

You are invited to participate in the Student Wellbeing Institutional Support Survey (SWISS), a partnership between your institution and the Institute for Wellbeing at Butler University. Your participation in this survey is completely voluntary.

SWISS asks you questions about how your experiences at your institution support various aspects of your wellbeing such as academic, social, mental and physical, and diversity. The survey should take about 15 minutes to complete.

Responses to this survey will be used by leaders at your school to improve institutional support for student wellbeing, as well as by researchers who are interested in how wellbeing is supported at campuses in the United States.

Your institution and the Institute for Wellbeing will make every effort to ensure confidentiality of your responses, though absolute confidentiality cannot be guaranteed. Individuals will never be identified in any public reports based on data from this study, but institution and government officials may inspect the data if required by law. Your participation will not impact your relationship or standing with your institution.

If you have any questions about this study or how collected data will be used, please contact Dr. Bridget Yuhas at byuhas@butler.edu for more information. For questions about your rights as a research participant or to discuss problems, complaints or concerns about a research study, or to obtain information, or offer input, contact the Butler Office of Sponsored Programs (OSP) at (317) 940-9766 or by emailing IRB@butler.edu.

If you agree to participate in SWISS, please click the I Agree button below.

If you decline to participate, please click the I Decline button.
