardless of their college or major field of study.)

- ED112, Introduction to the Profession of Teaching (2)
- ED245 or ED371: Introduction to Computers in Education or Introduction to Information Literacy (3)
- ED241, Developmental Theory and Application in Education (3)
- ED242, Educating Children with Special Needs (2)
- ED244, Concepts of Education (3)
- ED398 or ED404: Multilingual Learners & Their Cultural Contexts (3)
- ED490, Assessment of Students with Special Needs (3)
- ED491, Behavior Management for Inclusive Classrooms (3)
- ED492, Special Education Law (online) (1)
- ED493, Professional Seminar: Mild Intervention (3)
- ED498, Multilingual Learners and Their Cultural Contexts (3)
- ED408, Foundations of Effective Reading Instruction (3)
- ED454, Assistive Technology (3)
- ED479, Communication and Collaboration with Stakeholders (3)
- ED491, Behavior Management for Inclusive Classrooms (3)
- PE325, Adapted Physical Education (3)
- ED492, Special Education Law (online) (1)
- ED493, Professional Seminar: Mild Intervention (3)

Total Hours: 19

Note: ED371 is offered on a limited basis.

Note: ED299 (8) may be taken instead of ED242 (2).

Mild Intervention Minor
(This minor is open to all Butler University students regardless of their college or major field of study.)

- ED242, Educating Children with Special Needs (2)
- ED243, Methods and Materials: Strategies for Teaching Students with Mild Disabilities (3)
- ED492, Special Education Law (online) (1)

Choose Four:
- ED408, Foundations of Effective Reading (3)
- ED454, Assistive Technology (3)
- ED479, Communication and Collaboration with Stakeholders (3)
- ED490, Assessment of Students with Special Needs (3)
- ED491, Behavior Management for Inclusive Classrooms (3)
- PE325, Adapted Program in Physical Education (3)
- ED493, Professional Seminar: Mild Intervention (3)

Total Hours: 18

Note: ED299 (8) may be taken instead of ED242 (2).

Note: Licensure in MI, with additional coursework and passing the state-approved licensure exams, is only available to students pursuing an elementary license.

Diverse Learners Minor
(This minor is open to all Butler University students regardless of their college or major field of study.)

- ED242, Educating Children with Special Needs (2)
- ED241, Developmental Theory and Application in Education (3)
- ED243, Methods and Materials: Strategies for Teaching Students with Mild Disabilities (3)
- ED398, Multilingual Learners and Their Cultural Contexts (3)
- ED491, Behavior Management for Inclusive Classrooms (3)
- ED492, Special Education Law (online) (1)
- ED498, Methods for Teaching Multilingual Learners (3)
- ED404, Differentiation: Culturally Responsive Teaching (3)

Note: ED299 (8) may be taken instead of ED242 (2).

Total Hours: 18

Reading Teacher Minor—Elementary
Completion of Blocks A and B in the Elementary Education Program

- ED408, Foundations of Effective Reading Instruction (3)
• ED307, Children’s Literature or ED420: Adolescent Literature (3)
• ED404, Differentiation—Culturally Responsive Teaching in Early Childhood (3)
• CSD240, Introduction to Phonetics (3) or CSD231: Introduction to Communication Science & Disorders (3)
• ED415, Methods for Teaching Language Arts K–8 (3)

Required: 3.0 minimum GPA in the reading courses in Blocks A and B and the courses listed above; disposition scores of 3 or higher in literacy classes that use the disposition assessment (ED303, ED908, ED908, and ED228).
Total Hours: 15
Note: Students pursuing the Elementary Reading Teacher license must pass the state-approved licensure exams.

**Reading Teacher Minor—Secondary**

• ED228, Content Area Literacy in Middle-Secondary Curriculum (3)
• ED398, Multilingual Learners and Their Cultural Contexts (3)
• ED498, Methods for Teaching Multilingual Learners (3)
• ED408, Foundations of Effective Reading Instruction (3)
• ED420, Adolescent Literature (3)
• ED308, Reading and Language Arts—Middle Childhood (6) or CSD240, Introduction to Phonetics (3)
• ED415, Methods for Teaching Language Arts K–8 (3)

Total Hours: 21–24

**English as a New Language Minor**

• ED398, Multilingual Learners and Their Cultural Contexts (3)
• ED408, Problems in the Teaching of Reading (3)
• ED490, Assessment/Evaluation of Children with Differences (3)
• ED498, Methods for Teaching Multilingual Learners (3)
• ED469, Second Language Acquisition and Assessment (3)

Total Hours: 15, plus student teaching (if pursuing licensure)

Note: Students pursuing the ENL license must have a student teaching experience in an ENL classroom with a licensed ENL teacher at the developmental level of their primary license and pass the state-approved licensure exams.

**Early Childhood Minor**

Required completion of the K–6 license

• ED243, Methods and Materials, Mild Intervention (3)—offered fall and spring
• ED307, Children’s Literature (3)—offered fall and spring
• ED404, Differentiation and Culturally Responsive Teaching in Early Childhood (3)—offered fall and spring (recommended for sophomores and above)
• ED412, Reggio-Inspired Teaching and Documentation of Learning (3)—offered fall only
• ED417, Methods of Teaching in Early Education (3)—offered spring only

Note: Students pursuing the Early Childhood license must have a student teaching experience in an early childhood classroom with a licensed early childhood teacher and pass the state-approved licensure exams.
Total hours: 15, plus student teaching (if pursuing licensure)

**Recreation and Sports Studies Minor**

(This minor is open to all Butler University students, regardless of their college or major field of study.)

Required Courses (15 hours)

• PE127, Introduction to HPERD (Health, Physical Education, Recreation, and Dance) (2)
• PE147, Prevention and Treatment of Injuries (3)
• PE124, Experiential Education (1)

Choose three of six courses in the Skills Series PE202–207

• PE202, Basketball/Soccer (1)
• PE203, Pickleball/Golf (1)
• PE204, Tennis/Badminton (1)
• PE205, Ultimate Frisbee/Team Handball (1)
• PE206, Softball/Volleyball (1)
• PE207, Cross Country/Track & Field (1)

• PE240, Foundations of Fitness and Health (2)
• PE261, Theory and Practice of Coaching (2)

Elective Courses (5+ hours)

• PE228, Water Safety Instructor (2)
- PE235, Educational Gymnastics (2)
- PE237, Educational Dance and Games (3)
- PE312, Officiating Volleyball (2)
- PE312, Officiating Basketball (2)
- PE339, Recreation Program Design (2)
- PE339, Event and Facilities Management (2)
- PE450, ACE Personal Training (1)
- Dance for Non-majors (in JCA) (1)
- PX210, Building a Better Bulldog (3)
- MK495, Special Topics, Sports Marketing (3)

Total hours: 18

**Sport Coaching Minor**

(This minor is open to all Butler University students regardless of their college or major field of study.)

- PE127, Introduction to HPERD (2)
- PE147, Prevention and Treatment of Injuries (3)

Choose one of six courses in the Skills Series PE202–207

- PE202, Basketball/Soccer (1)
- PE203, Pickleball/Golf (1)
- PE204, Tennis/Badminton (1)
- PE205, Ultimate Frisbee/Team Handball (1)
- PE206, Softball/Volleyball (1)
- PE207, Cross Country/Track & Field (1)
- PE240, Foundations of Fitness and Health (2)
- PE261, Theory and Practice of Coaching (2)
- PE408, National Federation of High School Sports AIC Level 1 (2)
- One sport-specific course of your choice ($85–75 course fee)
- PE407, National Federation of High School Sports AIC Level 1 (1)
- First Aid, Health, and Safety for Coaches ($45 course fee)
- PE369, Supervised Field Experiences for Coaches (3)
- ED348, Perspectives in Leadership (3)

Total Hours: 19

**Core Courses Offered by Education**

AR215-COE, Mathematical Meaning Making in the Everyday World: This course will provide developmentally appropriate strategies for understanding mathematical content beyond procedural replication. Based in research about how we learn, we’ll begin with concrete materials and move to abstract computations. Students will learn basic concepts like probability, division of fractions, and a variety of functions appear in everyday life. (U)(3)

Spring

NW260-COE, Earth Systems Science: In this course, we will use an earth systems perspective to view environmental phenomena, such as global climate change, and the impact of humans on the environment. By the end of the class, students will gain an awareness of some significant scientific theories and achievements, and recognize how they are related both to other areas of science and to our understanding of broader societal issues. In addition, students will develop an understanding of the methods of natural science and a capacity to reason scientifically, as well as experience first-hand the scientific process method through discovery-based learning. (U)(3)

Fall

PCA205-COE, Art and Exceptionality: Students will gain an understanding of the importance of art in our lives by exploring the intersections of art and people with exceptionality; creating art with exceptional students at VSA Indiana (on-site); and examining our own abilities and perceived disabilities in relation to thinking and engaging creatively. (U)(3)

Occasionally

SW219-COE, World Geography through Media & Maps: Geography is the study of the Earth and its relationship to humans and human activities. This course will examine both the physical and cultural aspects of the Earth and its inhabitants. This includes topics such as major urban concentrations, descriptive physical characteristics of continents and countries, political subdivisions, and general man-land relationships that reflect cultural preferences. Class experiences will include map study activities to enhance investigating the Earth, its systems, and the human/environment interaction. (U)(3)

Education Courses

ED112, Introduction to the Profession of Teaching: This introductory course helps potential teachers explore the essential questions: How do people learn? What is curriculum and where does it come from? What is the teacher’s role in the school? What role does the community take in the education of children? Do I want to be a teacher? (U)(2) Fall, spring, & summer

ED204, Infusing Arts in Early & Middle Childhood Curriculum: This course is designed to prepare the pre-service teacher to use the fine arts of dance, music, theatre, and visual arts to enrich classroom life and enhance learning across the curriculum, as well as to enhance personal aesthetic development. Prerequisite: Completion of COE Core I. (U)(4) Fall & spring
ED206, Intro to Early and Middle Childhood Education: This course explores the history and philosophy of early and middle childhood education including significant trends and research. Students will be introduced to the guiding themes of the Early and Middle Childhood Education program. (U)(3) Fall & spring

ED227, Introduction to Middle and Secondary Students and Schools: This course introduces middle school and high school structures and philosophies. Students will investigate appropriate school environments, activities, and curricular organization aimed at meeting the range of developmental needs of early adolescents and young adults. Field experience is required. Prerequisites: COE major and completion of COE Core I; may co-enroll in COE Core II and ED228. (U)(3) Fall & spring

ED228, Content Area Literacy in Middle-Secondary Curriculum: This course introduces content area literacy instruction in the middle and secondary classroom. Students will acquire the skills necessary to select strategies and plan content-specific literacy instruction to improve comprehension of subject-specific content for middle school and high school students. Field experience is required. Prerequisites: Completion of COE Cores I and II; ED227 or co-enrollment. (U)(3) Fall, spring, & summer

ED241, Developmental Theory & Application in Education: Topics include theories of development and their application at various age levels. Developmentally appropriate practice as well as a basic introduction to social, moral, emotional, and cognitive development of children and adolescents is included. Content is focused on teacher education. Prerequisites: Successful completion of COE Core I and Praxis I. (U)(3) Fall, spring, & summer

ED242, Educating Children with Special Needs: Surveys the characteristics of exceptional children and explores methods and materials for teaching and assessing such students. Prerequisites: Successful completion of COE Core I and CASA. (U)(2) Fall, spring, & summer

ED243, Methods & Materials: Strategies for Teaching Students with Mild Disabilities: This course examines the application of research-validated practices in the areas of placement, differentiated instruction and assessment, adaptations to curriculum, and instructional strategies used for students who require support in the general education classroom or resource room. (U)(3) Fall & spring

ED244, Concepts of Education: Examines the sociological, historical, political, legal, and economic concepts in education. This course is part of the COE Core II requirements. Prerequisites: Successful completion of COE Core I and Praxis I. Sophomore standing required or permission of instructor. (U)(3) Fall, spring, & summer

ED245, Introduction to Computers in Education: This class emphasizes development of knowledge, skills, and dispositions to effectively use technology to enhance learning. The secondary goal is to advance skill with computer hardware/software for classroom management purposes. (U)(3) Fall, spring, & summer

ED299, Integrated Core II Block: Topics include: social, emotional, moral, physical, and cognitive development theories; learning theory; developmentally appropriate practice; exceptional learners, and the methods and materials for working with them; universal design for learning; current issues that influence professional practice; and sociological, historical, political, legal, and economic issues of the field. 15 hours of supervised field work. Prerequisites: COE Core I and CASA or state-approved alternative. (U)(3) Fall & spring

ED301, Individualized Study of Growth: (U)(1) Fall & spring

ED302, Individualized Study of Growth: (U)(2) Fall & spring

ED303, Reading & Language Arts: Early Childhood: This course will provide students with opportunities to explore current theoretical perspectives of emergent and early literacy. Students will explore a wide variety of narrative and informational texts that support literacy growth, and they will gain practical experience in emergent and early instruction and assessment. Writing-intensive. Prerequisite: Completion of COE Cores I and II. (U)(3) Fall & spring

ED304, Children's Literature: This introductory course in children's literature is designed to acquaint and develop an appreciation for a wide variety of traditional and contemporary literature available for children. Pre-service students are provided opportunities to prepare, present, and evaluate the effective use of literature in curriculum planning. (U)(3) Fall & spring

ED305, Reading & Language Arts: Middle Childhood: Students will explore the nature of literacy for middle childhood, including current theoretical perspectives on developing literacy. Students will gain practical experience in instruction and assessment for developing readers. Writing-intensive. ED308S, ED317S, ED341S, and ED348S are taken as a block, fulfilling the Indianapolis Community Requirement. Prerequisite: Completion of COE Cores I and II. (U)(6) Fall & spring

ED306, Teaching Mathematics: Early Childhood: This course examines how primary grade children learn mathematics while exploring instructional strategies, supportive learning environments, and materials that promote meaningful learning. Emphasis on effective teaching and learning will include child development, lesson development, planning, guidance, assessment, evaluation, and professionalism. Prerequisite: Completion of COE Cores I and II. (U)(3) Fall & spring

ED307, Teaching Social Studies: Middle Childhood: This course provides students with the theoretical and practical foundation for teaching social studies in middle childhood settings. Through readings, discussions, projects, and presentations, students explore the conceptual framework that undergirds the social studies. On-site practical experiences provide a laboratory in which to integrate curriculum and reflect on teaching experiences. ED308S, ED317S, ED341S, and ED348S are taken as a block, fulfilling the Indianapolis Community Requirement. Prerequisite: Completion of COE Cores I and II. (U)(2) Fall & spring

ED308, Curriculum and Instruction Strategies for the Middle Grades: This course involves the study of a variety of curriculum designs and instructional strategies utilized at the middle grade level. Emphasis is placed on strategies and innovative middle-level programs and practices. Extensive field experience is required, and portions of the course are conducted off campus. Prerequisites: ED227, ED228, and completion of COE Cores I and II. (U)(3) Fall, spring, & summer
ED420, Adolescent Literature & Strategies for Teaching: This hybrid course familiarizes students with a wide variety of fiction aimed at young adolescent through young adult audiences and includes multicultural and ethical considerations. At the same time, good teaching and planning strategies will be modeled and practiced. Portions of this course are conducted in an online setting. Prerequisites: Completion of COE Core I, ED227, ED228, and ED327 or ED346.
ED423, Student Teaching Jr/Middle High: Taken in conjunction with ED425. Practical experience in approved schools under the guidance of supervising teachers and University professors. Prerequisites: Permission of the director of student personnel services and completion of COE Cores I, II, and III. (P/F)(U)(5) Fall & spring

ED425, Secondary Student Teaching 1: Taken only in conjunction with ED423 or 426. Practical experience in approved schools under guidance of supervising teachers and University professors. Prerequisites: Permission of the director of student personnel services and completion of COE Cores I, II, and III. (P/F)(U)(5) Fall & spring

ED426, Secondary Student Teaching 2: Taken in conjunction with ED425. Practical experience in approved schools under guidance of supervising teachers and University professors. Prerequisites: Permission of the director of student personnel services and completion of COE Cores I, II, and III. (P/F)(U)(5) Fall & spring

ED430, Current Issues Early & Middle Childhood Ed 1: This course supplements the student teaching seminar and engages the student teacher in issues of relevance that are beyond the scope of typical coursework. Prerequisite: Completion of COE Cores I, II, and III. (U)(1) Fall & spring

ED431, Current Issues Early & Middle Childhood Ed 2: This course supplements the student teaching seminar and engages the student teacher in issues of relevance that are beyond the scope of typical coursework. Prerequisite: Completion of COE Cores I, II, and III. (U)(1) Fall & spring

ED433, Content-Specific Secondary Methods: This course combines a content-area teaching methods lab with a practicum in secondary education. The class requires extensive field experiences, and portions of the course will be taught in a high school setting where Butler students will experience secondary content-specific methods modeled by veteran classroom teachers. Prerequisites: ED327 and completion of COE Cores I and II. (U)(4) Fall & spring

ED434, Middle Secondary Student Teaching Seminar: Examination and application of the content and methodology of middle-level and secondary pedagogy. Prerequisite: COE Cores I, II, and III. (U)(2) Fall & spring

ED438, Seminar for the Secondary Clinical Capstone: A professional seminar to be taken concurrently with secondary student teaching or secondary intensive field experience for candidates enrolled in the Graduate Initial Licensure Program. Class focuses on relationships with grades 5–12 students, lesson planning, instruction, data-driven assessment, and integration of technology into instruction, professional development, and collaborative efforts with colleagues. (G)(2) Spring

ED440, Student Teaching: Early/Middle Childhood Student Teaching 1: Practical experiences in approved early childhood settings under the guidance of a regular early childhood classroom teacher and University staff; includes observations, planning, classroom management, actual teaching, and directing student learning. Prerequisite: Permission of the director of student personnel services or completion of COE Cores I, II, and III. (P/F)(U)(6) Fall & spring

ED441, Integrated Lab: Early Childhood: Examination and application of the content and methodology of early childhood pedagogy. Prerequisite: Completion of COE Cores I, II, and III. (U)(5) Fall & spring

ED442, Student Teaching: Early/Middle Childhood Student Teaching 2: Practical experiences in approved middle childhood settings under the guidance of a regular middle childhood classroom teacher and University staff; includes observations, planning, classroom management, actual teaching, and directing student learning. Prerequisite: Permission of the director of student personnel services or completion of COE Cores I, II, and III. (P/F)(U)(6) Fall & spring

ED443, Integrated Lab: Middle Childhood: Examination and application of the content and methodology of middle childhood pedagogy. Prerequisite: Completion of COE Cores I, II, and III. (U)(5) Fall & spring

ED444, MC/EA Student Teaching Seminar: Students will take this course with their student teaching semester, if they are pursuing MC/EA licensure. They will engage in reflection, collect evidence on the effectiveness of their teaching based upon standards for beginning teachers, and build their skills as a teacher. (U)(2) Fall & spring

ED445, Intro to Computers in Education: The emphasis of this class is on the development of skill with using computer hardware and software, with a secondary goal of developing knowledge and ability to integrate computers into a classroom. Graduate students will be required to write a research paper on the computer applications for the classroom. (G)(3) Occasionally

ED448, Instructional Tech Practicum: The emphasis of this course will be on practice of skills gained in other instructional technology classes. Students will work in schools implementing technology, working with teachers and students and performing various technology-related duties. (U)(2) Occasionally

ED449, Exploration Internship: This course offers students who aren’t pursuing licensure an opportunity to explore the non-teaching field of education through an intensive internship experience. This course doesn’t lead to licensure, but helps students discover or reinforce an appropriate career path. Specific site(s), mentor(s), and goals are defined with a COE faculty member and must have program approval. (U/G)(6) Fall & spring

ED450, Introduction to Secondary Education: This course utilizes an inquiry approach to explore the characteristics and needs of secondary (grades 5–12) learners; theoretical approaches to serving secondary learners; and highly effective curriculum, instructional strategies, and assessments to best support learners in secondary settings. (G)(2) Summer

ED453, Perspectives in Leadership: This course is for students who want to expand their understanding of leadership. The main purpose of the course is to create a learning experience where you will come to understand leadership theories, styles, and skills. You will learn that leadership development is a process of leading yourself before trying to lead others. You will collaborate with University and community leaders on how leadership styles are applied and practiced. Note: For students seeking an education minor, this course is a capstone experience. Education minor requirements are available in the College of Education. (U/G)(3) Fall and spring

ED454, Assistive Technology: Students learn about the technology that is appropriate to support the learning of students with special needs. A wide range of special needs are considered, including issues related to vision, hearing, mobility, cognition, and learning. Students have an opportunity to put the issues discussed in the class into action. (U/G)(3) Occasionally
ED455, Research, Strategies and Principles of Educational Neuroscience: This course will deliver the research, principles and strategies of educational neuroscience as it relates to cognition, the stress response systems, adversity and learning. (U/G)(3) Fall, spring, and summer

ED456, Informed Trauma and Brain Instruction/Social and Emotional Learning: This course will focus on trauma-informed instruction through the lens of social and emotional development and educational neuroscience outcomes, and its direct implications for student, educator, and system development. (U/G)(3) Fall, spring, & summer

ED457, Trauma and the Brain Integrated into Educational/Behavioral Practices and Schl Leadership-Practicum: This course is presented as a clinical practicum where educators will observe, analyze, and integrate strategies and principles that engage and co-regulate brain states and priming the brain for learning, ingesting and retrieving knowledge and behavior engagement. Prerequisites: ED455 and ED456. (U/G)(3) Fall, spring, and summer

ED465, Second Language Acquisition and Assessment: This course will explore the socio-psycholinguistic factors that influence how multilingual learners acquire English as a new language in terms of reading, writing, speaking, and listening. Students will learn how to assess second language acquisition and literacy development. Prerequisite: ED498. (U/G)(3) Fall

ED467, Standards-Based Professional Practices for Multilingual Learners: Through a professional learning community seminar model, students will engage in critical self-reflection on their professional practices with multilingual learners. Using state ENL licensing standards, students will document how they support multilingual learners. Prerequisites: ED408, ED490, ED497, ED498, and ED465. (U/G)(3) Occasionally

ED471, Eye Conditions: This course examines the range of eye conditions that cause visual impairment. The function and structure of the eye will be explored. Students will understand the causes of each eye condition, the typical course the condition takes, and the associated teaching and learning adaptations that are required by each. Students will learn to carry out a functional vision assessment. Students will also learn any common coincident disabilities that are typically found with each eye condition. (U/G)(1) Fall

ED472, Beginning Braille: In this course, students will learn the importance of Braille for full literacy of a child who is blind or has low vision. Students will learn the full literary Braille code, including letters, numbers, common punctuation, all the contradictions, and rules for composition. Students will also learn to read Braille with their finger, mastering the basic hand movements important for literate readers. Additionally, students will learn to use a slate and stylus and braille writer. Students also will learn about other Braille codes, including foreign language Braille, Nemeth Braille, and music Braille. (U/G)(3) Spring

ED473, Low Vision Instructional Adaptations: This course focuses on the learning needs of low-vision students. Issues specific to this group of students are examined, including magnification devices, adapted instructional strategies, and social implications. Students will also learn to perform a functional vision assessment and the importance of that assessment for guiding instructional decisions. (U/G)(2) Fall

ED474, Adapted Materials for Visually Impaired: Students will learn to make or acquire tactile materials for students who are blind or visually impaired. Students will learn how tactile materials function, the benefits of different types of tactile material, and the learning patterns that are exhibited by learners with respect to tactile materials. Students will learn the importance of appropriate material to foster maximum learning and a positive learning environment. (U/G)(2) Spring

ED475, Assistive Technology for Visually Impaired Learners: This course focuses on assistive technologies specifically for blind and visually impaired students. Technologies that assist with literacy development will be a primary focus. Technologies to support other curricular learning also will be covered, along with technologies that support daily living and recreation. (U/G)(2) Fall

ED477, Literacy for Visually Impaired Learners: In this course, students will learn techniques for teaching Braille. They will learn about hand and finger placement, hand movement, hand coordination, and body posture. Students will learn about reading practice regimes and systems for monitoring progress. Students will practice these techniques with children who are learning Braille. Prerequisite: ED472. (U/G)(2) Summer

ED478, Orientation and Mobility for Visually Impaired Learners: Students will learn fundamental principles of independent travel, including pre-cane skills, sighted guide techniques, cane skills, and working with a helper dog. They will learn both the physical aspects of successful travel as well as the cognitive and emotional aspects. A logical flow of learning for blind and visually impaired learners will be presented and tested. Students will practice these techniques with children who are blind or visually impaired and who are learning to travel independently. (U/G)(3) Summer

ED479, Communication & Collaboration with Stakeholders in Special Education: This course examines how to develop effective communication models with education professionals, community leaders, and families. Instructor-guided fieldwork with professionals is required. (U/G)(3) Fall

ED480, Foundations of Teaching Children with Differences: This course addresses the various psychological principles as applied to understanding and teaching children with differences. Topics include theories of development and their application at various age levels. Developmentally appropriate practice as well as a basic introduction to social, emotional, and cognitive development of students (P-12) is included. (U/G)(3) Summer

ED485, Special Education Capstone: Advocacy and Leadership in Special Education: A class for current practitioners and students working towards special education licensure. Topics include: gaining comfort with language of the field, leadership in special education, and developing advocacy skills. Content focus is on practice work with IEPs, transition planning, FBAs, program evaluation, self-determination, and involvement in parent conferences. Prerequisites: ED242 or ED299, ED243, ED490, ED491, ED492, any other special education course. (U/G)(3) Annually, term varies

ED488, Philosophy of Visual Impairment: In this workshop, students will meet successful individuals who are blind or visually impaired. They will discuss issues of culture, employment, and recreation that support the success of individuals who are blind or visually impaired. Students will be asked to reflect on these interactions to support the formation of a philosophy of blindness. (U/G)(1) Fall

ED489, Practicum with Learners with Visual Impairments: The practicum is a capstone experience in which students apply their learning from the full course of study. Students will work with youth who are advancing their literacy and learning math and science. Students will work with students on the use of assistive technology. Students will also work with blind and visually impaired youth on developing daily living skills. Prerequisite: Completion of all other VI certification courses. (U/G)(3) Fall, spring, & summer
ED490, Assessment of Students with Special Needs: This course examines formal and informal assessment and their application to writing Individual Education Plans (IEPs), curriculum modifications and adaptations (academic and social), behavioral management plans and reports to families. Assessment bias and its implications will be studied. Prerequisite: ED259 or ED242. (U/G)(3) Fall, spring, & summer

ED491, Behavior Management for Inclusive Classrooms: This course examines positive, effective classrooms, student motivation and practical methods for various behavioral problems common in inclusion classrooms. Emphasis is in designing, implementing, and evaluating positive management in general education classrooms, including functional behavioral analyses and plans. Prerequisites: ED299 or ED242. (U/G)(3) Fall, spring, & summer

ED492, Special Education Law: This online course is designed to provide an overview of the legal rights of students and their families in the field of special education. The individuals with Disabilities Education Act and its implication for teachers will be emphasized. Prerequisite: ED299 or ED242. (U/G)(3) Fall, spring, & summer

ED493, Professional Seminar: Mild Interventions: Guidance on the professional competencies involved in working with students receiving special education. Student teachers analyze the best practices in teaching special education students by reflecting on their observations, teaching experiences, and involvement with professional practices related to the Interstate Teacher Assessment and Support Consortium (InTASC) standards and the Council of Children (CEC) standards for mild interventions. Prerequisite: Completion of COE Cores I, II, and III. (U/G)(3) Fall & spring

ED494, Professional Practicum: Mild Intervention Middle Childhood: Guided professional experiences in a primary grade (4–6) working with mild intervention students. Student teachers demonstrate best practice in teaching and managing a classroom in an inclusive school setting. The experience includes observations, teaching, and other professional activities which demonstrate competency of the INTASC/CEC teaching standards for mild intervention. Concurrent with ED442. Prerequisite: Completion of COE Cores I, II, and III. (U/G)(3) Fall & spring

ED496, Professional Practicum: Mild Intervention Early Adolescent: Guided professional experiences in early adolescent (ages 7–15) working with mild intervention students. Student teachers demonstrate best practice in teaching and managing a classroom in an inclusive school setting. The experience includes observations, teaching, and other professional activities which demonstrate competency of the INTASC/CEC teaching standards for mild intervention. Prerequisite: Completion of COE Cores I, II, and III. (U/G)(3) Fall & spring

ED497, Inclusive Education for Multilingual Learners: This course focuses on the cultural practices and norms that affect the language development and academic success of multilingual learners who are learning English as a new language. The conditions that inhibit and support learning both English and content will be analyzed. (G)(3) Fall, spring, & summer

ED498, Methods for Teaching Multilingual: This course will assist in understanding effective content-based teaching in a pluralistic, multilingual society. An understanding of socio-linguistics and second language acquisition will frame an analysis of curriculum, materials, instructional strategies, assessments, and classroom management. Students are required to complete a field experience in a setting with culturally and linguistically diverse students. Prerequisite: ED241, ED242, ED244, or ED299. (U/G)(3) Fall, spring, & summer

ED499, Honors Thesis: (U)(3) Fall & spring

Human Movement and Health Science Education

The mission of the Human Movement and Health Science Education (HMHSE) program is to prepare educational leaders who promote quality programs for physical and health education, physical activity, fitness, recreation, and sport in a variety of settings. The HMHSE program is nationally recognized by two specialized program associations, SHAPE America/National Association for Sport and Physical Education and the American Association for Health Education. The HMHSE program certifies teachers in two academic content areas for licensure: physical education and health education, both for pre-kindergarten—12. The HMHSE program is also a pre-professional preparation program for allied careers in non-school settings; and a postgraduate-school preparation program for various allied disciplines. The HMHSE program offers two minors that are open to Butler undergraduate students in all six colleges: Recreation and Sports Studies (18 hours) and Sport Coaching (19 hours).

- **Teacher Licensure.** Candidates who complete all Butler University, College of Education, and program graduation and certification requirements become eligible for Indiana state licensure in two content areas: physical education and health education. The consensus goal for physical and health education is for P–12 learners to develop health and physical literacy; and to be able to move with confidence and competence to enhance knowledge, skills, and behaviors for a health-enhancing, physically active lifestyle for a lifespan. The progressive model begins with school curricula augmented by before- and after-school, community, and family-centered initiatives.

- **Allied Professions.** Graduates from the HMHS program can pursue careers including but not limited to the following:
  - Coaching—sports for all ages, abilities, and levels
  - Fitness—personal training, corporate wellness, and group fitness instruction
  - Athlete development and sports performance—strength and conditioning for youth sports; middle-, secondary-, collegiate-, and professional-level teams; or a sport-specific industry, i.e., golf, distance running, and team sports
  - Rehabilitation—adjunct to athlete development and sports performance for recreational and organized sport participants, athletic training, physical therapy, and occupational therapy
  - Community health—advocacy and education for families, individuals, schools, and corporations
  - Nutrition—advocacy and education for private and public entities
  - Health promotion—advocacy and education for private and public entities

- **Postgraduate Studies.** Candidates who complete the HMHSE program can pursue graduate studies including but not limited to health and physical education, recreation administration, physical therapy, exercise physiology, kinesiology, exercise science, athletic training, sports leadership, and school counseling. The program prepares all candidates to sit for credible professional certifications such as the Certified Health Education Specialist, the American College of Sports Medicine, Certified Personal Trainer, Health/Fitness Instructor, National Strength and Conditioning Association, Certified Personal Trainer, and/or Certified Strength and Conditioning Specialist exams.
Core Courses Offered by Human Movement and Health Science Education

PWB101, Ballroom Dance Sport: This course is designed to give students a basic introduction to the international and American style of ballroom, Latin, and social dancing. The primary focus is to teach and reinforce the lifelong health and wellness benefits of partnership dancing, including physical activity and fitness, stress reduction, intra- and interpersonal relationships, and self-efficacy. No dance experience required. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB102, Israeli Dancing: Reflects the diverse culture of Israel and the fusion of traditional and contemporary dance styles. This course emphasizes dance as a lifetime fitness activity while acquainting students with other aspects of Israeli culture. The dancers' social interaction enhances the activity and is integral to the dance form. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB103, Cheerleading: This course is designed to advance sport-specific knowledge, optimal skill levels, health and motor performance fitness, and appreciation of tennis that will promote good health and increased quality of life. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB104, Hiking & Backpacking: In this semester-long course, we will consider hiking/backpacking as a recreational sport in both its historical and cultural context. Students will have the opportunity to go on hikes and develop/plan their own backpacking trip to fulfill the Physical Well Being requirement. This course is designed to teach the value of both urban nature and wilderness experiences and the knowledge and skill necessary for enjoyable and safe basic hiking and wilderness trips. Open to students who have not completed a PWB course. (U)(1) Occasionally

PWB130, All about the Bike: Our reading, discussion, and writing in this class will explore the ways in which cycling can contribute to leading a healthy life. By participating in the group rides offered through the course, and by developing their own cycling plan, students will cultivate healthy habits of exercise. Open to students who have not completed a PWB course. (U)(1) Occasionally

PWB140, Marching Band: Butler University's Marching Band has a dual role in providing quality spirited performances on behalf of the University, and in the development of its members' musicianship, movement skills, and personal wellness. The objective of this course is to develop and instill in its members a lifelong love of music making and the development of good habits of personal wellness and physical activity. Open to students who have not completed a PWB course. (U)(1) Fall

PWB141, Cheerleading: This course is designed to advance the overall well-being for members of the Butler cheerleading squad. Cheerleading is a sport-related activity that requires proficient gymnastics, tumbling, and rhythmic skills for individuals and groups. Emphases will be on skillful performance, sufficient levels of health-related physical fitness, application of fitness principles, proper nutrition, safety, interpersonal relationships, and community awareness that contribute to the centrality of health, wellness, and the pursuit of a good life. Open to students who have not completed a PWB course. (U)(1) Fall

PWB160, Women's Self Defense: This course is designed to provide the student with basic crime prevention knowledge they can use in their everyday lives to reduce the opportunity of becoming a victim of a crime. The course will provide the student with basic physical tactics and techniques they have at their disposal if ever needed. The course is designed to empower the student to have options in case they are ever confronted by an assailant. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB161, Sports Fishing: This course is designed to increase student awareness of the potential for lifelong health and wellness through sport fishing. Students will develop related skills and knowledge that make a unique contribution to an overall quality of life through recreation. Instruction will be appropriate for the beginning and experienced angler. Areas of study will include fish identification and habitat, casting techniques, equipment selection, and safety, while accessing the fishable waters in the Butler and Indianapolis communities. Open to students who have not completed a PWB course. (U)(1) Fall

PWB162, Introduction to Study of Yoga: Introductory course in the physical techniques and philosophy of yoga to achieve a healthier and more balanced life through the ancient practices. Yoga mat required. Open to students who have not completed a PWB course. (U)(1) Occasionally

PWB165, Pressure Point Self Defense: Open to students who have not completed a PWB course. (U)(1) Occasionally

PWB166, Intercollegiate Athletics: This course is designed to advance sport-specific knowledge, optimal skill levels, health and motor performance fitness, and personal wellness towards sustaining a health-enhancing and physically active lifestyle. Open to students who have not completed a PWB course. Note: Enrollment is reserved for students currently participating on an NCAA Division I Butler intercollegiate sports team. (U)(1) Fall & spring

PWB167, Independent Study: Open to students who have not completed a PWB course. (U)(1) Occasionally

PWB121-PE, Beginning Tennis: This course is designed for the novice or advanced beginner tennis player to develop competent or proficient tennis skills, and to develop confidence in the game of tennis that can be enjoyed across a lifespan. Students will also learn to apply rules, regulations, and courtesies of tennis governed by the United States Tennis Association and the International Tennis Federation. No tennis experience necessary. Open to students who have not completed a PWB course. (U)(1) Fall, spring, & summer

PWB122-PE, Advanced Tennis: This course is designed to advance player development for the intermediate and advanced tennis player both physically and mentally. Primary focus will be on advanced tennis strategies and tactics for both singles and doubles. Skill proficiency, a focus on fitness, and tactical and strategic decision making during match play conditions are intended to enhance sport enjoyment, personal challenge, and a more sophisticated appreciation of tennis that will promote good health and increased quality of life. Open to students who have not completed a PWB course. (U)(1) Fall, spring, & summer

PWB123-PE, Learning Golf Through Games: This course will provide players at all ability levels to advance golf as one movement form that contributes uniquely to the lifelong habits of good health, physical activity, and overall quality of life. Students will become golf-literate, competent, and confident through creative skill progressions and a modified games approach to learning. Open to students who have not completed a PWB course. (U)(1) Spring

PWB124-PE, Basketball: Physical Well Being (PWB) affirms the importance of physical health and well being to the life of a liberally educated person. PWB Basketball provides a specific and unique approach to developing life-long habits of good health and physical activity, and increasing awareness of the centrality of health and wellness for pursuit of a good life. Emphases are on skills, tactics, and strategy development. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB125-PE, Tai Chi: Tai Chi is a traditional Chinese system of stress relief and exercise rooted in the martial arts. Recognizing and relieving stress in conjunction with increasing strength, balance, and coordination contribute to body and mind development. This balanced approach to wellness
promotes good health, encourages lifespan physical activity, and maintains overall quality of life. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB256-PE, Buda Khi: Buda Khi is a unique combination of aerobic, muscular strength, and flexibility training that combines martial arts with overall physical conditioning. The purpose of this course is for students to develop physical, mental, and emotional productivity that will enhance confidence and motivation that contributes towards health, wellness, and individual goal achievement. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB27-PE, Weighing in on Optimal Health: Many college students battle body weight and body image issues. Optimal health requires more than exercise and proper nutrition. This course takes a holistic, quality of life approach to promote a physically active lifestyle as a healthy and sustaining approach to weight management across a lifespan. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB29-PE, Strength and Conditioning: This course is designed to provide an educational supervised weightlifting environment, which allows students to gain strength, basic knowledge of weight training principles, lifting techniques, and training strategies. Open to students who have not completed a PWB course. (U)(1) Fall, spring, & summer

PWB35-PE, Spinning: Spinning is an intense form of indoor cycling. This course will utilize twice-weekly spinning sessions to improve and maintain physical fitness. You will sweat and have fun in this class! We will also explore other health-related topics such as nutrition, sleep, stress management, healthy relationships, sex, and alcohol. Open to students who have not completed a PWB course. (U)(1) Annually, term varies

PWB45-PE, Fitness Bootcamp: This fitness bootcamp is designed to improve personal wellness through physical fitness, nutrition, and health maintenance. The physical activity portion of this course will be a mixture of outdoor and indoor group activities that combine body weight and calisthenics exercises with strength and interval training. All fitness levels are welcome. Open to students who have not completed a PWB course. (U)(1) Occasionally

PWB50-PE, ACE Personal Trainer: This course prepares students to take the national American Council on Exercise (ACE) Personal Trainer certification exam by means of content (lecture), application (lab), and practical opportunities (hands-on). Students are prepared to sit for the ACE Certified Personal Trainer (cPT) certification. Open to students who have not completed a PWB course. (U)(1) Spring

PWB62, Wagging, Walking, and Wellness: This course is designed to foster lifelong habits of good health and multidimensional wellness by integrating physical activity, civic awareness, and community service. Emphasis will be on personal and social responsibility for optimal quality of life. Students will partner with the Humane Society of Indianapolis to provide physical activity and play for the animals, learning through service to the community, improved fitness, and awareness that health and wellness are central to living a good life. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB64, Continued Study of Yoga: A course designed for students with prior experience in the physical techniques and philosophy of yoga to achieve a healthier and more balanced life through the ancient practices. Prerequisite: 2 years’ prior experience. Yoga mat required. (U)(1) Occasionally

HMHSE Courses

PE124, Experiential Education: This course will provide theoretical foundations of experiential education, the history of ropes courses, and the importance of processing, debriefing, and reflection. Students will participate in icebreakers, field initiatives, low course elements, and high course elements. Prerequisite: RSS minor or permission by the instructor. (U)(1) Spring

PE127, Intro to Health, Physical Education, Recreation, and Dance: An orientation course for HMHSE majors and minors; considers history, philosophy, professional organizations, and job opportunities in areas of physical education, dance, recreation, and health and safety. (U)(1) Fall & spring

PE128, Introduction to Health Education: This introductory course discusses basic philosophy and practice in health education. Emphases are on literature and organizations that support health educators. Topics include safety education, community education, and coordinated school health. (U)(2) Fall & spring

PE147, Prevention and Care of Athletic Injuries and Illnesses: This introductory course is designed to introduce the student to the athletic training profession. The student will learn basic athletic injury and illness prevention strategies and the role of the athletic trainer and sports medicine team in the prevention and management of such injuries and illnesses. This class includes laboratory and classroom instruction. Prerequisite: RSS minor, HMHSE major, or permission by the instructor. (U)(1) Fall & spring

PE202, Skills Series: Basketball/Soccer: Course emphasizes content knowledge and development of competent or proficient motor skill performance using basic sport-related skills that are foundational to effective teaching and coaching. Related emphases include sport history, culture, conventions and traditions, rules, language, tactics and strategies, competition, and fair play. Prerequisite: HMHSE major, RSS minor, or permission by the instructor. (U)(1) Fall

PE203, Skills Series: Pickleball/Golf: Course emphasizes content knowledge and development of competent or proficient motor skill performance using basic sport-related skills that are foundational to effective teaching and coaching. Related emphases include sport history, culture, conventions and traditions, rules, language, tactics and strategies, competition, and fair play. Prerequisite: HMHSE major, RSS minor, or permission by the instructor. (U)(1) Fall

PE204, Skills Series: Tennis/Badminton: Course emphasizes content knowledge and development of competent or proficient motor skill performance using basic sport-related skills that are foundational to effective teaching and coaching. Related emphases include sport history, culture, conventions and traditions, rules, language, tactics and strategies, competition, and fair play. Prerequisite: HMHSE major, RSS minor, or permission by the instructor. (U)(1) Spring

PE205, Skills Series: Ultimate Frisbee/Team Handball: Course emphasizes content knowledge and development of competent or proficient motor skill performance using basic sport-related skills that are foundational to effective teaching and coaching. Related emphases include sport history, culture, conventions and traditions, rules, language, tactics and strategies, competition, and fair play. Prerequisite: HMHSE major, RSS minor, or permission by the instructor. (U)(1) Spring
PE206, Skills Series: Baseball/Softball/Volleyball: Course emphasizes content knowledge and development of competent or proficient motor skill performance using basic sport-related skills that are foundational to effective teaching and coaching. Related emphases include sport history, culture, conventions and traditions, rules, language, tactics and strategies, competition, and fair play. Prerequisite: HMHSE major, RSS minor, or permission by the instructor. (U)(1) Spring

PE207, Skills Series: Weight Training/Fitness—Track & Field/Cross Country: Course emphasizes content knowledge and development of competent or proficient motor skill performance using basic sport-related skills that are foundational to effective teaching and coaching. Related emphases include sport history, culture, conventions and traditions, rules, language, tactics and strategies, competition, and fair play. Prerequisite: HMHSE major, RSS minor, or permission by the instructor. (U)(1) Spring

PE218, Water Safety Instructor: Preparation for teaching swimming and other water activities. Meets requirements for Red Cross WSI certificate. (U)(2) Fall & spring

PE224, Coordinated School Health: This course features personal, school, and community health problems and needs, especially how they affect and concern children. The focus is on the coordinated school health program (CSHP) model components, including the relationship to health education policy and funding. Prerequisite: PE218. (U)(2) Spring

PE235, Educational Gymnastics: This course provides instruction in educational gymnastics emphasizing developmentally appropriate practice. The design is to establish content knowledge, skills, and dispositions necessary for teaching kindergarten through middle school students with and without disabilities in the physical education and/or physical activity setting. (U)(2) Fall

PE237, Educational Dance and Games: This course provides instruction in educational dance and games, emphasizing developmentally appropriate practice. The purpose is to establish content knowledge, skills, and dispositions for movement as self-expression, and in games/activities necessary for teaching kindergarten through middle school students with and without disabilities in the physical education and/or physical activity settings. (U)(3) Spring

PE240, Foundations of Fitness & Health: This course includes the application of current fitness concepts, principles, and appropriate practices. Emphasis will be to achieve and maintain personal fitness, fitness assessment, professional certifications, and education for all ages, ability levels, and settings. Application of current equipment, technology, and research to promote health-enhancing lifetime physical activity is required. Prerequisite: HMHSE major, RSS minor, or permission of instructor. (U)(2) Spring

PE253, Motor Learning: This course examines the cognitive and neuromuscular processes underlying motor skill acquisition, performance, or reacquisition of motor skills. Human development is studied from infancy across a lifespan in relation to motor learning and motor control. Emphasis is on application of concepts and theory in teaching motor skills. (U)(2) Fall

PE261, Theory and Practice of Coaching: Course provides in-depth study of knowledge and skills necessary for effective coaching at any level and in any setting. Topics include ethics and philosophy, teaching and communication, growth and development, physical conditioning, sport skills and tactics, safety and injury prevention, organization, and administration. Prerequisite: HMHSE major, RSS minor, or permission by the instructor. (U)(2) Spring

PE267, Orientation to Internships on Physical Education & Health Education: This course provides an orientation to professional skills, knowledge, and dispositions necessary for careers in various non-school settings related to physical education, health education, fitness, physical activity, and sport. Prerequisite: Permission from instructor for non-education majors. (U)(2) Fall

PE321, Measurement in Physical Education: The theory and practice of measurement in physical education; selection and applications of standardized and teacher-made testing; testing as related to grading. Prerequisite: Completion of COE Cores I and II. (U/G)(3) Fall

PE322, Concepts in Health Education: Basic health concepts identified by the Centers for Disease Control and Prevention, including alcohol, tobacco and other drugs, nutrition, mental health, and sexual health, with an emphasis on program planning for health education in schools. Prerequisites: PE224 and completion of COE Cores I and II. (U/G)(3) Fall

PE323, Kinesiology: A focus on the mechanics of basic human movement with an emphasis on musculoskeletal and anatomical components. Analysis of specific joint movements and muscular actions will be performed as they relate to physical education and sports. Prerequisites: PE324 and completion of COE and PE Cores I and II. (U/G)(3) Fall

PE324, Physiology of Exercise: A review of selected physiological systems with focus on the response to acute bouts of exercise and how these systems adapt to long-term exposure to exercise training. Prerequisite: BI257 or equivalent. (U)(3) Spring

PE325, The Adapted Program in Physical Education: Students will study activities suitable for students in adapted programs; obtain knowledge of current special education laws and guidelines; understand assessment of basic locomotor and activity skills; gather information on different disabilities; participate in observation of local facilities with special education students. Prerequisite: Completion of COE Cores I and II. (U)(3) Fall & spring

PE330, Introductory Methods for Physical and Health Education: This course provides instruction for developing teacher effectiveness in the physical and health education and related physical activity settings. Application of instructional principles in small peer groups using open and closed skills, task presentations, environmental conditions, content development, and feedback. Prerequisite: Completion of COE Cores I and II. (U)(3) Fall

PE331, Physical & Health Education Methods for Early and Middle Childhood: This course provides preparation with content and pedagogical knowledge, skills, and dispositions appropriate for teaching P–5 learners with and without disabilities in physical education, physical activity, and health education settings. Emphases are classroom management, content development, and lesson planning through seminar and field practicum. Prerequisite: PE330. (U)(5) Spring

PE335, Physical & Health Education Methods for Middle Secondary: This course provides preparation with content and pedagogical knowledge, skills, and dispositions appropriate for teaching 5–12 learners with and without disabilities in physical education, physical activity, and health education settings. Emphases are curriculum and content development for short- and long-term planning through seminar and field practicum. Prerequisite: PE331. (U)(5) Fall
PE336, Recreation Program Design: This course focuses on designing and staging leisure experiences using a servant leadership approach. It provides students with information and practical experiences required to translate agency vision, philosophy, and policies into the design, implementation, and program evaluation of a recreation program and services in a community or university context. (U)(G) Fall

PE338, Event and Facility Management: This course will provide information on the operation and management of athletic and recreational facilities. Students will have the opportunity to plan and prepare a major event, to include hands-on opportunities to organize, direct personnel, fundraise, market, and administer a local event. (U)(G) Spring

PE352, Exercise Prescription: Course focuses on developing physical activity programs for achieving physical fitness including screening instruments, risk appraisals, contraindication for exercise, and program planning assessments. Emphasizes include exercise workloads, lifestyle assessment, and intervention with appropriate health education for diverse populations. Prerequisites: PE323 and completion of COE and PE Cores I and II. (U)(G) Spring

PE369, Supervised Field Experience for Coaches: Students act as an assistant with a coach in a local high school. Prerequisites: Two of the following: PE261, PE262, PE263, PE264, PE265, or PE266; permission of the instructor; and completion of COE Cores I and II. (U)(G) Fall, Spring, & Summer

PE407, Individualized Study of Growth: For students who have a special topic that they want to study under faculty guidance. Prerequisite: Junior or senior standing and permission of the program coordinator. (U)(G) 1 Occasionally

PE408, Individualized Study of Growth: For students who have a special topic that they want to study under faculty guidance. Prerequisite: Junior or senior standing and permission of the program coordinator. (U)(G) 2 Occasionally

PE438, Sport Conditioning and Resistance Training: This course will present systematic physical training for general fitness and sports conditioning appropriate for a range of experience and ability: beginners, elite performers, and some special populations. Emphasis is on a variety of training techniques and theory. Prerequisites: PE352 and PE Cores I and II. (U)(G) Fall

PE445, Internships in Physical Education: This course is a full-time, field-based internship at approved agencies under the guidance of site-based supervisors and University professors. Prerequisites: Permission of the program faculty and director of student personnel services and completion of COE and PE Cores I, II, and III. Concurrent enrollment with PE446. (U)(G) Fall, Spring, & Summer

Graduate Programs

Graduate coursework and degree programs are offered in the College of Education for teachers, counselors, administrators, and others who seek advanced degrees, professional credentials, or personal enrichment. Graduate tuition rates are competitive with public institutions, and several scholarship programs for graduate students make graduate education at Butler very affordable. Additional information about these programs may be obtained from the College of Education graduate studies office, 317-940-9501, and at www.butler.edu/coe.

For general information on applying and admission to any Butler graduate program or course, see the Admission Information and Requirements chapter. College- and program-specific requirements are detailed below.

Experiential Program for Preparing School Principals

The Experiential Program for Preparing School Principals (EPPSP) is a leading principal preparation program with graduates throughout Indiana and the United States. EPPSP is a two-year, 36-credit-hour program resulting in a master of science degree.

A cohort of approximately 25 students begins in January of each year. Admission requirements are available at www.butler.edu/college-education/admissions-process-epps.

EPPSP at Butler:

- Combines theory and practice in an innovative and experience-based approach
- Utilizes the concept of adult learning as an essential foundation
- Encompasses the Interstate School Leaders Licensure Consortium Standards, as well as ELCC standards and effective schools research
- Fosters collaboration and collegiality in a relationship-based, cohort setting
- Provides an opportunity for students to experience authentic and relevant learning and mastery of administrative skills through internships and group projects
- Challenges students to demonstrate leadership skills in their school setting and community

Non-Master’s Licensure-Only in Education Administration

For those students who seek licensure in education administration and already hold a master’s degree, EPPSP offers a 24-credit-hour program of study. Students must meet the same requirements for admittance as for the 36-credit-hour program, and will participate in four phases with the cohort members with whom they were admitted:

- ED557, School Principalship, Phase 1
- ED558, School Principalship, Phase 2
- ED559, School Principalship, Phase 3
- ED564, School Principalship Phase 4

EPPSP Student Learning Outcomes

The EPPSP student has the knowledge and ability to promote the success of all students by:

- Facilitating the development, articulation, implementation, and stewardship of a school vision of learning supported by the school community
• Collaborating with families and other community members, responding to diverse community interests and needs, and mobilizing community resources
• Promoting a positive school culture, providing an effective instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff
• Understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context, and by acting in a fair and ethical manner
• Managing the organization, operations, and resources in a way that promotes a safe, efficient, and effective learning environment

**EPPSP Courses**

For course descriptions not given, see previous education course listings.

ED557, School Principalship—Phase 1: Places emphasis on a vision of learning, collaboration with families and community, school and community relations, and leadership. Participants explore leadership styles through the use of several inventories and self-assessment instruments. Only open to EPPSP students. (G)(6) Spring

ED558, School Principalship—Phase 2: Places emphasis on the school culture and instructional program. This course is focused on curriculum, instructional practices, success for all students, school improvement, professional development, and teacher evaluation. Only open to EPPSP students. (G)(6) Fall

ED559, The School Principalship—Phase 3: Places emphasis on school law, negotiations and collective bargaining, due process, rules and regulations, ethics, student diversity, cultural competency, and meeting the needs of special populations. Only open to EPPSP students. (G)(6) Spring

ED561, School Principalship—Phase 4: Places emphasis on organizational management. Focus is given to policy and administrative guidelines, school safety, facilities, budget, data management technologies, models of organizational change, effective change strategies, team development, and conflict management. Only open to EPPSP students. (G)(6) Fall

ED562, School Principalship—Transition 1: Places emphasis on internship and proficiency development; research; school reform; current issues in education; and understanding, responding to, and influencing the political, social, cultural, economic, and legal context. Only open to EPPSP students. (G)(6) Summer

ED563, School Principalship—Transition 2: Places emphasis on research, internship and proficiency development, and experiential activities designed to prepare future school principals in authentic learning. Only open to EPPSP students. (G)(6) Summer

**Master’s in Effective Teaching and Leadership**

The Master’s in Effective Teaching and Leadership (METL) has a long history of serving educators seeking a master of science in education. METL is a 36-hour program requiring the completion of 21 Core Core hours and 15 hours tailored to student interest. The program is designed for working educational practitioners to complete in two to three years. The program begins with the intensive summer cohort and culminates with the thesis research project.

More information is available at [www.butler.edu/teaching-leadership](http://www.butler.edu/teaching-leadership).

METL at Butler:

• Encourages educators to think deeply, creatively, and critically about the discipline of education, and is academically rigorous and personally transformative
• Includes a core curriculum and cohort model while allowing students to individualize their course of study
• Encourages students to connect educational theory to their professional context
• Challenges students to consider the purpose of education in a pluralistic society
• Nurture students’ relationships with caring and committed faculty
• Prepares students to continue in their classrooms, provide leadership within their school setting or corporation, or continue studies at the doctoral level

**METL Student Learning Outcomes**

The METL student:

• Understands and applies the notion that curricula are grounded in ideologies and historical context, are socially situated, and that, when implemented, have an impact on students, schools, and self
• Displays a commitment to educational practice and research as moral, intellectual, and creative work that demands knowledge, skill, imagination, and care
• Appropriately applies an understanding of research design by conducting data collection and analysis strategies pertinent to classroom research
• Demonstrates an understanding of teacher leadership and commitment to teacher leadership by serving as educational leaders

**METL Courses**

ED407, Survey of Children’s Literature: Exploration of the field of literature for children and adolescents and uses of recent research in the area. Methods of selection and utilization are emphasized. (U/G)(3) Occasionally

ED408, Foundations of Effective Reading Instruction: This course focuses on teaching of reading in elementary and secondary settings. The course consists of three hours of instruction and a zero-credit one-hour lab each week. Students will be required to tutor a child in reading under the supervision of the instructor as part of the lab. (U/G)(3) Fall & spring
ED415, Methods for Teaching Language Arts P–12: Students will explore innovative methods for teaching the language arts, especially reading. Students will use experiences from participation in educational workshops offered through Butler partnerships or approved professional organizations to craft a document focusing on applications of what was learned to readers at the grade levels included in the candidate's licensure pattern. (U/G)(3) Summer

ED420, Adolescent Literature & Strategies for Teaching: This hybrid course familiarizes students with a wide variety of fiction and nonfiction aimed at young adolescents through young adult audiences and includes multicultural and ethical considerations. At the same time, good teaching and planning strategies will be modeled and practiced. Portions of this course are conducted in an online setting. Prerequisites: Completion of COE Core I, ED227, ED228, and ED327 or co-enrollment. (U/G)(3) Fall

ED445, Intro to Computers in Education: The emphasis of this class is on the development of skill with using computer hardware and software, with a secondary goal of developing knowledge and ability to integrate computers into a classroom. Graduate students will be required to write a research paper on the computer applications for the classroom. (G)(3) Occasionally

ED465, Second Language Acquisition and Assessment: This course will explore the socio-psycholinguistic factors that influence how multilingual learners acquire English as a new language in terms of reading, writing, speaking, and listening. Students will learn how to assess second language acquisition and literacy development. Prerequisite: ED498. (U/G)(3) Fall

ED467, Standards-Based Professional Practices for Multilingual Learners: Through a professional learning community seminar model, students will engage in critical self-reflection on their professional practices with multilingual learners. Using state ENL licensing standards, students will document how they support multilingual learners. Prerequisites: ED408, ED490, ED497, ED498, and ED495. (U/G)(3) Occasionally

ED497, Inclusive Education for Multilingual Learners: This course focuses on the cultural practices and norms that affect the language development and academic success of multilingual learners who are learning English as a new language. The conditions that inhibit and support learning both English and content will be analyzed. (G)(3) Fall, spring, & summer

ED498, Methods for Teaching Multiling: This course will assist in understanding effective content-based teaching in a pluralistic, multilingual society. An understanding of socio-linguistics and second language acquisition will frame an analysis of curriculum, materials, instructional strategies, assessments, and classroom management. Students are required to complete a field experience in a setting with culturally and linguistically diverse students. Prerequisite: ED241, ED242, ED244, or ED299. (U/G)(3) Fall, spring, & summer

ED501, Concentrated Learning Experience: Concentrated study of topic(s) of current importance, interest, and relevance. Independent study and research will be stressed along with classwork. (G)(1) Occasionally

ED502, Concentrated Learning Experience: Concentrated study of topic(s) of current importance, interest, and relevance. Independent study and research will be stressed along with classwork. (G)(2) Occasionally

ED503, Concentrated Learning Experience: Concentrated study of topic(s) of current importance, interest, and relevance. Independent study and research will be stressed along with classwork. (G)(3) Occasionally

ED504, Curriculum Theory: Students in this course examine curriculum discourse as an enduring, philosophical, and theoretical debate by studying fundamental questions, central ideas, and varied ideologies that inform the development of curricula. Students in this course connect theory with practice through study of educational reform in diverse contexts. Prerequisites: ED530 and ED531. (G)(3) Fall

ED515, 21st Century Inquiry and Information Literacy (Graduate): This inquiry and information literacy course is designed to help graduate students in education, and other disciplines, discover how best to learn and teach information, media, and technological literacy skills through the process of research and inquiry. (G)(3) Fall & spring

ED520, The Emergent Curriculum: Introduction to the Project Approach: Early childhood and primary grade teachers will investigate the project approach curriculum framework that is based upon constructive theory. Students will develop a curriculum using the three phases of the project approach model to be used in their classroom setting. (G)(2) Occasionally

ED527, Exploration of the Principles & Practices of Reggio Emilia: Early childhood and primary grade teachers will explore the philosophy and guiding principles of the internationally renowned Italian schools of Reggio Emilia. The “image of the child,” “the environment as the third teacher,” “documentation,” and “the 100 languages of children” will be introduced. (G)(2) Occasionally

ED528, Issues & Directions in Curriculum and Instruction: Students in this course will study a variety of curriculum designs and instructional strategies. Students will examine recent trends in curriculum and instruction and their implications for schools, teachers, and students. (G)(3) Occasionally

ED529, Teaching Reading in the Content Areas: Students will learn how reading instruction can be incorporated into any content area in ways that will increase student comprehension and enjoyment of informational texts and literacy texts. (G)(3) Summer

ED530, Foundations of Effective Teaching and Leadership, Part 1: Students in this course examine educational theories, research frameworks, and teacher identity. This is the initial core course in the Master of Science in Effective Teaching and Leadership Program. ED530 must be taken in summer session with ED531 as part of the summer cohort. (G)(3) Summer
ED531, Foundations in Effective Teaching and Leadership, Part II: Students in this course apply knowledge of educational theories, research frameworks, and teacher identity to teacher research and leadership in personal and professional contexts. This is the second core course in the Master of Science in Effective Teaching and Leadership Program. ED531 must be taken in summer session with ED530 as part of the summer cohort. (G)(3) Summer

ED534, Topical Readings: This course is designed to serve the needs and interests of students and faculty who choose to collaboratively pursue advanced study of a topical nature within the field of education. (G)(3) Occasionally

ED535, Teacher Research and Leadership in Education, Part I: This course supports the ongoing work of teacher researchers as they engage in their own classroom inquiries. Students take this class either just before completing their thesis or in conjunction with their thesis. Each class session gives students an opportunity for collaborative data analysis, writing feedback, and help with a variety of research strategies. Prerequisites: ED530, ED531, ED504, ED569, and 12 hours of graduate electives. (G)(3) Fall

ED548, Using and Interpreting Mixed Methods in Educational Research: Students in this course will examine the conceptual issues surrounding the use of mixed methods in educational research and will practice analysis of data using a variety of tools, including introductory descriptive and inferential statistics. Students will read and interpret published educational research representative of qualitative, quantitative, and mixed-method approaches (G)(3) Occasionally

ED569, Problems, Issues, and Trends in American Education: Students in this course engage in an intensive and searching analysis of selected theoretical, fundamental, and current problems and issues in education. Students in this course connect theory to practice by examining the implications of current issues for the local context. Prerequisites: ED530, ED531, and ED504. (G)(3) Spring

ED600, Individualized Study of Growth: Course of arranged study to support the ongoing work of METL students as they develop their knowledge and deepen their understandings. The course is arranged through the advisor in the student’s individualized study of growth area. The instructor will create a syllabus to be reviewed and approved by the dean. (G)(3) Occasionally

ED601, Individualized Study of Growth: Course of arranged study to support the ongoing work of METL students as they develop their knowledge and deepen their understandings. The course is arranged through the advisor in the student’s individualized study of growth area. The instructor will create a syllabus to be reviewed and approved by the dean. (G)(2) Occasionally

ED658, Teacher Research & Leadership in Education, Part II: Students will examine the role of the teacher leader in educational settings by creating leadership projects and engaging in the practice of educational leadership in personal and professional contexts. Prerequisites: ED530, ED531, ED504, ED569, ED535, and 15 hours of graduate electives. (G)(3) Spring

ED700, Project/Thesis (M.S.): Credit and hours arranged (hours to be taken immediately before completion of degree). (G)(3) Occasionally

ED741, Independent Study—Elementary: Independent study arranged with adviser with an emphasis on problem identification, data gathering, analysis, organization, and presentation of the research report. (G)(1) Occasionally

ED742, Independent Study—Secondary: Independent study arranged with adviser with an emphasis on problem identification, data gathering, analysis, organization, and presentation of the research report. (G)(1) Occasionally

ED744, Independent Study—Special Education: Independent study arranged with adviser with an emphasis on problem identification, data gathering, analysis, organization, and presentation of the research report. (G)(1) Occasionally

ED746, Independent Study—Administration: Independent study arranged with adviser with an emphasis on problem identification, data gathering, analysis, organization, and presentation of the research report. (G)(1) Occasionally

ED751, Independent Study—Elementary: Independent study arranged with adviser with an emphasis on problem identification, data gathering, analysis, organization, and presentation of the research report. (G)(2) Occasionally

ED752, Independent Study—Secondary: Independent study arranged with adviser with an emphasis on problem identification, data gathering, analysis, organization, and presentation of the research report. (G)(2) Occasionally

Master of Science in School Counseling

The 48-hour Master of Science in School Counseling is nationally accredited by the Council for Accreditation of Counseling and Related Programs (CACREP). Program requirements meet or exceed the national standards. The program is experiential and emphasizes a theory-to-practice learning environment. State-of-the-art technology used for clinical supervision maximizes learning and provides opportunities to enhance faculty-student interaction. The department also offers the additional 12 hours necessary to receive the LMHC license. The program has partnerships with a local nonprofit organization to assist grieving children and a local PK–12 urban school. The counseling education faculty is committed to respecting diversity and similarity within ourselves, our graduate students, and the PK–12 students our graduates are being prepared to serve. We encourage, promote, and respect diversity in the counselor education curriculum and in the knowledge, skills, and attitudes expected of our graduate students and alumni.

The program complies with all CACREP national standards, including the eight core areas: 1) Professional Orientation and Ethical Practice, 2) Social and Cultural Diversity, 3) Human Growth and Development, 4) Career Development, Helping Relationships, 6) Group Work, 7) Assessment, and 8) Research and Program Evaluation. Student learning outcomes cover knowledge, skills, and practices in the following areas: foundations of the counseling profession; counseling, prevention, and intervention; diversity and advocacy; assessment, research, and evaluation; academic development; collaboration and consultation; and leadership.

