RE: Notice of IRB Protocol Approval

TITLE: Student Wellbeing Institutional Support Survey

SUBMISSION TYPE: Continuing Review – Annual Approval

---

On behalf of Butler's Institutional Review Board, I am pleased to inform you that your research has been approved for another year from the date of this memo through August 26th, 2023, at which time the IRB's approval will expire. This research is again approved under Expedited Category 7. Federal regulations require that the IRB provide approval of one year (365 days) or less. At or before the end of this time frame, you must submit a Continuing Review/Closure Form.

Please note the following conditions apply to all IRB approvals:

1. No subjects may be involved in any study procedure prior to the IRB approval date or after the expiration date.
2. All unanticipated or serious adverse events must be reported to the Office of Sponsored Programs within five (5) business days of the investigators becoming aware of the event. You should also suspend research and report to the Director unanticipated negative reactions, either physical or emotional, that occur as a direct result of research participation. Other relevant parties and supervisors should be informed, as well.
3. All protocol modifications must be IRB approved prior to implementation unless they are intended to reduce risk. This includes any change of investigator, or site address.
4. All protocol deviations must be reported to the IRB within five (5) business days of the investigators becoming aware of the event.
5. All recruitment materials and methods must be approved by the IRB prior to being used.

I offer my congratulations on your approval and wish you success on your research. Should you desire additional assistance or clarification, please email [irb@butler.edu](mailto:irb@butler.edu).