School Counseling Learning Outcomes

- Articulate the professional roles, functions, and relationships with other human service providers
- Define theories of learning and personality development, individual and family development, and transitions across the lifespan
- Identify career, vocational, educational, occupational, and labor market information resources, as well as other electronic career information systems
- Demonstrate ability to provide individual and group counseling for those students experiencing personal or social problems that interfere with learning, along with prevention programs
- Demonstrate ability to address multicultural counseling issues, including possible effects of ability levels, culture, race, stereotyping, family, socioeconomic status, and gender and sexual identity

**MS in School Counseling Courses**

**ED547**, Appraisal: Theory & Technique: Studies that provide an understanding of individual and group approaches to assessment and evaluation of all learners. (G)(3) Summer

**ED553**, Professional, Legal, and Ethical Issues in Counseling: An orientation to the school counseling profession and associated legal and ethical concerns. (G)(3) Fall

**ED571**, Career & Life Planning: Studies that provide an understanding of career development, assessment, and related life factors. (G)(3) Summer

**ED572**, Fundamental Counseling Theory & Techniques: A study of basic counseling theories and techniques, followed by application of those techniques to real and role-playing experiences. (G)(3) Spring

**ED575**, Human Development over the Lifespan: An introduction to developmental theory, developmental characteristics over the lifespan, and developmental assessment for counselors in training. Issues in today’s PK–12 schools will be viewed with a developmental focus. (G)(3) Fall

**ED577**, Group Procedures: A study of group interactions, occasions for group counseling, and techniques of group counseling. (G)(3) Summer

**ED630**, Diversity & Similarity: This course is designed to help students develop multicultural and advocacy competencies for working with diverse groups in society. Students will have opportunities to develop awareness of their own cultural values and biases, study prevalent beliefs and attitudes of different cultures, and develop skills useful for appropriate interactions with particular groups. (G)(3) Spring

**ED671**, The Administration of Counseling and Guidance Services: An exploration of effective counseling and guidance programs, including the determination of sound principles and functions and selection and training of personnel, organization and administration of the program, and adjustments to changing conditions. (G)(3) Fall & spring

**ED672**, Advanced Counseling Theories and Techniques: This course examines various theories, principles, and techniques of counseling and their application to professional counseling settings. The course will provide students the competence to select the counseling approach that will be most effective and appropriate for the client's worldview. Prerequisites: ED572 and ED577. (G)(3) Fall

**ED673**, Research for School Counselors: This course will emphasize critical review of research in the counseling field. There will be a specific focus on the research process, including problem identification, data gathering, and organization and presentation of a research project. (G)(3) Spring

**ED677**, Foundations of Mental Health Counseling: This course addresses professional practice issues in mental health counseling. It includes the history, identity, roles, and trends affecting the field and practice of mental health counseling. (G)(3) Fall

**ED678**, Diagnosis & Treatment Planning: This course provides an intensive study/analysis of selected counseling cases to enhance assessment competencies in case description, problem appraisal, assessment, diagnostic classification, and intervention strategies as well as case consultation and presentation skills. Emphasis is given to the principles and practices that relate to psychopathy, psychopharmacology, DSM diagnosis, etiology and assessment, systematic treatment planning, interviewing, and short- and long-term interventions. (G)(3) Fall

**ED679**, Contextual Dimensions of Mental Health Counseling: This class will provide an overview of community agency counseling, the role of the counselor in communities, prevention, outreach, systemic issues, multicultural issues in community agency counseling, advocacy and social change, and service delivery programs. The course will also focus on the application of community counseling theories and problem solving within the community and agency setting. (G)(3) Spring

**ED712**, Practicum—Counseling: A variety of supervised counseling experiences within the classroom and in the field. Prerequisite: Permission of the instructor. (G)(3) Fall & spring

**ED722**, Internship: Counseling: Three hundred clock hours of on-the-job experience in all aspects of counseling and guidance with a qualified supervisor. Prerequisites: Counseling practicum and permission of the instructor. Repeatable for credit for up to six hours. (G)(3) Fall & spring

**ED725**, Advanced Internship: An intensive practical opportunity for the counseling student in a selected mental health field setting; the internship involves daily observation and personal implementation of counseling theory, strategy, and programming. A supervised seminar (individual and group supervision) will complement this on-the-job training program. (G)(3) Annually, term varies

**ED743**, Independent Study—Counseling: Independent study arranged with adviser with an emphasis on problem identification, data gathering, analysis, organization, and presentation of the research report. Prerequisite: Permission of the program adviser. (G)(3) Occasionally

**ED753**, Independent Study—Counseling: Independent study arranged with program adviser. (G)(2) Occasionally
Graduate Non-Degree Programs: Alternative Licensure and Certificates

The following graduate non-degree certificate programs are offered in the College of Education. For more information, visit the COE website at www.butler.edu/coe or contact the Graduate Education Office at 317-940-9501.

- Accelerated Alternative Program for Initial Licensure in Mild Interventions (Grades P–12)*
- Hinkle Academy for Wellness and Sport Leadership
- International Baccalaureate Teaching and Learning
- Licensed Mental Health Counselor
- Visually Impaired**

* indicates licensure program
** indicates a licensure minor add-on

Accelerated Alternative Program for Initial Licensure in Mild Interventions

There is a nationwide shortage of qualified teachers in special education. To enter this challenging field, join Butler’s Graduate Initial Licensure Program in Special Education. In one year, you can become licensed to teach students in special education needing mild intervention in preschool through grade 12. Our non-degree program is for adults with bachelor’s degrees in education or other subjects. It is an effective alternate route to licensing for individuals now working as job coaches or instructional aids and assistants, as well as those who want to transition to a rewarding education career.

Plan of Study: Total of 30 semester hours.* Note: Schedules for courses are not finalized until one semester prior.

Spring Semester (6 hours)
- ED480
- ED583
- ED492

Summer I and II (9 hours)
- ED490
- ED491
- Elective reading class

Fall Semester (9 hours)
- ED584
- ED479
- ED408

Spring Semester (6 hours)
- ED589
- ED454

Plus any other classes deemed necessary to complete the entrance to Butler University as decided by the faculty panel.

See full information on non-degree-seeking graduate admission for this program in the Admission section of this document.

Accelerated Alternative Program for Initial Licensure in Mild Interventions Courses

ED408, Foundations of Effective Reading Instruction: This course focuses on the teaching of reading in elementary and secondary settings. The course consists of three hours of instruction and a zero-credit one-hour lab each week. Students will be required to tutor a child in reading under the supervision of the instructor as part of the lab. (U/G)(3) Fall 

ED454, Assistive Technology: Students learn about the technology that is appropriate to support the learning of students with special needs. A wide range of special needs are considered, including issues related to vision, hearing, mobility, cognition, and learning. Students have an opportunity to put the issues discussed in the class into action. (U/G)(3) Occasionally

ED479, Communication & Collaboration with Stakeholders in Special Education: This course examines how to develop effective communication models with education professionals, community leaders, and families. Instructor-guided fieldwork with professionals is required. (U/G)(3) Fall

ED480, Foundations of Teaching Children with Differences: This course addresses the various psychological principles as applied to understanding and teaching children with differences. Topics include theories of development and their application at various age levels. Developmentally appropriate practice as well as a basic introduction to social, emotional, and cognitive development of students (P–12) is included. (U/G)(3) Summer

ED490, Assessment of Students with Special Needs: This course examines formal and informal assessment and their application to writing individual education plans, curriculum modifications and adaptations (academic and social), behavioral management plans, and reports to families. Assessment bias and its implications will be studied. Fifteen clock hours of instructor-guided fieldwork are required. (U/G)(3) Fall, spring, & summer

ED491, Behavior Management for Inclusive Classrooms: This course examines positive, effective classrooms; student motivation; and practical methods for various behavioral problems common in inclusion classrooms. Emphasis is on designing, implementing, and evaluating positive management in general education classrooms, including functional behavioral analyses and plans. Fifteen clock hours of instructor-guided fieldwork are required. (U/G)(3) Fall, spring, & summer
ED592, Special Education Law: This online course is designed to provide an overview of the legal rights of students and their families in the field of special education. The Individuals with Disabilities Education Act and its implication for teachers will be emphasized. Prerequisite: Completion of COE Core 1. (U/G) (1) Fall, spring, & summer

ED589, Practicum Teaching and Portfolio Development: Students will demonstrate differentiation through direct instructional strategies in the areas of placement, differentiated instruction and assessment, adaptations to curriculum areas (P–12), and common instructional strategies used for students who require intermittent and limited support in the general education classroom or resource room. Instructor-guided fieldwork is required. (G) (3) Fall

Hinkle Academy for Wellness and Sport Leadership Certificate

The Hinkle Academy is a graduate-level, 12-credit-hour certificate program. Designed by members of Butler’s Department of Athletics, College of Education, and Health and Recreation Complex, the Hinkle Academy uses the Butler Way ethos as a foundation for studying effective leadership. It will prepare you to empower team commitment and excellence in your organization and community. You will connect with recognized Indianapolis leaders in sport and wellness and with professional experiences and help design your own apprenticeship. Completing this one-year, graduate-level hybrid certificate program can take you one-third of the way towards a Master’s in Effective Teaching and Leadership degree or towards another graduate degree program pending approval.

Hinkle Academy for Wellness and Sport Leadership Certificate Courses

ED550, The Hinkle Academy: Creating Community and Culture: This course focuses on communication, culture, and theoretical foundations that frame innovative program development and effective leadership based on the principles of the Butler Way. Students will review research, examine essential relationships, investigate a successful model, and identify strategies for successful communication. Prerequisites: Admission to the Hinkle Academy for Wellness and Sport Leadership Certificate Program. (G) (4) Fall

ED551, The Hinkle Academy: Innovation and Program Development: This course focuses on learning the essential components of successful program development. Topics include marketing, facility operations, event management, legal aspects, personnel, wellness coaching, and current events decisions. Students will have the opportunity to develop, plan, and implement real-world programs and events via Butler University and Indianapolis-based businesses and agencies. Prerequisites: Admission to the Hinkle Academy for Wellness and Sport Leadership Certificate Program. (G) (4) Spring

ED552, The Hinkle Academy: Experiential Apprenticeship: This course is an 8-week field-based apprenticeship at an approved agency under the guidance of site-based supervisors and University mentors. Students will apply concepts and strategies for program innovation and development, culminating in an original project presented at both the apprenticeship site and the University. Prerequisites: Admission to the Hinkle Academy for Wellness and Sport Leadership Certificate Program. (G) (4) Summer

International Baccalaureate Teaching and Learning Certificate

Would you like to teach in an International Baccalaureate (IB) world school, or other global education settings? In one year, you can prepare for certification in the IB Primary Years Programme (PYP, instruction for ages 3–12) or the IB Middle Years Programme (MYP, instruction for ages 11–16). Course credits can be applied to the elective requirement of the Master’s in Effective Teaching and Leadership degree.

International Baccalaureate Teaching and Learning Courses

ED503-60, Curriculum Processes in the International Baccalaureate Primary Years Programme: Students will identify the key areas of commonality and difference in the three International Baccalaureate (IB) programs, adopt the educational principles of the IB Primary Years Programme (PYP), and apply and critique the curricular structure to promote and develop the values and philosophy of the PYP within the school context. (G) (3)

ED503-65, Curriculum Processes in the International Baccalaureate Middle Years Programme: Students will identify the key areas of commonality and difference in the three International Baccalaureate (IB) programs, adopt the educational principles of the IB Primary Years Programme (PYP), and apply and critique the curricular structure to promote and develop the values and philosophy of the PYP within the school context. (G) (3)

ED503-61, Teaching and Learning in the International Baccalaureate Primary Years Programme: Students will identify the key areas of commonality and difference in the three International Baccalaureate (IB) programs, adopt the educational principles of the IB Primary Years Programme (PYP), and apply and critique the curricular structure to promote and develop the values and philosophy of the PYP within the school context. (G) (3)

ED503-66, Teaching and Learning in the International Baccalaureate Middle Years Programme: Students will identify the key areas of commonality and difference in the three International Baccalaureate (IB) programs, adopt the educational principles of the IB Primary Years Programme (PYP), and apply and critique the curricular structure to promote and develop the values and philosophy of the PYP within the school context. (G) (3)

ED503-62, Assessment in the International Baccalaureate Primary Years Programme: Students will identify the key areas of commonality and difference in the three International Baccalaureate (IB) programs, adopt the educational principles of the IB Primary Years Programme (PYP), and apply and critique the curricular structure to promote and develop the values and philosophy of the PYP within the school context. (G) (3)
ED503-67, Assessment in the International Baccalaureate Middle Years Programme: Students will identify the key areas of commonality and difference in the three International Baccalaureate (IB) programs, adopt the educational principles of the IB Primary Years Programme (PYP), and apply and critique the curricular structure to promote and develop the values and philosophy of the PYP within the school context. (G)(3)

ED503-63, Professional Learning in a Global Context Primary Years Programme: Students will identify the key areas of commonality and difference in the three International Baccalaureate (IB) programs, adopt the educational principles of the IB Primary Years Programme (PYP), and apply and critique the curricular structure to promote and develop the values and philosophy of the PYP within the school context. (G)(3)

ED503-68, Professional Learning in a Global Context Middle Years Programme: Students will identify the key areas of commonality and difference in the three International Baccalaureate (IB) programs, adopt the educational principles of the IB Primary Years Programme (PYP), and apply and critique the curricular structure to promote and develop the values and philosophy of the PYP within the school context. (G)(3)

Licensed Mental Health Counselor Certificate

Butler University offers a graduate non-degree program specifically designed to build on the Master of Science in School Counseling, providing the coursework required for the State of Indiana License in Mental Health Counseling (LMHC). This 12-credit-hour certificate program provides the three content-based classes and the advanced internship that align with state requirements for the LMHC. The program is designed to dovetail with the 48-credit-hour Master of Science in School Counseling, but admission is not limited to school counselors. Classes can be taken individually, according to availability.

With demand for mental health workers on the rise, the LMHC certificate opens the door to many interesting job opportunities.

*Permission is required to enroll in the Advanced Internship.

Licensed Mental Health Counselor Certificate Courses

ED677, Foundations of Mental Health Counseling: This course addresses professional practice issues in mental health counseling. It includes the history, identity, roles, and trends affecting the field and practice of mental health counseling. (G)(3) Fall

ED678, Diagnosis & Treatment Planning: This course provides an intensive study/analysis of selected counseling cases to enhance assessment competencies in case description, problem appraisal, assessment, diagnostic classification, and intervention strategies as well as case consultation and presentation skills. Emphasis is given to the principles and practices that relate to psychopathology, psychopharmacology, DSM diagnosis, etiology and assessment, systematic treatment planning, interviewing, and short- and long-term interventions. (G)(3) Fall

ED679, Contextual Dimensions of Mental Health Counseling: This class will provide an overview of community agency counseling, the role of the counselor in communities, prevention, outreach, systemic issues, multicultural issues in community agency counseling, advocacy and social change, and service delivery programs. The course will also focus on the application of community counseling theories and problem solving within the community and agency setting. (G)(3) Fall

ED725, Advanced Internship: An intensive practical opportunity for the counseling student in a selected mental health field setting; internship involves daily observation and personal implementation of counseling theory, strategy, and programming. A supervised seminar (individual and group supervision) will complement this on-the-job training program. Prerequisite: Open by permission only. (G) Annually, term varies

Teachers of the Visually Impaired Certificate

Butler University offers a graduate non-degree program designed to offer candidates greater depth of instruction, more hands-on work with visually impaired students, and greater contact with successful blind adults as role models. The program consists of a series of nine courses totaling 19 credit hours. This program can be an add-on to an existing undergraduate or graduate license. Students must complete an introduction to special education course before they begin the Teachers of the Visually Impaired (VI) program. The program prerequisites are classes currently required in our Elementary Education major (ED490, Assessment of Students with Special Needs, and ED492, Special Education Law).

The courses offered during the fall and spring semesters will be taught as hybrid classes with a blend of online and face-to-face instruction. The summer courses will be taught at a location that includes children who are visually impaired, e.g., at the Indiana School for the Blind and Visually Impaired during summer enrichment programs.

Teachers of the Visually Impaired Courses

ED471, Eye Conditions: This course examines the range of eye conditions that cause visual impairment. The function and structure of the eye will be explored. Students will understand the causes of each eye condition, the typical course the condition takes, and the associated teaching and learning adaptations that are required by each. Students will learn to carry out a functional vision assessment. Students will also learn any common coincident disabilities that are typically found with each eye condition. (U/G)(1) Fall

ED472, Beginning Braille: In this course, students will learn the importance of Braille for full literacy of a child who is blind or has low vision. Students will learn the full literary Braille code, including letters, numbers, common punctuation, all the contradictions, and rules for composition. Students will also learn to read Braille with their finger, mastering the basic hand movements important for literate readers. Additionally, students will learn to use a slate and stylus and braillewriter. Students will also learn about other Braille codes, including foreign language Braille, Nemeth Braille, and music Braille. (U/G)(3) Fall

ED473, Low Vision Instructional Adaptations: This course focuses on the learning needs of low-vision students. Issues specific to this group of students are examined, including magnification devices, adapted instructional strategies, and social implications. Students will also learn to perform a functional vision assessment and the importance of that assessment for guiding instructional decisions. (U/G)(2) Fall

ED474, Adapted Materials for Visually Impaired: Students will learn to make or acquire tactile materials for students who are blind or visually impaired. Students will learn how tactile materials function, the benefits of different types of tactile material, and the learning patterns that are exhibited by learners.
with respect to tactile materials. Students will learn the importance of appropriate material to foster maximum learning and a positive learning environment. (U/G)(2) Spring

ED475, Assistive Technology for Visually Impaired Learners: This course focuses on assistive technologies specifically for blind and visually impaired students. Technologies that assist with literacy development will be a primary focus. Technologies to support other curricular learning also will be covered, along with technologies that support daily living and recreation. (U/G)(2) Fall

ED477, Literacy for Visually Impaired Learners: In this course, students will learn techniques for teaching Braille. They will learn about hand and finger placement, hand movement, hand coordination, and body posture. Students will learn about reading practice regimes and systems for monitoring progress. Students will practice these techniques with children who are learning Braille. Prerequisite: ED472. (U/G)(2) Summer

ED478, Orientation and Mobility for Visually Impaired Learners: Students will learn fundamental principles of independent travel, including pre-cane skills, sighted guide techniques, cane skills, and working with a helper dog. They will learn both the physical aspects of successful travel as well as the cognitive and emotional aspects. A logical flow of learning for blind and visually impaired learners will be presented and tested. Students will practice these techniques with children who are blind or visually impaired and who are learning to travel independently. (U/G)(3) Summer

ED488, Philosophy of Visual Impairment: In this workshop, students will meet successful individuals who are blind or visually impaired. They will discuss issues of culture, employment, and recreation that support the success of individuals who are blind or visually impaired. Students will be asked to reflect on these interactions to support the formation of a philosophy of blindness. (U/G)(1) Fall

ED489, Practicum with Learners with Visual Impairments: The practicum is a capstone experience in which students apply their learning from the full course of study. Students will work with youth who are advancing their literacy and learning math and science. Students will work with students on the use of assistive technology. Students will also work with blind and visually impaired youth on developing daily living skills. Prerequisite: Completion of all other VI certification courses. (U/G)(3) Fall, spring, & summer

Graduate Minors in the COE

Reading Teacher Minor

This sequence of classes is designed to continue a graduate's study in the area of reading. Candidates who pursue a license in the area of reading must take the Pearson content area licensure test (038) for Reading.

- Acceptance into the METL program
- ED480, Foundations of Teaching Children with Differences (2)
- ED408, Foundations of Effective Reading Instruction (3)
- ED320, Teaching Reading in the Content Areas, or evidence of having met the standards for content area reading methods (3)
- ED407, Survey of Children’s Literature or ED420, Adolescent Literature and Strategies, or evidence of having met the standards of a survey class of children’s/adolescent literature (3)
- ED435, Methods for Teaching Language Arts (3)
- ED598, Multilingual Learners and Their Cultural Contexts, or evidence of having met the standards from that class (3)
- A minimum of 3.5 GPA in the courses that are part of their graduate reading program
- Disposition scores of 3 or higher in all literacy classes that use the disposition assessment

English as a New Language Minor

This sequence of classes is designed to continue a graduate’s study in the area of English as a new language. Candidates who pursue a license in the area of English as a new language must take the Pearson content area licensure test (019) for Teachers of English Learners.

- ED408, Foundations of Effective Reading Instruction (3)
- ED465, Second Language Acquisition and Assessment (3)
- ED490, Assessment of Students with Special Needs (3)
- ED497, Inclusive Education for Multilingual Learners (3)
- ED498, Methods for Teaching Multilingual Learners (3)
- Completion of a standards-based teaching portfolio

Teachers of the Visually Impaired Minor

Butler University has been approved by the Indiana Department of Education to offer a license for Teachers of the Visually Impaired. The program consists of a series of nine courses totaling 19 credit hours. This license can be added to an existing teaching license. This 19-hour program can be completed in 16 months. Our program gives candidates opportunities for community engagement and experiential learning, which are distinctive outcomes of a Butler University education. Candidates who pursue a license in the area of visually impaired must take the Pearson content area licensure test (022) for Blind and Low Vision.

- A foundational course in special education
- A course in special education law
- A course in special education measurement
- ED471, Eye Conditions and Their Learning Implications (1)
- ED472, Braille 1: Literary Braille (3)
- ED473, Low Vision Techniques (2)
- ED474, Adapted Materials for VI Students (2)
• ED475, Assistive Technology for VI Students (2)
• ED477, Literacy for Visually Impaired Children (2)
• ED478, Fundamentals of Orientation and Mobility (3)
• ED488, Philosophy of Blindness (1)
• ED489, VI Practicum (3)

Academic Programs

Undergraduate students in the Andre B. Lacy School of Business receive a rich, well-rounded academic experience that is grounded in the liberal arts and includes a rigorous curriculum in the business disciplines. Students have access to top internship opportunities, immersive study-abroad experiences at our partner schools around the globe, and the opportunity to participate in research with faculty through the honors program. LSB students often continue their studies at top graduate and law schools. Students begin their journey with the First-Year Business Experience, in which they engage in guided self-exploration, hone their teamwork skills, and develop a business plan. This leads into an innovative sophomore experience in which students develop and run a live business for real money. Students and faculty work alongside professional consultants in the Butler Business Consulting Group, a consulting firm that is run within the School. Students also participate in a four-year career development program that involves two internships and career mentors. Interaction with real business continues throughout the curriculum—from the first year through the senior year.

The School also offers two graduate degrees. The Master of Business Administration (MBA) is a part-time program that connects theory with business practice. Students kick off their graduate coursework by participating in a one-day business problem-solving immersion experience with a local company in the Gateway Experience. This course gives students an initial exposure to the experiential, hands-on learning process in the MBA program. At the end of the program, students participate in the integrated Capstone Experience, which serves as the bookend to the Gateway Experience. This course pulls together everything that students have learned throughout the MBA program into a practical, applied, semester-long consulting project. In addition to these two learning experiences, students encounter real business in a number of other ways on their path to graduation, including participating in a leadership development program, traveling with a faculty member on an international study trip, or serving as a Board Fellow.

The Master of Professional Accounting (MPAcc) program prepares students for successful careers in the accounting profession, both public and corporate, as well as successful completion of the CPA exam. The one-year curriculum includes a set of fundamental accounting classes and allows students to choose additional courses from two concentration areas: tax and financial reporting. In addition, students may incorporate a number of electives, including a Becker FastPass CPA review course and an international study trip.

Vision and Mission

The Butler University Lacy School of Business will become a recognized national center of excellence in business education. The LSB mission is to prepare students for success in life and leadership in business through experiential learning guided by a research-oriented faculty with relevant business experience.

Degree Programs

- Major in Accounting (BS)
- Major in Economics (BSE)
- Major in Entrepreneurship and Innovation (BS)
- Major in Finance (BS)
- Major in International Business (BS)
- Major in Management Information Systems (BS)
- Major in Marketing (BS)
- Major in Risk Management and Insurance (BS)
- Master of Business Administration (MBA)
- Master of Public Accounting (MPAcc)

Undergraduate Program Requirements

Students may be graduated upon completion of 121 semester hours, including:

- University Core Curriculum and requirements
- Necessary courses to complete a major in accounting, economics, entrepreneurship and innovation, finance, international business, management information systems, marketing, or risk management and insurance
- No fewer than 40 semester hours in courses numbered 300 or higher
- An international business course or experience

At least 50 percent of the required hours in business and economics must be taken at Butler University. Furthermore, the last 30 hours of the required 121 must be taken at Butler unless the student has the advance permission of the dean. Students must meet several grade requirements as well.

- Overall GPA must be 2.0 or higher.
- Students must receive a grade of at least C- in the introductory course or courses of their majors. These courses are listed specifically in the curriculum guides available in the School.
- Students must obtain a GPA of 2.3 or higher in the courses specifically in the major. These details also appear in the curriculum guides.

Student Learning Outcomes

The faculty of the LSB has identified the following outcomes for all students completing its undergraduate curriculum. They address what students should know, be able to do, and value.

- Describe and explain how generalized business knowledge is used to make decisions and solve business problems
- Recognize and apply specialized, functional business knowledge to make decisions and solve business problems
- Identify contemporary, global macro-environmental trends and issues, and describe opportunities and threats they present to businesses
- Display knowledge and skills in the areas of teamwork and leadership
- Display clear, concise, and professional communication skills
- Display critical-thinking skills, including the ability to integrate and analyze information, make decisions, and solve problems
- Demonstrate knowledge of ethical and American law principles and concepts, and practice ways to develop and evaluate sound legal and ethical decision-making in life and business

Specific student learning outcomes for each major appear along with the descriptions below.

**Curriculum**

Essential elements of the undergraduate curriculum are the University Core Curriculum, common business studies, professional development, and majors. Curriculum guides, which list the specific courses required for each major and their sequencing, may be obtained from the LSB office. All students complete the following four modules:

**University Core Curriculum**

The purpose of the core is to build broad interests and knowledge as a foundation for a change-oriented business career and useful life. Roughly half of the hours required for graduation are in the liberal arts and sciences. The largest portion of the core is taken when the student is a first-year student or sophomore.

**Common Business Studies**

These courses provide students with a thorough understanding of business basics. The component comprises approximately 50 credit hours of accounting, economics, marketing, finance, business law, operations management, organizational behavior, and information technology courses. A capstone academic experience also is required in addition to practical experiences. Most of this element is taken in the sophomore and junior years.

**Professional and Career Development Program**

This portion of the program helps the student develop a career interest, a sense of emerging professionalism, problem-solving skills, and communication experience, as well as aids in attaining entry-level employment. This program includes two required internships as well as career development courses and activities.

**Majors—The Fourth Module**

**Accounting**

The accounting major focuses on developing the knowledge and skills necessary to become a successful professional. Knowledge includes coursework in a variety of accounting topics—financial, managerial, tax, auditing, and information systems. The program emphasizes the development of intellectual, communication, and interpersonal skills. Graduates may prepare themselves to sit for professional exams, including the CPA and CMA exams, and are equipped to become professionals in diverse environments including public accounting, private business, government, and other organizations.

**Accounting Student Learning Outcomes**

Graduates will be able to:

- Explain and apply GAAP and identify the authoritative sources in which they are found
- Explain the basic purpose of financial reporting and the theoretical concepts that underlie GAAP as described in the Financial Accounting Standards Board’s Conceptual Framework
- Identify and describe the information system’s internal control procedures as required by external accounting regulators

**Economics**

The major in economics builds on the nine-hour requirement of economics taken by all business students and focuses on the behavior of both large and small decision-making units. It provides the student with problem-solving and data-gathering skills to make informed decisions in a variety of settings (e.g., business, government, and nonprofit) and for a variety of job responsibilities, from an entry-level position in a management training program, on the one hand, to a CEO of a corporation, on the other. A student with a major in economics may enter many professions, including financial services, government, journalism, banking, and general business. Further, economics provides a useful background for students wishing to do graduate work in business administration, international relations, public policy, law, and economics.

**Economics Student Learning Outcomes**

Graduates will be able to:

- Determine how market structure affects market prices, quantities, and profitability
- Investigate the relationship of the international economy to the domestic economy, including the role of exchange rates
- Use econometric techniques to estimate underlying relationships in economic models and interpret the results

**Entrepreneurship and Innovation**

The entrepreneurship and innovation major provides students with a fundamental understanding of the dynamic process of creating something unique and adding value by applying an innovative mindset and an action-oriented perspective, while taking calculated risks. It also equips students to apply this way of thinking and set of behaviors in new and existing organizations, whether for-profit or nonprofit. The program includes a foundational course in creativity and
innovation as well as a required practicum where students run their own business. Additional electives include, but are not limited to, entrepreneurial finance, social entrepreneurship, and salesmanship. It prepares graduates to begin their careers as independent entrepreneurs, as managers of new-venture divisions of major corporations and other innovative corporate endeavors, or in venture capital and investment banking activities.

**Entrepreneurship and Innovation Student Learning Outcomes**

Graduates will be able to:

- Identify and evaluate potential business opportunities
- Create and implement a business plan in an effective manner
- Explain how innovativeness, proactiveness, and calculated risk-taking contribute to the success of an organization

**Finance**

The finance major is designed to provide students with a management-level understanding of contemporary philosophies and tools available to firms in acquiring and using capital. The program includes basic financial management, investment theory and practice, and management of financial institutions. Graduates are well prepared for careers in investments, corporate finance, bank management, insurance, and related fields.

**Finance Student Learning Outcomes**

Graduates will be able to:

- Explain investment decisions based on time value of money principles
- Appropriately structure a portfolio of investments applying the related concepts of diversification, portfolio theory, and asset allocation
- Incorporate the role of globalization in financial decision-making

**International Business**

The international business major is designed to provide students with a multidisciplinary degree focused on the international business world. Students gain knowledge and skills to prepare them for the global environment of business.

To facilitate their career, a concentration is encouraged, but not required, in a functional area of business such as marketing or finance. Study abroad is a highly recommended and integral part of the major. Graduates are well prepared for entry-level positions in the discipline of focus and often pursue careers with corporations with international divisions or aspirations. Some work for nonprofits, governments, or start their own businesses. Most begin their careers in a U.S.-based organization that does business around the world.

**International Business Student Learning Outcomes**

Graduates will be able to:

- Identify contemporary, global macro-environmental trends and issues, and describe opportunities and threats they present to businesses
- Demonstrate the ability to conceptualize business from a global perspective
- Demonstrate the ability to communicate in a second language

**Management Information Systems**

MIS majors are able to combine a foundational knowledge of computer programming and information systems with a broad business background. In large firms, graduates can bridge the gaps between formally trained computer scientists and functional-area employees. In smaller firms, Butler graduates can manage MIS systems, perhaps designing and maintaining computer-based systems that provide information throughout the firm. They also can act as support personnel and are able to effectively communicate with suppliers, consultants, and service professionals.

**Management Information Systems Student Learning Outcomes**

Graduates will be able to recognize and apply the necessary balance between people, processes, and technology in order to implement a successful management information system.

**Marketing**

Marketing encompasses all the activities undertaken by organizations to design and deliver products and services that satisfy customer needs and wants. The marketing curriculum at Butler helps students understand these activities in the context of the other functions of the organization as well. Basic areas of study include marketing management, marketing research, advertising and promotion, personal selling, and strategic planning of marketing programs. Students are prepared for careers in sales, retailing, marketing research, product management, and related areas.

**Marketing Student Learning Outcomes**

Graduates will be able to:

- Analyze and create a strategic marketing plan, including mission and objective development, situational analysis, target marketing development, marketing mix, and control and evaluation
- Implement multiple marketing strategic frameworks
Risk Management and Insurance

The risk management and insurance major provides students with a fundamental understanding of the effect of risks, especially pure risks, on individuals and organizations. It also equips them to properly evaluate these risks and devise a plan for addressing risks with the tools available to the modern risk manager. The program includes a foundation course in risk management as well as electives in insurance company operations, types of insurance, the use of derivatives, and other skills-related courses. It prepares graduates for most entry-level jobs in an insurance company, in the management of employee benefits, and in corporate risk management.

Risk Management and Insurance Student Learning Outcomes

Graduates will be able to:

- Explain the effects of risk, especially pure risk, on the lives of individuals and organizations
- Properly evaluate risks and select the appropriate risk management tool to deal with those risks

Minors in Business

Students with primary majors in other colleges may pursue a variety of minor programs (18 to 21 credit hours) in business. The School offers minors in business law, entrepreneurship and innovation, health care management, international business, management information systems, marketing, and risk management and insurance, as well as a general business minor. There are separate minor programs in health care management and management information systems designed for students with a major in business. Details and curriculum guides are available in the Lacy School of Business office and online.

Accounting Courses

AC100. Volunteer Income Tax Assistance: This is a service-learning course which allows students to learn the basics of income tax return preparation prior to working as a volunteer to assist low-income individuals in preparing their tax returns. The course is open to every student in the university. (P)(U)(Q) Spring

AC203. Introduction to Accounting: Introduction to financial accounting and reporting and the accounting process and concepts. Emphasis on the accumulation and reporting of data for external use by corporations. Topical areas include assets, current liabilities, and partnerships. Prerequisites: Sophomore standing, or 15 hours and MA106 or MA125. (U)(3) Fall, spring, & summer

AC204. Introduction to Accounting II: Introduction to management accounting systems, with special emphasis on cost behavior, cost determination, planning, and control. Prerequisite: AC203. (U)(3) Fall, spring, & summer

AC301. Intermediate Accounting I: The course provides a practical approach to the accounting cycle, and a conceptual approach to the valuation uses underlying the construction of external financial statements. It is the foundation upon which extensive research and application practice will be based in AC302. Problem solving is heavily emphasized in this course. The assignments, exams, and group activities are designed to develop students' critical-thinking and creative problem-solving skills, and written and oral communication skills. Prerequisites: AC203 and AC204. (U)(3) Fall & spring

AC302. Intermediate Accounting II: This course introduces the applied professional research process and offers the student the opportunity to develop effective and productive research skills at the introductory level. Students will learn to apply the research process to selected financial accounting issues, use the research findings to determine proper accounting treatments, and communicate their results in professional memos. Required for Masters in Professional Accounting courses. Prerequisite: AC301. (U)(3) Spring

AC310. Advanced Managerial Accounting: Focuses on managerial accounting topics related to the information needs of individuals within organizations. Concentrates on identifying problems and analyzing relevant information within specific situations. Prerequisite: AC204. (U)(3) Spring

AC320. Auditing: Auditing standards, professional ethics duties and liabilities, and techniques for examination of the internal control, records, and operations of a firm for the purpose of expressing an informed opinion as to the fairness of its financial statements. Prerequisite: AC301 or permission of the instructor. (U)(3) Fall

AC325. Accounting Information Systems: Focuses on analyzing, designing, implementing, evaluating, and auditing the accounting information systems within a firm. Prerequisites: AC204, MS265, and junior status. (U)(3) Fall & spring

AC342. Financial Statement Analysis: Presents financial statement analysis from the point of view of the primary users of financial statements: credit and equity analysts. Focuses on how analysis is used to understand the economic processes of a business, which allows users to make various judgments. Prerequisites: AC203, AC204, and FN340. (U)(3) Occasionally

AC401, Independent Study: (U)(1) Occasionally

AC402, Independent Study: (U)(2) Occasionally

AC403, Independent Study: (U)(3) Occasionally

AC406. Fundamentals of Income Taxation: Course involves the evolution, theory, and structure of federal income taxation common to all taxpayers. Social, economic, and political considerations and influence on taxation are examined. Emphasis is on theory of taxation, income concepts, exclusions, deductions, and credits. Application of fundamental tax concepts researching and reporting conclusions are stressed. Prerequisite: AC204. (U)(3) Fall
AC495, Special Topics in Accounting: Seminar in selected accounting topics. Course content will vary from semester to semester. (U)(3) Occasionally

AC499, Honors Thesis: (U)(3) Occasionally

Business Courses

LSB101, Professional and Career Development I: This year-long course will introduce students to learning about themselves and their interests, skills, and strengths. It will also introduce students to their career mentors, who will help guide them through their four-year professional and career development. Prerequisite: LSB major. (P/F)(U)(0) Fall & spring

LSB201, Professional and Career Development II: This year-long course will continue to encourage students to learn about themselves and their interests, skills, and strengths. It will further strengthen the relationship with students’ career mentors, who help students develop job strategies. This course will also help students begin to conduct research about career paths, industries, and educational qualifications. Prerequisites: LSB major & LSB101. (P/F)(U)(0) Fall & spring

LSB300, Career Planning & Development: This career seminar will focus on development of career goals and a professional-looking résumé, employer identification, the interview process, and a strategic approach to job selection and career planning. Prerequisites: LSB201 and 44 credit hours. (U)(4) Fall & spring

LSB301, Professional and Career Development III: This year-long course will continue to encourage students to develop career goals in preparation for internships. Students will also develop sound job search strategies, including résumé and cover letter development, networking skills, business etiquette, and interviewing skills. These offerings complement LSB300. Prerequisites: LSB major and LSB201 or LSB301. (P/F)(U)(0) Fall & spring

LSB401, LSB Internship I: A one-semester experience with a business firm or business-related organization. The student will work part-time during a regular semester or full-time during the summer and will complete a series of academic assignments. Limited to LSB students in good standing. Prerequisites: 60 credit hours, a grade of at least C- in both MS265 and the first 300-level major course, and at least 12 hours of 300- or 400-level LSB courses. (U)(3) Fall, Spring, & summer

LSB402, LSB Internship II: A second experience, similar to LSB401. The student is encouraged to broaden his/her experience by working at a different firm or in a different function and/or by pursuing tasks and challenges truly different from the first experience. LSB majors in good standing only. Prerequisite: LSB401. (U)(3) Fall, Spring, & summer

Core Courses Offered by Economics

SW220-EC, The Economy and Society: This course examines important concepts of microeconomics and macroeconomics and analyzes issues such as energy prices, prescription drug costs, pollution, and globalization of markets using these concepts. It explores how economic life is intertwined with a society's culture, politics, values, and history. Further, it considers the limitations of the economic methodology to place economics in a context with the other social sciences. (U)(3) Fall & spring

SW221-LSB, Sustainability in Institutions: There is an emerging body of thought that argues that institutions of all sorts, including but not limited to businesses, in order to be successful in the long run, need to take into account economic performance, environmental impacts, and social justice. The course will explore what these concepts mean and the challenge of implementing a workable integration of these concepts. The course is interdisciplinary and will get into issues of science, social science, ethics, and economics. Historically, environmental and social impacts have been considered, if at all, as costs to be ignored, minimized, or externalized as much as possible. This new body of thought argues that environmental quality and social performance should be integrated into institutional strategy. This course will introduce students to economic and ethical analysis in order to help them to have appropriate bases for making judgments. The course will then explore the challenge of minimizing environmental and social impacts. (U)(3) Occasionally

Economics Courses

EC231, Principles of Microeconomics: This course examines the economic behavior of individuals, firms, and markets. The course provides basic concepts of economics and the analytical tools for students to understand how and why people make economic choices. Prerequisites: Sophomore standing, or 15 hours and MA106 or MA125. (U)(3) Fall, spring, & summer

EC232, Principles of Macroeconomics: This course studies aggregate output, employment, trade, government fiscal and monetary policies, and other national and international economic issues. It provides a framework for understanding and evaluating economic policy choices made by political leaders throughout the world. Prerequisite: EC231. (U)(3) Fall, spring, & summer

EC332, Intermediate Macroeconomics: Discusses measures of national income; it also examines causes of growth and fluctuations in national income. Prerequisites: EC231 and EC232. (U)(3) Annually, term varies

EC336, Comparative Economic Systems: An inquiry into the underlying principles and operational methods of national economic systems throughout the world. Focuses on the transition of the former socialist countries to market economies, and reviews the alternative models of central planning, market socialism, and market capitalism. Compares the economic policy choices (and consequences) that countries adopt to further national objectives. Prerequisite: SW220 or EC231. (U)(3) Occasionally

EC339, Economic History of the United States: Study of the economic development of the United States, emphasizing both theoretical and quantitative tools of analysis. Prerequisite: SW220 or EC231 (U)(3) Occasionally

EC342, Law and Economics: This course looks at law and crime from an economic perspective. Topics include property law, contract law, torts, and crime. The course examines theory as well as many actual cases. It also explores the evolution and economic impacts of our laws and legal structure. Prerequisite: EC101 or SW220, or EC231 and EC232. (U)(3) Occasionally
EI325, Social Entrepreneurship: This course examines how entrepreneurial skills are used to create innovative approaches to sustainable while creating social value. Students will be given the opportunity to apply the concepts of social entrepreneurs to a project within a local community. Prerequisites: EI201 and junior standing. (U)(3) Annually, term varies

EI315, Creativity and Innovation: This one-semester writing-intensive course is designed to develop personal creativity skills and an entrepreneurial mindset while learning the impact of innovation strategies across industries and organizations. Students will be exposed to concepts and principles engaged in mind mapping, creative problem solving, leadership, and self-reflection. Prerequisites: EC231 or SW220 and junior standing. (U)(3) Annually, term varies

EI325, Social Entrepreneurship: This course examines how entrepreneurial skills are used to create innovative approaches to societal problems. Social entrepreneurship applies to both for-profit and nonprofit firms that have programs designed to meet the double bottom line of being financially sustainable while creating social value. Students will be given the opportunity to apply the concepts of social entrepreneurship on a project within a local community. Prerequisites: EI201 and junior standing. (U)(3) Annually, term varies
EI346, Entrepreneurial Finance: This course will examine the financial issues that are critical to entrepreneurs. Key topics include estimating capital requirements and risk, identifying and evaluating sources of capital, business valuations, exit strategies, and liquidity events. The issues associated with structuring partnership arrangements and alliances will also be discussed. Prerequisite: FN340. (U)(3) Annually, term varies

EI401, Independent Study: (U)(1) Occasionally

EI402, Independent Study: (U)(2) Occasionally

EI403, Independent Study: (U)(3) Occasionally

EI495, Special Topics: Seminar in selected entrepreneurship and innovation topics. Course content will vary from semester to semester. (U)(3) Occasionally

EI499, Honors Thesis: (U)(3) Occasionally

Finance Courses

FN340, Corporate Finance: Analysis of the process by which profit-seeking corporations acquire and use capital. Topics include financial statement analysis, capital structure, capital budgeting, dividend policy, and working capital management. Prerequisites: AC204, EC231, EC232, MA265, and MA264 or MA353. (U)(3) Fall, spring, & summer

FN342, Financial Statement Analysis: Presents financial statement analysis from the point of view of the primary users of financial statements: credit and equity analysts. Focuses on how analysis is used to understand the economic processes of a business, which allows users to make various judgments. Prerequisites: AC203, AC204, and FN340. (U)(3) Occasionally

FN346, Entrepreneurial Finance: This course will examine the financial issues that are critical to entrepreneurs. Key topics include estimating capital requirements and risk, identifying and evaluating sources of capital, business valuations, exit strategies, and liquidity events. The issues associated with structuring partnership arrangements and alliances will also be discussed. Prerequisite: FN340. (U)(3) Annually, term varies

FN347, Investments: Covers the theory and practice of bond analysis and common stock appraisal. Particular attention is paid to the behavior of capital markets and the analysis of investment values. Prerequisite: FN340. (U)(3) Fall, spring, & summer

FN352, Real Estate Principles: An introduction to the investment characteristics of real property. Decision-making tools will be emphasized. Covers real estate appraisal and mortgage markets. Prerequisite: FN340. (U)(3) Fall & spring

FN371, Financial Institutions, Instruments, and Markets: A detailed analysis of the components of market yield and their relationships to asset value serves as the foundation for the study of financial institution characteristics and the risk-management techniques of interest to these institutions. Credit will not be given for both EC355 and FN371. Prerequisite: FN340. (U)(3) Fall

FN401, Independent Study: (U)(1) Occasionally

FN402, Independent Study: (U)(2) Occasionally

FN403, Independent Study: (U)(3) Occasionally

FN450, Derivatives Securities & Risk Management: This course provides an advanced treatment of options, futures, and other derivative securities, including their theoretical and numerical valuation. The goal is to understand these contracts in a variety of settings and understand their effect on risk exposure, including exchange rate risk, interest rate risk, etc. Prerequisite: FN347. (U)(3) Fall & spring

FN451, International Financial Management: The course will develop a conceptual framework for understanding international financial arrangements and introduce specific tools for financial decision-making. The operations of foreign exchange markets will be considered, along with their impact on the management of the firm's foreign exchange exposure. Prerequisite: FN340. (U)(3) Fall & spring

FN470, Applied Portfolio Management: Students serve as managers of a real-dollar investment portfolio. The course provides hands-on experience in portfolio management, including investment policy statement preparation; economic, industry, and company analysis; hedging tactics; and investment strategy implementation. Students will report on their performance to the Endowment & Investment Committee of Butler University's Board of Trustees. Prerequisite: FN347. (U)(3) Fall & spring

FN495, Special Topics in Finance: Seminar in selected finance topics. Course content will vary from semester to semester. Prerequisite: FN340. (U)(3) Occasionally

FN499, Honors Thesis: (U)(3) Occasionally

International Business Courses

IB201, International Business Experience: International study travel incorporating international business topics. Course content will vary from semester to semester. (U)(1) Occasionally

IB210, Business in the European Union: The course analyzes the business environment in the European Union while taking a look at the economic, political, legal, and cultural aspects of the European Union and selected member countries. It examines current economic, political, and social developments in the area and discusses implications for business inside and outside of Europe. (U)(3) Occasionally

IB320, International Business Environment: Analyzes the global business environment, including geographical, cultural, and political elements. Examines critical issues such as the rise of Pacific Rim economies, the European Union and the move to regionalism, and the transition from centrally planned economies to just market economies. Considers the effects of macro-environmental changes on corporate strategies. Prerequisites: Junior standing and SW220 (or EC 231 and EC 232). (U)(3) Fall & spring
IB323, Contemporary Business in East Asia: Analyzes the business environment of China, Japan, and several newly industrialized nations in the East Asia region. Examines current economic, political, and social developments in the region, and discusses implications for businesses inside and outside of East Asia. Prerequisite: SW220 or EC232. (U)(3) Occasionally

IB336, Comparative Economic Systems: An inquiry into the underlying principles and operational methods of national economic systems throughout the world. Focuses on the transition of the former socialist countries to market economies, and reviews the alternative models of central planning, market socialism, and market capitalism. Compares the economic policy choices (and consequences) that countries adopt to further national objectives. Prerequisite: SW220 or EC231. (U)(3) Occasionally

IB367, Legal Aspects of International Business: Examines contemporary legal problems affecting international business transactions, including contract performance, licensing, delivery, payment, dispute resolution, export controls, and foreign corrupt practices. Other legal topics, including nationalization and expropriation, which are relevant to international business also will be discussed. Prerequisite: LE365. (U)(3) Occasionally

IB401, Independent Study: (U)(1) Occasionally

IB402, Independent Study: (U)(2) Occasionally

IB403, Independent Study: (U)(3) Occasionally

IB433, International Economics: Theory of international trade; foreign trade financing both under gold standard and managed currencies; international investment; mechanisms of balance of payment adjustment; tariffs; and economic integration. Prerequisites: EC231 and EC232. (U)(3) Fall, spring, & summer

IB451, International Finance Management: The course will develop a conceptual framework for understanding international financial arrangements and introduce specific tools for financial decision-making. The operations of the foreign exchange markets will be considered, along with their impact on the management of the firm's foreign exchange exposure. Prerequisite: FN340. (U)(3) Fall & spring

IB460, International Organizational Behavior: Designed to develop a sophisticated understanding of the issues in cross-cultural communication applied to the world of the international manager. Topics such as the selection of international managers, organization designs with multicultural staffing, cultural constraints, and different behaviors exhibited in negotiations are developed in detail. Prerequisite: MG360. (U)(3) Occasionally

IB491, International Marketing: Centers on the development of international marketing strategies and tactics, analyzing the roles of culture, government, and economics. Important regions/markets are woven into the discussion and cases. Prerequisite: MK380 or MK280. (U)(3) Fall & spring

IB495, Special Topics in International Business: Seminar in selected international business topics. Course content will vary from semester to semester. (U)(3) Occasionally

IB499, Honors Thesis: (U)(3) Occasionally

**Core Course Offered by Law and Ethics**

TL264-LE, Business Ethics: Examines the conceptual foundations for resolving ethical challenges associated with business activity. Areas addressed in the course include the economic arrangement of a business organization, the treatment of its stakeholders, and the treatment of the environment. (U)(3) Fall, spring, & summer

**Law and Ethics Courses**

LE263, Legal Environment of Business: Examines the sources of law, legal process, and dispute resolution; legal issues relevant to formation and operation of a business organization (including the legal roles of management and the providers of capital); and laws governing an organization's relationship with its employees and agents. Prerequisite: EI101 or sophomore standing. (U)(3) Fall, spring, & summer

LE264, Business Ethics: Examines the conceptual foundations for resolving ethical challenges associated with business activity. Areas addressed in the course include the economic arrangement of a business organization, the treatment of its stakeholders, and the treatment of the environment. Prerequisite: MG101 or sophomore standing. (U)(3) Fall, spring, & summer

LE365, Business Law 1: Examines various substantive areas of law affecting business organizations, including contracts, sales of goods, products liability, property (personal, real, and intellectual), and other contemporary legal and ethical issues. Prerequisite: LE262 or LE263. (U)(3) Fall, spring, & summer

LE495, Special Topics in Law & Ethics: Seminar in selected law and ethics topics. Course content will vary from semester to semester. (U)(3) Occasionally

**Management Courses**

MG303, Leadership London: Leadership London is a seminar-style, site-based course taught in London, England that uses London's resources, institutions, and history to explore the cultural, international, historical, and ethical issues relevant to leadership. (U)(3) Summer

MG311, Departmental Honors: This course will fulfill the departmental honors requirement for LSB students in the University Honors Program. It is designed to prepare students to complete the honors thesis by teaching them the fundamentals of conducting academic research. Topics will include developing a hypothesis, research design, and methods for collecting data. It will also familiarize students with research topics, methods, and library resources that are unique to the different areas of business. Prerequisites: Junior status and enrolled in University Honors Program. (U)(3) Occasionally

MG390, Organizational Behavior: Develops an understanding of individual and group behavior in organizations by examining both the theories that explain human behavior and their application in business and other settings. Topics include personality, values, motivation, leadership, communication, work teams, and decision-making. Experiential learning will be emphasized. Prerequisite: Junior standing. (U)(3) Fall, spring, & summer
MG380, Health Care Administration: This course provides an overview of major health care system components such as health status, need for health care, access to health care and utilization, health care expenditures, health care facilities, personnel, alternative delivery systems, and health care ethical issues. Prerequisite: Junior standing. (U)(3) Annually, term varies

MG401, Independent Study: (U)(1) Occasionally

MG402, Independent Study: (U)(2) Occasionally

MG403, Independent Study: (U)(3) Occasionally

MG490, Strategy Capstone: The tasks of the manager in formulating short- and long-run corporate strategy. Using the case method, a framework is developed for integrating skills learned in other required business courses. Prerequisites: Senior standing, LSB401, MS350, MG360, LE365, MK380, and FN340. (U)(3) Fall, spring, & summer

MG493, Special Topics in Management: Seminar in selected management topics. Course content will vary from semester to semester. (U)(3) Occasionally

MG499, Honors Thesis: (U)(3) Occasionally

MG501, Independent Study Management: (U)(1) Occasionally

Core Course Offered by Marketing

PCA261-MK, Aesthetics and Design: Art is everywhere, but few people acknowledge it in the form of everyday practical objects. This course will study the fundamental elements of art and the principles of design and their interaction to create both artwork and products of use. Students should expect hands-on experiences in creating artwork and product prototypes to demonstrate content learning. There is a secondary focus on developing a skill set in reflection, self-awareness, empathy, creativity, and critiquing. (U)(3) Annually, term varies

Marketing Courses

MK280, Principles of Marketing: A survey of marketing planning and implementation, with special emphasis on product/service development and management, as well as distribution, pricing, and promotion practices. Not for majors in LSB; not a substitute for MK380 in LSB curricula. Background in economics and accounting helpful, but not required. (U)(3) Fall & spring

MK380, Introduction to Marketing Management: An introduction to contemporary marketing strategies and practices in dynamic competitive environments and the decisions marketing managers make to help their organizations find, get, and keep customers. Prerequisites: AC204, EC231, and MS264. (U)(3) Fall, spring, & summer

MK381, Salesmanship and Sales Management: An applied course to study the successful and efficient management of the personal sales process. The course will consist of the application of management and behavioral tools to the problem of managing a sales department. Prerequisite: MK280 or MK380. (U)(3) Fall & spring

MK384, Marketing Analytics: This course reviews key concepts from accounting, finance, statistics, economics, and information systems that are especially relevant to marketing measurement and decision-making. It develops knowledge of social science research methodology skills and helps the student use those skills to measure and assess a range of marketing phenomena such as personal selling, advertising/PR, new media, etc. Students will be better able to make informed decisions and assess others' decisions. Prerequisites: EC232, MS265, and MK380. (U)(3) Annually, term varies

MK385, Marketing Research: Research design and collection, analysis and reporting of data, and findings relevant to marketing problems. Quantitative research methods, surveys and questionnaires, observation, lab experimentation and field market tests, techniques of data analysis, and reporting and presentation techniques. Prerequisites: MK380 and MS264. (U)(3) Fall & spring

MK386, Health Care Marketing: This course covers the application of marketing principles to contemporary health care industry issues. It seeks to leverage and deepen knowledge from the marketing core by addressing how standard marketing techniques apply within the health sector. Prerequisite: MK280 or MK380 (U)(3) Spring

MK401, Independent Study: (U)(3) Occasionally

MK402, Independent Study: (U)(2) Occasionally

MK403, Independent Study: (U)(3) Occasionally

MK471, Advertising and Promotion Management: An exploration of basic advertising and sales promotion concepts. Examines the design, management, and integration of a promotional strategy within the marketing effort of the firm. Prerequisite: MK381. (U)(3) Fall & spring

MK473, Retailing: This class will address a comprehensive set of retailing-related items, such as store personnel management, merchandising, purchasing, location, layout, financial management, and advertising/promotions. Class activities will include a mix of lectures, class discussions, case analyses, and guest speakers from the retailing industry. Prerequisite: MK380. (U)(3) Fall

MK480, Marketing Management/Strategy: The capstone marketing course, designed for students in the last semester of their academic program, is an integrated study of all functional areas of marketing. The marketing plan is considered from a systems perspective, with emphasis on system design and administration. Prerequisites: MK380, MK385 or MK384, two marketing electives, FN340, MS350, and MG360. (U)(3) Fall & spring

MK483, Consumer Behavior: Consumer behavior from the perspective of a marketing manager: overview of the concepts, theories, and models that will help the student understand buyer behavior; and information about consumers in analyzing marketing situations, and in developing and evaluating marketing strategies. Prerequisite: MK380. (U)(3) Spring
MK491, International Marketing: Centers on the development of international marketing strategies and tactics, analyzing the roles of culture, government, and economics. Important regions/markets are woven into the discussion and cases. Prerequisite: MK380 or MK280. (U)(3) Fall, spring, & summer

MK495, Special Topics in Marketing: Seminar in selected marketing topics. Course content will vary from semester to semester. (U)(3) Occasionally

MK499, Honors Thesis: (U)(3) Occasionally

**Management Science Courses**

MS100, Basic Excel Skills for Business Applications: Students learn how to develop Excel spreadsheets to identify, define, and solve business problems. They develop analytical skills by considering a problem and its solution through spreadsheet applications (functions, IF statements, formatting, charting, database functions, etc.). The final examination is based on the Microsoft Office User Specialist Level 1 certification. (P/F)(U)(1) Fall, spring, & summer

MS264, Statistics: Descriptive statistics (presentation of data, frequency distributions, measures of central tendency and variation), probability theory, probability distributions, sampling, introduction to hypothesis testing, analysis of variance, linear regression, multiple regression, and correlation. Prerequisites: MS100, and MA106 or MA125 or any AR course. (U)(3) Fall, spring, & summer

MS265, Information Technology: This course explores the role of information technology in global business today and emphasizes the importance of website, spreadsheet, and database technologies to information-based organizations. Focus is on the need for proper design and development of software applications. Intermediate and some advanced software skills are covered. Projects promote the application of these skills to a variety of business cases. Prerequisites: MS100, and MA106 or MA125 or any AR course. (U)(3) Fall, spring, & summer

MS370, Data Networks/Communication Systems: The course will address networking and communication topics related to computer hardware and software configurations. The course will include the role of data communications, networking and communications standards, introduction to network basics, network administration, and practical applications. Prerequisites: Junior standing, AC204, EC231, MS100, and MS264. (U)(3) Fall, spring, & summer

MS372, Database Design: The course will address database fundamentals and technology; theory and utilization of database management systems. Prerequisites: MS265 and SE267. (U)(3) Spring

MS374, Web Design & E-Commerce: This course combines hands-on experience with website design, with knowledge of e-commerce and internet technologies. The focus is on the role of websites and e-commerce in decision-making and business systems. Students will investigate how websites can be constructed to support a wide variety of objectives. Prerequisite: MS265. (U)(3) Fall & spring

MS375, Systems Analysis & Design: This course will address information analysis and logical specification of the system. The following topics will be addressed: basic data structures and access methods, applied MIS development requirements, detailed logical design, physical design, data and process modeling, implementation planning, technology, and organizational behavior. Prerequisites: MS265 and junior standing. (U)(3) Fall & summer

MS377, Health Care Information & Technology Management: An introduction to information management and technology in the context of health care planning, managerial decision-making, and strategic analysis. Specific topics will include technology-related aspects of health care legislation such as HIPAA, application of electronic health records, decision support systems, integrated hospital information systems, and control techniques. Prerequisite: MS265. (U)(3) Spring

MS378, Data Analysis and Business Modeling: This course will focus on developing advanced analytical and modeling skills for a business environment. Topics will include functions, financial analysis, importing data, sensitivity analysis, modeling growth, forecasting, and simulation. Prerequisite: MS265. (U)(3) Spring

MS401, Independent Study: (U)(1) Occasionally

MS402, Independent Study: (U)(2) Occasionally

MS403, Independent Study: (U)(3) Occasionally

MS465, Enterprise Information Systems: This course focuses on key features of a generic ERP system; various ERP configurations related to servers, databases, and bolt-on software; and some of the leading ERP software products. In addition, topics related to data warehousing, ERP implementation risks, and security issues will also be covered. Prerequisite: Any MS300- or MS400-level class or AC325. (U)(3) Fall

MS495, Special Topics in Management Science: Seminar in selected management science topics. Course content will vary from semester to semester. (U)(3) Occasionally

MS499, Honors Thesis: (U)(3) Occasionally

**Risk Management Courses**

RM350, Introduction to Risk Management: The focus of the course is on the management of operational risks facing organizations. The sources, dimensions, and qualities of risk will be explored along with techniques used to manage risks. Prerequisites: AC203, EC231 or SW220, and MS264 or MA162 or MA360. (U)(3) Fall & spring
RM360, Insurance Company Operations: This course is an in-depth study of management issues unique to insurance operations and companies from a functional perspective. Explores issues surrounding the operation of an insurance company by looking at underwriting strategy, choice of distribution system, reinsurance arrangements, investments, and claims. Prerequisite: RM350. (U)(S) Spring

RM370, Employee Benefits & Retirement Planning: This course provides a foundation of knowledge regarding employee benefit plans. All major categories of benefits will be covered, with an emphasis on plan design, administration, relevant government regulations, and income tax implications. Prerequisites: AC203, EC232 or SW220, and MS264 or MA162. (U)(S) Fall

RM401, Independent Study: (U)(S) Occasionally

RM402, Independent Study: (U)(S) Occasionally

RM403, Independent Study: (U)(S) Occasionally

RM450, Derivatives Securities & Risk Management: This course provides an advanced treatment of options, futures, and other derivative securities, including their theoretical and numerical valuation. The goal is to understand these contracts in a variety of settings and understand their effect on risk exposure, including exchange rate risk, interest rate risk, etc. Prerequisite: FN347. (U)(S) Fall & spring

RM460, Commercial Property & Liability Insurance: This course provides a foundation of knowledge regarding commercial property and liability insurance lines. All major categories of insurance will be covered, including a discussion of the practical application of noninsurance loss prevention and control techniques. Prerequisites: RM350 and LE365. (U)(S) Occasionally

RM495, Special Topics in Risk Management: Seminar in selected risk management and insurance topics. Course content will vary from semester to semester. (U)(S) Occasionally

RM499, Honors Thesis: Risk Management & Insurance. (U)(S) Occasionally

Graduate Programs

For general information on applying and admission to any Butler graduate program or course, see the Admission Information and Requirements section. School- and program-specific requirements are detailed below.

Master of Business Administration

The Master of Business Administration (MBA) is a professional degree, offered primarily to early- and mid-career professionals seeking career enhancement.

Requirements for Graduation

An individual path to graduation is prepared for each incoming student based on his or her academic background.

The program requires 38 graduate credit hours. Students are required to demonstrate proficiency in six competency areas prior to starting the graduate core. Some of the competency areas may be waived based on the individual's undergraduate transcripts (certain requirements apply). If an automatic waiver is not granted, the student will be required to show competency by passing an exam in that topic area. To prepare, students can take an online, self-paced primer on a pass/fail basis. Students must accumulate a minimum of two global (G) points by completing a designated global elective course. Students are required to achieve a 3.0 GPA to graduate from the program.

As students progress through the program, they may choose to pursue a general MBA degree or earn one or more of these concentrations: Entrepreneurship and Innovation, Finance, International Business, Leadership, or Marketing.

MBA Student Learning Outcomes

The faculty of the LSB have identified the following outcomes for students completing the MBA curriculum. They address what students should know, be able to do, and value.

- Identify the fundamental drivers of business and integrate such business knowledge to solve business problems
- Identify the dynamics affecting businesses in the international economy
- Display the ability to work effectively in teams
- Understand the use of power and influence in a professional setting
- Identify strategies for managing or implementing organizational change

Curriculum

Two components comprise the MBA curriculum:

- The graduate core (30 required credit hours) offers an integrated framework on contemporary leadership perspectives and management practices.
- Concentration courses (8 credit hours) allow students to develop expertise in entrepreneurship and innovation, finance, international business, leadership, or marketing.

MBA Courses

MPRIM 410, Organizational Behavior Primer: Provides a broad overview of the field to develop an understanding of the principles which govern human behavior in organizational settings. Will cover such issues as motivation, group dynamics, communication, leadership, change, and culture. Emphasis will be placed upon theory, practice, and the development of personal skills.
MPRIM 420, Financial & Managerial Accounting Primer: Conceptual introduction to financial accounting, with emphasis on wealth and income measurement, cash flows, and debt. Conceptual introduction to managerial accounting, with emphasis on basic management reports, cost patterns, and measurement, including marginal income and expense measurements and break-even analysis.

MPRIM 425, Foundations in Economics Primer: Provides an overview of microeconomics and macroeconomics. Reviews basic economic concepts of supply and demand, marginal analysis, aggregate demand, the workings of markets, and how prices, wages, and interest rates are determined. The economy as a whole is also considered, with a focus on unemployment, inflation, and monetary and fiscal policies.

MPRIM 435, Foundations in Finance Primer: This course is an introduction to the basic principles of finance, including shareholder wealth maximization, the time value of money, risk-return relationships, and valuation. In addition, the course will apply these principles to such topics as capital budgeting, capital structure, dividend policy, and financial planning. Prerequisite: M420 exam must be completed before taking M430 exam.

MPRIM 435, Foundations in Marketing Primer: An introduction to contemporary marketing strategies and practices. Content issues include marketing mix allocation, segmentation, targeting, and positioning; internal and ethical considerations in marketing; services marketing; and relationship marketing.

MPRIM 440, Statistical Analysis Primer: This course will focus on applied statistical concepts of descriptive statistics, probability, hypothesis testing, simple/multiple regression, and forecasting models. The course will involve use of the computer, and there will be an emphasis on learning and reinforcing computer skills for data analysis.

MBA 501, Independent Graduate Study in Business: An individual research project or problem investigation under supervision of a faculty member. Designed to allow graduate students to pursue in-depth studies of areas or issues related to their areas of academic interest. Must have approval of program director and sponsoring faculty member prior to enrollment. This graduate elective is open only to MBA degree-seeking students in good standing; 1–3 credits by agreement with sponsoring professor. Prerequisite: Demonstrated proficiency in all competency areas. (G)(3) Fall, spring, & summer

MBA 502, Independent Graduate Study in Business: An individual research project or problem investigation under supervision of a faculty member. Designed to allow graduate students to pursue in-depth studies of areas or issues related to their areas of academic interest. Must have approval of program director and sponsoring faculty member prior to enrollment. This graduate elective is open only to MBA degree-seeking students in good standing; 2 credits by agreement with sponsoring professor. Prerequisite: Demonstrated proficiency in all competency areas. (G)(2) Occasionally

MBA 503, Independent Graduate Study in Business: An individual research project or problem investigation under supervision of a faculty member. Designed to allow graduate students to pursue in-depth studies of areas or issues related to their areas of academic interest. Must have approval of program director and sponsoring faculty member prior to enrollment. This graduate elective is open only to MBA degree-seeking students in good standing; 1–3 credits by agreement with sponsoring professor. Prerequisite: Demonstrated proficiency in all competency areas. (G)(1–3) Occasionally

MBA 505, Gateway Experience: Provides students with an introduction to the integrated nature of business. Introduces the idea of experiential learning and develops expectations for the graduate core courses. The course will involve a hands-on experiential group exercise. Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas, with the exception of statistical analysis. (P/F)(G)(1) Fall, spring, & summer

MBA 510, Leadership: Explores the history, art, science, and practice of leadership in organizational settings. Such issues as leadership history, change, visioning, coaching followship, and socio-technical concerns will be covered. Emphasis will be placed upon merging theory and practice and personal leadership skill development. Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas, with the exception of statistical analysis; prerequisite or corequisite: MBA 505. (G)(3) Fall, spring, & summer

MBA 520, Managerial Accounting: Application of managerial accounting concepts, techniques, and issues, emphasizing uses of internal accounting information for decision-making, planning or budgeting, and evaluation/control. Topics include alternative cost measurement, accumulation, allocation methods, and analysis techniques (job, process, just-in-time, standard, activity-based costing, cost behavior, cost-volume-profit analysis, contribution approach) that are relevant to various managerial decisions (production, pricing, etc.) and related issues (behavioral implications). Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas; prerequisite or corequisite: MBA 505. (G)(3) Fall, spring, & summer

MBA 522, Business Practicum: Field-based, experiential learning program designed to provide Butler MBA students with real-world knowledge of selected business and industry clusters, and the opportunity to interact with business leaders and experts. The business practicum is intended to be highly experiential and engage successful community and business leaders and experts from economic development clusters. Students will draw on skills acquired in their core and elective courses, and supplemental readings, to engage in a three-day, industry-level business analysis/challenge competition. Working in teams, students will analyze the business task to identify potential paths to success and recommend a solution. Prerequisites: Deg 410, 420, 425, 430, 433, 440 exam, and MBA 505. (G)(3) Fall, spring, & summer

MBA 525, Managerial Economics: A course in applied microeconomics with an emphasis on business decision-making. Topics include market analysis and price determination, and examination of managerial response to changing demand, cost, and industry conditions. Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas; prerequisite or corequisite: MBA 505. (G)(3) Fall, spring, & summer

MBA 530, Financial Management: An analysis of the theory and practice of financial management, this course expands on the topics covered in MBA 430. In general, the course focuses on how firms properly acquire and invest funds in a corporate setting. Specific topics include capital budgeting, capital structure, dividend policy, derivatives, mergers and acquisitions, and bankruptcy. Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas; prerequisite or corequisite: MBA 505. (G)(3) Fall, spring, & summer

MBA 535, Marketing Management and Research Methods: An integrated course designed to provide the student with marketing management skills, basic research methodology skills, and a framework to make decisions in a marketing context. Marketing management content issues include buyer behavior; market segmentation, targeting, and positioning; and management of the marketing mix. Research methodology topics include study design, data...
collection, and forecasting methods. Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas; prerequisite or corequisite: MBA505. (G)(3) Fall & spring

MBA540, Information Management and Business Analytics: This course examines how information can be leveraged for competitive advantage in a global business environment. Three primary topics are discussed: the role of information technology (IT) and the IT department in an organization, analyzing business data with current software, and the role and analysis of data in operations management. The course is designed to help managers understand the challenges, opportunities, and risks involved in the analysis of data, as well as the use of information and associated systems. The course is designed for general managers, and no prior technical knowledge is assumed or required. Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas; prerequisite or corequisite: MBA505. (G)(3) Fall, spring, & summer

MBA542, The Entrepreneurial Mindset: This course examines the nature of innovation and how the entrepreneurial mindset is leveraged to identify and exploit new market opportunities. Detailed attention is given to the entrepreneurial process and how it applies to the entrepreneur, the evolving company, and the established company. Prerequisite: Deg 410, 420, 425, 430, 435, 440 exams, MBA505. (G)(3) Fall, spring, & summer

MBA545, Integrative Capstone Experience: Designed to serve as a capstone experience in the graduate program. This course reviews key concepts from the individual disciplines (accounting, finance, marketing, leadership, production) and integrates them with new material on strategic management. The perspective is from the point of view of a general manager, division head, or CEO who holds responsibility for shaping the direction and character of the organization. The approach relies heavily on in-depth case analysis and class discussion. Prerequisites: MBA degree-seeking status, MBA505, MBA510, MBA515, MBA520, MBA522, MBA525, MBA530, MBA535, MBA540, and MBA542. (G)(3) Fall, spring, & summer

MBA551, People in Organizations: Generally, all businesses will state that human resources are its most important asset. Management of this asset is what, in large part, determines the success of the business. How people are treated affects the bottom line. Topics include performance appraisals, communications, collective bargaining and the need for “win/win” maintaining a positive employee relations climate, and other related subjects. Prerequisite: MBA510. (G)(2) Fall

MBA552, Managing People in Global Organizations: This course is designed to help leaders of international companies develop the knowledge and skills they will need to interact effectively with people from other cultures. The concept of culture, how cultures differ from one another, and how culture influences interactions between people in a global business environment will be examined. Particular emphasis will be placed upon understanding the implications of cultural differences for management practice in the areas of motivation, leadership, communication, negotiation styles, conflict resolution, and human resource policies. Prerequisite: MBA510. (G)(2) Fall

MBA553, Issues in Ethics and Social Responsibility: Focuses on understanding how leaders go about the complex process of making decisions and solving problems. It deals with how situations get interpreted as problems and addresses why some issues get decided while others are ignored. It examines decision-making and problem-solving cycles to determine why some issues get immediate action while others go through a convoluted decision process. Finally, it examines the aftermath of these processes and explores why some problems never get solved. Prerequisite: MBA510. (G)(2) Fall

MBA556, Developing and Managing Teams: Addresses the formation and development of self-managed or autonomous teams in organizational settings. Strong emphasis is placed on theory and skill development in such areas as interpersonal relations, process variables, group life cycles, decision-making, leadership emergence, and conflict management. Attention to the effects of new communication technologies on group processes also will be addressed. Prerequisite: MBA510. (G)(2) Summer

MBA557, Managing Change: Exposes students to the theory and practices necessary to plan, implement, and analyze the effectiveness of organizational change programs. Explores methods which promote autonomy, diversity, and continuous learning. Seeks to help students become effective internal and external change agents. Prerequisite: MBA510. (G)(2) Spring

MBA558, Perspectives on Leadership: The objective of this seminar is to examine leadership approaches/styles in an experiential, in-depth manner. The course includes a highly engaged and participative exploration of both business and nonprofit organization leadership (including site visits), as well as a clarification of the students’ personal styles. Prerequisite: MBA510. (G)(2) Occasionally

MBA559, Venture Planning: This course will expose students to topics such as elements of a start-up, developing a business model, building a support team, developing a business plan, developing a branding and market positioning plan, developing a capital strategy, pursuing investors, being innovative, and becoming an effective leader. Prerequisite: MBA542. (G)(3) Spring

MBA561, Financial Institutions and Markets: This course covers the characteristics and management of financial institutions. As a foundation for this study, the course examines interest rate theory and interest rate risk management, the regulatory environment, and other features of the financial markets. Prerequisite: MBA530. (G)(3) Summer

MBA562, International Finance: The course provides analytical financial tools to managers as they operate in the international economy. Hedging techniques are introduced, and foreign investment and financing decisions are examined. Prerequisite: MBA530. (G)(3) Fall

MBA563, Seminar in Investment Management: Examines the valuation of financial securities using traditional and modern financial theories. Given valuation results, it also examines portfolio construction related to maximizing return and minimizing risk. The case method is employed. Prerequisite: MBA530. (G) Fall

MBA564, Derivatives: Futures, Options, & Swaps: The course provides an introduction to derivative markets. Specifically, students will receive a working knowledge of futures, options, and swaps. This course will emphasize the use of derivative instruments in the management of financial risk exposure. Calculus is not a prerequisite for this course. This course is an MBA finance elective. Prerequisite: MBA530. (G)(2) Summer

MBA568, Entrepreneurial Finance: This course focuses on how entrepreneurs appropriately manage the financial aspects of potential business ventures, specifically, how entrepreneurs evaluate and value attractive business opportunities, estimate the resources necessary to undertake such opportunities, secure resources on favorable terms, and manage financial resources. Key topics include estimating capital requirements and risk, identifying and evaluating sources of capital, managing financial liquidity, performing business valuations, and understanding exit strategies. Prerequisites: MBA530 and MBA542. (G)(3) Fall
MBA571, Global Business Experience: This course introduces students to the business and cultural environments of a particular foreign country through pre-trip work, a short-term study trip, and the preparation of a reflective paper. Designed to serve as a 2-credit elective course, it may be counted towards any of the areas of concentration and satisfies the two G points MBA program requirement. Prerequisites: Completion of seven hours of 500-level coursework. (G)(2) Annually, term varies

MBA573, FirstPerson MBA Board Fellows Program: This program introduces MBA students to the nonprofit world of Indianapolis. Student fellows are offered hands-on opportunities and first-hand experience with this important sector that champions community engagement, leadership, and lasting impact. MBA fellows spend a semester participating in the life of a designated nonprofit, learning about board governance, thinking through strategic plans, and participating in the execution of a selected project critical to the organization's success. MBA fellows are matched with a mentor, who serves on the board or staff of a nonprofit organization. Mentors are the liaison between fellows and the nonprofit, making introductions, providing context, and advising on project design. Course only counts towards an elective/concentration in leadership. Prerequisites: All competency area courses as well as MBA505 and MBA510. (G)(2) Spring

MBA581, International Marketing: Systematically analyzes the design of international marketing strategies and tactics from the perspectives of both multinational corporations and small- to medium-sized exporters. Highlights and integrates the roles of culture, government, and demography in the development of comparative and competitive advantages. Discussions of current global events and important regions/markets are woven into the analyses and discussions. Practical methods of doing international marketing research are included. Prerequisite: MBA535. (G)(3) Fall

MBA582, Advertising and Promotion Management: The traditional promotion marketing mix elements (i.e., advertising, sales promotion, public relations, and personal selling) are explored as components of an integrated marketing communications (IMC) strategy, with primary emphasis on advertising. The course is designed to provide an exposure to the concepts, theories, and frameworks helpful in understanding the elements of IMC such that students are able to formulate case studies and strategic planning. Additional attention is paid to the increasing role of technology in effective consumer communication strategy. Prerequisite: MBA535. (G)(2) Summer

MBA583, Buyer Behavior and Customer-Driven Strategies: Introduces students to the field of buyer behavior from the perspective of a marketing manager who needs such knowledge to develop, evaluate, and implement effective, customer-oriented strategies. The course is designed to provide an overview of the concepts, theories, and models that will help the student understand buyer behavior; provide exposure to the various research tools that organizations use to listen to the voice of the customer; and develop the ability to use this information in formulating and evaluating marketing strategies. Prerequisite: MBA535. (G)(2) Spring

MBA584, New Product Development: This course focuses on the challenges and decisions new-product managers face as they take ideas through the new-product development process. Organizations need to create, develop, and market new products and services continually to compete effectively in a rapidly changing environment. The course provides an overview of new-product development, with an emphasis on customer involvement and consideration throughout the process. It also provides detailed insights on such topics as new-product strategy, idea generation, idea selection and evaluation, concept development and testing, product development and testing, and market testing. Prerequisites: MBA535 and MBA442. (G)(3) Spring

MBA587, Marketing Research: A course designed to acquaint the student with basic marketing research methodology skills. Among content issues addressed in this class are: exploratory, descriptive, and experimental research designs; primary and secondary data (including scanner data) collection sources and methods; hypothesis formulation and testing (qualitative and quantitative analysis methods); and survey design. Ethical matters and international issues are incorporated across most content areas. Course content includes both parametric and non-parametric statistical procedures. In addition, the course places heavy emphasis on how marketing managers can effectively interact with researchers, and how marketing managers can use research results as part of the decision-making process to establish sustainable, competitive advantage. Prerequisite: MBA535. (G)(3) Fall

MBA594, Special Topics: Seminar in selected topics. Course content will vary from semester to semester. Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas. (G)(2) Occasionally

MBA595, Special Topics: Seminar in selected topics. Course content will vary from semester to semester. Prerequisites: MBA degree-seeking status and demonstrated proficiency in all competency areas. (G)(3) Occasionally

Master of Professional Accounting

The Lacy School of Business offers the Master of Professional Accounting (MPAcc) program for those students choosing to pursue a career in public or corporate accounting. It is primarily designed for students who already hold an undergraduate degree in accounting. Non-accounting majors are eligible to apply only if they have completed all of the prerequisite courses. The MPAcc degree, when combined with an undergraduate business degree, will enable students to meet the CPA certification requirement of 150 hours of post-secondary education mandated by most states.

Requirements for Graduation

The program requires 30 graduate credit hours, divided into three categories: core (17 credit hours), concentration (nine credit hours) and electives (four credit hours). Students must complete at least one of the designated global concentration or elective courses. Students are required to achieve a 3.0 GPA to graduate from the program.

MPAcc Student Learning Outcomes

The faculty of the LSB has identified the following learning outcomes for students completing its MPAcc curriculum. They address what students should know, be able to do, and value:

- Demonstrate general knowledge of advanced financial accounting, managerial accounting, auditing, law, tax, and other accounting-related business concepts
- Demonstrate specialized knowledge of various accounting concepts, including international or multi-state financial accounting or tax concepts
- Demonstrate broad-based professional business and decision-making skills, such as critical thinking, problem solving, and oral and written communication
• Display teamwork and leadership skills
• Apply appropriate ethical standards in professional decision-making

Curriculum

The MPAcc curriculum comprises three components:

- Core (17 credit hours): provides the necessary foundation in financial accounting and reporting, managerial applications, auditing, and taxation
- Concentration (9 credit hours): allows students to develop fluency and expertise in financial reporting or taxation
- Elective (4 credit hours): gives students an opportunity to explore areas beyond their concentration, such as law, nonprofit and government, or international accounting

MPAcc Courses

MPA501, Independent Graduate Study in Accounting: An individual research project under supervision of a faculty member. Designed to allow graduate students to pursue in-depth studies of areas or issues related to accounting. Must have approval of the graduate program director and sponsoring faculty member prior to enrollment. Course is 1–3 credits by agreement with sponsoring faculty member. Prerequisites: MPAcc degree-seeking status and permission of the graduate program director. (G)(3) Occasionally

MPA502, Independent Graduate Study in Accounting: An individual research project under supervision of a faculty member. Designed to allow graduate students to pursue in-depth studies of areas or issues related to accounting. Must have approval of the graduate program director and sponsoring faculty member prior to enrollment. Course is 1–3 credits by agreement with sponsoring faculty member. Prerequisites: MPAcc degree-seeking status and permission of the graduate program director. (G)(2) Occasionally

MPA503, Independent Graduate Study in Accounting: An individual research project under supervision of a faculty member. Designed to allow graduate students to pursue in-depth studies of areas or issues related to accounting. Must have approval of the graduate program director and sponsoring faculty member prior to enrollment. Course is 1–3 credits by agreement with sponsoring faculty member. Prerequisites: MPAcc degree-seeking status and permission of the graduate program director. (G)(3) Occasionally

MPA508, Leadership: This course explores the history, art, science, and practice of leadership in organizational settings. Such issues as leadership history, change, visioning, followership, small-team leadership, and the role of middle management will be covered. Emphasis will be placed upon merging theory and practice, and personal leadership skill development. The application portions of this course will focus on situations and scenarios common to new accounting professionals. Prerequisites: MPAcc degree-seeking status or permission of the graduate program director. (G)(3) Occasionally

MPA511, Accounting for Business Combinations and International Operations: This course introduces students to financial reporting issues faced by publicly held corporations. Course topics include financial statement translation and remeasurement, consolidations, segment reporting, the content of the management discussion and analysis, and financial statement notes. Students will be expected to apply the requirements of U.S. and international generally accepted accounting principles and the U.S. Securities and Exchange Commission rules and regulations. Prerequisites: AC302 and AC303 or equivalent, and senior status. (G)(3) Fall

MPA512, Accounting for Government, Not-for-Profit, and Other Entities: This course introduces students to four different accounting environments: governmental, not-for-profit, partnerships, and new basis. Students will apply governmental accounting standards, as promulgated by the Governmental Accounting Standards Board, and financial accounting standards, written by the Financial Accounting Standards Board, to not-for-profit and troubled for-profit situations. Accounting for partnerships and other non-corporate structures is also included in the course. Prerequisite: MPAcc degree-seeking status. (G)(3) Fall

MPA513, Applied Financial Accounting: The focus is on students learning to apply professional financial accounting standards, at an in-depth level, to complicated financial transactions. Their understanding of financial accounting measurement and reporting issues will be enhanced by the application of GAAP to a variety of problems. Prerequisites: AC302 and senior status, or equivalents. (G)(3) Spring

MPA515, Taxes and Business Strategy: This course uses an economics-based approach to consider how tax and non-tax factors affect business decisions. The framework developed is highly integrative: investment strategies and financing policies within firms are linked through taxes. The second part applies the framework to specific decision settings such as compensation planning, choice of organizational form, capital structure, tax shelters, mergers and acquisitions, and multi-jurisdictional tax planning. Critical thinking and written/oral communications skills are enhanced through class discussions as well as case analysis and presentation. Understanding of advanced tax topics is evaluated using in-class examinations. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(3) Fall

MPA527, Advanced Managerial Accounting: This course uses a case-based approach to examine the use of managerial accounting information in various business decisions. A wide range of managerial accounting topics, including costing systems, budgeting issues, cost behavior, and performance evaluation methods, are covered. The course structure develops critical-thinking, business writing, and oral communication skills through class discussions, written reports, and presentations. In-class examinations may be used to measure understanding of managerial accounting topics. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(2) Fall

MPA573, Auditing and Forensic Accounting: This course will cover a variety of facets related to information technology (IT) auditing and forensic accounting, especially within fraud audits. The course will present tools, concepts, and techniques necessary to properly audit IT. It also covers forensic accounting processes and tools used in the detection and prevention of fraud against the company. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(3) Spring

MPA578, Advanced Auditing: A strategic analysis-based auditing course in which students learn to evaluate the client firm from its executive to its operation levels, and to use the evaluation results as the basis to assess risk and corporate performance. Prerequisite: Undergraduate degree in accounting or its equivalent. (G)(3) Fall
MPA579, Advanced Taxation: Taxation, sale, reorganization, and liquidation of regular corporations, subchapter S corporations, limited liability organizations, and partnerships. This course also integrates advanced tax research. Prerequisites: Undergraduate business degree or equivalent and undergraduate tax and audit coursework or equivalent. (G)(3) Occasionally

MPA581, International Corporation Governance & Financial Reporting: The course compares corporate governance structures in different countries and emphasizes how legal environments affect the enforcement of contracts and regulations. It highlights ownership structures and their implications for protecting minority shareholders. The course will relate the legal environments and ownership structures to reporting quality. Study abroad may be required. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(3) Spring

MPA583, International & Multi-state Taxation: This course provides an overview of international, state, and local tax laws related to individuals and corporations. The primary goals are to provide students with a basic understanding of the international taxation of individuals and domestic and foreign corporations, and the effects of state taxation on businesses. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(3) Occasionally

MPA585, Tax Research, Accounting Periods & Methods, Exempt Entities: This course provides students with a working knowledge of the successful tax practitioner's methodology applied to the solution of both routine and complex tax problems. Students will also gain familiarity with the reporting requirements for exempt entities. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(3) Occasionally

MPA587, Taxation of Corporations & Partnerships: This course expands on the general concepts of federal income taxation and covers tax rules related to C corporations and partnerships. Students will be able to identify and evaluate tax issues associated with business entity decisions. This class further develops critical thinking and oral/written communication skills through classroom discussions and written case assignments. Finally, this class allows students to gain familiarity in preparing corporate and partnership tax returns. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(3) Fall

MPA589, Advanced Law: This course includes the following topics needed by candidates taking the CPA examination: corporate and other organizational structures, debtor/creditor relationships, secured transactions, bankruptcy, securities laws, and negotiable instruments. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(2) Occasionally

MPA590, CPA Examination Review: This course prepares students for the financial accounting and reporting, regulation, auditing and attestation, and business environment sections of the Uniform Certified Public Accountants examination. The topics covered in this course include the topics listed in the content specification outline as published by the American Institute of Certified Public Accountants (AICPA). Prerequisites: MPA508, MPA511, MPA513, MPA515, MPA527, and MPA578, or permission of the graduate program director. (G)(2) Summer

MPA594, Special Topics: Seminar in selected topics. Course content will vary from semester to semester. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(2) Occasionally

MPA595, Special Topics: Seminar in selected topics. Course content will vary from semester to semester. Prerequisite: MPAcc degree-seeking status or permission of the graduate program director. (G)(3) Occasionally
College of Pharmacy and Health Sciences

Administration
Robert P. Soltis, PhD, Dean; Bernadette K. Brown, PharmD, Associate Dean; Julia M. Koehler, PharmD, Associate Dean for Clinical Education and External Affiliations; Jane M. Gervasio, PharmD, Department Chair of Pharmacy Practice; Todd Hrubey, PhD, Department Chair of Pharmaceutical Sciences; Jennifer A. Snyder, PhD, PA-C, Department Chair of PA Studies; Amy Sutton Peak, PharmD, Director of Undergraduate Health Sciences Programs; Jennifer S. Zorn, PA-C, Interim Assistant Dean for Student Affairs; Meghan M. Bodenberg, PharmD, Interim Assistant Dean for Clinical Education and External Affiliations

Professors
Bernadette K. Brown, PharmD; Pamela L. Crowell, PhD; Sudip K. Das, PhD; Alexandre M. Erkine, PhD; Jane M. Gervasio, PharmD; Julia M. Koehler, PharmD; Jennifer A. Snyder, PhD, PA-C; Robert P. Soltis, PhD; Michael A. Vance, PhD

Associate Professors
Jarrett R. Amsden, PharmD; Alex J. Ansara, PharmD; Meghan M. Bodenberg, PharmD; Tracy Costello, PharmD; Lauren Czosnowski, PharmD; Kendra M. Damer, PharmD; Nandita G. Das, PhD; Patricia S. Devine, PharmD; Stephanie L. Enz, PharmD; PhD; Hala M. Fadda, PhD; Dennis C. Gardner, PharmD; Samuel L. Gurevitz, PharmD; Todd Hrubey, PhD; Joseph K. Jordan, PharmD; Laurence A. Kennedy, PhD; Chad A. Knoderer, PharmD; Carrie M. Maaffe, PharmD; Angela V. Ockerman, PharmD; Amy Sutton Peak, PharmD; Brenda L. Quincy, PhD; Darin C. Ramsey, PharmD; David Reeves, PharmD; Carriann E. Richey-Smith, PharmD; Laura F. Ruekert, PharmD; Lindsay M. Saum, PharmD; Tracy L. Sprunger, PharmD; Kevin M. Tuohy, PharmD; Alison M. Walton, PharmD; Jessica E. Wilhoite, PharmD; Jennifer S. Zorn, MS, PA-C

Assistant Professors
Prachi Arora, PhD; Kimberly M. Beck, PhD; Kacey Carroll, PharmD; Mikaela Drako, PhD; Lori Fauquier, MS, PA-C; Elizabeth Gill, PharmD; Jennifer R. Guthrie, MS, PA-C; Weimin C. Hong, PhD; Carolyn M. Jacobs-Jung, PharmD; Kristin Janzen, PharmD; Chioniso P. Masamba, PhD; Jennifer A. McCann, PharmD; Annette T. McFarland, PharmD; Michele Moore, PhD; Michelle Newton, PharmD; Kristen R. Nichols, PharmD; Sheel M. Patel, PharmD; Jacob Peters, PharmD; Jason T. Range, JD, PhD; Chris T. Roman, MA, MS, PA-C; Elizabeth Schmidt, MS, PA-C; Matthew Stinson, MS, PA-C; Daniel P. Sturm, MS, PA-C; Jessica S. Tribolletti, PharmD; Kali Veness, MS, PA-C; Deborah S. Zeitlin, PharmD

Instructors
Mark Bochan, MD; Jason Cooper, PA-C; Kate Kaiser, PA-C; Larry Lynn, MD; Michael Pauszek, MD; James Pike, DO; Leila Reed, PA-C; Emily Skeeters, PA-C; Margaret S. Stratford, PharmD; Ashley Townsend de Lara, PharmD; Larry VanderMolen, PA-C; Lori Vasquez, PA-C; Kaylie Waltz, PA-C

Mission
The mission of the College of Pharmacy and Health Sciences (COPHS) is to provide effective educational experiences in the health sciences. By so doing, the College facilitates the development of lifelong learners with a liberal arts foundation who are able to serve society as dedicated, competent health professionals and community leaders.

Values
- **Professionally focused**—inspire with excellence in teaching and model lifelong learning. We have a passion for our life work and have dedicated our careers to training the next generation of health care providers and educators. We look for new ways to improve learning, and we adapt to the need for new knowledge, skills, and attitudes. We share our practical experiences with our students so that what they learn is directly connected to actual patient care or to our scholarship. We utilize real-life experiences wherever possible so that students develop an appreciation for the patient and societal variables that add complexity to the care of an individual or of a population. As faculty, we have developed a collaborative learning environment and are respectful and supportive of one another.
- **Student focused**—dedicated to our students. We are dedicated to our students and committed to their development, both inside and outside the classroom, with teaching, advising, project oversight, and experiential learning.
- **Patient focused**—dedicated to our patients and our professions. We are experienced health care practitioners and investigators who exude a high regard for patient care that is transmitted to our students. We teach others so our professions can excel and provide better patient care and research each day.

Goals
- **Education and Practice.** Advance the practice of our health care professions and emphasize the importance of an interdisciplinary approach by providing effective and innovative programs for undergraduate, graduate, and professional-level learners.
- **Research and Scholarly Activity.** Conduct focused research and scholarly activity that is consistent with our expertise and tied to student experiences.
- **Public Health, Service, and Leadership.** Foster leadership and service for students, faculty, and staff through public health-related community outreach, University and College service, and involvement in professional organizations.
- **Employer of Choice.** Create an employment environment that provides leadership, personal growth, and resources to be a desired place of employment for the ongoing vitality of our programs.
- **Collaboration.** Develop collaborations to increase the reach and effectiveness of our programs and public health initiatives.
**Conduct Code**

In addition to complying with the Rights and Responsibilities section of the Butler University Student (www.butler.edu/student-handbook), students enrolled in College of Pharmacy and Health Sciences programs will also be expected to comply with the Professional Conduct Code outlined in the COPHS Student Handbook, available at www.butler.edu/cophs/handbooks.

**Accreditation**

The College of Pharmacy and Health Sciences is a member of the American Association of Colleges of Pharmacy and the Physician Assistant Education Association. The pharmacy program is fully accredited by the Accreditation Council for Pharmacy Education through June 2020. The physician assistant program holds Accreditation-Continued status from the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA), granted when a currently accredited program is in compliance with ARC-PA Standards. For this program, the next validation review is expected to be in 2027.

**Degree Programs**

The College of Pharmacy and Health Sciences offers the doctor of pharmacy (PharmD) degree that provides eligibility for licensure as a pharmacist. The College also offers a doctor of pharmacy with pharmaceutical science or patient care research emphasis, a doctor of pharmacy with medical Spanish emphasis, a doctor of pharmacy/master of science in pharmaceutical sciences dual degree, a doctor of pharmacy/master of business administration dual-degree program that awards both the PharmD and MBA degrees upon simultaneous completion of the respective degree requirements, and a graduate program leading to a master of science in pharmaceutical sciences.

The College offers the master of physician assistant studies degree (MPAS) that provides eligibility for licensure as a physician assistant.

The College of Pharmacy and Health Sciences offers a bachelor of science in health sciences (BSHS). Two majors are offered within the BSHS program. The health science major is more clinically focused and can serve as preparation for graduate programs for a variety of health science careers. The health care and business major will be offered in collaboration with the Lacy School of Business.

For general information on applying and admission to any Butler graduate program or course, see the Admission Information and Requirements section of this document. College- and program-specific requirements are detailed below.

**Doctor of Pharmacy**

[www.butler.edu/cophs/pharmd-program](http://www.butler.edu/cophs/pharmd-program)

The Doctor of Pharmacy (PharmD) degree program prepares students to become pharmacy practitioners who possess the knowledge and skills required to function as authorities on the use of medicines, and who can apply pharmaceutical and biomedical science to the practical problems of drug therapy. Pharmacists are capable of contributing to the interdisciplinary delivery of primary health care and can function as drug therapy specialists. Students also are prepared for specialty professional studies and for graduate study in the pharmaceutical sciences.

**Admission**

- Applicants to the pre-professional or professional program who are non-native English speakers are required to submit the results of the Test of Spoken English (TSE-A) or Test of English as a Foreign Language (TOEFL).
- The doctor of pharmacy curriculum requires that students complete two pre-professional years and four professional years of study. Acceptance into the professional phase of the program allows students to begin the first professional year (P1) coursework. Students entering the fall semester of P1 must satisfactorily complete all math/science and other pre-professional coursework required as prerequisites for enrollment in P1 professional courses.
- Acceptance into the professional pharmacy program by either the automatic advancement option, the internal application option, or the PharmCAS application option is contingent upon enrollment capacity limitations of the program.
- The College of Pharmacy and Health Sciences reserves the option to modify its pharmacy program admission and advancement procedures at any time.

**Automatic Advancement for Pre-Pharmacy Students Entering as First-Year Students**

Students enrolling as first-year students at Butler University and declaring pre-pharmacy as their initial major are eligible to be automatically admitted to the P1 year of the pharmacy program upon completion of their third semester of Butler enrollment if they meet the following criteria:

- Cumulative grade point average (GPA) at Butler University of 3.0 or higher.
- GPA greater than 3.0 in nine selected, critical pre-pharmacy courses (BI105; CH105, CH106, CH331; MA106, FYS101, FYS102; PX100; PX326)
- No grade lower than C- in any of the pre-pharmacy courses noted above. A student may repeat a course to satisfy a subsequent course prerequisite. (Note: Withdrawals during the first student year will have no effect on the GPA calculation, but courses must be completed. A withdrawal during the fall semester, sophomore year from one of the nine classes used in the automatic advancement formula will result in loss of automatic advancement.)
- Successful completion of an in-person standardized interview, including evaluation of verbal communication and interpersonal skills, ethical and professional characteristics, intellectual curiosity, leadership and emotional maturity, respect and empathy for others, and creativity.
- Successful completion of a standardized writing prompt.

Eligibility for automatic advancement into the P1 year of the pharmacy program ceases after the student’s review for professional phase admission at the end of his or her third semester at Butler University.

A student seeking pharmacy program admission by the automatic advancement option may not count more than three courses transferred from another university or awarded through advanced placement (AP) or the International Baccalaureate (IB) program toward the calculation of his or her automatic advancement GPA.
A student failing to automatically advance to the professional pharmacy program will be considered for admission to the program on a competitive, space-available basis. Students who do not automatically advance will be placed into the regular advancement pool. This process considers the student's cumulative GPA for all coursework completed at all universities, completion of the standardized writing prompt, and an attribute assessment through an interview.

Transfer Students and Internal Applicants Not Classified as Pre-Pharmacy

Students who enter Butler University with 12 or more credit hours completed after high school graduation are classified as transfer students. Students entering Butler as transfer students and declaring pre-pharmacy as their intended major are not eligible for admission to the P1 year of the pharmacy program via the automatic advancement option. Pre-professional transfer students, as well as Butler University students not classified as pre-pharmacy upon entry into the University as first-year students (including changes of majors), may apply for admission into the P1 class on a competitive, space-available basis. Applications are available from the Student Affairs office (Pharmacy and Health Sciences Building, room 102). This process considers the student's cumulative GPA for all coursework completed at all universities, completion of a standardized writing prompt, and an attribute assessment through an interview.

Requirements

- Students are required to complete the program of study with a minimum of 210 credit hours.
- Successful completion of the professional curriculum requires that the student not exceed five hours of coursework with earned grades lower than C (2.0) in PX and RX courses numbered 300 or higher. Additionally, the student's professional GPA must be 2.0 or higher. The professional curriculum consists of those courses designated PX and RX. The proper sequence of courses must be maintained and the prerequisites for each course satisfied. The student is responsible for making certain that he or she has completed all required courses in the curriculum.
- All didactic coursework, all earned IPPE hours (Introductory Pharmacy Practice Experience), and University Core Curriculum requirements must be completed before beginning the advanced experiential rotations (APPE) in the P4 year of the curriculum.
- Only students admitted to and currently enrolled in the professional pharmacy program of the College of Pharmacy and Health Sciences may register for courses offered as part of the curriculum numbered with RX designators. Such students must maintain their eligibility to continue in the pharmacy program.

Student Learning Outcomes

Acquire knowledge and apply rational decision-making and problem-solving skills:

- Apply foundational pharmaceutical and health-related knowledge
- Ensure the safe and effective use of medications
- Provide and promote both patient-centered and population-based care and wellness

Function as an effective communicator and educator:

- Use appropriate interviewing and counseling skills
- Engage and collaborate with members of the interprofessional health care team and all applicable audiences
- Assist patients with navigating the health care system and advocate for their needs

Demonstrate the principles of practice:

- Use fundamental pharmacy practice skills
- Effectively manage medication use systems

Emulate the principles of professionalism

- Inculcate ethical, legal, and compassionate conduct and values
- Recognize diversity and demonstrate cultural awareness to diminish health disparities
- Practice independent learning and self-awareness
- Use leadership, innovation, and entrepreneurship skills to accomplish goals

Curriculum for First-Year Students Matriculating Beginning 2017

The College reserves the right to change the doctor of pharmacy curriculum at the discretion of the faculty.

In addition to the student learning outcomes for the pharmacy program, at the completion of the pharmacy program, the student will be able to:

- Conduct a thorough literature review and write a concise summary of the literature relevant to a research project using appropriate critical thinking and analysis skills
- Using one or two laboratory techniques, conduct laboratory experiments with sufficient proficiency so as to function with minimal supervision
- Generate, evaluate, and interpret experimental data using the principles of scientific research integrity
- Create and present an oral presentation summarizing the background, methods, results, and conclusions of the conducted research

** Prerequisite for research rotations: grade of C or better in research track basic science courses; all three research rotations are to be completed consecutively.

Total credit hours required for graduation: 212

Doctor of Pharmacy with Patient Care Research Emphasis

The elective patient care research track within the doctor of pharmacy curriculum will provide students an opportunity to participate in patient care-focused research. The track comprises 12 credit hours of patient care research, at least two credit hours of independent study, and two credit hours of patient-care research seminar topics. The research activity will be completed in a clinical practice setting and will be performed under the direct supervision of a COPHS faculty member.

Student Learning Outcomes

In addition to the student learning outcomes for the pharmacy program, at the completion of the patient care research track the student will be able to:

- Conduct a thorough literature review and write a concise summary of the literature relevant to a research project using appropriate critical thinking and analysis skills
• Generate, evaluate, analyze, and interpret patient-care data using the principles of scientific research integrity
• Prepare and submit an IRB application or complete an IRB continuing review for the research project
• Using knowledge gained through independent study and research seminar courses, conduct a patient-care research study with minimal supervision
• Create and present a written manuscript and oral presentation summarizing the background, methods, results, and conclusions of the conducted research

Total credit hours required for graduation: 210

**Doctor of Pharmacy with Medical Spanish Emphasis**

Pharmacy students may declare the medical Spanish track upon successful completion of RX617, Advanced Medical Spanish. Students must formally register for the track by adding it as a minor using the Butler University Major/Program Change Form. Successful completion of the medical Spanish track requires a minimum of 12 credit hours of medical Spanish coursework having the RX course designator. The 12 credit hours must include an APPE rotation with a Spanish-language focus. RX617, Advanced Medical Spanish, or permission of the instructor, is a prerequisite for the APPE rotation.
Student Learning Outcomes

In addition to the student learning outcomes for the pharmacy program, at the completion of the medical Spanish track the student will be able to:

- Effectively communicate with Spanish-speaking patients to elicit an accurate medical history, including relevant drug information
- Effectively communicate in Spanish (both verbal and written) to provide requisite drug information to Spanish-speaking patients
- Effectively incorporate his/her understanding of Hispanic/Latino cultural influences into patient care activities, including therapeutic recommendations and patient counseling activities with Hispanic/Latino patients

Curriculum

The following courses may be used to satisfy completion of the medical Spanish track:

- RX481, Introduction to Medical Spanish (3 credit hours)
- RX482, Advanced Medical Spanish (3 credit hours)
- RX483, Medical Spanish Service Learning (3 credit hours)
- RX484, Spanish Immersion (3 credit hours)
- RX692, Indigent Care (with Spanish emphasis) rotation (4 credit hours)

Doctor of Pharmacy/Master of Business Administration

www.butler.edu/cophs/dual-degrees

In collaboration with the Lacy School of Business, the College of Pharmacy and Health Sciences offers the PharmD/MBA dual degree upon simultaneous completion of the respective degree requirements. See website for detailed information.

Doctor of Pharmacy/Master of Science in Pharmaceutical Sciences

www.butler.edu/cophs/dual-degrees

One of the factors that limit many doctor of pharmacy (PharmD) students from pursuing advanced degrees is the time commitment of eight or nine years required to complete the PharmD degree, plus an advanced pharmaceutical sciences degree. The objective of this program is to provide students with a time- and financially-efficient way to meet their professional goals. The curriculum for the PharmD/MS dual degree integrates the existing curricula of the PharmD and the MS in pharmaceutical sciences.

While the PharmD degree allows students to work in many facets of the practice of pharmacy, a PharmD/MS dual degree allows PharmD students to pursue additional training in the area of pharmaceutical sciences research. Having a PharmD/MS dual degree aids in the recruitment and retention of outstanding pharmacy students with a strong interest in research, and makes graduates more competitive for positions in the pharmaceutical industry or for academic positions.

Years 1–3 as above

Summer Research Following P1 Year

Students will engage in summer research and receive independent study credits (five credits). The intention is to have students get started on their respective projects. The summer research experience will last the entire summer.

Total credit hours required for graduation: 232

### Pharmacy Licensure and Experience Requirements

To become a licensed pharmacist in Indiana, a person must obtain a passing grade on the North American Pharmacy Licensure Examination (NAPLEX) or, with Pharmacy Board approval, reciprocate an existing license that was obtained through examination in another state. To qualify for the NAPLEX examination, a person must be a graduate of an ACPE-accredited pharmacy program, be at least 18 years of age, and be of good moral character. Persons convicted of a felony may not be eligible for licensure in Indiana. In order to participate in the experiential portion of the curriculum, students are required to submit the results of a background check for felony and/or misdemeanor convictions conducted by an independent agency. Students may be restricted from participating at certain experiential sites as a result of this information.

### Master of Science in Pharmaceutical Sciences

[www.butler.edu/cophs/ms-pharmaceutical-sciences](http://www.butler.edu/cophs/ms-pharmaceutical-sciences)

The College of Pharmacy and Health Sciences offers the master of science in pharmaceutical sciences degree in five areas of emphasis: pharmaceutics, pharmacology, medicinal chemistry, pharmacy administration, and clinical sciences. The mission of the program is to educate students for pursuing research careers in the pharmaceutical/biomedical industry or in academia, and/or in obtaining advanced degrees.

### Admission

Applicants are required to possess a basic degree in chemical, biological, or pharmaceutical sciences, or other appropriate degrees. Following admission, any applicant identified to be deficient by the Research and Graduate Review Committee with a bachelor’s-level background in chemical or biological sciences will be required to take courses in the respective areas in addition to the MS in pharmaceutical sciences requirements.

### Requirements

- Bachelor’s degree in appropriate discipline with a minimum 3.0 GPA or equivalent (official transcript required)
- Aptitude tests (official scores must be received from Educational Testing Services)
- Test of English as a Foreign Language (TOEFL) (not required of anyone with a U.S. bachelor’s degree). A TOEFL score of 213 (computer-based test), or 79 (internet-based test) meets Butler University’s English language proficiency requirements. Butler’s TOEFL school code is 1073.
- Graduate Record Examination (GRE) score. The minimum GRE cut-off score for admission for each year will be determined by the Research and Graduate Review Committee
• Brief résumé
• Personal statement indicating a specific area of research interest and career goals
• Three letters of recommendation evaluating the applicant’s ability to complete the program successfully
• International students must meet the financial independence criteria established by the University

Each applicant is evaluated based on a comprehensive review of undergraduate transcripts, statement of purpose, letters of recommendation, previous research experience, and GRE score. International applicants will be interviewed over the telephone, and domestic candidates may be invited for a campus interview. Quality publications or other scholarly experience, although not required, serve to strengthen the application. For international students, admission is valid subject to obtaining appropriate visa credentials. Meeting minimum admission requirements does not ensure admission.

The admission process follows two steps: preliminary inquiry and formal application with required nonrefundable fees. The response to the preliminary inquiry will be issued by either the Butler University Office of Admission or the Department of Pharmaceutical Sciences; however, the formal application can only be made to the Office of Admission. After initial screening, the Office of Admission will forward the eligible applications to the Department of Pharmaceutical Sciences for the decision. The director of the COPHS graduate program, in discussion with the interested research faculty, will send the recommendations to the Office of Admission.

Student Status

Full-time: A full-time student must take a minimum of nine and a maximum of 12 credits of graduate-eligible courses per semester. If a graduate student is registered only for research and thesis courses (RX701–RX706) that apply toward the completion of the research projects, the student is considered to be enrolled full-time, although the number of credits enrolled may be below the normal full-time course load. A Reduced Course Load authorization form must be submitted by F-1 graduate students under any circumstance when such students are taking fewer than nine credits. A maximum of four years is allowed to complete all the degree requirements.

Part-time: Working professionals may pursue the MS in pharmaceutical sciences on a part-time basis. The conditions are:

• Applicants must comply with all admission requirements.
• Professionals admitted into the program must take a minimum of three credits per semester and complete all degree requirements within a maximum of seven years, with the didactic coursework being completed within five years of entry into the program.
• Research toward the MS thesis must be independent of research projects ongoing at the student’s place of employment and must be publishable under an affiliation with Butler University.
• Research must be conducted during the course of the program.
• Part-time students will not be eligible for any financial assistance from Butler University.
• The research advisor must be a full-time COPHS faculty member.

Financial Assistance

The College of Pharmacy and Health Sciences does not normally provide scholarships or tuition waivers for MS students. Depending on the availability of external funding, a limited number of partial-tuition stipends in the form of graduate assistantships will be provided to qualified, full-time graduate students conducting research in COPHS laboratories. Graduate assistants will be required to work up to 20 hours per week on campus on projects assigned by the director of the graduate program, subject to valid immigration status. A full-time student must maintain a minimum cumulative GPA of 3.0 and show satisfactory progress in his or her research project to qualify for financial assistance. Tuition stipends will be competitively awarded every year, with previously awarded students given preference. Graduate assistantships will be limited to a two-year period for each recipient. Each student is required to pay regular tuition or discounted tuition and maintain approved health insurance during the course of study. There is no assurance of financial assistance for any admitted applicant.

The freedom to leave the program, for any reason and at any time, will be available to all students; however, untimely withdrawal from the program causes financial penalty to the University community. Therefore, to protect the University’s investment, it is the policy that any student accepting the tuition stipend as a graduate assistant is expected to complete the MS program. Any such student leaving the program prior to completion and without compelling reasons will be required to pay back the full amount of the stipend that has been awarded by the University, with the only exception being compelling medical reasons.

Curriculum

The master’s program is an intensive curriculum of didactic courses and thesis research. Successful completion of the MS in pharmaceutical sciences degree will require at least 30 semester credit hours with not fewer than six hours of research credit. The findings of the research must be compiled into a thesis and defended with an oral presentation and an oral examination by the thesis committee. Coursework is as follows:

**Required Core Courses for Emphasis Areas of Pharmaceutics, Pharmacology, and Medicinal Chemistry (total 12 credits)**

- RX780, Current Topics in Pharm Science*..........................1
- RX781, Introduction to Pharm Research ..........................2
- RX782, Biopharmaceutical Analysis ...............................2
- RX790, Pharmaceutical Sciences thesis defense ..........0

* Each student will be enrolled in one credit hour of Current Topics in Pharmaceutical Sciences or Seminar in Pharmaceutical Sciences per semester, for a minimum of four total credits in the program. Each student is required to present at least two seminars as part of his or her master’s program, one of which may be the thesis defense. Students must enroll in RX781 during the semester in which their seminar presentation will take place, and RX780 during the remaining semesters. Regardless of the course in which the student is enrolled, all graduate students are required to attend all graduate seminars presented in COPHS.
Elective Courses (minimum six credits)

RX630, Advanced Toxicology ........................................... 3
RX729, Cancer Pharmacology ........................................... 3
RX787, Industrial Pharm: Pref/Prod Dev .................................. 3
RX786, Advanced Drug Delivery ......................................... 3
RX788, Molecular Biology/Pharmacology ............................... 3

Additional elective courses will be included as per the recommendation of the Research and Graduate Review Committee.

Deficiencies in curricular background may be addressed by requiring appropriate undergraduate courses as determined by the thesis committee and/or director of the graduate program. Additional coursework and/or research credits to fulfill the requirements of the MS degree will be determined by the thesis committee.

Academic Progress

The Research and Graduate Review Committee will evaluate the academic progress of MS students. Master’s students must maintain a minimum cumulative GPA of 3.0 for satisfactory continuation of study. Students with a cumulative GPA below 3.0 will be placed on probation. Any appeal for non-research course grade disputes and/or disciplinary action should be submitted to the Research and Graduate Review Committee. A decision can be appealed to the COPHS Academic and Professional Affairs Committee. A decision of the thesis committee on the thesis and the thesis defense will be considered final.

A grade of incomplete will be assigned for Research and Thesis (RX701–RX706) at the end of the respective semester until the thesis defense is complete, as it is difficult to justify the research outcomes based on the student’s performance for a particular semester.

Research Proposal

A research proposal summarizing the goals, objectives, and timeline of the research project must be submitted within one year of admission. The proposal must be approved by the thesis committee and the director of the graduate program.

Classified or Proprietary Study

Each MS student is required to submit a thesis and present an open seminar on his or her research findings. In addition, the student is required to disseminate the research findings at national meetings and submit manuscript(s) for publication. Therefore, in order to protect the student’s interest, it is not advisable to involve him or her in any classified or proprietary research.

MS Thesis

Each student is required to submit a thesis prepared on the research findings. The thesis should be compiled following the format provided.

Publication

The research project should aim at publication of the findings in peer-reviewed research journals and submission of the work as preliminary data for extramural funding by the research advisor.

Thesis Defense

The student will present an open seminar and appear for an oral examination by the thesis committee. The committee will recommend the graduation of the student to the faculty and to the dean of COPHS subject to satisfactory completion of the didactic courses and other requirements. A student failing in the open seminar or the oral examination may appear for a second opportunity to complete the specific part of the thesis defense.

Student Ownership of Intellectual Property

For students who help create a copyrightable work or patentable invention with one or more University employees (faculty and/or staff), the following guidelines from the University’s Intellectual Property Manual may help determine when the University has certain rights in a work or invention the student has been involved in producing while at Butler. If the work or invention was created or conceived with the “substantial use” of University resources, then the work or invention may be subject to University ownership and control, with the student and/or faculty member having certain rights as described in the University Intellectual Property Policy.

For example, rights in a patentable invention arising from a student’s participation in a faculty research project that makes “substantial use” of University resources will be owned by the University, with any income from the patents being shared between the University, faculty, and student as set forth in the University Intellectual Property Policy. The policy thereby establishes the means and incentive for commercialization of the invention. The rights vest with the University. However, the ownership of copyrightable works that are not produced at the direction of the University, even those created with “substantial use” of University resources, will generally continue to be owned by the creators of the work with some rights being reserved for the University.

While the above is a general overview with some examples, do not hesitate to ask a faculty member for guidance, or refer to the Butler University Intellectual Property Manual, at www.butler.edu/hirs, for specific guidelines. Additionally, the Butler Institute for Research and Scholarship is a valuable resource to help with questions related to these matters, and can help ensure that any intellectual property is properly protected and given the best opportunity to be commercialized.
Master of Physician Assistant Studies

www.butler.edu/physician-assistant

The College of Pharmacy and Health Sciences offers a master of physician assistant studies (MPAS) degree for those completing the requirements of the physician assistant (PA) program. Physician assistants are well-recognized and highly sought-after members of the health care team. Working within a health care team, PAs provide diagnostic and therapeutic patient care in virtually all specialties and settings. They take patient histories, perform physical examinations, order laboratory and diagnostic studies, develop patient treatment plans, participate in surgery, and provide patient education. In all 50 states, PAs have the authority to write prescriptions.

PAs practice in all specialty fields; 24 percent of all PAs provide primary care services, especially in family and general internal medicine. A significant majority of PAs will work in specialty care. Their job descriptions are as diverse as physicians, and also may include nonclinical roles such as medical education, health administration, and research. While these positions do not necessarily involve patient care, they depend on a strong clinical knowledge base.

The MPAS curriculum is 24 consecutive months designed to provide an understanding of the knowledge, skills, and attitudes used as a physician assistant. The first 12 months of the MPAS program are devoted to didactic studies in the basic medical, clinical, and behavioral sciences, and the remaining 12 months are largely focused on the clinical experiences in primary care, medical, and surgical specialties.

The didactic curriculum is integrated to introduce the student to medical sciences as they relate to specific organ systems and clinical problems. Learning strategies include the traditional lecture format and basic science laboratory, hybrid, small-group tutorials, and patient case discussions. Regular patient contact is an important part of the first-year curriculum. Students begin to see patients during the first semester of their didactic year. Standardized patient evaluations, through simulation and actors, are also a part of the didactic curriculum. As part of the clinical curriculum, students participate in rotations and didactic coursework. Students are required to take core rotations in emergency medicine, family medicine, general surgery, internal medicine, mental health, pediatrics, and women’s health. Students also choose an elective rotation. In the clinical year, students also participate in Core Topics, Issues of Professional Practice, and the Summative Practicum.

Programmatic Goals

- Select highly qualified applicants through the admission process who will successfully complete our physician assistant program
- Provide a quality educational experience that provides students with the knowledge, skills, and attitudes for entry-level practice as physician assistants
- Provide an educational experience that prepares our graduates to provide primary care in a wide variety of clinical settings
- Help our students develop a sensitivity that will allow them to effectively work with patients who are different than themselves
- Maintain our status as the longest accredited PA program in the state of Indiana
- Promote professionalism, service, and leadership of students and faculty

Eligibility and Admission

The pathways to gain entry to the PA program are the selective internal admission pathway (current Butler University students and/or alumni) and the standard admission pathway. (Accreditation Standards A3.15, A3.16)

Special Considerations

The following admission and enrollment practices are followed. (Accreditation Standard A3.15a)

- Butler University and its graduates are at an advantage in the admission process through the selective internal admission pathway. Up to 60 percent of each class (45 of 75 students) will be made up of students who have previously earned Butler degrees at the time they begin the PA Program.
- The Butler University PA program recognizes the special heritage to our profession provided by the United States Armed Services. One seat in the program will be “reserved” for either a veteran or an active military member (active duty, reserve, and National Guard). The military candidate must meet minimum academic evaluation criteria and complete the non-academic evaluation. Students should identify themselves as being interested in consideration for this seat at the time of Central Application Service for Physician Assistants submission. This is a competitive process.
- The Butler University PA program does not require health care experience for consideration of admission. However, it is recommended to help with the discrimination process. No credit will be awarded to students for work experience performed prior to the start of the PA program. (Accreditation Standard A3.15b)
- International students are important to the fabric of the Butler student community; however, no special consideration is granted for an international student. If a student is looking to study in the United States under an F-1 or J-1 visa, we hope they will consider Butler University. International students must have a TOEFL score and evaluation of any international transcripts. Please note that this takes additional time. Deadlines will not be extended for these purposes. A TOEFL score of 550 (paper-based test) or 79 (internet-based test) meets Butler University’s English language proficiency requirements. Butler’s TOEFL school code is 1073. World Education Services (WES) or Educational Credential Evaluators (ECE) must evaluate all international transcripts. Please contact PAadmission@butler.edu for guidance and/or questions regarding TOEFL or credential and/or transcript evaluation.

Contact PAadmission@butler.edu for any additional questions. Variances may be approved at the discretion of the PA Program Admission Committee.

Selective Internal Admission Pathway

The selective internal admission pathway is designed for Butler University alumni and current students of any major who would like to pursue a master of physician assistant studies degree. Application for this pathway will begin in April 2018 for matriculation into the program in May 2019. This is a competitive process, as the program generally targets up to 45 of 75 students to be admitted through this pathway. Admission to the Butler University PA program through the selective internal admission pathway requires application through the Central Application Service for Physician Assistants (CASPA) (https://caspa.liaison.com).
Application Requirements
To be eligible to apply, candidates must:

- Complete CASPA application and submit the application fee
- Submit transcripts from all colleges/universities (including Butler University) and other post-secondary institutions attended
- Have no more than three outstanding prerequisite courses remaining at the time of application
- Earn a bachelor degree from Butler University before the start of the MPAS program. College seniors are encouraged to apply, provided they will receive a baccalaureate degree prior to the May start date of the PA program.
- Earn a 3.4 or higher GPA at the time of application and matriculation into the program on all post-secondary course work, including all coursework completed at any regionally accredited institutions
- Earn no grade of C- or lower on first attempt of all courses. All attempts of repeated coursework will be included in the GPA calculation. If a C- or lower is earned in a repeated course, an applicant is no longer eligible for this application pathway. If a course is offered for a letter grade, it must be taken as such and a grade must be received. A grade of “pass” or “complete” is acceptable for non-prerequisite courses, if letter grades are not offered for the course.
- Not withdraw from a course
- Not audit a prerequisite course prior to taking the course for a grade
- Take and submit Graduate Record Exam (GRE) scores. General test scores must be submitted no later than August 1 (Butler University’s GRE code: 0477) the year prior to matriculation. No other test scores are accepted in lieu of the GRE. The scores must be sent directly from Educational Testing Services to CASPA.
- Submit three evaluations (letters of recommendation) to CASPA
- Remain free of conduct code violations (per COPHS and Butler University policies)

Students not eligible to apply via the selective internal admission pathway may apply to the program via the standard admission pathway.

Standard Admission Pathway
This is a competitive process, as the program generally targets 30 of 75 students to be admitted through this pathway. Admission to the Butler University PA program through the standard admission pathway requires application through the Central Application Service for Physician Assistants (CASPA) (https://caspa.liaisoncas.com).

Application Requirements
To be eligible to apply, candidates must:

- Complete CASPA application and submit application fee
- Submit transcripts from all colleges/universities (including Butler University) and other post-secondary institutions attended
- Have no more than three outstanding prerequisite courses remaining at the time of application
- Have a baccalaureate degree from a regionally accredited institution. College seniors are encouraged to apply, provided they will receive a baccalaureate degree prior to the May start date of the PA program.
- Earn a 3.4 or higher GPA at the time of application and matriculation into the program on all post-secondary course work, including all coursework completed at any regionally accredited institutions
- Earn no grade of C- or lower on prerequisite courses. All attempts of repeated coursework will be included in the GPA calculation.
- Take and submit Graduate Record Exam (GRE) scores. General test scores must be submitted no later than August 1 (Butler University’s GRE Code: 0477) the year prior to matriculation. No other test scores are accepted in lieu of the GRE. The scores must be sent directly from Educational Testing Services to CASPA.
- Submit three evaluations (letters of recommendation) to CASPA

Admission Process
Both the selective internal and standard admission pathways are divided into two parts: academic evaluation and non-academic evaluation. Note: The PA program has the right to change admission and interview processes as it deems appropriate.

Academic Evaluation
The academic evaluation is determined through a combination of collegiate grade point average (GPA) and the composite (quantitative and verbal) GRE score. These items are weighted and candidates are rank-ordered based on these markers. The top academic evaluation candidates with the best additive rankings will be considered for the non-academic evaluation. As there is often limited variance between scores and the number of non-academic evaluation participants is capped, those individuals with similar scores at the bottom of the list will be evaluated by the PA Admission Committee to select ultimate invitation based on leadership, service, and/or written communication skills. Rankings from the academic evaluation will be zeroed and candidates moving into the next phase will be considered equal at the start of the non-academic evaluation.

The minimum eligible overall GPA is 3.4. The GRE score must be provided to CASPA at the time of application. Candidates are welcome to take the GRE multiple times. If the GRE is taken on more than one occasion, the highest earned quantitative and verbal subscores will be used in the admission review process. A competitive average GPA and GRE for those students matriculating each year is dependent on the cohort. The five-year averages are: GPA—3.8, composite GRE—315, quantitative GRE—156, verbal GRE—156, written GRE—4.2. The following are the most recent averages by cohort:

<table>

Non-Academic Evaluation
College of Pharmacy and Health Sciences faculty, staff, alumni, active preceptors, and/or community based PAs evaluate candidates. Multiple interactions are used at the non-academic evaluation. Candidates will complete a series of stations that are generally task-oriented or interview-based. The stations are designed to demonstrate characteristics that are necessary to be successful within the program and/or characteristics that illustrate discernment sufficient for the PA profession. Candidates are ranked based on their cumulative scores from station evaluators.

Offers of Admission
Decision to admit students into the PA program will be made by the PA Program Admission Committee. (Accreditation Standard A2.05b) After the non-academic evaluation process, selected candidates will be extended a conditional offer of admission into the Butler University PA program, generally via email. The candidate will have one week from the date of conditional offer of admission to accept and submit a nonrefundable $1,000 deposit to secure a seat within the program. The candidate must meet all University and PA program prerequisites and requirements to enter into the program.

Application Timeline
The following timeline should provide guidance to those interested in applying to the PA program. The program has the right to change timelines as it deems appropriate. Please contact PAadmission@butler.edu for additional admission questions.

* The Butler University PA program encourages all applicants to complete the Transcript Entry portion of the CASPA application so as not to delay application completion processes.

Direct-Admit Pathway (Applications No Longer Accepted)
The direct-admit pathway will be upheld for students who entered Butler University as first-year students in 2014, 2015, and 2016. The pathway is not applicable to prospective students for fall 2017 and beyond.

The direct-admit pathway is designed for incoming University first-year students who wish to become a physician assistant. Students will complete a bachelor of science degree in health sciences (BSHS). Students selected in the direct-admit pathway who successfully complete all requirements will be offered advancement into the PA program. These students will not be required to submit the CASPA application or GRE scores, nor will they need to complete the standard admission process (academic evaluations or non-academic evaluations).

Application Requirements
Students within the direct-admit pathway are required to fulfill all criteria listed below to maintain eligibility for direct admission into the PA program. (Accreditation Standard A3.15a) A student who fails to meet any of the following requirements will lose direct-admit status, but will be able to apply to the PA program using either the selective internal (if applicable) or standard admission processes.

To be eligible to apply, candidates must:

- Maintain a cumulative GPA of 3.4 at Butler University by January 15 of year of matriculation and at the time of matriculation into the MPAS program.
- Earn no grade of C- or lower on first attempt of all courses. All attempts of repeated coursework will be included in the GPA calculation. If a C- or lower is earned in a repeated course, an applicant is no longer eligible for this application pathway. If a course is offered for a letter grade, it must be taken as such and a grade must be received. A grade of “pass” or “complete” is acceptable for non-prerequisite courses, if letter grades are not offered for the course.
- Not withdraw from a course.
- Not audit a prerequisite course prior to taking the course for a grade.
- Earn a bachelor of science degree in health sciences no later than the spring semester of the fifth academic year from matriculation into the BSHS program. Students will matriculate into the MPAS program in May at the beginning of the summer semester.
- Maintain full-time enrollment during fall and spring semesters.
- Remain free of conduct code violations (per COPHS and Butler University policies).
- Submit Intent to Enroll Confirmation Form and $1000 nonrefundable deposit by January 15 of the year of matriculation into the MPAS program.

Students accepted into the BSHS-PA direct-admit pathway are scheduled to matriculate into the master of physician assistant studies (MPAS) program in May after four complete years of undergraduate study. A specific position is held for each of these students. Failure to submit the Intent to Enroll Confirmation Form and $1000 deposit will be interpreted as withdrawal from the program.

Graduating with a BSHS Degree in Less than Four Years
If a student will receive the bachelor's degree in less than four years, he/she can request permission from the PA Program Admission Committee to enter the MPAS program early. This request must be submitted to PAadmission@butler.edu by November 1 of the fall semester a year and a half prior to the desired matriculation date. The PA Program Admission Committee will review submissions, including the requestor's academic standing, to determine if permission will be granted. This is a competitive process, as a limited number of positions may be available for this early admission. Students will be notified by January 15 of the year prior to the desired matriculation date if they have been granted permission to enter the MPAS program early.

Graduating with a BSHS Degree in More than Four Years
Students who need additional time to complete the undergraduate BSHS degree must notify the PA Program Admission Committee by November 1 of the fall term prior to their original matriculation date. A student must complete his/her degree by the end of the spring term of the fifth academic year and maintain full-
time enrollment. When notifying the admission committee, the student must also submit a detailed schedule of planned courses for review. This notification must be submitted to PAadmission@butler.edu.

**Withdrawing from the Direct-Admit Pathway**

Some students may discern a different career than that of a PA or choose to attend a different program. Students who wish to remove themselves from the PA direct-admit pathway are asked to notify the program as soon as this decision is made. Notification should be sent to PAadmission@butler.edu.

**Automatic Withdrawal from the Direct-Admit Pathway**

Candidates not meeting direct-admit pathway requirements will be automatically removed.

**Prerequisites**

Students must complete the following course prerequisites with no grade of C- or lower to be considered for admission to the PA program. (Accreditation Standards A9,13b, d) Earned Advanced Placement exam scores of 4 or 5 or International Baccalaureate exam scores of 5 to 7 may substitute for prerequisite courses. Appropriately earned AP or IB scores may replace no more than two prerequisite courses. Applicants should submit copies of exam scores with applications to PAadmission@butler.edu.

- **Chemistry**
  - Inorganic (general) with lab (2 courses)
  - Organic with lab (1 course)
  - Additional chemistry course at or above the 300 level (1 course)

- **Biology**
  - Any biology-related course at or above the 200 level (5 courses). Examples might include but are not limited to anatomy, physiology, kinesiology, genetics, microbiology, immunology, physics, bioengineering, biomedical science, exercise science, neuroscience, zoology, and nutrition.

- **Statistics/Biostatistics**
  - Any course (1 course)

- **Social Sciences**
  - Any combination of psychology or sociology courses (2 courses)

For information about prerequisite fulfillment, course equivalencies, and unofficial transcript reviews, send inquiries to PAadmission@butler.edu.

**Degree Requirements**

Students are required to complete 108 semester hours to be awarded the MPAS degree. The proper sequence of courses must be maintained.

The student is responsible for making certain that he or she has completed all required courses in the curriculum. The curriculum is offered in two sections (didactic and clinical) that are individually indissoluble and to be taken in an uninterrupted sequence over two years. Therefore, it is expected that students first matriculated into the MPAS didactic year will maintain simultaneous enrollment in all courses offered as a component of each year’s curriculum. Students may not progress to the course work in the next year of the program until they have successfully completed all courses within the current year. PA students must earn a grade of B- or better in all courses. PA students may be dismissed from the College following failure of any two MPAS-designated courses, in addition to not adhering to the policies listed in the COPHS or PA Student Handbook.

A PA student, after presenting a written request to the dean of the College (with a copy to the PA program director), may be granted an official leave of absence for personal, medical, or academic reasons for a period not to exceed one calendar year. If the leave of absence is approved, the dean provides written notification including applicable beginning and ending dates to the student, the University Registrar, and the director of the Office of Financial Aid. The student must notify the program director in writing of his or her wish to return to the program or to extend the personal leave at least 60 calendar days prior to the start of the next appropriate re-entry point. The student desiring an extension beyond one calendar year may be required to apply for readmission to the program. When a leave of absence is taken, the program director may require the student to repeat some or all of the courses completed prior to the leave of absence. In all leaves of absence, the student is required to complete the full curriculum to be eligible to earn the BS and/or MPAS degree.

Any student who is absent from clinical rotations for three months or more must perform and pass an observed history and physical examination (on a real or simulated patient) before being allowed to return to clinical rotations. The student will have two opportunities, evenly spaced over a two-month period of time, to pass this assessment. If unsuccessful, the student will be dismissed from the College.

For purposes of deferring repayment of student loans during a school-approved leave of absence, federal regulations limit the leave to six months. All questions regarding economic aid or student loans should be directed to the Office of Financial Aid.

**Curriculum**

The program reserves the right to change the curriculum at the discretion of the faculty. A student must successfully complete all courses in each didactic semester before being allowed to advance to the next semester. Only students admitted to and currently enrolled in the PA program of the College of Pharmacy and Health Sciences may register for courses offered as part of the curriculum numbered with MPAS designators. Such students also must maintain their eligibility to continue in the PA program.

**Didactic Coursework, First Year (new course sequence summer 2017)**

**Summer Semester**

- MPAS505, Human Anatomy and Physiology for PAs with lab... 8
- MPAS512, Interpretation of Imaging Studies for PAs ................. 2
- MPAS517, History and Physical Exam ................................ 2
Eligibility for Clinical Year

To qualify for clinical rotations, students must have successfully completed all didactic coursework, prerequisite coursework, and other requirements (e.g., physical examination, immunity status, BLS, ACLS) before beginning clinical rotations.

Clinical Year

The clinical phase of the program is largely composed of four- or eight-week core rotations. Core rotations include behavioral medicine, emergency medicine, family medicine, internal medicine, general surgery, and women’s health. Pediatrics, also a core rotation, is three weeks in length. At the conclusion of each core rotation, students will be required to take an examination. There is not an associated exam with the elective rotation. There is one four-week limited-elective rotation. All questions regarding rotations for PA students should be directed to the Office of Experiential Education.

Advising and Registration

Students must participate in early advising for clinical rotations. Further, students must be officially registered for all clinical rotations/experiences for the professional liability insurance policy carried by the University to cover students in the clinical portion of the curriculum. Students participating on rotations/experiences without registering will be referred to the Academic and Professional Affairs Committee for appropriate action (e.g., warning, probation, suspension, dismissal).

End-of-Rotation Examinations

The Butler University PA program faculty utilizes the Physician Assistant Education Association (PAEA) written End of Rotation (EOR) Examinations and endorses the objectives utilized to develop these exams as imperative to enter into practice as a physician assistant. Students will take an examination at the end of each supervised clinical practice experience.

In order to be permitted to sit for the required EOR exam, each student must:

- Successfully complete the required rotation as scheduled
- Complete patient encounter logs using E-Value by noon on the day preceding the EOR meeting
- Complete the E-Value student evaluation of the preceptor by noon on the day preceding the EOR
- Receive approval from the director of experiential education and/or program director

Failure to meet the above requirements may result in a report to the Academic and Professional Affairs Committee for appropriate action (e.g., warning, probation, suspension, dismissal).

Clinical Year Coursework

All rotations must be completed. Individual student rotation schedules will be determined by the director of experiential education and are subject to change at any time. Rotations are assigned within a designated radius of Butler University. Students are responsible for providing their own transportation to these sites. Topic lists are provided to direct student learning and should be used in combination with the objectives of the end-of-rotation examinations. Fifty-three credit hours over a variety of clinical rotation experiences are required in the final year of the program.

Total Program Curriculum: .............................. 103 credit hours

Licensure and Experience Requirements

Physician assistants who graduate from an accredited program must pass the Physician Assistant National Certifying Exam (PANCE), administered by the National Commission on Certification of Physician Assistants, and receive licensure from the state where they wish to practice.
Bachelor of Science in Health Sciences

Health Sciences Major

The undergraduate health sciences program (bachelor of science in health sciences, BSHS) blends basic sciences, health sciences, and health care-related courses to form an excellent foundation for students pursuing graduate programs in the health care field or non-licensed health-related careers in which an entry-level bachelor’s degree is appropriate.

Beginning in 2014, incoming first-year students who qualify for the master of physician assistant studies (MPAS) direct admission program are health science majors in their undergraduate phase and must fulfill the following criteria to be eligible for direct admission into the MPAS program (see the Direct Admit Pathway information in the Eligibility and Admission Requirements portion of the Master of Physician Assistant Studies section above).

Student Learning Outcomes

- Demonstrate ethical, professional, collaborative, and culturally sensitive behaviors within the health care setting
- Integrate knowledge and skills from natural, formal, and social sciences with health care fundamentals to solve complex problems and optimize health outcomes
- Locate, critically analyze, and apply data in a manner that supports evidence-based health care
- Communicate effectively with laypersons and health care professionals on a variety of health-related topics

Curricular Requirements

In addition to Butler’s Core Curriculum, health sciences majors earn more than 40 hours of science coursework, more than 30 hours of health care-related coursework, and at least 12 hours of elective health sciences coursework. A minimum of 120 credit hours is required for graduation. The following science courses are required, or may be used to meet science requirements: CH105/106 (or CH107), CH251/352, BI210, BI220, BI235, PX334, PX335, PH107, BI230, BI232, and RX316. Required health care courses include BSHS110, BSHS15, BSHS225, BSHS230, BSHS340, BSHS450, BSHS450, BSHS460, BSHS470, and RX67. A wide variety of courses may be used to fulfill elective course requirements. See www.butler.edu/cophs for the most detailed and up-to-date curricular information, including the extensive list of potential elective courses.

Health Care and Business Major

(First Class Beginning Fall 2016)

The new undergraduate health care and business program is a collaboration between the College of Pharmacy and Health Sciences and the Lacy School of Business. This program is designed for students who are pursuing a career in the business of health care, as opposed to the clinical provision of health care, for which a bachelor’s degree is the appropriate entry point into the workforce; or students who plan to pursue graduate programs related to health care and business.

Student Learning Outcomes

- Demonstrate ethical, professional, collaborative, and culturally sensitive behavior in business and health care settings
- Integrate natural and social sciences and health care fundamentals with business principles
- Locate, critically analyze, and apply data in a manner that supports evidence-based health care
- Communicate effectively with laypersons and health care professionals on health- and business-related topics

Curricular Requirements

In addition to Butler’s Core Curriculum, health care and business majors earn more than 45 credit hours of health care/health science courses, more than 30 credit hours of business courses, and at least 12 credit hours of elective coursework. A minimum of 120 credit hours is necessary for graduation. Required courses include BSHS110, BSHS215, BSHS225, BSHS230, BSHS232, BSHS340, BSHS450, BSHS460, CH105/106 (or CH107), BI115, BI225, PX226, PX227, MA125, MS100, AC209, AC2204, EC231, EC346, EL201, MS264, MS265, MS577, MK386, and MK386. A wide variety of courses may be used to fulfill elective course requirements. Qualified students may be eligible for accelerated graduate programs. See www.butler.edu/cophs for the most complete and up-to-date curricular information and graduate program partnerships.

Core Courses Offered by Pharmacy

SW261-RX, Health Disparities: This course will allow undergraduate students to examine current population-level health issues and the unequal distribution of health through an introduction to the broad and exciting field of public health and health equity. The course will explore the varying historical, environmental, social, cultural, and political determinants of the health of the people of the United States, emphasizing health of vulnerable populations. It will provide students with a unique opportunity to think critically about ways of identifying and addressing current health issues and the unequal distribution of health status throughout the population. In this interactive course, students are encouraged to explore public health issues in their area of study and examine solutions for the same. (U)(3) Occasionally

TI268, Self and Service: In this course, students will read texts that explore the self and the concept of service. Readings will examine the world of children and senior citizens. Sample authors include: Alexie, Updike, and Junot Diaz. Students will create oral and written histories of themselves and a person (child or senior) they serve. This 3 credit-hour course is designated service learning (at least 20 hours service required) with a child or senior. (U)(3) Fall

Pre-Professional Health Sciences Courses

PX100, Exploring Pharmacy: The purpose of the course is to get students involved early with the College and their major and to develop success skills that are applicable to all future learning experiences. Emphasis is placed on use of campus and library resources, developing communication skills, and
examining professionalism, roles, and career options for pharmacists and other health care providers. This course is required of all COPHS students without a previous degree. Open to pre-pharmacy students only. (U)(4) Fall

PX102, Exploring Pharmacy II: This spring-semester course is the second in a two-semester sequence for all Butler first-year students with a declared pre-pharmacy major. It will continue to establish the relationship between students and their academic advisor during this crucial time for student success and retention as they complete the transition from home and high school to university life. Students will continue to explore health care concepts such as the business and financial side to health care, prevention of medication errors, and promotion of health and wellness, while focusing on the role of the pharmacist related to those topics. Open only to first-year students with a declared major of pre-pharmacy. (U)(2) Spring

PX200, Introduction to Professional Practice: This course is designed to develop and enhance patient communication skills, professional attitudes, and independent learning. The course provides students with awareness of socioeconomic and cultural diversity and how it affects health outcomes. (U)(1) Fall & Spring

PX325, Ethical Issues in Health Care: This course will provide students with an awareness of current ethics issues in health care, and an appreciation of the gravity of these issues. The associated body of knowledge will be discussed, and students will formally devise their own ethical position. Prerequisites: Pre-pharmacy 2 (no first-year students), pharmacy majors, STS majors, ethics minors, or permission of the instructor. (U)(3) Fall & spring

PX326, Human Anatomy and Physiology 1: A two-semester lecture course without lab designed for pre-professional health students. This course begins with basic concepts and progresses through the organ systems, with emphasis placed on those aspects of human anatomy and physiology that are most important to an understanding of homeostasis, pathophysiology, and disease. Prerequisites: CH105 and BI105, or equivalents. (U)(4) Fall

PX327, Human Anatomy and Physiology 2: A two-semester lecture course without lab designed for pre-professional health students. This course begins with basic concepts and progresses through the organ systems, with emphasis placed on those aspects of human anatomy and physiology that are most important to an understanding of homeostasis, pathophysiology, and disease. Prerequisite: PX326. (U)(4) Spring

PX336, Anatomy and Physiology 1 Laboratory: An elective companion course to accompany PX326, Anatomy and Physiology 1. Prerequisite or corequisite: PX326 or permission of the instructor. (U)(1) Fall

PX337, Anatomy and Physiology 2 Laboratory: An elective companion course to accompany PX327, Anatomy and Physiology 2. Prerequisites: PX326 A&P I and PX336 A&P Lab; corequisite: PX327; or permission of the instructor. (U)(1) Spring

PX350, Tuscany Culture and Cuisine—the History and Culture of the Mediterranean Diet: This course will discuss the historical, cultural, and social influences that have fashioned the Tuscan cuisine (Mediterranean Diet). Students will experience first-hand the influences of the Italian culture, its food preparation, and geographical region, allowing them a better appreciation of the cuisine and why it is what it is today. (U)(3) Summer

**Bachelor of Science in Health Sciences Courses**

BSHS110, Introduction to Health Care: This introductory-level course will help prepare students for a career in health care. It will formally introduce critical-thinking and problem-solving methods necessary for future health care professionals, foster behaviors necessary for success, introduce the language of health care, discuss major forces in health care today, and explore a variety of health care professions. (U)(3) Fall & spring

BSHS206, Poverty and Modern Day Slavery: A Local and Global Crisis: This course will develop awareness and understanding of the modern-day slave trade. We will cover related factors such as poverty, education, health care, and economic opportunity. Students will partner with local organizations that are working in areas of poverty serving the poor and marginalized in our society. Prerequisite: Major in BSHS program or permission of the instructor. (U)(2) Fall

BSHS210, Topics in Health and Wellness: This course will provide an in-depth exploration of key health-related topics of particular importance to college-age individuals. Topics covered in this class include nutrition, exercise, alcohol, infectious diseases, drug use/misuse, over-the-counter medications and supplements, personal safety, and chronic disease prevention. This class is designed for first-year and sophomore students. (U)(3) Fall

BSHS215, Medical Terminology: A one-semester hybrid online/classroom course designed for any student interested in learning the language of medical sciences. It is designed specifically for pre-professional health students to improve medical vocabulary, assist in future advanced science courses, and help prepare for professional school admission tests. (U)(2) Fall, spring, & summer

BSHS225, Interprofessional Health Education: This course emphasizes the roles and responsibilities of other health professionals and will prepare health professional students to provide care in a collaborative team. (U)(2) Spring

BSHS230, Health Care Administration, Health Care Systems, and Public Policy for Pre-Professional Students: Health care reform is centered on improving quality and access of health care while managing costs. Future health care practitioners must consider these three factors when making health care decisions and providing care. This course is intended to help the student understand the health care environment and to provide an overview of how health care administration decisions are made, with a focus on policy development. (U)(2) Fall

BSHS232, Health Care Systems and Policy 2: Health care reform is centered on improving quality and access of health care while managing costs. Students interested in combining health care and business need to have advanced awareness of health care systems and policy development. This course is intended to help these students build on the knowledge obtained in the Health Care System and Policy 1 course. Students will apply skills in policy-making to specific topics. Prerequisite: BSHS230. (U)(2) Spring

BSHS280, Emergency Medical Technician—Basic Program: The EMT training program is designed to provide the student with the skills and knowledge to assess and manage patients who are acutely ill or seriously injured. The student will spend approximately 10–15 hours per week of self-directed time studying online material and completing assignments. In addition, the class meets once per week to practice hands-on skills, ask questions, and interact with an instructor. Clinical requirements consist of 12 hours on an ambulance and 8 hours in the emergency department. Among the requirements, students must: be 18 years of age prior to attaining certification as an EMT by the State of Indiana; have a high school diploma or GED equivalent by the end of the program; have successfully completed an American Heart Association Healthcare Provider CPR class (or American Red Cross equivalent)
prior to the beginning of the program; not have been convicted of any felony crimes; read, write, and speak the English language fluently; obtain the proper immunizations prior to doing clinical time; and be capable of performing all physical skills in the course. (U)(6) Summer

BSHS401, Health Care and Business/Health Sciences Internship: This course gives students academic credit for successfully completing qualifying internships in the community and additional related course activities. Not all internships qualify for course credit. Enrollment is by permission only. Prerequisites: Good academic standing, and qualifications as determined by the internship site. Additionally, HIPAA education and documentation of all vaccinations is required for certain internships, depending on location. Students are also highly encouraged to complete LC301, Career Planning Strategies prior to applying for internships. (U)(1–6) Fall, spring, & summer

BSHS440, Introduction to Health Care Communication: This course explores concepts, theories, and communication skills specific to the health care setting. Interpersonal group, and mass communication is discussed, with primary emphasis on interpersonal communication. Topics include cultural competence, health literacy, HIPAA and regulations affecting health communication, communications among health professionals and between health professionals and laypersons, communicating difficult information, and communicating with difficult individuals. This course is appropriate for students desiring clinical and nonclinical careers in the health care field and will satisfy the Speaking across the Curriculum core requirement. Prerequisites: BSHS110, BSHS245, junior standing or above, and enrollment in the health sciences/health care and business program, or permission of the instructor. (U)(3) Spring

BSHS460, Health Care Ethics: Students in this writing-intensive course will use a formalized process to examine a wide variety of ethical dilemmas encountered in health and medicine. Topics may include addiction management, allocation of limited health care resources, confidentially, conflicts of interests, disparities in care, duty to report, end-of-life issues, informed consent/refusal, patient autonomy, pay-for-performance measures, medial tourism, quality-of-life issues, and more. Prerequisites: BSHS110 and junior standing or above, or permission of the instructor. (U)(3) Fall

BSHS475, BU Well: Editorial Journal Review 1: BU Well is the developing and publishing of an open-access, multimedia, health-care journal. Every year, one volume is published related to health, wellness, and life sciences. BU Well is student-driven and is designed to give students the opportunity to edit/create/publish articles and other multimedia including videos and infographics. Opportunities to serve in a leadership role are available as well. Although a 2 year commitment is highly encouraged, participation in BU Well for 1 year may be considered. Open to all Butler students, second year standing or above. (U)(3) Fall

BSHS476, BU Well: Editorial Journal Review 2: BU Well is the developing and publishing of an open-access, multimedia, health-care journal. Every year, one volume is published related to health, wellness, and life sciences. BU Well is student-driven and is designed to give students the opportunity to edit/create/publish articles and other multimedia including videos and infographics. Opportunities to serve in a leadership role are available as well. Although a 2 year commitment is highly encouraged, participation in BU Well for 1 year may be considered. Open to all Butler students, second year standing or above. (U)(3) Spring

BSHS477, BU Well: Editorial Journal Review 3: BU Well is the developing and publishing of an open-access, multimedia, health-care journal. Every year, one volume is published related to health, wellness, and life sciences. BU Well is student-driven and is designed to give students the opportunity to edit/create/publish articles and other multimedia including videos and infographics. Opportunities to serve in a leadership role are available as well. Although a 2 year commitment is highly encouraged, participation in BU Well for 1 year may be considered. Open to all Butler students, second year standing or above. (U)(3) Fall

BSHS478, BU Well: Editorial Journal Review 4: BU Well is the developing and publishing of an open-access, multimedia, health-care journal. Every year, one volume is published related to health, wellness, and life sciences. BU Well is student-driven and is designed to give students the opportunity to edit/create/publish articles and other multimedia including videos and infographics. Opportunities to serve in a leadership role are available as well. Although a 2 year commitment is highly encouraged, participation in BU Well for 1 year may be considered. Open to all Butler students, second year standing or above. (U)(3) Spring

BSHS490, Health Care Biostatistics: This course is designed to prepare the health science student to apply the concepts of research design and statistical analysis within the health care environment. Research skills developed in this course will emphasize a systematic and scientific approach to problem solving. The class will provide an overview of problem formulation, hypothesis generation, study design, measurement, data collection, and analysis. Additionally, there will be a focus on statistical concepts: descriptive analysis, univariate analysis, bivariate and multivariate analysis. This course is purposefully designed to be an appropriate course for undergraduate students pursuing either clinical or nonclinical careers in health care. Prerequisite: Junior standing or above, or permission of the instructor. (U)(3) Fall

BSHS495, Evidence-Based Health Care: This course will provide students with fundamental skills related to the appropriate identification, retrieval, evaluation, and application of medical literature and promote the practice of evidence-based health care. Prerequisites: BSHS110, BSHS450, and junior standing. (U)(3) Spring

BSHS470, Introduction to Pharmacology: The goal of pharmacology is to understand the principles of drug absorption, distribution, metabolism, excretion, and the mechanisms of drugs to enable the rational use of effective agents in the diagnosis and treatment of disease. Major emphasis is placed on mechanism of action, indications, adverse effects, and drug interactions. Prerequisites: Junior standing and at least one semester of human anatomy and physiology (PX326 or BI257). (U)(4) Spring

BSHS480, Integrative/Holistic Medicine: Introduction and exposure to holistic therapies used as medical treatments. The course will focus on nonconventional therapies and use in preventive and therapeutic therapy as well as the quality evidence to support their use. Topics include nutrition, physical activity, medication, acupuncture, herbal, and alternative medicines. Prerequisite: BSHS third-year standing. (U)(2) Spring

BSHS481, Introductory Medical Spanish: Course at the 200 level designed specifically for pharmacy students. The course will give students the opportunity to become comfortable with conversational Spanish and medical terminology in various pharmaceutical contexts, illnesses, and medical conditions in the health care system. In this course, we will also approach the usage of daily Spanish language utilized by the professionals of this field. Prerequisites: SP204 and permission of the instructor. (U)(3) Fall & spring
Pharmacy and Pharmaceutical Sciences Courses

RX301, Introductory Pharmacy Practice Experience I: This is a seminar course which prepares pharmacy students for entrance into advanced rotations. Topics will vary according to section and may include professionalism, HIPAA, Indiana pharmacist intern registration, criminal background check, and ACPE graduation requirements. (P/F)(U)(0) Fall

RX302, IPPE - Service Learning: This is a service-learning course which prepares pharmacy students through topic discussions and independent learning for entrance into advanced rotations. This course satisfies the Indianapolis Community Requirement through completion of service in a course-designed project that connects experience in the Indianapolis community with academic learning goals within the classroom. (U)(1) Spring

RX312, Clinical Biochemistry & Metabolism: The application of biochemistry to an understanding of the pathogenesis of disease and treatment, including the interpretation of clinical laboratory tests. Prerequisites: CH351 and CH352 with passing grades. (U)(4) Fall

RX314, Pharmaceutical Biotechnology: A course exploring the application of biotechnology in the treatment of human disease. Topics introduced include gene cloning and expression; next-generation sequencing; genomics; epigenetics; transcriptomics; proteomics; metabolomics; bioinformatics; and gene, oligonucleotide, recombinant protein, and monoclonal antibody-based therapies. Prerequisites: RX312 and BI325. (U)(3) Spring

BSHS42, Advanced Medical Spanish: The 300-level course is a continuation of the introductory course. At this advanced level, we continue to learn and practice how to communicate among professionals and patients in different settings such as hospitals, clinics, and medical offices. Prerequisite: Completion of RX314 or BSHS42. (U)(3) Fall & spring

BSHS43, Medical Spanish Service Learning: Supervised volunteer work (25 hours) in a medical clinic where Spanish is spoken as the primary language. Clinic activity is supported by two weekly meetings for discussion, advanced medical vocabulary, and grammar. Prerequisite: Completion of 200-level Spanish course or permission of the instructor. (U)(3) Fall & spring

BSHS44, Spanish Language Immersion Trip: This two-week trip incorporates intensive language and cultural immersion at a Spanish-language school and is offered in January between fall and spring semesters. The Spanish immersion course for all ages and different levels of instruction is designed for Butler University students and combines language acquisition with some medical terminology review as well as cultural and recreational activities. Prerequisite: Completion of a 200-level Spanish course or permission of the instructor. (U)(3) Spring

BSHS45, Culinary Medicine: Culinary medicine is the utilization of a unique combination of nutrition and culinary knowledge to assist patients in achieving and maintaining optimal health. This course will provide a knowledge base of diet, lifestyle, and nutrition, and how they relate to disease, and will include hands-on experiences to better enhance learning. Prerequisite: Junior standing. (U)(3) Annually, term varies

BSHS46, Toxicology: The principles of toxicological mechanisms of drugs and environmental chemicals in the biological system. Toxicology is the science of poisons and it is a multidisciplinary endeavor. This course will review the methods of toxicology investigations and explore the biological basis and human implications of a variety of toxicants including medications, occupational chemicals, and environmental contaminants. Prerequisite: CH106 or equivalent. (U/G)(3) Occasionally

BSHS47, Drug Abuse-Pharmacology: This course will examine from a multidisciplinary perspective the phenomenon of the non-recreational and recreational use of mind-altering drugs like alcohol, nicotine, opioids, cocaine, and psychostimulants (hallucinogens). While we will look at drug use and drug addiction from a biomedical perspective, we will take a broad view of pharmacology that includes sociopharmacology and ethnopharmacology. Topics will include the biology of addiction and drug use and the studies utilized to construct that biology: medical management of substance abuse disorder; and social and political ramifications of drug abuse. Prerequisite: Junior standing or permission of the instructor. (U/G)(3) Fall

BSHS48, Exploring Public Health: In this interactive course, students are encouraged to examine, explore, and solve public health issues of interest and examine solutions for the same. It will allow students to think critically about how to identify and address current health issues, from childhood immunizations to toxic exposures in the workplace. The course format includes interactive lectures, practical exercises, and a group leadership project. Prerequisite: Sophomore standing or permission of the instructor. (U)(3) Fall

BSHS49, Professional Leadership: This course is designed to introduce students to important leadership skills such as networking, peer assessment, negotiation, and conflict management. Students will also develop an awareness of opportunities to become involved in student professional organizations and advocacy. The course format includes interactive lectures, practical exercises, and a group leadership project. Prerequisite: Sophomore standing. (U)(2) Fall

BSHS49, Intro to Epidemiology & Research: Epidemiology, the study of the distribution of determinants of health in populations, is the foundation science of public health. The methods of epidemiology describe disease and health and determine the causes of health-related outcomes. It is based in the scientific method, underscoring the importance of developing and testing hypotheses from data to draw conclusions used in disease prevention, from medical care to policy development. In pharmacy, epidemiological practices can determine unmet needs for medications, as well as evaluate safety, efficacy, comparative effectiveness, and utilization patterns of medications. Prerequisite: Sophomore standing or permission of the instructor. (U)(3) Annually, term varies

BSHS49, Global Health: The course is an introduction to global public health, identifying health problems and concerns and their relation to policy, economic development, and human rights that involve the world. The course will provide the student with a perspective and appreciation for the diversity of health care in other regions of the world. The course will provide an opportunity for the student to develop critical thinking, awareness, understanding, and open-mindedness to others. Students will learn how to apply their newly acquired global knowledge and awareness to situations closer to home. The course is intended for students interested in global health, especially those considering a global health rotation. Prerequisites: Junior standing and completion of BSHS290. (U)(3) Spring

BSHS49, Special Topics in BSHS: The special topics format allows programs and faculty to provide courses on a trial or temporary basis. Specific courses and respective syllabi must be developed, evaluated, and approved within CPHS prior to being offered temporarily as a special topics course. If a special topics course is determined to be an appropriate long-term offering, it will be converted to a permanent course within three years or less. (U)(1–3) Fall, spring, & summer

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisites / Corequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>RX316</td>
<td>Pathophysiology: A study of the pathophysiologic processes underlying selected disease states, with emphasis on the alteration of normal physiologic processes caused by and contributing to their condition. Diseases are selected based on their frequency, urgency, and value as a model.</td>
<td>Prerequisites: BI325, PX326, and PX327; (U)(4) Fall</td>
</tr>
<tr>
<td>RX318</td>
<td>Intro to Principles of Drug Action: The course develops the concepts of how drugs produce their effects on cells and dose-effect and time-effect relationships. The chemistry and pharmacology of drugs that affect the autonomic nervous system are discussed.</td>
<td>Prerequisites: RX312 and RX316.</td>
</tr>
<tr>
<td>RX320</td>
<td>Delivery of Health Care: This is a seminar course designed to introduce students to multiple aspects of health care delivery. The purpose of this class is to understand terminology associated with delivery of health care, discuss current trends/events in health care, and identify resources to allow students to track, evaluate, and respond to the health care environment as future practitioners. (U)(3) Spring</td>
<td></td>
</tr>
<tr>
<td>RX324</td>
<td>Clinical Assessment: Methods of physical assessment and interviewing skills are presented. Normal anatomical, physiological, and pathophysiological processes of the human body are presented. With case illustrations, students learn selected diseases and the interrelationship between patient interview and abnormal physical and laboratory parameters, and their application to the treatment and monitoring of pharmacotherapy. Prerequisites: Clinical biochemistry and pathophysiology, or equivalents. (U)(2) Spring</td>
<td></td>
</tr>
<tr>
<td>RX351</td>
<td>Basic Pharmaceutics and Pharmaceutical Calculations: Knowledge and skill development focused on the pharmacist's role in receiving, interpreting, preparing, compounding, and dispensing prescriptions for patients. Skills in pharmaceutical calculations are also developed. Prerequisite: Pt student in good standing. (U)(3) Fall</td>
<td></td>
</tr>
<tr>
<td>RX361</td>
<td>Pharmacy Practice and Health Administration: The course introduces students to drug information, research design, statistical analysis to interpret data, multiple aspects of health care delivery, pharmaceutical care, pharmacy law, health literacy, and socioeconomic and cultural diversity and how it affects health outcomes. (U)(3) Fall</td>
<td></td>
</tr>
<tr>
<td>RX362</td>
<td>Pharmacy Practice and Administration 2: The course introduces students to drug information, research design, and statistical analysis to interpret data, multiple aspects of health care delivery, pharmaceutical care, pharmacy law, health literacy, and socioeconomic and cultural diversity and how it affects health outcomes. Prerequisite: RX361 (U)(3) Spring</td>

<tr>
<td>RX413</td>
<td>Therapeutics 1: A consideration of the pathophysiology and therapy of selected diseases that are commonly managed. Emphasis is placed on the provision of pharmaceutical care through the selection of appropriate therapy, therapeutic monitoring, and the prevention and identification of adverse drug reactions and interactions. Prerequisite: RX324; pre- or corequisites: RX403 and RX411. (U)(3) Fall</td>
<td></td>
</tr>
</tbody>
</table>
RX414, Therapeutics 2: This is a continuation of Therapeutics 1 and is a consideration of the pathophysiology and therapy of selected diseases that are commonly managed. Emphasis is placed on the provision of pharmaceutical care through the selection of appropriate therapy, therapeutic monitoring, and the prevention and identification of adverse drug reactions and interactions. Prerequisite: RX413 with a grade of C or higher; pre- or corequisite: RX412; corequisite: RX404. (U)(3) Spring

RX415, Self-Care and Health Promotion 1: To develop, use, and evaluate self-care strategies to assist patients in assessing their health status to achieve and maintain optimal health. Topics include nutrition, exercise, immunizations, preventative screenings, vitamins, herbs, nonprescription medications, home monitoring techniques, nonpharmacological treatments, and adverse drug events (ADE) detection and reporting. Prerequisite: Second professional year standing. (U)(2) Fall

RX416, Self-Care and Health Promotion 2: A continuation of Self-Care and Health Promotion 1. Prerequisite: RX415. (U)(3) Spring

RX421, Introduction to Dosage Forms: This lecture and laboratory course correlates physical properties of drugs and additives to the design of solid, liquid, and semi-solid dosage forms. Prerequisite: RX351. (U)(4) Fall

RX422, Advanced Dosage Forms: This course develops concepts and skills in designing and preparing rate-controlled drug delivery systems including sterile and parenteral dosage forms and enteral nutrition formulations. Prerequisite: RX421. (U)(4) Spring

RX432, Personnel & Financial Management: Personnel and resource management and basic accounting and marketing skills essential for pharmacy practice management. Prerequisite: Pt standing in the professional pharmacy program. (U)(3) Fall

RX461, Pharmacy Practice & Administration 3—Service Learning: This is a service-learning seminar course which prepares students for advanced rotations and career exploration. It develops essential skills for drug information, research design, and statistical analysis usage. It exposes students to multiple aspects of health care delivery, pharmaceutical care, and socioeconomic and cultural diversity and how it affects health outcomes. Prerequisite: RX362. (U)(3) Fall

RX462, Pharmacy Practice and Administration 4: This course continues to develop essential skills for drug information, research design, and statistical analysis usage. It exposes students to multiple aspects of health care delivery, pharmaceutical care, and socioeconomic and cultural diversity and how it affects health outcomes. Prerequisite: RX461. (U)(3) Spring

RX480, Integrative/Holistic Medicine: Introduction and exposure to holistic therapies used as medical treatments. The course will focus on nonconventional therapies and their use in preventative and therapeutic therapy as well as the quality evidence to support the use. Topics include nutrition, physical activity, medication, acupuncture, and herbal and alternative medicines. Prerequisite: Pt standing. (U)(2) Fall & spring

RX481, Introductory Medical Spanish: Course at the 200 level designed specifically for pharmacy students. The course will give students the opportunity to become comfortable with conversational Spanish and medical terminology in various pharmaceutical contexts, illnesses, and medical conditions in the health care system. In this course, we will also approach the usage of daily Spanish language utilized by the professionals of this field. Prerequisites: SP204 and permission of the instructor. (U)(3) Fall & spring

RX482, Advanced Medical Spanish: The 300-level course is a continuation of the introductory course. At this advanced level, we continue to learn and practice how to communicate among professionals and patients in different settings such as hospitals, clinics, and medical offices. Prerequisite: Completion of RX481 or BSHSP181. (U)(3) Fall & spring

RX483, Medical Spanish Service Learning: Supervised volunteer work (25 hours) in a medical clinic where Spanish is spoken as the primary language. Clinic activity is supported by two weekly meetings for discussion, advanced medical vocabulary, and grammar. Prerequisite: Completion of 200-level Spanish course or permission of the instructor. (U)(3) Annually, term varies

RX484, Spanish Language Immersion Trip: This two-week trip incorporates intensive language and cultural immersion at a Spanish-language school and is offered in January between fall and spring semesters. The Spanish immersion course for all ages and different levels of instruction is designed for Butler University students and combines language acquisition with some medical terminology review as well as cultural and recreational activities. Prerequisite: Completion of a 200-level Spanish course or permission of the instructor. (U)(3) Spring

RX485, Culinary Medicine: Culinary medicine is the utilization of a unique combination of nutrition and culinary knowledge to assist patients in achieving and maintaining optimal health. This course will provide a knowledge base of diet, lifestyle, and nutrition, and how they relate to disease, and will include hands-on experiences to better enhance learning. Prerequisites: Pt standing and permission of the instructor. (U)(3) Annually, term varies

RX487, Toxicology: Toxicology is the science of poisons and it is a multidisciplinary endeavor. This course will review the methods of toxicology investigations and explore the biological basis and human implications of a variety of toxicants including medications, occupational chemicals, and environmental contaminants. Prerequisite: Pt standing or permission of the instructor. (U)(3) Occasionally

RX488, Drug Abuse-Pharmacology: This course will examine from a multidisciplinary perspective the phenomenon of the non-recreational and recreational use of mind-altering drugs like alcohol, nicotine, opioids, cocaine and psychotomimetics (hallucinogens). While we will look at drug abuse and drug addiction from a biomedical perspective, we will take a broad view of pharmacology that includes sociopharmacology and ethnopharmacology. Topics will include the biology of addiction and drug use and the studies utilized to construct that biology; medical management of substance abuse disorder; and social and political ramifications of drug abuse. Prerequisite: Pt standing or permission of the instructor. (U)(3) Occasionally

RX490, Exploring Public Health: In this interactive course, students are encouraged to examine, explore, and solve public health issues of interest and examine solutions for the same. It will allow students to think critically about how to identify and address current health issues, from childhood immunizations to toxic exposures in the workplace. Prerequisite: Sophomore standing or permission of the instructor. (U)(3) Spring
RX499, Professional Leadership: This course is designed to introduce students to important leadership skills such as networking, peer assessment, negotiation, and conflict management. Students will also develop an awareness of opportunities to become involved in student professional organizations and advocacy. The course format includes interactive lectures, practical exercises, and a group leadership project. Prerequisite: Sophomore standing. (U)(2) Fall

RX500, Introduction to Epidemiology and Public Health Research: Epidemiology, the study of the distribution of determinants of health in populations, is the foundation science of public health. The methods of epidemiology describe disease and health and determine the causes of health-related outcomes. It is based in the scientific method, underscoring the importance of developing and testing hypotheses from data to draw conclusions used in disease prevention, from medical care to policy development. In pharmacy, epidemiological practices can determine unmet needs for medications, as well as evaluate safety, efficacy, comparative effectiveness, and utilization patterns of medications. Prerequisite: Sophomore standing or permission of the instructor. (U)(3) Annually, term varies

RX503, Therapeutics 3 Case Studies: A case-based approach to the development and monitoring of therapeutic plans for selected diseases. Corequisite: RX513; prerequisite: RX414. (U)(1) Fall

RX511, Principles of Drug Action 3: The course creates the drug knowledge base that can be applied to solve therapeutic problems of patients. Selected drug categories are considered. Prerequisites: RX318 and RX314. (U)(4) Fall

RX513, Therapeutics 3: This course is a continuation of Therapeutics 2 with emphasis placed on the selection of appropriate therapy, therapeutic monitoring, and the prevention and identification of adverse drug reactions and interactions for selected diseases. Prerequisites: RX414 and RX404 with a grade of C or higher; pre- or corequisites: RX303, RX311, and RX522. (U)(3) Fall

RX517, Therapeutics and Case Studies 4: Provision of pharmaceutical care with emphasis on the selection of appropriate therapy, therapeutic monitoring, and the identification and prevention of adverse drug reactions and interactions. A case-based approach is used for the assessment, development, and monitoring of therapeutic plans for selected disease states. Prerequisites: RX513 and RX503; corequisite: RX523. (U)(4) Spring

RX522, Pharmacokinetics & Biopharmaceutics: A consideration of the biological and physico-chemical factors that affect the delivery of drug to its site of action in the body and the basic principles of pharmacokinetics. Prerequisites: RX412 and RX422. (U)(3) Fall

RX523, Clinical Pharmacokinetics: Integrates serum drug concentrations in patients with the principles of biopharmaceutics, pharmacokinetics, and pharmacodynamics to achieve therapeutic goals for individual patients. Prerequisites: RX503, RX511, RX513, and RX522; corequisite: RX517. (U)(3) Spring

RX526, Pharmacy, Policy, and the Law: Examines the legal constraints on pharmacy practice including state and federal laws and regulations. Laws affecting the business of pharmacy are examined along with legend drug and controlled substance laws. Issues of ordering, storage, distribution, and counseling are discussed. Policy analysis of pharmacy law issues are explored in this course. Prerequisite: P3 standing. (U)(3) Spring

RX601, Independent Study: Pharmacy & Health Science: An opportunity for qualified students to pursue investigative work in pharmacy and health sciences. Prerequisite: Approval of COPHS Academic Affairs Committee. Students who are on professional or university probation are not eligible for independent study. (U/G)(1) Annually, term varies

RX602, Independent Study: Pharmacy & Health Science: An opportunity for qualified students to pursue investigative work in pharmacy and health sciences. Prerequisite: Approval of COPHS Academic Affairs Committee. Students who are on professional or university probation are not eligible for independent study. (U/G)(2) Annually, term varies

RX603, Independent Study: Pharmacy & Health Science: An opportunity for qualified students to pursue investigative work in pharmacy and health sciences. Prerequisite: Approval of COPHS Academic Affairs Committee. Students who are on professional or university probation are not eligible for independent study. (U/G)(3) Annually, term varies
RX604, Pharmacy Project Proposal: The purpose of this course is to allow students to apply and demonstrate project or research design and professional writing skills. This will be accomplished by having each student design a research study or project, complete an exhaustive literature search, write a proposal, and submit an Institutional Review Board (IRB) application (if appropriate). Prerequisite: P1 standing within the PharmD program. (U)(1) Fall, spring, & summer

RX605, Pharmacy Project Implementation: The purpose of this course is to allow students to apply and demonstrate project design implementation and conduction, and professional writing skills. This will be accomplished by having each student continue the design and/or implementation of their RX604 project, complete data collection and analysis, and write an abstract suitable for submission to a professional conference. Prerequisites: P2 standing and RX604. (U)(1) Fall, spring, & summer

RX606, Pharmacy Project Communications: The purpose of this course is to allow students to apply and demonstrate project design and professional communication skills. This will be accomplished by having each student continue the design and/or implementation of their RX604/605 project, present a poster and platform presentation, and write a final manuscript. The students must present the poster (if they have not already done so) and platform presentation at Butler’s Undergraduate Research Conference or at a conference approved by the course director. Prerequisites: P2 standing and RX604. (U)(1) Fall, spring, & summer

RX608, Doctor of Pharmacy Senior Seminar 2: Students will improve formal presentation skills by observation and practice. Each student will prepare and present to faculty and peers a series of presentations including a formal seminar presentation and a poster presentation. Presentation preparation includes a critical review of the literature and case discussions pertaining to issues of pharmacy practice. Seminars are pass/fail offerings. Prerequisite: P4 standing in the pharmacy program. (P/F)(U/G)(1) Spring

RX609, Special Topics in Pharmacy & Health Sciences: A course allowing students to explore contemporary topics in pharmacy and health sciences. Prerequisites and corequisites are dependent on the specific topic and level of presentation. (U/G)(1) Annually, term varies

RX610, Special Topics in Pharmacy & Health Sciences: A course allowing students to explore contemporary topics in pharmacy and health sciences. Prerequisites and corequisites are dependent on the specific topic and level of presentation. (U/G)(2) Annually, term varies

RX611, Special Topics in Pharmacy and Health Science: A course allowing students to explore contemporary topics in pharmacy and health sciences. Prerequisites and corequisites are dependent on the specific topic and level of presentation. (U/G)(3) Annually, term varies

RX612, Introduction to the Pharmaceutical Industry: This course is designed for those wishing to pursue a nontraditional pharmacy career in industry and for those interested in understanding the development process from raw ingredients to the product dispensed. This course will explain the business and development of pharmaceuticals and is presented by postgraduate fellows of Eli Lilly and Company. A tour of Lilly’s global headquarters is offered. (U)(2) Spring

RX613, Clinical Research Methods: This course introduces students to clinical research: investigations performed on human subjects in a clinical setting. Students will develop a clinical protocol, discuss issues encountered during protocol implementation, and write an abbreviated clinical study report. This course employs a hands-on, application-oriented approach to learning the clinical research process. (U/G)(1) Annually, term varies

RX616, Critical Care: The purpose of this elective course is to develop a broad knowledge base of common critical care disease states and management strategies as they relate specifically to drug therapy. The course design will include a combination of both lecture and case-based classroom discussion, with a focus on case discussions. Prerequisite: Completion of all PharmD P2 courses or permission of the instructor. (U)(3) Annually, term varies

RX618, Nutritional Support: This course will provide exposure to the fundamentals and importance of healthy nutrition and lifestyle education in the community as well as fluids/electrolytes and specialized nutrition support in the acute setting, with emphasis on management of complex patients. Prerequisite: Completion of all PharmD P3 courses or permission of the instructor. (U)(3) Annually, term varies

RX620, Teaching with Technology: Students will develop their knowledge and skills as possible future teachers using instructional technology to enhance student learning. Laptop or tablet PC with wireless access to the Butler network are required in class. Prerequisite: Professional phase standing in the pharmacy or physician assistant programs. (U)(2) Fall

RX621, Pharmacy-Based Immunizations: This course will prepare the student to become a certified pharmacist-immunizer through successful completion of the American Pharmacists Association Pharmacy-Based Immunization Delivery certificate training program. Prerequisites: Current fourth-year pharmacy student, active CPR certification, and willingness to practice injection techniques on each other. (U)(2) Fall

RX622, Drug Disposition and Drug Interactions: This course will focus on the fundamentals of drug disposition, especially as they relate to drug-drug interaction, individual response to drugs, genetic composition in relation to drug response, and factors that alter the body’s ability to handle drugs. Prerequisite: P3 standing or permission of the instructor. (U)(1) Spring

RX626, The Places You’ll Go: Preparing for Life after Pharmacy School: This course starts with the principle of the popular Dr. Seuss book. Until now you may have been focused on getting through each semester or even just the next exam. But you may be starting to think about what is next. This seminar and project-based course will support you while you identify and share your personal goals and passions. Students will do in-depth investigation of traditional and nontraditional practice settings, discuss opportunities to stand out, and learn how to build mentorships. Projects include a personal reflection journal, topic research, presentation of a passion, and an interview for your dream job. This course is for students who haven’t yet had a chance to focus their career interests. Prerequisite: P2 standing. (U)(2) Fall & spring

RX628, Pursuit of Postgraduate Opportunities: This course will review postgraduate education opportunities for pharmacists, with a focus on pharmacy residencies and fellowships. Students will learn about postgraduate opportunities within pharmacy and develop skills necessary in securing a position after graduation. A variety of learning techniques will be employed, which include lecture, class discussions, and in-class assessments. Students will be evaluated based on attendance, class participation, and completion of assignments. (U)(1) Spring
RX629, Cancer Pharmacology: Molecular mechanisms of cancer etiology, diagnosis, and treatment, including carcinogenesis; comparisons between normal and cancerous tissue; oncogenes and tumor suppressor genes; mechanisms of cancer chemotherapy; molecular approaches to cancer diagnosis and therapy; and personalized medicine. Prerequisite: RX344 or equivalent undergraduate biochemistry or genetics course. (U)(3) Fall

RX631, Molecular Biology/Pharmacology: This course covers concepts of molecular biology in application to drug action and new drug development. Specific sections cover consecutive steps leading to normal and pathological gene expression, cellular signal transduction/malfunction, molecular biology of cancer, and pharmacogenomics. Course includes introduction to current research methodology and analysis of scientific data. (U)(3) Annually, term varies

RX633, Current Topics in Pharm Science: Discussion of current research topics in pharmaceutical sciences. By permission only. (U)(1) Annually, term varies

RX634, Seminars in Pharmaceutical Sciences: Presentation of research topics in pharmaceutical sciences by graduate students, faculty, and guest speakers. By permission only. (U)(1) Annually, term varies

RX635, Internal Medicine Therapeutics: A capstone experience for students in their third professional year of the curriculum, covering topics encountered in a general medicine setting, including community, ambulatory, and inpatient hospital settings. Focus is on practical implementation of general medicine principles directed at the pharmacists' point of view. Corequisite: RX513. (U)(3) Annually, term varies

RX636, Cardiovascular Therapeutics: This course will develop knowledge of treatment principles of major cardiovascular conditions, with emphasis on reviewing and reading the landmark trials for why we treat cardiovascular diseases in clinical practice. Important clinical trials, treatment, guidelines, and several pharmacotherapeutic management strategies will be reviewed. Prerequisites: RX414 and RX414. (U)(3) Annually, term varies

RX637, Drug-Induced Diseases: This course will introduce students to relevant adverse reactions that occur with medication therapies, focusing on identification of the drug-induced disease and evaluation of potential causes. Students will develop skills and thought processes designed to systematically evaluate disease states and understand treatment algorithms. Corequisite: RX513. (U)(3) Annually, term varies

RX639, Principles of Psychiatric Therapeutics: This course builds upon skills learned in Therapeutics 3, providing a broader knowledge base of psychiatric and neurologic disease states. Students will learn to provide the psychopharmacologic and therapeutic management strategies to treat these disorders and unique patient counseling skills essential to the development of patient relationships. Prerequisites: RX503 and RX535. (U)(3) Annually, term varies

RX640, Entrepreneurship in Life Sciences: Designed for pharmacy students interested in learning more about the business of pharmacy and health care and how to assume ownership and responsibility for any position they choose to accept during their professional career, whether or not he or she technically owns the venture. Prerequisite: Functional use of MS Excel. U/G (3) Annually, term varies

RX641, Pediatric Pharmacotherapy: A course dealing with drug therapy in the pediatric population including neonates, infants, children, and adolescents. This course prepares the student to evaluate pediatric drug therapy regimens. Prerequisite: Completion of all fourth-year PharmD courses or permission of the instructor. (U/G)(3) Annually, term varies

RX642, Geriatric Therapeutics: A study of the physiologic and pharmacokinetic changes that occur with aging and how these changes affect drug therapy. Management of disease will be discussed and evaluated. This course will provide the student with knowledge for making therapeutic decisions in the elderly. Prerequisite: Completion of all fourth-year PharmD courses or permission of the instructor. (U/G)(3) Annually, term varies

RX643, Pharmacotherapy of Renal Disease: This elective course addresses key pharmacotherapy principles associated with the prevention and treatment of acute and chronic renal disease. Topics will include drug-induced acute kidney injury, contrast-induced nephropathy, renal dosing adjustments, anemia of chronic kidney disease, secondary hyperparathyroidism, and many others. Students will also tour a dialysis center. (U)(2) Fall

RX644, Women's Health Issues: This course will include discussions on health issues that primarily affect women. Topics include menopause, breast cancer, silicone breast implants, systemic lupus, infertility, contraception, pregnancy, osteoporosis, women and heart disease, and other issues causing illness or death of women, including domestic violence. Prerequisites: RX413 and RX414. pre- or corequisite: RX513. (U)(3) Annually, term varies

RX645, Pharmaceutical Literature: An exploration of sources of information applicable to the pharmaceutical sciences and a systematic approach to literature searches. One class hour per week. Prerequisite: Completion of all fourth-year PharmD courses, or permission of the instructor. (U/G)(1) Annually, term varies

RX646, Ambulatory Care: The focus of this course will be on designing and developing ambulatory care pharmacy services, along with assessing and educating the ambulatory care patient. Students will be introduced to medication therapy management (MTM) and will be given the opportunity to interact and work with local ambulatory care pharmacists. (U/G)(3) Occasionally

RX647, Infectious Disease Pharmacotherapy: This elective course is designed to enhance students' knowledge, skills, and experience with infectious diseases pharmacotherapy. The course will employ the use of didactic lecture, case-based topic discussion, active learning assignments, and primary literature evaluation to enhance class interaction and facilitate understanding of lecture topics. (U)(3) Spring

RX649, Neurobiology of Stress & Trauma: Students will learn to understand the neuropathological effects of stress from a systems, developmental, neurochemical, cellular, and molecular perspective. This course examines the phenomenology and neurobiological mechanisms associated with stress and trauma, as they relate to the topics to be covered. (U)(3) Annually, term varies

RX650, Academic Experience Rotation: This rotation provides the student pharmacist with experience in the role of the doctor of pharmacy in classroom teaching and with the operations of an academic institution. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX651, Administration and Management Rotation: This rotation provides the student pharmacist the opportunity to develop skills in fiscal, organization, and personnel management. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer
RX652, Adv Ambulatory Care Rotation: This rotation provides the student pharmacist with further experience in application of therapeutic principles to the patient in the ambulatory setting. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX655, Prescription Compounding Rotation: This rotation provides the student pharmacist with experience in the extemporaneous compounding of medicinal products that will be used for the treatment and/or prevention of disease in humans. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX656, Alt Comp Med Rotation: This rotation provides the student pharmacist with experience in the use of herbal, probiotic, nutritional, and other alternative modalities. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX657, Ambulatory Care Rotation: This rotation develops the student pharmacist's knowledge and problem-solving skills in the application of therapeutic principles to the care of patients receiving care in the ambulatory medicine clinic. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX658, Cardiology Rotation: This rotation develops the student pharmacist's knowledge and problem-solving skills in the application of therapeutic principles to the care of patients who have cardiovascular disorders. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX660, Patient Care Research Rotation: This rotation will provide students a blended opportunity for patient care and clinical research. Students will have the opportunity to utilize problem-solving skills in the application of therapeutic principles to patient care while stressing time-management and project-management techniques. Students will have a hands-on experience in patient-care research and will conduct a patient-care research study with minimal supervision. Students will expand their ability to generate, evaluate, analyze, and interpret patient-care data using the principles of scientific research integrity. Prerequisite: P4 standing, patient care research track, (U)(G)(4) Fall, spring, & summer

RX661, Community Practice Rotation: This course is concentrated on the basic operational skills necessary for practice in a community pharmacy setting. The primary focus of activities will be on distribution and work flow in a community setting. (U)(4) Fall, spring, & summer

RX662, Critical Care Rotation: This rotation develops the student pharmacist's knowledge and problem-solving skills in the application of therapeutic principles to the care of patients whose health is in critical condition. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX664, Drug Information Rotation: This rotation enhances the student's skills in communication, both verbal and written, and the student's skills in the retrieval, evaluation, and provision of drug-related information. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX665, Emergency Med/Trauma Rotation: This rotation provides the student pharmacist with experience in the special needs of patients receiving care in the emergency department. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX666, General Medicine Rotation: A hospital-based rotation utilizing faculty experienced in general internal medicine and/or family practice. The goal of this general rotation is to familiarize the student with those disease processes routinely managed by internal medicine and family practice in the acute care setting. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX667, Geriatric Medicine Rotation: This rotation stresses the role of the pharmacist in the care of the geriatric patient through interdisciplinary activity. The student will interact with other health care professionals to optimize the care of the geriatric patient. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX670, Home Health Care Rotation: This rotation develops the student pharmacist's knowledge and problem-solving skills in the clinical and distributive services in the home health care environment. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX671, Industrial Pharmacy Rotation: The industrial pharmacy rotation will focus on developing an understanding of opportunities available for the pharmacist in the pharmaceutical industry. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX672, Infectious Diseases Rotation: This rotation focuses on the proper selection of antimicrobial, antifungal, and antiviral therapy; understanding the associated disease states; patient education; and pharmacy administration issues associated with patients with infections. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX674, Long-Term Care Rotation: This rotation is designed to develop the student pharmacist's knowledge and problem-solving skills in clinical and distributive services in the long-term care environment. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX675, Managed Care Rotation: This rotation provides the student pharmacist experience with the medical treatment of patients in a managed care system. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX677, Neurology Rotation: This rotation develops the student pharmacist's knowledge and problem-solving skills in the application of the therapeutic principles to the care of patients who have neurological disorders. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX678, Nutrition Support Rotation: This rotation focuses on nutritional assessment and requirements, parenteral nutrition, enteral nutrition, nutritional support for disease states, and nutritional support in specific patient populations. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX679, Oncology Rotation: This rotation develops the student pharmacist's knowledge and problem-solving skills in the application of the therapeutic principles to the care of patients who have a malignancy. Prerequisite: P4 standing, (U)(4) Fall, spring, & summer

RX680, Pharmaceutical Sciences Research Rotation: This rotation will provide an opportunity for professional-phase pharmacy students to experience a dedicated longitudinal research experience. This rotation experience will be performed in a pharmaceutical science area. Students will expand their ability to generate, evaluate, analyze, and interpret data using the principles of scientific research integrity. Using one or two laboratory techniques, students will conduct laboratory experiments with sufficient proficiency so as to function with minimal supervision. Students may also experience the opportunity of creating and presenting an oral presentation summarizing the background, methods, results, and conclusions of the conducted research. Prerequisite: P4 standing, pharmaceutical sciences research track, (U)(4) Fall, spring, & summer
RX681, Neonatology Rotation: The rotation provides opportunities for the student pharmacist to participate in the care of neonates in the acute care setting. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX682, Pediatric Rotation: This rotation focuses on illnesses of the pediatric population, the physiologic differences in infants and children and how this affects drug therapy, how to solve problems in pediatric therapeutics, and how to effectively communicate about pediatric issues. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX686, Pharmacy Systems/Tech Rotation: This rotation provides the student pharmacist experience with the organization of a medication use system and the associated use of technology. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX687, Poison Control/Toxicology Rotation: This rotation develops the student pharmacist’s knowledge and problem-solving skills in the application of therapeutic principles to the care of patients who have ingested, or have otherwise been exposed to, toxic substances. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX688, Pulmonary Rotation: This rotation develops the student pharmacist’s knowledge and problem-solving skills in the application of therapeutic principles to the care of patients who have pulmonary disorders. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX689, Veterinary Medicine Rotation: This rotation provides experience in the care of animals with an emphasis on the use of drug therapy to cure or prevent disease. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX690, Psychiatry & Neuropsychology Rotation: This rotation is designed to provide the student experience in the specialized clinical area of psychiatry, with an emphasis on the use of drug therapy in the group of patients. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX691, Radiopharmaceutical Rotation: This rotation provides the student pharmacist experience with the use of radiopharmaceuticals in the diagnosis and treatment of medical conditions. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX692, Indigent Care Rotation: This rotation provides the student pharmacist with an understanding of the special considerations involved in the delivery of health care to indigent populations. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX693, Pharmacy Board & Association Rotation: This rotation develops the student pharmacist’s understanding of the organizational structure of the Pharmacy Board and state pharmacy associations, their daily operation, and the manner in which they influence pharmacy practice. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX694, Surgery Rotation: This rotation develops the student pharmacist’s knowledge and problem-solving skills in the application of therapeutic principles to the care of patients who undergo surgery. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX695, Transplantation Rotation: This rotation develops the student pharmacist’s knowledge and problem-solving skills in the application of therapeutic principles to the care of patients who have undergone organ transplantation. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX696, Women’s Health Rotation: This rotation develops the student pharmacist’s understanding of the special needs associated with medical conditions affecting female patients. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX698, Washington, DC Rotation: The rotation experience provides an opportunity to participate in a three-month learning opportunity in the Washington, DC area arranged through the Butler-Washington Semester Intern Program. The experiential learning portion of this program is arranged individually based on specific student interests. The College requires that students participating in this program also enroll in P0355 or AH110 and at least one 1-credit-hour Washington seminar course. Prerequisite: P4 standing. (P/F)(U)(12) Fall, spring, & summer

RX699, Spec Topics: Pharmacy Practice Rotation: Elective Rotation in Pharmacy Practice: An experiential course that allows students to explore new developments in delivery of pharmacy services. Rotation sites will vary depending upon the area of pharmacy practice being investigated. Prerequisite: P4 standing. (U)(4) Fall, spring, & summer

RX701, Research and Thesis: Research toward completion of thesis in pharmaceutical sciences. Prerequisite: GPA of 3.0 or above, exclusive of research and thesis credits. (G)(1) Annually, term varies

RX702, Research and Thesis: Research toward completion of thesis in pharmaceutical sciences. Prerequisite: GPA of 3.0 or above, exclusive of research and thesis credits. (G)(1) Annually, term varies

RX703, Research and Thesis: Research toward completion of thesis in pharmaceutical sciences. Prerequisite: GPA of 3.0 or above, exclusive of research and thesis credits. (G)(2) Annually, term varies

RX704, Research and Thesis: Research toward completion of thesis in pharmaceutical sciences. Prerequisite: GPA of 3.0 or above, exclusive of research and thesis credits. (G)(2) Annually, term varies

RX705, Research and Thesis: Research toward completion of thesis in pharmaceutical sciences. Prerequisite: GPA of 3.0 or above, exclusive of research and thesis credits. (G)(3) Annually, term varies

RX706, Research and Thesis: Research toward completion of thesis in pharmaceutical sciences. Prerequisite: GPA of 3.0 or above, exclusive of research and thesis credits. (G)(3) Annually, term varies

RX720, Teaching with Technology: Students will develop their knowledge and skills as possible future teachers using instructional technology to enhance student learning. Laptop or tablet PC with wireless access to the Butler network is required in class. Discussion of best-practice teaching is based on current literature on this topic. Student projects and presentations form the basis of learning assessment. (G)(2) Annually, term varies
RX729, Cancer Pharmacology: Molecular mechanisms of cancer etiology, diagnosis, and treatment, including carcinogenesis; comparisons between normal and cancerous tissue; oncogenes and tumor suppressor genes; mechanisms of cancer chemotherapy; molecular approaches to cancer diagnosis and therapy; and personalized medicine. Prerequisite: RX334 or equivalent undergraduate biochemistry or genetics course. (G)(3) Fall

RX766, Advanced Topics in Neuropharmacology: Discussions and formal presentations covering basic concepts and recent advances in clinical applications of pharmacology to psychogenic disorders. Prerequisite: Permission of the instructor. (G)(1) Annually, term varies

RX780, Current Topics in Pharm Science: Discussion of current research topics in pharmaceutical sciences. (G)(1) Annually, term varies

RX781, Seminars in Pharm Science: Presentation of research topics in pharmaceutical sciences by graduate students, faculty, and guest speakers. (G)(1) Annually, term varies

RX782, Ethics in Research: Discussion and case-based approaches in the ethics of research, publication, and reviewing of manuscripts and grants. Includes core instructional areas recommended by the NIH Office of Research Integrity. (G)(1) Annually, term varies

RX783, Introduction to Pharm Research: An introduction to basic principles of pharmaceutical research, including formation of hypothesis, literature search, scientific writing, and regulatory affairs. (G)(2) Annually, term varies

RX784, Exp Design & Data Analysis: Approaches in experimental design and statistical analysis of data. (G)(2) Annually, term varies

RX785, Biopharmaceutical Analysis: Theory and practice of bioanalytical techniques in chemical and molecular biology-based analyses. Prerequisite: BS level background in analytical chemistry. (G)(3) Annually, term varies

RX786, Advanced Drug Delivery: Critical assessment of drug carrier systems, including transport of drug molecules across membranes. Prerequisite: Permission of the instructor. (G)(3) Annually, term varies

RX787, Industrial Pharm: Pref/Prod Dev: Study of physicochemical principles of drugs and excipients for optimization of bioavailability. Case studies in formulation, production, and evaluation of pharmaceutical products. Prerequisite: Permission of the instructor. (G)(3) Annually, term varies

RX788, Molecular Biology/Pharmacology: This course covers concepts of molecular biology in application to drug action and new drug development. Specific sections cover consecutive steps leading to normal and pathological gene expression, cellular signal transduction/malfunction, molecular biology of cancer, and pharmacogenomics. Course includes introduction to current research methodology and analysis of scientific data. (G)(3) Annually, term varies

RX790, Pharmaceutical Sciences Thesis Defense: This course for MS graduate students will be used to signify if they have successfully completed and defended their MS thesis. Prerequisites: Completion or enrolled in minimum required 30 graduate credits in MS Pharm Sci program. (G)(0) Fall, spring, & summer

**Master of Physician Assistant Courses**

MPAS505, Anatomy and Physiology for PAs: This comprehensive course is designed to provide PA students with an extensive background in human anatomy and physiology through lecture, laboratory, virtual dissection, and independent learning exercises. The course will have a clinical emphasis. Lectures and labs will emphasize anatomy and anatomic relationships significant to common clinical medicine topics and surgical procedures. Normal physiology, followed by the pathophysiology of diseases important to organ systems, will be presented. Function, cellular changes, and pathological changes, including inflammatory aspects, infectious conditions, and any neoplastic presentations where appropriate, will be included. Prerequisite: Admission into the Master of Physician Assistant Studies program. (G)(3) Summer

MPAS508, 12-Lead ECG Interpretation: This course provides the physician assistant student with instruction in interpreting 12-lead electrocardiograms for heart rate, rhythm, conduction system blocks, electrical axis, hypertrophy, ischemia, injury, and infarction. This course also provides instruction regarding the effects of various drugs, electrolyte disorders, diseases, and pacemakers. Prerequisite: Admission into the professional phase of the PA program. (G)(1) Fall

MPAS510, Interpretation of Laboratory Studies for PAs: This course introduces the physician assistant student to the use and interpretation of laboratory studies used in the diagnosis, screening, and/or monitoring of disorders commonly encountered in clinical practice. Prerequisite: Admission into the professional phase of the PA program. (G)(3) Fall

MPAS512, Interpretation of Imaging Studies for PAs: This course introduces students to the basic principles of diagnostic imaging and interpretation in the management of patients. Examination of normal imaging studies is followed by examination and discussion of abnormalities caused by both trauma and disease. Prerequisite: Admission into the professional phase of the PA program. (G)(2) Summer

MPAS517, History and Physical Exam for PAs: Prepares the student to perform history and physical examinations on patients. Normal, variations, and common abnormal findings will be introduced. An emphasis is placed on the relationship of major signs and symptoms to their physiologic or pathophysiologic origins. Students will utilize lecture, recordings, simulation, live demonstration, other students, and standardized patients. Prerequisite: Admission into the Master of Physician Assistant Studies program. (G)(2) Summer

MPAS519, History and Physical Exam with Lab for PAs: Prepares the student to perform history and physical examinations on patients. Normal, variations, and common abnormal findings will be introduced. An emphasis is placed on the relationship of major signs and symptoms to their physiologic or pathophysiologic origins. Students will utilize lecture, recordings, simulation, live demonstration, other students, and standardized patients. Prerequisite: Successful completion of MPAS summer didactic coursework. (G)(3) Fall

MPAS521, Clinical Medicine & Pharmacotherapeutics I for PAs: Students are introduced to human health and disease encountered in the primary care setting. The course emphasizes a comprehensive approach, including an integration of related anatomy and physiology, followed by pathophysiology, identifying risk factors, clinical findings, diagnostic methods, management including both medical and surgical, patient education, follow-up, and prevention. In
addition, students are introduced to the principles of drug absorption, distribution, metabolism, excretion, and mechanisms to enable the rational use of effective agents in the diagnosis and treatment of disease, considering mechanism of action, indications, adverse effects, and drug interactions. Prerequisite: Admission into the Master of Physician Assistant Studies program. (G)(4) Summer

MPAS623, Clinical Medicine & Pharmacotherapeutics II for PAs: Students are introduced to human health and disease encountered in the primary care setting. The course emphasizes a comprehensive approach, including an integration of related anatomy and physiology, followed by pathophysiology, identifying risk factors, clinical findings, diagnostic methods, management including both medical and surgical, patient education, follow-up, and prevention. In addition, students are introduced to the principles of drug absorption, distribution, metabolism, excretion, and mechanisms to enable the rational use of effective agents in the diagnosis and treatment of disease, considering mechanism of action, indications, adverse effects, and drug interactions. Prerequisite: Successful completion of MPAS summer didactic coursework. (G)(7) Fall

MPAS625, Clinical Medicine & Pharmacotherapeutics III for PAs: Students are introduced to human health and disease encountered in the primary care setting. The course emphasizes a comprehensive approach, including an integration of related anatomy and physiology, followed by pathophysiology, identifying risk factors, clinical findings, diagnostic methods, management including both medical and surgical, patient education, follow-up, and prevention. In addition, students are introduced to the principles of drug absorption, distribution, metabolism, excretion, and mechanisms to enable the rational use of effective agents in the diagnosis and treatment of disease, considering mechanism of action, indications, adverse effects, and drug interactions. Prerequisite: Successful completion of both MPAS summer and fall didactic coursework. (G)(6) Spring

MPAS527, Clinical Procedures with Lab for PAs: This course provides the physician assistant student with the knowledge and skills required to perform diagnostic and therapeutic procedures commonly performed in clinical practice. Prerequisite: Successful completion of both MPAS summer and fall didactic coursework. (G)(4) Spring

MPAS528, Health Promotion, Disease Prevention, and Nutrition: This course emphasizes intervention strategies, public health considerations in selected disease states, immunizations, environmental health, behavioral considerations in prevention and assessment of disease and health, implications for individual and population-based patient care, nutrition, provider education, and resource utilization. Prerequisite: Successful completion of MPAS summer didactic coursework. (G)(2) Spring

MPAS530, Social and Behavioral Medicine: This course emphasizes personality development, normative responses to stress, psychosomatic manifestations of illness, sexuality, responses to death/dying, and behavior patterns related to the maintenance and restoration of health. It focuses on normal/abnormal development of children, adults, and seniors. Students acquire skills in basic treatment/counseling, patient education, substance abuse, and violence screening. Prerequisite: Admission to the PA program. (G)(3) Summer

MPAS532, Pediatric Medicine: This course is an introduction to common pediatric health problems from the newborn period through adolescence. The lectures focus on health promotion, disease prevention and screening, pathology identification and management, and patient education and counseling for the pediatric patient and his/her family. Prerequisite: Successful completion of MPAS summer didactic coursework. (G)(1) Fall

MPAS537, Health Care Communications for PAs: This course encourages critical thought process. Students will develop interpersonal and oral and written communication skills that result in the effective exchange of information and collaboration with patients, their families, and other health professionals. Prerequisite: Successful completion of the MPAS summer didactic coursework. (G)(1) Fall

MPAS538, Medical Literature Interpretation: This course is designed to prepare the physician assistant student to apply the concepts of research design and statistical analysis within the clinical environment. Research skills developed in this course emphasize a systematic and scientific approach to problem solving. Prerequisite: Successful completion of all fall semester MPAS didactic coursework. (G)(2) Fall

MPAS550, Orthopedics and Rheumatology: Students are introduced to orthopedic and rheumatologic conditions encountered in the primary care setting. The course emphasizes a comprehensive approach, including an integration of related anatomy and physiology, followed by pathophysiology, identifying risk factors, clinical findings, diagnostic methods, management including both medical and surgical, patient education, follow-up, and prevention. Prerequisite: Successful completion of all fall semester MPAS didactic coursework. (G)(1) Spring

MPAS552, Women's Health: Students are introduced to women's health issues encountered in the primary care setting, including obstetrics and gynecology. The course emphasizes a comprehensive approach, including an integration of related anatomy and physiology, followed by pathophysiology, identifying risk factors, clinical findings, diagnostic methods, management including both medical and surgical, patient education, follow-up, and prevention. Prerequisite: Successful completion of all fall semester MPAS didactic coursework. (G)(2) Fall

MPAS560, Clinical Integration for PAs: This course provides students with an opportunity to manage virtual patients by applying the knowledge, skills, and attitudes developed in other professional physician assistant coursework. Prerequisite: Successful completion of both MPAS summer and fall didactic coursework. (G)(3) Spring

MPAS626, Issues of Professional Practice: This course provides the student with an introduction to the historical development and current trends of the PA profession, reimbursement, health policy, and public health issues as they pertain to the supervised practice of clinical medicine. It also provides the student with an introduction to medical ethics, coding and billing, cultural issues, PA certification, licensure, malpractice and risk management, financial planning, and PA organizations as they pertain to the supervised practice of clinical medicine. Prerequisites: Admission into the professional phase of the PA program and completion of the didactic phase of the PA program. (G)(3) Fall

MPAS630, Pediatric Rotation: This pediatric rotation is designed to provide the physician assistant student with an intense exposure to primary care pediatric problems, with the objectives of developing skills in well-child preventive care and the care of common pediatric illnesses. Prerequisite: Completion of didactic courses in the PA program. (G)(3) Fall, spring, & summer

MPAS604, Elective Rotation: Four-week clinical rotation designed to provide the student with an elective opportunity in any of the following disciplines: dermatology, gastroenterology, medical or surgical subspecialty, cardiology, radiology, ENT, or urology. The discipline must be approved by the clinical coordinator. Prerequisite: Completion of didactic courses in the PA program. (G)(4) Fall, spring, & summer
MPAS636, Summative Practicum: In order to graduate from the PA program, students must demonstrate competency to practice medicine as an entry-level PA in primary care. In order to do so, students must successfully complete all components of the summative examination, which comprises clinical skills and objective structured clinical examinations. Prerequisite: Completion of didactic courses in the PA program. (G)(1) Spring

MPAS648, Family Medicine Rotation 1: This rotation provides students with an experience during which they refine their skills in performing a history and physical exam, ordering and interpreting diagnostic tests, and developing treatment plans for patients. The student participates in the broad spectrum of primary care by developing skills in acute and long-term management. Prerequisite: Completion of didactic courses in the PA program. (G)(4) Fall, spring, & summer

MPAS650, Internal Medicine Rotation 1: This rotation provides the student with experience in caring for adult and geriatric patients in a clinical practice setting. Students will perform history and physical examinations, obtain diagnostic testing, and present their data along with proposed differential diagnoses and treatment plans. Students may have additional requirements associated with internal medicine. Prerequisite: Completion of didactic courses in the PA program (G)(4) Fall, spring, & summer

MPAS652, Internal Medicine Rotation 2: This rotation provides the student with experience in caring for adult and geriatric patients in a clinical practice setting. Students will perform history and physical examinations, obtain diagnostic testing, and present their data along with proposed differential diagnoses and treatment plans. Students may have additional requirements associated with internal medicine. Prerequisite: Completion of didactic courses in the PA program. (G)(4) Fall, spring, & summer

MPAS654, Community Mental Health Rotation: This rotation will provide students with an experience in caring for ambulatory or hospitalized patients with psychiatric disorders. The student will perform psychiatric evaluations, and develop and support clinical management plans. Students may have additional requirements associated with community mental health. Prerequisite: Completion of didactic courses in the PA program. (G)(4) Fall, spring, & summer

MPAS656, Women’s Health Rotation: This four-week clinical rotation is designed to provide the physician assistant student with an opportunity to develop proficiency in the unique medical history, physical examination, and treatment of the prenatal/gynecology patient. The student will also become familiar with tests and procedures unique to this patient population. Students may have additional requirements associated with women’s health. Prerequisite: Entry into the experiential year of the PA program. (G)(4) Fall, spring, & summer

MPAS658, Emergency Medicine 1: This rotation is designed to provide students with exposure to and development of skills in managing patients in the emergency department setting. Skills will include those necessary for triage, stabilization, diagnosis, and management of patients that present to the emergency department. Students may have additional requirements associated with emergency medicine. Prerequisite: Completion of didactic courses in the PA program. (G)(4) Fall, spring, & summer

MPAS660, Emergency Medicine 2: This rotation is designed to provide students with exposure to and development of skills in managing patients in the emergency department setting. Skills will include those necessary for triage, stabilization, diagnosis, and management of patients that present to the emergency department. Students may have additional requirements associated with emergency medicine. Prerequisite: Completion of didactic courses in the PA program. (G)(4) Fall, spring, & summer

MPAS662, Family Medicine Rotation 2: This rotation provides students with an experience during which they refine their skills in performing a history and physical exam, ordering and interpreting diagnostic tests, and developing treatment plans for patients. The student participates in the broad spectrum of primary care by developing skills in acute and long-term management. Prerequisite: Completion of didactic courses in the PA program. (G)(4) Fall, spring, & summer

MPAS664, Interprofessional Experience: This course prepares the PA student to work collaboratively within interprofessional patient-centered teams upon graduation. It provides the student with an opportunity to interact, communicate, and effectively understand the various roles of other non-physician health care providers. These providers may include at a minimum physical therapists, occupational therapists, respiratory therapists, speech/language therapists, social workers, pharmacists, surgical technicians, radiologic technicians, dieticians, nurses, dentists, and various other licensed non-physician health care providers. It will give the student a better understanding of how health care workers interact with other health care workers, and to learn how they provide both direct and indirect patient care to diverse patient populations and how that care fits within patient-centered teams. Prerequisites: Completion of the PA didactic curriculum and entry into the PA experiential year. (G)(1) Fall, spring, & summer

MPAS670, General Surgery Rotation: This rotation is designed to prepare the physician assistant student to function as an assistant to the general surgeon in providing pre-operative, intra-operative, and post-operative care. The student will learn how to diagnose and manage common surgical disorders and learn when to make appropriate surgical referrals. Prerequisite: Completion of didactic courses in the PA program. (G)(4) Fall, spring, & summer

MPAS678, Core Content 1: This self-study course is designed to guide and encourage the student’s systematic preparation for the Physician Assistant National Certification Examination (PANCE) by means of monthly examinations, and to develop and assess the student’s competency in each of the stated terminal outcomes of the PA program. Prerequisites: Completion of the didactic phase and admission into the professional phase of the PA program. (G)(2) Summer

MPAS680, Core Content 2: This self-study course is designed to guide and encourage the student’s systematic preparation for the Physician Assistant National Certification Examination (PANCE) by means of monthly examinations, and to develop and assess the student’s competency in each of the stated terminal outcomes of the PA program. Prerequisites: Completion of the didactic phase and admission into the professional phase of the PA program. (G)(2) Fall

MPAS682, Core Content 3: This self-study course is designed to guide and encourage the student’s systematic preparation for the Physician Assistant National Certification Examination (PANCE) by means of monthly examinations, and to develop and assess the student’s competency in each of the stated terminal outcomes of the PA program. Prerequisites: Completion of the didactic phase and admission into the professional phase of the PA program. (G)(1) Spring

Jordan College of the Arts has a distinguished tradition extending from the year 1895, when the Metropolitan School of Music was founded. That school merged in 1928 with the Indiana College of Music and Fine Arts to become the Arthur Jordan Conservatory of Music. In 1953, after 23 years of close affiliation, the conservatory became a part of Butler University as Jordan College of Music. The name was changed to Jordan College of Fine Arts in 1978, and in 2012 the name was again changed to Jordan College of the Arts (JCA).

Jordan College of the Arts provides focused professional study and collaborative, creative experiences within the context of a strong liberal arts university. We emphasize the development of students as artist-citizens who will become leaders in arts and society. The five academic departments/programs—art, arts administration, dance, music, and theatre—focus on specific areas of study within their fields, be it the intersection of art and design in the art program, classical ballet in the Department of Dance, or nonprofit arts management in the Arts Administration Department.

Through our community outreach program, the Butler Community Arts School, 100 Butler students teach music and other arts to almost 2,000 young people in Indianapolis, most of whom are on scholarship. All Jordan College of the Arts students—future artist-citizens—are involved in the arts both on campus and off, attending concerts and exhibitions throughout Indianapolis and Central Indiana, performing for diverse audiences at Butler and on tour, and working in arts organization throughout the country.

Jordan College of the Arts offers programs of study leading to the degrees of bachelor of arts, bachelor of music, bachelor of musical arts, bachelor of fine arts, bachelor of science, master of arts, and master of music.

Butler University is a fully accredited institutional member of the National Association of Schools of Dance; the National Association of Schools of Music; and the National Association of Schools of Theatre.

Undergraduate Degree Programs

- Bachelor of Arts in Art + Design (BA)
- Bachelor of Arts in Dance—Pedagogy (BA)
- Bachelor of Arts in Music (BA)
- Bachelor of Arts in Theatre (BA)
- Bachelor of Fine Arts in Dance—Performance (BFA)
- Bachelor of Music in Composition (BM)
- Bachelor of Music in Jazz Studies (BM)
- Bachelor of Music in Music Education (choral-general, instrumental-general, or area) (BM)
- Bachelor of Music in Performance (piano, voice, or instrumental) (BM)
- Bachelor of Music in Performance and Music Education (BM)
- Bachelor of Musical Arts (BMA)
- Bachelor of Science in Arts Administration (music, theatre, or general) (BS)
- Bachelor of Science in Dance—Arts Administration (BS)
Admission

All prospective students must submit a Jordan College of the Arts program application in addition to the Butler University Application for First Year Admission. They must also complete an audition, interview or portfolio review depending on the area of study. Both applications must be on file one week prior to the audition, interview or portfolio review. An on-campus or regional audition is required for all dance and music applicants. An on-campus or regional audition or portfolio presentation is required for all theatre applicants. An interview is required for all arts administration general applicants. A portfolio review is required for all Art + Design applicants.

Information and details about on-campus auditions, regional auditions, interviews, and portfolio presentations/reviews are available at www.butler.edu/jca. Note that all students who wish to be considered for Jordan College of the Arts talent awards should complete the audition, interview, or portfolio review process during the regularly scheduled audition season. College-specific requirements are detailed below.

Prospective Graduate Students should see the Graduate Studies section in the Admission Information and Requirements chapter or contact the School of Music.

General Academic Regulations

In addition to the University academic regulations, the following are applicable to students registered in Jordan College of the Arts.

- All students in the College must fulfill the Core Curriculum requirements of the University.
- 40 upper-division credit hours (300-400 level) are required for graduation.
- Courses in the student’s major or minor receiving a grade of C- or below or taken pass/fail will not count toward that major or minor.
- All students working toward a teaching license must meet additional requirements as outlined for licensing.
- All students are required to participate in departmental ensembles as required by the specific curricular and scholarship guidelines.
- As an essential component of a full and varied educational experience in the arts, undergraduate JCA majors are expected to attend arts events in their discipline and related areas throughout their tenure at Butler.

Graduate Degree Programs

- Master of Arts in Musicology (MA)
- Master of Music in Composition (MM)
- Master of Music in Conducting (choral or instrumental) (MM)
- Master of Music in Music Education (MM)
- Master of Music in Performance (MM)
- Master of Music in Piano Pedagogy (MM)

Jordan College Courses

JC100, Arts Event Attendance: As an essential component of a full and varied educational experience in the arts, undergraduate JCA majors are expected to attend arts events in their discipline and related areas throughout their tenure at Butler. Pass/fail credit. (Note: This course will not count toward the limit of permitted P/F courses.) (U)(O) Fall & spring

JC150, Schrott Center for the Arts Stage Production Training: An experiential course consisting of formal training sessions and hands-on learning where students work alongside Schrott Center professionals to engage in all aspects of stage production crew work. Training sessions include safety, lighting, live audio, audio recording, stage equipment, and video projection and recording. (U)(O) Fall & spring

JC200, Arts Event Attendance: As an essential component of a full and varied educational experience in the arts, undergraduate JCA majors are expected to attend arts events in their discipline and related areas throughout their tenure at Butler. Pass/fail credit. (Note: This course will not count toward the limit of permitted P/F courses.) (U)(O) Fall & spring

JC300, Arts Event Attendance: As an essential component of a full and varied educational experience in the arts, undergraduate JCA majors are expected to attend arts events in their discipline and related areas throughout their tenure at Butler. Pass/fail credit. (Note: This course will not count toward the limit of permitted P/F courses.) (U)(O) Fall & spring

JC350, Schrott Center for the Arts Stage Production Training: An experiential course consisting of formal training sessions and hands-on learning where students work alongside Schrott Center professionals to engage in all aspects of stage production crew work. Training sessions include safety, lighting, live audio, audio recording, stage equipment, and video projection and recording. Prerequisites: Junior standing and successful completion of at least one semester of JC150. (U)(O) Fall & spring

JC400, Arts Event Attendance: As an essential component of a full and varied educational experience in the arts, undergraduate JCA majors are expected to attend arts events in their discipline and related areas throughout their tenure at Butler. Pass/fail credit. (Note: This course will not count toward the limit of permitted P/F courses.) (U)(O) Fall & spring

Mission
The art program educates artists to acquire skills of the designer, and designers to attain the aesthetic eye of the artist, achieved through an innovative, hybrid curriculum that emphasizes sustainable, traditional, and digital materials.

- **Integration**: Every course in the program integrates art and design, utilizing a hybrid approach that combines critical thinking with processes pertinent for both arts and designers as well as methods of creation that are both traditional and digital.
- **Creativity**: Creativity is nurtured through emphasis in idea generation. Focused on responding to themes and processes rather than fulfilling assignments, students learn to trust their intuition and gain confidence as authors of their own work.
- **Flexibility**: The program is designed to be flexible in response to rapidly expanding career opportunities. Innovative coursework allows students to strategize with both traditional and nontraditional materials and customize projects to their specific interests.
- **Sustainability**: The program promotes the ecological practice of reuse and repurposing of sustainable materials. Students are provided practical experiences and marketable skills to sustain a lifetime of creativity.
- **Collaboration**: Collaboration is a critical skill for future artists and designers. Collaborative environments prepare students to work professionally as part of a team—sharing, exchanging, and accepting divergent viewpoints. Required internships with nonprofit and corporate organizations expand students’ range of collaborative abilities and provide career-building opportunities.
- **Leadership**: The art program offers the professional dexterity to promote leadership by setting high standards of achievement in initiative, innovation, and communication. Students are expected to develop, articulate, and realize a personal vision. In the classroom and beyond, students strive for excellence in artistic creation and professional practice.

Art + Design Student Learning Outcomes

- Demonstrate an understanding of the basic principles of art and design, including visual vocabulary, and technical sensibility toward composition and materials
- Demonstrate innovative thinking, craft, and sophistication in terms of aesthetic and technical application of materials and processes of art and design
- Demonstrate an understanding of connectivity of a variety of art and design methods, materials, techniques, and technologies
- Demonstrate an understanding of the intellectual underpinning of art and design in terms of history, process, and theory
- Demonstrate the understanding and ability to critique artwork in terms of materials, processes, and concepts
- Demonstrate professional growth in review of portfolio development, internships, and/or exhibition

Degree Programs

- Bachelor of Arts in Art + Design (BA)
- Minor in Art + Design

General Requirements
Applicants are admitted to the program on the basis of academic acceptance by the University and a portfolio review.

Requirements for the Major
The BA in Art + Design requires the completion of 126 credit hours. In addition to the University Core Curriculum, the student takes 42 required and elective courses in art and design, completes a minor or a secondary major in another discipline, and takes elective courses. For detailed degree requirements, see www.butler.edu/art/major-minor.

Requirements for the Minor
The 21-credit Art + Design minor consists of four required courses in art and design plus three additional courses in art and design chosen from an approved list of art and design electives.
Core Course Offered by Art + Design

PCA200-ART, Introduction to Visual Art: This course combines the study of visual art (art history, art criticism, and aesthetics) with studio art experience (the elements of art and the principles of design put into practice). A wide variety of media are considered, including those sometimes termed popular culture: film, television, advertising art, and web design in addition to more traditional forms such as painting and sculpture. Students develop a critical awareness of art and develop a vocabulary with which to describe their own and others’ work. The coursework primarily comprises class discussion, written assignments, and creative projects. Art + Design majors are not eligible for enrollment. (U)(3) Fall & spring

Art + Design Courses

ART105, Introduction to Visual Culture: This lecture-based course provides a survey of art and visual culture from around the world, from prehistory to postmodernism. It also presents an introduction to a variety of methods by which art and visual culture are customarily understood. It is designed to explore the relationship between art history and history, and between objects and key episodes in political, social, and intellectual history. Prerequisite: Major or minor or permission of the instructor. (U)(3) Fall

ART107, Line & Value 1: An introduction to the fundamentals of drawing as a medium of expression. The course introduces design principles and an appreciation of the history and practice of drawing. Prerequisite: Art + Design major or minor or permission of the instructor. (U)(3) Fall

ART108, Structure: Graphic Design + Identity Branding I: This course provides an introduction to design concepts from an artistic and structural perspective. Students are introduced to a range of design problems, with an emphasis on the interplay of image, text, and creativity. Students develop an understanding of typographic design and gain expertise in vector and bitmap environments. Prerequisites: ART107, ART122, and Art + Design major or minor. (U)(3) Fall

ART122, Color: Painting + Color Theory I: An exploration of art and design practices relating to painting and color theory. The class will expose the student to a broad range of ideas and approaches relating to painting and the visual arts. Prerequisites: ART107 and Art + Design major or minor. (U)(3) Fall

ART207, Line and Value: Drawing + 2D Design II: Intermediate-level drawing and two-dimensional design. Prerequisites: ART107 and Art + Design major or minor. (U)(3) Fall

ART208, Structure: Graphic Design + Identity Branding II: Intermediate-level graphic design and identity branding. Prerequisites: ART108 and Art + Design major or minor. (U)(3) Fall

ART210, Process: Theory + Practice: This course connects art + design practices and develops students' individual artistic sensibilities through projects including creating a portfolio framework and creating a mini-thesis. Prerequisites: ART105 and ART107 or permission of the instructor. (U)(3) Spring

ART222, Color: Painting + Color Theory II: Intermediate-level painting and color theory. Prerequisites: ART122 and Art + Design major or minor. (U)(3) Spring

ART303, Contrast: Photography + Digital Manipulation: An exploration of photography in both fine art and design contexts. Students learn studio photography, digital manipulation using graphic software, and conceptual photographic approaches. Historical processes and antecedents to contemporary photography are also studied. Prerequisite: ART210 or permission of the instructor. (U)(3) Occasionally

ART304, Depiction: Illustration + Printmaking: An exploration of sequential art and design practices. Prerequisite: ART210 or permission of the instructor. (U)(3) Occasionally

ART305, Time & Motion: Animation + Video: This course explores art and design forms that have a temporal component, including animation (Flash, claymation, and stop-motion), digital imaging, and video. Students use DragonFrame in this course. Prerequisite: ART210 or permission of the instructor. (U)(3) Occasionally

ART306, Interactive: Digital Art + Web Design: An exploration of art and design that provokes interaction with audiences. Prerequisite: ART210 or permission of the instructor. (U)(3) Occasionally

ART307, Line and Value: Drawing + 2D Design III: Advanced-level drawing and two-dimensional design. Prerequisite: ART207 and Art + Design major or minor. (U)(3) Fall

ART308, Structure III: Advanced level of graphic design and identity branding. Prerequisite: ART208 and Art + Design major or minor. (U)(3) Fall

ART311, Function: Product Design + Fashion: An exploration of function within the context of art and design practices. Prerequisite: ART210 or permission of the instructor. (U)(3) Occasionally

ART312, Design: History & Theory: This course provides an introduction to the history of modern and postmodern design. It is expressly designed to explore the relationships among the design disciplines (graphic design, furniture design, architecture, textile design, interior design, and fashion), as well as the dialogue between design history and design theory. Prerequisite: ART105 or junior or senior standing, or permission of the instructor. (U)(3) Occasionally

ART314, Museum as Theatre: This course considers aesthetic and theoretical issues that cross the boundaries between performance art and museum exhibition spaces. This course is discussion- and activity-based and incorporates historical study, direct experience, critical analysis, and research at the Indianapolis Museum of Art. Prerequisite: ART105 or junior or senior standing, or permission of the instructor. This course meets off campus. Students will pay entrance fees to local museums. (U)(3) Occasionally

ART315, Postmodernism in the Arts: Introduction to postmodernist theory as it applies to studio art, theater, dance, and music. Postmodern forms of art such as installation, video art, performance art, and happenings will be discussed. Prerequisite: ART105 or junior or senior standing, or permission of the instructor. (U)(3) Occasionally
ART 322, Color: Painting + Color Theory III: An introduction to color theory and exploration of art and design practices, with a special emphasis on painting. Students learn a broad range of approaches to color in painting, mixed media, and digital environments. Prerequisites: ART 222 and Art + Design major or minor. (U)(3) Fall & spring

ART 360, Space: Sculpture + 3D Design: The focus of this course is the creation of three-dimensional works utilizing traditional and nontraditional materials, including found object construction, mold-making, and 3D printing. Discussions, lectures, and critiques will explore and emphasize concept, materials, space, form, site, presentation, craft, and context. Students utilize Blender. Prerequisite: ART 210 or permission of the instructor. (U)(3) Occasionally

ART 482, Special Topics in Art & Visual Culture: Work in the special seminar will be centered on a specific aspect of studio art, art history, or visual culture. Prerequisite: Permission of the instructor. (U)(3) Occasionally

ART 491, Internship: Art + Design: On-the-job experience or apprenticeship related to the student's interests or degree objectives. Prerequisites: Art + Design majors only with junior or senior standing and approval of written project proposal. (U)(3) Fall & spring

ART 492, Internship: Art + Design: On-the-job experience or apprenticeship related to the student's interests or degree objectives. Prerequisites: Art + Design majors only with junior or senior standing and approval of the program director. (U)(3) Fall & spring

ART 493, Internship: Art + Design: On-the-job experience or apprenticeship related to the student's interests or degree objectives. Prerequisites: Art + Design majors only with junior or senior standing and approval of the program director. (U)(3) Fall & spring

**Program Website**

www.butler.edu/arts-administration

Arts administration is a course of study that prepares undergraduate students for a future in the management of nonprofit arts and community organizations. The program provides a strong undergraduate liberal arts education, a basic understanding of the business world, and a comprehensive education in the disciplines of the arts. Required experiential learning opportunities and internships provide essential workplace training and education. Careers include jobs in management, special events, volunteer coordination, fundraising, public relations, educational programming, and facilities management.

**Arts Administration at Butler**

- Multidisciplinary approach integrating dance, music, theatre, and visual arts with current issues in arts management
- Educational relationships with local cultural organizations, professional artists, educators, and administrators
- Hands-on learning that integrates classroom instruction with workplace practice
- Strong emphasis on community engagement
- In-depth experience in the student’s chosen art form
- National internship placements
- Study-abroad opportunities
- Comprehensive liberal arts education
- Distinguished faculty of experienced arts administrators
- Cross-campus business instruction led by experts in their respective fields (public relations, economics, management, etc.)
- One of the earliest and most comprehensive undergraduate arts administration programs in the nation
Arts Administration Student Learning Outcomes

- Recognize the purposes and values of the nonprofit arts sector as well as the essential operations of a nonprofit organization, and demonstrate this knowledge in practical applications
- Demonstrate critical-thinking skills when analyzing issues facing arts organizations
- Communicate how classroom experiences, community-based learning, and creative expression have shaped your personal career aspirations and value for lifelong learning in the arts
- Communicate coherently, effectively, and creatively in both written and oral formats
- Demonstrate proficiency in the use of current computer technologies utilized in nonprofit organizations
- Demonstrate the ability to understand and apply the principles of arts advocacy and philanthropy

Degree Programs

- Bachelor of Science in Arts Administration (BS)
- Bachelor of Science in Arts Administration—Music (BS)
- Bachelor of Science in Arts Administration—Theatre (BS)
- See Department of Dance—Degree Programs for Bachelor of Science in Dance—Arts Administration (BS)

Requirements for the Major

The three components of each arts administration degree are the University Core Curriculum, the required arts administration courses, and the required arts courses for each specific degree. All degrees in arts administration require completion of 128 credit hours. For detailed degree requirements, see www.butler.edu/arts-administration/majors.

Arts Administration Courses

AA201, Survey of Arts Administration: An introduction to the field of arts administration, this course will explore the wide variety of arts and cultural organizations and the various aspects of the profession within the for-profit and nonprofit fields. (U)(2) Spring

AA281, Special Topics: Special topics courses will focus on specific aspects of the arts. Topics will vary; courses are open to all students. (U)(1) Occasionally

AA282, Special Topics: Special topics courses will focus on specific aspects of the arts. Topics will vary; courses are open to all students. (U)(2) Occasionally

AA283, Special Topics: Special topics courses will focus on specific aspects of the arts. Topics will vary; courses are open to all students. (U)(3) Occasionally

AA301, Principles and Practices of Arts Administration: This course addresses the principles and practices of arts management, including incorporation, governance, human resources, strategic planning, and grant writing. Prerequisite: Sophomore standing. (U)(3) Fall & spring

AA315, Arts in Society: This class will investigate the various genres of the visual and performing arts in relation to contemporary society. Through reading, discussion, writing, and creative learning activities, students will learn to appreciate and accept a wide framework of artistic endeavors and begin to develop an understanding of the concept of aesthetics. (U)(3) Annually, term varies

AA325, Arts Advocacy & Lobbying: This seminar course is designed to make students aware of the current trends, challenges, and practices in arts advocacy and lobbying, and to enable them to gain insights into the advocacy responsibilities of the professional arts administrator. Prerequisite: Junior standing or permission of the instructor. (U)(3) Occasionally

AA330, Venue Management: This course is designed to provide students with an understanding of the various aspects of arts venue management. Students will gain knowledge in the areas of front-of-house, box office, and backstage management, contracts, policies and procedures, laws, regulations, and labor issues. Prerequisite: AA301. (U)(3) Occasionally

AA335, Special Events: This course provides students with a basic understanding of the role of special events in nonprofit arts and community organizations. The course will cover event planning, coordination, and implementation utilizing written materials, guest speakers, and project work. Requirements will include group and individual participation in special events in the community. Prerequisite: Sophomore standing or permission of the instructor. (U)(3) Occasionally

AA371, Experiential Learning: An opportunity for qualified students to undertake supervised field experience with an arts or related nonprofit organization. Prerequisites: Arts administration major, sophomore standing, and permission of the instructor. (U)(1) Fall & spring

AA372, Experiential Learning: An opportunity for qualified students to undertake supervised field experience with an arts or related nonprofit organization. Prerequisites: Arts administration major, sophomore standing, and permission of the instructor. (U)(2) Fall & spring

AA373, Experiential Learning: An opportunity for qualified students to undertake supervised field experience with an arts or related nonprofit organization. Prerequisites: Arts administration major, sophomore standing, and permission of the instructor. (U)(3) Fall & spring

AA381, Special Seminar in Arts Administration: Special seminars will focus on more detailed components of arts administration. Seminars may include guest speakers, research papers, presentations, and/or a portfolio. Prerequisite: Arts administration major or permission of the instructor. (U)(1) Occasionally

AA382, Special Seminar in Arts Administration: Special seminars will focus on more detailed components of arts administration. Seminars may include guest speakers, research papers, presentations, and/or a portfolio. Prerequisite: Arts administration major or permission of the instructor. (U/G)(2) Occasionally
AA383, Special Seminar in Arts Administration: Special seminars will focus on more detailed components of arts administration. Seminars may include guest speakers, research papers, presentations, and/or a portfolio. Prerequisite: Arts administration major or permission of the instructor. (U/G)(3) Occasionally

AA390, Leadership and Artistic Vision: This course will introduce students to trends in the field of arts management and help them gain insights into the diverse roles and responsibilities of the professional artistic director. Students will also explore their own leadership skills and participate in activities to identify and expand their own creative abilities and vision. Prerequisites: Junior standing and AA301. (U)(3) Occasionally

AA400, Internship Preparation: Preparation and selection of internship, including résumé, cover letter, computer skills and literacy for the workplace, and approval of internship site. Prerequisite: Permission of the department chair. (U)(0) Fall & spring

AA410, Marketing the Arts for Nonprofit Organizations: This seminar course provides an overview of fundamental marketing concepts and strategies for building, maintaining, and developing audiences for nonprofit arts and cultural programs. The course focuses on the techniques and methods utilized in connecting and communicating with current and prospective arts audiences. Topics include market research and segmentation, branding, media relations, traditional and digital promotions and advertising techniques, and development of a marketing plan. Prerequisite: AA301. (U)(3) Annually, term varies

AA415, Fundraising for the Arts: This seminar course examines the key theories, principles, processes, and programs of philanthropy and fundraising in nonprofit arts organizations. Students will gain practical knowledge in growing and sustaining contributed income. Topics include prospect research, donor relations and ethics, annual campaigns, case statements, sponsorship, and internet-based fundraising. Prerequisite: AA301. (U)(3) Annually, term varies

AA420, Financial Management for the Arts: This seminar course examines the financial issues that are critical to nonprofit arts organizations. Topics include mission-driven budgeting, cost-benefit analysis, managing cash flow, asset management and restriction, and trend analysis. Prerequisites: AC203, AC204, and AA415. (U)(3) Annually, term varies

AA425, Arts, Education, and Community Engagement: This course is designed to provide students with an understanding of the history of arts education and outreach, community engagement, and current trends. Students will examine and evaluate existing programs as well as design new ones. The course includes guest speakers and field trips. Prerequisite: AA301 or permission of the instructor. (U)(3) Fall

AA450, Arts Administration Senior Seminar: Capstone course focusing on timely issues in the field of arts administration. Significant writing assignments as related to arts administration. Prerequisites: Arts administration major and senior standing, or arts administration major and permission of the instructor. (U)(3) Fall

AA475, Internship in Arts Administration: On-the-job experience in an arts agency directly related to the student's degree objectives. Prerequisites: AA301, AA401, junior standing, and permission of the department chair. (U)(6) Fall, spring, & summer

AA481, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Petition required with approval by the dean. (U)(1) Fall & spring

AA482, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Petition required with approval by the dean. (U)(2) Fall & spring

AA483, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Petition required with approval by the dean. (U)(3) Fall & spring

AA499, Honors Thesis: (U)(3) Fall & spring

Dance at Butler
- The program continues a 50-year tradition of excellence in ballet, training serious and talented dance students, and preparing them for future careers in the dance arts
- Nationally and internationally renowned undergraduate department that is fully accredited by the National Association of Schools of Dance
• Strong technical training based on the central focus of classical ballet
• Exposure to a wide range of techniques
• Extensive performance opportunities with Butler Ballet, the department’s pre-professional company
• Broad exposure to academic subjects in dance and other arts
• Opportunities to perform in major productions each year in Clowes Memorial Hall, a 2,200-seat venue, and also in the more intimate setting of the 450-seat Howard L. Schrott Center for the Arts
• Butler Ballet performs full-length classical ballets, commissioned and licensed masterworks, and contemporary repertoire from a variety of stylistic approaches
• Butler Chamber Dance performs experimental, often non-proscenium, multidisciplinary, highly contemporary choreographic work
• Opportunities for students to present their creativity through student choreographic showcases and senior productions
• Highly qualified professors who are artist-scholars combining broad educational backgrounds with professional performing careers, in-depth study, choreography, and teaching in the United States and abroad
• International summer study opportunities

Dance Student Learning Outcomes
The coursework within each of the three degree plans is designed with the following student learning outcomes:

• Demonstrate an understanding of the intellectual underpinning of the various dance techniques in terms of structure, vocabulary, syntax, and phrasing
• Interpret, compare, and critique the art of choreography and performance through theoretical and practical study in terms of innovation, craft, and sophistication
• Demonstrate an understanding of the physical and intellectual underpinning of the various dance techniques as manifested in execution and pedagogy
• Articulate and apply an understanding of the impact of dance in history, society, and the allied arts, thus becoming advocates for the art form
• Incorporate the impact of other arts on dance through studies in music, theatre, and the fine arts
• Value an ethic of professionalism as manifested through respect for appropriate etiquette and interaction with faculty and fellow students

Degree Programs

• Bachelor of Arts in Dance—Pedagogy (BA)
• Bachelor of Fine Arts in Dance—Performance (BFA)
• Bachelor of Science in Dance—Arts Administration (BS)
• Minor in Dance

Butler University is a fully accredited institutional member of the National Association of Schools of Dance.

Requirements
Applicants are admitted to the program on the basis of academic acceptance by the University and an audition in ballet.

All majors in dance (BA, BFA, and BS) require completion of 128 credit hours, comprising a variety of studio courses, performance, and dance academics in addition to required courses in related areas such as music and theatre, and the Core Curriculum of the University. For detailed degree requirements, see www.butler.edu/dance/prospective-students/majors.

The dance minor requires 24 hours in dance, 17 of which are prescribed while the other seven can be taken from an approved list of dance electives. Only students with sophomore status and above and who have been previously admitted as dance majors are eligible to apply for the minor.

Core Courses Offered by Dance

PCA220-DA, American Dance in the Black Tradition: Searching for Cultural Diffusion in Movement: This course will examine the relationship between dance and artistic development in 20th-century America, focusing on the artistic expression of the African-American culture. Through examination of the interplay between dominant and non-dominant cultures, students can create and develop a model of compassion and appreciation where diverse artistic talents are recognized and valued for their unique contributions. (U)(3) Spring

PCA221-DA, Latin Dances, African Roots: An introduction to and overview of the national dances of Cuba, Brazil, Argentina, and Peru. We will study the influence of indigenous cultures, colonization, and the Atlantic slave trade on the development of dances such as samba, rumba, tango, capoeira, and popular dance culture, as well as examining current practice in light of the political and social changes that have occurred in these countries since 1900. We will approach the course subject using films, texts, and, of course, by dancing. We will gain first-hand knowledge of, and appreciation for, dance in these cultures and how it relates to an appreciation of dance in our culture. All students are welcome. (U)(3) Fall

PWB103-DA, Beginning Ballet (non-majors): Basic ballet technique in the recognized classic form. For students who have had no previous training. Not applicable to the dance major; open to all other students. Two meetings per week. Open to students who have not completed a PWB course. (U)(1) Fall & spring

PWB104-DA, Beginning Jazz: Basic jazz styles and forms for non-majors. Two meetings per week. Open to students who have not completed a PWB course. (U)(1) Fall

PWB105-DA, Intermediate/Advanced Jazz: Jazz styles and forms for non-majors. Two meetings per week. Open to students who have not completed a PWB course. (U)(1) Spring
Courses in Dance for Non-majors

DA101, Beginning Ballet 1: Basic ballet technique in the recognized classic form. For students who have had no previous training. Not applicable to the dance major; open to all other students. Two meetings per week. (U)(1) Fall

DA102, Beginning Ballet 2: Continuation of DA101: Basic ballet technique in the recognized classic form for students who have had little previous training. Not applicable to the dance major; open to all other students. Two meetings per week. (U)(1) Spring

DA103, Beginning Jazz: Basic jazz styles and forms for non-majors. Two meetings per week. (U)(1) Fall

DA104, Beginning Jazz: Basic jazz styles and forms for non-majors. Two meetings per week. (U)(1) Spring

DA105, Intermediate/Advanced Jazz: Jazz styles and forms for non-majors. Two meetings per week. (U)(1) Fall

DA106, Intermediate/Advanced Jazz: Jazz styles and forms for non-majors. Two meetings per week. (U)(1) Spring

DA107, Modern Dance: Dance technique as a combination of movement improvisation and modern technique, emphasizing qualities of movement in space and time. Not applicable to dance majors; open to all other students. Two meetings per week. (U)(1) Fall

DA108, Modern Dance: Dance technique as a combination of movement improvisation and modern technique, emphasizing qualities of movement in space and time. Not applicable to dance majors; open to all other students. Two meetings per week. (U)(1) Spring

DA301, Intermediate Ballet: Continuation of DA202 for non-majors who wish to further their ballet training. Three meetings per week. (U)(2) Fall

DA302, Intermediate Ballet: Continuation of DA 202 for non-majors who wish to further their ballet training. Three meetings per week. (U)(2) Spring

DA401, Intermediate/Advanced Ballet: Continuation of DA302. Intermediate/advanced level of ballet technique for non-majors. Three meetings per week. (U)(2) Fall

DA402, Intermediate/Advanced Ballet: Continuation of DA 302. Intermediate/advanced level of ballet technique for non-majors. Three meetings per week. (U)(2) Spring

Courses in Dance for Majors

DA109, Professional Practices: Seminar course designed to inform, direct, and support new students; serve as an open forum for discussion; broaden awareness; gain knowledge; and develop skills while fostering artistic life. One meeting per week. Prerequisite: First-year dance major status. (U)(0) Fall

DA110, Professional Practices: Seminar course designed to inform, direct, and support new students; serve as an open forum for discussion; broaden awareness; gain knowledge; and develop skills while fostering artistic life. One meeting per week. Prerequisite: First-year dance major status and DA109. (U)(0) Spring

Ballet Technique Courses for Majors

Courses DA211–218 are open to sophomores. Courses DA313–318 are open to juniors. Courses DA415–418 are open to seniors.

DA111, Ballet Technique 1 First Year: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA112, Ballet Technique 1 First Year: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring

DA113, Ballet Technique 2 First Year: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA114, Ballet Technique 2: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring

DA115, Ballet Technique 3: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA116, Ballet Technique 3: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring
DA119, Ballet Technique, Men First Year: Recognized classic dance form of Western Europe and America geared specifically for the male dancer. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA120, Ballet Technique, Men First Year: Recognized classic dance form of Western Europe and America geared specifically for the male dancer. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline towards exactness and precision of line. Includes barre and center exercises. Class meets five days a week for one and one-half hours. (U)(2) Spring

DA127, Men's Allegro Technique 1: Specific allegro technique for men: multiple turns, beats, and grand allegro steps. Two meetings per week. Prerequisite: Male dance major. (U)(1) Fall

DA128, Men's Allegro Technique 1: Continuation of DA127. Two meetings per week. Prerequisite: DA127. (U)(1) Spring

DA211, Ballet Technique 1: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA212, Ballet Technique 1: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring

DA213, Ballet Technique 2: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA214, Ballet Technique 2: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring

DA215, Ballet Technique 3: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA216, Ballet Technique 3: Recognized classic dance form of Western Europe and America. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline toward exactness and precision of line. Includes barre and center exercises. Placement in appropriate levels is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring

DA219, Ballet Technique—Men Sophomore: Recognized classic dance form of Western Europe and America geared specifically for the male dancer. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline towards exactness and precision of line. Includes barre and center exercises. Placement in classes is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA220, Ballet Technique—Men Sophomore: Recognized classic dance form of Western Europe and America geared specifically for the male dancer. It serves in the scheme of dance training as mathematics does in the academic curriculum—a discipline towards exactness and precision of line. Includes barre and center exercises. Placement in classes is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring

DA227, Men's Allegro Technique 2: Specific allegro technique for men: multiple turns, beats, and grand allegro steps. Two meetings per week. Prerequisite: DA128. (U)(1) Fall

DA228, Men's Allegro Technique 2: Continuation of DA227. Two meetings per week. Prerequisite: DA227. (U)(1) Spring

DA313, Ballet Technique 2: Intermediate level of ballet technique (see description under DA113 and DA114). By placement only. (U)(2) Spring

DA314, Ballet Technique 2: Intermediate level of ballet technique (see description under DA113 and DA114). By placement only. (U)(2) Spring

DA315, Ballet Technique 3: See description under DA115 and DA116. (U)(2) Fall

DA316, Ballet Technique 3: See description under DA115 and DA116. (U)(2) Spring

DA317, Ballet Technique 4: Advanced level of ballet technique. (See description under DA115 and DA116.) Ladies will take the complete class on pointe during three of the five weekly meetings. (U)(2) Fall

DA318, Ballet Technique 4: Advanced level of ballet technique. (See description under DA115 and DA116.) Ladies will take the complete class on pointe during three of the five weekly meetings. (U)(2) Spring

DA319, Ballet Technique—Men Junior: Advanced ballet technique geared specifically for the male dancer. Includes barre and center exercises. Placement in classes is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA320, Ballet Technique—Men Junior: Advanced level of ballet technique geared specifically for the male dancer. Includes barre and center exercises. Placement in classes is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring
DA327, Men's Allegro Technique 3: Specific allegro technique for men: multiple turns, beats, and grand allegro steps. Two meetings per week. Prerequisite: DA228. (U)(1) Fall

DA328, Men's Allegro Technique 3: Continuation of DA327. Two meetings per week. Prerequisite: DA327. (U)(1) Spring

DA410, Ballet Technique: Same as DA415 and DA416. One section of the course meets MWF, the other TR and TBA for one hour of credit. By placement only. (U)(1) Fall & spring

DA415, Ballet Technique 3: Advanced level of ballet technique. (See description under DA115 and DA116.) By placement only. Meets five times per week. (U)(2) Fall

DA416, Ballet Technique 3: Advanced level of ballet technique. (See description under DA215 and DA216.) By placement only. Meets five times per week. (U)(2) Spring

DA417, Ballet Technique 4: Advanced level of ballet technique. (See description under DA117 and DA118.) Ladies will take the complete class on pointe during three of the five weekly meetings. (U)(2) Fall

DA418, Ballet Technique 4: Advanced level of ballet technique. (See description under DA217 and DA218.) Ladies will take the complete class on pointe during three of the five weekly meetings. (U)(2) Spring

DA419, Ballet Technique—Men Senior: Advanced ballet technique geared specifically for the male dancer. Includes barre and center exercises. Placement in classes is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Fall

DA420, Ballet Technique—Men Senior: Advanced ballet technique geared specifically for the male dancer. Includes barre and center exercises. Placement in classes is determined by previous training and not by the year in residence. Class meets five days a week for one and one-half hours. (U)(2) Spring

DA427, Men's Allegro Technique 4: Specific allegro technique for men: multiple turns, beats, and grand allegro steps. Two meetings per week. Prerequisite: DA328. (U)(1) Fall

DA428, Men's Allegro Technique 4: Continuation of DA427. Two meetings per week. Prerequisite: DA427. (U)(1) Spring

**Pointe, Pas de Deux, and Variations**

DA121, Pointe 1 First Year: The specialized study of ballet technique as applied to pointe work. For dance majors only. Two meetings per week. (U)(1) Fall

DA122, Pointe 1 First Year: The specialized study of ballet technique as applied to pointe work. For dance majors only. Two meetings per week. (U)(1) Spring

DA123, Pointe 2 First Year: Intermediate/advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Fall

DA124, Pointe 2 First Year: Intermediate/advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Spring

DA125, Pas de Deux 1: First-year partnering technique. Required of male dance majors, by invitation only for female dance majors. (U)(1) Fall

DA126, Pas de Deux 1: First-year partnering technique. Required of male dance majors, by invitation only for female dance majors. (U)(1) Spring

DA221, Pointe 2 Sophomores: Intermediate/advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Fall

DA222, Pointe 2 Sophomores: Intermediate/advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Spring

DA223, Pointe 3 Sophomores: Advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Fall

DA224, Pointe 3 Sophomores: Advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Spring

DA225, Pas de Deux 2: Second-year partnering technique. Required of male BFA dance majors, by invitation only for female dance majors. One meeting per week. (U)(1) Fall

DA226, Pas de Deux 2: Second-year partnering technique. Required of male BFA dance majors, by invitation only for female dance majors. One meeting per week. (U)(1) Spring

DA321, Pointe 3 Juniors: Advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Fall

DA322, Pointe 3 Juniors: Advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Spring

DA323, Pointe 4 Juniors: Advanced professional-level pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Fall

DA324, Pointe 4 Juniors: Advanced professional-level pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Spring

DA325, Pas de Deux 3: Intermediate/advanced technique of supported adagio and advanced repertoire required of male BFA dance majors. By invitation only for male BA and BS dance majors and female dance majors. One meeting per week. (U)(1) Fall

DA326, Pas de Deux 3: Intermediate/advanced technique of supported adagio and advanced repertoire required of male BFA dance majors. By invitation only for male BA and BS dance majors and female dance majors. One meeting per week. (U)(1) Spring

DA408, Classical Variations: Learning and analyzing standard solo variations from the 19th- and 20th-century ballet repertoires, with special emphasis on pointe technique. One meeting per week. By consent of the instructor. (U)(1) Spring
DA241, Pointe 3 Seniors: Advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Fall
DA242, Pointe 3 Seniors: Advanced level of pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Spring
DA243, Pointe 4 Seniors: Advanced professional-level pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Fall
DA244, Pointe 4 Seniors: Advanced professional-level pointe technique for dance majors. By placement only. Two meetings per week. (U)(1) Spring
DA245, Pas de Deux 4: Advanced technique of supported adagio and advanced repertoire. By invitation only for male and female dance majors. One meeting per week. (U)(1) Fall
DA246, Pas de Deux 4: Advanced technique of supported adagio and advanced repertoire. By invitation only for male and female dance majors. One meeting per week. (U)(1) Spring

**Modern and Improvisation Courses**

DA331, Modern Technique 1: First-year modern technique for dance majors. Three hours per week. (U)(1) Fall
DA332, Modern Technique 1: First-year modern technique for dance majors. Three hours per week. Prerequisite: DA331. (U)(1) Spring
DA333, Modern Technique 2: Second-year modern technique for dance majors. Three hours per week. Prerequisites: DA331 and DA332. (U)(1) Fall
DA334, Modern Technique 2: Second-year modern technique for dance majors. Three hours per week. Prerequisite: DA331. (U)(1) Spring
DA335, Improvisation 1: Exploration of basic improvisational skills in order to relinquish the habitual movements of the trained dancer and to find more original ways of expressing ideas through dance. One meeting per week. Prerequisite: Sophomore dance major status. (U)(1) Fall
DA336, Modern Technique 3: Third-year technique for dance majors. Three meetings per week. Prerequisites: DA231 and DA232. (U)(1) Fall
DA337, Modern Technique 3: Third-year technique for dance majors. Three meetings per week. Prerequisite: DA331. (U)(1) Spring
DA338, Modern Technique 4: Fourth-year modern technique for dance majors. Three meetings per week. Prerequisites: DA331 and DA332. (U)(1) Fall
DA339, Modern Technique 4: Fourth-year modern technique for dance majors. Three meetings per week. Prerequisite: DA431. (U)(1) Spring

**Other Dance Techniques Courses**

DA141, Jazz 1: Contemporary jazz for dance majors, with emphasis on Simonson technique. Two meetings per week. (U)(1) Fall
DA142, Jazz 1: Contemporary jazz for dance majors, with emphasis on Simonson technique. Two meetings per week. Prerequisite: DA141 (U)(1) Spring
DA241, Jazz 2: Continuing study of jazz techniques at the sophomore level. Three meetings per week. Prerequisite: DA142. (U)(1) Fall
DA242, Jazz 2: Second-year jazz technique for dance majors. Three meetings per week. Prerequisite: DA241. (U)(1) Spring
DA247, Character Dance: The study of Slavic dance techniques of the Polish, Russian, Hungarian, and Spanish styles, with emphasis on individual and group performances. Two meetings per week. Open to dance majors only. (U)(1) Fall
DA248, World Dance Technique: The study of nontraditional dance techniques and culturally based dance idioms, with emphasis on individual and ensemble performances. Two meetings per week. Prerequisite: DA247. (U)(1) Spring
DA341, Jazz 3: Secondary training in Simonson jazz technique, with emphasis on varied movement styles. Prerequisite: DA242. (U)(1) Fall
DA342, Jazz 3: Secondary training in Simonson jazz technique, with emphasis on varied movement styles. Prerequisite: DA341. (U)(1) Spring
DA344, Theatre Dance Forms: A survey of theatrical dance from the early 20th century, with materials designed for teaching and performance using tap, jazz, and folk techniques in entertainment routines. Emphasis on individual and group performance. Three meetings per week. Prerequisite: Junior dance major or consent of the department chair. (U)(1) Spring
DA349, Contemporary Partnering: Advanced study through practical work in the principles related to contemporary partnering in the 21st century, including balance, counterbalance, resistance, strength building, and weight distribution. Prerequisite: Completion of DA325 or DA326; enrollment in DA425/426 preferred; mandatory for male dancers. (U)(1) Fall

**Performance Courses**

DA151, Butler Ballet, First Year: All performance groups are selected by the choreographer in line with the particular needs of the work being produced. Participation in more than one group is possible. Prerequisite: Dance major. (U)(1) Fall
DA152, Butler Ballet, First Year: Continuation of DA151. Prerequisite: DA151. (U)(1) Spring
DA251, Butler Ballet, Sophomore: All performance groups are selected by the choreographer in line with the particular needs of the work being produced. Participation in more than one group is possible. Prerequisite: DA152. (U)(1) Fall
DA252, Butler Ballet, Sophomore: Continuation of DA251. Prerequisite: DA251. (U)(1) Spring
DA365, Butler Chamber Dance: Ensemble created to perform new choreographic works by the dance faculty, collaborate with similar university programs or professional companies, and collaborate with the community of artists of the Jordan College of the Arts, among others. Each performance is an individual project, with participation by audition only. Permission of the dance department is required. Prerequisites: DA351, DA352, and sophomore status. (U)(1) Fall & spring

DA355, Butler Chamber Dance: Ensemble created to perform new choreographic works by the dance faculty, collaborate with similar university programs or professional companies, and collaborate with the community of artists of the Jordan College of the Arts, among others. Each performance is an individual project, with participation by audition only. Permission of the dance department is required. Prerequisites: DA351, DA352, and sophomore status. (U)(1) Fall & spring

DA455, Butler Chamber Dance: Ensemble created to perform new choreographic works by the dance faculty, collaborate with similar university programs or professional companies, and collaborate with the community of artists of the Jordan College of the Arts, among others. Each performance is an individual project, with participation by audition only. Permission of the dance department is required. Prerequisites: DA351, DA352, and sophomore status. (U)(1) Fall & spring

DA351, Performance Lab: Laboratory course for dance majors to serve as performers for student choreographers in DA453. (U)(1) Fall

DA351, Butler Ballet, Junior: All performance groups are selected by the choreographer in line with the particular needs of the work being produced. Participation in more than one group is possible. Prerequisite: DA252 or consent of the department chair. (U)(2) Fall

DA352, Butler Ballet, Junior: Continuation of DA351. Prerequisite: DA351 or consent of the department chair. (U)(2) Spring

DA451, Butler Ballet, Senior: All performance groups are selected by the choreographer in line with the particular needs of the work being produced. Participation in more than one group is possible. Prerequisite: DA352 or consent of the department chair. (U)(2) Fall

DA452, Butler Ballet, Senior: Continuation of DA451. Prerequisite: DA451 or consent of the department chair. (U)(2) Spring

**Arts Event Attendance Courses**

DA190, Arts Event Attendance: New dance majors and new secondary dance majors will attend 10 performances in their first academic year. Events will be distributed among art, dance, music, theatre, and arts-related lectures and will include on- and off-campus presentations. (P/F)(U)(0) Fall & spring

DA290, Arts Event Attendance: Sophomore dance majors and secondary dance majors will attend eight performances in their second academic year. Events will be distributed among art, dance, music, theatre, and arts-related lectures and will include on- and off-campus presentations. Prerequisite: DA190. (P/F)(U)(0) Fall & spring

DA390, Arts Event Attendance: Junior dance majors and secondary majors will attend six performances in their third academic year. Events will be distributed among art, dance, music, theatre, and arts-related lectures and will include on- and off-campus presentations. Prerequisite: DA290. (P/F)(U)(0) Fall & spring

DA490, Arts Event Attendance: Senior dance majors and secondary majors will attend six performances in their final academic year. Events will be distributed among art, dance, music, theatre, and arts-related lectures and will include on- and off-campus presentations. Prerequisite: DA390. (P/F)(U)(0) Fall & spring

**Dance Academic Courses**

DA161, Body Placement 1: A course for dance majors explaining the proper postural alignment of the body utilizing one or more of the following methods: Bartenieff Fundamentals of Movement, Alexander Technique, and Pilates Technique. (U)(1) Fall

DA162, Body Placement 2: A course for dance majors explaining the proper postural alignment of the body utilizing one or more of the following methods: Bartenieff Fundamentals of Movement, Alexander Technique, and Pilates Technique. Prerequisite: DA161. (U)(1) Spring

DA166, Masterworks of Dance: Introduction to major ballet and modern dance works, presented on video, briefly analyzed, and placed in context. The course also examines ways that information literacy is a necessary component to academic research. (U)(2) Fall & spring

DA249, Acting for Dancers: The study of basic acting techniques to enhance the performance skills of the dancer. Emphasis placed on character development, confident use of voice, active storytelling, and critical assessment of theatrical acting practices. Prerequisites: DA109 and DA152. (U)(2) Fall & spring

DA261, Laban Movement Analysis: Elementary concepts in the major 20th-century theory of movement: exploration of the aspects of shape, space, and efforts (movement qualities). Prerequisite: Sophomore dance major or consent of the department chair. (U)(2) Fall & spring

DA263, Music for Dance—Theory: Elements of music theory for dancers, covering basic concepts such as meters, rhythms, key signature, and basic chords. Two meetings per week. Prerequisite: Sophomore dance major. (U)(1) Fall

DA264, Music for Dance: The relationship of music to dance as applied to ballet class and to choreography. Two meetings per week. Prerequisite: DA263. (U)(1) Fall

DA361, Choreography 1: A study of the basic building blocks in dance composition skills: movement themes and motifs, development and variation, and overall structure of a choreographic piece. Prerequisites: DA253 and DA261. (U)(2) Fall

DA362, Choreography 2: Investigation of the relationship between choreography and music. Prerequisites: DA361 and DA264. (U)(2) Spring

DA365, Dance History 1: The evolution of dance from its earliest appearance to modern times; the relationship of dancing to religion, music, and drama. Three meetings per week. Writing-intensive. Prerequisite: Junior dance major. (U)(3) Fall
DA366, Dance History 2: Continuation of DA365-01W, the course will examine the relationship of concert theatrical dance to society, religion, music, and politics, beginning with Diaghilev and moving through the 20th and 21st centuries. Course fulfills the Speaking across the Curriculum requirement and is required of all dance majors. Three meetings each week. Prerequisite: Junior dance major. (U)(3) Spring

DA361, Choreography 1: A study of the basic building blocks in dance composition skills: movement themes and motifs, development and variation, and overall structure of a choreographic piece. Prerequisites: DA233 and DA261. (U)(2) Fall

DA362, Choreography 2: Investigation of the relationship between choreography and music. Prerequisites: DA361 and DA264. (U)(2) Spring

DA365, Dance History 1: The evolution of dance from its earliest appearance to modern times; the relationship of dancing to religion, music, and drama. Three meetings per week. Writing-intensive. Prerequisite: Junior dance major. (U)(3) Fall

DA366, Dance History 2: Continuation of DA365-01W, the course will examine the relationship of concert theatrical dance to society, religion, music, and politics, beginning with Diaghilev and moving through the 20th and 21st centuries. Course fulfills the Speaking across the Curriculum requirement and is required of all dance majors. Three meetings each week. Prerequisite: Junior dance major. (U)(3) Spring

DA433, Choreography 3: The third formal exposure of dance majors to the craft of composition. Advanced level of choreography for small and large groups. Two meetings per week. Prerequisite: DA362. (U)(1) Fall

DA454, Senior Production Project: Production, rehearsal, and public presentation of the choreographic project which began in DA453. Prerequisite: DA453. (U)(2) Spring

DA465, Career Planning: Taking the Next Step: Guidance for graduating seniors in the research and development of materials necessary in seeking and obtaining employment. Prerequisites: DA261, DA361, and DA366. (U)(1) Fall

DA466, Theory & Philosophy of Dance: Analysis of dance as an art form, an educational device, and a vehicle for individual and group expression. Emphasis on concepts of aesthetic judgment and criticism. Prerequisites: DA261, DA361, and DA366. (U)(2) Spring

DA467, Design/Construction Dance Costumes: Basic principles involved in the preparation of design and construction of costumes for dance. Lecture and laboratory. (U)(3) Fall

DA468, Applied Dance Costuming: The execution and construction of designed costumes for dance. Laboratory. Prerequisite: Consent of the instructor. (U)(3) Spring

**Dance Pedagogy and Special Studies Courses**

DA471, Teaching Analysis of Classical Technique: A practical and theoretical study of basic ballet techniques, preparing the student teacher for instructing beginning ballet. Two meetings per week. Prerequisite: Junior BA dance major, senior BFA dance major, or BS dance major. (U)(2) Fall

DA472, Teaching Analysis of Intermediate and Advanced Classical Techniques: Teaching intermediate and advanced ballet techniques to skilled performers and teachers. Prerequisite: DA471. (U)(2) Spring

DA474, Teaching Analysis Modern Techniques: A practical and theoretical study of basic modern technique, including how to devise material, structure a class, and work with an accompanist. Prerequisites: DA471 and DA431. (U)(2) Spring

DA476, Teaching Analysis Jazz Technique: Pedagogy of jazz techniques (theory and practice), utilizing the Simonson technique. Prerequisites: DA241, DA242, and DA471. (U)(2) Spring

DA477, Dance Teaching Practicum: Observation and teaching in selected school situations as a correlated school activity. Prerequisites: DA472, DA474, or DA476 and consent of the department chair. (U)(2) Fall & spring

DA478, Dance Teaching Practicum: Observation and teaching in selected school situations as a correlated school activity. Prerequisites: DA472, DA474, or DA476 and consent of the department chair. (U)(2) Spring

DA481, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Approval of the department chair required. (U)(1) Occasionally

DA482, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Approval of the department chair required. (U)(2) Occasionally

DA483, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Approval of the department chair required. (U)(3) Occasionally

DA493, Special Seminar: Work in the special seminar shall be centered on a specific aspect of dance. A paper may be required. By consent of the instructor. (U)(3) Occasionally

DA499, Honors Thesis: See section dealing with graduation honors. (U)(3) Occasionally
School of Music

Administration
Doug Spaniol, DMA, Interim Chair; David Murray, MM, Assistant Chair

Professors
Timothy R. Brimmer, DA; Lisa Brooks, DMA; Richard Auldon Clark, MM; Michael Colburn, MM; Penny Dimmick, DA; Jeffrey Gillespie, PhD; James Muholland, MM; David Murray, MM; Michael Schelle, PhD; Laurence Shapiro, MM; Doug Spaniol, DMA; Eric Stark, DMA

Associate Professors
Daniel Bolin, EdD; Kathleen Boyd, DMA; Frank Felice, PhD; William Grubb, DMA; Melvin Jones, PhD; Mary Katherine Kelton, DMA; Gail Lewis, DMA; Matthew Pivec, DMA

Assistant Professors
Clare Carrasco, PhD; Andrew Farina, PhD; Nicholas Johnson, PhD; John Perkins, DMA; Oliver Worthington, DMA

Artist-in-Residence in Percussion
Jon Crabiel, MA

Instructors
Thadaeus Bourne, MM

School of Music Website
www.butler.edu/music

Mission
The mission of the Butler University School of Music is to provide the highest quality professional education in music within a liberal arts environment, preparing students for a lifetime of meaningful involvement in the global musical community.

Butler University is a fully accredited institutional member of the National Association of Schools of Music.

Music Student Learning Outcomes
By graduation, the Butler University School of Music will prepare our students to demonstrate the following:

- A broad knowledge of music, including its historical and cultural context.
- A mastery of fundamental theoretical aspects of music.
- Technical and artistic skills appropriate to the area of applied study, including solo and collaborative music making.
- The ability to gather, evaluate, and communicate musical information and ideas verbally and in writing.

Music Preparation
The entrance requirements in all fields of music are similar to those adopted by the National Association of Schools of Music. An audition is required for majors. No audition is required for the music minor; an audition is required for the jazz studies minor. Applicants are admitted to the program on the basis of academic acceptance by the University and an audition.

Undergraduate Degree Programs

- Bachelor of Arts in Music (BA)
- Bachelor of Music in Composition (BM)
- Bachelor of Music in Jazz Studies (BM)
- Bachelor of Music in Music Education—choral/general and instrumental/general (four-year program) (BM)
- Bachelor of Music in Music Education—area (five-year program) (BM)
- Bachelor of Music in Performance (instrumental, piano, and voice major) (BM)
- Bachelor of Music in Performance and Music Education (five-year program) (BM)
- Bachelor of Musical Arts (BMA)
- Bachelor of Science in Arts Administration—Music (BS)
- Minor in Jazz Studies
- Minor in Music

Areas of Emphasis
The following emphases may be added to any music degree, although they are designed primarily for the BA degree. At least 50 percent of the credits in any emphasis must be unique to that program and may not overlap with another emphasis, major, or minor (except as free electives).

- Composition
- Jazz Studies
- Music History
• Music Performance
• Music Theory
• Piano Pedagogy

Requirements for the Undergraduate Degree Programs
For all areas of study in music, summaries of requirements and suggested sequences of courses are available online at www.butler.edu/music/majors-minors. For degree requirements regarding the BS in arts administration—music, see www.butler.edu/arts-administration/majors.

Graduation Requirements Common to All Undergraduate Music Degree Curricula
• The last two semesters of applied study must be earned in residence at the University.
• In most areas, students are given a choice of applied instructor, dependent upon teacher availability and approval of the chair of the School of Music.
• Each student who makes use of a University-owned band or orchestral instrument is responsible for any damage or loss. There is also a fine for unauthorized use of University-owned instruments.
• Applied upper-divisional examination: required of all music majors whose degrees require applied major study beyond the sophomore level. Students must audition for upper-level applied study during jury examinations following the fourth semester of lower-level applied study. Failure to pass the upper-divisional exam will require repetition of lower-level applied study until such time as the exam is passed; applied credits taken during this period will count as electives but will not fulfill the required applied credits. A student who does not pass the upper-divisional exam may reapply by the end of the next semester of applied study. If a student does not pass on the second attempt, the student may not complete a music degree that requires the applied upper-divisional exam. A student must have obtained upper-level status in applied music in order to present a degree- required recital. Details of the contents of this exam are available online.
• Students in a degree program that does not require an upper-divisional examination may continue to take lessons at the major level (200 level) without passing an upper-divisional examination, with the approval of the applied instructor.
• If a Butler student, regardless of major, is taking applied lessons, he or she must register for the lessons for credit and pay the appropriate applied music fee. Students may not pay a music faculty member directly for private instruction.
• Music education students are required to pass an upper-divisional examination in music education at the end of the sophomore year. Specific requirements are available online.
• Music composition students are required to pass an upper-divisional examination in composition. This is normally done at the completion of the fourth semester of composition study. Specific requirements are available online.
• Students must pass a recital hearing before presenting an instrumental or vocal degree-required recital. Details are available online.

Requirements for the Music Minor
A minor in music is available to students who are not enrolled in a music major. It consists of 24 semester hours, of which 14–16 are specified. The remaining hours are unspecified and may be taken in applied music, ensemble, music education, music history, diction, or music theory. No audition is required.

Requirements for the Jazz Studies Minor
A minor in jazz studies is available to students who are not enrolled in a music major. It consists of 26 semester hours. An audition is required.

Graduate Degree Programs
• Master of Arts in Musicology (MA)
• Master of Music in Composition (MM)
• Master of Music in Conducting (choral or instrumental) (MM)
• Master of Music in Music Education (MM)
• Master of Music in Performance (MM)
• Master of Music in Piano Pedagogy (MM)
• Master of Music Degrees with a Double Major (MM)
• Students may earn a master of music degree with a double major by combining two of the above areas. One area will be declared the primary major; the other will be the secondary major. Applicants will need to complete the relevant audition/interview for both majors.

Requirements for the Graduate Degree Programs
Requirements for the master of music degree programs are available online at www.butler.edu/music/graduate-studies.

Core Courses Offered by Music
PCA241-MU, Music in Action: The arts are a fundamental expression of the human condition, and as such, a key element in developing an understanding of cultures. This course provides both an historical overview of music and its development within Western civilization as well as an exploration of what gives music its meaning and emotional charge. Students will examine and discuss music from a variety of historical periods; attend live performances; participate in written exercises and class activities relating music to the sociocultural environment in which it was created; investigate the lives and ideas of leading composers and artists; and engage in creative projects. (U)(3) Fall & spring

Applied Music Courses
Instruction is offered in the following for either undergraduate or graduate credit for music majors: bassoon, bass clarinet, cello, clarinet, double bass, euphonium, flute, guitar, harp, harpsichord, horn, oboe, organ, percussion, piano, piccolo, saxophone, trombone, trumpet, tuba, viola, violin, and voice.
Students who are not majoring in music may study applied music as resources allow. To do so, students must complete an application requesting permission and must also be enrolled in an approved School of Music ensemble. Details are available online.

AM011, Keyboard Skills 1: Basic piano techniques, sight-reading, transposition, improvisation, theory, ear training, and repertoire analysis. For dance majors only. (U)(1) Fall

AM012, Keyboard Skills 2: Continuation of AM011. For dance majors only. Prerequisite: AM011 or consent of the instructor. (U)(1) Spring

AM013, Keyboard Skills 3: Continuation of AM012 with emphasis on harmonization, analysis of repertoire, piano ensemble, and contemporary techniques. For dance majors only. Prerequisite: AM012 or consent of the instructor. (U)(1) Fall

AM014, Keyboard Skills 4: Continuation of AM013. For dance majors only. Prerequisite: AM013 or consent of the instructor. (U)(1) Spring

AM021, Keyboard Skills 1: Basic piano techniques, sight-reading, transposition, improvisation, theory, ear training, and repertoire analysis. This course does not count toward piano requirements on degree programs. (U)(1) Fall

AM022, Keyboard Skills 2: Continuation of AM021. This course does not count toward piano requirements on degree programs. Prerequisite: AM021 or consent of the instructor. (U)(1) Spring

AM023, Keyboard Skills 3: Continuation of AM022 and AM021 with emphasis on harmonization, analysis, score reading, accompanying, transposition, piano ensemble, and contemporary techniques. This course counts toward piano requirements on degree programs. Prerequisite: AM021 or AM022 or consent of the instructor. (U)(1) Fall

AM024, Keyboard Skills 4: Continuation of AM023. This course counts toward piano requirements on degree programs. Prerequisite: AM023 or consent of the instructor. (U)(1) Spring

AM027, Jazz Keyboard Skills 1: This course is designed as an introduction to the techniques and history of jazz piano. (U)(1) Occasionally

AM028, Jazz Keyboard Skills 2: A continuation of AM027, this course is designed for further study of the techniques and history of jazz piano. Prerequisite: AM027 or permission of the instructor. (U)(1) Occasionally

AM031, Piano Major: Keyboard Skills 1: Keyboard skills for piano majors. Studies at the keyboard focusing on transposition, chord progressions, melody harmonization, sight-reading, improvisation, and score reading. (U)(1) Occasionally

AM032, Piano Major: Keyboard Skills 2: Continuation of AM031. Studies at the keyboard focusing on transposition, chord progressions, melody harmonization, sight-reading, improvisation, and score reading. Prerequisite: AM031 or permission of the instructor. (U)(1) Occasionally

AM101, Bassoon Secondary: (U)(1) Fall & spring

AM102, Clarinet Secondary: (U)(1) Fall & spring

AM103, Euphonium Secondary: (U)(1) Fall & spring

AM104, Flute Secondary: (U)(1) Fall & spring

AM105, Guitar Secondary: (U)(1) Fall & spring

AM106, Harp Secondary: (U)(1) Fall & spring

AM107, Piccolo Secondary: (U)(1) Fall & spring

AM108, Horn Secondary: (U)(1) Fall & spring

AM109, Oboe Secondary: (U)(1) Fall & spring

AM110, Organ Secondary: (U)(1) Fall & spring

AM111, Percussion Secondary: (U)(1) Fall & spring

AM112, Piano Secondary: (U)(1) Fall & spring

AM113, Saxophone Secondary: (U)(1) Fall & spring

AM114, String Bass Secondary: (U)(1) Fall & spring

AM115, Trombone Secondary: (U)(1) Fall & spring

AM116, Trumpet Secondary: (U)(1) Fall & spring

AM117, Tuba Secondary: (U)(1) Fall & spring

AM118, Viola Secondary: (U)(1) Fall & spring

AM119, Violin Secondary: (U)(1) Fall & spring
AM120, Violoncello Secondary: (U)(1) Fall & spring
AM121, Voice Secondary: (U)(1) Fall & spring
AM123, Jazz Piano Secondary: (U)(1) Fall & spring
AM124, Harpsichord Secondary: (U)(1) Fall & spring
AM125, Guitar Class 1: This course is designed for beginning guitar students with a passing knowledge of guitar playing, but no formal guitar instruction. This course will stress basic fundamentals such as hand and arm movement, chord playing, melody playing, counting, sight-reading music, and the study of a wide range of music. (U)(1) Fall
AM126, Guitar Class 2: A continuation of AM125, with emphasis on more advanced techniques. (U)(1) Spring
AM127, Voice Class 1: Basic principles of voice development and use. This class is intended for non-majors or those music majors for whom voice is not the primary instrument. Two meetings per week. (U)(1) Fall
AM128, Voice Class 2: Basic principles of voice development and use. This class is intended for non-majors or those music majors for whom voice is not the primary instrument. Two meetings per week. (U)(1) Spring
AM129, Bass Clarinet Secondary: (U)(1) Fall & spring
AM130, World Drumming Class: This course offers experiences in learning world percussion techniques and its history. Areas of percussion study include Latin-American, African, Brazilian, and Caribbean percussion; cultural history; and folklore. No previous percussion experience required; instruments will be provided. Two meetings per week. (U)(1) Fall & spring
AM150, Bassoon Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM151, Bassoon Reed Making 1: An introduction to the complete process of making German-style bassoon reeds. This hands-on course also includes an overview of available literature, various techniques of reed making, and styles of bassoon reeds. Prerequisite: Concurrent enrollment in applied bassoon. (U)(1) Fall & spring
AM152, Clarinet Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM153, Euphonium Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM154, Flute Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM155, Guitar Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM156, Harp Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM157, Piccolo Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM158, Horn Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM159, Bass Clarinet Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM160, Percussion Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM162, Piano Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM163, Saxophone Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM164, String Bass Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM165, Trombone Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM166, Trumpet Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM167, Tuba Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM168, Viola Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM169, Violin Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM170, Violoncello Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM171, Voice Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM172, Bassoon Reed Making 2: A continuation of AM151, with emphasis on advanced techniques in bassoon reed making. Prerequisite: AM151 and concurrent enrollment in applied bassoon. (U)(1) Fall
AM173, Secondary Applied Jazz Studies: Private instruction related to the jazz idiom. Meets one half-hour per week. Program of study will be determined by the needs and interests of the student. Topics may include (but are not limited to) repertoire, melodic/harmonic/rhythmic vocabulary, improvisation, style, and articulation. (U)(1) Fall & spring
AM201, Bassoon Major: (U)(2) Fall & spring
AM202, Clarinet Major: (U)(2) Fall & spring
AM203, Euphonium Major: (U)(2) Fall & spring
AM204, Flute Major: (U)(2) Fall & spring
AM205, Guitar Major: (U)(2) Fall & spring
AM206, Harp Major: (U)(2) Fall & spring
AM207, Piccolo Major: (U)(2) Fall & spring
AM208, Horn Major: (U)(2) Fall & spring
AM209, Oboe Major: (U)(2) Fall & spring
AM211, Percussion Major: (U)(2) Fall & spring
AM212, Piano Major: (U)(2) Fall & spring
AM213, Saxophone Major: (U)(2) Fall & spring
AM214, String Bass Major: (U)(2) Fall & spring
AM215, Trombone Major: (U)(2) Fall & spring
AM216, Trumpet Major: (U)(2) Fall & spring
AM217, Tuba Major: (U)(2) Fall & spring
AM218, Violin Major: (U)(2) Fall & spring
AM220, Violoncello Major: (U)(2) Fall & spring
AM221, Voice Major: (U)(2) Fall & spring
AM222, Voice Studio Class: For music and arts administration—music majors for whom voice is the principal instrument. Studio class is designed to be an adjunct to the private lesson wherein common issues such as repertoire, public performance, and career development are explored. Concurrent registration in major, principal, or secondary voice is required. (P/F)(U)(0) Fall & spring
AM226, Piano Studio Class: Weekly workshop where piano students meet as a group to share works in progress. Topics such as repertoire, performance issues, style, and interpretation are explored. Texts may be required at the discretion of the instructor. Prerequisite: Concurrent registration in AM212, AM412, or AM612. (P/F)(U)(0) Fall & spring
AM229, Bass Clarinet Major: (U)(2) Fall & spring
AM251, Bassoon Reed Making 2: A continuation of the study and practice of German-style bassoon reed-making, focusing on finishing and testing reeds. This hands-on course also includes study of available literature, various techniques of reed-making, and styles of bassoon reeds. Prerequisite: Concurrent enrollment in applied bassoon, AM151, or consent of the instructor. (U)(1) Fall & spring
AM280, Composition: Introduction to the larger musical forms from the 16th century to the present; beginning exercises and study of the problems in the use of contemporary techniques and structures. For composition majors only. Prerequisites: Concurrent registration in MT222 and MT119, or permission of the instructor. (U)(2) Fall & spring
AM293, Applied Jazz Studies: Private instruction related to the jazz idiom. Meets one hour per week. Program of study will be determined by the needs and interests of the student. Topics may include (but are not limited to) repertoire, melodic/harmonic/rhythmic vocabulary, improvisation, style, and articulation. (U)(2) Fall & spring
AM298, Instrumental Studio Class: The studio class is an important component of private applied study wherein common issues such as repertoire, public performance, and career development are explored. Offered at the discretion of the individual applied instructor. (P/F)(U)(0) Fall & spring
AM299, Upper Divisional Examination: Required of all music majors whose degrees require applied major study beyond the sophomore level. Failure to pass the exam will require repetition of sophomore-level study until the exam is passed. Examination is graded P/F by a faculty committee. (P/F)(U)(0) Fall & spring
AM300, Recital: Preparation and presentation of the required junior recital, which should be presented during the student's junior year. The recital is graded P/F by a faculty committee. Prerequisite: AM299. (P/F)(U)(0) Fall & spring
AM301, Bassoon Secondary: (U)(1) Fall & spring
AM302, Clarinet Secondary: (U)(1) Fall & spring
AM303, Euphonium Secondary: (U)(1) Fall & spring
AM304, Flute Secondary: (U)(1) Fall & spring
AM305, Guitar Secondary: (U)(1) Fall & spring
AM306, Harp Secondary: (U)(1) Fall & spring
AM307, Piccolo Secondary: (U)(1) Fall & spring
AM308, Horn Secondary: (U)(1) Fall & spring
AM309, Oboe Secondary: (U)(1) Fall & spring
AM310, Organ Secondary: (U)(1) Fall & spring
AM311, Percussion Secondary: (U)(1) Fall & spring
AM312, Piano Secondary: (U)(1) Fall & spring
AM313, Saxophone Secondary: (U)(1) Fall & spring
AM314, String Bass Secondary: (U)(1) Fall & spring
AM315, Tuba Secondary: (U)(1) Fall & spring
AM316, Trumpet Secondary: (U)(1) Fall & spring
AM317, Viola Secondary: (U)(1) Fall & spring
AM318, Violin Secondary: (U)(1) Fall & spring
AM319, Violoncello Secondary: (U)(1) Fall & spring
AM320, Voice Secondary: (U)(1) Fall & spring
AM321, Jazz Piano Secondary: (U)(1) Fall & spring
AM322, Bass Clarinet Secondary: (U)(1) Fall & spring
AM323, Bassoon Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM324, Harpsichord Secondary: (U)(1) Fall & spring
AM325, Clarinet Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM326, Euphonium Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM327, Flute Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM328, Guitar Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM329, Harp Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM330, Percussion Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM331, Saxophone Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM332, String Bass Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring
AM365, Trombone Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring

AM366, Trumpet Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring

AM367, Tuba Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring

AM368, Viola Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring

AM369, Violin Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring

AM370, Violoncello Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring

AM371, Voice Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring

AM379, Oboe Principal: Private instruction for students admitted to the BS in arts administration degree. (U)(1) Fall & spring

AM385, Music Performance Practicum: The practicum experience provides students the opportunity to discover how music can transform lives and influence mood by performing musical programs in a variety of community venues, including but not limited to hospitals, senior citizen communities, and public/private schools. A minimum of 20 hours of documented on-site activity is required. Open to all University students; non-music majors must audition for approval in order to participate. Prerequisites: Junior or senior standing or approval of the department chair. (U)(2) Fall & spring

AM393, Secondary Applied Jazz Studies: Private instruction related to the jazz idiom. Meets one half-hour per week. Program of study will be determined by the needs and interests of the student. Topics may include (but are not limited to) repertoire, melodic/harmonic/rhythmic vocabulary, improvisation, style, and articulation. (U)(1) Fall & spring

AM400, Recital: Preparation and presentation of the required graduation recital, which may be presented only during the last 32 hours in residence. The recital is graded P/F by a faculty committee. Prerequisite: AM299. (P/F)(U)(0) Fall & spring

AM401, Bassoon Major: Prerequisite: AM299. (U)(2) Fall & spring

AM402, Clarinet Major: Prerequisite: AM299. (U)(2) Fall & spring

AM403, Euphonium Major: Prerequisite: AM299. (U)(2) Fall & spring

AM404, Flute Major: Prerequisite: AM299. (U)(2) Fall & spring

AM405, Guitar Major: Prerequisite: AM299. (U)(2) Fall & spring

AM406, Harp Major: Prerequisite: AM299. (U)(2) Fall & spring

AM407, Piccolo Major: Prerequisite: AM299. (U)(2) Fall & spring

AM408, Horn Major: Prerequisite: AM299. (U)(2) Fall & spring

AM409, Oboe Major: Prerequisite: AM299. (U)(2) Fall & spring

AM411, Percussion Major: Prerequisite: AM299. (U)(2) Fall & spring

AM412, Piano Major: Prerequisite: AM299. (U)(2) Fall & spring

AM413, Saxophone Major: Prerequisite: AM299. (U)(2) Fall & spring

AM414, String Bass Major: Prerequisite: AM299. (U)(2) Fall & spring

AM415, Trombone Major: Prerequisite: AM299. (U)(2) Fall & spring

AM416, Trumpet Major: Prerequisite: AM299. (U)(2) Fall & spring

AM417, Tuba Major: Prerequisite: AM299. (U)(2) Fall & spring

AM418, Viola Major: Prerequisite: AM299. (U)(2) Fall & spring

AM419, Violin Major: Prerequisite: AM299. (U)(2) Fall & spring

AM420, Violoncello Major: Prerequisite: AM299. (U)(2) Fall & spring

AM421, Voice Major: Prerequisite: AM299. (U)(2) Fall & spring

AM422, Voice Studio Class: For music and arts administration—music majors for whom voice is the principal instrument. Studio class is designed to be an adjunct to the private lesson wherein common issues such as repertoire, public performance, and career development are explored. Prerequisite: Concurrent registration in major, principal, or secondary voice. (P/F)(U)(0) Fall & spring

AM426, Piano Studio Class: Weekly workshop where piano students meet as a group to share works in progress. Topics such as repertoire, performance issues, style, and interpretation are explored. Texts may be required at the discretion of the instructor. Prerequisite: Concurrent registration in AM212, AM412, or AM612. (P/F)(U)(0) Fall & spring
AM429, Bass Clarinet Major: Prerequisite: AM299. (U)(2) Fall & spring

AM430, Piano Teaching Practicum: Piano teaching, under supervision, in a variety of settings and levels. Prerequisite: Permission of the instructor. (U/G)(1) Fall & spring

AM440, Jazz Repertoire Proficiency Exam: Taken during the fall semester of the senior year and required of all students in the BM—jazz studies, emphasis in jazz studies, and minor in jazz studies programs. This exam is designed to ensure that each student possesses a working knowledge of relevant jazz repertoire. The exam is graded P/F by a faculty committee. (P/F)(U)(0) Fall & spring

AM450, Advanced Conducting: Advanced conducting techniques, with emphasis on style, analysis, and programming. Prerequisites: MT311 and MT321 or MT322 and permission of the department chair. (U)(2) Fall & spring

AM480, Composition: Exercises in the larger musical forms from the 16th century to the present; problems in the use of contemporary techniques and structures. For composition majors only. Prerequisites: Concurrent registration in MT422 plus six hours of AM280 and completion of MT299, or permission of the instructor. (U)(2) Fall & spring

AM481, Electronic Composition: Composition of music employing electronic means; this may include recording, sampling, sequencing, MIDI topics, and other types of electroacoustic techniques. Prerequisites: MT440 and MT441. (U)(2) Fall & spring

AM493, Applied Jazz Studies: Private instruction related to the jazz idiom. Meets one hour per week. Prerequisites: Concurrent registration in MT422 plus six hours of AM280 and completion of MT299, or permission of the instructor. (P/F)(U)(2) Fall & spring

AM494, Jazz Recital: Preparation and presentation of the required jazz recital, which should be presented during the student's final semester. The recital should demonstrate comprehensive understanding of material learned from the jazz studies curriculum. The recital is graded P/F by a faculty committee. (P/F)(U)(0) Fall & spring

AM497, Advanced Performance Study: Advanced study of performance techniques. Course requirements: minimum of two hours of practice per day beyond what is required in 400-level applied study. Typically intended for students who are preparing a senior recital or graduate school or professional auditions. Prerequisites: AM299, concurrent enrollment in 400-level applied music, and permission of the instructor. (P/F)(U)(2) Fall & spring

AM501, Bassoon Secondary: (G)(1) Fall & spring

AM502, Clarinet Secondary: (G)(1) Fall & spring

AM503, Euphonium Secondary: (G)(1) Fall & spring

AM504, Flute Secondary: (G)(1) Fall & spring

AM505, Guitar Secondary: (G)(1) Fall & spring

AM506, Harp Secondary: (G)(1) Fall & spring

AM507, Piccolo Secondary: (G)(1) Fall & spring

AM508, Horn Secondary: (G)(1) Fall & spring

AM509, Oboe Secondary: (G)(1) Fall & spring

AM510, Organ Secondary: (G)(1) Fall & spring

AM511, Percussion Secondary: (G)(1) Fall & spring

AM512, Piano Secondary: (G)(1) Fall & spring

AM513, Saxophone Secondary: (G)(1) Fall & spring

AM514, String Bass Secondary: (G)(1) Fall & spring

AM515, Trombone Secondary: (G)(1) Fall & spring

AM516, Trumpet Secondary: (G)(1) Fall & spring

AM517, Tuba Secondary: (G)(1) Fall & spring

AM518, Viola Secondary: (G)(1) Fall & spring

AM519, Violin Secondary: (G)(1) Fall & spring

AM520, Violoncello Secondary: (G)(1) Fall & spring
AM521, Voice Secondary: (G)(1) Fall & spring
AM523, Jazz Piano Secondary: (G)(1) Fall & spring
AM524, Harpsichord Secondary: (G)(1) Fall & spring
AM529, Bass Clarinet Secondary: (G)(1) Fall & spring
AM551, Bassoon Reed Making 4: Advanced study of German-style bassoon reed-making focused on making reeds for graduate-level bassoonists. This hands-on course includes study of available literature, advanced techniques of reed-making, and styles of bassoon reeds. Prerequisites: Concurrent enrollment in graduate-level applied bassoon and, AM351, or consent of instructor. (G)(1) Fall & spring
AM593, Secondary Applied Jazz Studies: Private instruction related to the jazz idiom. Meets one-half hour per week. Program of study will be determined by the needs and interests of the student. Topics may include (but are not limited to) repertoire, melodic/harmonic/rhythmic vocabulary, improvisation, style, and articulation. (G)(1) Fall & spring
AM600, Advanced Conducting: Advanced conducting techniques, with emphasis on style, analysis, and programming. (G)(2) Fall & spring
AM601, Bassoon Major: (G)(2) Fall & spring
AM602, Clarinet Major: (G)(2) Fall & spring
AM603, Euphonium Major: (G)(2) Fall & spring
AM604, Flute Major: (G)(2) Fall & spring
AM605, Guitar Major: (G)(2) Fall & spring
AM606, Harp Major: (G)(2) Fall & spring
AM607, Piccolo Major: (G)(2) Fall & spring
AM608, Horn Major: (G)(2) Fall & spring
AM609, Oboe Major: (G)(2) Fall & spring
AM611, Percussion Major: (G)(2) Fall & spring
AM612, Piano Major: (G)(2) Fall & spring
AM613, Saxophone Major: (G)(2) Fall & spring
AM614, String Bass Major: (G)(2) Fall & spring
AM615, Trombone Major: (G)(2) Fall & spring
AM616, Trumpet Major: (G)(2) Fall & spring
AM629, Bass Clarinet Major: (G)(2) Fall & spring
AM634, Advanced Keyboard Harmony: Studies at the keyboard in the realization of figured bass, melody harmonization, transposition, clefs, and advanced score reading. Prerequisites: Graduate status and permission of the instructor. (G)(1) Fall & spring
AM680, Advanced Composition: Composition in the larger musical forms, employing complex textural and formal procedures. Prerequisites: Concurrent registration in MT622 and graduate status, or permission of the instructor. (G)(2) Fall & spring
AM681, Advanced Electronic Composition: Advanced techniques in the composition of electronic music, emphasis on larger forms, computer music, production, and other advanced techniques. Prerequisites: MT440 and MT441, or consent of the instructor. (G)(2) Fall & spring

AM692, Applied Jazz Studies: Private instruction related to the jazz idiom. Meets one hour per week. Program of study will be determined by the needs and interests of the student. Topics may include (but are not limited to) repertoire, melodic/harmonic/rhythmic vocabulary, improvisation, style, and articulation. (G)(2) Fall & spring

AM698, Instrumental Studio Class: The studio class is an important component of private applied study wherein common issues such as repertoire, public performance, and career development are explored. Offered at the discretion of the individual applied instructor. Prerequisite: Concurrent registration in major, principal, or secondary applied music. (P/F)(G)(0) Fall & spring

AM709, Recital: Preparation and presentation of the required graduate recital. Applied major must be completed concurrently or earlier. The recital is graded P/F by a faculty committee. (P/F)(G)(0) Fall & spring

AM710, Conducting Recital: Recital prepared and conducted by the registrant. A document demonstrating historical research and analysis of the compositions performed is required for each registration. Recital to be graded P/F by a faculty committee. Prerequisite: Permission of the instructor. (P/F)(G)(0) Fall & spring

AM799, Final Comprehensive Exam: Required of all graduate students in performance or conducting at the end of the final semester of study. The exam is oral and will cover the major components of the student’s coursework and the final recital program. Examination to be graded P/F by a faculty committee. (P/F)(G)(0) Fall & spring

Music Ensemble Courses

Ensembles are open to all students of the University. Contact the individual directors as listed in the semester class schedule for audition requirements. Participation in concerts and other scheduled events is required of students registered for all types of vocal and instrumental ensembles. Registration levels are as follows:

- 100 numbers—first-year and sophomores
- 300 numbers—juniors and seniors
- 500 numbers—graduates

ES101, Chamber Music: (U)(1) Fall & spring

ES102, Chamber Music: Guitar: (U)(1) Fall & spring

ES103, Chamber Music: Arthur Jordan Saxophone Quartet: (U)(1) Fall & spring

ES104, Jordan Jazz: A 20-member ensemble and student organization which actively promotes vocal jazz awareness, education, and entertainment through performance in the greater Indianapolis area, workshops and clinics in the Midwest, and international tours. Membership in Jordan Jazz is open to all Butler students through annual spring auditions. (U)(1) Fall & spring

ES105, Chamber Singers: A select chamber choir specializing in a cappella repertoire or works suitable for small vocal ensemble with instrumental accompaniment. Open to all Butler students through annual spring auditions. (U)(1) Fall & spring

ES106, Chamber Music: Percussion Ensemble: A select percussion group that performs a range of styles including classical, contemporary, jazz, rock, ragtime, calypso, Latin American, African, and Brazilian music. Includes performance in steel drum ensemble, mallet ensembles, xylophone ragtime band, and world percussion groups. Performs both on and off campus. Open to students outside of the music department by audition. (U)(1) Fall & spring

ES108, New Music Ensemble: A performing group devoted to the growing literature of works for groups of mixed instruments and for voice. Registration requires the permission of the instructor. (U)(1) Fall & spring

ES110, Butler Opera Theatre: An integrated forum for the performance of music theatre in its varied forms: opera, musical theatre, operetta, and review. One full-length, staged production will be offered each year, alternating between each of the genres, with scenes programs on alternating semesters. Membership by audition, first-year or sophomore status. (U)(1) Fall & spring

ES112, Spectra: Spectra is dedicated to excellence in the learning and performance of quality choral repertoire for treble voices. Open to any Butler student of appropriate voice type through audition. Spectra performs regularly in on-campus events and in local and regional presentations. (U)(1) Fall & spring

ES116, University Symphonic Band: Open to all students by audition, the Symphonic Band studies and performs the finest in band repertoire from the Renaissance to the present. (U)(1) Fall & spring

ES117, University Choir: A choir of mixed voices, open to all University students who are interested in choral singing. (U)(1) Fall & spring

ES118, University Chorale: A select group of mixed voices limited in membership, and selected for quality of voice, musicianship, and interest. Membership by audition. (U)(1) Fall & spring

ES119, University Marching Band: Rehearsals of music and drill in connection with athletic events. Open to all University students. (U)(1) Fall

ES120, University Wind Ensemble: The premiere wind and percussion organization on campus, the Wind Ensemble is a flexible-instrumentation group dedicated to the study and performance of the finest wind repertoire of the last 500 years. Open to all students by audition, the group performs both on and off campus. (U)(1) Fall & spring

ES121, University Basketball Band: (U)(1) Spring
ES122, University Symphony: An organization with standard symphonic instrumentation performing works from traditional and contemporary literature. (U)(1) Fall & spring

ES124, Jazz Ensemble: A large jazz band of flexible instrumentation specializing in the performance of jazz, popular, and commercial music. Performances include concerts, shows, dances, ballets, and musicals. Repertoire varies from big band to small combo work. (U)(1) Fall & spring

ES127, Jazz Combo: A group that explores the repertoire for the small jazz ensemble or “combo,” emphasizing the portion of the jazz repertoire known as the “jazz standards,” with exploration of the music of Joe Henderson, Wayne Shorter, Cecil Taylor, Slide Hampton, Benny Golson, Horace Silver, and Curtis Fuller. Audition required. (U)(1) Fall & spring

ES301, Chamber Music: (U)(1) Fall & spring
ES302, Chamber Music: Guitar: (U)(1) Fall & spring
ES303, Chamber Music: Arthur Jordan Saxophone Quartet: (U)(1) Fall & spring
ES304, Jordan Jazz: A 20-member ensemble and student organization which actively promotes vocal jazz awareness, education, and entertainment through performance in the greater Indianapolis area, workshops and clinics in the Midwest, and international tours. Membership in Jordan Jazz is open to all Butler students through annual spring auditions. (U)(1) Fall & spring
ES305, Chamber Singers: A select chamber choir specializing in a cappella repertoire or works suitable for small vocal ensemble with instrumental accompaniment. Open to all Butler students through annual auditions. (U)(1) Fall & spring
ES306, Chamber Music: Percussion Ensemble: A select percussion group that performs a range of styles including classical, contemporary, jazz, rock, ragtime, calypso, Latin American, African, and Brazilian music. Includes performance in steel drum ensemble, mallet ensembles, xylophone ragtime band, and world percussion groups. Open both on and off campus. Open to students outside of the music department by audition. (U)(1) Fall & spring
ES308, New Music Ensemble: A performing group devoted to the growing literature of works for groups of mixed instruments and for voice. Registration requires the permission of the instructor. (U)(1) Fall & spring
ES310, Butler Opera Theatre: An integrated forum for the performance of music theater in its varied forms: opera, musical theatre, operetta, and review. One full-length, staged production will be offered each year, alternating between each of the genres, with scenes programs on alternating semesters. Prerequisite: Membership by audition, junior or senior status. (U)(1) Fall & spring
ES312, Spectra: Spectra is dedicated to excellence in the learning and performance of quality choral repertoire for treble voices. Open to any Butler student of appropriate voice type through audition. Spectra performs regularly in on-campus events and in local and regional presentations. (U)(1) Fall & spring
ES313, Accompanying: Practical training in accompanying through regularly scheduled class work and assigned studio participation. Prerequisite: Completion of piano class requirement or permission of the instructor. (U)(1) Fall & spring
ES316, University Symphonic Band: Open to all students by audition, the Symphonic Band studies and performs the finest in band repertoire from the Renaissance to the present. (U)(1) Fall & spring
ES317, University Choir: A choir of mixed voices, open to all University students who are interested in choral singing. (U)(1) Fall & spring
ES318, University Chorale: A select group of mixed voices limited in membership, and selected for quality of voice, musicianship, and interest. Membership by audition. (U)(1) Fall & spring
ES319, University Marching Band: Rehearsals of music and drill in connection with athletic events. Open to all University students. (U)(1) Fall
ES320, University Wind Ensemble: The premiere wind and percussion organization on campus, the Wind Ensemble is a flexible-instrumentation group dedicated to the study and performance of the finest wind repertoire of the last 500 years. Open to all students by audition, the group performs both on and off campus. (U)(1) Fall & spring
ES321, University Basketball Band: (U)(1) Spring
ES322, University Symphony: An organization with standard symphonic instrumentation performing works from traditional and contemporary literature. (U)(1) Fall & spring
ES324, Jazz Ensemble: A large jazz band of flexible instrumentation specializing in the performance of jazz, popular, and commercial music. Performances include concerts, shows, dances, ballets, and musicals. Repertoire varies from big band to small combo work. (U)(1) Fall & spring
ES327, Jazz Combo: A group that explores the repertoire for the small jazz ensemble or “combo,” emphasizing the portion of the jazz repertoire known as the “jazz standards,” with exploration of the music of Joe Henderson, Wayne Shorter, Cecil Taylor, Slide Hampton, Benny Golson, Horace Silver, and Curtis Fuller. Audition required. (U)(1) Fall & spring
ES423, Two-Piano Ensemble: Ensemble experience in a specialized field of performance. Registration is open only to juniors, seniors, and graduate students with the approval of the student's piano teacher. (U)(1) Fall & spring
ES501, Chamber Music: (G)(1) Fall & spring
ES502, Chamber Music: Guitar: (G)(1) Fall & spring
ES503, Chamber Music: Arthur Jordan Saxophone Quartet: (G)(1) Fall & spring
ES504, Jordan Jazz: A 20-member ensemble and student organization which actively promotes vocal jazz awareness, education, and entertainment through performance in the greater Indianapolis area, workshops and clinics in the Midwest, and international tours. Membership in Jordan Jazz is open to all Butler students through annual spring auditions. (G)(1) Fall & spring

ES505, Chamber Singers: A select chamber choir specializing in a cappella repertoire or works suitable for small vocal ensemble with instrumental accompaniment. Open to all Butler students through annual auditions. (G)(1) Fall & spring

ES506, Chamber Music: Percussion Ensemble: A select percussion group that performs a range of styles including classical, contemporary, jazz, rock, ragtime, calypso, Latin American, African, and Brazilian music. Includes performance in steel drum ensemble, mallet ensembles, xylophone ragtime band, and world percussion groups. Performs both on and off campus. Open to students outside of the music department by audition. (G)(1) Fall & spring

ES508, New Music Ensemble: A performing group devoted to the growing literature of works for groups of mixed instruments and for voice. Registration requires the permission of the instructor. (G)(1) Fall & spring

ES510, Butler Opera Theatre: An integrated forum for the performance of music theater in its varied forms: opera, musical theatre, operetta, and review. One full-length, staged production will be offered each year, alternating between each of the genres, with scenes programs on alternating semesters. Prerequisite: Membership by audition, graduate status. (G)(1) Fall & spring

ES512, Spectra: Spectra is dedicated to excellence in the learning and performance of quality choral repertoire for treble voices. Open to any Butler student of appropriate voice type through audition. Spectra performs regularly in on-campus events and in local and regional presentations. (G)(1) Fall & spring

ES513, Accompanying: Practical training in accompanying through regularly scheduled class work and assigned studio participation. Prerequisite: Completion of piano class requirement or permission of the instructor. (G)(1) Fall & spring

ES516, University Symphonic Band: Open to all students by audition, the Symphonic Band studies and performs the finest in band repertoire from the Renaissance to the present. (G)(1) Fall & spring

ES517, University Choir: A choir of mixed voices, open to all University students who are interested in choral singing. (G)(1) Fall & spring

ES518, University Chorale: A select group of mixed voices limited in membership and selected for quality of voice, musicianship, and interest. Membership by audition. (G)(1) Fall & spring

ES519, University Marching Band: Rehearsals of music and drill in connection with athletic events. Open to all University students. (G)(1) Fall

ES520, University Wind Ensemble: The premiere wind and percussion organization on campus, the Wind Ensemble is a flexible-instrumentation group dedicated to the study and performance of the finest wind repertoire of the last 500 years. Open to all students by audition, the group performs both on and off campus. (G)(1) Fall & spring

ES521, University Basketball Band: (G)(1) Spring

ES522, University Symphony: An organization with standard symphonic instrumentation performing works from traditional and contemporary literature. (G)(1) Fall & spring

ES523, Two-Piano Ensemble: Ensemble experience in a specialized field of performance. Registration is open only to juniors, seniors, and graduate students with the approval of the student’s piano teacher. (G)(1) Fall & spring

ES524, Jazz Ensemble: A large jazz band of flexible instrumentation specializing in the performance of jazz, popular, and commercial music. Performances include concerts, shows, dances, ballets, and musicals. Repertoire varies from big band to small combo work. (G)(1) Fall & spring

ES527, Jazz Combo: A group that explores the repertoire for the small jazz ensemble or “combo,” emphasizing the portion of the jazz repertoire known as the “jazz standards,” with exploration of the music of Joe Henderson, Wayne Shorter, Cecil Taylor, Slide Hampton, Benny Golson, Horace Silver, and Curtis Fuller. Audition required. (G)(1) Fall & spring

ES530, Independent Study: Individualized study of the student’s choice under the guidance of a music faculty member. Prerequisites: Graduate status and approval of written project proposal. (G)(1) Fall & spring

ES531, Independent Study: Individualized study of the student’s choice under the guidance of a music faculty member. Prerequisites: Graduate status and approval of written project proposal. (G)(2) Fall & spring

Music Education Courses

All music education curricula require a semester of student teaching, with the guidance of the cooperating teacher and University supervisors. Students register through the College of Education for ED425 and ED426.

ME070, Instrumental Proficiency Exam: Brass: A music education major in the instrumental emphasis or in the area degree may substitute ME070 for either ME291 or ME292. The examination contains both performance and written elements. (P/F)(U)(0) Fall & spring

ME071, Instrumental Proficiency Exam: Woodwind: A music education major in the instrumental emphasis or in the area degree may substitute ME071 for either ME391 or ME392. The examination contains both performance and written elements. (P/F)(U)(0) Fall & spring

ME072, Instrumental Proficiency Exam: String: A music education major in the instrumental emphasis or in the area degree may substitute ME072 for ME192. The examination contains both performance and written elements. (P/F)(U)(0) Fall & spring
ME101, Foundations in Music Education 1: An introduction to the field of music education and the music education program at Butler University. Class content, activities, and assignments are designed to assist students in the beginning to define their professional goals and to assess their individual qualifications for entrance into the field. On-site experiences with K–12 students are required. Additionally, students will experience basic musicianship through Dalcroze and Laban activities. (U)(2) Fall

ME102, Foundations in Music Education 2: A continuation of ME101 with additional work in instrumental and vocal techniques and conducting. Continuation of field experiences and work in Dalcroze and Laban pedagogies. (U)(2) Spring

ME160, Practicum in Music Education: Supervised observation and participation in a teaching setting with K–12 students under the supervision of an approved instructor. A minimum of 12 lab hours and a final portfolio is required. This class is repeatable for credit one time. Prerequisite: Permission of the instructor. (U)(1) Fall & spring

ME161, Practicum in Music Education: Supervised observation and participation in a teaching setting with K–12 students under the supervision of an approved instructor. A minimum of 24 lab hours and a final portfolio is required. This class is repeatable for credit one time. Prerequisite: Permission of the instructor. (U)(2) Fall & spring

ME171, Neuro-Music Practicum: Participation in an IRB-approved, field-based research setting. A minimum of 12 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (U)(1) Fall & spring

ME172, Neuro-Music Practicum: Participation in an IRB-approved, field-based research setting. A minimum of 24 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (U)(2) Fall & spring

ME173, Neuro-Music Practicum: Participation in an IRB-approved, field-based research setting. A minimum of 36 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (U)(3) Fall & spring

ME191, String Techniques 1: Teaching techniques and materials of the string group. The class includes a performance lab and will meet two days per week for 50 minutes. (U)(1) Fall

ME192, String Techniques 2: Continuation of ME191 with additional instruments and techniques. The class includes a performance lab and will meet two days per week for 50 minutes. (U)(1) Spring

ME193, Percussion Techniques: Teaching techniques and materials of percussion instruments. The class includes a performance lab and will meet two days per week for 50 minutes. (U)(1) Fall & spring

ME291, Brass Techniques 1: Teaching techniques and materials of the brass instruments. The class includes a performance lab and will meet two days per week for 50 minutes. (U)(1) Fall

ME292, Brass Techniques 2: Continuation of ME291 with additional brass instruments and techniques. The class includes a performance lab and will meet two days per week for 50 minutes. (U)(1) Spring

ME299, Music Education Upper Divisional Examination: Required of all music education majors. At the conclusion of the sophomore year, the student must submit a developmental portfolio and successfully complete an interview/audition with the music education faculty, including a piano/sight-singing proficiency exam. (P/F)(U)(0) Spring

ME311, Internship in Music: Offers the qualified student the opportunity for supervised work experience or an apprenticeship in a setting pertinent to music. Repeatable for credit one time. Prerequisites: Junior or senior standing and approval of the department chair. (U)(1–3) Fall & spring

ME325, General Music Methods: Elementary: Objectives and pedagogical approaches to music classes in elementary schools, grades K–5. Current issues and trends will be addressed in relation to state and national standards. A review of various teaching models through field experience in approved schools is required. Prerequisites: Successful completion of AM299 and ME299. (U)(3) Fall

ME326, General Music Methods: Secondary: A study of the objectives and pedagogical approaches to non-performance music classes in secondary schools, grades 6–12. Current issues and trends will be addressed in relation to state and national standards. A review of various teaching models through field experience in approved schools is required. Prerequisites: Successful completion of AM299 and ME299; corequisite: enrollment in ME424 or ME426. (U)(2) Spring

ME330, Self-Representation for Musicians: This course includes ePortfolio design and public speaking for professional musicians in training. Students complete a cloud computing project, electronic portfolio, and a variety of public speaking tasks. Learning is via individual and small-group collaboration, oral presentations, peer critiques, and multiple edits of an ePortfolio. (U)(1) Fall & spring

ME340, Digital Recording 1: This course introduces digital recording through a digital audio workstation using GarageBand and Logic Pro. Learning is via individual recording sessions, peer critique, and multiple edits. (U)(1) Occasionally

ME341, Digital Recording 2: This course is a continuation of ME340 and assumes introductory digital recording skills using a digital audio workstation, GarageBand, and Logic Pro. Learning is via live recording sessions, studio mixing, peer critique, and multiple edits. Prerequisite: ME340 or permission of the instructor. (U)(1) Occasionally

ME342, Introduction to Multimedia: This course is an introduction to multimedia authoring using iMovie and Final Cut Pro. Learning is via multimedia authoring projects, presentations, peer critiques, and multiple edits. The course requires introductory audio recording skills. (U)(1) Occasionally

ME343, Notation Software 1: This course introduces music notation through engraving using Sibelius and Finale software, a computer, and a music keyboard. Learning is via an individual project and presentation, peer critiques, and multiple edits of an engraved score. (U)(1) Occasionally
ME344, Notation Software 2: This course is a continuation of ME343 and assumes introductory music notation skills with current versions of Sibelius and Finale software, a computer, and a music keyboard. Learning is via individual composition, peer critiques of “informances,” and multiple edits. Prerequisite: ME343 or permission of the instructor. (U)(A) Occasionally

ME360, Practicum in Music Education: Supervised observation and participation in a teaching setting with K–12 students under the supervision of an approved instructor. A minimum of 12 lab hours and a final portfolio is required. By permission only. This class is repeatable for credit one time. (U)(1) Fall & spring

ME361, Practicum in Music Education: Supervised observation and participation in a teaching setting with K–12 students under the supervision of an approved instructor. A minimum of 24 lab hours and a final portfolio is required. By permission only. This class is repeatable for credit one time. (U)(2) Fall & spring

ME362, Music Practicum in the Urban School Setting: A study of urban K–12 school music settings followed by participation in a teaching setting under the supervision of an approved instructor. A minimum of 20 on-site hours and a final portfolio is required. An additional project is required for graduate students. By permission only. This class is designed to fulfill the ICR requirement of the University Core Curriculum. (U)(2) Fall & spring

ME371, Neuro-Music Practicum: Participation in an IRB-approved, field-based music research setting. A minimum of 12 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (U)(1) Fall & spring

ME372, Neuro-Music Practicum: Participation in an IRB-approved, field-based music research setting. A minimum of 24 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (U)(2) Fall & spring

ME373, Neuro-Music Practicum: Participation in an IRB-approved, field-based music research setting. A minimum of 36 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (U)(3) Fall & spring

ME380, Special Seminar: A course that addresses a specific aspect of music education. (U)(1) Fall & spring

ME381, Special Seminar: A course that addresses a specific aspect of music education. (U)(2) Fall & spring

ME382, Special Seminar: A course that addresses a specific aspect of music education. (U)(3) Fall & spring

ME391, Woodwind Techniques 1: Teaching techniques and materials of the clarinet and flute. The class includes a performance lab and will meet two days per week for 50 minutes. (U)(1) Fall

ME392, Woodwind Techniques 2: Teaching techniques and materials of the oboe, bassoon, and saxophone(s). The class includes a performance lab and will meet two days per week for 50 minutes. (U)(1) Spring

ME400, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(1) Fall & spring

ME401, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(2) Fall & spring

ME402, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(3) Fall & spring

ME407, Instrumental Pedagogy: In this course, students will develop an understanding of techniques of instrumental pedagogy, become familiar with available repertoire and teaching materials, and investigate issues related to private instruction. Requirements include written and experiential assignments, and a final paper for graduate credit. (U)(G)(1) Occasionally

ME411, Marching Band Techniques: Fundamentals and techniques needed to develop and maintain a marching band. An extra project will be required for graduate credit. (U)(G)(2) Occasionally

ME412, Vocal Pedagogy: Physiology of the human voice and its development from early childhood through adulthood. Attention to appropriate literature and exercises suitable to vocal development, vocal repair, and maintenance. Prerequisite: Junior, senior, or graduate standing, or consent of the instructor. (U)(G)(2) Occasionally

ME415, Jazz Pedagogy Practicum: Hands-on teaching experiences in the Butler Youth Jazz Program or the Butler Summer Jazz Camp. Students will work in cooperation with the director of jazz studies and lead teachers to prepare lessons and reflect on their effectiveness. Students can expect a total of 16 hours of teaching time. Prerequisite: Permission of the instructor. (U)(2) Fall & spring

ME417, Piano Pedagogy 1: An investigation of teaching materials at all levels of instruction. Information regarding studio organization and business practices. The class will include a discussion of learning styles and motivation theories. Prerequisite: Junior, senior, or graduate status, or permission of the instructor. (U)(G)(3) Occasionally

ME418, Piano Pedagogy 2: A study of keyboard performance practices in the different style eras. Consideration of interpretation in a wide cross-section of piano literature. Includes a consideration of the relevant technique and its pedagogy. Prerequisite: Junior, senior, or graduate status, or permission of the instructor. (U)(G)(3) Occasionally

ME424, Comprehensive Instrumental Music Techniques: A study of the philosophies, techniques, and materials for developing a comprehensive instrumental music program in secondary schools, grades 5–12. Practical experience teaching a laboratory band and orchestra. Prerequisites: Successful completion of AM399 and ME299; corequisites: ME325 and ME425. (U)(2) Spring
ME425, Administration of the School Music Program: This course examines the organizational skills and legal issues necessary for administering a school music program at the elementary and secondary level. Prerequisites: Successful completion of AM299 and ME299; corequisite: either ME424 or ME426. (U)(1) Spring

ME426, Comprehensive Choral Music Techniques: A study of the philosophies, techniques, and materials for developing a comprehensive choral music program in secondary schools, grades 5–12. A review of various teaching models through field experience in approved schools is required. Prerequisites: Successful completion of AM299 and ME299; corequisites: ME326 and ME425. (U)(2) Spring

ME430, E-Portfolio Capstone: This capstone and exit review addresses ePortfolio design and content commensurate with skills music students should know and do upon graduation from their respective program of study. Prerequisite: ME330. (P/F)(U)(0) Fall & spring

ME432, Kodaly and Orff in the Classroom: Materials and procedures utilizing the principles of the Kodaly and Orff approaches. An extra project will be required for graduate credit. Prerequisite: ME325. (U/G)(2) Occasionally

ME440, Technology Trends in the Arts: Student artists must develop skills for assessing new technology trends, and acquiring strategies for migrating toward those technologies while remaining artistically creative and productive with existing tools. This course examines new and trending hardware, software, and networking tools for artists. An extra project will be required for graduate credit. Prerequisites: Completion of ME330 and one additional ME technology course, or permission of the instructor (U/G)(1) Occasionally

ME444, Technology Independent Study: This independent study course examines components that extend beyond the scope of other arts technology courses. Prerequisites: Completion of ME330, one additional ME technology course, and permission of the instructor and department chair. (U)(1–3) Fall & spring

ME443, Wind Instrument Repair: Minor repairs of wind instruments. What to do and what not to attempt in repairing. (U/G)(2) Occasionally

ME452, Psychology of Music: An interdisciplinary study of music learning and effect. Perception, learning theories, and affective and physiological responses to music will be addressed. Graduate students complete more rigorous, additional assignments. (U/G)(3) Occasionally

ME460, Career Development & Entrepreneurship for Musicians: This seminar focuses on the development of entrepreneurship and business skills in the field of music. An extra project will be required for graduate credit. Prerequisite: Junior, senior, or graduate standing, or consent of the instructor. (U/G)(3) Occasionally

ME480, Music Student Teacher Seminar: Senior seminar will address issues of classroom and rehearsal management, assessment, evaluation, administrative aspects of a school music program, music in general education, music teaching techniques, and pedagogy. Corequisites: ED425 and ED426. (U)(1) Fall & spring

ME499, Honors Thesis: (U)(3) Fall & spring

ME511, History and Philosophy of Music Education: The nature of music learning throughout history, with emphasis on the aesthetic and educational philosophies that guide school music instruction. (G)(3) Occasionally

ME521, Piano Pedagogy Workshop Presentation: Presentation of a three-hour public workshop for piano teachers dealing with current pedagogical issues. Prerequisite: Graduate status or permission of the instructor. (P/F)(G)(0) Fall & spring

ME530, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisites: Graduate status and permission of the department chair and instructor. (G)(1) Fall & spring

ME531, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisites: Graduate status and permission of the department chair and instructor. (G)(2) Fall & spring

ME532, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisites: Graduate status and permission of the department chair and instructor. (G)(3) Fall & spring

ME540, Digital Recording 1: This course introduces digital recording through a digital audio workstation using GarageBand and Logic Pro. Learning is via individual recording sessions, peer critique, and multiple edits. (G)(1) Occasionally

ME541, Digital Recording 2: This course is a continuation of ME540 and assumes introductory digital recording skills using a digital audio workstation, GarageBand, and Logic Pro. Learning is via live recording sessions, studio mixing, peer critique, and multiple edits. Prerequisite: ME540 or permission of the instructor. (G)(1) Occasionally

ME542, Introduction to Multimedia: This course is an introduction to multimedia authoring using iMovie and Final Cut Pro. Learning is via multimedia authoring projects, presentations, peer critiques, and multiple edits. The course requires introductory audio recording skills. (G)(1) Occasionally

ME543, Notation Software 1: This course introduces music notation through engraving using Sibelius and Finale software, a computer, and a music keyboard. Learning is via an individual project and presentation, peer critiques, and multiple edits of an engraved score. (G)(1) Occasionally

ME544, Notation Software 2: This course is a continuation of ME543 and assumes introductory music notation skills with current versions of Sibelius and Finale software, a computer, and a music keyboard. Learning is via individual composition, peer critiques of “informances,” and multiple edits. Prerequisite: ME543 or permission of the instructor. (G)(1) Occasionally

ME560, Practicum in Music Education: Supervised observation and participation in a teaching setting with K–12 students under the supervision of an approved instructor. A minimum of 12 lab hours and a final portfolio is required. By permission only. This class is repeatable for credit one time. (G)(1) Fall & spring
ME561, Practicum in Music Education: Supervised observation and participation in a teaching setting with K–12 students under the supervision of an approved instructor. A minimum of 24 lab hours and a final portfolio is required. By permission only. This class is repeatable for credit one time. (G)(2) Fall & spring

ME560, Music Practicum in the Urban School Setting: A study of urban K–12 school music settings followed by participation in a teaching setting under the supervision of an approved instructor. A minimum of 20 on-site hours and a final portfolio is required. An additional project is required for graduate students. By permission only. This class is designed to fulfill the ICR requirement of the University Core Curriculum. (G)(2) Fall & spring

ME571, Neuro-Music Practicum: Participation in an IRB-approved, field-based music research setting. A minimum of 12 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (G)(1) Fall & spring

ME572, Neuro-Music Practicum: Participation in an IRB-approved, field-based music research setting. A minimum of 24 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (G)(2) Fall & spring

ME573, Neuro-Music Practicum: Participation in an IRB-approved, field-based music research setting. A minimum of 36 lab hours and a final portfolio is required. Repeatable for credit one time. Prerequisite: Permission of the instructor. (G)(3) Fall & spring

ME580, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music education is a factor. Essentially a research course, with students and faculty working together to collect and interpret all available material. Prerequisite: Senior or graduate status. (G)(1) Fall & spring

ME581, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music education is a factor. Essentially a research course, with students and faculty working together to collect and interpret all available material. Prerequisite: Senior or graduate status. (G)(2) Fall & spring

ME582, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music education is a factor. Essentially a research course, with students and faculty working together to collect and interpret all available material. Prerequisite: Senior or graduate status. (G)(3) Fall & spring

ME641, Technology Independent Study: This independent study course examines components that extend beyond the scope of other arts technology courses. Prerequisites: Graduate status and permission of the instructor and department chair. (G)(1–3) Fall & spring

ME759, Thesis: A scholarly paper embodying the results of the student’s research in some field of music education. (G)(3) Fall & spring

ME799, Final Comprehensive Exam: Required of all graduate students in music education or piano pedagogy at the end of the final semester of study. The exam is oral and will cover the major components of the student’s coursework and thesis, if applicable. Examination to be graded P/F by a faculty committee. (P/F)(G)(0) Fall & spring

Modern Language Diction Courses

ML206, English & Italian Diction for Singers: Phonetic training for accurate pronunciation and artistic performance of English and Italian vocal literature according to the rules governing standard stage diction/puro italiano. Training includes application of the International Phonetic Alphabet. (U)(2) Spring

ML306, German Diction for Singers: Phonetic training for accurate pronunciation and artistic performance of German lieder and operatic arias according to the rules governing Bühnen-Aussprache (German stage diction). Prerequisite: ML206 or permission of the instructor. (U)(2) Occasionally

ML308, French Diction for Singers: Phonetic training for accurate pronunciation and artistic performance of French art songs and operatic arias according to the rules governing accepted French stage diction (la diction soutenue). Prerequisite: ML206 or permission of the instructor. (U)(2) Occasionally

ML308, Graduate Lyric Diction Review: This course is designed for graduate music students majoring in vocal performance or choral conducting who have not had sufficient previous study in foreign languages/foreign language diction to pass the Graduate Foreign Language Diction proficiency exam. (G)(2) Occasionally

Music History Courses

MH111, Historical Survey of Music: An introduction to Western music, including popular and jazz music, and its comparison to non-Western folk and art music. Serious avant-garde music of the West also will be included. Prerequisite: Dance major status. (U)(3) Fall & spring

MH305, Music History and Literature 1: A study of the evolution of music from its primitive origins through the Middle Ages and Renaissance. Prerequisite: MT102 or permission of the instructor. (U)(2) Spring

MH306, Music History and Literature 2: A study of the evolution of music from the Baroque era through the Classical period. Prerequisites: MT102 and junior status, or permission of the instructor. (U)(3) Fall

MH307, Music History and Literature 3: A study of the language of music and its social meanings from the 19th century to the present. Prerequisite: MT102 or permission of the instructor. (U)(3) Spring

MH308, World Music: Basic concepts of ethnomusicology and a survey of world musics, including class performance. Music culture areas will be selected from these: Indonesia, India, Ireland, West Africa, Latin America, Egypt and the Middle East, China, and the Jewish diaspora. Prerequisite: MT102. (U)(2) Fall

ME320, Honors Thesis Preparation: This course introduces students to the professional methodologies of musicology and ethnomusicology. Students will have the opportunity to refine their writing skills and to develop the research strategies necessary to ask and answer vital questions about music. This course fulfills the departmental honors course requirement for music students enrolled in the University Honors Program. (U)(1) Occasionally
MH381, Special Seminar: A research course in music history with students and faculty working together to collect and interpret material. (U)(3) Fall & spring
MH382, Special Seminar: A research course in music history with students and faculty working together to collect and interpret material. (U)(2) Fall & spring
MH400, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(1) Fall & spring
MH401, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(2) Fall & spring
MH402, Independent Study: An opportunity for the qualified student to pursue some investigative work upon his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(3) Fall & spring
MH405, American Music: Music in the United States from the 17th century to the present. Course limited to music majors. Prerequisite: Junior, senior, or graduate standing, or permission of the instructor. (U/G)(3) Occasionally
MH407, History and Literature of Jazz: Historical development of jazz styles, from their folk origins through contemporary experimental styles. (U/G)(3) Occasionally

MH410, Final Music History Paper: The culminating project for the emphasis in music history. (P/F)(U)(0) Fall & spring
MH412, The Art Song: The rise of the art song. A study of the works of the leading composers in the idiom. Prerequisite: Junior, senior, or graduate status, or consent of the instructor. (U/G)(3) Occasionally
MH415, Piano Literature: A survey of the solo literature of the piano and its predecessors, beginning with early clavier music and continuing through Baroque, Classical, Romantic, and early 20th-century literature. Prerequisite: Junior, senior, or graduate status, or permission of the instructor. (U/G)(3) Occasionally
MH430, History and Literature of the Wind Band: Survey of the history and literature of the wind band from the Renaissance to the present. Lecture, readings, and listening assignments. Graduate students will be required to submit one additional research paper and a program notes project. (U/G)(3) Occasionally
MH440, Survey of American Musical Theatre: A history and survey of the significant repertoire and style development in American musical theatre. Students will carefully examine books, lyrics, and music of masterworks, as well as attend and critique live performances. Prerequisite: Junior, senior, or graduate standing, or consent of the instructor. (U/G)(3) Occasionally
MH441, Special Studies in Opera Literature: Examination of selected operatic literature drawn from local and regional professional-quality productions. Two or three operas will be studied in depth and experienced in live performance. Class presentations and term papers will focus on filling any historical/stylistic gaps. Prerequisite: Junior, senior, or graduate standing, or consent of the instructor. (U/G)(3) Occasionally
MH442, Special Studies in Vocal Literature: Cantata and Oratorio: Course designed to introduce students to the standard cantata and oratorio solo repertoire drawn from masterworks from the 17th through the 20th centuries. Prerequisite: Junior, senior, or graduate standing, or consent of the instructor. (U/G)(3) Occasionally
MH451, Survey of the Symphony: The evolution of the symphony from the Mannheim group to modern times. Prerequisite: Junior, senior, or graduate standing, or permission of the instructor. (U/G)(3) Occasionally
MH452, Survey of Chamber Music: Chamber music from Haydn to the present with particular consideration of the piano trio and the string quartet. Prerequisite: Junior, senior, or graduate standing, or permission of the instructor. (U/G)(3) Occasionally
MH453, History of Film Music: Survey of film music from the early 20th-century silents to the Golden Age (1923–1949), the Silver Age (1950–1980), and contemporary films. Also included are studies of music for animation (features, cartoons), 1930–1940's movie house serials, experimental films and documentaries, art films, and 20th-century European cinema (German, Italian, French, Japanese, Scandinavian). (U/G)(3) Summer
MH454, History of Rock and Roll: This course investigates the roots of rock music (minstrel shows, jazz, blues, etc.), provides an in-depth look at rock's golden age (the 1950's), and introduces a number of rock's subgenres, including the British Invasion, Motown/Soul, Heavy Metal, and Punk/New Wave. Active listening and sociological/historical perspectives are covered. (U/G)(3) Occasionally
MH499, Honors Thesis: (U)(3) Fall & spring

MH500, Topics in Early Music: Music and musical culture of the Medieval, Renaissance, and/or Baroque periods. Prerequisite: Graduate status or permission of the instructor. (G)(3) Occasionally
MH501, Topics in 18th-Century Music: Music and musical culture of the 18th century. Prerequisite: Graduate status or permission of the instructor. (G)(3) Occasionally
MH502, Topics in 19th-Century Music: Music and musical culture of the 19th century. Prerequisite: Graduate status or permission of the instructor. (G)(3) Occasionally
MH503, Topics in 20th- and 21st-Century Music: Music and musical culture of the 20th and/or 21st centuries. Prerequisite: Graduate status or permission of the instructor. (G)(3) Occasionally
MH508, Graduate Music History Review: This survey intends to ensure a master’s-level proficiency in central ideas and representative compositions from classical antiquity through contemporary concert and popular music, including jazz. (G)(3) Occasionally

MH510, Seminar in Choral Literature: This course will focus on major works for chorus and orchestra, typically one style period per semester, striving to broaden the student’s knowledge of major choral works and increase the student’s ability to communicate in a scholarly fashion about music. Weekly student presentations, a term paper, and final oral presentation are required. Prerequisite: Graduate status or permission of the instructor. (G)(3) Spring

MH520, Research in Music: An introduction to the special problems involved in musical research and a survey of methods and materials available. Throughout the semester, students will be expected to complete specific research assignments. Prerequisite: Graduate status. (G)(3) Fall

MH530, Independent Study: Individualized study of the student’s choice under the guidance of a music faculty member. Prerequisites: Graduate status and approval of written project proposed. (G)(1) Fall & spring

MH531, Independent Study: Individualized study of the student’s choice under the guidance of a music faculty member. Prerequisites: Graduate status and approval of written project proposed. (G)(2) Fall & spring

MH532, Independent Study: Individualized study of the student’s choice under the guidance of a music faculty member. Prerequisites: Graduate status and approval of written project proposed. (G)(3) Fall & spring

MH580, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music history and literature are factors. Essentially a research course, with students and faculty working together to collect and interpret all available material. Prerequisite: Senior or graduate status. (G)(1) Fall & spring

MH581, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music history and literature are factors. Essentially a research course, with students and faculty working together to collect and interpret all available material. Prerequisite: Senior or graduate status. (G)(2) Fall & spring

MH582, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music history and literature are factors. Essentially a research course, with students and faculty working together to collect and interpret all available material. Prerequisite: Senior or graduate status. (G)(3) Fall & spring

MH729, Thesis: A scholarly paper in some field of music history and literature. Prerequisite: Graduate status. (G)(3) Fall & spring

MH790, Final Comprehensive Exam: Required of all graduate students in music history at the end of the final semester of study. The exam is oral and will cover the major components of the student’s coursework and thesis. Examination to be graded P/F by a faculty committee. (P/F)(G)(0) Fall & spring

**Music Theory Courses**

MT099, Music Fundamentals Intensive: An intensive study of music theory fundamentals presented in a compressed timeframe of approximately one week. Offered in summers only. Topics include notation, scales, intervals, chords, and ear training, including the use of the keyboard. Will not count towards the music major. Credit is not given for both MT099 and MT100. (U)(1) Summer

MT100, Elements of Music: A basic course in music theory fundamentals involving notation, scales, intervals, chords, and ear training, including the use of the keyboard. Will not count towards the music major. Credit is not given for both MT099 and MT100. (U)(3) Spring

MT101, Theory 1: An introduction to the principles of music analysis, including functional harmony, part writing, and form. Prerequisite: Completion or concurrent enrollment in MT099 or MT100, placement by examination, or permission of the instructor. (U)(3) Fall

MT102, Theory 2: An introduction to the principles of music analysis, including functional harmony, part writing, and form. Prerequisite: Completion or concurrent enrollment in MT101, or permission of the instructor. (U)(3) Spring

MT111, Aural Skills 1: Singing, writing, and auditory recognition of melodic and harmonic materials, melodies, and rhythms. Prerequisite or corequisite: MT101. (U)(1) Fall

MT112, Aural Skills 2: Continuation of MT111. Prerequisites or corequisites: MT111 and MT102. (U)(1) Spring

MT119, Introduction to Composition: A basic introduction to composition through the study and imitation of selected composers and styles. Technique, craftsmanship, and attention to artistic and practical detail are emphasized through weekly assignments and a final, large chamber composition. For composition majors only. Prerequisite: Permission of instructor; corequisite: MT222. (U)(3) Fall

MT201, Theory 3: Advanced theory including counterpoint, chromatic harmony, and 20th-century analysis. Prerequisites or corequisites: MT102 and MT111. (U)(3) Fall

MT202, Theory 4: Advanced theory including counterpoint, chromatic harmony, and 20th-century analysis. Prerequisites or corequisites: MT201 and MT112. (U)(3) Spring

MT211, Aural Skills 3: Singing, writing, and auditory recognition of more complex melodic, harmonic, and rhythmic material. Prerequisites or corequisites: MT112 and MT201. (U)(1) Fall

MT212, Aural Skills 4: Continuation of MT211. Prerequisites or corequisites: MT211 and MT202. (U)(1) Spring

MT222, Composition Seminar: A course where student composers can present their works for peer critique, faculty can present major contemporary musical works for analysis, and visiting guest composers can present their works. Corequisite: MT119, AM280, AM480, or AM680. (U)(1) Fall & spring
MT244, Jazz Improvisation: A practical course in the development of improvisational skills, as well as the concepts necessary in the jazz tradition. Prerequisite: MT202. (U)(2) Occasionally

MT299, Upper Divisional Examination—Composition: Required of all BM and BA music majors whose degrees require music composition study beyond the sophomore level. Failure to pass the exam will require a change of major to a non-composition related music or non-music degree. Examination is graded P/F by a faculty committee. (P/F)(U)(0) Spring

MT307, Choral Arranging: Arranging folk songs and art songs for the various combinations of voices available in the school and professional fields; choral effects; accompaniment writing. Prerequisite: MT202. (U)(2) Spring

MT308, Orchestration: Ranges, transposition, color, and technical nature of the orchestral instruments; basic principles of orchestral writing; texture and balance of standard orchestral combinations. Prerequisite: MT202. (U)(3) Fall

MT311, Basic Conducting: The fundamentals of conducting, including the basic beat patterns and the accepted methods of indicating meter, tempo, volume, and style. Prerequisite: MT202. (U)(2) Fall

MT317, Counterpoint: Contrapuntal techniques from late Renaissance through the 20th century. Selected representative composers will be included, with emphasis on the works of J. S. Bach. Prerequisite: MT202. (U)(3) Occasionally

MT319, Introduction to Composition: An introduction to the techniques of composition, with emphasis on writing smaller forms in both traditional and contemporary styles. For non-composition majors only. Prerequisite: MT202 or permission of the instructor. (U)(3) Fall

MT321, Instrumental Conducting: The fundamentals of instrumental conducting, with emphasis on style and interpretation. Prerequisite: MT311. (U)(2) Spring

MT322, Choral Conducting: The fundamentals of vocal conducting, including choral techniques, voice testing, diction, rehearsal techniques, and program building; emphasis on style and interpretation of choral music. Prerequisite: MT311. (U)(2) Spring

MT333, Jazz Theory and Ear Training: This course will focus on understanding jazz improvisation and composition through the study of harmony, chord and scale function, form, rhythm, meter, and articulation. Transcribed solos and compositions by jazz masters will be studied. Development of aural skills will also be emphasized. Prerequisite: MT102. (U)(2) Occasionally

MT339, Jazz Arranging: Practical study of the techniques of arranging for small and large ensembles in jazz style, including instruments, notation, form, voicing, and part and score preparation. Prerequisite: MT333. (U)(2) Occasionally

MT380, Special Seminar: A research course in music theory, with students and faculty working together to collect and interpret available material. (U)(1) Fall & spring

MT381, Special Seminar: A research course in music theory, with students and faculty working together to collect and interpret available material. (U)(2) Fall & spring

MT382, Special Seminar: A research course in music theory, with students and faculty working together to collect and interpret available material. (U)(3) Fall & spring

MT400, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(1) Fall & spring

MT401, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(2) Fall & spring

MT402, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(3) Fall & spring

MT408, Composition Recital: Preparation and presentation of the required graduation recital, which may be presented only during the last 32 hours in residence. This recital is to be approved four weeks prior to performance; performance of student's original composition(s) to be graded P/F by a faculty committee. (P/F)(U)(0) Fall & spring

MT409, Final Composition Project: The culminating project for the emphasis in composition. (P/F)(U)(1) Fall & spring

MT410, Final Music Theory Paper: The culminating project for the emphasis in music theory. (P/F)(U)(1) Fall & spring

MT413, Form and Analysis: A concise review of forms and procedures viewed as dynamic processes. Approaches to analytical problems, techniques, and methods of presenting the results of an analysis. May also serve as remediation for graduate students. Prerequisite: MT202 or permission of the instructor. (U/G)(3) Spring

MT421, Professional Topics in Music Composition: An introduction to professional skills necessary for composers, including knowledge of copyright, publishing, publicity, collection of royalties, and grant writing skills. An extra project will be required for graduate credit. (U/G)(1) Occasionally

MT422, Composition Seminar: A course where student composers can present their works for peer critique, faculty can present major contemporary musical works for analysis, and visiting guest composers can present their works. Corequisites: MT119, AM280, AM480, or AM680. (U)(1) Fall & spring

MT440, Introduction to Electronic Music: Introduction to the topic of electronic music, its history, its underlying principles and science, and an introduction to composing music in a recording studio. Basic editing, musique concrete, and synthesis are emphasized. Prerequisite: MT202 or consent of the instructor. (U/G)(2) Fall & spring
MT441, Advanced Electronic Music: Continuation of MT440; advanced topics focus on compositional techniques, advanced computer sequencing, interactive media composition, and some theatrical sound design. Prerequisite: MT440. (U/G)(2) Spring

MT499, Honors Thesis: (U)(3) Fall & spring

MT503, Graduate Choral Conducting Seminar: For students in the first year of the MM degree in choral conducting. The course considers techniques and resources for the advanced choral conductor, with an emphasis on developing an advanced gestural vocabulary that is effective, efficient, and clear. Additional emphasis is placed upon comprehensive score reading/study, rehearsal techniques, error detection, and vocal/choral pedagogy. Throughout the year, students will study representative works from the major style periods. Prerequisite: Two or more semesters of undergraduate conducting experience (choral or instrumental), or permission of the instructor. (G)(2) Fall & spring

MT508, Graduate Music Theory Review: This course provides practice with basic analytic principles in application to music from the Baroque era to the present. Emphasis is given to review of harmonic and formal conventions of the common-practice era, with some attention to post-tonal repertoire and other areas of review as may be needed. Prerequisite: Graduate status or permission of the instructor. (G)(0) Fall & spring

MT509, Analysis of Music Since 1900: Discussion of fundamental trends in musical structure and new tonality, such as those of Debussy, Schoenberg, Stravinsky, Bartok, Copland, the avant-garde, and minimalism. Prerequisite: Graduate status or permission of the instructor. (G)(3) Occasionally

MT510, Analysis of Tonal Music: Introduction to and practice with analytic techniques appropriate for tonal music. Includes attention to Schenkerian analysis, rhythmic theories, and generative theories of Fred Lerdahl and others. Prerequisite: Graduate status or permission of the instructor. (G)(3) Occasionally

MT513, Analysis in Relation to Performance: A study of musical structure as a basis for understanding the content and presentation of standard literature. Prerequisite: Graduate status or permission of the instructor. (G)(3) Spring

MT530, Independent Study: Individualized study of the student's choice under the guidance of a music faculty member. Prerequisites: Graduate status and approval of written project proposed. (G)(3) Fall & spring

MT531, Independent Study: Individualized study of the student's choice under the guidance of a music faculty member. Prerequisites: Graduate status and approval of written project proposed. (G)(2) Fall & spring

MT532, Independent Study: Individualized study of the student's choice under the guidance of a music faculty member. Prerequisites: Graduate status and approval of written project proposed. (G)(3) Fall & spring

MT550, Pedagogy of Music Theory: Philosophies of theory instruction and a discussion of the nature of the theory curriculum as well as of musicianship goals, methods, and texts. Includes practice teaching, observation, and curriculum design. (G)(3) Spring

MT625, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music theory is a factor. This is essentially a research course, with students and faculty working together to collect and interpret available material. Prerequisite: Senior or graduate status. (G)(1) Fall & spring

MT626, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music theory is a factor. This is essentially a research course, with students and faculty working together to collect and interpret available material. Prerequisite: Senior or graduate status. (G)(2) Fall & spring

MT627, Special Seminar: Work in the special seminar shall be centered on any specific problem wherein advanced music theory is a factor. This is essentially a research course, with students and faculty working together to collect and interpret available material. Prerequisite: Senior or graduate status. (G)(3) Fall & spring

MT628, Advanced Graduate Choral Conducting Seminar: For students in the second year of the MM degree in choral conducting. The course meets concurrently with MT509, solidifying students' understanding of the topics considered, and broadening their knowledge of repertoire and styles. Typically, this course is taken concurrently with AM600. Prerequisite: Two semesters of MT509, or permission of the instructor. (G)(2) Fall & spring

MT622, Composition Seminar: A course where student composers can present their works for peer critique, faculty can present major contemporary musical works for analysis, and visiting guest composers can present their works. Corequisite: MT119, AM280, AM480, or AM680. (G)(1) Fall & spring

MT708, Composition Recital: Preparation and presentation of the required graduate recital. Performance of student's original composition(s) to be graded P/F by a faculty committee. (P/F)(G)(3) Spring

MT709, Thesis: Composition: An original composition in one of the larger forms. (P/F)(G)(3) Fall & spring

MT709, Final Comprehensive Exam: Required of all graduate students in composition or music theory at the end of the final semester of study. The exam is oral and will cover the major components of the student's coursework and the thesis. Examination to be graded P/F by a faculty committee. (P/F)(G)(3) Fall & spring

Why Study Theatre?

- Butler University is a fully accredited institutional member of the National Association of Schools of Theatre.
- Butler theatre students develop their own voices through rigorous study and collaborative practice. We prepare students to push the boundaries of theatre and integrate their theatre training into purposeful lives.
- With the practical conditions for theatre artists constantly evolving, the Butler University Department of Theatre offers students the experience, skills, and initiative to navigate a rapidly changing environment and pursue their aspirations with determination and purpose. Butler Theatre's distinctive, collaborative work extends beyond the curriculum, offering a depth and breadth of research, practice, and experience.
- The curriculum is designed to educate the whole person and to prepare future theatre artists to enter and transform the field or apply knowledge, communication, and problem-solving skills regardless of their eventual profession. Within the frame of Butler University's liberal arts education, our practice-based, international tradition surpasses a conventional academic approach, bringing students into dialogue with extraordinary artists and institutions worldwide.
- Complementing a faculty of international professionals, the department maintains relationships with significant guest artists, the Indiana Repertory Theatre, the Phoenix Theatre, and the Indianapolis Shakespeare Company. We continue a unique partnership with the Moscow Art Theatre School, as well as study programs at destinations around the world.
- The Chrystel DeHaan Visiting International Theatre Artist Program is a unique and exciting program that connects Butler students with prominent theatre artists from around the world.
- Our goal is to contribute to a community of citizen artists who are broadly and rigorously prepared to work effectively and innovatively across artistic approaches, venues, and technologies, and by extension to engage in the continuing conversation about what it means to be human.

Theatre Student Learning Outcomes

- Demonstrate proficiency in theatre processes, including play analysis, performance, technologies, design, and directing
- Demonstrate the ability to apply theatre processes in production
- Demonstrate an understanding of theatre in relationship to historical and contemporary contexts, as well as its historical and contemporaneous relationship to other art forms
- Demonstrate an understanding of the collaborative nature of theatre
- Demonstrate the ability to assess quality in works of theatre

Degree Programs

- Bachelor of Arts in Theatre (BA)
- Bachelor of Science in Arts Administration—Theatre (BS)
- Minor in Theatre

Requirements for the Major

Applicants are admitted to the program on the basis of academic acceptance by the University and an audition or portfolio presentation and an interview. The BA in theatre requires completion of 124 credit hours. In addition to the University Core Curriculum, the student takes courses in the analysis, history, technique, and production of theatre. The BS in arts administration—theatre requires completion of 128 credit hours including business, administration, and theatre courses. For detailed degree requirements, see www.butler.edu/theatre/major-minor.

Requirements for the Minor

The minor in theatre requires 24 credit hours in theatre, 11 of which are stipulated, with the remaining hours selected from a list of theatre courses. No audition is required.

Additional Information

Alpha Psi Omega, Omicron Cast is the Butler chapter of the National Theatre Honorary Dramatic Society.
Auditions for mainstage productions are limited to majors. Any Butler student may audition for student-directed productions.
Core Courses Offered by Theatre

PCA250-TH, Masks: This course introduces students to a variety of theatrical masking traditions, and explores mask work through participation in the design, creation, and studio exploration of masks for performance. Study will incorporate readings, research, classroom discussion, design and performance analysis, and the creation of three wearable masks. No prior experience in performance or design is required. (U)(3) Spring

PCA251-TH, Theatre Experienced Through the Human Body: The purpose of this course is for the student to undertake the study of the role of body and movement in theatre performance, and by extension gain a greater understanding of the theatrical art. The student will engage in a variety of activities that could include experiential learning; attending and assessing theatrical performances; and practical studies and exercises, readings, writing, analyzing, and discussing the role of the human body and movement in theatre and all human exchange. A background in theatre is not at all necessary; a willingness to commit to personal exploration and to participate in performance practices in the studio is a must. (U)(3) Fall

PCA252-TH, Fashioning Identity: A History of Dress: This course introduces selected periods from fashion history as inspiration for the design process. Students will examine the role of clothing and appearance in creating individual and cultural identity through readings, observations, and research. Aesthetics of beauty, fashion, anti-fashion, gender, religion, body modification, cultural heritage, and fashionable technology are avenues for exploration in this creative expression of who we are. (U)(3) Occasionally

PCA253-TH, The Scriptwriter’s Perspective: This course focuses on the fundamentals of scriptwriting, including the elements of effective storytelling and proper formatting. The primary coursework entails writing a full-length script (a play, screenplay, or teleplay), while exploring and refining one’s own unique perspective, voice, artistic approach, and potential contribution regarding the art of scriptwriting. (U)(3) Fall

PCA255-TH, Theatre: Actor’s Perspective: Students will learn about the actor’s process through a series of acting exercises culminating in performance. Visiting artists will contextualize the students’ acting work as it relates to other aspects and forms of theatre. Acting experience is not necessary, but a willingness to participate during each class session is! (U)(3) Occasionally

TI270-TH, The American Family in Drama: The course will examine various views of family relationships through the study of American plays from the 20th and early 21st centuries. (U)(3) Fall

Theatre Courses

TH100, Professional Theatre Practices: Development of professional rehearsal, performance, and production techniques and discipline. Enrollment in this course is required of first-year and sophomore students in the theatre program. The course must be successfully completed four times to meet graduation requirements in the theatre major. Open to theatre majors only. (F/F)(U)(1) Fall & spring

TH110, Introduction to Acting: Scene study including basic techniques of performance, with experience in preparation and presentation. (U)(3) Fall & spring

TH111, Acting 1: This foundational, experiential course introduces students to the basic principles and theories of acting. Open to theatre majors only. (U)(3) Fall

TH112, Acting 2: This foundational, experiential course continues the exploration of the basic principles and theories of acting introduced in TH111. Open to theatre majors only. Prerequisite: TH111. (U)(3) Spring

TH113, Idea of Theatre: Introductory foundation course exploring the theories and practices of theatre and theatre-related activities, with a particular focus on the Indianapolis community. Required of all theatre majors and minors. Open to non-majors. Satisfies the ICR requirement. (U)(3) Fall

TH123, Stage Makeup: This course introduces the student to the fundamentals of makeup application for stage. Weekly projects include research, analysis, documentation of design plan, application, and evaluation. Emphasis is on defining the face as part of a character through understanding of research, materials, and techniques. Open to theatre majors and minors or by permission of the instructor. (U)(3) Spring

TH200, Production Fundamentals: Introduction to the study and practice of theatrical production. Exploration of the interrelationship of theatrical production design and technology to performance. Laboratory experience included. Open to theatre majors and minors only. (U)(2) Fall

TH201, Stage Movement I: Foundation course addressing the actor’s body as the primary instrument and movement as a discreet element in training performance. Included studies: physical alignment, articulation, coordination, and kinesthetic ability, preparation, relaxation, availability, and concentration techniques for actors. Open to theatre majors only or by permission of the instructor. (U)(2) Fall & spring

TH202, Voice for the Actor 1: Vocal production techniques for theatrical performance, with an emphasis on the speaking voice. Open to theatre majors only or by permission of the instructor. (U)(2) Spring

TH203, Voice for the Actor 2: Vocal production techniques for theatrical performance, with an emphasis on the speaking voice. Prerequisite: TH202. (U)(2) Fall

TH208, Text Analysis: Foundational course focusing on approaches to reading plays analytically for the purpose of stage presentation. This course will introduce and teach specific techniques for text analysis as an initial step in the process of theatre production. Open to theatre majors and minors only or by permission of the instructor. (U)(3) Spring

TH210, Movement Theatre Studio: This course focuses on the study of physical practices and techniques for the stage actor, including the continuation of studies from TH201: physical articulation, locomotion, coordination, and character and text integration for actors. The course will include skill-based studies, movement improvisation, and movement composition. Open to theatre majors only or by permission of the instructor. Prerequisite: TH201 (U)(2) Fall & spring

TH213, Acting 3: Development of analysis, preparation, and performance skills in acting, with an emphasis on character study and ensemble acting for modern and contemporary theatre. Prerequisites: TH111 and TH112. (U)(3) Fall
TH220, Stage Management: This course introduces students to the skills and techniques employed by the professional stage manager. Open to theatre majors only, or by permission of the instructor. (U)(2) Fall & spring

TH231, Stagecraft: Planning, construction, and painting of scenery for the theatre. Instruction in drafting, hand and power tools, and light industrial fabrication techniques. Laboratory component included. Open to theatre majors and non-majors. Prerequisite: TH200 or permission of the instructor. (U)(3) Occasionally

TH232, Stage Lighting 1: Study and application of the principles of lighting for the stage: properties of light, control of light, and effect of light upon the play. Prerequisites: TH200 and TH208. (U)(3) Fall & spring

TH233, Costume Technologies 1: For majors and anyone interested in costume construction. Prerequisite for Internship in Costume. Course includes fabric preparation, reading a pattern, cutting a project, basic construction skills, standard finishing techniques. Both lab and wardrobe crew hours included. Prerequisite: TH200 or permission of the instructor. (U)(3) Spring

TH300, Professional Theatre Practice: Development of professional rehearsal, performance, and production techniques and discipline. Enrollment in this course is required of juniors or seniors in the theatre program. This course must be successfully completed four times to meet graduation requirements in the theatre major. Open to theatre majors only. (P/F)(U) Fall & spring

TH302, Voice for the Actor 3: Advanced vocal production technique, with an emphasis on a variety of topics including the International Phonetic Alphabet, speech, and dialects. Prerequisites: TH200 and TH203. (U/G)(3) Occasionally

TH314, Acting 4: Analysis of verse structure of Shakespeare and his contemporaries, with application in language usage through performance. Prerequisites: TH111, TH112, and TH213. Limited to theatre majors or by permission of the instructor. This course carries Speaking across the Curriculum credit. (U)(3) Spring

TH322, History of Theatre 1: Development of early European theatre and drama from antiquity to Moliere. (U)(3) Fall

TH323, History of Theatre 2: Development of American theatre and drama from the colonial period to 1917 and the rise of the art theatre. (U)(3) Spring

TH324, Survey of Historical Costume: An historical survey of dress and how it relates to theatrical costuming. This course counts toward the theatre major elective requirement. (U)(3) Spring, alternate years

TH325, Costume Design: This course introduces the qualities, tools, and process of design. We study the visual elements of design, their place in theatrical productions, and our responses to them. Students will do script and character analysis and research, make design choices, render, and present their work. Open to theatre majors only. Prerequisites: TH200 and TH208. (U)(3) Fall & spring

TH326, Advanced Makeup Projects: Creating and executing makeups involving advanced and complex techniques. Prerequisite: TH123. (U)(3) Spring

TH330, Theatre Graphics: Drafting and rendering techniques for scenic and lighting design. Development of theatrical designs through ground plans, front elevations, and working and line drawings. Consideration of both manual and CAD techniques. Prerequisites: TH200, TH231, and TH232. (U)(2) Spring

TH331, Scenography: This course is a project-based course designed to guide the student through the process of designing for the stage. We will cover script analysis, research, and the different ways the Scenographer communicates their vision. Prerequisites: TH200 and TH208. (U)(3) Fall & spring

TH360, Museum Theatre Studies Seminar: Museums utilize theatre techniques as a means of presenting materials to their constituencies. Increasingly, museums are turning to theatre artists for assistance in bringing their collections, artworks, and artifacts to life. This course will focus on giving students the ability to adapt and apply theatre techniques for use in the museum setting. Open to theatre majors and minors only, by permission of the instructor. (U)(3) Occasionally

TH371, International Theatre Practices Seminar: Work in the seminar shall be centered on specific international theatre practices. Open to theatre majors only. (U)(1) Occasionally

TH372, International Theatre Practices Seminar: Work in the seminar shall be centered on specific international theatre practices. Open to theatre majors only. (U)(2) Occasionally

TH380, Special Seminar: Work in the seminar shall be centered on any specific problem wherein theatre or drama is a factor. Open to theatre majors only. (U)(1) Fall & spring

TH381, Special Seminar: Work in the seminar shall be centered on any specific problem wherein theatre or drama is a factor. Open to theatre majors only. (U)(2) Fall & spring

TH382, Special Seminar: Work in the seminar shall be centered on any specific problem wherein theatre or drama is a factor. Open to theatre majors only. (U)(3) Fall & spring

TH383, Dramatic Literature 1: The course will investigate significant dramatic works from the major periods of Western playwriting activity. Open to theatre majors only. Prerequisite: Junior or senior status. (U)(3) Fall

TH400, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Open to theatre majors only, by permission of the department chair and instructor. (U)(1) Fall & spring
TH401, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Open to theatre majors only, by permission of the department chair and instructor. (U)(2) Fall & spring

TH402, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Open to theatre majors only, by permission of the department chair and instructor. (U)(3) Fall & spring

TH405, Senior Capstone in Theatre: The purpose of this course is to prepare theatre majors for future careers in a variety of theatre and theatre-related fields and to provide a capstone experience for theatre majors that utilizes and contextualizes their undergraduate education. Prerequisite: Senior standing as a theatre major. (U)(3) Fall

TH410, Acting Seminar 1: Advanced study in one acting technique. Open to theatre majors only. Prerequisite: Junior or senior status. (U)(3) Fall & spring

TH411, Stage Directing 1: Techniques necessary for the direction of plays on primarily the proscenium stage: composition, picturization, pantomimic dramatization, rhythm, and movement. Directorial techniques required for arena theatre, three-quarter, and thrust stage also will be considered. Prerequisites: Junior status and TH111, TH112, TH208, TH232, and TH331. (U)(3) Fall

TH412, Stage Directing 2: The selection and interpretation of plays for production; casting, the rehearsal period, and conduct of the rehearsal; and the director's responsibility and relationship to the cast, the crew, and the audience. Prerequisite: TH411. (U)(3) Spring

TH414, Seminar in Theatre Management: An introductory study of managerial functions and practices in theatre arts. Prerequisite: Junior or senior standing. (U)(3) Fall

TH416, Acting Seminar 2: In-class preparation and presentation of major plays, with emphasis on character study, development, and execution. Ensemble acting is stressed. Prerequisite: Junior or senior standing. (U)(3) Fall & spring

TH422, History of Theatre 3: Development of European theatre and drama from the English Restoration to World War 1. (U)(3) Occasionally

TH423, History of Theatre 4: Development of American theatre and drama from the immediate post-World War I era to the new millennium. (U)(3) Occasionally

TH424, History of Theatre 5: Development of European theatre and drama in the 20th century. (U)(3) Occasionally

TH426, Playwriting and Screenwriting: Writing for theater and film. Primary goals will be to learn scriptwriting fundamentals and to explore one's own style and voice as a writer. Students of all writing experience are welcome. (U)(3) Fall

TH482, Special Seminar: Work in the seminar shall be centered on any specific problem wherein theatre or drama is a factor. Open to theatre majors only. (U)(3) Fall & spring

TH495, Internship in Theatre: Professional internship with Equity theatres and other organizations under the supervision of departmental faculty and the staff of the designated theatre. Open to theatre majors only. (U)(0) Fall & spring

TH496, Internship in Theatre: Professional internship with Equity theatres under the supervision of departmental faculty and the staff of the designated theatre. Normally requires 10 hours per week. Open to theatre majors only. (U)(3) Fall & spring

TH498, Internship in Theatre: Professional internship with Equity theatres and other organizations under the supervision of departmental faculty and the staff of the designated theatre. Normally requires 20 hours per week. Open to theatre majors only. (U)(6) Fall & spring

TH499, Honors Thesis: Open to theatre majors only. Prerequisite: Approval of the instructor. (U)(3) Fall & spring

College Website
www.butler.edu/ccom

The College of Communication (CCOM) was founded in 2010 and is currently Butler’s fastest growing college. CCOM features a strong liberal arts foundation, outstanding facilities, and impressive internship opportunities. The College's faculty and staff are committed to helping students realize their full potential as communicators, journalists, media artists, and, most of all, engaged citizens. All of CCOM's nine majors blend rigorous curricula with abundant experiential learning opportunities.

The College's coursework is thus theoretical and applied, providing the conceptual grounding for lifelong learning and career success.

Mission
The Butler University College of Communication prepares students for success in our digital age and global society. Our curricular structure reflects the centrality of communication as a basic human right in society. Students learn to analyze, synthesize, speak, write, and create meaningful, socially responsible messages across dynamic communication contexts and media platforms. Our innovative, experiential approach to discipline-based education ensures that graduates can excel in their chosen professions or postgraduate study. The strong grounding in liberal arts ensures that our graduates are well prepared for civic engagement and to provide leadership in their careers and communities.

College Requirements for Graduation
To fulfill graduation requirements, students must complete 126 credit hours; complete a minimum of 40 hours at the 300 course level or above; complete the College of Communication core requirements (see below for details); complete required courses in the selected major; complete required courses for a major, minor, or 12-hour concentration outside of the primary major; and maintain a minimum cumulative GPA of 2.0.

College of Communication Core Requirements
COM101, Rhetoric and the American Democratic Tradition: This course provides a foundation in the study of rhetoric, including the construction, performance, and analysis of rhetorical acts. Students will learn the rhetorical canon (invention, arrangement, style, memory, and delivery) and how the canon applies to the democratic tradition. (U)(3) Fall, spring, & summer

SW266-COM, Media Literacy: This course is an exploration of the cultural implications of electronic media. Through systematic analysis of the grammar of mediated messages, students develop sensitivity to and a critical understanding of the interplay between popular culture and electronic media, i.e., how mediated messages influence our lifestyles, attitudes, and values and reflect who we are. (U)(3) Fall, spring, & summer
One course designated Communication and Culture from the list below:

- CSD338, Language and Culture
- JR417, Global Media
- JR418, Gender and News: Global Views
- CCM354, Gender and Communication
- CCM356W, Media and Cultural Criticism
- CCM476, Film, Culture, and Criticism
- CCM491, Technologies of the Body
- CCM468, Women and Rock
- CCM470, Sports, Media, and Culture
- CCM330, Representations of Race and Difference
- CCM420, Queering Film
- CCM482, Voices of Dissent and Social Change
- ORG359, Intercultural Communication
- STR405, Global Strategic Communication

Foreign Language Requirement

Students in the College of Communication must demonstrate competence in a foreign language by earning at least six hours of credit in one foreign language at the 200 level or above. Foreign language courses are offered at the 100 level for students in need of preparation for more advanced study. Although 100-level courses do not satisfy the foreign language requirement, they do count as credit hours toward the degree. All first-year students must take a placement examination. Further information is available in the Department of Modern Languages, Literatures, and Cultures in the College of Liberal Arts and Sciences. American Sign Language also fulfills the language requirement. Students should contact the Communication Sciences and Disorders Program for more information.

Why Study Communication Sciences and Disorders?

The ability to communicate is one of our greatest human gifts. It is a fundamental human right and plays a central role in the dignity and value of human life. The remarkable ability to communicate allows us to realize our human potential and to connect with other people. Problems with communication have a great impact on all aspects of life. The Communication Sciences and Disorders (CSD) Program at Butler is dedicated to educating students so that they may assist those who experience communication disorders.

Why Study Communication Sciences and Disorders at Butler?

Our students receive a strong foundation in basic courses that prepares them for success in graduate school. Our students have had outstanding success in gaining admission into prestigious and competitive graduate programs throughout the United States. Our undergraduate students have many opportunities for experiential learning. Students provide treatment for speech and language disorders through the Butler University Speech-Language
In addition, students engage in research and teaching activities with faculty mentors.

Finally, the CSD degree at Butler leads to high-demand careers in speech-language pathology, audiology, and speech science.

Communication Sciences and Disorders Student Learning Outcomes

- Demonstrate foundational knowledge of the biological, physical, and social sciences, mathematics, and cultural diversity
- Demonstrate knowledge of normal structures, processes, and development needed for the human communication system
- Demonstrate foundational knowledge about ethical issues and research methods in communication sciences and disorders
- Observe and study various communication disorders and basic treatment strategies
- Demonstrate knowledge required for acceptance into a communication sciences and disorders graduate program

Degree Program

- Major in Communication Sciences and Disorders (BA)

Requirements for the Major

The major comprises 36 credit hours, of which 27 hours are in required CSD courses. (All required courses are 3 credit hours.)

- CSD231, Introduction to Communication Sciences and Disorders
- CSD240, Phonetics
- CSD232, Language Development
- CSD233, Anatomy and Physiology of Speech and Hearing
- CSD234, Speech Science
- CSD235, Phonological Development and Disorders
- CSD236, Fundamentals of Audiology
- CSD36W, Communication Research Methods
- CSD485C, Capstone: Ethics and Professional Development

Electives: 9 credit hours

- CSD238S, American Sign Language III*
- CSD239S, American Sign Language IV*
- CSD237, Clinical Procedures
- CSD238, Language and Culture
- CSD359, Linguistics
- CSD360, Communication Science Practicum
- CSD369, Community Screening Practicum
- CSD397, CSD398, CSD399, Directed Research in Communication Disorders
- CSD401, CSD402, CSD403, Independent Study
- CSD404, CSD405, Internship
- CSD413, Aural Rehab
- CSD436, Neurogenic Communication Disorders
- CSD437, Language Disorders in Children
- CSD460, Butler Aphasia Community
- CSD475, Teaching Practicum in CSD
- CSD480, CSD481, Topics in CSD (fluency disorders, voice disorders, medical SLP, advanced study in aphasia)

* Elective credit only if not taken to fulfill LAS language requirement

Communication Sciences and Disorders Courses

CSD138, American Sign Language 1: An introduction to the language of signs and finger spelling. Receptive and expressive skills emphasized. The course will present stories, poems, and readings that exist in deaf culture. (U)(3) Fall

CSD139, American Sign Language 2: A continuation of CSD138. An introduction to the language of signs and finger spelling. Receptive and expressive skills emphasized. The course will present stories, poems, and readings that exist in deaf culture. Prerequisite: CSD138. (U)(3) Spring

CSD231, Introduction to Communication Sciences and Disorders: Introduction to the field of communication sciences and disorders, which includes phonetics, speech science, speech-pathology, and audiology. Common speech and language disorders, their causes, treatment, and general clinical procedures will be covered. (U)(3) Fall & spring

CSD238, American Sign Language 3: Emphasis on competency in signing, both receptive and expressive. Use of videos to gain insight into deaf culture. Prerequisite: CSD138, CSD139, or equivalent. (U)(3) Fall

CSD239, American Sign Language 4: A continuation of CSD238. Emphasis on competency in signing, both receptive and expressive. Use of videos to gain insight into deaf culture. Prerequisite: CSD238. (U)(3) Spring
CSD240, Introduction to Phonetics: An introduction to the study of the sounds of spoken language, this course will focus on articulatory, acoustic, linguistic, and clinical phonetics. Accurate transcription of the English language using the International Phonetic Alphabet will be emphasized. This course will serve as an important foundation for future coursework in both normal and disordered speech processes. In keeping with the liberal arts and sciences tradition, this course will take a scientific approach to various aspects of human communication. (U)(3) Spring

CSD332, Language Development: Major theoretical approaches to language acquisition, the perspectives and nature of language, normal and abnormal language behavior, and basic management will be considered. Prerequisite: CSD240. (U)(3) Spring

CSD333, Anatomy and Physiology of Speech and Hearing: Introduction to the anatomical and physiological bases of the speech and hearing mechanisms. (U)(3) Fall

CSD334, Speech Science: The physical characteristics of speech sounds and psychophysical processes involved in speech and hearing. (U)(3) Spring

CSD335, Phonological Development and Disorders: Phonological development and speech characteristics are the focus. Testing and management of disorders will be discussed. Prerequisite: CSD240. (U)(3) Fall

CSD336, Fundamentals of Audiology: Introduction to the field of audiology, including the study of the physiology and pathology of the human ear. Rehabilitation management will be discussed. Prerequisites: CSD332 and CSD334. (U)(3) Spring

CSD337, Clinical Procedures: Introduction to therapy, with emphasis upon behavioral observation, description of behavior, good planning, cause-effect relationships, and clinical interaction. Prerequisites: CSD332 and CSD335. (U)(3) Fall & spring

CSD339, Linguistics: Linguistics is the systematic study of language from its sounds (phonetics and phonology), words (morphology), and sentences (syntax), to its meaning (semantics). In addition to examining language itself, this course will cover aspects of language use such as language change, and the role of language in society. (U)(3) Spring

CSD356, Communication Research Methods: Introduces students to the application of social science and quantitative methodology for communication research. Work includes problem analysis, research design, data collection, data analysis, and scientific writing. Prerequisites: CSD majors only; junior or senior standing, or permission of the instructor. (U)(3) Fall

CSD360, CSD Clinical Practice: Laboratory practice in the diagnosis and treatment of speech and language disorders. Prerequisites: Cumulative GPA of 3.0, minimum grade of B in CSD337, and completed 25 hours of observation, or permission of the instructor. (U)(3) Fall & spring

CSD363, Communication Screening Practicum-SL: This course focuses on speech, language, and hearing assessment of preschool and school-age children. Students will learn to administer speech and language screening tests, pure-tone audiometric testing, and impedance audiometry. Students will develop professional behaviors, including collaboration and scheduling with teachers and administrators, collecting accurate data, and interacting appropriately with young children. In addition, students will be able to apply classroom knowledge in evaluating typical and disordered communication skills. This course will include an introduction to speech and hearing screening instruments, community work, weekly journal entries, and a follow-up evaluation, which will provide feedback about developing clinical skills. This course is a combination of lecture/discussion and practicum. The students will average about three hours of classroom discussion and four hours of practicum. Prerequisites: Minimum cumulative GPA of 3.0, minimum grade of B in CSD355, and minimum grade of B in CSD363, or permission of the instructor in consultation with the department chair. (U)(3) Fall & spring

CSD397, Directed Research in Com. Disorders: This course provides an opportunity to gain hands-on research experience. Students earn course credit as they engage in directed research with communication faculty. Activities may include data collection, data analysis, and/or presentation of results. May be repeated to six hours total. Prerequisite: Permission of the instructor. (U)(1) Fall & spring

CSD398, Directed Research in Com. Disorders: This course provides an opportunity to gain hands-on research experience. Students earn course credit as they engage in directed research with communication faculty. Activities may include data collection, data analysis, and/or presentation of results. May be repeated to six hours total. Prerequisite: Permission of the instructor. (U)(2) Fall & spring

CSD399, Directed Research in Com. Disorders: This course provides an opportunity to gain hands-on research experience. Students earn course credit as they engage in directed research with communication faculty. Activities may include data collection, data analysis, and/or presentation of results. May be repeated to six hours total. Prerequisite: Permission of the instructor. (U)(3) Fall & spring

CSD401, Independent Study: An opportunity for the qualified student to pursue a topic of special interest. Prerequisite: Permission of the department head. (U)(1) Fall & spring

CSD402, Independent Study: An opportunity for the qualified student to pursue a topic of special interest. Prerequisite: Permission of the department head. (U)(2) Fall & spring

CSD403, Independent Study: An opportunity for the qualified student to pursue a topic of special interest. Prerequisite: Permission of the department head. (U)(3) Fall & spring

CSD433, Aural Rehabilitation: The study of theoretical bases for rehabilitative audiology and principles of clinical application for pediatric and adult populations. Prerequisite: CSD336. (U)(3) Fall

CSD436, Neurogenic Communication Disorders: An investigation of the neurological processes involved in communication disorders. Includes aphasia and cerebral palsy. Prerequisite: Junior or senior standing or permission of the instructor. (U)(3) Spring

CSD437, Language Disorders in Children: Description and diagnosis of various language disorders in children and procedures for therapeutic management. Prerequisite: CSD332. (U)(3) Fall
CSD439, Communication Sciences & Disorders Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall, spring, & summer

CSD440, Communication Sciences & Disorders Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall & spring

CSD441, Communication Sciences & Disorders Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall & spring

CSD460, Butler Aphasia Community: Students gain classroom knowledge and clinical experience with adults who have aphasia. Prerequisites: CSD337 and CSD460. (U)(3) Fall & spring

CSD475, Teaching Practicum in CSD: Qualified students work with faculty on the development and presentation of the course curriculum. Student responsibilities may include preparation and organization of course materials, management of small-group projects, assistance with class discussion, and tutoring. Prerequisites: Junior or senior standing, satisfactory completion of the course for which student will be assisting, and permission of the instructor. (U)(3) Fall & spring

CSD481, Topics in Communication Science Disorders: An in-depth study of a particular topic in the field of communication chosen from the areas represented by the upper-division courses in the department. (U)(3) Fall & spring

CSD485, Capstone: Ethics & Professional Development: A capstone course for majors in Communication Sciences & Disorders (CSD). In this course students will read about and discuss professional issues and ethics. They will prepare a portfolio of their undergraduate work which will be suitable for submission with graduate program applications. (U)(3) Fall

CSD499, Honors Thesis: (U)(3) Fall & spring

Creative Media and Entertainment

Administration
Christine Taylor, MA, Department Chair

Department Website
www.bu.edu/creative-media-entertainment

The Creative Media and Entertainment Program offers majors in digital media production, recording industry studies, and web development and design. Each major is designed to prepare graduates for a life in their profession, offering real-world experience and industry-focused coursework. In addition, CME contributes faculty and courses to the major in sports media.

Degree Programs

• Major in Digital Media Production (BA)
• Major in Recording Industry Studies (BA)
• Major in Web Development and Design (BA)
• Minor in Digital Media Production
• Minor in Recording Industry Studies
• Minor in Web Development and Design

Digital Media Production

Why Study Digital Media Production?
Digital media production is integral to the world of entertainment, sports, and communication. Studying digital media production from theoretical, aesthetic, and applied approaches provides the knowledge needed to move content from pre-production planning to finished communication product. You will learn to distribute your content across multiple platforms, and to make educated decisions about the strengths of each platform. That decision-making process includes consideration of your audience and how the content can be best structured to reach that audience on the media devices they use. Digital media production students draw on creative abilities within the course curriculum structure to build skills and apply knowledge that translates to the professional world.

Why Study Digital Media Production at Butler?
Butler provides the small class size and quality faculty that allow students to work collaboratively from their first year of study. The production lab spaces and equipment are updated on a regular cycle so students get access to hardware and software that keep close pace with industry changes. Students can engage in multiple internship and practical co-curricular experiences that provide feedback about their progress in developing professional skills and knowledge. Additionally, students benefit from Butler’s location within Indianapolis and proximity to all media and corporate venues a city of this size offers.

CME212, Writing for Electronic Media

CME215, Video Editing

CME219, Design for the Web

CME305, Documentary Style Production

CME306, Multimedia Design and Production

CME315, Advanced Editing

CME410, Directing the Narrative

CME452, Entertainment Media and the Law

CME457, Media Project Design and Management

Total hours for the minor: 19

Recording Industry Studies

Why Study the Recording Industry?

The business of popular music is an important, specialized component of the larger entertainment and communication industries. It is an exciting time to be involved in this ever-changing field in which new opportunities regularly arise. By studying the recording industry, you will gain the professional edge while preparing for an exciting and rewarding career.

Why Study the Recording Industry at Butler?

Butler’s Recording Industry Studies (RIS) Program is designed to prepare students for managing a wide spectrum of creative enterprises. RIS majors will learn to transform their talents and dedication into marketable skills required by music publishers, radio, performing rights organizations, talent agencies, record labels, concert promoters, and venues. Butler’s RIS program provides creative preparation to nurture industry-specific competencies while simultaneously providing multiple experiential opportunities. RIS majors learn about the many facets of the business that drive popular music today, including varied career paths, multiple revenue streams, media law, and production. Students engage in internships, volunteer opportunities, and community partnerships in which they put into practice the knowledge and skills gained from start to finish in their studies. Throughout their time in the program, students interact with industry professionals and have access to professional equipment and work spaces. Students can complete their RIS degree with an impressive résumé, work examples of which they can be proud, and a valuable network of industry contacts. It is our goal to graduate students who are prepared to be tomorrow's leaders in an ever-evolving music business.

Recording Industry Studies Student Learning Outcomes

Exhibit an ability to find, synthesize, and evaluate information applicable to CME disciplines

Demonstrate an understanding of the links between aesthetics and creating messages appropriate to the audience, purpose, and context of the communication

Demonstrate a mastery of the technologies required by CME disciplines

Demonstrate the ability to work effectively in collaboration with others
Requirements for the Major

- CME107, Music Skills for the Recording Industry
- CME109, Survey of the Recording Industry
- CME201, Audio Production
- CME220, Audio Lab Remote Lab
- CME222, History of the Recording Industry
- CME252, Theories and Techniques of Sound Recording
- CME320, Internet Radio or MS100 Basic Excel Skills for Business
- CME352, Business Aspects of the Recording Industry
- CME360, Recording Industry Studies Practicum
- CME440, CME Internship
- CME452, Entertainment Media and the Law
- CME460, Recording Industry Studies Capstone (Operations) or CME461, Recording Industry Studies Capstone (Label & Publishing)

Related Required Course

- MK280, Introduction to Marketing

One course from the following list:

- EC231, Principles of Microeconomics
- MT440, Electronic Music
- AC203, Introduction to Accounting

Total hours required for graduation: 126

Requirements for the Minor

- CME109, Survey of the Recording Industry
- CME201, Audio Production
- CME222, History of the Recording Industry
- CME352, Business Aspects of the Recording Industry

Directed Electives (6 credit hours)

- CME107, Music Skills for the Recording Industry
- CME220, Audio Lab (Remote)
- CME252, Theories and Techniques of Sound Recording
- CME320, Audio Lab (Internet Radio)
- CME440, Internship in CME
- CME452, Entertainment Media and the Law
- CME460, Recording Industry Capstone (Operations)
- CME461, Recording Industry Capstone (Label & Publishing)

Web Development and Design

Why Study Web Development and Design?

In today’s digital world, the web is everywhere. Every business needs a web presence, and that presence must be accessible for a variety of digital devices. Students will learn to design, develop, and implement a variety of websites and web applications that can be viewed on smart phones, tablets, computers, and televisions. As this digital landscape continues to change, so does our program. We constantly evaluate the wants and needs of the industry and employers to provide students with the best education for today’s marketplace.

Why Study Web Development and Design at Butler?

Butler offers a unique opportunity for students by combining both web design and development into our degree. Students will learn all aspects of web development, from conceptual wireframes and interaction design all the way through to the development and implementation of their final product. This combination allows students to fill a variety of web jobs, becoming a versatile asset in the industry. Students benefit from Butler’s location within Indianapolis, providing many internship opportunities in the web field.

Web Development and Design Student Learning Outcomes

- Exhibit an ability to find, synthesize, and evaluate information applicable to CME disciplines
- Demonstrate an understanding of the links between aesthetics and creating messages appropriate to the audience, purpose, and context of the communication
- Demonstrate a mastery of the technologies required by CME disciplines
- Demonstrate the ability to work effectively in collaboration with others

Requirements for the Major

- CME106, Survey of Digital Media
- CME142, Introduction to Computer Science and Programming
- CME208, Multimedia Graphics
- CME219, Design for the World Wide Web
- MKT280, Principles of Marketing
- CME306, Multimedia Design and Production I
- CME308, Interaction Design
- CME219, Advanced Web Development
- CME219, Interactive Web Development
- CME222, New Media Distribution
- CME452, Entertainment Media and the Law
- CME457, Media Project Design and Management

Total hours required for graduation: 126

**Requirements for the Minor**

- CME208, Multimedia Graphics
- CME219, Design for the World Wide Web
- CME306, Multimedia Design and Production I
- CME308, Interaction Design

Directed Electives (9 credit hours; 2 courses at 300 level or higher)

- CME106, Survey of Digital Media
- CS142, Introduction to Computer Science and Programming
- MKT280, Principles of Marketing
- CME319, Advanced Web Development
- CME419, Interactive Web Development
- CME422, New Media Distribution
- CME452, Entertainment Media and the Law

Total hours for the minor: 21

**Creative Media and Entertainment Courses**

CME102, Media Aesthetics and Basic Studio Production Technique: This course touches on the principles of applied media aesthetics as well as studio production technique. Students will be introduced to concepts of composition, color theory, lighting, and sound and apply that knowledge in practical studio production situations. Additionally, students will engage in producing, directing, and editing show content. (U)(4) Fall & spring

CME106, Survey of Digital Media: An introduction to the history, concepts, techniques, and trends in digital media. This course introduces the student to the world of multimedia creation and its foundational principles. Students also learn to use some of the basic tools of digital media. Prerequisite: Digital media production major or minor, sports media major, journalism major, or permission of the instructor. (U)(3) Fall & spring

CME107, Music Skills for Recording Industry Studies: An introductory course in music theory for the recording industry studies major. Specific topics include commercial music styles, music notation, melody, rhythm, chords, and basic aural and keyboarding skills as they apply to the recording industry. Prerequisite: MT100 or successful completion of a music theory placement exam. (U)(3) Fall

CME109, Survey of the Recording Industry: An introduction to the music industry, this course will include its current state and where it may be headed in the near future. (U)(3) Fall

CME130, Production Lab: Students participate in labs supporting the development of programming for distribution by the department. (U)(1) Fall & spring

CME201, Audio Production: This course will cover the basics of audio theory and its application. Students will be introduced to a studio environment. Prerequisite: CME major or minor, or permission of the department chair. (U)(3) Fall & spring

CME208, Multimedia Graphics: Students are introduced to concepts and principles of graphic design. Students will explore graphic editing, optimizing, and preparing images for media-based delivery. Projects are designed to further refine visual thinking and build upon basic constructs through applied projects. Prerequisites: CME major or minor and CME106, or permission of the department chair. (U)(3) Fall & spring

CME211, The Auteur Director: The auteur theory suggests that the greatest cinema is a result of the personal vision of one person, the director. This course examines the career of a specific director. Students view selected films from the director's works and study particular auteur characteristics. (U)(3) Occasionally

CME215, Fundamentals of Videography and Video Editing: This course introduces the student to videography and video editing. Shooting and editing concepts and practice will be combined with discussion of aesthetics. Prerequisite: CME102, CME106, or permission of the department chair. (U)(3) Fall & spring

CME229, Design for the World Wide Web: The course focuses on concepts and techniques of creating elements of a website, posting the site to the web, and maintenance of the site. Prerequisite: CME major or minor, or permission of the instructor. (U)(3) Fall

CME220, Audio Lab: Independent Study: This lab is designated as an opportunity for students who have completed CME201 to record audio in the field and prepare it for final distribution. Prerequisites: RIS major or minor and CME201. Non-majors must have permission of the instructor. (U)(1) Fall & spring

CME222, History of the Recording Industry: This course examines the development of the technology, business practices, rise and decline of the major record labels, emergence of digital recording, and significance of the musical styles, genres, and historical figures important in the development of the recording industry. (U)(3) Fall

CME252, Theories & Techniques of Sound Recording: The second audio production course. Emphasis on developing critical listening skills, microphone techniques, outboard gear, and digital and analog recording. Prerequisite: CME201 or permission of the instructor. (U)(3) Spring
CME290, Seminar in Creative Media and Entertainment: A group or individual study of the problems, achievements, and opportunities in the fields of digital production, web design and development, or recording industry studies. The class may include lecture, discussion, written testing, and/or projects. The various assessment techniques will be designed so students can demonstrate their ability to synthesize and apply knowledge in the fields of creative media and entertainment. Prerequisites: Sophomore standing and major or minor in CME or sports media, or permission of the instructor. (U)(3) Annually, term varies

CME300, Honors Special Project: Preparation for honors thesis proposal. Taken in conjunction with any 300- or 400-level CME course. Students' independent inquiry that goes beyond current course curriculum and individualized interactions with instructors are encouraged. Fulfills program area honors course requirement. Prerequisite: Junior honors status. (P/F)(U)(3) Fall & spring

CME302, Video Production 2: Advanced remote production techniques, including graphics, lighting, and production of program material. Prerequisites: CME102 and CME106 or permission of the instructor. (U)(3) Spring

CME305, Documentary Style Production Theory and Technique: The focus of this course is on theory, techniques, and aesthetics of single camera storytelling. Students will learn how to properly use the camera, microphones, and lights on location to produce compelling nonfiction stories using audio and video and other electronic tools. The techniques and aesthetics involved in post-production will also be covered. Prerequisites: CME102, CME106, and CME215 or permission of the department chair. (U)(3) Fall

CME306, Multimedia Design & Production I: This course will introduce the student to the concepts, techniques, and trends in multimedia creation. Students will learn some of the basic tools used in multimedia authoring to meet the producer's communication goals. Prerequisite: CME219 or permission of the instructor. (U)(3) Fall

CME308, Interaction Design: This course will examine the history of web usability and accessibility principles and the psychology behind them. Students will create effective and compliant websites and implement these guidelines and principles by conducting usability study. Students will also review and analyze case study examples. Prerequisite: CME219. (U)(3)

CME311, Genres in Cinema: This course examines specific styles, movements, and periods in the history of cinema. One specific genre will be studied during the course of an entire semester. (U)(3) Occasionally

CME315, Advanced Video Editing: This course continues to develop concepts, techniques, and principles introduced in CME215. Prerequisites: CME102, CME106, and CME215. (U)(3) Spring

CME319, Advanced Web Development: Building upon the principles learned in the previous web development class (CME219), students will learn how to code webpages to do client-side processes to ease the strain of server-side processing through the use of variables, functions, statements, and libraries, making sites much more responsive to the user. Prerequisite: CME219. (U)(3) Fall

CME320, Audio Production Lab: This lab is the advanced audio production lab. Options may include remote recording and internet radio. Prerequisites: CME201 and CME220. (U)(1) Fall & spring

CME330, Production Laboratory: Students participate in labs supporting the development of programming for distribution by the department. (U)(1) Fall & spring

CME352, Business Aspects of the Recording Industry: This course will give students the opportunity to expand upon their knowledge of recording industry business trends and practices. Topics to be covered include copyright, music publishing, performing rights organizations, royalties, agents/managers, and contracts. Prerequisite: CME109 or permission of the instructor. (U)(3) Spring

CME353, Audio for Video and Television: Practical applications of all aspects of sound from pre- to post-production, location sound, boom audio and live miking techniques, to music editing and sound design. Prerequisites: CME201, CME252, and CME352. (U)(3) Spring

CME354, Advanced Audio Production: This course will give students the opportunity to expand upon their knowledge and experience with recording, editing, mixing, and mastering of projects, including the use of DAWs (digital audio workstations). Prerequisite: CME252 or permission of the instructor. (U)(3) Annually, term varies

CME360, Recording Industry Practicum: Students will work in groups to write, perform, produce, record, and mix original content for Indianapolis-based nonprofit organizations. The material produced will be suitable for student portfolio use. Part of the class will also be devoted to résumés, interviewing, and finding employment after graduation. Prerequisites: CME201 and CME320. (U)(1) Fall & spring

CME390, Seminar in Creative Media and Entertainment: A group or individual study of the problems, achievements, and opportunities in the fields of digital production, web design and development, or recording industry studies. The class may include lecture, discussion, written testing, and/or projects. The various assessment techniques will be designed so students can demonstrate their ability to synthesize and apply knowledge in the fields of creative media and entertainment. Prerequisite: Junior standing. (U)(3) Annually, term varies

CME400, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(1) Fall & spring

CME401, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(2) Fall & spring

CME402, Independent Study: An opportunity for the qualified student to pursue some investigative work on his or her own initiative. Prerequisite: Permission of the department chair and instructor. (U)(3) Fall & spring

CME410, Directing the Narrative: Explores the translation of the written script to screens both large and small. Topics for discussion include the evolving role of the director in the creative process, the impact of emerging technologies on the craft, and the business of filmmaking. Students will utilize skills acquired
in CME102, CME106, CME215, CME305, and CME315 in the production of a substantial final project. Prerequisites: Junior standing and CME215. Non-majors must also have permission of the department chair. (U)(3) Spring

CME419. Interactive Web Development: This course builds off previous courses to create interactive web applications. Subject matter will include technologies that allow asynchronous page updates using JavaScript, XML, and other similar technologies. Prerequisites: CME308 and junior standing or permission of the instructor. (U)(3) Spring

CME422. New Media Distribution: This course is an introduction to rich internet applications. Topics include development and deployment of web and mobile applications across many platforms. Prerequisites: CME308 and junior standing or permission of the instructor. (U)(3) Spring

CME432. Law and Regulation of Electronic Media: A study of the laws, regulations, and policies affecting the electronic media, including broadcasting, cable, and developing electronic media. Prerequisite: Senior standing. Non-majors must also have permission of the program director. (U)(3) Fall

CME439. Creative Media and Entertainment Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(1) Fall, spring, & summer

CME440. Creative Media & Entertainment Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall & spring

CME441. Creative Media & Entertainment Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(6) Fall, spring, & summer

CME452. Entertainment Media & the Law: A survey of the major legal and business issues encountered by professionals in the entertainment industry. Cases and problems will address intellectual property, music licensing, and other issues related to recording, film, broadcasting, and new media. Prerequisite: Senior standing. Non-majors must also have permission of the program director. (U)(3) Spring

CME457. Digital Media Project Design & Management: This course builds the foundation for creating and authoring digital media for all delivery systems through successful planning and project management. This course guides the student through the development process, project design, and management that would be followed with any client when developing a communication plan involving the use of multimedia communication. This is a capstone course, designed to put to practice all the concepts and skills of a student into a focused, professional-grade project. For DMP, sports media, and web development and design majors only. DMP prerequisite: CME305 or CME410; sports media prerequisite: JR335; web development and design prerequisite: CME308. (U)(3) Spring

CME460, RIS Capstone—Advanced Audio Production: In this portfolio-building capstone course, students will be granted the opportunity to apply advanced microphone theory and techniques as well as advanced signal processing and mixing techniques while working in small groups to produce, engineer, and mix songs by Butler record label artists. Prerequisites: CME352 and CME360. (U)(3) Spring

CME461, RIS Capstone—Record Label & Music Publishing Operations: In this capstone course, senior recording industry studies students gain experience and make industry contacts through the Butler record label and music publishing company. Topics include how sound recordings and compositions are exploited; how royalties are generated, collected, and distributed; and finding and signing talent. Prerequisites: CME352 and CME360. (U)(3) Spring

CME490, Seminar in Creative Media & Entertainment: A group or individual study of the problems, achievements, and opportunities in the fields of digital production, web design and development, or recording industry studies. The class may include lecture, discussion, written testing, and/or projects. The various assessment techniques will be designed so students can demonstrate their ability to synthesize and apply knowledge in the fields of creative media and entertainment. Prerequisites: Junior or senior standing, and CME major or minor, sports media major, or permission of the instructor. (U)(3) Annually, term varies

CME499, Honors Thesis: (U)(3) Fall & spring

**Why Study Critical Communication and Media Studies at Butler?**

The CCM program at Butler is a unique interdisciplinary program that combines perspectives from critical theory, media studies, and rhetoric—fields of study that complement each other but are often separated in more traditional communication programs. As such, the program serves as a showcase for synergy. This innovative program highlights the spirit of a liberal arts education in partnership with preparation for a variety of exciting careers related to media and communication, as well as graduate or law school. The program provides a bridge that enables students to infuse practice with theory, and activism with scholarship, to demonstrate a commitment to social justice and diversity. Faculty are an enthusiastic group of well-published teacher-scholars, who are active in research and scholarship and who frequently present their work at national and international conferences. CCM students will have the opportunity to work closely with these faculty members on teaching or research.
Critical Communication and Media Studies Student Learning Outcomes

• Acquire skills in and demonstrate systematic and innovative inquiry into the production, reception, and circulation of public and mass-mediated communication
• Demonstrate an understanding of historical, theoretical, and critical perspectives as they apply to a variety of public and mass-mediated messages
• Interpret, evaluate, and critique the symbolic and shared processes of meaning making
• Analyze how identity and power affect communication globally and locally
• Develop an appreciation of the value of communication to promote community engagement and social justice
• Demonstrate the ability to advocate appropriately and effectively in professional and public contexts

Degree Programs

• Major in Critical Communication and Media Studies (BA)
• Major in Critical Communication and Media Studies (BA) with a Film Concentration
• Minor in Critical Communication and Media Studies
• Minor in Film Studies

Requirements for the Major

The following courses are required:

- SW266-COM, Media Literacy
- CCM310, Media and Cultural Theory or CCM315, Rhetorical Theory
- CCM398, Argumentation and Advocacy
- CCM465, Communication and Cultural Criticism or CCM352, Rhetorical Criticism
- CCM482, Voices of Dissent and Social Change
- JR417, Global Media or JR418, Gender and News: Global Views

Four courses from the following electives:

- CCM308, History of Film
- CCM330, Representations of Race and Difference
- CCM354, Gender and Communication
- CCM368, Media and Politics
- CCM376, Film, Culture, and Criticism
- CCM420, Queering Film
- CCM430, Rhetoric of Horror Films
- CCM462, Influence in Public Culture
- CCM463, Freedom of Speech and Democracy
- CCM468, Women and Rock
- CCM470, Sports, Media, and Culture
- CCM481, Technologies of the Body

Requirements for the Major with a Film Concentration

The following courses are required:

- SW266-COM, Media Literacy
- CCM310, Media and Cultural Theory or CCM315, Rhetorical Theory
- CCM398, Argumentation and Advocacy
- CCM465, Communication and Cultural Criticism or CCM352, Rhetorical Criticism
- CCM482, Voices of Dissent and Social Change
- JR417, Global Media or JR418, Gender and News: Global Views
- CCM308, History of Film
- CCM330, Representations of Race and Difference
- CCM376, Film, Culture, and Criticism
- CCM420, Queering Film
- CCM430, Rhetoric of Horror Films

Requirements for the Minor

The minor consists of 18 hours. The following four courses are required:

- SW-COM266, Media Literacy
- CCM310, Media and Cultural Theory or CCM315, Rhetorical Theory
- CCM398, Argumentation and Advocacy
- CCM465, Media and Cultural Criticism or CCM352, Rhetorical Criticism
- Two courses from any 300- or 400-level courses listed as part of the major
Requirements for the Film Studies Minor

The following courses are required:

- CCM308, History of Film
- CCM376, Film, Culture & Criticism

Film Analysis and Theory (choose three):

- CCM420, Documentary Film & Culture
- CCM390, Representations of Race & Difference
- CCM420, Queering Film
- CCM430, Rhetoric of Horror Films
- CME311, Genres in Cinema
- EN393/394, Special Topics in Film

The Liberal Arts Through Film (choose one):

- AN326, Youth Conflict and Global Cinema
- GR360, German Film
- HST349, U.S. History Through Film
- MH452, History of Film Music
- PO384, Politics Through Film
- SP360, Hispanic Film
- TI234-HST, Real America

Critical Communication and Media Studies Courses

CCM290, Topics: An in-depth study of a particular topic in the field of media, rhetoric, and culture. May be repeated when topics change. (U)(3) Fall & spring

CCM308, History of Film: A survey of the cinema from its birth in 1895 to the present, examining the medium from artistic, cultural, and business perspectives. The course will look at noted personalities, at seminal films, and at both American and foreign movies. Readings, lecture and discussion, exams, and viewing of numerous film clips. (U)(3) Fall

CCM310, Media & Cultural Theory: This course surveys the development of mass communication and cultural theory and current trends in the field. Prerequisite: Sophomore or above or permission of the instructor. (U)(3) Fall

CCM315, Rhetorical Theory: This course examines key theories and theoretical debates within rhetorical studies. These areas may include: rhetoric’s role in defining humanity, culture, and the public sphere; power and communication; marginal groups and public discourse; gender/sex and rhetoric; the influence of critical theory; and emerging communication technologies and rhetorical theory. (U)(3) Spring

CCM320, Documentary Films: This course will introduce students to the theory and development of the nonfiction film genre while also considering the social, cultural, and historical contexts. A specific sub-genre, director, topic, or style will be studied throughout the semester. Prerequisite: Junior standing or permission of the instructor. (U)(3) Occasionally

CCM330, Representations of Race & Difference: This course investigates representations of race and racism in media, culture, and public discourse. Race is a social fiction, yet remains a force in our history, culture, and lives. The course examines how we discuss racism and represent race on news, film, and television. Prerequisite: Sophomore or above or permission of the instructor. (U)(3) Spring

CCM352, Rhetorical Criticism: Introduction to critical and interpretive research methods in rhetorical analysis and criticism. (U)(3)

CCM354, Gender and Communication: This class examines communication practices in shaping and being shaped by gender. The study of gender and communication in public discourse, families, interpersonal relationships, organizations, and media are examined. We explore how communication creates, (re)produces, sustains, and sometimes challenges the meaning of gender and communication practices. (U)(3) Spring

CCM363, Freedom of Speech and Democracy: This course examines the relationship between freedom of speech, the law, and democratic citizenship. This includes an examination of the role of free speech and dissent in American democracy, critical and rhetorical analysis of the First Amendment, Supreme Court cases, and discourses that complicate our understanding of free speech. Prerequisite: Junior or senior standing or permission of the instructor. (U)(3) Fall

CCM365, Media & Cultural Criticism: Students will analyze mediated and popular culture texts from a critical-cultural perspective (semiotics, Marx, ideology, feminism). Through writing and reading in critical theory and media studies, students will explore media representations of race, gender, sexuality, class, and other identity categories. Prerequisite: Junior or senior standing or permission of the instructor. (U)(3) Fall

CCM376, Film, Culture, and Criticism: Introduces the concepts of film criticism. The course considers the grammars of composition, continuity, and editing; the conventions and variations involving narrative; and the implications of film for understanding social relations based on gender, race, and class. Prerequisite: Sophomore or above or permission of the instructor. (U)(3) Spring

CCM390, Special Topics: An in-depth study of a particular topic in the field of media, rhetoric, and culture. May be repeated when the topics change. (U)(3) Fall & spring
CCM498, Argumentation and Advocacy: This course acquaints students with principles and skills of effective argumentation pertinent to a variety of situations including politics, entertainment, and advertising. Students critically examine the uses of advocacy in contemporary public culture and develop arguments about a contemporary public issue. Prerequisite: Sophomore or above or permission of the instructor. (U)(3) Fall & spring

CCM420, Queering Film: From a critical-cultural studies perspective, this course will critically examine gay, lesbian, bisexual, transgender, and queer (GLBTQ) images in film. Examines both historical and contemporary examples while recognizing cultural conditions and industry restrictions imposed on queer life and images. Prerequisite: Junior or senior standing or permission of the instructor. (U)(3) Spring

CCM430, The Rhetoric of Horror Films: Explores how the application of fundamental rhetorical principles and concepts can elucidate complex understandings about the social and political dimensions of both recent and classical horror films. Students will apply a variety of approaches including allegory, psychoanalysis, and auteur studies to a variety of horror and suspense films. (U)(3) Fall, spring, & summer

CCM439, Critical Communication and Media Studies Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(1) Fall, spring, & summer

CCM440, Critical Communication and Media Studies Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall, spring, & summer

CCM441, Critical Communication and Media Studies Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(6) Fall, spring, & summer

CCM466, Audience, Community, & Fandom: Using qualitative research methods (data collection, field work, interviewing), students will explore the relationship of audiences and fans with mediated texts. Prerequisite: Junior or senior standing or permission of the instructor. (U)(3) Fall

CCM468, Women & Rock: Within a feminist studies framework, this course explores women's past roles in the development of music within Western culture and more specifically in rock'n'roll. While considering the intersections of gender with race, class, and sexual orientation, we will also critically examine the current state of women in rock. Prerequisite: Junior or senior standing. (U)(3) Spring

CCM470, Sports, Media, & Culture: This class is a critical study of mediated sports and their relationship to society. The class will examine the major issues and controversies surrounding sports and their cultural impact. Prerequisite: Junior or senior standing. (U)(3) Spring

CCM481, Technologies of the Body: As the body is always a site of power relations, it can be “read” to express a particular culture’s desires and anxieties. We will examine the technologies that we employ to alter, change, and “perfect” the human body in order to meet the demands and desires of contemporary life. (U)(3) Fall

CCM482, Voices of Dissent & Social Change: This course explores the communication strategies that activists have used to challenge the political and social injustices of their time. Case studies include the women’s suffrage, civil rights, free speech, and anti-globalization movements. Prerequisite: Junior or senior standing or permission of the instructor. (U)(3) Fall

CCM486, Apprenticeship: Student work with faculty member on his/her teaching or research. In teaching apprenticeship, student work with professor in development and discussion of classroom experience. In research apprenticeship, student work with faculty mentor on his/her research. Prerequisites: Junior or senior standing and completion of at least two MRC courses; by application only. (U)(1) Fall & spring

CCM488, Apprenticeship: Student work with faculty member on his/her teaching or research. In teaching apprenticeship, student work with professor in development and discussion of classroom experience. In research apprenticeship, student work with faculty mentor on his/her research. Prerequisites: Junior or senior standing and completion of at least two MRC courses; by application only. (U)(3) Fall & spring

CCM490, Special Topics: An in-depth study of a particular topic in the field of media, rhetoric, and culture. May be repeated when topics change. (U)(3) Fall & spring

CCM492, Internship: Offers students the opportunity for a supervised educational work experience in a setting pertinent to media, rhetoric, and culture. Prerequisite: Majors only. (U)(2) Fall & spring

CCM494, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. Prerequisite: Junior or senior standing or permission of the program director. (U)(1) Fall & spring

CCM495, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. Prerequisite: Junior or senior standing or permission of the program director. (U)(2) Fall & spring

CCM496, Independent Study: An opportunity for qualified students to pursue a topic of individual interest. Prerequisite: Junior or senior standing or permission of the program director. (U)(3) Fall & spring

CCM499, Honors Thesis: (U)(3) Fall & spring
Human Communication and Organizational Leadership

Administration
Jessica Moore, PhD, Department Chair

Department Website
www.butler.edu/communication-leadership

Why Study Human Communication and Organizational Leadership?
Every great leader is a great communicator. Whatever your trajectory in life—if you want to challenge yourself and change your world—you need the skills to intelligently, strategically, and intentionally express yourself. Additionally, successful organizations are often the result of people who understand the importance of building and maintaining relationships, effectively communicating with organizational stakeholders, leveraging technology wisely and ethically, and leading with excellence.

Why Study Human Communication and Organizational Leadership at Butler?
The Human Communication and Organizational Leadership Department at Butler blends innovative courses with opportunities for local, national, and international real-world professional experiences in order to position our students for personal and professional success. The department is supported by the expertise of faculty with academic training and professional expertise that propel the department's three areas of specialization within the major: organizational communication, health and human communication, and leadership studies.

In addition to the opportunity for students to study abroad, the Indianapolis campus offers students access to a variety of internships and experiences that prepare them to begin a professional career immediately after graduation or facilitate their transition into graduate study in communication, business, medical, technology, or legal programs, among others. In addition, students may choose to take advantage of the many co-curricular activities offered in the College of Communication, including Lambda Pi Eta national communication honor society, Butler’s nationally recognized Speakers Lab, the Butler Speech and Debate Team, or one of many other activities designed to enhance social, academic, and professional development.

The department encourages students to think synergistically by requiring innovative courses designed to build expertise in organizational communication, interpersonal and professional relationship management, social networks, research and analytics, communication technologies, social responsibility, and leadership. Whether students are considering local, national, or international positions and whether they are interested in nonprofit or Fortune 500 careers, the human communication and organizational leadership major offers a wide range of opportunities for students hoping to become the leaders of the future. One major; unlimited possibilities.

Human Communication and Organizational Leadership Student Learning Outcomes
- Demonstrate the ability to communicate appropriately and effectively in a variety of interpersonal, group, organizational, and public settings
- Apply research and analytics to academic and professional communication contexts
- Demonstrate how and explain why to engage in socially responsible communication and leadership
- Analyze and implement research-supported approaches to the study of organizational communication, health communication, interpersonal communication, and/or leadership
- Demonstrate the ability to create and implement appropriate and effective organizational communication in professional contexts

Degree Programs
- Major in Human Communication and Organizational Leadership (BA)
- Minor in Human Communication and Organizational Leadership

Requirements for the Major
Department Foundations (15 hours)
- ORG253, Interpersonal Communication
- ORG270, Organizational Communication
- ORG358, Communication & Social Responsibility
- ORG315, Business and Professional Communication

Plus one research methods course:
- ORG356, Communication Research Methods
- STR327, Research Methods for Strategic Communication
- CCM452, Rhetorical Criticism

Applied Technology (3 hours)
- CME106, Survey of Digital Media
- CME219, Design for the Web
- STR351, Advanced Graphic Design
- STR426, Photo Graphic Communication

Experiential Requirements (6 hours)
- ORG362, Leadership & Communication
- ORG440, Professional or Academic Internship
Students also select one of three areas of specialization (12 hours):

Organizational Communication
- ORG470, Advanced Organizational Communication
- Plus 9 upper-level credits* in ORG (see examples below)

Health and Human Communication
- ORG453: Relational Communication
- Plus 9 upper-level credits* in ORG (see examples below)

Leadership Studies
- ORG470, Advanced Organizational Communication
- ORG453, Relational Communication
- Plus six leadership courses (#) or upper-level credits* approved by advisor

Examples of upper-level courses for all tracks in the major:
- ORG351, Small Group Communication
- ORG355, Communication Consulting
- ORG357, Health Communication
- ORG454, Persuasion, Compliance, and Social Influence
- ORG471, Communication & Globalization
- ORG481, Topics in Communication Studies
- COM305, Intercollegiate Speech
- COM307, Intercollegiate Debate
- EI201, Real Business Experience (#)
- EI325, Social Entrepreneurship (#)
- ED348, Perspectives in Leadership (#)

In addition to major course requirements, students may need an additional course to meet the Butler Cultural Requirement as well as to earn the minimum number of upper-level courses needed to graduate at Butler. All majors in the College of Communication are also required to declare a minor, concentration, or second major.

Requirements for the Minor

Department Foundations (12 hours)
- ORG253, Interpersonal Communication
- ORG270, Organizational Communication
- ORG358, Communication and Social Responsibility
- ORG315, Business and Professional Communication

Plus any two upper-level courses in ORG (6 hours)

Human Communication and Organizational Leadership Courses

ORG215, Speech for Business: Competent communicators are able to gather information through reading and listening and to convey ideas through oral and written means. This course is designed to give students an introduction to business communication and the standards for effective professional communication. (U)(2) Fall and spring

ORG253, Interpersonal Communication: This course is an introduction to the study of interpersonal communication and dyadic relationships. Students will receive exposure to applied and theoretical research on identity formation, perception, emotion, listening, language, nonverbal behavior, love relationship development, conflict resolution, and computer-mediated communication. (U)(3) Fall

ORG270, Organizational Communication: This course is designed to introduce students to organizational communication by taking a comprehensive approach to the study of management, organizations, work, and society through the lens of communication. Students explore a range of organizational communication theories and practices. (U)(3) Occasionally

ORG300, Tutoring and Mentoring: This course will focus on the concepts of tutoring and mentoring for skills development in oral presentation. Coaching techniques and Speakers Lab protocol will be studied. Prerequisite: Successful completion of COM102 or approved performance course. (U)(1)

ORG315, Business & Professional Communication: This course is designed to help students critically develop and refine business communication skills in order to become more innovative professionals and effective leaders. Students will gain experience with applied techniques in business communication, and learn to effectively integrate and manage new technologies in various professional contexts. (U)(3) Fall

ORG350, Contemporary Communication Theory: An introduction to contemporary models of communication and to experimental and field research dealing with human communication. (U)(3) Spring

ORG351, Small Group Communication: Theory and practice in group discussion, leadership, decision-making, and interpersonal communication in small groups. (U)(3) Spring

ORG355, Communication Consulting: Survey of communication consultancy, including assessment (audit) of communication needs for clients; techniques of learning, training, and teaching; assessment and reporting of training outcomes; and how to become a consultant. (U)(3) Fall
ORG436, Communication Research Methods: This course prepares students to become knowledgeable consumers and novice producers of social scientific and humanistic communication research. By the end of this course, students should possess introductory skills in developing research questions/hypotheses as well as gathering, organizing, interpreting, and presenting qualitative and quantitative data using appropriate, effective, and ethical methods. (U)(3) Fall

ORG437, Health Communication: This course encourages students to become familiar with fundamental interpersonal communication processes that are involved in managing physical and mental health. Students will have the opportunity to develop an awareness of how communication among friends, relatives, professional colleagues, and others influences well-being and, in turn, how health and illness shape communication and relational dynamics. Topics will include health identity, managing sensitive information, social support, the role of positive communication on health and well-being, conversations in close relationships about health issues, and patient-provider communication. (U)(3) Occasionally

ORG438, Communication and Social Responsibility: This course is designed for students to explore, critique, and study issues related to communication, community, and social responsibility. Students will increase their understanding and sensitivity to the role of communication in addressing contemporary social issues. (U)(3) Fall & spring

ORG439, Intercultural Communication: The purpose of this course is to lead students to acquire the concepts and skills needed to manage effectively communicative encounters in which intercultural factors make a difference. (U)(3) Occasionally

ORG462, Leadership and Communication: This course introduces students to the theories and practices of leadership from a communication perspective. Students will learn concepts of interpersonal, organizational, public, and team leadership. Concepts of power, diversity, charisma, and ethics will be featured. Leadership styles of both historical and contemporary leaders will be examined. (U)(3) Spring

ORG439, Human Communication & Organizational Leadership Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall, spring, & summer

ORG440, Human Communication and Organizational Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall, spring, & summer

ORG441, Human Communication and Organizational Leadership Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall, spring, & summer

ORG453, Relational Communication: This course is designed to provide you with the opportunity to develop an understanding of the theories, concepts, and findings associated with interpersonal and relational communication. This course will encourage you to examine the conceptual foundations for studying human relationships as well as the communication patterns associated with the development, maintenance, and deterioration of relationships. Prerequisite: ORG353 or instructor approval. (U)(3) Spring

ORG454, Persuasion, Compliance, & Social Influence: This course is designed to provide students with the opportunity to develop an understanding of the theories, principles, and strategies associated with effective persuasion, compliance, and social influence. This course examines the psychological and communicative processes that lead to effective persuasion, compliance, and influence, as well as how students can utilize these tools to have a positive impact on the world. Prerequisite: ORG353 or instructor approval. (U)(3) Occasionally

ORG463, Seminar in Speech and the Law: Designed to investigate the communication strategies and skills used in the everyday operation of the legal system. Use of actual and/or created legal conflicts serve as focus of research and discussion. (U)(3)

ORG470, Advanced Organizational Communication: This course investigates major topics within organizational communication theory, such as culture and identity, gendered work, work/family balance, organizational power and decision-making, or organizational change. An underlying theme of this course is to explore the communicative possibilities for meaningful work in various contexts, such as for-profit, nonprofit, and global organizations. (U)(3) Spring

ORG471, Globalization, Communication, and Organizations: This course will explore the multiple dimensions of globalization as they affect and are shaped by today's organizations. The course will highlight the economic, political, cultural, and ecological implications of globalization and the influence of communication in those various dimensions. Prerequisite: ORG370 or instructor approval. (U)(3) Occasionally

ORG481, Topics in Communication Studies: An in-depth study of a particular topic in the field of communication chosen from the areas represented by the upper-division courses in the department. (U)(3)

ORG485, Senior Seminar in Communication Studies: Capstone course in communication studies. Working in consultation with a faculty member, students will complete a major research project and present their senior portfolio. Prerequisite: Senior standing. (U)(3) Spring

ORG499, Honors Thesis: (U)(3) Annually, term varies
Eugene S. Pulliam School of Journalism

School of Journalism Website
www.butler.edu/journalism

Why Study Journalism?

Journalism is all around us. It appears on our televisions, computers, mobile devices, and on the printed page. It is both a discipline that is indispensable to the world’s democratic societies, and an approach to communication that has been universally adopted by news organizations and the media industry as well as government bodies, law firms, trade associations, corporations, nonprofit groups, and digital entrepreneurs. In fact, almost every profession uses the knowledge, skills, and mindset of journalism to tell their stories and present information. In short, journalism has become a gateway degree that applies regardless of where your career path leads.

As highly innovative and creative professionals, journalists today use a wide range of digital tools and investigative approaches to produce meaningful, multidimensional content and stories that inform, teach, attract, entertain, and engage audiences. Individuals who produce journalism are adept at finding, questioning, analyzing, interpreting, and explaining complex information and data. While vast opportunities abound for students trained in journalism, the true value of the profession flows from its commitment to seek the truth and provide people throughout the world with accurate, verified information that is used to effect change, chronicle the human condition, and improve and enrich lives, communities, and nations.

Why Study Journalism at Butler?

The Eugene S. Pulliam School of Journalism offers a newly designed, digitally focused undergraduate degree that prepares students for the demands of the ever-changing media world in which we live. At Butler, we offer:

- Hands-on coursework that integrates audio, video, visual, and interactive technologies and social media with audience-based writing to produce engaging multimedia stories and digital content
- Extensive field-reporting experiences that allow students to gain professional knowledge while making valuable contacts in the Indianapolis metro area
- Publication of professionally produced coursework on news, sports, and community-based websites to enrich résumés and portfolios
- Wide-ranging opportunities to participate in our nationally recognized student-led media organizations
- Fundamental working knowledge of the ethical, legal, economic, and global aspects of the field
- Internship opportunities in Indianapolis and Washington, DC, and an extensive alumni network of successful professionals in Indianapolis and throughout the country

Journalism Student Learning Outcomes

Students majoring in journalism at Butler will learn to produce professional-quality stories and programming for a variety of audiences in a variety of media formats. In the process, students will develop professional skills, competencies, and knowledge in the following areas:

- Source development, interviewing, observational reporting, documentary/public records, research, and investigation
- Critical analysis, skeptical thinking, complex reasoning, and evaluation
- All aspects of communication, including various forms of audience-based writing; audio, video, visual, and interactive communication; audio and video presentation and delivery; and social media
- Digital software programs appropriate to the field of journalism
- Team-building and collaboration
- Professional, ethical, and legal standards and responsibilities of the field
- Application of relevant analytical and theoretical frameworks to the practice of journalism in the United States and around the globe

Degree Programs

- Major in Journalism (BA)
- Minor in Journalism

Requirements for the Major

One course in media technology:
- CME106, Survey of Digital Media

One introductory course in print journalism:
- JR112, News Writing: Print

Two introductory courses in electronic journalism:
- JR113, News Writing: Electronic
- JR213, Electronic Journalism
Two courses in multimedia journalism:
- JR212, Multimedia Journalism I
- JR312, Multimedia Journalism II

One course in visual communication or broadcast journalism:
- JR311, Visual Storytelling and Design or JR313, Advanced Reporting for Electronic Media

One practicum course:
- JR350, Media Internship (3 hours) or JR353, Media Internship (6 hours)

One capstone course:
- JR412, In-depth Journalism

Four conceptual courses:
- JR409, Media Economics and Regulation
- JR414, Mass Communication Law
- JR417, Global Media or JR418, Gender and Media: Global Views
- JR420, Mass Communication Ethics

Plus nine hours of electives from an approved list.

**Requirements for the Minor**

A minor in journalism consists of 18 credit hours in journalism, six of which are at the 300 and 400 level.

**Journalism Courses**

JR107, Introduction to Mass Communication: Media responsibility, government press relations, communication theory. (U)(3) Occasionally

JR112, News Writing: Print: This course introduces the student to the techniques of gathering, writing, and editing news for print media. (U)(3) Fall & spring

JR113, News Writing: Electronic: This course introduces the student to the techniques of gathering, writing, and editing news for broadcast media. The emphasis is on broadcast style, basic aspects of writing news for radio and television, and broadcast news operations. (U)(3) Fall & spring

JR133, Performance Lab I: Students engage in hands-on experiential learning using departmental facilities and equipment. Prerequisite: Journalism major or minor or permission of the instructor. (U)(1) Fall & spring

JR212, Multimedia Journalism I: The application of beat reporting assignments in a converged media environment. Prerequisite: A grade of C- or above in JR112, JR113, and CME106. (U)(3) Fall & spring

JR213, Electronic Journalism: This course concentrates on television reporting skills. Students learn to use portable cameras, audio equipment, and lighting equipment to gather and produce news stories for television. Prerequisite: JR113. (U) Fall & spring

JR235, Digital Journalism: Students learn to use mobile devices and social media platforms to report on important news events and issues. Prerequisites: A grade of C- or above in JR112 and JR113. (U)(3) Annually, term varies

JR309, Feature Writing: Writing the feature story, interviewing, personality profiles, and the human interest story. Prerequisite: A grade of C- or above in JR112. (U)(3) Occasionally

JR310, Producing Television News: Techniques of producing, shooting, and editing news for television. Prerequisite: JR213. (U)(3) Occasionally

JR311, Visual Storytelling: Focuses on the art of telling a story through a variety of digital techniques and media and design principles. Prerequisite: A grade of C- or above in JR212 or JR213. (U)(3) Fall

JR312, Multimedia Journalism II: Students practice accountability journalism and learn to cover problems, programs, and policies on public issues such as education, health, public safety, and jobs, while seeking a diverse range of perspectives in a multimedia environment. Prerequisites: A grade of C- or above in JR212 or JR355 and a grade of C- or above in JR235 or CME215. (U)(3) Fall & spring

JR313, Advanced Reporting for Electronic Media: The course concentrates on advanced reporting techniques for the electronic media. Emphasis is placed on writing and on-air presentation as well as strong production values. Prerequisites: JR113 and JR213 or permission of the instructor. (U)(3) Spring

JR315, News Photography: A professional journalism course teaching the importance of the visual image for communicating ideas and information, with emphasis on the development of photojournalistic skills. Instruction covers basic photographic concepts, digital camera handling, and the aesthetics of photography. Prerequisite: A grade of C- or above in JR112. (U)(3) Fall

JR316, News Photography 2: Advanced work in news photography. Prerequisite: A grade of C- or above in JR315 or permission of the instructor. (U)(3) Fall

JR317, Opinion Writing and Reviews: The nature and purpose of newsprint and electronic editorials. Prerequisite: A grade of C- or above in JR112. (U)(3) Occasionally

JR333, Performance Lab: Students engage in hands-on experiential learning using departmental facilities and equipment. Prerequisite: A grade of C- or above in JR212 or JR213. (U)(1) Fall & spring
JR355, Sports Journalism: The course will provide a foundation for reporting and writing about sports in an urban setting. Prerequisite: A grade of C- or above in JR112. (U)(3) Spring

JR357, Web Design: The introductory course in web design focuses on website development techniques and skills. Students will learn web-based software and other critical web basics. The course includes writing for the web, design, and layout, and best practices. Prerequisite: A grade of C- or above in JR112. (U) Occasionally

JR358, Perspectives in Sports Media: This course will provide an in-depth education about the sports media industry, how the management of sports media is changing, and the effect that sports media has on the relationship between media and sports organizations. Prerequisites: A grade of C- or above in JR112 and JR113 or CME102. (U)(3) Fall & spring

JR401, Independent Study: Provides opportunity for qualified students to pursue a topic of individual interest. Open to juniors and seniors. (U)(1) Fall & spring

JR402, Independent Study: Provides opportunity for qualified students to pursue a topic of individual interest. Open to juniors and seniors. (U)(2) Fall & spring

JR403, Independent Study: Provides opportunity for qualified students to pursue a topic of individual interest. Open to juniors and seniors. (U)(3) Fall & spring

JR407, Sportscasting: The course concentrates on advanced techniques in sports coverage for the electronic media. Emphasis is placed on writing and on-air presentation as well as strong production values. Prerequisites: CME215 and JR355. (U)(3) Spring

JR409, Media Economics and Regulation: This course provides an overview of the economic and regulatory concepts that have a distinct application on the structure and performance of media industries and focuses on those factors that direct and constrain the media. Prerequisite: Junior or senior standing. (U)(3) Spring

JR412, In-depth Journalism: This capstone experience focuses on creating an in-depth, long-form reporting project that is disseminated in one of a variety of media formats depending on the career interest and special skills of the student. Prerequisite: A grade of C- or above in JR312. (U)(3) Spring

JR414, Mass Communication Law: Study of the major legal standards underlying the free speech clause of the First Amendment and the major legal issues confronting mass communicators, including libel, privacy, access to information, journalist privilege, free press/fair trial, commercial speech, and intellectual property law. Prerequisite: Junior or senior standing. (U/G)(3) Fall & spring

JR415, History & Literature of Journalism: The historical development of the press and the literature of the field. Historical trends and press freedom, from colonial times to the present. Prerequisite: Junior or senior standing. (U/G)(3) Occasionally

JR416, Mass Communications in Society: The role of the mass media and its social determinants, government and social utility, ethics, values, and problems. Prerequisite: Junior or senior standing. (U)(3) Occationally

JR417, Global Media: Study of critical issues in international communication in an era of globalization. Prerequisite: Junior or senior standing. (U/G)(3) Fall & spring

JR418, Gender and News: Global Views: This course focuses on the representation and participation of women and other disempowered groups in global media. Students will study media that are produced, distributed, and consumed across national boundaries as well as media in a national context, thereby increasing their awareness of inequalities and avenues for media activism. Prerequisite: Junior or senior standing. (U)(3) Fall & spring

JR420, Mass Communication Ethics: This course focuses on the application of ethical frameworks to ethical dilemmas faced by the converged news media and mass communication professionals. Students develop skills in analyzing ethical issues and making ethical decisions. Prerequisite: Junior or senior standing. (U)(3) Fall

JR427, Special Topics in Journalism: Thematic study of contemporary topics and issues in journalism. May be repeated when topics change. Prerequisite: Permission of the director. (U)(3) Fall & spring

JR439, Journalism Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(1) Fall, spring, & summer

JR440, Journalism Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(6) Fall, spring, & summer

JR441, Journalism Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall, spring, & summer

JR499, Honors Thesis: (U)(3) Fall & spring
Sports Media

Administration
Christine Taylor, MA, Co-Chair; Margaretha Geertsema-Sligh, PhD, Co-Chair

Department Website
www.butler.edu/sports-media

Why Study Sports Media?
The sports media industry has grown into a multibillion-dollar business that involves ongoing technological innovation that allows media professionals to expand sports content across multiple media platforms. While sports continue to deliver massive audiences and advertising revenue to the media, sports coverage has become the product that drives audience interaction and interest in sports. In short, the sports media industry has become the defining commercial and cultural connection for both industries. Given its proliferation, numerous career opportunities exist for graduates with a sports media degree.

Why Study Sports Media at Butler?
Butler’s Sports Media Program places students in one of the nation’s leading sports cities, covering NCAA and pro-sporting events like the Final Four, NFL Monday Night Football, and “The Greatest Spectacle in Racing”—the Indianapolis 500. Students develop and broaden their skills and understanding of the industry on the field, in the press box, and in the locker room at some of the nation’s biggest sporting events. Offered through the Eugene S. Pulliam School of Journalism and the Creative Media and Entertainment Department, our interdisciplinary approach to sports media provides students with a solid foundation in multimedia journalism and digital media production. We offer:

- Rich, hands-on education in sports journalism, sports media and information, sportscasting, and sports media production
- High-quality internships with professional sports organizations, such as the NFL Colts, the NBA Pacers, the NCAA, and the Indianapolis Sports Corporation
- Wide-ranging opportunities to participate in our student-led, multi-platform sports media outlet, BU:30; produce live streams of Butler Athletics; and build your professional network through Butler’s sports industry connections

Sports Media Student Learning Outcomes
The sports media degree will provide students with a:

- Solid foundation in the fundamentals of multimedia journalism and digital media production
- Rich experiential education in sports journalism, sports media and information, sportscasting, and sports media production
- Broad understanding of the sports media industry; its cultural, legal, ethical, and economic impact; and the role media professionals play in the industry

In the process, students will develop professional skills, competencies, and knowledge in the following areas:

- The sports media industry and its historical, cultural, economic, and evolutionary aspects
- Information gathering, i.e., source development, interviewing, observational reporting, documentary/public records research, and investigation
- Synthesizing information, i.e., critical analysis, skeptical thinking, complex reasoning, and evaluation
- Communicating information, i.e., writing, audio and video communication, on-camera delivery, and mediated communication
- Digital software, platforms, and technology appropriate to the field of sports media
- Team-building, collaboration, and leadership
- Media economics
- Professional, ethical, and legal standards and responsibilities of the field
- Application of relevant analytical and theoretical frameworks to the practice of sports media

Degree Program
- Major in Sports Media (BA)

Requirements for the Major
One course in media technology:
- CME106, Survey of Digital Media

One introductory course in print journalism:
- JR112, News Writing: Print

One introductory course in electronic journalism:
- JR113, News Writing: Electronic

Two introductory courses in digital media production:
- CME102, Media Aesthetics and Basic Studio Production
- CME215, Fundamentals of Videography and Video Editing
One introductory course in digital journalism:
- JR235, Digital Journalism

Two applied courses in sports media:
- JR355, Sports Journalism
- JR417, Sportscasting

One elective course in the sports industry:
- STR356, Sports Promotion
- JR457, Special Topics in Journalism: Sports Media Topics

One advanced course in journalism or digital media production:
- CME415, Advanced Editing
- JR312, Multimedia Journalism II

One practicum course:
- JR350, Media Internship (3 hours)
- JR353, Media Internship (6 hours)
- CME455, Internship (3 hours)
- CME475, Internship (6 hours)

One capstone course:
- CME457, Digital Media Project Design and Management
- JR412, In-depth Journalism

Three conceptual courses:
- JR358, Perspectives on Sports and Media
- JR409, Media Economics and Regulation
- CME452, Entertainment Media and the Law

---

**Strategic Communication: Public Relations and Advertising**

**Administration**
Rose Campbell, PhD, Department Chair

**Department Website**
www.bu.edu/strategic-communication

**Why Study Strategic Communication?**
Strategic communication emphasizes the creation and distribution of socially responsible, research-supported, and theoretically sound targeted communication messages for both internal and external audiences. Strategic communication majors, therefore, learn the theories and skills required for successful written, visual, and oral communication. In addition, majors gain valuable skills related to research, strategic thinking, and problem solving that will serve them well in professional careers or graduate school.

**Why Study Strategic Communication at Butler?**
While many programs offer courses in advertising and public relations, few have successfully merged their curriculum to reflect the increased blurring of lines between these two disciplines. Butler’s Strategic Communication Department, however, recognizes that it is necessary for our majors to understand the synergistic nature of advertising and public relations to succeed in the diverse fields that comprise strategic communication. But success in strategic communication relies on more than this, of course. Our courses are rigorous, highly interactive, and experiential. Students are not only introduced to concepts, processes, and theories, but also are challenged to apply their knowledge to solve real-world strategic communication challenges through problem-based learning and service-learning opportunities, and national-level public relations and advertising competitions. We like to say that our students “practice the profession” from day one. Class sizes are also small, typically around 18 students, and led by passionate and dedicated professors.

Strategic communication students also learn outside of the classroom as active participants in the various extracurricular opportunities the program offers. Through participation in the Public Relations Student Society of America Butler University chapter, Adrenaline advertising club, and an internship program, our students have outstanding experiential learning opportunities with a diverse array of businesses, advertising, and public relations agencies, as well as government and nonprofit organizations in Indianapolis and throughout the country. In this way, students gain the real-world knowledge necessary for a successful career.

**Strategic Communication Student Learning Outcomes**
- In keeping with the liberal arts tradition, students majoring in strategic communication will gain a broad-based education that emphasizes an understanding of the larger cultural context in which strategic communication occurs.
- On a practical level, students will also gain the theoretical foundation and industry-relevant skills to create and produce effective oral, written, and visual communication messages for distribution via a diversity of media, including print, broadcast, and digital platforms.
• To achieve these ends, students learn to research, analyze, select, and organize relevant data and information; they learn and apply relevant analytical or theoretical frameworks to professional practices and situations; they critique and evaluate the effectiveness of communication messages; they work collaboratively to achieve desired goals; and they integrate communication technology effectively into all of these efforts.
• Further, as the strategic communication major emphasizes the production of socially responsible messages, students learn to appreciate and respect the professional, ethical, and legal standards that govern our field.

Degree Programs

• Major in Strategic Communication, with optional specializations in Public Relations or Advertising (BA), or Advertising Creative Design
• Minor in Strategic Communication

Requirements for the Major

• STR128, Promotional Writing I or course equivalent
• STR222, Principles of Strategic Communication
• STR228, Promotional Writing II
• STR251, Design and Production for Strategic Communication
• STR324W, Ethics and Case Studies in Strategic Communication
• STR327, Research Methods for Strategic Communication
• STR329, Strategic Media Planning
• STR424G, Public Communication Campaigns
• STR440, Strategic Communication Internship (or STR441)

One elective course:

• STR321, Advertising Practices
• STR322, Advertising Copywriting
• STR328W, Public Relations Writing
• STR332, Advertising Campaigns (spring)
• STR341, Bateman Case Study Competition
• STR342, Strategic Communication for Nonprofits Practicum
• STR351, Advanced Graphic Design
• STR355, Photo Graphic Communication
• STR356, Sports Promotion
• STR357, Hospitality and Tourism Promotion
• STR359, Video Graphic Communication
• STR415, Crisis Communication
• STR419, Consumer Insights
• STR426, Special Topics in Strategic Communication

One of these courses in media law:

• JR414, Mass Communication Law
• CME432, Law and Regulation of the Electronic Media
• CME452, Entertainment Media and the Law
• Or current equivalents

One of these courses in international communication:

• JR417, Global Media
• JR418, Gender and News: Global Views
• COM359, Intercultural Communication
• STR405, Global Strategic Communication
• Or current equivalents

One of these courses in communication theory:

• CCM310, Media and Cultural Theory
• CCM315, Rhetorical Theory
• CCM462, Influence in Public Culture
• STR410, Theories of Persuasion
• STR422, Consumer Culture Theory
• Or current equivalents

Requirements for Public Relations Specialization

• All STR major requirements
• STR328W, Public Relations Writing

Two courses in public relations and related areas:

• STR341, Bateman Case Study Competition
• STR342, Strategic Communication for Nonprofits Practicum
• STR355, Photo Graphic Communication
• STR356, Sports Promotion
• STR357, Hospitality and Tourism Promotion
• STR359, Video Graphic Communication
• STR415, Crisis Communication
• STR426 Special Topics in Strategic Communication (PR-focused)
• CCM398, Argumentation and Advocacy
• AA301, Principles and Practices of Arts Administration
• ORG315, Business and Professional Speaking
• Other courses selected with permission of the department chair

Requirements for Advertising Specialization

• All STR major requirements
• STR321, Advertising Practices
• Two courses in advertising and related areas:
  • STR322, Advertising Copywriting
  • STR331, Advertising Campaigns
  • STR332, Advertising Campaigns
  • STR355, Photo Graphic Communication
  • STR356, Sports Promotion
  • STR357, Hospitality and Tourism Promotion
  • STR359, Video Graphic Communication
  • STR426, Special Topics in Strategic Communication (advertising-focused)
• Other courses selected with permission of the department chair

Requirements for Advertising Creative Design Specialization

• All STR major requirements
• STR351, Advanced Graphic Design

Two courses in advertising creative design:

• STR355, Photo Graphic Communication
• STR359, Video Graphic Communication

Other courses selected with permission of the department chair

Requirements for the Minor

• STR128, Promotional Writing I or course equivalent
• STR222, Principles of Strategic Communication
• STR228, Promotional Writing II
• STR251, Production and Design for Strategic Communication

One of the following two courses:

• STR324W, Ethics and Case Problems in Strategic Communication
• STR327, Research Methods for Strategic Communication

One elective course in STR:

• STR321, Advertising Practices
• STR322, Advertising Copywriting
• STR328W, Public Relations Writing
• STR332, Advertising Campaigns
• STR341, Bateman Case Study Competition
• STR342, Strategic Communication for Nonprofits Practicum
• STR355, Photo Graphic Communication
• STR356, Sports Promotion
• STR357, Hospitality and Tourism Promotion
• STR359, Video Graphic Communication
• STR405, Global Strategic Communication
• STR410, Theories of Persuasion
• STR415, Crisis Communication
• STR419, Consumer Insights
• STR426, Special Topics in Strategic Communication
Strategic Communication Courses

STR128, Promotional Writing I: Introduces students to strategic communication writing in a converged media environment, while instilling the important values and responsibilities that underlie communication in a digital world. (U)(3) Fall, spring, & summer

STR199, Field Experience in Strategic Communication: This course provides an opportunity for strategic communication majors in the early stages of their education to explore career options. The field experience introduces students to strategic communication careers prior to their meeting course prerequisites for an academic internship. Students must work a minimum of 50 hours at job site during the academic session and be supervised by a professional who is employed by the organization. Students will write reflection papers, keep a detailed log of weekly work assignments, and produce a digital portfolio at the end of the field experience. Students also will receive a final evaluation by the supervisor. Students need to find their own sites for the field experience. Those who already completed a required academic internship in strategic communication are not eligible for STR199. Prerequisites: STR majors only, STR128, and permission of the instructor. (U)(1) Fall, spring, & summer

STR222, Principles of Strategic Communication: A survey of strategic communication for students interested in public relations and advertising. Course emphasizes the strategic communication industry, including its history, functions, theories, ethics, and relations to marketing products, ideas, organizations, and people, and the components of strategic communication campaigns. Prerequisite: A grade of C or above in STR128 or JR112. (U)(3) Fall, spring, & summer

STR228, Promotional Writing II: Applications of strategic communication writing at the intermediate level, for the fields of public relations and advertising; emphasis on professional-quality, effective writing for a variety of audiences across a number of media channels, both print and digital, including social media. Prerequisites: STR128 or JR112, and STR222. (U)(3) Fall, spring, & summer

STR251, Design & Production for STR: This course is an introduction to the principles and practice of graphic design for strategic communication. Students will learn foundational design techniques with critical thinking, typography, and an introduction to concept development. Prerequisite: A grade of C- or above in STR222. (U)(3) Fall, spring, & summer

STR321, Advertising Practices: This course introduces the student to the practice of advertising in agencies and organizations, including analyses of agency functions. Students study audience analysis, diversity in advertising, creative briefs, copywriting, and strategic concept development for advertising. Prerequisites: A grade of C- or above in STR222, STR228, STR251, and STR327. (U)(3) Annually, term varies

STR322, Advertising Copywriting: This course is an in-depth examination of creative strategy and advertising copywriting, with a practical emphasis on the application of concepts, principles, and techniques to develop persuasive copy tailored to various communication media. Prerequisites: A grade of C- or better in STR222, STR228, and STR251. (U)(3) Fall & spring

STR324, Ethics & Case Problems in STR: Ethical approaches in public relations and advertising are examined using the case study method. The intensive-writing course emphasizes best practices in strategic communication for internal and external publics, as socially responsible global citizens and professional practitioners. Prerequisites: A grade of C- or above in STR222 and STR228. (U)(3) Fall & spring

STR327, Research Methods for STR: Principles and exploration of qualitative and quantitative methods for research employed in planning, monitoring, and evaluating public relations and advertising projects and campaigns. Prerequisites: A grade of C- or above in STR222 and STR228. (U)(3) Fall & spring

STR328, Public Relations Writing: Advanced public relations writing, with an emphasis on strategic public relations techniques for internal and external audiences across multiple media channels including print, digital, and social media. Prerequisites: A grade of C- or above in STR222 and STR228. (U)(3) Annually, term varies

STR329, Strategic Media Planning: An introduction to media planning and media relations for students interested in public relations and advertising. The course emphasizes media fragmentation; the concepts, theories, and strategies involved in planning, buying, and pitching messages in traditional and new media; and the development of strategic media plans. Prerequisites: A grade of C- or above in STR222 and STR228. (U)(3) Fall & spring

STR332, Advertising Campaigns (AAF National Student Adv Comp): The American Advertising Federation's National Student Advertising Competition will provide students with real-world experience by creating a strategic advertising campaign planbook for a corporate sponsor. Prerequisite: Permission of the instructor. (U)(3) Spring

STR341, Bateman Case Study Competition: Student teams develop and implement a communications campaign for a national client in the Public Relations Society of America's annual Bateman competition. Prerequisite: Permission of the instructor. (U)(3) Spring

STR342, Strategic Communication for Nonprofits: This course helps students hone skills while developing professional-quality communication tactics that will be published in a variety of media, distributed to target audiences or staged and presented as a special event. Communication activities are implemented for a nonprofit selected by the instructor(s). Prerequisites: Junior standing and permission of the instructor. (U)(3) Occasionally

STR351, Advanced Graphic Design for Strategic Communication: Through readings, lectures, and lab application, students are exposed to the different challenges that make advertising a unique application of the creative process. This course challenges students to develop their creative potential by developing advertising copy and design materials with hands-on projects. Prerequisite: A grade of C- or above in STR251. (U)(3) Fall & spring

STR355, Photo Graphic Communication: In this course we work on developing the tools necessary for effective visual communication in advertising and public relations through the medium of photography. This course prepares students to enter the real world with a comprehensive knowledge of how to prepare effective photographic collateral materials in a variety of formats and sizes. This course covers the basics of photographic composition, camera operation, photo editing, portraiture, and product photography, as well as how to put it all together in Adobe Photoshop to create professional ad layouts. Prerequisite: STR251 or consent of the instructor. (U)(3) Annually, term varies

STR356, Sports Promotion: Overview of sports promotion, with particular emphasis on team sports. Course includes exploration of promotions, sponsorships, ticket sales, media relations, community relations, and event management. Additionally, the interpersonal relationship of the team, the media, and the corporate and civic communities will be explored. Prerequisites: A grade of C- or above in STR222 and STR228. (U)(3) Spring
STR357, Hospitality & Tourism Promotion: This course introduces students to the field of hospitality and tourism with the key objective to prepare students for careers in this field. Students will learn essential strategic communication methods to promote cities and attract more tourists and convention groups. Prerequisites: A grade of C- or above in STR222 and STR228. (U)(3) Fall

STR359, Video Graphic Communication: In this course we work on developing the tools necessary for effective visual communication in advertising and public relations through the medium of video. This course prepares students to enter the real world with a comprehensive knowledge of how to prepare effective video collateral materials in a variety of formats and sizes for different distribution methods. This course covers the basics of video pre-production, production, and post-production techniques. Students will earn the language of video and visual storytelling through careful camera operation, editing, and graphics. Students create video press releases, public service announcements, and short-form documentaries. Prerequisite: STR251 or consent of the instructor. (U)(3) Annually, term varies

STR401, Independent Study: Provides opportunity for qualified students to pursue a topic of individual interest. Open to juniors and seniors. (U)(1) Fall, spring, & summer

STR402, Independent Study: Provides opportunity for qualified students to pursue a topic of individual interest. Open to juniors and seniors. (U)(2) Fall, spring, & summer

STR403, Independent Study: Provides opportunity for qualified students to pursue a topic of individual interest. Open to juniors and seniors. (U)(3) Fall, spring, & summer

STR405, Global Strategic Communication: Introduction to advertising and public relations in the global and cross-cultural context. Topics include the role of culture in global communication, intercultural communication theories, ethics and regulatory issues, history of globalization, new media technologies, international advertising and PR cases, and communication strategies for diverse audiences. Prerequisite: Junior or senior standing. (U)(3) Occasionally

STR410, Theories of Persuasion: An exploration of social scientific theories relating to strategic communication audiences and their behaviors. Potential topics include culture, subculture, social class, social groups, media effects, and individual identity, with a focus on strategic communication implications. Affect, cognition, behavior, and consumer culture are also discussed. Prerequisite: Junior or senior standing. (U)(3)

STR415, Strategic Crisis Communication: Crisis communication is the subspecialty of public relations designed to protect and defend an individual, company, or organization facing a public challenge to its reputation. A combination of lectures, readings, and in-class activities will help prepare you to recognize, assess, and respond ethically to a wide range of crisis situations. By the end of the semester, you should be able to distinguish among several categories of crises and determine suitable communication responses for each. Prerequisites: STR222, STR228, and junior or senior status. (U)(3) Annually, term varies

STR419, Consumer Insights: This 3-credit course provides an interdisciplinary framework for understanding consumer behavior and its implications for strategic communication campaigns. Discussions explore consumers as active participants in the marketplace, as individuals, as decision-makers, and as influenced by subcultural and cultural factors. Specific topics include perception, attitudes, decision-making, group influence, post-purchase satisfaction, and more. The course emphasizes application of insights to solving contemporary strategic communication challenges. Prerequisite: Junior standing or permission of the instructor. (U)(3) Occasionally

STR422, Consumer Culture Theory: This 3-credit course explores the five main areas of consumer culture theory research: (1) the historical emergence and social construction of consumer culture, (2) consumer identity projects, (3) marketplace cultures, (4) the sociohistoric patterning of consumption, and (5) mass-mediated marketplace ideologies and consumers' interpretive strategies. Readings illustrate implications at the macro-, meso-, and micro-theoretical levels, expose students to the myriad social contexts and consumer groups in society, and allow for analysis and critique of the foundational and emergent research in the field. Prerequisite: Junior standing or permission of the instructor. (U)(3) Occasionally

STR424, Public Communication Campaigns: Application of research-based strategic communication campaign methods to address specific client problems and opportunities for nonprofit organizations. The service-learning course integrates the theories and skills required for professional practice; the course serves as the capstone course for the major and fulfills an ICR and SAC requirement. Prerequisites: A grade of C- or better in STR222, STR228, STR251, STR324, and STR327. (U)(3) Fall & spring

STR426, Special Topics in Strategic Communication: Thematic study of contemporary topics and issues in strategic communication. May be repeated when topics change. Prerequisite: Permission of the director. (U/G)(3) Fall, spring, & summer

STR439, Strategic Communication: Public Relations & Advertising Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(1) Fall, spring, & summer

STR440, Strategic Communication: Public Relations & Advertising Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(3) Fall, spring, & summer

STR444, Strategic Communication: Public Relations & Advertising Internship: This internship course will give students professional and practical hands-on experience in their particular field of study. This course will allow students to put into practice the skills and knowledge gained from previous classes and educational experiences. (U)(6) Fall, spring, & summer

STR499, Honors Thesis: (U)(3) Annually, term varies

Penny Dimmick, professor of music. BA Taylor University, 1978; MM Ball State University, 1980; DA ibid., 1994

Thomas E. Dolan, professor of biological sciences. BA University of the South, 1973; PhD University of Georgia, 1983

Steven D. Dolvin, professor of finance. BA Malone College, 1995; MBA Miami University, 1997; MS University of Kentucky, 2003; PhD ibid., 2004

Mikaela Drake, assistant professor of health sciences. BS Florida Institute of Technology, 2010; MS Indiana University School of Medicine, 2011; Certificate in Business of Life Sciences, Indiana University Kelley School of Business, 2012; PhD Cardiovascular Sciences, Indiana University School of Medicine, 2014

Courtney Droms-Hatch, associate professor of marketing. BS Georgetown University, 1999; PhD University of South Carolina, 2009

Jeff Durham, instructor in entrepreneurship. BS Hanover College 1992; MBA Western Governors University, 2012

Lacey Echols, instructor and coordinator, mathematics support services. BA University of Texas–Austin, 1970; MAT Duke University, 1971

Gary R. Edgerton, professor of communication. BA College of the Holy Cross, 1974; MA University of Massachusetts, 1979; PhD ibid., 1981

Elise Edwards, department chair, History and Anthropology, and associate professor of anthropology. BA Stanford University, 1991; MA University of Michigan, 1996; PhD ibid., 2003

Lindsay Ems, assistant professor of human communication and organizational leadership (visiting). BA Indiana University, 2001; MA ibid., 2010; PhD ibid., 2015
Margar Lee Garver, director, Erin Marie Garriott, instructor in special education. BS Marian College, 1996; MS METL Butler University, 2001

Dennis C. Gardner, associate professor of pharmacy practice. BS Purdue University, 1972; PharmD Mercer University, 1976;

Mary Frances Gaede, scholarly communication librarian and assistant professor. BA University of Texas

Shelly Furuness, Bryan Furuness, instructor in English. BA Indiana University, 1997; MFA Warren Wilson College, 2008

Art Furman, instructor in human movement and health science education. BS Minnesota State University, 2013

Vanessa R. French, electronic resources librarian and assistant professor. BA University of Illinois, 2009; MLS Indiana University, 2013

Christopher Forhan, associate professor of English. BA University of Virginia, 1982; MFA ibid., 1987

Bryan Foltice, assistant professor of finance. BA Cornerstone University, 2003; MBA University of North Florida, 2008

Richard E. Fetter, associate professor of marketing. BA Otterbein College, 1973; MBA Indiana University, 1985; PhD ibid., 1994

Zachary Finn, clinical professor of risk management and insurance, BS Indiana State University, 2000; MS Florida State University, 2007

William Fisher, professor of theatre. BA Indiana University, 1979; MFA equivalent, L'Ecole de Mime Etienne Decroux

Hilene Flanzbaum, Allegra Stewart Professor of English. BA Brandeis University, 1980; MA Johns Hopkins University, 1982; PhD University of Pennsylvania, 1991

Ryan Flessner, associate professor of education. BS Butler University, 1997; MA Columbia University Teachers College, 2002; PhD University of Wisconsin–Madison, 2008

Ramon Flowers, assistant professor of dance. BA City College of New York, 2009; MFA University of Iowa, 2017;

Bryan Foltice, assistant professor of finance. BA Cornerstone University, 2003; MBA University of North Florida, 2008

Christopher Forhan, associate professor of English. BA University of Virginia, 1982; MFA ibid., 1987

Vanessa R. French, electronic resources librarian and assistant professor. BA University of Illinois, 2009; MLS Indiana University, 2013

Art Furman, instructor in human movement and health science education. BS Minnesota State University–Mankato, 1978; MA ibid., 1980

Bryan Furuness, instructor in English. BA Indiana University, 1997; MFA Warren Wilson College, 2008

Shelly Furuness, curriculum coordinator and associate professor of education. BS Indiana University, 1997; MS Butler University, 2005; PhD Indiana University, 2008

Irene del Río Gabriela, associate professor of Spanish and director, Gender, Women, and Sexuality Studies program. BA Universidad de Deusto (Spain), 1999; MA University of Illinois–Urbana–Champaign, 2002; PhD ibid., 2008

Mary Frances Gaede, scholarly communication librarian and assistant professor. BA University of Texas–Austin, 2011; MS ibid., 2013

Dennis C. Gardner, associate professor of pharmacy practice. BS Purdue University, 1972; PharmD Mercer University, 1976; residency, Shands Teaching Hospital, University of Florida, 1973

Erin Marie Garrett, instructor in special education. BS Marian College, 1996; MS METL Butler University, 2001

Lee Garver, director, Global and Historical Studies and associate professor of English. BA Northwestern University, 1988; MA University of Chicago, 1989; PhD ibid., 2001

Margaretho Geertsema-Slijh, professor of communication. BBK Potchefstroom University (South Africa), 1994; MA Washington State University, 2001; PhD University of Texas, 2005
Erin Gerecke, instructor in biological sciences. BA Carleton College, 1994; PhD Indiana University, 1999

Jane M. Gervasio, department chair and professor of pharmacy practice. BS Butler University, 1988; PharmD Butler University, 1995; residency, University of Tennessee–Memphis, 1996; fellowship, ibid., 1998

Amy Giesler, instructor in accounting. BS Butler University, 2000; MPAcc ibid., 2014

R. Brian Giesler, associate professor of psychology. BA Cornell University, 1987; PhD University of Texas, 1993

Jeffrey Gillespie, professor of music. BM Birmingham-Southern College, 1982; MA Eastman School of Music, 1986; PhD Indiana University, 1999

Amanda C. Gingerich, associate professor of psychology. BA Gettysburg College, 1998; MA Towson University, 2001; MA University of Virginia, 2004; PhD ibid., 2008

Kathy A. Paulson Gjerde, associate professor of economics. BA Emory University, 1989; MS Purdue University, 1991; PhD ibid., 1993

Stuart S. Glennan, associate dean, College of Liberal Arts and Sciences, and Harry T. Ice professor of philosophy. BA Yale University, 1985; MA University of Chicago, 1988; PhD ibid., 1992

Liliana Goens, instructor in Spanish. BA Andes University (Colombia), 1981; MA Saint Michael’s College, 1984; MS Butler University, 2015

Jason Goldsmith, associate professor of English. BA University of Michigan, 1991; MA University of Virginia, 1999; PhD ibid., 2004

Mary Gospel, senior clinical faculty and department chair, Communication Sciences and Disorders. BA Indiana University, 1981; MA ibid., 1982; PhD ibid., 1990

Peter Grossman, professor of economics, Efroymson Chair of Economics. BA Columbia University, 1970; MA Washington University, 1990; PhD ibid., 1992

Samuel L. Gurevitz, associate professor of health sciences. BS Butler University, 1978; PharmD Purdue University, 1999

Ankur Gupta, associate professor of computer science and software engineering. BS University of Texas–Dallas, 2000; MS ibid., 2000; PhD Duke University, 2007

Janice Gustafro, catalog librarian and assistant professor. BS Northwestern University, 1981; MLA Ohio State University, 1991; MLS Indiana University Purdue University Indianapolis, 2004

Jennifer R. Guthrie, assistant professor and director of experiential education in the health sciences program. BS Xavier University, 1998; BSHS Butler University, 2000; MPAS University of Nebraska Medical Center, 2014

Xianming Han, professor of physics and astronomy. BS University of Science and Technology of China, 1982; MS University of Colorado, 1986; PhD ibid., 1989

Paul R. Hanson, professor of history. BA Stanford University, 1974; MA University of California–Berkeley, 1976; PhD ibid., 1981

Allison Harthcock, associate professor of communication. BA Missouri Southern State College, 1993; MA Bowling Green State University, 1994; PhD University of Missouri, 2003

Cathy Hargrove Hartman, instructor in education. BS Butler University, 1997; MS Indiana Wesleyan University, 2002

Nathanael R. Hauck, assistant professor of biological sciences. BS Cornell University, 1998; PhD Michigan State University, 2004

Sunny Hawkins, BA, Southern Illinois University, 2001; MA, Southern Illinois University, 2004; PhD, Southern Illinois University, 2007

Brent A. Hege, instructor of religion, Center for Faith and Vocation scholar in residence. BA Gettysburg College, 1998; MA Lutheran Theological Seminary at Gettysburg, 2001; PhD Union Theological Seminary and Presbyterian School of Christian Education, 2007

John Herr, visiting assistant professor of mathematics. BS Creighton University, 2011; PhD Iowa State University, 2016.

Lisa Hines, instructor in management. BS Western Kentucky University, 1982; MBA Indiana University, 1986

Arthur Hochman, professor of education. BA University of Illinois, 1979; MA Lesley College, 1981; EdM Columbia University Teachers College, 1987; EdD ibid., 1989

Kristen Hoerl, associate professor of communication. BA Pennsylvania State University, 1997; MA University of Texas–Austin, 2000; PhD ibid., 2005

Angela Hoftetter, co-director, first-year seminar program and instructor in English. MA Indiana University, 1997; PhD ibid., 2009

Karen Holmes, instructor in mathematics. BA St. Olaf College, 1992; MS University of North Carolina, 1995; PhD North Carolina State University, 1999

Weimin (Conrad) Hong, assistant professor of pharmaceutical sciences. BS Fudan University (China), 1995; PhD George Washington University, 2002; postgraduate, Johns Hopkins Medical Institutions, 2004

Geoffrey C. Hoops, professor of chemistry. BA Grinnell College, 1989; PhD University of Michigan, 1995

Todd Hopkins, associate professor of chemistry. BS University of North Carolina–Wilmington, 1991; PhD University of Virginia, 1997
Jay Howard, dean, College of Liberal Arts and Sciences, and professor of sociology. Acting Dean, College of Communication. BA Indiana University–South Bend, 1988; MA University of Notre Dame, 1990; PhD ibid., 1992

Barbara Howes, science librarian and associate professor. BA Indiana University, 1974; MLS ibid., 1975; MBA Butler University, 1986

Todd W. Hrubey, associate professor of pharmaceutical chemistry and biochemistry. BS Muskingum College, 1982; PhD University of Nebraska–Lincoln, 1987; postgraduate, Indiana University School of Medicine, 1990

Antwain K. Hunter, assistant professor of history. BA Westfield State University, 2007; MA University of Connecticut, 2009; PhD Pennsylvania State University, 2014

Michelle Jarvis, associate provost and professor of dance. BA Butler University, 1973; MA ibid., 1976

Jill Ellen Jay, instructor in education. BA Purdue University, 1977; MA Ball State University, 1979; MS Butler University, 2004; PhD Indiana State University, 2011

Rasitha Jayasekare, assistant professor of actuarial science. BSc Rajarata University of Sri Lanka, 2004; MSc University of Sri Jayewardenepura (Sri Lanka), 2008; MA University of Louisville, 2011; PhD ibid., 2013

Terri R. Jett, associate professor of political science. BA California State University–Hayward, 1991; MPA ibid., 1994; PhD Auburn University, 1998

Nicholas Johnson, associate professor of music. BA Truman State University, 2004; MA University of Maryland, 2006; PhD Ohio State University, 2012

R. Jeremy Johnson, associate professor of chemistry. BS Messiah College, 2002; PhD University of Wisconsin–Madison, 2007

Brenda Johnston, assistant professor of arts administration. BA University of Wisconsin, 2002; MA Carnegie Mellon University, 2013

William W. Johnston, department chair and professor of mathematics. BS Wake Forest University, 1982; PhD University of Virginia, 1988

Rusty Jones, associate professor of music. BA Florida State University, 1994; MM University of Texas–Austin, 1996; MM University of Akron, 1998; PhD Indiana University, 2004

Joseph K. Jordan, associate professor of pharmacy practice. BGS Indiana University, 1996; BA Purdue University, 1998; MS ibid., 1999; PharmD Midwestern University, 2003; postgraduate, St. Vincent Hospital, 2004; residency, Clarian Health Partners, 2005

Carolyn M. Jung, assistant professor of pharmacy practice. PharmD Purdue University, 2009; residencies, Wishard Health Services/ Purdue University, 2010, Community Health Network/Butler University, 2011

Brooke Kandel-Cisco, chair of graduate learning and teaching teams and associate professor of education. BA Goshen College, 1997; MEd University of Houston, 2002; PhD Texas A&M University, 2009

Scott Kaschner, assistant professor of mathematics. BS University of Akron, 2003; MS ibid., 2008; PhD Purdue University, 2013

Jim Keating, instructor in English. BA Ball State University; MA Butler University, 1981; MBA Butler University, 2003; EdD Graduate Theological Foundation at Oxford, 2004

Randi Keeling, instructor in finance. BS Miami University, 1980; MBA Xavier University, 1993

Thomas Keller, professor of education. MS in School Counseling. BA University of Northern Iowa, 1977; MA ibid., 1980; EdD ibid., 1997

Anne Kelly, associate professor of accounting. BBA University of Cincinnati, 1977; MBA ibid., 1981; PhD ibid., 1986

Mary Katherine Kelton, associate professor of music. BS University of Alabama, 1982; BM ibid., 1983; MM University of Texas–Austin, 1985; DMA ibid., 1992

Laurence A. Kennedy, associate professor of pharmacy administration. BS Massachusetts College of Pharmacy, 1976; MS University of Georgia, 1982; PhD ibid., 1985

Suneeta Kercood, professor of education. BA Osmania University (India), 1990; MA Annamali University (India), 1992; PhD Purdue University, 2000, BCBA-D, 2011

Barry E. King, associate professor of management. BA University of Missouri, 1968; MS Washington University, 1971; PhD Indiana University, 1979

Jill Kirby, assistant professor in risk management and insurance. BS University of Michigan, 1989; MSF DePaul University, 2004; MS University of Kentucky, 2008; PhD ibid., 2010

Joseph L. Kirsch, John Hume Reade Professor in the Sciences, professor of chemistry and program director, Engineering Dual Degree Program. BS Butler University, 1964; MA University of Illinois, 1966; PhD ibid., 1968

Theresa Knipe, instructor in education. BS Ball State University, 1990; MS Indiana University, 1995

Chad A. Knoderer, associate professor of pharmacy practice and director for clinical and health outcomes research. PharmD Butler University, 1999; residency, Clarian Health Partners, Riley Hospital for Children, 2001

Julia M. Koehler, associate dean for clinical education and external affiliations and professor of pharmacy practice. PharmD Purdue University, 1997; residency, Indiana University, 1998
Robert Koharchik, associate professor of theatre. BS Ball State University, 1990; MFA Boston University, 1993

Dan W. Kosik, associate professor of physics and astronomy. BS Michigan State University, 1973; PhD Ohio University, 1980

Jennifer R. Kowalski, associate professor of biological sciences. BS University of Notre Dame, 2000; PhD Harvard University, 2006

Mary Krohn, instructor in mathematics. BS Mary Washington College, 1997; MS Clemson University, 1999; PhD ibid., 2004

Lynee A. Kvipil, assistant professor of classics. BA University of Iowa, 1998; MA University of Arizona, 2001; MA University of Cincinnati, 2004; PhD ibid., 2012

Larry Lad, associate professor of management. BS Michigan State University, 1974; MBA Boston University, 1981; PhD ibid., 1985

Stephan Laurent, professor of dance. BFA Southern Methodist University, 1974; MFA ibid., 1979

Duane Leatherman, associate professor of mathematics. BA Anderson College, 1968; MA Ball State University, 1975; MA ibid., 1981

Debra Lecklider, associate dean and professor of education. BS Ball State University, 1977; MS Indiana University, 1995; PhD Indiana State University, 2004

Andrew Gordon Levy, department chair, Edna Cooper Professor of English. BA Brown University, 1984; MA Johns Hopkins University, 1986; PhD University of Pennsylvania, 1991

Lindsay K. Lewellyn, assistant professor of biology. BS University of North Carolina—Chapel Hill, 2003; PhD University of California—San Diego, 2010

Gail Lewis, associate professor of music. BM Capital University, 1985; MM Eastman School of Music, 1987; DMA University of Wisconsin—Madison, 1995

Shannon Lieb, professor of chemistry. BS Lock Haven State College, 1970; PhD Purdue University, 1980

Tara T. Lineweaver, professor of psychology and director, neuroscience minor. BA Butler University, 1991; MS Georgia Institute of Technology, 1994; PhD San Diego State University/University of California—San Diego, 1999

Panagiotis K. Linos, professor of computer science and software engineering. BS University of Athens, 1975; MS Wayne State University, 1985; PhD ibid., 1990

Thomas Litkowski, instructor in economics. BA Salisbury State College, 1973; MA American University, 1979; CFP Curriculum, American College, 1999

Xiaoping Liu, associate professor of Chinese. BA Yantai Teachers College (China), 1992; MA Tianjin Foreign Studies University (China), 2001; MA University of Massachusetts–Amherst, 2004; PhD University of South Carolina—Columbia, 2009

Elisa Lucchi-Rieser, instructor in Spanish. BA University of Rome, 2001; MAT Indiana University Purdue University Indianapolis and Salamanca University (Spain), 2007

Angela Lupton, assistant dean and instructor in elementary education. BS Butler University, 1992; MS Butler University, 2001

Allyson Lurker, instructor in accounting. BS Butler University, 1997; JD Indiana University 2002

Alessandra Lynch, poet-in-residence and instructor in English. BA Sarah Lawrence College, 1986; MFA University of Iowa, 1988

Robert D. Mackey, professor of marketing. BA University of Illinois, 1975; MBA University of California—Berkeley, 1981; PhD Michigan State University, 1994

Carrie M. Maffeo, associate professor of pharmacy practice and director of health education center. PharmD Butler University, 1997; residency, University of Southern California, 1998

Sakthi Mahenthiran, Carl Doty Professor of Accounting. MBA Temple University, 1989; PhD ibid., 1991

Joel M. Martin, chair and professor of psychology. BS University of Pittsburgh, 1993; MS University of Memphis, 1998; PhD ibid., 2000

Chioniso Patience Masamba, assistant professor of pharmaceutical sciences. BS University of Zimbabwe, 2000; MS Indiana University of Pennsylvania, 2004; PhD University of Oklahoma, 2010; postgraduate, University of Texas Health Sciences Center, 2015

Matt Maurer, professor of education. BS Iowa State University, 1979; MS ibid., 1983; PhD ibid., 1991

Meredith L. McAllister, associate professor of education. BA Albion College, 1997; MA Western Michigan University, 2001; MA ibid., 2002; PhD Indiana University, 2004

Jennifer (Quinn) McCann, assistant professor of pharmacy practice. PharmD Duquesne University, 2000; residencies, Clarian Health Partners, Indianapolis, 2001, 2002

Marleen McCormick, assistant professor of management. BA Bryant University, 2000; MS University of Colorado—Denver, 2006; PhD University of Illinois–Urbana-Champaign, 2013

Siobhán McEvoy-Levy, professor of political science. BA The Queen’s University of Belfast, 1991; MPhil University of Cambridge, 1992; PhD ibid., 1998

Annette T. McFarland, assistant professor of pharmacy practice. PharmD Butler University, 1998; residency, St. Vincent Hospital, Indianapolis, 1999

Susan McGuire, professor of dance

Jim McKneight, instructor in management and business law. BS Purdue University, 1982; JD Indiana University, 1985

Loni Smith McKown, professional practice faculty in communication. BA Wheaton College, 1976; MS Northwestern University, 1977

LuAnne McNulty, department chair and professor of chemistry. BS Furman University, 1993; University of South Carolina, 1993–1995; PhD University of Virginia, 1999

Daniel McQuiston, associate professor of marketing. BS Indiana University, 1973; MBA Bowling Green State University, 1979; PhD Ohio State University, 1985

Wendy Meaden, professor of theatre. BA Bates College, 1986; MFA Indiana University, 1991

Marva Meadows, instructor in biology. ScB Brown University, 1981; MS Washington University, 1984; ABD Rutgers University

Mauricio Melgarejo, assistant professor of accounting. BS Military School of Engineering (La Paz, Bolivia), 1999; MBA INCAE Business School (Alajuela, Costa Rica), 2003; PhD Purdue University, 2011

Laurie Meaden, health sciences librarian and assistant professor. BA Denison University, 2010; MLS University of North Carolina—Chapel Hill, 2011

Antonio V. Menendez, professor of sociology and criminology. BA Université de Paris, 1978; MA ibid., 1983; PhD University of Notre Dame, 1991

Kristi Mitchell, instructor in management. BS Ball State University, 1993; MBA ibid., 1995

NaShara Mitchell, instructor in entrepreneurship. BS DePauw University, 2001; MS Indiana University, 2006; JD ibid., 2010

Richard Kent Mitchell, master practitioner in education. BS Indiana University, 1984; MS Purdue University, 1996

Elizabeth Mix, professor of art. BA University of Minnesota, 1990; MA ibid., 1991; PhD ibid., 1994

Courtney Elkin Mohler, assistant professor of theatre. BA University of California-Los Angeles, 2002; PhD ibid 2007

Jessica Moore, assistant professor of communication. BS University of North Texas, 1995; MA ibid., 1997; PhD University of Texas–Austin, 2007

Michele Moore, assistant professor of health sciences.

Paul Morgan, instructor in chemistry. BS California University of Pennsylvania, 1993; PhD University of Pittsburgh, 2006

Kathryn A. Morris, provost and professor of psychology. BA Gettysburg College, 1992; MA University of Texas–Austin, 1994; PhD ibid., 1996

Fait Muedini, associate professor of international studies. BA Wayne State University, 2004; MA American University School of International Service, 2006; PhD State University of New York–Buffalo, 2010

James Mulholland, professor of music. BS Louisiana State University, 1957; MM ibid., 1959

Gabriela Muniz, associate professor of Spanish. BA Universidad del Comahue (Argentina), 1996; MA Texas A&M University, 2000; PhD University of California–Davis, 2006

Brian W. Murphy, professor of physics and astronomy and director, J.I. Holcomb Observatory and Planetarium. BS University of Iowa, 1982; MA Indiana University, 1985; PhD ibid., 1988

David Murray, professor of music. BM Hartt School of Music, 1980; MM West Texas State University, 1987

Sally Neal, associate dean for public services and associate professor. BA Indiana University, 1988; MLS ibid., 1993

Stephen Nelson, instructor in management information systems. BS Purdue University, 1974; MBA Indiana University, 1988

Kristen R. Nichols, associate professor of pharmacy practice. PharmD Butler University, 2009; residencies, IU Health and IU Health Riley Hospital for Children, 2010

Robert E. Norris, instructor in communication. BA Indiana University Purdue University Indianapolis, 1978; MA ibid., 2003

Katherine B. Novak, professor of sociology and criminology. BA Indiana University, 1987; MA ibid., 1991; PhD ibid., 1997

Steve Nyktas, assistant professor, art program. BFA Albion College, 2002; MA Purdue University, 2004; MFA Northwestern University, 2007

Angela V. Ockerman, associate professor of pharmaceutical sciences. BS Butler University, 1990; PharmD Shenandoah University, 2008

Brandie Oliver, associate professor of education. BA Butler University, 1996; MS ibid., 2007; EdD Argosy University, 2012

Su-Mei Ooi, associate professor of political science. BL University College London, 1998; MA National University of Singapore, 1999; PhD University of Toronto, 2010
Gonzalo Ordonez, department chair and associate professor in physics and astronomy. BS Monterrey Institute of Technology, 1991; PhD University of Texas–Austin, 1997

Stacy O'Reilly, professor of chemistry. BA Transylvania University, 1991; PhD University of North Carolina–Chapel Hill, 1996

Gregory E. Osland, professor of marketing. BS Iowa State University, 1974; MBA University of Colorado, 1982; PhD Michigan State University, 1993

Margaret Padgett, department chair and associate professor of management. BA Hanover College, 1981; MBA Michigan State University, 1988; PhD ibid., 1988

Robert J. Padgett, professor of psychology. BA Hanover College, 1983; MA Wayne State University, 1986; PhD ibid., 1989

Sarah Painitz, assistant professor of German. BA Muhlenberg College, 1997; MA University of Virginia, 2001; PhD ibid., 2007

Catherine Pangan, associate professor of education. BS Indiana State University, 1995; MS Butler University, 1999, EdD Columbia University Teachers College, 2007

Thomas Paradis, associate provost and professor of history. BS Pennsylvania State University, 1992; MA University of Illinois–Urbana-Champaign, 1994; PhD ibid., 1997

Sheel M. Patel, assistant professor of pharmacy practice. BSS Philadelphia College of Pharmacy, 1998; PharmD ibid., 1999; residency, University of Pittsburg Medical Center, 2000

Amy S. Peak, associate professor, director of undergraduate health sciences program. PharmD Butler University, 1997; residency, St. Vincent Hospitals and Health Services, 1998

Armando Pellarano, instructor in strategic communication. BA Southern Illinois University–Carbondale, 1988; MS Indiana University IUPUI campus, 2002

Josh Petrusa, associate dean for technical services and assistant professor. BA DePaul University, 2004; MLIS University of Illinois, 2007

Matthew Pivec, associate professor of music. BM University of Wisconsin–Eau Claire, 2000; MM Eastman School of Music; 2003; DMA ibid., 2006

Jennifer L. Poor, associate dean for student affairs, College of Liberal Arts and Sciences, and senior instructor in physics and astronomy. BA Wittenberg University, 1982; MS College of William and Mary, 1984; PhD ibid., 1991

Tiberiu Popa, associate professor in philosophy. Licentiate University of Bucharest, 1994; MA ibid., 1995; PhD University of Pittsburgh, 2005

Cynthia Pratt, professor of dance. BA Virginia Intermont College, 1979; MFA Temple University, 1989

Peter Prescott, associate professor of business law. BA Augustana College, 1992; MS University of Chicago, 1993; MPA University of Texas–Austin, 1999; JD University of Houston Law Center, 2006

Robert Pribush, professor of chemistry. BS University of Delaware, 1968; PhD University of Massachusetts, 1972

Julie Quigley, instructor in management. BA Indiana University, 1999; MS Butler University, 2003

Brenda L. Quincy, associate professor of health sciences. BS University of Wisconsin, 1988; M.P.H., The George Washington University, 2004; PhD College of Health Sciences, Cypress, California, 2010

Alex JR Quintanilla, department chair, Modern Languages, Literatures, and Cultures, and associate professor of Spanish. BS University of El Salvador, 1997; Maestría, Real Academia Española (Spain), 2001; MA West Virginia University, 2004; PhD University of Florida, 2009

Mark Rademacher, associate professor of communication. BS University of Tennessee, 2000; MA University of Wisconsin–Madison, 2005; PhD ibid., 2009

Cathy M. Ramey, assistant professor of pharmacy practice. BS Purdue University, 1997; PharmD University of Florida, 2008

John D. Ramsbottom, professor of history (visiting). BA Williams College, 1974; BA Oxford University, 1976; PhD Yale University, 1987

Darin C. Ramsey, associate professor of pharmacy practice. BS Western Kentucky University, 1996; PharmD Butler University, 2002; residencies, Roudebush VA Medical Center, Charian Health Partners, 2003, 2004

Jason T. Range, assistant professor of pharmacy practice. BA Michigan State University, 1982; JD University of Detroit, 1985; MEd Wayne State University, 2003; PhD ibid., 2011

Gautam Rao, associate professor of art. BFA Boston University, 1999; MFA University of Pennsylvania, 2002

Suzanne Reading, associate dean, College of Communication, and professor in communication sciences and disorders. BA Augustana College, 1969; MS University of Michigan, 1970; PhD University of Maryland, 1976

Carrie M. Rector, professional practice faculty in communication. BA Indiana University, 1999; MS Indiana University, 2011

Carol A. Reeves, Rebecca Clifton Reade professor of English. BA Texas Tech University, 1980; MA ibid., 1985; PhD Texas Christian University, 1989
David J. Reeves, associate professor of pharmacy practice. Wayne State University, 2006; residencies, William Beaumont Hospital, Royal Oak, MI, and Karmanos Cancer Center, Detroit, 2007, 2008

Derek Reid, associate professor of dance. BA Butler University, 1987; MA Gonzaga University, 2014

Jennifer Rice, assistant professor of economics. BS Manchester College, 1996; MA Western Michigan University, 1997; MA Indiana University, 2000; PhD ibid., 2004

Carolyn Richie, associate professor of communication. BA University of Western Ontario, 1997; MSc Edinburgh University, 1998; PhD Indiana University, 2004

William Rieber, professor of economics. BA Duquesne University, 1971; MBA ibid., 1974; PhD University of Pittsburgh, 1979

Larry W. Riggs, professor of French. BA University of California–Santa Barbara, 1967; MA ibid., 1969; PhD ibid., 1976

Juan Pablo Rodríguez Prieto, assistant professor of Spanish. BA Universidad de Valladolid (Spain), 2002; MA West Virginia University, 2004; PhD University of Florida–Gainesville, 2009

Christopher Roman, assistant professor of health sciences. BS Xavier University, 2003; MA University of Illinois–Chicago, 2008; MMS Midwestern University, 2010

Laura F. Ruekert, associate professor of pharmacy practice. PharmD St. Louis College of Pharmacy, 2006; residency, University of Minnesota Medical Center, 2007
